GOVERNMENT OF BOMBAY

FOR THE YEAR

1891.—1892

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY.

Bombay:
PRINTED AT THE GOVERNMENT CENTRAL PRESS.
1892.

No. S.B. / 208 OF 1892.

FROM

THE SURGEON-GENERAL WITH THE
GOVERNMENT OF BOMBAY;

To

THE CHIEF SECRETARY TO GOVERNMENT,
General Department.

Bombay, 10th June 1892.

SIR,

I have the honour to submit my report on the civil hospitals and dispensaries in the Mofussil for 1891.

2. In accordance with Government orders, the summaries of the annual reports of medical officers and subordinates and of the medical schools are omitted from this year's report.

3. At the close of 1891 there were 217 pupils in the three Provincial Medical Schools, distributed as follows:—

Classes of Pupils.	POONA.				AHMEDABAD.				HYDERABAD.				TOTAL.			
	3rd Year.	2nd Year.	1st Year.	Total.	3rd Year.	2nd Year.	1st Year.	Total.	3rd Year.	2nd Year.	1st Year.	Total.	3rd Year.	2nd Year.	1st Year.	Total.
Native Military	11	7	8	26	3	5	4	12	..	..	1	1	14	12	13	39
Stipendiary	8	6	1	15	5	5	5	15	11	7	7	25	24	18	13	55
Native State	1	1	1	3	2	..	..	2	..	..	..	..	3	1	1	5
Paying	9	18	4	31	18	10	13	41	..	2	1	3	27	30	18	75
Civil Medical Pupils	4	14	6	24	4	6	4	14	1	1	2	4	9	21	12	42
Free Pupils	1	..	..	1	..	..	..	..	..	..	..	..	1	..	..	1
Total ..	34	46	20	100	32	26	26	84	12	10	11	33	78	82	57	217

4. The following estimates show the present prospects of recruiting the Military and Civil Hospital Assistants:—

(a)—Military Hospital Assistants.

Sanctioned strength, including 15 per cent. reserve ...		143
Actual strength on 31st March 1892		145
	Excess ...	2
In the medical schools will pass in 1892		14
Do. will pass in 1893		12
	Total ...	28

At 10 casualties per annum, 20 will be absorbed in 1893.

The 8 Native Military Pupils admitted at Poona and the 4 in Ahmedabad in 1891 should pass out in 1894; the excess then will be 20 if they all pass; but even allowing for failures at the examinations, the requirements of that year will probably be more than met.

There is a proposal before the Government of India to increase the strength of the Military Hospital Assistant class to 160, and if this be sanctioned, the present excess will be absorbed at once. More than the excess is employed in the Civil Department, Burmah.

(b)—Civil Hospital Assistants.

Sanctioned strength		258
20 per cent. reserve		52
	Total ...	310
Present strength		274
	Deficiency ...	36

It is estimated the three medical schools will supply the following numbers:—

	1892.	1893.
Poona	12	20
Ahmedabad	9	11
Hyderabad	12	8
Total ...	33	39

Taking the casualties at 15 per annum, and allowing for failures at the school examinations, the sanctioned strength may be reached about the end of 1893.

5. The teaching staff remained unchanged during the year at Hyderabad. At Poona, Surgeon-Lieutenant-Colonel J. Davidson was Superintendent up to the 20th January 1891; Brigade-Surgeon-Lieutenant-Colonel D. E. Hughes from 21st January 1891 to 24th April 1891; Surgeon-Captain W. H. Burke acted as Superintendent, in addition to his own duties, temporarily from 25th April 1891 to 13th May 1891; Surgeon-Lieutenant-Colonel W. McConaghy was Superintendent from 14th May 1891 to 12th November 1891; and Brigade-Surgeon-Lieutenant-Colonel D. E. Hughes resumed charge of his duties from 13th November 1891 and was there up to the end of the year. At Ahmedabad, Surgeon-Major M. L. Bartholomeusz was there up to the 25th August 1891; and Surgeon-Captain W. H. Quicke acted as Superintendent from 26th August 1891 to 25th November 1891 during the absence of Surgeon-Major Bartholomeusz on leave, who resumed his duties as Superintendent from 26th November 1891, and was there up to the end of the year.

6. On the tables of figures which form Appendix I, I beg to offer the following remarks:—

Statement No. I shows the classifications of hospitals and dispensaries in the Bombay Presidency, excepting those in the City of Bombay. On 1st January 1891 there were 241 institutions open; 2 new ones, *viz.*, Nassarwánji Mánekji Dispensary at Váda and Cháchra Dispensary in the Thar and Párkar District in Sind, were opened during the year; and Darashaw Municipal Dispensary at Sholápur is shown in the returns for the first time although open for some years back. These make up the total to 244 at the end of the year.

Statement No. II gives the number of patients treated. The total treated was 1,732,858 against 1,626,887 in 1890. Of these, 27,777 were in-door and 1,705,081 out-door patients as compared with 25,957 and 1,600,930 respectively in the previous year. Of the in-door patients 19,428 were cured, 2,113 relieved, 1,930 discharged otherwise, and 1,586 died, giving a death-rate of 5·7 per cent. to the total treated, or 0·1 more than in the previous year. The daily average sick was 1,229·2 (men 987·0, women 164·2 and children 78·0) against 1,205·5 in the previous year. Of the out-door patients, 1,547,925 attended personally and 157,156 were represented by friends. The average daily attendance was 17,095·2 against 16,484·7 in 1890. 315,934 were treated in the civil hospitals and 1,416,924 in the dispensaries as compared with 393,280 and 1,323,436 respectively in the preceding year. The total number of beds was 2,850—for males 2,019 and for females 831—against 2,795 in 1890.

Statement No. III shows the diseases for which the patients were treated. There were 155 cases of small-pox against 233 in the preceding year. The Deccan gave the largest number of cases, *viz.*, 138. Cholera contributed 2,131 cases, of which 95·2 per cent. were treated in the Deccan alone. In the previous year the cholera cases amounted to 662. Dysentery returns 25,396 cases or 1·4 per cent. to the total treated against 25,064 or 1·5 per cent. respectively in the previous year. Malarial fevers gave, as usual, the largest number of admissions, *viz.*, 311,263 or 17·9 per cent. to the total treated, showing an increase of 32,255 or 0·8 per cent. over the previous year. Of these, 28·6 per cent. were in the Konkan, 11·6 in the Deccan, 20·8 in Gujarát, 20·6 in Sind and 31·4 in the foreign institutions against 25·5, 11·2, 19·8, 21·1 and 26·0 respectively in the previous year. Venereal diseases numbered 30,058 or 1,327 more than in 1890. Of these, primary syphilis contributed 6,330, secondary syphilis 9,779, gonorrhœa 9,624, and other venereal affections 4,325. Worms gave 170,212 cases or 9·8 per cent. to the total treated as compared with 162,723 or 10·0 per cent. in the previous year. As usual they were most prevalent in the Konkan and the Deccan, particularly in the Southern Marátha Country—12·0 per cent. in the former and 15·5 in the latter. 1,063 cases of leprosy [illegible]

treated against 1,008 in the previous year, and 47,031 cases of rheumatic affections as compared with 44,260 in 1890. Diseases of the eye and ear give 198,551 and 64,645 or 11·4 and 3·7 per cent. to the total treated against 169,511 and 65,668 or 10·4 per cent. and 4·0 per cent. respectively in the preceding year. There were 39,044 cases of diarrhœa or 1,909 more than in the previous year. Skin diseases return 200,151 cases or 11·5 per cent. to the total treated as compared with 201,448 or 12·3 per cent. in 1890. In the Konkan the percentage was 9·9, Deccan 11·2, Gujarát 14·3, Sind 9·0 and in the foreign institutions 5·7. In the previous year it was 10·2, 12·4, 15·1, 9·2 and 5·7 respectively.

Statement No. III-A. gives the major surgical operations performed during the year, with their results. On 1st January 1890 there remained 95 cases under treatment which had undergone operations, and 3,556 were performed during the year, giving a total of 3,651 or 39 less than in the previous year. Of these, 3,077 were cured, 256 relieved, 70 discharged otherwise, 102 ended fatally and 84 remained under treatment at the close of the year. The result of 62 operations performed on out-door patients being unknown were not recorded. 2,259 were performed in the civil hospitals and 1,392 in the dispensaries. The operations on the urinary organs stand first on the list, having 906 cases with 36 deaths. Next in order follow operations on the organs of locomotion with 696 cases and 6 deaths; opening of abscesses gave 415 cases with 10 deaths; removal of tumours from parts 354 cases and 6 deaths; operations on the eye and its appendages 308 cases; amputations 208 cases and 14 deaths. The total number of minor operations was 77,882 against 71,916 in 1890.

Statement No. IV shows the sex and caste of the patients. The following tables give the ratio per cent. of men, women and children and of castes as compared with the previous year:—

	Men.		Women.		Children.	
	1890.	1891.	1890.	1891.	1890.	1891.
Konkan	45·7	46·5	21·1	20·2	33·2	33·3
Deccan...	43·4	44·0	17·2	18·6	39·4	37·4
Gujarát	44·3	45·5	21·3	23·4	34·4	31·1
Sind	54·3	56·3	15·8	16·9	29·9	26·8
Foreign	61·5	66·8	20·3	16·5	18·2	16·7
	47·7	47·0	20·1	20·0	32·2	33·0

	1890.	1891.
Hindus	68·8	68·8
Mahomedans	26·0	26·0
Native Christians	2·4	2·4
Pársis	1·6	1·5
Europeans	0·3	0·3
Eurasians	0·1	0·1
Other castes	0·8	0·9

From the above it will be seen that the percentages of castes were almost exactly the same in the years 1890 and 1891.

Statement No. V., Part I, shows the income and expenditure of the charitable dispensaries in the Mofussil during the year. The total income was Rs. 4,71,444-10-0 as compared with Rs. 4,67,163-2-4 in the previous year, but of this sum Rs. 1,05,445-1-2 was cash balance on 1st January 1891. *Rs. 1,31,207-4-11 were received from Government*, Rs. 75,001-3-5 from Local Funds, Rs. 1,13,585-15-7 from the Municipalities, and Rs. 16,816-7-9 from miscellaneous receipts, such as hospital stoppages, sale of unserviceable articles, &c., against Rs. 1,26,161-7-6, Rs. 72,457-4-6, Rs. 1,06,408-9-10 and Rs. 16,724-15-9 respectively in 1890. Interest on invested capital yielded Rs. 20,247-13-9 as

compared with Rs. 16,938-14-7 in the previous year. Rs. 500 were drawn out of deposits against Rs. 4,000 in 1890. Rs. 8,640-11-5 were received as subscription from Europeans and Natives, or Rs. 4,390-3-4 less than in the previous year, the decrease being due to the contributions from General Fund, Wadhwán Station Fund and B. B. & C. I. and Morvi Railways, &c., to the Wadhwán Dispensary having been shown this year in the column "from other miscellaneous sources" instead of that headed "Subscriptions" as was done in last year's report. The total expenditure was Rs. 3,45,344-9-10 against Rs. 3,56,876-1-0 in 1890. After deducting Rs. 3,335-11-5 on account of hospital stoppages, sale of unserviceable articles, &c., remitted to the treasury, and Rs. 13,100 invested during the year from the total expenditure, the net cost was Rs. 3,28,908-14-5 as compared with Rs. 3,39,198-13-6 in 1890. There is a decrease in all items of expenditure except establishment. The average cost of each diet was Re. 0-2-1 and the cost per patient Re. 0-4-5 as compared with Re. 0-2-1 and Re. 0-4-11 respectively in the previous year. In the Konkan the cost per patient was Re. 0-5-7, in the Deccan Re. 0-3-7, in Gujarát Re. 0-4-2, in Sind Re. 0-4-10, and in the foreign institutions Re. 0-14-6 as compared with Re. 0-6-7, Re. 0-3-11, Re. 0-4-8, Re. 0-5-2 and Re. 0-14-5 respectively in 1890. The percentage of total cost paid by Government was 39·8 against 37·2 in 1890. If the cost of the Native State Dispensaries be added, the percentage paid by Government would be 34·0.

The following discrepancies have been found between the closing balances of 1890 and the opening balances of 1891 :—

	Balance on 31st December 1890.	Balance on 1st January 1891.	Remarks.
	Rs. a. p.	Rs. a. p.	
Kumta Dispensary... ...	1,559 7 9	559 7 9	This balance is correct. Rs. 1,000, which were invested in 1889, were shown as cash balance.
Shevgaon do.	323 2 0	476 15 5	The latest balance is correct as given by the Huzúr Deputy Collector.
Trimbak do.	377 14 5	1,127 14 5	The latest balance given is correct, and the one given in last return is incorrect.
Sávda do.	745 13 1	728 7 1	The Hospital Assistant submitted the correct balance on 31st December 1890 after the proofs of the report for that year were struck off.
Bársi do.	3,856 14 6	.....	The balance on 31st December 1890 was returned to the Municipality, as no separate account of the dispensary is kept. What is required is paid by the Municipality.
N. M. Petit Dispensary, Khairgaon.	604 5 6	321 3 9	The latest balance is correct. The value of Europe medicines paid in 1890 was not shown on the expenditure side.
A'nand Dispensary ...	316 6 0	320 14 4	The Treasury Officer, Kaira, gave the latest balance, and it is correct.
Baichardás Dispensary, Ahmedabad.	110 15 3	.....	The balance of Rs. 110-15-3 reverted to the Municipality.
Bachubái Edulji Dinsha Dispensary, Keamari.	492 13 7	306 2 7	The balance on 1st January 1891 is correct.
Kashmor Dispensary ...	607 5 4	311 15 11	The medical subordinate was not aware of the sum invested, and hence the mistake.

Statement No. V, Part II, gives the account of invested capital. In the beginning of the year, the balance was Rs. 4,34,600, Rs. 13,100 were invested during the year, giving a total of Rs. 4,47,700. Rs. 500 were sold, leaving a balance of Rs. 4,47,200 at the close of the year.

7. The following works were executed and paid for from the "discretionary grant," at my disposal, during the year 1891 :—

	Rs.
Erecting walls and railings to divide the hall of the civil hospital, Karáchi, into 3 compartments, *viz.*, a hall proper, a room for dispensary and dressing patients, and an office	370
Erecting verandah for the use of the police guards in front of the lunatic cells at the Ripon Hospital, Ahmednagar	186
Making bath-rooms (one for males and the other for females) for the use of in-patients at the Ripon Hospital, Ahmednagar ...	65
Supplying the medical store-room with shelves at the civil hospital, Thána	146
Providing ventilators in the female and eye wards of the West Hospital, Rájkot	132
Providing shelves in the mortuary at the West Hospital, Rájkot ...	30
Constructing quarters for one female ward servant at the civil hospital, Sholápur	500
Paving with stone the floors of the police and female wards at the civil hospital, Broach	412
Building new latrines detached from the other out-houses at the civil hospital, Thána	300
Bath-rooms, one for males and one for females, at the civil hospital, Thána	493
Fixing doors to 2 cook-rooms of the civil hospital, Ratnágiri ...	30
Fixing rain-guage in the compound of the civil hospital, Ahmedabad	46
Constructing latrines in the Khán Bahádur Pestonji Sorábji Charitable Dispensary at Poona	80

8. The dispensary buildings at the following places are said to be in bad repair or unsuitable, but they all meet their objects in a way, and it will probably be many years before these imperfect buildings can be replaced by dispensaries built on the standard plans :—

Uran.	Mhasvad.	Kotri.
Panvel.	Pandharpur.	Lyári.
Akola.	Gokák.	Keti Bandar.
Sinnar.	Chikodi.	Tháno Bulákhán.
Nandurbár.	Khánápur.	Manora.
Shirpur.	Hubli.	Tando Alahyar.
Bhadgaon.	Bárdoli.	Cháchra.
Pimpalner.	Ránder.	Mehar.
Sháháda.	Kheirgaon.	Kashmor.
Navápur.	Nadiád.	

9. The dispensary committees have not inspected the dispensaries at Junnar, Trimbak and Kálol even once in the year. I may add the first two dispensaries were not visited by the committees in the previous year also.

10. As ordered by Government Resolution No. 4389, dated 19th December 1891, General Department, I place Statement No. V, Part I, for the Mofussil civil hospitals in the body of the report, in order to keep it quite separate from the similar statement for charitable dispensaries.

Do. ,, 17,324 2-5 do. do. &c., &c., remitted to the Treasury, and Rs. 473-6-7 (unexpended balance at the close of th official year at the Ratnágiri Leper Asylum) lapsed to Government.

In the above table, civil hospitals at Muskat and Bushire have been omitted, as their expenditure is met from Imperial Funds.

The total income of the Mofussil civil hospitals was Rs. 4,11,019-11-7 as compared with Rs. 4,19,543-4-1 in the previous year. Of this, the balance at the beginning of the year was Rs. 8,087-12-3 against Rs. 9,532-12-11 in 1890. The sum received from Government was Rs. 3,55,822-4-6 as compared with Rs. 3,75,963-6-7 in the preceding year. Local Funds contributed Rs. 8,205-7-1 and the Municipalities Rs. 24,904-8-11 against Rs. 8,062-15-3 and Rs. 12,181-9-2 respectively in 1890. Miscellaneous receipts, such as hospital stoppages, sale of unserviceable articles, &c., amounted to Rs. 11,957-12-0, or Rs. 859-14-5 less than in the previous year. Interest on invested capital yielded Rs. 59-14-10, Rs. 1,982 were received as subscriptions from natives, or more than double the amount received last year. The total expenditure was Rs. 4,00,747-4-2 against Rs. 4,06,362-11-1 in 1890. After deducting the sum received on account of hospital stoppages, sale of unserviceable articles, &c., the net cost was Rs. 3,82,949-5-2, or Rs. 8,510-1-9 less than in the previous year. The cost of each diet was Re. 0-3-7, or the same as in 1890, and the percentage of cost paid by Government was 92·9 as compared with 96·0 in the preceding year. The cost per patient was Re. 1-8-11, or 2 annas less than in the previous year.

In the last year's report the Civil Surgeons of Sátára, Broach and Karáchi erroneously showed Rs. 549-11-6, Rs. 3,447-11-6 and Rs. 566-12-11, the unexpended portions of their budget allotment and contract grant, as balance on 31st December 1890, whereas there was actually no balance with them. The Assistant Surgeon at the Civil Hospital, Sádra, reports that the cash balance on 31st December 1890 was Rs. 669-7-7, and not Rs. 1,198-0-5, as was incorrectly shown in the last year's report owing to an error in the amount of subscriptions.

MY INSPECTION TOUR.

11. On the 4th June 1891 I inspected the dispensaries of Pánchgani and Wái. Both were in good repair and clean. Records, medicines and instruments in good order.

On the 8th I inspected the civil hospital of Sátára. Buildings clean and in good repair. Instruments in good order and carefully kept. Medicines sufficient. Records neatly written up to date. The present male ward is very long, and should be divided into 2 wards of about 14 beds each. It would be a very good thing if a building were erected on the plinth of the police ward that fell down some years ago. In it might be included a new police ward, a low-caste Hindu ward, and also an operating room lighted from the roof, and the present low-caste ward might be used for 2nd class servants' quarters, of which there are none, except for the servant of the low-caste ward. The latrines should be rebuilt.

On the 15th I inspected the Sassoon Civil Hospital, Poona, and found everything in good order. The new quarters for nurses were nearly completed. I visited this hospital on several other occasions.

On the 17th the Khán Bahádur Pestonji Sorábji Dispensary, Poona, was inspected. Some of the medicines had been exhausted, but the annual indent was nearly due. Records and instruments all in good order. The attendance was very large. I inspected the dispensary of the Roman Catholic Orphanage, Poona, on the 18th, and found it in good order.

On the 19th I inspected the hospital of the Yerrowda Central Jail. There were many cases of guineaworm. The medicines and records were in good order.

Having received a reference from Government, I went to see the Convalescent Home under construction at Khandála on the 8th November; it is a fine building, on a lovely site, with one of the grandest views from its verandahs I have ever seen. The purpose of the Home is to enable convalescents of the European General Hospital in Bombay to get a change of air. The building appears to me to be suitable for the object in view. On the same day I visited the G. I. P. Railway dispensary at Lonávla, to which Government give an annual grant of Rs. 600. Dr. Field informed me that a new and better dispensary is to be built shortly. There are 4 beds in a verandah room much too small for 4 persons, but there are very few in-patients; there was only 1 at the time of my visit. Considering the population and generally the importance of Lonávla as a railway workshop place, I think a new and better dispensary is urgently required.

On the 17th and 18th December I inspected "The Lord Harris Hospital" in Násik. This is a new hospital which was opened by His Excellency Lord Harris in August 1891. It has 42 beds. There is a detached infectious diseases house with 2 wards for male and female patients. This hospital is on a very good site and will meet the wants of the people admirably. I found every thing in good order; but it would be well to provide quarters for the second hospital assistant, and also a store-room for broken furniture, empty cases, bottles, &c.

inspected the civil hospital of Dhulia on the 22nd December. The compound was the buildings all in good repair and clean. The instruments and medicines were well for. The books correctly numbered, neatly written, and up to date. I was well fied with the result of my inspection. In the afternoon the jail hospital was inspected found in good order. Next day the municipal dispensary was inspected; it is a small e, in good order, but the hospital assistant in charge was behind with his returns.

On the 28th inspected the Ripon Hospital, Ahmednagar. The buildings are in good pair, compound clean, and the wards well arranged and very clean. Nearly all the beds were occupied. Some of the cases were very interesting. Several lithotomy operations were doing well. The books, instruments and medicines all in excellent order. Surgeon-Major Henderson takes a great interest in his work, and does it zealously.

On the 31st December I inspected the civil hospital of Sholápur. The Public Works Department has paved some of the wards and put up ceiling-cloths, which greatly improve the wards. Quarters for the ayah were being built. Two sheds for cholera patients have been constructed by the Municipality in the hospital compound at a cost of fully Rs. 1,000. The hospital compound and buildings are clean and in good repair. The wards well arranged. The stores, books, instruments and records all in good order. I was pleased with the result of my inspection. On the 1st January 1892 I inspected the 2 municipal dispensaries—one in the town of Sholápur and the other in the Sadar Bazár. Both were found in good order.

On the 5th January 1892 I inspected the civil hospital, Bijápur, and found it all in good order. Three lunatic cells, an infectious diseases shed and an examination room were being built. On the 8th I inspected the jail hospital and found everything in good order.

On the 13th I inspected the civil hospital in Dhárwár. The compound and buildings all clean, and the latter in good repair. The cholera shed has recently been put in good order. The wards all well arranged. The medicines plenty, and carefully kept. The instruments did not seem as clean as they might be, but many are old and difficult to keep in nice condition. Some are unserviceable and will be condemned and returned to the Stores' Depôt. The books are well kept, correctly numbered, neatly written, and up to date, but some of the service record books of the servants want correcting. I was well pleased with the results of the inspection. On the 14th I inspected the jail hospital and found everything in good order. I have directed the medical officer to recommend the Inspector-General of Prisons to put glass windows in the hospital: at present there are only matting shutters, which do not keep out the cold east wind at night.

On the 18th I inspected the civil hospital, Belgaum. The building was originally a gun-carriage shed, and though it answers its purpose in a way it cannot be said to be suitable. A new civil hospital is wanted, and the present buildings could be used for servants' quarters, store-rooms, &c. The compound and buildings are clean, and the latter in good repair. The medicines, instruments and records are well kept and all in good order. On the 19th I inspected the municipal dispensary. It was opened about 18 months ago and is in fairly good order. A retired hospital assistant is in charge of it.

On the 26th I inspected the civil hospital of Kárwár. The compound was not clean. The buildings clean and in good repair. Plenty of medicines and well taken care of. Most of the instruments are old: some are unserviceable and some require repair. The records are pretty well kept, but are rather mixed,—that is to say, documents are not invariably placed on the proper file. I do not consider the result of my inspection entirely satisfactory, but Surgeon-Major Howell will give attention to the defects. During the year there were several changes of medicial officers here. On the 29th I inspected the jail hospital. There was no sick.

At Ratnágiri I inspected the jail hospital on the 4th February. Clean and all in good order. Very few sick. On the 5th the civil hospital was inspected. The buildings clean and in good repair. The new operating room is a great improvement to this hospital. The records and instruments in good order. There is plenty of medicines. The stores well arranged and cared for. The number of in-patients to-day is 17, but the average number here is much less. I visited the Sir Dinshaw Maneckji Petit Leper Asylum and found everything in good order.

On the 25th I visited the Limbdi State dispensary in Káthiáwár on the Chief's invitation. The building is suitable, clean and in good repair: compound clean. Instruments clean and well cared for. Medicines well arranged in presses, and poisons kept separate from other medicines. There were 6 men and 1 woman in-patients. A youth had been operated on by the medical officer in charge for stone in the bladder about a week before, and was doing well. The stone was a large one weighing 2 ounces and 160 grains. The out-patient attendance is large, and Mr. Pestonji Jamsetji appears to be popular.

On the 26th I inspected the Wadhwán Dispensary and found everything in good order.

On the 29th I inspected the West Hospital, Rájkot, and found it in good order. Since my last inspection new quarters for the medical subordinates and servants have been built, also new store-rooms, and at present some of the floors of the wards are being paved with brick. Surgeon-Lieutenant-Colonel Barker takes a great interest in his work here, where he

does some excellent surgical operations. The jail hospital was inspected. Only one p[illegible] was on the sick list.

On the 2nd March I inspected the jail hospital at Ahmedabad. Everything in [illegible] order. There were 9 sick in hospital and 1 convalescent. In 1891 there were 13 death[illegible] up to this date 5 in this year, but the whole 5 were old and enfeebled men. I also insp[illegible] the civil hospital. The compound and buildings were clean, and the latter in good re[illegible] Two new blocks have been built, also a new operating room, medical officer's room[illegible] making inspections, and a store-room. The number of out-patients here is very large. T[illegible] books are correctly kept. The stock of medicines is low, and more will have to be indented for. The instruments are well kept. On the 3rd I inspected the Ranchhodlal Dispensary, the Victoria Jubilee Hospital and the Bechardás Dispensary, and found all in good order.

12. The administrative medical officer in the Sind District inspected all the civil hospitals, jail hospitals and the dispensaries on his route. He reported favourably of all. The administrative officer of the Bombay, Deesa and Aden District inspected the civil institutions in Aden, and also reported favourably on these and the officers in charge of them.

13. The following dispensaries were not inspected during the year:—Dápoli, Murbád, Sirsi and Mundgod, because the respective Civil Surgeons, after making arrangements to inspect them towards the end of the year, were detained at head-quarters, in order to attend to serious cases of illness, which required their constant attendance. All the other dispensaries in the Presidency proper and in Sind were inspected by the Civil Surgeons; their reports are favourable.

I have the honour to be,
Sir,
Your most obedient Servant,

J. PINKERTON, M.D., Surgeon Major-General,
Surgeon-General with the Government of Bombay.

APPENDIX I.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT No. 1.

Showing the Classification of the Mofussil Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1891.

1	2	3	4	5	6	7
Population of the Province.	Class.	Number open on 31st December 1890.	Number open during the year.	Number closed during the year.	Number open on the last day of the year.	Remarks.
	Konkan.					
	I	7	...	...	7	
	II	22	1 (*a*)	...	23	(*a*) Nasarwanji Mánekji Petit Dispensary, Váda (Grant-in-aid).

* The balance now shown is correct, and that given in last year's report is incorrect, as the Medical subordinates in charge of the dispensaries includ on account of the commission on the purchase of the note.

† The Medical subordinate in charg the dispensary was not aware of Rs. 300 having been invested, and hence the mistake.

Annual Reports: Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1891.

No. 2591.

GENERAL DEPARTMENT.

Bombay Castle, 28th July 1892.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—211, dated 20th June 1892—Submitting the Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1891.

RESOLUTION.—The number of hospitals and dispensaries in the Mofussil at the end of 1890 was 241. During the year under review 2 new dispensaries were opened at Váda and Cháchra, and information is given in the report about the municipal dispensary at Sholápur. No hospitals or dispensaries were closed during the year.

2. The number of patients treated was 1,732,858 as compared with 1,626,887 in 1890. The increase occurred in all the divisions, but was most marked in the Deccan and Southern Marátha Country, where the season was especially unhealthy owing to want of rains. It may be noticed as a satisfactory feature that the hospital stoppage rules, concerning which fears have been from time to time expressed as to their being likely to cause a decrease in attendance, have not had that effect, and the figures show that they have in no way diminished the popularity of the institutions. Small-pox was almost entirely absent, the number of cases being only 155, while there were 2,131 cases of cholera, 95 per cent. of which occurred in the Deccan.

The largest number of admissions, 311,263, is found under the head "Malarial Fevers," there being an increase of 32,255 over the previous year's cases. This is spread over all the divisions, but the largest proportion of increase is in the Konkan, where, after deducting the cases in the Presidency town, the total exceeds last year's. The very large decrease under the head "All other general diseases" has not been explained.

3. The accounts of the Civil Hospitals have this year been shown separately from those of the charitable dispensaries. The income of the former is shown below:—

Opening Balance	Rs.	8,088
From Government	„	3,55,822
„ Local Funds	„	8,205
„ Municipalities	„	24,905
„ Miscellaneous Sources...	„	12,018
„ Subscriptions	„	1,982
	Rs.	4,11,020

The total expenditure was Rs. 4,00,747, or about Rs. 5,600 less than in 1890. The income of charitable dispensaries amounted to Rs. 4,71,445, and the sources from which it was derived are shown below:—

Opening Balance	Rs.	1,05,445
From Government	„	1,31,207
„ Local Funds	„	75,002
„ Municipalities	„	1,13,586
„ Miscellaneous	„	37,564
„ Subscriptions	„	8,641
	Rs.	4,71,445

The total expenditure was Rs. 3,45,345 as compared with Rs. 3,56,876 in 1890. The percentage of cost borne by Government was less by 3·1 in the case

of hospitals and greater by 2·6 in the case of dispensaries than in the previous year. In last year's report the closing balance was shown as Rs. 1,28,024, but after allowing for the discrepancies noted in paragraph 6 of the report and for the balance in hospitals in the Presidency town, the closing balance of 1890 is greater by over Rs. 5,000 than the opening balance shown for 1891, and the Surgeon General should be requested to explain the difference.

4. All the dispensaries except four were visited by the Civil Surgeons, and the general administration of the Department seems to have been very satisfactory.

W. L. HARVEY,
Under Secretary to Government.

No. $\frac{S.B.}{467}$ OF 1893.

FROM

THE SURGEON-GENERAL WITH THE
GOVERNMENT OF BOMBAY;

To

THE CHIEF SECRETARY TO GOVERNMENT,
General Department,
Bombay.

Bombay, 21st June 1893.

SIR,

I have the honour to submit my Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1892. Summaries of annual reports of medical officers and subordinates in charge of civil hospitals and dispensaries as well as those of the medical schools are also appended.

2. At the close of 1892 there were 203 pupils in the three Provincial Medical Schools, distributed as follows:—

Classes of Pupils.	B. J. MEDICAL SCHOOL, POONA.				B. J. MEDICAL SCHOOL, AHMEDABAD.				MEDICAL SCHOOL, HYDERABAD.				TOTAL.			
	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.
Native Military	4	10	8	22	4	3	5	12	..	1	..	1	8	14	13	35
Stipendiary	6	1	8	15	5	5	5	15	5	4	15	24	16	10	28	54
Native State	1	1	4	6	..	..	..	..	..	..	..	..	1	1	4	6
Paying	13	5	2	20	10	11	15	36	..	2	1	3	23	18	18	59
Civil Medical Pupils	10	9	13	32	6	4	3	13	1	2	1	4	17	15	17	49
Total ..	34	26	35	95	25	23	28	76	6	9	17	32	65	58	80	203

3. The following estimates show the present prospects of recruiting the Military and Civil Hospital Assistants:—

(a).—Military Hospital Assistants.

Sanctioned strength, including 15 per cent. reserve		... 143
Actual strength on 31st March 1892		... 151
	Excess	... 8
In the medical schools will pass in 1893 } Estimate.		... 8
Do. do. in 1894 }		... 14
	Total	... 30

At 10 casualties per annum, 20 will be absorbed in 1894.

The 8 Native Military Pupils admitted at Poona and the 5 in Ahmedabad in 1892 should pass out in 1895; the excess then will be 23, if they all pass; but even allowing for failures at the examinations, the requirements of that year will probably be more than met.

The proposal to increase the strength of the Military Hospital Assistant Class to 160, mentioned in last year's report, is still before the Government of India, and if it is sanctioned, the present excess will be absorbed at once. More than the excess is employed in Burmah.

(b).—Civil Hospital Assistants.

Sanctioned strength		... 261
20 per cent. reserve		... 52
	Total	... 313
Present strength		... 290
	Deficiency	... 23

It is estimated that the three medical schools will supply the following numbers :—

	1893.	1894.
Poona	16	10
Ahmedabad	11	9
Hyderabad	6	6
Total ...	33	25

Taking the casualties at 15 per annum, and allowing for failures at the school examinations, the sanctioned strength may be reached about the end of 1894 instead of 1893 as mentioned in the preceding report.

The teaching staff remained unchanged during the year at Ahmedabad. At Poona Brigade Surgeon Lieut.-Colonel D. E. Hughes, now Surgeon-Colonel, was Superintendent up to the 20th September 1892; Surgeon-Captain W. H. Burke acted as Superintendent, in addition to his own duties, temporarily from 21st to 30th September 1892, and Surgeon Lieut.-Colonel W. McConaghy received charge of his duties as Superintendent on the 1st October 1892 and continued in charge up to the end of the year. First Grade Senior Apothecary W. Fearn was Teacher of Materia Medica up to the 14th September 1892, when he was succeeded by First Grade Apothecary W. Church. At Hyderabad Assistant Surgeon E. S. Bharucha performed the duties as teacher up to the 24th February 1892 during the absence of Assistant Surgeon T. H. Aquino on sick leave.

4. As the summaries of the annual reports of all medical institutions for 1892 are given in Appendix I, I shall only briefly note the more important points of the statistical statements given in Appendix III.

5. Statement No. I shows the classification of hospitals and dispensaries. On 1st January 1892, there were 244 institutions open. Four new ones, *viz.*, Kápsi, Ránpur, Badin and Rato-dero, were opened during the year, and Chiplún, Sirúr, Belgaum, Umreth, Songad, Jeytalsar, Victoria Jubilee (Hyderabad), Empress (Gidu Bandar), Moro and Nausháhro are shown in the returns for the first time though opened some years back, giving a total of 258 institutions open at the close of the year.

6. Statement No. II gives the number of in-door and out-door patients treated. The total treated was 1,880,327 against 1,732,858 in 1891. Of these, 28,372 were in-door and 1,851,955 out-door patients as compared with 27,777 and 1,705,081 respectively in the previous year. Of the in-door patients 20,768 were cured, 2,195 relieved, 2,380 discharged otherwise and 1,809 died, giving a ratio of 6·3 deaths per cent. of the total treated or 0·6 per cent. more than in 1891. The daily average sick was 1,263·9 (1,014·9 men, 174·1 women and 74·9 children) as compared with 1,229·2 in the preceding year. Of the out-door patients, 1,663,676 attended personally and 188,279 were represented by friends, and the daily average strength was 18,991·4 against 17,095·2 in 1891. 326,635 in and out-door patients were treated in the civil hospitals and 1,553,692 in the dispensaries as contrasted with 315,934 and 1,416,924 respectively in the previous year. The total number of beds available was 2,826—for males 1,981 and for females 845—against 2,850 in the preceding year.

7. Statement No. III gives the diseases for which the in and out-door patients were treated. There were 140 cases of small-pox or 15 less than in 1891. Of these, nearly half were treated in the Deccan. Cholera gave 5,121 cases against 2,131 in the previous year—Deccan 2,279, Sind 1,966, Gujarát 638, Konkan 226 and foreign institutions 12. Dysentery contributed 32,173 cases or 1·7 per cent. to the total treated against 25,396 or 1·4 per cent. in the previous year. Malarious fevers gave as usual the largest number of admissions, *viz.*, 381,837 or 20·3 per cent. of the total treated, showing an increase of 70,574 or 2·4 per cent. over the previous year and indicating that the year under report was not a healthy one. Of these 29·4 per cent. were treated in the Konkan, 25·6 in the Gujarát, 24·6 in foreign institutions, 22·9 in Sind and 12·9 in the Deccan against 28·6, 20·8, 31·4, 20·6 and 11·6 respectively in 1891. The admissions from venereal diseases were 29,857 or 201 less than in the preceding year. Of these 6,302 were treated for primary syphilis, 10,315 for secondary syphilis, 9,944 for gonorrhœa and 3,296 for other venereal affections as compared with 6,330, 9,779, 9,634 and 4,325 respectively in 1891. Worms contributed 175,055 cases or 9·3 per cent.

of the total treated as compared with 170,212 or 9·8 per cent. in the previous year. As usual they were most prevalent in the Deccan, the Dispensaries of which returned 124,600 cases, followed by Konkan and Gujarát with 25,613 and 22,963 cases respectively. There were 931 cases of leprosy, showing a decrease of 132 over the previous year. Rheumatic affections contributed 49,527 cases or 2·6 per cent. of the total treated as contrasted with 47,031 or 2·7 per cent. in the preceding year. Diseases of the eye and the ear numbered 189,056 and 73,448 or 10·5 per cent. and 3·9 per cent. of the total treated against 198,551 and 64,645 or 11·4 and 3·7 respectively in 1891. There were 48,063 cases of diarrhœa against 39,044 in the previous year. Skin diseases gave 207,862 cases or 11·5 per cent. to the total treated as compared with 200,151 or 11·5 per cent. in 1891. In the Konkan the percentage of total treated was 10·3, Deccan 10·9, Gujarát 12·9, Sind 8·5 and in the foreign institutions 6·7 against 9·9, 11·2, 14·3, 9·0 and 5·7 respectively in 1891.

8. Statement No. IIIA gives the number of major surgical operations performed during the year with their results. There remained on 1st January 84 cases under treatment which had undergone operations, 3,835 were performed during the year, giving a total of 3,919 as compared with 3,651 in the previous year. Of these, 3,115 were cured, 288 relieved, 69 discharged otherwise, and 128 proved fatal, leaving 128 under treatment at the close of the year. The percentage of deaths to the total operations was 3·2 against 2·8 in 1891. The result of 191 operations performed on out-door patients not being known was not recorded. Of the total number of operations, 2,414 were performed in the civil hospitals and 1,505 in the dispensaries. The operations on the urinary organs stand first on the list, having 966 cases with 44 deaths as compared with 906 and 36 respectively in the previous year. Of these, 417 were lateral lithotomy, 388 litholapaxy and 65 perineal lithotrity. Next in order follow the operations on the organs of locomotion with 700 cases, of which 512 were for reductions of dislocations of joints. Opening of abscess numbered 560 with 10 deaths, operations on the eye and its appendages 348 with no death, and on the digestive organs 316 with 22 deaths (of which 231 were paracentesis of the abdomen, with 14 deaths). There were 251 operations for removal of tumours with 6 deaths and 242 amputations with 21 deaths. Obstetric operations numbered 105, of which 7 died. One operation was performed for cæsarian section which ended fatally. The total number of minor operations was 85,494 against 77,882 in the preceding year.

9. Statement No. IV shows the sex and caste of the patients. The following tables give the ratio per cent. of men, women and children and of castes as compared with the previous year:—

	Men.		Women.		Children.	
	1891.	1892.	1891.	1892.	1891.	1892.
Konkan	46·5	45·7	20·2	18·7	33·3	35·6
Deccan	44·0	42·2	18·6	17·1	37·4	40·7
Gujarát	45·5	43·5	23·4	21·6	31·1	34·9
Sind	56·3	51·9	16·9	15·9	26·8	32·2

	47·0	44·8	20·0	18·5	33·0	36·7

	1891.	1892.
Hindus	68·8	69·2
Mahomedans	26·0	25·9
Native Christians	2·4	2·2
Pársis	1·5	1·5
Europeans	0·3	0·3
Eurasians	0·1	0·1
Other castes	0·9	0·8

10. Statement No. V, Part I, shows the income and expenditure of the civil hospitals and dispensaries during the year. Under the orders of the Government of India conveyed in paragraphs 4 and 5 of their letter No. 15, dated 11th January 1893, Home Department Medical, forwarded with Bombay Government memorandum No. 286, dated the 27th idem, General Department, the civil hospitals have been included in this statement at the head of the group of dispensaries of the district to which they belong, but the salaries of the Civil Surgeons have been excluded therefrom and shown in a separate table in the body of this report. No comparison of financial results can therefore be made between the past and previous years. The total income was Rs. 7,28,461-10-4, of which Rs. 1,33,652-8-1 was the cash balance. Rs. 2,98,080-15-9 were received from Government, Rs. 97,026-5-0 from the local funds and Rs. 1,27,931-15-7 from municipal funds. Interest on the invested capital yielded Rs. 19,071-13-0, and the sale of securities or withdrawals of the deposits Rs. 9,400. Subscriptions from Europeans and natives amounted to Rs. 14,432-4-0, and Rs. 28,865-12-11 were realized by the sale of medicines not supplied by Government, hospital stoppages, &c. &c. The total expenditure was Rs. 6,09,637-3-6. Deducting from this Rs. 27,800 invested during the year and Rs. 31,085-4-8 on account of hospital stoppages, sale of unserviceable articles (remitted to the treasury) and the unexpended balances which lapsed to Government and the Municipalities, the net expenditure was Rs. 5,50,751-14-10. The average cost of each diet was Re. 0-2-5 and the cost per patient Re. 0-5-4. The percentage of total cost paid by Government was 54·1 and if the cost of the Native State dispensaries and hospitals be added to the total, the percentage would be 45·8.

The following discrepancies have been found between the closing balances of 1891 and the opening balances of 1892 :—

	Balance on 31st December 1891.			Balance on 1st January 1892.			Remarks.
	Rs.	a.	p.	Rs.	a.	p.	
Sirsi Dispensary... ...	1,261	4	5	1,472	3	11	The present balance is correct, the discrepancy being due to certain financial transactions being omitted from the accounts of the previous year.
Bárámati do.	361	14	3	238	0	10	The latest balance is correct and tallies with the accounts of the Huzúr Deputy Collector; the balance shown in the last year's report is incorrect.
Lord Harris Hospital, Násik.	31	14	1	.....			There was no balance; the unexpended balance of the Contract grant was erroneously shown as cash balance in the last report.
Pimpalgaon Basvant Dispensary.	.....			24	11	9	The balance now shown is correct and tallies with the accounts of the Huzúr Deputy Collector; in the last year's report it was omitted through an oversight.
Erandol Dispensary ...	425	6	8	417	2	8	The present balance is correct and tallies with the accounts of the treasury officer; that shown in the last report is incorrect.
Chopda do.	1,223	0	11	1,223	0	0	The latest balance is correct, the discrepancy being due to the accounts not being correctly kept.
Pimpalner do.	377	8	2	386	12	10	The balance now shown is correct and tallies with the accounts of the Huzúr Deputy Collector; the last year's balance is incorrect, as the accounts were not referred to that officer for inspection.

	Balance on 31st December 1891.			Balance on 1st January 1892.			Remarks.
	Rs.	a.	p.	Rs.	a.	p.	
Yával Dispensary ...	910	6	4	1,049	11	8	The present balance is correct. The error is due to the amount for Europe medicines (Rs. 139-5-4) having been debited a second time in the accounts of the previous year through an oversight.
Wái do.	547	0	9	764	0	9	The latest balance is correct. The discrepancy is due to the omission from the last year's accounts of Rs. 217 drawn from the municipal funds.
Belgaum Civil Hospital...	5,011	5	7	.....			The unexpended balance of the Contract grant was erroneously shown as cash balance in the last year's report, while there was no actual cash balance.
Olpád Dispensary ...	28	7	4	438	3	7	The balance now shown is correct. The error is due to the amount of Government grant not having been shown in the last report through an oversight.
Dehej do.	822	0	2	823	2	2	The present balance is correct, the discrepancy being due to a sum of Re. 1-2-0 for medicine fees having been erroneously omitted from the last years' accounts.
Sádra Civil Hospital ...	2,741	6	1	3,893	13	10	The latest balance is correct. The discrepancy is due to the amount of the female ward fund having been erroneously shown in the last report.
Karáchi do. ...	308	14	1	.....			There was no balance; the unexpended amount of the Contract grant was erroneously shown as cash balance in the previous report.
Parumal Khubchand Dispensary, Sehwan.	362	15	11	996	4	0	The latest balance is correct, the discrepancy being due to the accounts not having been kept correctly.
Moro Dispensary ...	.....			44	4	6	These dispensaries have been accounted for the first time, though opened some years back.
Nausháhro do. ...	.....			125	11	6	
Mehar do. ...	1,655	9	6	1,425	0	10	The present balance is correct. The error is due to the amount for Europe medicines paid direct from the treasury, *viz.*, Rs. 230-8-8, not having been shown in the last year's report.
Dokri do. ...	268	14	1	295	6	10	The balance now shown is correct and tallies with the accounts of the Huzúr deputy Collector, that shown in the last report being incorrect.

11. The following table shows the pay drawn by the Civil Surgeons during the year under report :—

	Rs.	a.	p.		Rs.	a.	p.
Thána	9,000	0	0	Kaira	9,110	7	6
Ratnágiri	6,061	13	2	Godhra	6,993	8	9
Kárwár	11,400	0	0	Ahmedabad	10,200	0	0
Poona	11,897	0	0	Sádra	2,400	0	0
Ahmednagar	9,654	1	11	Rájkot	11,400	0	0
Násik	11,400	0	0	Karáchi	12,600	0	0
Dhulia	10,147	7	11	Hydeabad	11,400	0	0
Sátára	7,793	5	4	Shikárpur	4,906	8	0
Maháblaeshvar ...	7,050	0	0	Sukkur	5,653	14	0
Sholápur	5,400	0	0	Aden (Civil Hospital) ...	9,000	0	0
Belgaum	10,200	0	0	Do. (European General Hospital) ...	11,620	13	6
Dhárwár	10,750	0	0				
Bijápur	6,600	0	1				
Surat	9,000	0	0	Total ...	2,28,185	11	0
Broach	6,546	10	10				

12. Statement No. V, Part II, shows the account of invested capital. On 1st January 1892 the balance was Rs. 4,47,200, and Rs. 27,800 were invested during the year, making a total of Rs. 4,75,000. Deducting Rs. 9,400 on account of securities sold, there remain Rs. 4,65,600 on 31st December 1892 as invested capital.

13. The following works were executed and paid for from the "discretionary grant" at the disposal of the Surgeon-General during the year 1892 :—

	Rs.
Erecting shelves in the store-room of the Civil Hospital, Sátára ...	70
Making concrete flooring to the 3 general wards of the Civil Hospital, Dhárwár	250
Making chunam floor to the female ward of the Civil Hospital, Ratnágiri	45
Making doors to one cook-room of the Civil Hospital, Ratnágiri ...	15
Putting plank ceiling to the new operating-room at the Civil hospital, Ratnágiri	120
Making trapstone pavement to the verandah in front of the dispensary at the Civil Hospital, Ratnágiri...	20
Paving that portion of the verandah of the Civil Hospital, Broach, which still remained unpaved, with stones	460
Completing wooden railing of front verandah of central block at the Civil Hospital, Karáchi	150
Making improvements in the ventilation of dead-house at the Civil Hospital, Karáchi	100
Making alterations and erection of a partition wall in cook-room to divide it into two, *viz.*, 1 for Hindus and the other for Mussalmans, at the Civil Hospital, Shikárpur	100
Exchanging the existing doors and windows of the compounding and examination room of the Khán Bahádur Pestonji Sorabji Charitable Dispensary, Poona	17
Providing stabling for the Senior Apothecary at the Sassoon Hospital, Poona	206

14. As Administrative Medical Officer of the Sind District, I inspected all the civil hospitals, jail hospitals and as many dispensaries as possible *en route*, and found everything in good order. The Administrative Medical Officer of the Bombay, Deesa and Aden Districts inspected the civil medical institutions in Aden and reported very favourably on these and the officers in charge of them.

15. The dispensary at Rájápur in the Ratnágiri Collectorate was the only dispensary not inspected during the year under report owing to an outbreak of cholera in the vicinity of Ratnágiri which prevented the Civil Surgeon leaving head-quarters, but it was inspected on the 18th January 1893.

16. Surgeon-Major-General Pinkerton has left the following notes giving the results of his inspection tour :—

On the 7th May I inspected the Civil Hospital at Mahábaleshvar and found Surgeon-Captain Stevenson had everything in good order. New quarters for the Hospital Assistant and compounder, a dead-house and store-room are required here.

On 11th June the dispensary at Pánchgani was inspected. The buildings clean and in good repair. The compound might have been cleaner. Plenty of medicines; instruments and records in good order.

On the 16th the Wái Dispensary was inspected. The buildings clean and in good repair. Plenty of medicines; instruments clean and well cared for and the records neatly written up to date. The dispensary committee visited the dispensary nine times last year, and appear to take an interest in the institution, but it would be better if some of the committee visited every month.

On the 20th I inspected the Civil Hospital of Sátára. The compound and buildings clean and the latter in good repair. Medicines well arranged and cared for. Instruments clean and well kept—a few require to be repaired. Records in order. The wards well arranged and beds all looked nice. Surgeon-Major Davidson takes a keen interest in his work.

On the 28th I made my annual inspection of the Sassoon Hospital, Poona. The buildings are clean and in good repair, except the roof of the Apothecary's quarters, which leaks; the iron roof should be replaced by a tiled one. The grounds are clean and well laid out. The ornamental park looks nice. The wards are well arranged. The instruments are kept very nicely. The supply of medicine was sufficient. The records are neatly written up to date. The nurses here are doing good work. Brigade Surgeon Lieutenant-Colonel Hughes had everything in excellent order. During the rainy season I visited this hospital several times and I am glad to say Surgeon Lieutenant-Colonel McConaghy who succeeded to this charge on the promotion of Brigade Surgeon Lieutenant-Colonel Hughes to Administrative rank in September, has everything in good order and is ably assisted both in the hospital and the Byrámji Jijibhoy Medical School by Surgeon-Captain Burke, the Assistant Civil Surgeon.

On the 29th I inspected the Khán Bahádur Pestonji Sorábji Charitable Dispensary (endowed) in the City of Poona and found everything in good order.

On the 19th the Yerrowda Jail Hospital was inspected and found to be all satisfactory.

On the 9th November I inspected the Cursetji Rustomji Wádia Charitable Dispensary (endowed) at Thána. All in good order.

On the 10th the Civil Hospital of Thána was inspected. The compound and buildings clean, and the latter in good repair. The wards nicely arranged. Records, medicines and instruments all in good order. In the afternoon the Jail Hospital was inspected and found in good order. The deaths this year up to date have been 21. I went over these carefully with Surgeon-Major Kirtikar.

On the 15th inspected the dispensary at Mátherán and found it in good order.

On the 8th December I inspected the G. I. P. Railway Company's dispensary at Lonávla; it is in charge of Dr. Field, District Medical Officer of the line. There has been some talk of a new hospital being built here, and I think it would be a very good thing to have a better hospital than the present one in which serious cases among the railway employés cannot be treated for want of proper wards. The medicines were sufficient, well arranged in presses and shelves; the instruments clean and well cared for. The few books required were in order. I was well satisfied with the results of my inspection.

On the 10th I visited the St. George's Hospital Sanitarium at Khandála to make some enquiries and see the place so as to be able to reply to a reference from Government. It was in perfect order and is an excellent place for convalescents.

On the 21st December I inspected the Surat Civil Hospital. The building was being put into thorough repair by the Public Works Department at the time of my visit. The compound and out-houses all in good order. Medicines sufficient, instruments clean and well cared for, and the records neatly kept and up to date. I was well satisfied with the way Surgeon-Major Nariman does his duty. Next day the Jail Hospital was inspected and found in good order.

On the 23rd I inspectetd the Dumas Dispensary in the Sachin State, and found it in all respects in good order. I think the supply of medicines might be a little more liberal.

On the 26th I inspected the Civil Hospital of Broach. The buildings are clean and in good repair. Since my previous visit quarters for one Hospital Assistant have been built and the verandahs of the hospital have been paved, which is a great improvement. The medicines are sufficient, well arranged, and carefully looked after. The instruments are clean and in good order. The records are correctly kept and written up to date.

On the 27th the Grant-in-aid Dispensary at A'nand was found in good order. I am glad to notice an increase in the attendance of patients.

On the 28th I inspected the Civil Hospital of Godhra. The buildings are clean and in good repair. The compound is clean, but the prickly pear hedge is unsightly and a nice

railing would be much better. The new ward for the police and other recent improvements have now made this a fairly good Civil Hospital. The medicines, instruments and records are all in good order.

On the 31st I inspected the dispensary of Nadiád. The buildings clean and in good order. The compound is clean, but too small. The medicines, instruments and records in good order.

On the 2nd January 1893 I inspected the Civil Hospital of Kaira. The buildings are clean and in good repair. The recent alterations have improved this hospital. The stores and instruments are well taken care of and in good order. The books are a little behind owing to the slackness of the senior medical subordinate who was in bad health and has since then been invalided as unfit for further service. The attendance at this hospital has increased lately. In the afternoon I inspected the Jail Hospital of Kaira and found it in good order. The number of deaths in the first year was high.

On the 4th I inspected the Civil Hospital of Ahmedabad. The buildings are clean and in good repair and the compound is also clean. The wards well arranged. The stores, instruments and books all in good order. The out-door attendance here is very large. The medical school buildings are also clean and in good repair. I saw the pupils doing their clinical work in the wards of the hospital and pharmacy in the dispensary. This school is doing very good work. In the afternoon I inspected the Bechardás Endowed Dispensary and found everything in good order.

On the 5th the Jail Hospital was inspected and also found in good order. In the afternoon I inspected the Jail Hospital and found it in good order. Also the Ranchodlál Chotálál Dispensary and the Victoria Jubilee Dispensary for women and children were inspected and found all in good order.

On the 6th I inspected the Ráipur Dispensary. The buildings were clean and in good repair. There were 2 in-patients and the out-patient attendance is very large. The medicines were sufficient and well arranged and stored. The instruments were clean and carefully kept. The records correctly numbered and neatly written up to date.

On the 7th I inspected the Police Hospital and found everything in good order. In the afternoon the Dhuliákote Jail Hospital was inspected and found in good order.

On the 10th I inspected the West Hospital, Rájkot. The buildings were clean and in good repair. The compound was clean and Surgeon Lieutenant-Colonel Barker is getting the garden into nice order. The wards were neatly arranged, the medicines well arranged in the store-room and presses, the instruments clean and well cared for. Some of the instruments are old and others need repairing. The books were in order and written up to date. There are many important surgical operations performed here. In the afternoon I inspected the Jail Hospital and found it all in good order. Only one man in hospital.

On the 12th I inspected the Wadhwán Dispensary and found everything in good order.

I have the honour to be,

Sir,

Your most obedient Servant,

P. S. TURNBULL, M.D., Surgeon-Major-General,

Surgeon-General with the Government of Bombay.

APPENDIX I.

SUMMARIES OF THE ANNUAL REPORTS

ON THE

MOFUSSIL CIVIL HOSPITALS AND DISPENSARIES FOR THE YEAR 1892.

KONKAN.

THA'NA COLLECTORATE.

CIVIL HOSPITAL, THA'NA.—*In charge of* Surgeon-Major K. R. KIRTIKAR.

Conservancy.—Defective; no regular drainage system exists; the surface drains still in disorder.

Water-supply.—From the Pokran tank, is good for all practical purposes and abundant.

Hospital Building.—New latrines and bath-rooms erected; medical subordinates' quarters require improvement; there is still no proper accommodation for lunatics received into this hospital for observation.

General health of the town.—Good. No epidemics.

Attendance of patients.—402 in-door and 3,953 out-door against 379 and 4,495 in 1891 and 360 and 4,255 in 1890 respectively.

Prevailing diseases.—Ague, round worms, ringworm and scabies, diarrhœa and dysentery, bronchitis and enlarged tonsils among children.

Mortality.—There were 30 deaths in hospital. They were due to diarrhœa, pneumonia, dysentery, pulmonary phthisis and acute and chronic bronchitis.

Surgical operations.—There were 12 major and 140 minor operations; of the former 3 proved fatal.

Vaccination.—Carried on satisfactorily by the municipal vaccinator.

Medico-legal cases.—Nineteen cases, more or less trivial, were examined and 5 *post-mortem* examinations made at the request of the police.

Conduct of establishment.—Satisfactory.

Cost.—The total cost was Rs. 3,927-7-2 and the cost per patient Re. 0-14-5, against Rs. 10,513-8-7 and Rs. 2-2-6 in 1891 and Rs. 11,219-8-7 and Rs. 2-6-10 in 1890.

GRANT-IN-AID DISPENSARIES.

SIR COWASJI JEHA'NGIR READYMONEY DISPENSARY, BA'NDRA.—*In charge of* Assistant Surgeon J. F. GONSALVES, L.M.

No addition or alteration has been made to the dispensary building except that the bamboo weather-frame in front of the receiving room has been replaced by a tiled shed. The building is kept in good repair. The committee meets when subjects connected with the dispensary require consideration. Conservancy of the town is looked after by the Municipality, and the Halálkhor's service, which was introduced into a part of the municipal district in September 1891, is to be shortly extended to the whole town. Water-supply, which during the hot months fails in some parts, continues the same; but a scheme for providing water through pipes all over has been prepared and submitted to Government for obtaining a loan to carry it out. The total treated was 16,251 out-door patients as compared with 15,485 and 12,992 in 1891 and 1890 respectively. The most common diseases were malarial fevers intestinal worms, respiratory affections, diarrhœa and dysentery. There were 50 cases of cholera with 29 deaths. Five major operations were performed against 3 in 1891 and 4 in 1890. Four dead bodies were examined and reported upon at the request of the police. Vaccination is conducted by a vaccinator paid by the Municipality and the Local Fund. The

dispensary has been annually inspected by the Civil Surgeon, Thána. The total cost was Rs. 4,280-3-6 and the cost per patient Rs. 0-4-3, against Rs. 3,631-9-9 and Re. 0-3-9 in 1891 and Rs. 4,016-11-9 and Re. 0-4-11 in 1890.

SIR DINSHAW MANECKJI PETIT DISPENSARY, BASSEIN.—*In charge of* Assistant Surgeon KA'SIM VIRJI PATEL, L.M.

The building is in good repair. The committee visited the dispensary eleven times, and individual members did so frequently. The sanitary condition of the town is fair. The water-supply, from tanks and wells, is liable to contamination. The total treated was 17,286 out-door and 3 in-door patients in 1892 against 18,156 and 5 in 1891 and 17,386 and 6 in 1890 respectively. The most common diseases were malarious fevers, diseases of the digestive system, diarrhœa, skin diseases and diseases of the respiratory affections. There were 23 cases of cholera with 8 deaths. Four major surgical operations were performed. Vaccination is carried on by the táluka vaccinator. Twenty-two *post-mortem* examinations were made at the request of the police and opinion given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Thána. The total cost was Rs. 3,666-15-10 and the cost per patient Re. 0-3-5, against Rs. 2,949-6-7 and Re. 0-2-7 in 1891 and Rs. 4,004-4-11 and Re. 0-3-8 in 1890.

BA'I GULBA'I PETIT DISPENSARY, BHIWNDI.—*In charge of* Assistant Surgeon M. M. VAKIL, L.M. & S.

The conservancy of the town is defective, and though the water-supply is good, sufficient care is not taken to keep it free from contamination. The dispensary building is in a good state of repair. A storey was added to the Assistant-Surgeon's quarters at an expense of Rs. 2,832 in the year 1890, and a shed was built during the year under report to protect the said building on the western side. The committee visited the dispensary thrice. The total treated during the year was 10,493 out-door and 3 in-door patients against 12,291 and 15 in 1891 and 10,864 and 11 in 1890. The most common diseases were malarial fevers, skin diseases, worms and diarrhœa. Small-pox was prevalent during the year, but the town has been free from cholera for the last three years. The dispensary was inspected by the Civil Surgeon, Thána, in December last. Two *post-mortem* examinations were performed. The total cost was Rs. 2,361-1-10 and the cost per patient Re. 0-3-7, against Rs. 2,322-5-6 and Re. 0-3-0 in 1891 and Rs. 5,831-14-9 and Re. 0-8-6 in 1890.

KELVA MA'HIM.—*In charge of* Hospital Assistant RA'JA'RA'M BA'LKRISHNA.

The dispensary building is in a fairly good state of repair but not suitable; furniture and fittings sufficient. The dispensary committee visited the dispensary nine times. No improvement in the sanitary condition of the town has been effected since 1890; it is fairly satisfactory. The water-supply from wells is abundant and brackish and not wholesome. The total treated was 9,430 out-door and 45 in-door patients as compared with 10,512 and 71 in 1891 and 8,452 and 58 in 1890. The prevailing diseases were malarious fevers, affections of respiratory system, bowel-complaints, rheumatic affections and diseases of the nose, ear and skin. No cholera since 1890. Three *post-mortem* examinations were held and 7 medico-legal cases examined and reported on. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Thána. The total cost was Rs. 2,021-5-3 and the cost per patient Re. 0-3-5, as compared with Rs. 2,132-3-7 and Re. 0-3-2 in 1891 and Rs. 1,622-6-9 and Re. 0-3-0 in 1890.

SHA'HA'PUR.—*In charge of* Hospital Assistant MORO NILKANT.

The dispensary building and out-houses are in a good state of repair. There is no regular dispensary committee. The Vice-President of the Táluka Local Board and the Mámlatdár, as a Chairman, visit the dispensary often. The conservancy of the town and táluka is not good. The water-supply from wells and river is ample. The total treated was 5,332 out and 7 in-patients as compared with 6,149 and 6 in 1891 and 5,754 and 8 in 1890. The most common diseases were malarious fevers, rheumatic and respiratory affections, guinea-worms, intestinal worms, bowel-complaints and diseases of the stomach and skin. Malignant cholera and small-pox prevailed in a few villages of the táluka but not to a great extent. All the surgical operations performed during the year were minor. Vaccination is carried on by the táluka vaccinator. Four *post-mortem* examinations were made at the request of the police. The dispensary was inspected by the Civil Surgeon, Thána, and by the Deputy Sanitary Commissioner on the 23rd October and 28th November. The total cost was Rs. 1,013-3-10 and the cost per patient Re. 0-3-0, against Rs. 846-9-3 and Re. 0-2-2 in 1891 and Rs. 1,230-1-3 and Re. 0-3-4 in 1890.

BA'I SA'KARBA'I DISPENSARY, CHINCHNI.—*In charge of* Hospital Assistant MORESHVAR TRIMBAK SA'THE.

The dispensary building is in good repair. A dead-house and a store-room are much wanted. The furniture and fittings are in good order but insufficient. The dispensary

committee visited the dispensary monthly. The sanitary condition of the town is unsatisfactory. The water-supply is from wells and is good and abundant. The total number of patients treated was 10,806 out-door and 43 in-door as compared with 10,689 and 49 in 1891 and 11,868 and 49 in 1890. The prevailing diseases were malarial fevers, worms, diseases of the digestive and respiratory systems and skin diseases. There was no epidemic. 6 major and 532 minor surgical operations were performed. Three *post-mortem* examinations were held. Vaccination is carried out by the táluka vaccinator from house to house. The dispensary was inspected by the Civil Surgeon, Thána. The total cost was Rs. 1,462-7-0 and the cost per patient Re. 0-2-2, as compared with Rs. 1,555-15-6 and Re. 0-2-3 in 1891 and Rs. 1,630-9-3 and Re. 0-2-2 in 1890.

COWASJI DINSHAW PETIT DISPENSARY, UMBARGAON.—*In charge of* Hospital Assistant BA'PUJI JANA'RDHAN.

The buildings are in good repair. The committee visited the dispensary four times. Sanitary arrangements are not good. The water-supply is sufficient in quantity but inferior in quality. The total treated was 5,762 out-door and 86 in-door patients as compared with 5,848 and 97 in 1891 and 5,505 and 104 in 1890 respectively. The most common diseases were malarious fevers, worms, diseases of the respiratory and digestive systems and of the skin. Cholera prevailed in three villages only in this petha during the year; total attacks 88 and total deaths 30, but the town was free from the epidemic. Vaccination is performed by the táluka vaccinator. The Civil Surgeon of Thána inspected the dispensary in May. Three *post-mortem* examinations were made. The total cost was Rs. 1,708-15-1 and the cost per patient Re. 0-4-8, against Rs. 1,422-4-4 and Re. 0-3-9 in 1891 and Rs. 1,089-2-1 and Re. 0-3-1 in 1890.

SIR DINSHAW MA'NECKJI PETIT DISPENSARY, MURBA'D.—*In charge of* Hospital Assistant S. BA'LLU.

The dispensary buildings are in good repair. A store-room is much needed. The sanitary condition of the town is unsatisfactory. The town is non-municipal. There is only one sweeper for a population of about 3,000, and the consequence is a chance of private privies being at times unclean. The water-supply is very scanty during the hot season. The most common diseases were malarial fevers, skin diseases and diseases of digestive system. Cholera and small-pox were prevalent. Six *post-mortem* examinations were made at the request of the police. Vaccination is carried on by the táluka vaccinator. The total number of patients treated was 3,070 out-door and 1 in-door against 2,770 and 10 in 1891 and 2,582 and 5 in 1890. The dispensary was inspected by the District Revenue officers, the Deputy Sanitary Commissioner and the Civil Surgeon, Thána. The dispensary committee visited the dispensary frequently. The total cost was Rs. 955-0-9 and the cost per patient Re. 0-4-11, as compared with Rs. 975-10-10 and Re. 0-5-7 in 1891 and Rs. 1,274-14-3 and Re. 0-7-10 in 1890.

NASARVA'NJI MA'NEKJI PETIT DISPENSARY, VA'DA.—*In charge of* Hospital Assistant JETHA'BHA'I BA'BERBHA'I.

The dispensary was opened in 1891 and is in good repair. The dispensary committee visited the dispensary twice. Sanitation of the town is unsatisfactory. Water-supply from wells is insufficient and not of good quality. The total number treated was 3,412 out-door and 18 in-door patients as compared with 1,530 and 2 in 1891. The prevailing diseases were ague, dyspepsia, constipation, colic, ringworm and scabies. There were epidemics of cholera and measles in the town. The dispensary was inspected by the Civil Surgeon, Thána, in December. The total cost for the year was Rs. 1,382-5-10 and the cost per patient Re. 0-6-5.

EDALJI FRA'MJI ALLBLESS TROMBAY LEPER HOME—*In charge of* Mr. P. J. CREADO.

The buildings were kept clean and in good order. The site is all that could be desired. The Archbishop of Bombay is Patron and the institution is managed by a committee appointed for the purpose who held meetings when necessary. The sanitary condition of the home is well attended to. Water-supply is not what it ought to be, and this cannot be remedied except by the introduction of Vehár water, for which there are no funds available. There were 25 lepers treated against 29 in 1891 and 42 in 1890. The total cost was 6,031-4-11 and the cost per patient Rs. 241-4-0, as compared with Rs. 5,787-14-1 and Rs. 199-9-3 in 1891 and Rs. 5,264-10-1 and Rs. 125-5-6 in 1890.

ENDOWED DISPENSARIES.

RUSTOMJI WA'DIA DISPENSARY, THA'NA.—*In charge of* Assistant Surgeon F. A. Moos, L.M. & S.

The building is in good repair and conveniently situated, but unsuitable for dispensary purposes. Conservancy defective. Water-supply fair in quality and ample for drinking

purposes. The dispensary committee met three times. The number of out-door patients treated was 10,572 against 10,705 and 7,618 in 1891 and 1890. The most common diseases were malarial fevers, diarrhœa, dysentery, bronchitis, rheumatism, ringworm, scabies and injuries. Cholera prevailed in the town in July and August. There were 14 cases treated at the dispensary with 8 deaths. One major and 142 minor surgical operations were performed. The dispensary was inspected by the Civil Surgeon, Thána, and by the Surgeon-General with the Government of Bombay. The total cost was Rs. 5,359-8-0 and the cost per patient Re. 0-8-1, as compared with Rs. 4,143-2-2 and Re. 0-6-2 in 1891 and Rs. 5,051-8-10 and Re. 0-10-7 in 1890.

RUKMINIBÁI DISPENSARY, KALYA'N.—*In charge of* Assistant Surgeon R. R. DA'DINA, L.M.

The dispensary building and out-houses are in a good state of repair. Some of the articles of furniture are old and require to be renewed. The dispensary committee met four times and have shown fair interest in its work. The chief sanitary want of the town is a good water-supply, for which plans and estimates have been forwarded to the Sanitary Board for approval. The total number of patients treated was 6,536 out-door and 90 in-door as compared with 7,028 and 111 in 1891 and 5,366 and 79 in 1890. The daily average attendance was 73·1 out-door and 2·96 in-door patients. The most common diseases were ague, worms, bronchitis and diarrhœa. Twenty-five cases of cholera were noticed in the town in September last, with 20 deaths. Eight major and 190 minor surgical operations were performed. The number of *post-mortem* examinations made was 11. The dispensary was inspected by the Civil Surgeon, Thána, on 23rd December. The total cost was Rs. 5,709-1-3 and the cost per patient Re. 0-13-9, as compared with Rs. 4,973-5-10 and Re. 0-11-1 in 1891 and Rs. 5,358-13-9 and Re. 0-15-8 in 1890.

MITHIBA'I HORMASJI DISPENSARY, KURLA.—*In charge of* Assistant Surgeon NUSSERWA'NJI DHANJISHA, G.G.M.C.

The building and out-houses are conveniently situated and kept in good order. The committee visited the dispensary every 2 or 3 months. Much improvement in the sanitary condition of the town has been effected by extension of Vehár water-supply, removal of night-soil to the Bombay municipal pits at Chembur, and building of public and private latrines at the expense of the people and the Municipality. The total treated was 10,945 out-door and 5 in-door patients as compared with 9,278 and 7 in 1891 and 8,773 and 11 in 1890. The most common diseases were malarial fevers, skin diseases, diarrhœa, diseases of the respiratory and digestive systems and worms. There was no epidemic. 8 major and 237 minor surgical operations were performed. Vaccination is carried on by the Vaccination Department. One *post-mortem* examination was made and opinion given in many medico-legal cases. The dispensary was inspected by the Civil Surgeon, Thána. The total cost was Rs. 5,495-3-2 and the cost per patient Re. 0-8-0, against Rs. 5,342-9-5 and Re. 0-9-2 in 1891 and Rs. 5,741-12-10 and Re. 0-10-5 in 1890.

KOLA'BA COLLECTORATE.

GRANT-IN-AID DISPENSARIES.

PEN.—*In charge of* Hospital Assistant MA'NA'JI CADAM.

The building, a hired one, has neither been repaired nor white-washed since April 1891. The furniture is insufficient. The sanitation and conservancy of the town are not satisfactory. The water-supply is good and sufficient. The general health of the town and district was good. There was no epidemic, but there were a few cases of small-pox and measles in the town. The total number of patients treated was 8,816 out-door and 11 in-door as compared with 8,913 and 37 in 1891 and 9,681 and 44 in 1890. The most common diseases were malarious fevers, intestinal worms, rheumatic pains, conjunctivitis, inflammation of the external ear, bronchitis, bowel-complaints and skin diseases. There were 10 major and 100 minor surgical operations performed. Vaccination was carried out by the municipal vaccinator. Ten medico-legal cases were examined and reported on at the request of the police. The dispensary was inspected by the Assistant Surgeon, Alibág, on 23rd January, and by the Deputy Sanitary Commissioner, Western Registration District, on 23rd December. The total cost was Rs. 1,744-4-6 and the cost per patient Re. 0-3-2, against Rs. 2,085-6-11 and Re. 0-3-8 in 1891 and Rs. 1,770-9-5 and Re. 0-2-10 in 1890.

MAHA'D.—*In charge of* Hospital Assistant RA'MCHANDRA WA'RANG.

The building and out-houses are in excellent repair. The dispensary committee and individual members visited the institution nine times. The sanitary condition is good. The water-supply is sufficient. The total treated was 6,729 out-door and 35 in-door patients as compared with 9,497 and 51 in 1891 and 7,716 and 38 in 1890. The most common diseases were intestinal worms, malarious fevers, diseases of the eye, ear and skin. Among the in-door patients one death occurred from tetanus. There was no epidemic. Nine major surgical operations were performed. Vaccination is carried on by

the táluka vaccinator. Five *post-mortem* examinations were made and opinion given in fifteen medico-legal cases. The Assistant Surgeon, Alibág, inspected the dispensary in February. The total cost was Rs. 1,374-6-2 and the cost per patient Re. 0-3-3, against Rs. 1,453-6-2 and Re. 0-2-5 in 1891 and Rs. 1,831-5-5 and Re. 0-3-9 in 1890.

PANVEL.—*In charge of* Hospital Assistant AARON SAMSON.

The building is in a rather dilapidated condition and requires repairs. The want of quarters for dispensary servants still continues. The committee held four meetings and the Vice-President and the Chairman visited the dispensary once during the year. The sanitary condition of the town is fair. The water-supply insufficient. The new scheme of water-works will commence in the current year. The total treated was 8,517 out-door and 15 in-door patients as compared with 7,235 and 23 in 1891 and 6,306 and 18 in 1890. The most common diseases were malarious fevers, diseases of the skin and of the digestive system, worms, respiratory and rheumatic affections, local injuries and diarrhœa. Cholera was prevalent in the town and adjoining villages. Sixty-seven cases were treated in the town with 16 deaths. Small-pox and measles were prevalent from February to June. Nine major surgical operations were performed. Vaccination is carried on by the táluka vaccinator. Four *post-mortem* examinations were made at the request of the Police. The dispensary was inspected by the Assistant Surgeon, Alibág, on the 15th January and by the Deputy Sanitary Commissioner on the 20th December. The total cost was Rs. 795-11-2 and the cost per patient Re. 0-1-5 against Rs. 1,292-14-4 and Re. 0-2-10 in 1891 and Rs. 1,242-8-3 and Re. 0-3-1 in 1890.

ENDOWED DISPENSARY.

MRS. P. D'SOUZA DISPENSARY, URAN.—*In charge of* Assistant Surgeon M. S. POSTWÁLA, L.M.

The dispensary building is very old and unfit for its purpose. The erection of a new building, on the same spot, is under contemplation, and about Rs. 4,000 have been subscribed by the public for its erection. The committee visited the dispensary regularly every month. The sanitary condition of the town is fair, but the water-supply from tanks and wells liable to contamination. The total treated was 5,131 out-door and 1 in-door patients against 4,775 and *nil* in 1891 and 5,131 and 3 in 1890. The most common diseases were malarious fevers, bronchitis, diarrhœa, intestinal worms and skin diseases. Nine major surgical operations were performed. Vaccination is carried on by the táluka vaccinator. Opinion was given in several medico-legal cases. The dispensary was inspected by the Assistant Surgeon, Alibág. The total cost was Rs. 4,583-8-1 and the cost per patient Re. 0-14-3, as compared with Rs. 5,037-7-8 and Rs. 1-0-10 in 1891 and Rs. 4,240-14-6 and Re. 0-13-2 in 1890

GOVERNMENT DISPENSARIES.

ALIBA'G.—*In charge of* Assistant Surgeon M. F. PEREIRA, L.M.

The dispensary buildings were in good repair. A female ward was added during the year. It is to be furnished by the local board in April next. A few chairs, a press and bedding and clothing for 8 in-patients are needed. The sanitary condition of the town was good. The Eshwi water-works require improvement, as the supply runs short in the hot season. Well water is abundant but brackish. The total treated was 10,001 out-door and 33 in-door patients as compared with 9,342 and 49 in 1891 and 9,725 and 38 in 1890. The prevailing diseases were malarial fevers, bronchitis, rheumatism, dysentery, diarrhœa and worms. Cholera prevailed in August, causing 27 attacks and 21 deaths. Four major surgical operations were performed. Two bodies were examined at the request of the police. The Collector visited the dispensary twice during the year. The total cost was Rs. 5,047-7-8 and the cost per patient Re. 0-8-6 against Rs. 5,203-11-2 and Re. 0-8-10 in 1891 and Rs. 5,209-4-2 and Re. 0-8-6 in 1890.

MA'THERA'N.—*In charge of* Surgeon-Captain J. P. BARRY, M.B.

The dispensary is situated in one of the rooms of the Superintendent's office. There is no accommodation for in-patients. There is no committee. The sanitary condition of the hill is good. The water-supply good and sufficient. No epidemic. The total number of patients treated was 1,192 out-door against 1,159 in 1891 and 1,057 in 1890. The most common diseases were worms (ascaris lumbricoides), malarious fevers, respiratory affections, skin diseases, bowel-complaints and rheumatism. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Surgeon-General with the Government of Bombay on 11th November. The total cost was Rs. 820-7-2 and the cost per patient Re. 0-11-0, as compared with Rs. 855-9-11 and Re. 0-11-9 in 1891 and Rs. 864-3-2 and Re. 0-13-0 in 1890.

RATNÁGIRI COLLECTORATE.

CIVIL HOSPITAL, RATNA'GIRI.—*In charge of* Surgeon-Captain W. E. JENNINGS, M.B., C.M.

Conservancy.—The conservancy of the town has been bad during the past three years owing to poverty of the Municipality as well as to general indifference regarding matters of health. In 1891, latrines were erected for the police force but none for the people, though urgently required. At present every available corner is fouled by excreta, as well as the nálás, rice fields and seashore. The drains are in bad repair and are receptacles for sewage from about 150 private privies, which are only nominally attended to by a very small staff of sweepers. Beyond the erection of latrines for the police force, there has been no improvement.

Water-supply.—Is inadequate though of good quality, some extension of the water-works is now in progress, and it is hoped that the supply will soon be sufficient.

Hospital buildings.—Substantial flooring and roofing is urgently required, as well as some separate accommodation for eye cases, cases of insanity and out-patients. A very good office and operating room was added in 1891. The appearance of the hospital is spoilt by irregular buildings occupied by Hospital Assistants.

General health.—Fair only, there being much dysentery after the rains. There were out-breaks of cholera in Málvan and in Kálbádevi.

Attendance of patients.—There were 110 in-door and 7,427 out-door patients against 114 and 6,855 in 1891 and 127 and 6,077 in 1890.

Most common diseases.—Malarial fevers, worms and respiratory affections.

Surgical operations.—22 major and 263 minor surgical operations against 38 and 240 respectively in 1891.

Mortality and its causes.—There were 7 deaths,—2 due to phthisis, 1 to pyœmia, 1 to apoplexy, 2 to anæmia and 1 to tetanus.

Vaccination.—Is carried out by the táluka vaccinator.

Conduct of establishment.—Is reported to be most satisfactory.

Cost.—The total cost was Rs. 4,349-7-7 and the cost per patient Re. 0-9-3, as compared with Rs. 9,641-4-8 and Rs. 1-6-1 in 1891 and Rs. 12,532-8-2 and Rs. 2-0-3 in 1890.

SIR DINSHAW MA'NECKJI PETIT LEPER HOSPITAL, RATNA'GIRI.—*In charge of* Surgeon-Captain W. E. JENNINGS, M.B., C.M.

Conservancy.—Is satisfactory, being effected by the dry-earth system.

Water-supply.—From a well just outside the asylum compound, is of good quality and sufficient in quantity for the greater part of the year.

Hospital buildings.—Are in good order. Substantial flooring is now being added to prevent the usual dampness in the coming monsoon. Accommodation ample.

Number of patients.—The number of patients remaining on 31st December 1891 was 39, and 50 were admitted during the year, making a total of 89 treated against 78 in 1891 and 71 in 1890. The daily average sick was 53·3 against 44·3 in 1891 and 45·8 in 1890. No fewer than 40 cases absconded during the year.

Mortality and its causes.—There were 10 deaths, all from exhaustion, there being many cases of ulceration and gangrenous ulcers. There was no suicide.

Conduct of establishment.—Satisfactory.

Cost.—The total cost was Rs. 4,984-8-9 and the cost per patient Rs. 56-0-1 against Rs. 4,034-9-6 and Rs. 51-11-7 in 1891 and Rs. 4,277-4-10 and Rs. 60-3-10 in 1890.

WESTROPP HOSPITAL, SÁVANTVA'DI.—*In charge of* Dr. D. G. DALGADO, M.D.

Conservancy.—Is well attended to; the night-soil is removed to a distant locality so as not to interfere with public health.

Water-supply.—Is obtained from public and private wells. New water-works will be completed in a few months.

Hospital buildings.—Are in excellent repair and quite sufficient for all the purposes. A new ward for paying patients was built at the expense of the medical officer in 1891.

General health.—Good. There was no epidemic of any kind since that of influenza in 1890.

Attendance of patients.—In-door 621 and out-door 6,792 against 502 and 6,727 in 1891 and 464 and 6,743 in 1890.

Prevailing diseases.—Ague, ascaris lumbricoides, bronchial catarrh and bowel-complaints.

Surgical operations.—18 major and 371 minor operations were performed against 14 and 319 in 1891 respectively. Among the major were 5 tapping of abscesses of the liver, 4 reductions of dislocations, 3 removal of humerus, 2 tapping of bladder above the pubes, 2 opening of abscesses in the pelvis, 1 amputation and 1 craniotomy.

Mortality and its causes.—There were among in-patients 28 deaths against 17 in 1891. The causes of death were pneumonia 4, dysentery and convulsions 3 each, bronchitis and angina pectoris 2 each, and the remaining to various other causes.

Vaccination.—Has been performed since November 1889 by a separate department under the direct supervision of the State Inspector of Vaccination. In the town there were 297 primary and 53 secondary vaccinations and in the districts 6,205 and 464 respectively.

Medico-legal cases.—Thirty-one medico-legal cases were examined and reported on and 7 *post-mortem* examinations held.

Conduct of the establishment.—Quite satisfactory.

Cost.—The total cost was Rs. 4,046-5-10 and the cost per patient Re. 0-8-9, as compared with Rs. 9,797-13-11 and Rs. 1-5-8 in 1891 and Rs. 8,081-14-8 and Rs. 1-1-11 in 1890.

GRANT-IN-AID DISPENSARIES.

DÁPOLI.—*In charge of* Hospital Assistant GOPA'L HARI.

The dispensary building is in good repair. Quarters are required for 1st and 2nd class dispensary establishment. There is no dispensary committee. The conservancy of the town is carried on by the Municipality. The general health of the town was good. The water-supply for drinking purposes is abundant and of good quality. The total treated was 4,543 out-door and 34 in-door patients as compared with 4,544 and 40 in 1891 and 4,467 and 44 in 1890. The prevailing diseases were malarious fevers, rheumatic and respiratory affections, and diseases of the digestive system. The town was free from epidemic disease. There were 4 major and 126 minor surgical operations performed. Six *post-mortem* examinations were made at the request of the police and opinion was given on 7 medico-legal cases. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Ratnágiri, on the 20th January, and by the Deputy Sanitary Commissioner, Central Registration District, on the 13th April. The total cost was Rs. 1,471-4-8 and the cost per patient Re. 0-5-2, against Rs. 1,762-3-6 and Re. 0-6-1 in 1891 and Rs. 1,490-2-4 and Re. 0-5-3 in 1890.

CANDY DISPENSARY, VENGURLA.—*In charge of* Assistant Surgeon C. M. RODRIGUES.

The buildings are in good condition. The conservancy of the town is defective. Water supply is good and abundant. There was no epidemic. General health of the town good. The dispensary committee visited the dispensary 9 times during the year. The total treated was 5,429 out and 143 in-door patients as compared with 5,304 and 127 in 1891 and 5,330 and 122 in 1890 respectively. The prevailing diseases were malarious fevers, rheumatic, bronchial and neuralgic affections, worms and skin diseases. Ten major surgical operations were performed. Vaccination is carried on by the municipal vaccinator. Five *post-mortem* examinations were made. Opinion was given on 9 medico-legal cases. The dispensary was inspected by the Civil Surgeon, Ratnágiri, on the 20th April. There were 5 deaths. The total cost was Rs. 2,990-7-5 and the cost per patient Re. 0-8-7, as compared with Rs. 2,789-10-0 and Re. 0-8-2 in 1891 and Rs. 2,497-2-4 and Re. 0-7-3 in 1890.

RÁJA'PUR.—*In charge of* Hospital Assistant GANESH BÁBÁJI.

The dispensary buildings are in good repair, but some repairs to the Hospital Assistant's quarters are urgently needed. A small cook-room is required for in-patients. The furniture, fittings, &c., are sufficient, with the exception of a small cupboard for poisons which is much required. The dispensary committee visited the dispensary three times. The conservancy of the town is fair as regards surface cleaning, but public latrines are wanted. Water-supply from a main reservoir is abundant and of good quality; but there are a few wells in the town which, in the rainy season, allow pollution by soakage. The total treated was 4,478 out-door and 28 in-door patients as compared with 3,933 and 31 in 1891 and 3,695 and 28 in 1890 respectively. The most common diseases were malarious fevers, worms, rheumatism and lung and skin diseases. The town was free from epidemic. Vaccination is carried out by the táluka vaccinator. Four *post-mortem* examinations were made and opinion given in 11 medico-legal cases. 163 minor and 1 major surgical operations were performed. The total cost was Rs. 1,420-15-7 and the cost per patient Re. 0-5-1 as compared with Rs. 1,434-2-1 and Re. 0-5-9 in 1891 and Rs. 1,090-2-4 and Re. 0-4-8 in 1890.

MUNICIPAL DISPENSARY.

CHIPLUN.—*In charge of* Mr. DWÁRKÁNÁTH RAMÁKÁNT BHENDE.

This institution is shown in the report for the first time. The dispensary building is in good repair. Furniture and fittings are in good order, but the former is insufficient. The municipal committee does not visit the dispensary. Conservancy arrangements of the town are well attended to. Water-supply from wells supplemented by pipes is abundant and good. That from the pipes is liable to pollution from March to May. The total treated was 1,782 out-door patients during 1892. The most common diseases were malarious fevers and bowel-complaints. Two minor surgical operations were performed. Opinion was given on some medico-legal cases. Vaccination is carried out by the táluka vaccinator. The total cost was Rs. 683-12-2 and the cost per patient Re. 0-6-2.

KA'RWÁR COLLECTORATE.

CIVIL HOSPITAL, KÁRWÁR.—*In charge of* Surgeon Lieutenant-Colonel J. A. HOWELL.

Conservancy—There has been no change for the last three years. It is well looked after by the Municipality. Night-soil is daily removed and buried at a distance, so as not to interfere with public health.

Water-supply.—From wells, which are covered and looked after. There has been no change in the water-supply.

Hospital building.—In good order. Accommodation for 28 males and 7 females.

General health.—Good. No epidemic of any kind. Syphilis was common and seen in its various forms in a large portion of the attendants at the hospital.

Attendance of patients.—Out-door 8,941 and in-door 491 as compared with 9,242 and 318 in 1891 and 7,659 and 358 in 1890.

Prevailing diseases.—Malarious fever, chiefly of intermittent variety, ascaris lumbricoides, bronchial catarrh and scabies.

Surgical operations.—There were 19 major and 175 minor operations against 10 and 196 in 1891 and 13 and 120 in 1890 respectively.

Mortality.—The total number of deaths was 11 as compared with 16 in the preceding year. The causes were dysentery 5, and scrofula, anæmia, bronchitis, hydrophobia, abscess of thigh and foreign body (æsophagus) 1 each.

Medico-legal cases.—Three bodies were sent by the police for examination.

Vaccination.—Is carried out by the municipal vaccinator. There were 586 primary and 106 secondary vaccinations of which 639 were successful, 37 unsuccessful, and the result was not known in 16 cases.

Conduct of establishment.—The hospital assistants attached to the hospital conducted their duties satisfactorily.

Cost.—The total cost was Rs. 3,533-14-11, and the cost per patient Re. 0-6-0, against Rs. 9,963-7-2 and Re. 1-0-8 in 1891 and Rs. 11,136-5-7 and Rs. 1-6-2 in 1890.

GRANT-IN-AID DISPENSARIES.

KUMTA.—*In charge of* Assistant Surgeon BHÁU GOVIND.

The dispensary buildings are in good repair. The dispensary latrines were thoroughly repaired and their roofs renewed, and new privies were added to the Medical Officer's quarters. The dispensary committee visited the dispensary four times. The conservancy arrangements are not quite satisfactory. The water-supply from wells is plentiful, but not pure in quality. Public health was on the whole fair. The total treated was 5,303 out-door and 49 in-door patients against 5,225 and 45 in 1891 and 5,633 and 36 in 1890. The daily average attendance was 54·4 as compared with 61·4 in 1891. The most common diseases were malarial fevers, intestinal worms, digestive disorders, respiratory affections, skin diseases and injuries. No epidemic visited the town or its district. Vaccination is performed by the táluka vaccinator. 11 major and 233 minor surgical operations were performed. There were 7 medico-legal cases examined and reported on at the request of the police. The dispensary was inspected by the Civil Surgeon, Kárwár, on the 22nd September. The total cost of the institution was Rs. 3,069-7-10, and the cost per patient Re. 0-9-2, as compared with Rs. 2,816-1-5 and Re. 0-8-6 in 1891 and Rs. 3,406-6-7 and Re. 0-9-7 in 1890.

HONÁVAR.—*In charge of* Hospital Assistant S. SAMSON.

The dispensary buildings are in good repair. The furniture and fittings are sufficient. The committee visited the dispensary frequently. The conservancy is well attended to. The water-supply is from the wells and is sufficient except during the hot season. It is however liable to contamination by soakage. The total treated was 4,146 out-door and 37 in-door patients as compared with 3,723 and 44 in 1891 and 3,186 and 45 in 1890. The prevailing diseases were malarial fevers, intestinal worms, bowel-complaints and skin diseases. No epidemic during the year. Vaccination is performed by the Local Fund Vaccinator. Three *post-mortem* examinations were made at the request of the police. The dispensary was inspected by the Civil Surgeon, Kárwár, in November. The total cost was Rs. 989-2-5 and the cost per patient Re. 0-3-9, against Rs. 1,024-14-10 and Re. 0-4-4 in 1891 and Rs. 1,228-4-2 and Re. 0-6-0 in 1890,

SUPA.—*In charge of* Hospital Assistant DATTATRAYA GANESH.

The building is in good repair. The Hospital Assistant's quarters are in want of repair. The committee visited the dispensary 11 times. The conservancy of the town is not well attended to. Water-supply is abundant but liable to pollution from soakage. The total

treated was 1,437 out-door and 77 in-door patients as compared with 1,220 and 14 in 1891 and 1,026 and 10 in 1890. The prevailing diseases were malarious fevers, worms, diseases of the digestive system and skin diseases. A few cases of epidemic cholera occurred in the villages adjacent to the railway station. Vaccination was performed by the petha vaccinator. 1 major and 31 minor surgical operations were performed. The dispensary was inspected by the Civil Surgeon, Kárwár, in October. The total cost was Rs. 900-14-0 and the cost per patient Re. 0-9-6, against Rs. 910-3-7 and Re. 0-11-9 in 1891 and Rs. 930-7-11 and Re. 0-14-4 in 1890.

HALIYA'L.—*In charge of* Hospital Assistant H. T. CHANDORKAR.

Buildings are in good repair, but quarters for peon and sweeper are much wanted. The dispensary committee held four meetings. The conservancy of the town is looked after by the Municipality, but there is no Halálkhor service the want of which is much felt. The water-supply is sufficient but liable to contamination by soakage. The total treated was 4,250 out-patients and 69 in-patients with a daily average attendance of 35·7 and 2·8, against 3,383 and 49, 27·4 and 1·7 in 1891 and 2,649 and 80, 21·8 and 3·0 in 1890. The most common diseases were malarial fevers, intestinal worms, diseases of the skin and digestive system. There were 55 cases of cholera with 29 deaths. Vaccination was carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon of Kárwár in August. The total cost was Rs. 1,252-13-4 and the cost per patient Re. 0-4-8, against Re. 858-7-11 and Re. 0-4-0 in 1891 and Rs. 949-3-11 and Re. 0-5-6 in 1890.

SIRSI.—*In charge of* Assistant Surgeon V. B. KARANDIKAR, B.A., L.M. & S.

The dispensary building proper alone is in good condition. All the other buildings require extensive repairs to the roofs. The dispensary committee met four times. Sanitary arrangements of the town are not satisfactory. The water-supply is abundant but liable to contamination by soakage in the case of wells and in the case of tanks by people getting into them for various purposes. The Municipality intends closing one of the most popular and frequented tanks by the erection of a parapet wall. The total treated was 10,413 out-door and 94 in-door patients against 9,483 and 83 in 1891 and 10,301 and 125 in 1890. The most common diseases are malarial fevers, worms and diseases of the skin and of the digestive and nervous systems. There was slight epidemic of cholera in the months of February, June and July. Ten major surgical operations were performed. Vaccination is conducted by the táluka vaccinator. Four *post-mortem* examinations were performed at the request of the police. The total cost was Rs. 2,819-6-5 and the cost per patient Re. 0-4-4, as compared with Rs. 3,023-15-2 and Re. 0-5-0 in 1891 and Rs. 2,502-5-0 and Re. 0-3-10 in 1890.

YELLÁPUR.—*In charge of* Hospital Assistant M. JOHNSTONE.

The dispensary building is in good condition and suitable for the purpose. The proposal to surround the hospital compound with iron railing has not yet been carried out. The committee visited the dispensary six times. The sanitary arrangements are fair. The town is kept fairly clean. There are no latrines and the people resort to the neighbouring jungles for natural purposes. The water-supply from wells and tank is fairly good and sufficient. The total treated was 1,975 out-door and 13 in-door patients as compared with 2,077 and 54 in 1891 and 2,193 and 53 in 1890. The most common diseases were malarial fevers, ascaris lumbricoides, rheumatic affections, diarrhœa, bronchitis and itch. Cholera to a slight extent occurred during the year, being imported from Hubli side, but subsided in a few days. Vaccination is carried out by the táluka vaccinator. The total cost was Rs. 1,424-2-1 and the cost per patient Re. 0-11-6, as compared with Rs. 1,194-12-10 and Re. 0-8-11 in 1891 and Rs. 1,146-9-9 and Re. 0-8-2 in 1890.

SIDDÁPUR.—*In charge of* Hospital Assistant RA'MCHANDER BA'LA'JI.

The dispensary building is situated on a good airy site and is kept in good repair. The furniture and fittings are sufficient. The committee visited the dispensary 9 times. The town is kept fairly clean. The water-supply is sufficient and good. The total number of patients treated was 2,565 out-door and 57 in-door, against 2,907 and 60 in 1891 and 2,853 and 46 in 1890. The most common diseases were malarious fevers, rheumatic affections, dysentery, respiratory affections and diseases of the stomach and bowels. The town was free from small-pox, but the disease prevailed in the surrounding villages. Four *post-mortem* examinations were made. Thirty-eight minor surgical operations were performed. The Civil Surgeon, Kárwár, inspected the dispensary on 8th December. The Collector, the First Assistant Collector and the Deputy Sanitary Commissioner visited the dispensary also. The total cost was Rs. 1,244-2-4 and the cost per patient Re. 0-7-7, as compared with Rs. 932-9-7 and Re. 0-5-0 in 1891 and Rs. 1,188-14-2 and Re. 0-6-6 in 1890.

GOVERNMENT DISPENSARY.

MUNDGOD.—*In charge of* Hospital Assistant D. NA'RA'YENRA'O.

The building is in good repair. The dispensary committee, which was formed in December 1891, visited the dispensary once in 1891 and 8 times during 1892. The sanitary condition of the town is fair and the water-supply from tanks is sufficient but not good. The total treated was 2,025 out-door and 34 in-door patients as compared with 2,572 and 42 in 1891 and 2,677 and 88 in 1890 respectively. Malarial fevers, worms, skin diseases, conjuctivitis, bowel-complaints and ulcers were the most common diseases. Cholera occurred both in the town and in the adjoining villages; in the station alone 24 died out of 48 attacked. A few cases of small-pox, chicken-pox and measles also occurred in the town. One *post-mortem* examination was made and opinion given in two medico-legal cases. The dispensary was inspected by the Civil Surgeon of Kárwár in January. Vaccination is conducted by the petha vaccinator. The total cost was Rs. 1,021-4-0 and the cost per patient Re. 0-7-11, against Rs. 860-6-11 and Re. 0-5-3 in 1891 and Rs. 818-7-6 and Re. 0-4-8 in 1890.

DECCAN.

POONA COLLECTORATE.

DAVID SASSOON GENERAL HOSPITAL, POONA.—*In charge of* Brigade Surgeon (now Surgeon-Colonel) D. E. HUGHES, M.D., F.R.C.S., up to 10th September 1892, of Surgeon-Captain W. H. BURKE, M.B., till 31st September 1892, and Surgeon-Lieutenant-Colonel W. MCCONAGHY, M.D., since 1st October 1892.

Conservancy.—In the city a conservancy establishment is maintained at a yearly cost of Rs. 87,132. 78 public latrines and 70 urinaries are maintained. In the Cantonment the work is done departmentally. The hospital conservancy is very satisfactorily attended to by the hospital establishment. Surface drainage works are in progress in the city.

Water-supply.—Is sufficient and of good quality. The city is supplied by aqueducts from the Kátraj Lake and by canal from Khadakvásla Lake. Water from a well in Ráste's Peith and from the River Mutha is also used to a certain extent. The river receives the town drainage and is consequently much contaminated, but its water is chiefly used for bathing and washing purposes. The hospital is supplied by pipes from the Khadakvásla Lake.

Hospital buildings.—The buildings generally are in good order. The following additions were made, *viz.*, enlargement of quarters for nurses.

General health.—Has been good, though cholera occasionally occurred, especially after the fairs held at Pandharpur and other towns in the Deccan. Malarial fevers predominate, anæmia and scurvy are common, and syphilis also largely affects the population.

Details of treated.—The total number of patients treated was 2,601 in-door and 12,537 out-door as compared with 2,690 and 11,829 in 1891 and 2,449 and 10,909 in 1890.

Prevailing diseases.—Dysentery, malarial fevers, syphilis, gonorrhœa, rheumatic affections, diseases of the nervous, respiratory, digestive and generative systems and of the skin and injuries.

Mortality and its causes.—There were 217 deaths. The principal causes of mortality were malarial fevers 24, dysentery 23, cholera 17, poisons and diarrhœa 14 each, pneumonia 13, injuries 12, peritonitis 9, bronchitis 8, tetanus and valvular disease of the heart 6 each, secondary syphilis and bowel perforation 5 each.

Surgical operations.—210 major and 1,106 minor operations were performed against 177 and 573 in 1891. Of the former 10 were for removal of tumours (including 2 amputations of breast), 35 for opening of large abscesses (including 13 hepatic abscesses—9 opened by free incision and 4 by aspiration), 24 eye operations, 3 for tracheotomies, 41 lithotomies, 13 amputations, and ligature of subclavian artery, lumber colotomy, laparotomy and litholapaxy 1 each. There were 66 cases of labour, of which 48 were natural and 18 delayed.

Vaccination.—Is regularly performed every Monday morning by a vaccinator of the Sanitary Department very satisfactorily. Lymph from the calf is exclusively used.

Medico-legal cases.—There were 47 dead bodies examined at the request of the police, *viz.*, 28 males, 6 females, 5 children and 8 fœtuses. The causes of death were fœtuses and stillborn 7, poisoning by opium 6, violence 7, drowning 4 and burns 1.

Conduct of the establishment.—The Civil Surgeon speaks very highly of the great care and ability with which Surgeon-Captain W. H. Burke performed the duties of Assistant Civil Surgeon. 1st Grade Apothecary W. Church, who succeeded Senior Apothecary W. Fearn on 14th September 1892, is also well reported on. 1st Class Assistant Surgeon Ráo Sáheb Bhikáji Amrut Chobbe has worked with his usual zeal and ability, and Assistant Surgeon D. G. Sabnis has performed his duties very satisfactorily. The second class establishment have conducted themselves satisfactorily.

The nursing of the hospital is under the direction and supervision of the Wantage Sisters whose devotion to the sick and suffering merits all praise.

Cost.—The total cost was Rs. 30,344-8-0 and the cost per patient Rs. 2-0-1, against Rs. 48,662-3-6 and Rs. 3-5-8 in 1891 and Rs. 51,535-10-1 and Rs. 3-13-8 in 1890. The cost of each diet for Europeans was Re. 0-7-9 and for Natives Re. 0-3-4, as compared with Re. 0-7-6 and Re. 0-3-4 in 1891 and Re. 0-9-2 and Re. 0-4-1 in 1890.

ROMAN CATHOLIC ORPHANAGE SCHOOL, POONA.—*In charge of* Surgeon-Major G. H. BULL, M.D.

Conservancy.—The latrines for boarders and day scholars are emptied twice daily and the surroundings are kept clean.

Water-supply.—By pipes from Khadakvásla is very good and abundant.

Hospital buildings.—There is no regular hospital building. The sick children are treated in a well ventilated room in the upper story of the school. A new cook-room was built in 1892.

Cases of a contagious nature are transferred to a building called the Saint Anne's School.

General health.—Has been excellent.

Details of treated.—111 cases were treated against 311 in 1891 and 440 in 1890 for ague and bronchial catarrh.

Mortality.—There were no deaths in 1892 but one death took place from double pneumonia during the month of May 1891. One of the nuns who had been ill for ten months also died from old age and general debility with cardiac dropsy on the 23rd September 1891.

Vaccination.—Is always carefully attended to. Children on admission to the school are examined for vaccination marks and are vaccinated if necessary.

Conduct of establishment.—Has been satisfactory.

Remarks.—First Class Hospital Assistant Shadickji Israil was relieved by First Class Hospital Assistant Venkáji Devji on the 20th December 1892.

Cost.—The total cost was Rs. 1,155-3-1 and the cost per patient Rs. 10-6-6, as compared with Rs. 1,283-12-4 and Rs. 4-2-0 in 1891 and Rs. 1,185-5-1 and Rs. 2-11-1 in 1890.

GRANT-IN-AID DISPENSARIES.

Sásvad.—In charge of Hospital Assistant Narsu Da'muji.

The building, a hired one, is in good repair. There is no accommodation for in-patients. The furniture and fittings are sufficient. The sanitary condition of the town is satisfactory. The water-supply from the river Kurah is good and sufficient but liable to pollution. The committee visited the dispensary seven times. The total treated was 13,168 out-door patients against 12,701 in 1891 and 9,609 in 1890. The prevailing diseases were ague, worms, rheumatic affections, diseases of the nervous system, eye and ear, repiratory and digestive systems and skin. There was no cholera during the year. Vaccination is conducted by the táluka vaccinator. 12 major and 928 minor surgical operations were performed. One *post-mortem* examination was made. The dispensary was inspected by the Civil Surgeon, Poona, in January. The total cost was Rs. 1,640-13-7 and the cost per patient Re. 0-2-0, as compared with Rs. 1,347-8-5 and Re. 0-1-8 in 1891 and Rs. 961-5-4 and Re. 0-1-7 in 1890.

Jejuri.—In charge of Hospital Assistant Trimbak Laxumon.

The dispensary building is in good repair; quarters for the medical officer were built in 1892 at the expense of the Municipality and are convenient and in good repair. The committee visited the dispensary 10 times. The sanitary condition of the town is fairly satisfactory but admits of much improvement. The water-supply from His Highness Holkar's tank is abundant but liable to contamination. The total number treated was 6,884 out-door and 9 in-door patients as compared with 7,423 and 9 in 1891 and 6,994 and 4 in 1890 respectively. The most common diseases were ascaris lumbricoides, conjunctivitis malarial fevers, diseases of the skin and of respiratory and the digestive systems. The town was free from epidemic disease. Seventeen major surgical operations were performed. Táluka vaccinator vaccinates children twice in each year. Three *post-mortem* examinations were made at the request of the police. The dispensary was inspected on 5th January by the Civil Surgeon, Poona. The total cost was Rs. 1,042-8-5 and the cost per patient Re. 0-2-5, against Rs. 1,031-8-11 and Re. 0-2-2 in 1891 and Rs. 913-7-11 and Re. 0-2-1 in 1890.

Bárámati.—In charge of Hospital Assistant Piráji Kámáji.

The building, a hired one, is at present in a bad state of repair. Steps have been taken to repair it; the dispensary is supplied with necessary furniture. The committee visited the dispensary eleven times. The sanitary condition of the town is fair. The water-supply from the river Karah and the Nira Canal is good and abundant, except in the hot season. The total number of patients treated was 4,102 out-door and 27 in-door patients as compared to 2,912 and 20 in 1891 and 3,300 and 28 in 1890. The prevailing diseases were malárial fevers, worms, rheumatic affections, diseases of the eye, ear, digestive system and the skin. Cholera broke out in the town at the end of July and lasted till the beginning of September; 17 persons were attacked and 5 died. 5 major and 292 minor surgical operations were performed. Vaccination is carried out by the táluka vaccinator. Five *post-mortem* examinations were made and opinions were given on seven medico-legal cases during the year. The dispensary was inspected by the Civil Surgeon, Poona, in December. The total cost was Rs. 1,034-10-10 and the cost per patient Re. 0-4-0, as compared to Rs. 1,172-1-0 and Re. 0-6-4 in 1891 and Rs. 1,167-7-2 and Re. 0-5-7 in 1890.

INDÁPUR.—*In charge of* Native Doctor R. MALHÁR.

The dispensary building, a hired one, is in tolerably good repair. The furniture and fittings are sufficient. The dispensary committee visited the dispensary twice. The sanitation of the town is well attended to, considering the means at the disposal of the Indápur Municipality. The water-supply is abundant and of fairly good quality. The total treated was 26 in-door and 6,670 out-door patients as compared with 30 and 6,528 in 1891 and 39 and 6,218 in 1890. The most common diseases were intermittent and remittent fevers, ascaris lumbricoides, rheumatism, conjunctivitis, bronchitis, dyspepsia and diarrhœa. The town and surrounding villages were free from epidemic disease. There were 3 major and 96 minor surgical operations performed. Vaccination is conducted by the táluka vaccinator. *Post-mortem* examinations were held on 6 human bodies and 5 cattle, and opinion given on several medico-legal cases. The dispensary was inspected on 6th December by the Civil Surgeon, Poona, by the Deputy Sanitary Commissioner, the Collector, the Assistant Collector, and the Superintendent of Police. The total cost was Rs. 1,422-15-4 and the cost per patient Re. 0-3-5, as compared with Rs. 1,121-1-0 and Re. 0-2-8 in 1891 and Rs. 1,087-8-1 and Re. 0-2-9 in 1890.

JUNNAR.—*In charge of* Hospital Assistant SHAIK ABDUL RAZAK.

The dispensary building is for out-patients only; there is no accommodation for in-door patients, neither is there a dead-house, cook-room, or quarters for the establishment. The committee visited the dispensary four times. Sanitation of the town is indifferent. Water-supply good and sufficient. The total treated was 5 in-door and 8,874 out-door patients against 9 in-door and 9,841 out-door in 1891 and 6,393 out-door patients in 1890. The most common diseases were ophthalmia, malarial fevers, skin diseases, intestinal worms, respiratory affections and diseases of the digestive system. There were 2,206 cases of cholera with 1,136 deaths in the táluka, including Junnar itself, in 1892. 7 major and 380 minor surgical operations were performed. Vaccination is carried on by the táluka vaccinator. Ten *post-mortem* examinations were made and opinion given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Poona, on the 13th February. The total cost was Rs. 866-3-5 against Rs. 850-5-10 in 1891 and Rs. 1,018-6-9 in 1890. The cost per patient was Re. 0-1-7 against Re. 0-1-4 in 1891 and Re. 0-2-6 in 1890.

KHED.—*In charge of* Hospital Assistant BHUYASING.

The dispensary building is in good repair. A female ward and quarters for the establishment are much required. A piece of land has been bought by the dispensary committee for the Hospital Assistant's quarters for Rs. 275 but is lying useless for want of funds. The dispensary committee visited the dispensary once. The sanitation of the town is fair; the water-supply was deficient owing to scanty rainfall, and wells had to be dug in the bed of the river. The total treated was 21 in-door and 5,940 out-door patients as compared with 55 and 5,469 in 1891 and 61 and 4,753 in 1890. The prevailing diseases were ophthalmia, worms, diseases of the digestive, respiratory and cutaneous systems, malarial fevers and local injuries. There were 2 deaths amongst in-door patients. There were performed 2 major and 88 minor surgical operations. Three *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Poona, on the 13th January. Vaccination is performed by the Local Fund Vaccinator from house to house. The total cost was Rs. 955-8-6 and the cost per patient Re. 0-2-7, against Rs. 1,200-4-9 and Re. 0-3-5 in 1891 and Rs. 979-9-0 and Re. 0-3-3 in 1890.

TALEGAON DA'BHA'DA DISPENSARY.—*In charge of* Hospital Assistant KESHAV GANPAT.

The dispensary building is in good repair. Furniture and fittings are sufficient and in good order. The committee visited the dispensary six times. The sanitation of the town is fair. The water-supply from a new tank, constructed by the Municipality, is abundant and of a good quality. The total treated was 4,255 out-door and 7 in-door patients as compared with 6,668 and 16 in 1891 and 8,403 and 21 in 1890. The prevailing diseases were ophthalmia, worms, diseases of the skin, malarial fevers and diseases of the digestive system. Cholera was prevalent in the town. There were 127 minor surgical operations performed. One *post-mortem* examination was held and opinions were given on 4 medico-legal cases. Vaccination is conducted by the táluka vaccinator from house to house. The dispensary was inspected by the Civil Surgeon, Poona, on the 6th February. The total cost was Rs. 887-5-2 and the cost per patient Re. 0-3-4, as compared with Rs. 847-8-3 and Re. 0-2-0 in 1891 and Rs. 986-14-5 and Re. 0-1-10 in 1890.

TALEGAON DHAMDHERA.—*In charge of* Hospital Assistant SHAIK GULÁB.

The dispensary building is a hired one and is in a good state of repair. The furniture and fittings are sufficient and in good order. A dead-house is much wanted. The dispensary committee visited the dispensary frequently. Conservancy arrangements in the town are not satisfactory. Water-supply is scanty, owing chiefly to the withdrawal of water from the river, above the town, for irrigation purposes. The total treated was 4,389 out-door and 3 in-door patients against 4,084 and 10 in 1891 and 3,743 and 5 in 1890. The most common diseases were fever, worms and diseases of the eye, skin and digestive system.

No epidemic in the town or surrounding villages during the year. Ten *post-mortem* examinations were made at the request of the police, of which 3 were of animals for suspected poison. 1 major and 174 minor surgical operations were performed. Vaccination is carried on by the táluka vaccinator. The Civil Surgeon, Poona, inspected the dispensary on 9th January. The total cost was Rs. 833-10-8 and the cost per patient Re. 0-3-1, against Rs. 849-10-11 and Re. 0-3-3 in 1891 and Re. 897-4-9 and Rs. 0-3-9 in 1890.

ALANDI.—*In charge of* Hospital Assistant ANTA'JI GOPA'L.

A part of a dharmshála is occupied for the dispensary, and though in good repair, is quite unsuitable for the purpose. There are no quarters for the Hospital Assistant or servants. A dead-house and a latrine are much needed. The committee visited the dispensary every three months. The sanitary condition of the town is fair. Cholera prevailed in the town in the months of June and July; 42 cases were reported, of which 24 proved fatal. The water-supply is from the river Indrayani, and a spring in a nála called Bhágirthi koond. Both sources are subject to contamination. During the year the total treated was 4,463 out-door patients as compared with 4,199 out-door and 4 in-door in 1891 and 3,555 out-door in 1890. The prevailing diseases were fever, worms, ophthalmia, diseases of the respiratory system, diarrhœa and skin diseases. Vaccination is carried on from house to house by the táluka vaccinator. One *post-mortem* examination was made at the request of the police. The dispensary was inspected by the Civil Surgeon, Poona, on the 11th February. The total cost was Rs. 925-12-6 and the cost per patient Re. 0-3-4, against Rs. 769-7-8 and Re. 0-2-11 in 1891 and Rs. 800-13-3 and Re. 0-3-7 in 1890.

LONA'VLA DISPENSARY.—*In charge of* DR. J. W. FIELD, SURGEON, G. I. P. RAILWAY, and DR. J. O. PIRES, SURGEON, G. I. P. RAILWAY.

The dispensary was opened in 1890. The conservancy of the town, managed by a staff of 5 sweepers, 7 Bhangis, 1 Inspector and one peon, is fairly attended to. Water-supply is obtained from the Railway Bushy reservior, by pipes laid on to 6 stand-posts in different places in the town. It is pure but is sufficient only for drinking purposes. Water for washing purposes is taken from the tank and the Indrowni river. G. I. P. Railway hospital building is utilized. The total treated was 2,961 out-door patients against 1,814 in 1891 and 1,316 in 1890. The prevailing diseases were malarial fevers and diseases of the respiratory and digestive systems. Vaccination is carried on by the Local Fund Vaccinator of the táluka. One major surgical operation was performed. The dispensary was inspected by the Surgeon-General in December. The total cost was Rs. 1,203-3-5 and the cost per patient Re. 0-6-6, against Rs. 1,200 and Re. 0-10-7 in 1891.

ENDOWED DISPENSARY.

KHA'N BAHA'DUR PESTONJI SORA'BJI DISPENSARY, POONA.—*In charge of* Assistant Surgeon DA'DA NA'THA'JI SELKE.

The building is kept in good repair by the Public Works Department. As the light in the compounding and examination rooms was insufficient, the wooden shutters were replaced by glass windows. The dispensary was visited by a single member of the committee every month. Sanitation of the town is fair. The small lanes in the city are not however kept sufficiently clean, and the carrying out of an efficient drainage system throughout the city is much needed. The water-supply is abundant and of good quality. The total treated was 19,492 out-door and 10 in-door patients as compared with 21,300 and 12 in 1891 and 19,021 and 16 in 1890 respectively. The prevailing diseases were simple continued and malarial fevers, intestinal round worms, bronchitis, dyspepsia, eczema and itch. There were 365 cases of cholera in the city with 168 deaths. There were 13 major and 630 minor surgical operations performed during the year; among the former were 2 lithotomies, 6 reduction of dislocations of joints, and 2 removal of tumours of the breast. Vaccination is carried out by two municipal vaccinators. The dispensary was inspected by the Civil Surgeon on the 1st April and 31st October, and by the Surgeon-General on 29th June. The total cost was Rs. 5,306-6-1 and the cost per patient Re. 0-4-4, as compared with Rs. 5,017-11-10 and Re. 0-3-9 in 1891 and Rs. 4,088-4-1 and Re. 0-3-5 in 1890.

MUNICIPAL DISPENSARY.

SIRU'R.—*In charge of* MR. D. BENJAMIN.

This institution is shown in this report for the first time. The dispensary building is in good repair. During the year, a new latrine was built, in place of an old dilapidated one, at a cost of Rs. 173. The Municipality has yet to provide quarters for the medical officer and servants and a dead-house. The sanitary arrangements of the town are fair. There are 10 public latrines with fifty seats, but the receptacles used in these latrines are all broken and the contents leak out, consequently the ground underneath and in the vicinity is kept saturated, vitiating the surrounding atmosphere. The bye-lanes are in an insanitary condition, and surrounding tributary nálas are used by the people as latrines. The water-supply is derived from the Ghod river and from a well on its bank. The latter is conveyed in pipes to a cistern in the town whence it is distributed in pipes. There are 8 stand-pipes. The people prefer and generally use, for drinking purposes, water direct from the river. The supply is scanty in the hot weather. The total treated during the year

was 7 in-door and 3,370 out-door patients as compared with 9 and 2,925 in 1891 and 19 and 2,960 in 1890. The prevailing diseases were malarial fevers, bronchitis, diarrhœa, ascaris lumbricoides and scabies. Cholera broke out in the town on the 11th July and continued to prevail till the early part of August; the number of cases was 38 with 20 deaths. The villages surrounding the town were primarily attacked. There were 16 major surgical operations performed. Vaccination is conducted by the táluka vaccinator. No *post-mortem* examinations were conducted at this dispensary, as the bodies are sent by the police to the Regimental European Medical Officer for examination and opinion. The dispensary committee was only appointed by the Municipality in April last, and has visited the dispensary four times since. The in-door patients treated in this dispensary are police cases. There are very few cases of pauper patients. The total cost was Rs. 909-2-3 and the cost per patient Re. 0-4-3.

AHMEDNAGAR COLLECTORATE.

RIPON HOSPITAL, AHMEDNAGAR.—*In charge of* Surgeon-Major J. WILKINS.

Conservancy.—The conservancy of the city is defective, cess-pits are numerous and badly cleaned.

Water-supply.—The water is derived from wells and springs situated at a considerable distance from the town, to which it is conveyed in four aqueducts. It is of good quality.

Hospital buildings.—Are in good repair and afford excellent accommodation for the sick. A new verandah has been added to the cells for insanes which affords protection from the morning sun and the desired accommodation for the police guard. A bath-room has been arranged for and is now in use.

General health.—Has been fair. Cholera was prevalent.

Attendance of patients.—534 in-door and 11,120 out-door patients were treated against 438 and 12,324 in 1891 and 445 and 12,909 in 1890.

Prevailing diseases.—Were malarious fevers, ophthalmia, chest affections, ascaris lumbricoides, skin diseases, influenza and cholera.

Surgical operations.—60 major with 2 deaths and 1,602 minor operations were per formed.

Mortality and its causes.—22 deaths took place among in-door patients. The causes were cholera 6, dysentery 5, and diarrhœa and bronchitis 2 each, &c. &c.

Vaccination.—1,548 vaccinations were performed, of which 1,501 were successful and the rest doubtful. These were performed by the municipal vaccinator.

Medico-legal cases.—There were 57 cases of a medico-legal nature sent by the police; of these 17 entailed *post-mortem* examination.

Conduct of establishment.—Very good. 1st class Hospital Assistant Sitárám Dáji is favourably reported on.

Cost.—The total cost was Rs. 3,631-15-2, the cost per patient Re. 0-5-0, against Rs. 12,246-4-5 and Re. 0-15-4 in 1891 and Rs. 13,351-14-4 and Re. 0-15-11 in 1890 respectively.

GRANT-IN-AID DISPENSARIES.

SANGAMNER.—*In charge of* Hospital Assistant HARI KÁKÁJI.

The buildings are in good repair. The dispensary committee visited the dispensary five times. The conservancy of the town is satisfactory. The water-supply from the river "Pravara" is abundant and pure. The total treated was 6,650 out-door and 41 in-door patients as compared with 7,694 and 32 in 1891 and 7,270 and 42 in 1890. The prevailing diseases were ophthalmia, malarial fevers, skin diseases, worms and diseases of the digestive system. There were 104 cases of cholera, of which 46 proved fatal. No small-pox. 3 major and 105 minor surgical operations were performed. Vaccination is carried on by the Local Fund vaccinator. Nine *post-mortem* examinations were made. Fourteen medico-legal cases were reported on. The dispensary was inspected by the Civil Surgeon, Ahmednagar, on 29th January. The total cost was Rs. 1,371-15-7 and the cost per patient Re. 0-3-3, against Rs. 1,022-6-4 and Re. 0-2-1 in 1891 and Rs. 1,230-6-1 and Re. 0-2-8 in 1890.

NEVÁSA.—*In charge of* Hospital Assistant RÁMCHANDRA ATMA'JI.

The dispensary building is in good repair. The latrine is old and in a dilapidated state. The committee visits the dispensary every month. No system of conservancy is in force in the town. The water-supply from the river "Pravara" is good and abundant. The total treated was 3,272 out-door and 15 in-door patients against 3,834 and 29 in 1891 and 2,768 and 28 in 1890. The most common complaints were conjunctivitis, malarial

fevers, skin diseases, diseases of the digestive system and worms. There were 18 cases of cholera, of which 6 proved fatal. Three major operations were performed. Vaccination is carried on by the táluka vaccinator. Six *post-mortem* examinations were made at the request of the police, and opinion was given on 11 medico-legal cases. The dispensary was inspected by the Civil Surgeon, Ahmednagar, in October. The total cost was Rs. 841-8-4 and the cost per patient Re. 0-4-1, as compared with Rs. 828-2-10 and Re. 0-3-5 in 1891 and Rs. 895-1-0 and Re. 0-5-1 in 1890.

SHEVGAON.—*In charge of* Hospital Assistant MA'HA'DEV MANOHAR.

The conservancy of the town is unsatisfactory. There is no Municipality. The water-supply is from wells and is somewhat deficient during the hot season, but good in quality. The dispensary buildings are in excellent order. The total treated were 13 in-door and 2,814 out-door patients as compared with 42 and 2,451 in 1891 and 32 and 2,626 in 1890. The most common diseases were skin diseases, ophthalmia, malarial fevers, worms and diseases of the digestive system. The town was free from epidemic disease. 3 major surgical operations were performed and the minor numbered 189. Vaccination has been carried on by the Local Fund vaccinator. The dispensary was inspected by the Civil Surgeon on 29th February. There was 1 *post-mortem* examination held, and opinion was given in 5 medico-legal cases. The total cost was Rs. 1,079-15-2 and the cost per patient Re. 0-6-1, as compared with Rs. 855-8-10 and Re. 0-5-5 in 1891 and Rs. 1,001-15-0 and Re. 0-6-0 in 1890.

PÁRNER.—*In charge of* Hospital Assistant NÁRÁYEN VISHVANÁTH.

The dispensary was removed from the old building in February last. The new building is in good repair. Water-supply of the dispensary is deficient, but it is abundant in the town. Sanitation is defective. The total treated was 3,616 out-door and 32 in-door patients as compared with 3,628 and 27 in 1891 and 3,000 and 35 in 1890. Diseases of the digestive system, of the eye, of the skin, intestinal worms and malarial fevers were the most prevalent. A few cases of cholera occurred in the month of August. Six *post-mortem* examinations were performed and opinion given in several medico-legal cases. The dispensary was inspected by the Deputy Sanitary Commissioner in December. The total cost was Rs. 917-12-6 and the cost per patient Re. 0-4-0, against Rs. 1,863-12-4 and Re. 0-8-1 in 1891 and Rs. 870-5-11 and Re. 0-4-7 in 1890.

AKOLA.—*In charge of* Hospital Assistant VISHNU NÁRÁYEN.

The dispensary building is an old one and requires frequent repair. Quarters for servants are required. Furniture and fittings are sufficient and in good order. The committee visited the dispensary three times, but in addition individual members visited it frequently. The sanitation of the town is defective. The water-supply is abundant but liable to pollution by soakage. The total number treated was 2,955 out-door and 43 in-door against 2,822 and 22 in 1891 and 3,622 and 30 in 1890. The prevailing diseases were malarial fevers, worms, eye affections and the diseases of the skin. Cholera prevailed in an epidemic form in the town and its vicinity. Vaccination is carried on by the táluka vaccinator. Nine *post-mortem* examinations were made and opinion given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Ahmednagar, on 29th January. The total cost was Rs. 677-7-9 and the cost per patient Re. 0-3-7, against Rs. 791-14-0 and Re. 0-4-5 in 1891 and Rs. 913 8-6 and Re. 0-4-0 in 1890.

MIRAJGAON.—*In charge of* Hospital Assistant A'NÁJI PÁNDURANG.

The dispensary was opened in July 1890. It is situated on an open and healthy spot to the north of the town and is kept in good repair. The dispensary committee visited the dispensary seven times. Conservancy arrangements are defective. The town is a non-municipal one. The water-supply from wells is used only for washing clothes. Drinking water is procured from pits dug in the Dukri river situated to the south of the village. The health of the town was fairly good. The total treated was 4,510 out-door and 15 in-door patients against 4,512 and 10 in 1891 and 1,792 and 3 in 1890. The prevailing diseases were ague, worms, conjunctivitis, respiratory affections and skin diseases. 116 minor and 1 major surgical operations were performed. Five *post-mortem* examinations were made. Vaccination is performed by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon on the 18th February. The total cost was Rs. 1,255-14-1 and the cost per patient Re. 0-4-5, as compared with Rs. 960-11-10 and Re. 0-3-4 in 1891 and Rs. 779-8-2 and Re. 0-6-11 in 1890.

NÁSIK COLLECTORATE.

LORD HARRIS HOSPITAL, NÁSIK.—*In charge of* Surgeon Lieutenant-Colonel P. MURPHY, M.D.

Conservancy.—The conservancy of the town is managed by the municipal health officer. A regular establishment of sweepers is maintained. The refuse and night-soil are carted to a distance where they are converted into poudrette.

Water-supply.—Is bad and insufficient. It is obtained from the river Godávari and from private wells which are more or less contaminated. Various schemes for a pure water-supply have been from time to time proposed but without any result.

Hospital buildings.—Are quite new and in perfect order with a complete equipment of new beds, bedding, clothes, &c. &c.

General health.—Has not been good. Influenza and cholera prevailed to a considerable extent.

Attendance of patients.—There were 372 in-door and 5,544 out-door patients as compared with 303 and 4,599 in 1891 and 276 and 5,301 in 1890.

Prevailing diseases.—Malarial fevers, skin affections, diseases of the ear and digestive and respiratory systems, ophthalmia and rheumatic affections.

Surgical cases.— 42 major and 539 minor operations. Six major operations ended fatally. There were 4 operations for stone, 3 amputations of foot, 2 paracentesis of the abdomen, &c.

Mortality.—Thirty-six deaths occurred in hospital, most of the cases being pilgrims and mendicants brought by the police in a moribund state from starvation. The causes were cholera 11, malarial fever and vesical calculus 4 each, diarrhœa 3, enteric and malarial fever 2 each, and myoma, bronchitis, pneumonia, phthisis, hypertrophy of liver, ascites, extravasation of urine, caries, tibia and acid poisoning 1 each.

Medico-legal.—Nine *post-mortem* examinations were made and opinion given on 54 other medico-legal cases.

Vaccination.—Efficiently carried out by the municipal vaccinator. There were 825 primary vaccinations and 12 re-vaccinations.

Conduct of establishment—Good.

Cost.—The total cost was Rs. 3,292-1-0 and the cost per patient Re. 0-8-11, as compared with Rs. 13,117-10-2 and Rs. 2-10-9 in 1891 and Rs. 9,999-6-0 and Rs. 1-12-8 in 1890.

GRANT-IN-AID DISPENSARIES.

MÁLEGAON.—*In charge of* Assistant Surgeon K. T. GOKHALE, L.M. & S.

The dispensary building is in good repair. It is proposed to build a new dispensary and turn the present building into quarters for the medical officer. The dispensary committee met thrice. The sanitation of the town is indifferent and the water-supply is deficient. The total number of patients treated was 16,206 out-door and 18 in-door patients as compared with 18,681 and 4 in 1891 and 15,882 and 5 in 1890. The prevailing diseases were malarial fevers, ophthalmia, skin diseases, respiratory affections and worms. There occurred 73 cases of cholera with 34 deaths. Vaccination is carried on by a municipal vaccinator. Seven *post-mortem* examinations were held, and several certificates given at the request of officers. The dispensary was inspected by the Civil Surgeon, Násik, on 8th February, and by the Deputy Sanitary Commissioner on 26th January. The total cost was Rs. 3,169-13-8 and the cost per patient Re. 0-3-1, against Rs. 2,395-10-8 and Re. 0-2-0 in 1891 and Rs. 2,788-11-8 and Re. 0-2-9 in 1890.

YEOLA.—*In charge of* Hospital Assistant A'TMÁRÁM TÁTYÁJI.

The buildings are in good repair, the furniture and fittings sufficient, but servants' quarters and a store-room are much required. The latter have been for a long time under the consideration of the committee, and a sum of Rs. 637-11-0 was sanctioned for the purpose in 1890-91, but nothing further has been done hitherto. The dispensary committee visited the dispensary seven times. The sanitary condition of the town is fair. The water-supply is from wells and is insufficient, especially during the hot season. No arrangements have been made for drainage and male latrines. The total treated was 11,701 out-door and 15 in-door patients as compared with 12,139 and 20 in 1891 and 12,003 and 29 in 1890. The most common diseases were ophthalmia, worms, skin diseases, malarial fevers, diseases of the ear and the respiratory system and rheumatic affections. The town was free from small-pox; two hundred and seventeen cases of cholera occurred in the several villages in the táluka and a Hospital Assistant was deputed for cholera duty by the Civil Surgeon, Násik, at the suggestion of the Collector. There were 7 major and 785 minor surgical operations performed. Vaccination was carried on by the municipal vaccinator. Four *post-mortem* examinations were held and opinion was given in 16 medico-legal cases. The dispensary was inspected on 25th January by the Civil Surgeon, Násik. The total cost was Rs. 1,382-10-7 and the cost per patient was Re. 0-1-11 against Rs. 1,516-11-10 and Re. 0-1-11 in 1891 and Rs. 1,441-2-7 and Re. 0-1-10 in 1890.

DINDORI.—*In charge of* Hospital Assistant V. B. MOGHE.

The building is in good repair. Quarters for second class servants are provided by hiring a house near the dispensary. Quarters for the Hospital Assistant are unsuitable and inconvenient. The committee held their meetings monthly. The sanitary condition of

the town is unsatisfactory. The water-supply is deficient and bad. The total treated was 4,412 out-door and 18 in-door patients as compared with 5,063 and 17 in 1891 and 4,658 and 22 in 1890. The prevailing diseases were malarial fevers, ophthalmia, intestinal worms and skin diseases. There was no epidemic of any kind in the town itself, but a few cases of cholera are said to have occurred in 2 or 3 adjacent villages. Vaccination is performed by the táluka vaccinator. Opinion was given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Násik, in February, and by the Deputy Sanitary Commissioner in November. The total cost was Rs. 1,144-8-9 and the cost per patient Re. 0-4-2, against Rs. 1,084-6-0 and Re. 0-3-4 in 1891 and Rs. 1,141-4-0 and Re. 0-3-10 in 1890.

SINNAR.—*In charge of* Hospital Assistant NÁRÁYEN DHONDU.

The dispensary building is not well situated nor of good design, nor is it sufficient for the purpose. Quarters for the Hospital Assistant and Compounder are required, and also some alterations in the present dispensary building. The committee visited the dispensary quarterly. The sanitation is well looked after. The water-supply is good but sufficient for 8 months only. The total treated was 10,081 out-door and 55 in-door patients against 8,999 and 37 in 1891 and 8,519 and 33 in 1890. The most common diseases were malarial fevers, ophthalmia, skin diseases, worms and bowel-complaints &c. There was slight outbreak of cholera in the town and its vicinity. Vaccination is carried out by the táluka vaccinator. Four *post-mortem* examinations were held and opinion given on 9 medico-legal cases. The dispensary was inspected by the Civil Surgeon on the 18th February and by the Deputy Sanitary Commissioner on the 11th November. The total cost was Rs. 1,066-8-8 and the cost per patient Re. 0-1-8, as compared with Rs. 912-6-5 and Re. 0-1-7 in 1891 and Rs. 1,650-10-11 and Re. 0-3-1 in 1890.

SATA'NA.—*In charge of* Hospital Assistant GANPATI NILOBA.

The building is in good repair. Quarters for the Hospital Assistant and 2nd class servants are required. The committee visited the dispensary four times during the year. The sanitation of the town is defective owing to want of a Municipality or regular conservancy establishment. The water-supply is good but insufficient. The total treated was 6,092 out-door and 44 in-door patients as compared with 6,571 and 25 in 1891 and 6,333 and 32 in 1890. The diseases most prevalent were ophthalmia, malarial fevers, worms, bowel-complaints, skin diseases and respiratory affections. There were no epidemics in the town during the year. Five major surgical operations were performed. Vaccination is performed by the táluka vaccinator. One *post-mortem* examination was made and opinion given in 18 medico-legal cases. Ths dispensary was inspected by the Civil Surgeon, Násik, in February. The total cost was Rs. 1,131-9-6 and the cost per patient Re. 0-2-11, as compared with Rs. 949-1-1 and Re. 0-2-3 in 1891 and Rs. 1,183-10-5 and Re. 0-2-11 in 1890.

PIMPALGAON BASVANT.—*In charge of* Hospital Assistant DA'JI DHONDEO.

The buildings are in good repair. Furniture is insufficient. The committee meets quarterly. The sanitation of the town is fair. The water-supply, from the river Parashary and wells, is of good quality and abundant. The total treated was 6,790 out-door and 10 in-door patients against 7,411 and 24 in 1891 and 7,555 and 26 in 1890. The most common diseases were malarial fevers, ophthalmia, worms, skin diseases and ulcers. No epidemics occurred in the town or district. Three major-surgical operations were performed. Five *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Násik, in February. The total cost was Rs. 1,495-12-0 and the cost per patient Re. 0-3-6, as compared with Re. 1,514-12-1 and Re. 0-3-3 in 1891 and Rs. 1,609-11-4 and Re. 0-3-4 in 1890.

TRIMBAK.—*In charge of* Hospital Assistant RÁJA'RA'M DA'MODAR.

No repairs were made to the dispensary building. Furniture and fittings are sufficient. A dead-house is required, also a cook-house. The sanitary arrangements are well attended to. The water-supply from Visoha's tank and Ketaki well is sufficient and good except during the summer when it is deficient. The dispensary committee visited the dispensary twice. The total treated was 665 out-door and 1 in-door patients against 1,423 and 6 in 1891 and 2,111 and 12 in 1890. The most common diseases were worms, malarial fevers, skin deseases and diseases of the digestive system. Cholera prevailed in the town in a very mild form. 23 minor surgical operations were performed. The dispensary was inspected by the Civil Surgeon, Násik, in January. One *post-mortem* examination was made. Vaccination is performed by the táluka vaccinator. The total cost was Rs. 723-6-3 and the cost per patient Rs. 1-1-5, against Rs. 606-0-2 and Re. 0-6-9 in 1891 and Rs. 615-1-5 and Re. 0-4-7 in 1890.

GOVERNMENT DISPENSARY.

PEINT.—*In charge of* Hospital Assistant GAJA'NAN KRISHNA.

The building is in a bad state of repair. Servants' quarters, a store-room, a contagious ward and an operating table are needed. The Mámlatdár of Peint visits the dispensary frequently. The water-supply is of bad quality and deficient during the hot season.

The total treated was 5,810 out-door and 24 in-door patients as compared with 6,435 and 28 in 1891 and 5,938 and 10 in 1890. The prevailing diseases were intestinal worms, eye diseases, malarial fevers, skin diseases and diseases of the digestive, respiratory and nervous systems. In July there was an epidemic of cholera at Harsul, a village in the táluka, 18 miles distant from Peint. Vaccination is performed by the táluka vaccinator. Five *post-mortem* examinations were performed at the request of the police. The dispensary was inspected by the Civil Surgeon, Násik, in January and by the Collector in April. The total cost was Rs. 806-15-7 and the cost per patient Re. 0-2-3, against Rs. 927-10-6 and Re. 0-2-3 in 1891 and Rs. 1,228-12-3 and Re. 0-3-3 in 1890.

KHANDESH COLLECTORATE.

CIVIL HOSPITAL, DHULIA.—*In charge of* Surgeon-Major K. A. DALÁL, M.B.

Conservancy.—Has been much improved but a great deal still requires to be done. There are 12 public latrines, which are insufficient. There are many dust-bins erected at different places.

Water-supply.—From wells and the river Pánjra. Nearly all wells allow of soakage. River water is good, but is very liable to contamination. The Dhulia water-works are in progress, and when completed will give abundant supply of pure water.

Hospital buildings.—Are in very good order.

General health.—Not satisfactory in 1890 and 1891 owing to prevalence of cholera, influenza, malarial fevers and bronchitis, but fairly good in 1892. There were 10 cases of cholera in August 1892.

Attendance of patients.—511 in-door and 5,415 out-door patients against 588 and 5,063 in 1891 and 485 and 4,645 in 1890.

Prevailing diseases.—Ague, bronchitis, eczema, influenza, intestinal worms, venereal diseases, rheumatism, vesical calculus.

Mortality and its causes.—There were 21 deaths, of which 9 were due to diarrhœa, 3 to calculus in the bladder, 2 to pneumonic phthisis, and 1 each to secondary syphilis, burns, pneumonia, starvation, compression of brain, enteritis and hemiphlegia.

Surgical operations.—76 major (including 46 lateral lithotomies) and 539 minor operations were performed.

Medico-legal cases.—7 *post-mortem* examinations were held and opinion was given in 75 medico-legal cases.

Vaccination.—Is carried on by the municipal vaccinator. It is not very popular in Dhulia.

Conduct of the establishment.—Fairly good. First Class Hospital Assistant Shaik Dadu is zealous and efficient, and his general conduct is excellent.

Cost.—The total cost was Rs. 3,088-4-5 and the cost per patient Re. 0-8-4, against Rs. 13,053-9-8 and Rs. 2-4-11 in 1891 and Rs. 13,297-11-6 and Rs. 2-9-5 in 1890.

MUNICIPAL DISPENSARY.

Branch Dispensary, DHULIA.—*In charge of* Hospital Assistant NÁRÁYEN DHONDEV.

The building is in good repair and its situation is convenient to the people. The dispensary committee visited once a month. Water-supply is derived from the river. The total treated was 9,854 out-door against 5,095 in 1891 and 6,615 in 1890. The most prevalent diseases were malarial fevers, conjunctivitis, diseases of the ear, skin and of the digestive system. 93 cases of cholera with 60 deaths occurred. The dispensary was inspected by the Civil Surgeon on 28th November. The total cost was Rs. 765-6-3 and the cost per patient Re. 0-1-3, against Rs. 524-0-3 and Re. 0-1-7 in 1891 and Rs. 1,037-7-0 and Re. 0-2-6 in 1890.

GRANT-IN-AID DISPENSARIES.

PAROLA.—*In charge of* Hospital Assistant NÁRÁYAN BÁPUJI.

The dispensary buildings are in fair repair. Furniture and fittings are sufficient and in good order, except one table for operation and some more cots for in-door patients. The committee visited the dispensary thrice. The conservancy arrangements of the town are not satisfactory. Water-supply from wells is abundant and of good quality. The total treated was 7,105 out-door and 24 in-door patients as compared with 5,844 and 33 in 1891 and 5,390 and 24 in 1890. The prevailing diseases were malarial fevers, intestinal worms, conjunctivitis, rheumatism, affections of the ear and throat, disorders of the stomach and bowels, respiratory affections and skin diseases. Cholera and small-pox prevailed in the town and district. There were 618 minor surgical operations. Vaccination is carried out by the Local Fund vaccinator. The dispensary was visited by the Collector and inspected by the Civil Surgeon in January. The total cost of the institution and that per patient was Rs. 1,183-10-7 and Re. 0-2-8 against Rs. 1,436-11-5 and Re. 0-3-10 in 1891 and Rs. 1,221-14-2 and Re. 0-3-7 in 1890.

ERANDOL.—*In charge of* Hospital Assistant ATMÁRÁM BÁPUJI.

The dispensary building is not in good repair. Furniture and fittings are sufficient and in good order. Quarters for the hospital servants are much needed. The committee visited the dispensary six times. Water-supply from the wells and river is good and sufficient, but in hot season liable to pollution by soakage. The total treated was 5,191 out-door and 20 in-door patients as compared with 4,834 out-door and 2 in-door in 1891 and 4,893 out-door in 1890. The prevailing diseases were diseases of the eye, skin and digestive system, malarial fevers, ulcers and diseases of the ear. No epidemic during the year. There were 3 major and 374 minor surgical operations performed. Opinion was given on several medico-legal cases. Vaccination is conducted by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Dhulia, on the 31st January. The total cost was Rs. 1,085-5-4 and the cost per patient Re. 0-3-4, against Rs. 1,357-5-8 and Re. 0-4-5 in 1891 and Rs. 1,413-12-3 and Re. 0-4-7 in 1890.

CHOPDA.—*In charge of* Hospital Assistant GANGÁDIN.

The building is spacious and in good order. The members of the committee visit the dispensary regularly. The sanitary condition and water-supply of the town have been good. The total treated during the year was 7,734 out-door and 7 in-door patients against 5,846 and 1 in 1891 and 4,721 and 4 in 1890. The most common diseases were fever, ophthalmia, syphilitic affections, rheumatism and affections of the skin, eye, chest and bowels. 15 cases of cholera and 5 deaths occurred during the year. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Dhulia, on 22nd November. The total cost was Rs. 1,179-6-3 and the cost per patient Re. 0-2-5, against Rs. 1,256-15-7 and Re. 0-3-5 in 1891 and Rs. 1,005-13-11 and Re. 0-3-4 in 1890.

SUNDARDÁS MULJI DISPENSARY, JALGAON.—*In charge of* Assistant Surgeon M. M. MODY, L.M. & S.

The dispensary buildings are in good condition. The compound wall requires repairs and the privy rebuilding. A new operation room was built during the year. The dispensary committee met twelve times during the year. Drainage of the town is imperfect and faulty in many localities. The conservancy arrangements are fairly good. The water-supply is derived from the Mehrun Tank and the many wells in the town. Some wells allow of soakage. A scheme for the improvement of the water-supply is under consideration. The total number of patients treated was 7,659 out-door and 52 in-door as compared with 8,056 and 47 in 1891 and 7,161 and 46 in 1890. The most common diseases were malarial fevers, skin affections, worms, inflammation of the external ear, ophthalmia and local injuries. The public health was fair in the past three years except during the rains of the year 1891, when cholera, diarrhœa and dysentery prevailed both in the town and neighbouring villages. Six major and 334 minor surgical operations were performed. Vaccination is carried on by the táluka vaccinator. Three *post-mortem* examinations were made at the instance of the police. The dispensary was inspected by the Civil Surgeon on 9th July. The total cost was Rs. 3,006-8-8 and the cost per patient Re. 0-6-3, against Rs. 2,505-1-0 and Re. 0-4-11 in 1891 and Rs. 2,463-3-10 and Re. 0-5-5 in 1890.

NANDURBÁR.—*In charge of* Hospital Assistant SAKHA'RA'M LAXUMAN.

The dispensary building, a hired one, is unsuitable for the purpose. The committee visited the dispensary monthly. The sanitary condition of the town is unsatisfactory. The water-supply, chiefly derived from step-wells, is scanty and bad. The total treated was 5,593 out-door and 1 in-door patients against 4,874 and 3 in 1891 and 4,607 and 2 in 1890. The most common diseases were malarious fevers, worms, ophthalmia, diseases of the digestive system and skin diseases, &c. Three major surgical operations were performed. Vaccination, carried out by the táluka vaccinator, is conducted from house to house and at the police chávdi. Six *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon in December. The total cost was Rs. 975-0-5 and the cost per patient Re. 0-2-9, against Rs. 1,045-6-6 and Re. 0-3-5 in 1891 and Rs. 1,229-9-1 and Re. 0-4-3 in 1890.

SHIRPUR.—*In charge of* Hospital Assistant RÁMCHANDRA VISHNU.

The building is unsuitable. The dispensary committee visited the dispensary 24 times. The sanitary condition of the town is unsatisfactory. The water-supply is good and abundant except in hot season. The total treated was 6,131 out-door and 37 in-door patients against 4,587 and 17 in 1891 and 4,289 and 6 in 1890. The most common diseases were malarial fevers, rheumatic affections, diseases of the eye and ear, affections of the respiratory and digestive systems and skin diseases. Cholera prevailed in the surrounding villages, but not in the town. Small-pox was prevalent in the town and in the district. Two major surgical operations were performed. Vaccination is carried out by the táluka vaccinator. Eight *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Dhulia, in November. The total cost was Rs. 1,281-12-7 and the cost per patient Re. 0-3-4, as compared with Rs. 1,395-12-4 and Re. 0-4-10 in 1891 and Rs. 1,602-8-8 and Re. 0-5-11 in 1890.

BHADGAON.—*In charge of* Hospital Assistant GANESH VINÁYEK.

The dispensary buildings are not in good repair. The furniture and fittings are not sufficient. The committee visited the dispensary seven times. Conservancy has been improved somewhat. Water-supply from wells is not pure and is subject to soakage, and that from the river though good is liable to contamination. The total of patients treated was 4,600 out-door and 22 in-door as compared with 4,760 and 44 in 1891 and 4,158 and 42 in 1890. The prevailing diseases were ague, rheumatism, ophthalmia, worms and skin diseases. 1 major and 195 minor surgical operations were performed. There were 3 *post-mortem* examinations held. Vaccination is carried on by the petha vaccinator. The dispensary was inspected by the Civil Surgeon, Dhulia, in May. The total cost was Rs. 1,102-0-5 and the cost per patient Re. 0-3-9, against Rs. 1,087-0-11 and Re. 0-3-7 in 1891 and Rs. 1,129-14-1 and Re. 0-4-3 in 1890.

PIMPALNER.—*In charge of* Hospital Assistant BHA'SKAR GOVIND TILAK.

The building is in good repair. A dead-house was recently erected, but the floor is of loose earth only, and therefore quite unsuitable for such a building. The windows too should be provided with wire-gauze coverings. The committee visited the dispensary nine times. The sanitary condition of the town is unsatisfactory. Water-supply from the wells and river is good and abundant, but the latter is liable to contamination. The total treated was 4,156 out-door and 45 in-door patients as compared with 4,756 and 38 in 1891 and 4,946 and 32 in 1890. The most common diseases were malarial fevers, worms, ophthalmia, diseases of the respiratory and digestive systems and skin affections. There was no epidemic. Vaccination is conducted by the táluka vaccinator. Six *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Dhulia, on 5th March. The total cost was Rs. 921-5-0 and the cost per patient was Re. 0-3-6, against Rs. 1,681-1-4 and Re. 0-5-7 in 1891 and Rs. 1,012-9-8 and Re. 0-3-3 in 1890.

SHÁHÁDA.—*In charge of* Hospital Assistant G. RÁMKRISHNA.

The building is quite unsuitable. The committee visited the dispensary several times. The sanitary condition of the town is not satisfactory, and the water-supply from the river Gomi sufficient but liable to contamination. The total treated was 3,441 out-door and 4 in-door patients against 2,155 and 3 in 1891 and 2,004 and 5 in 1890. The most common complaints were malarial fevers, diseases of the ear, digestive system and skin. Two major surgical operations were performed. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Dhulia, on 11th February, and by the Deputy Sanitary Commissioner in November. The total cost was Rs. 1,025-12-3 and the cost per patient Re. 0-4-9, as compared with Rs. 1,144-12-10 and Re. 0-8-5 in 1891 and Rs. 984-15-9 and Re. 0-7-10 in 1890.

TALODA.—*In charge of* Hospital Assistant WÁMAN GANESH.

The new dispensary building, which was occupied in October 1890, is suitable. The quarters for the Hospital Assistant and the dead-house which are under construction will be ready for use next year. The committee visited the dispensary four times. Besides, two members of the committee visited the dispensary regularly every month. Conservancy arrangements are well attended to by the Municipality and the town is always kept clean. The water-supply is from wells and is sufficient and of fair quality. The total number of patients treated was 1,825 out-door and 14 in-door against 1,605 and 11 in 1891 and 1,672 and 5 in 1890. The daily average number was 38·6 out-door and 0·7 in-door. The prevailing diseases were malarial fevers, eye and skin diseases, and diseases of the respiratory system. 1 major and 72 minor surgical operations were performed. Vaccination is conducted by the táluka vaccinator. There were 158 cases of primary vaccination and 1 of re-vaccination. Seven *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon of Dhulia in December. The total cost was Rs. 1,919-7-8 and the cost per patient Rs. 1-0-8, against Rs. 981-0-7 and Re. 0-9-8 in 1891 and Rs. 982-0-8 and Re. 0-9-5 in 1890. The increase in the cost is chiefly due to the expenditure on buildings.

AMALNER—*In charge of* Hospital Assistant HARI KHANDU.

The building is suitable and constructed according to the standard design. A dead-house, compound wall to the dispensary and a compounding table are very much required. The committee visited the dispensary nine times. The sanitation of the town is generally good excepting the latrine accommodation which is insufficient. The water-supply from the river is ample and good in quality except in hot season. The total treated was 2,668 out-door and 31 in-door patients as compared with 2,896 and 13 in 1891 and 3,892 and 11 in 1890. The most common diseases were malarial fevers, worms, diseases of the eye and ear, respiratory affections, and diseases of the digestive system and of the skin. Four major surgical operations were performed. Vaccination is carried out by the táluka vaccinator. One *post-mortem* examination was made. The dispensary was inspected by the Civil Surgeon, Dhulia, in January. The total cost was Rs. 1,997-5-4 and the cost per patient Re. 0-11-1, as compared with Rs. 885-4-0 and Re. 0-4-10 in 1891 and Rs. 1,012-15-0 and Re. 0-4-2 in 1890.

DHARANGAON.—*In charge of* Hospital Assistant MAHÁDEV CHUDÁMON.

The dispensary building is in good order, but requires ordinary repairs. The furniture is sufficient. The Committee visited the dispensary monthly and held quarterly meetings. The sanitary condition of the town is unsatisfactory. The water-supply is deficient in the hot season and the wells are liable to soakage. The total number treated was 7,899 out-door and 1 in-door patients as compared with 6,829 and 11 in 1891 and 5,256 and 5 in 1890 respectively. The most common diseases were malarious fever, ophthalmia, worms, rheumatism, skin diseases, ulcer, inflammation of the external ear and bowel-complaints. Cholera occurred in the town and its neighbourhood in an epidemic form in September and October. Vaccination has been carried on by the Local Fund Vaccinator. The dispensary was inspected by the Deputy Sanitary Commissioner and by the Civil Surgeon, Dhulia, in November. The total cost was Rs. 1,213-13-8 and the cost per patient Re. 0-2-6, against Rs. 960-3-10 and Re. 0-2-2 in 1891 and Rs. 1,456-1-4 and Re. 0-4-5 in 1890.

SINDKHEDA.—*In charge of* Hospital Assistant VISHNU SHIVRÁM.

The dispensary, a "dhábá" building, is in good repair. The committee visited the dispensary twelve times. A dissecting table is required. The new dead-house, built of wattle only a year ago, had its grass roof blown off during the late monsoon and requires early repair. The sanitary condition of the town is not satisfactory. The water-supply is obtained from the river and from wells. The former is scanty in hot season and liable to pollution by the people washing in it. The latter is abundant though brackish in some places. The total treated was 2,221 out-door and 22 in-door patients against 2,254 and 27 in 1891 and 1,996 and 18 in 1890. The most common diseases were malarial fevers, and affections of the respiratory, digestive and cutaneous systems. Vaccination is carried on by the táluka vaccinator. 19 major surgical operations, including 17 lithotomies (with 1 death in a man of 70), 1 excision of cancerous breast and 1 of trephining for tibial abscess were performed. The Civil Surgeon of Dhulia visited the dispensary in January. Only one *post-mortem* examination was made. The total cost was Rs. 1,103-5-11 and the cost per patient Re. 0-7-10, as compared with Rs. 1,142-6-10 and Re. 0-8-0 in 1891 and Rs. 1,719-10-3 and Re. 0-13-7 in 1890.

NAVÁPUR.—*In charge of* Hospital Assistant PRATÁP GANGA'RA'M.

The dispensary building, a hired one, is quite unsuitable for the purpose. The new Government building which is being constructed for the dispensary will shortly be completed. Furniture is insufficient. The dispensary was visited by the committee six times and once by the President. The sanitation of the town is bad, there being no Municipality. The water-supply from wells and river is liable to contamination. The total treated was 4,210 out-door patients as compared with 2,211 in 1891 and 2,029, including one in-door patient, in 1890. The prevailing diseases were malarial fevers, skin diseases, bowel-complaints and respiratory affections. There was no epidemic. Vaccination is carried out by the Local Fund Vaccinator. The dispensary was inspected by the Civil Surgeon, Dhulia, on 2nd March. The total cost was Rs. 1,109-2-2 and the cost per patient Re. 0-4-3, against Rs. 1,187-15-5 and Re. 0-8-7 in 1891 and Rs. 1,422-2-0 and Re. 0-11-2 in 1890.

SÁVDA.—*In charge of* Hospital Assistant MAGANLÁL NAROTAMDÁS.

The building is suitable but repairs are required. The committee visited the dispensary nine times. The sanitary condition of the town is unsatisfactory. The water-supply is derived from wells which are somewhat contaminated. The total treated was 10 in-door and 2,548 out-door patients as compared with 38 and 3,016 in 1891 and 12 and 4,613 in 1890. The most common diseases were malarial fevers, intestinal worms, ulcers and diseases of the nervous system, ear and skin. 42 minor surgical operations were performed. Vaccination is conducted by the táluka vaccinator. Five *post-mortem* examinations were made and opinion given on several medico-legal cases. The dispensary was inspected by the Civil Surgeon on 11th November. The total cost was Rs. 1,099-5-10 and the cost per patient Re. 0-6-11, against Rs. 1,032-15-7 and Re. 0-5-4 in 1891 and Rs. 1,759-13-7 andRe. 0-6-1 in 1890.

Y'AVAL.—*In charge of* Hospital Assistant MAHOMED KHAN.

The dispensary was opened in 1890. The buildings are in good condition. The committee visited the dispensary seven times. The sanitary condition of the town was fairly good. Water-supply from wells is sufficient and of good quality, but there is danger of soakage. The total treated was 3,721 out-door and 7 in-door patients against 3,502 and 15 in 1891 and 3,461 and 5 in 1890. The most common diseases were malarial fevers, intestinal worms (ascaris lumbricoides), rheumatic affections, bronchitis, dyspepsia, tinea circinata, constipation and scabies. There was no epidemic in the town. Vaccination is carried out by the petha vaccinator. Two *post-mortem* examinations were held. One major and 57 minor surgical operations were performed. The dispensary was inspected by the Civil Surgeon in November. The total cost was Rs. 1,186-5-5 and the cost per patient was Rs. 5-1-0, as compared with Rs. 2,397-14-8 and Re. 0-10-10 in 1891 and Rs. 1,322-15-4 and Re. 0-6-1 in 1890.

SÁTÁRA COLLECTORATE.

CIVIL HOSPITAL, SÁTÁRA.—*In charge of* Surgeon-Major D. C. DAVIDSON from 1st January to 1st April, from 5th May to 25th September, and from 30th November to 31st December 1892. Surgeon-Major A. F. Sargent from 2nd April to 4th May and from 26th September to 29th November 1892.

Conservancy.—The main streets are fairly clean, but the back streets and open spaces are not so well looked after as could be desired.

Water-supply.—From two sources, Kas and Yateshwar, good and abundant, but the means of distribution renders it liable to pollution. The building of filter tanks is under contemplation. The works for supplying the Sátára suburban Municipality with Kas water are being proceeded with.

Hospital building.—The new latrines have been erected and constitute a great sanitary improvement. Minor repairs and alterations have been made. A new ward and operating room, the plans for which have been sanctioned, are very urgently required. Quarters are much needed for the second class establishment; also an infectious diseases ward.

General health.—Cholera was much prevalent in the district during the monsoon and a few cases of small-pox were reported from the tálukas.

Attendance of patients.—624 in-door and 15,404 out-door as compared with 564 and 13,773 in 1891 and 566 and 12,354 in 1890.

Prevailing diseases.—Ascaris lumbricoides, ague, scabies, rheumatism, conjunctivitis, bronchitis, constipation, dyspepsia, abscess, boils, ulcers, eczema and local injuries.

Surgical operations.—120 major and 1,071 minor operations were performed against 110 and 824 in 1891. Of the former the most important were lateral lithotomies, puncturing eyeball, reductions of dislocation of humerus and lower jaw, lithotrities, ovariotomy and delivery by forceps.

Mortality and its causes.—There were 29 deaths. The principal causes were debility and diarrhœa, remittent fever, vesical calculi, enteritis, ascites, pneumonia, gangrene, &c.

Medico-Ligal.—There were 38 cases as compared with 31 in the previous year.

Vaccination.—By the municipal vaccinator.

Cost.—The total cost was Rs. 5,534-0-8 and the cost per patient Re. 0-5-6, against Rs. 12,980-12-4 and Re. 0-14-5 in 1891 and Rs. 16,865 and Rs. 1-4-10 in 1890.

Conduct of establishment.—Satisfactory.

CIVIL HOSPITAL, MAHA'BALESHVAR.—*In charge of* Surgeon-Captain H. W. STEVENSON.

Conservancy.—Sub-depôts for collection of night-soil made. Iron reservoirs and carts for night-soil purchased. Iron latrines erected to replace old stone latrines. Land behind bazár purchased for conservancy purposes. New Sanitary Inspector and Muccadum with largely increased staff, appointed. Street sweepings burnt, night-soil buried in pits in the forest at a distance.

Water-supply.—From Yenna lake, tanks, wells and springs, is good and abundant except at the end of hot season.

Hospital buildings.—With the exception of Hospital Assistant's quarters, in good repair. Store-room, mortuary and dispensing room are required. Accommodation ample.

General health.—Good. There was no epidemic.

Attendance of patients.—11,769 out-door and 26 n-door as compared with 11,706 and 22 in 1891 and 9,340 and 23 in 1890.

Prevailing diseases.—Diseases of the digestive system, of the skin, of the eye and of the respiratory and nervous systems, malarial fevers, rheumatism, venereal diseases and intestinal worms due to bad sanitary surroundings and impure water.

Operations.—7 major and 233 minor operations were performed against 7 and 116 in 1891 respectively.

Mortality.—Two deaths occurred, one from opium poisoning and one from valvular disease of the heart.

Vaccination.—Is satisfactorily carried out by the táluka vaccinator.

Conduct of establishment.—Satisfactory.

Cost.—The total cost was Rs. 1,473-7-0 and the cost per patient Re. 0-2-0, as compared with Rs. 6,867-1-8 and Re. 0-9-4 in 1891 and Rs. 8,425-4-7 and Re. 0-14-4 in 1890.

GRANT-IN-AID DISPENSARIES.

WA'I.—*In charge of* Hospital Assistant CHINTA'MAN BALLA'L.

The building, an old native one, is in good repair. The committee visited the dispensary 4 times. The conservancy of the town is good. The water-supply is abundant but contaminated. The total treated was 12,524 out-door and 11 in-door patients as compared with 12,625 and 22 in 1891 and 10,776 and 26 in 1890. The most common diseases were malarious fevers, worms, dysentery, rheumatism, ophthalmia, chest affections, diseases of the ear, digestive system and skin. Cholera prevailed in the town and its vicinity in July, August and November. There were 43 cases with 15 deaths. Vaccination is carried on by the táluka vaccinator. Four *post-mortem* examinations were made. The dispensary was inspected by the 1st Assistant Collector, Sátára, in February, by the Deputy Sanitary Commissioner in March, by the Civil Surgeon, Sátára, in May, and the Commissioner, Central Division, and the Surgeon General with the Government of Bombay in June. The total cost was Rs. 1,727-15-7 and the cost per patient Re. 0-2-2, against Rs. 1,864-8-11 and Re. 0-2-4 in 1891 and Rs. 1,538-15-10 and Re. 0-2-3 in 1890.

KARA'D.—*In charge of* Hospital Assistant VINA'YAK SUKHA'RA'M KELKAR.

The dispensary buildings are in good repair. The furniture and fittings are sufficient and in good order. The committee visited the dispensary seven times. The sanitary arrangements were well looked after by the Municipality. The water-supply from Krishna and Koina rivers is good and abundant. The total treated was 8,269 out-door and 62 in-door patients as compared with 7,827 and 70 in 1891 and 8,127 and 67 in 1890. The prevailing diseases were worms, malarial fevers, diseases of the eye, skin and lungs and of the digestive system. Cholera prevailed in the town and in the villages of the táluka. There were 13 major and 378 minor surgical operations performed. 11 *post-mortem* examinations were held and 36 medico-legal cases were examined and reported upon. Vaccination was performed by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon in November. The total cost was Rs. 1,382-12-7 and the cost per patient was Re. 0-2-8, as compared with Rs. 1,318-2-11 and Re. 0-2-8 in 1891 and Rs. 1,622-12-11 and Re. 0-3-2 in 1890.

ISLA'MPUR.—*In charge of* Hospital Assistant BÁLÁJI KUSHÁBA.

The dispensary is situated on an elevated ground in a healthy and open locality out of the town. The building is old but in a fair state of repair and suitable for the purpose. Tables for operation and *post-mortem* examination are much needed. The committee visited the dispensary four times, but individual members of the Municipality and the District Revenue officers paid frequent visits. The sanitary condition of the town is unsatisfactory. The Municipality have built latrines with 24 seats in 3 different places of the town, but they are not in use owing to the want of ground for night-soil. The water-supply is from 4 tanks and a spring and is inferior in quality and insufficient in hot seasons. The total treated were 6,881 out-door and 47 in-door patients as compared with 6,572 and 59 in 1891 and 6,665 and 57 in 1890. The most common diseases were malarial fevers, intestinal worms, chiefly ascaris lumbricoides, eye, stomach and bowel-complaints, skin affections, especially scabies and ulcers and local injuries. Cholera prevailed in several villages of the táluka and also in the town. Influenza prevailed in the end of 1891 and in the beginning of 1892. 9 major and 237 minor surgical operations were performed. Vaccination is carried out by the táluka vaccinator. Eleven *post-mortem* examinations were held. The dispensary was inspected by the Civil Surgeon, Sátára, on the 5th December. The total cost was Rs. 1,040-9-6 and the cost per patient Re. 0-2-5, against Rs. 1,116-2-5 and Re. 0-2-8 in 1891 and Rs. 1,010-6-10 and Re. 0-2-4 in 1890.

PUSESÁVLI.—*In charge of* Hospital Assistant GOVIND ANNÁJI BODHANI.

The dispensary building is in good order. There is no proper accommodation for in-door patients. The conservancy of the town is unsatisfactory. The water-supply from wells and brook is good and abundant. 27 in-door patients and 5,319 out-door patients were treated against 20 and 4,342 in 1891 and 5 and 4,021 in 1890. The prevailing diseases were malarial fevers, intestinal worms, eye diseases, stomach and bowel-complaints, respiratory affections and skin diseases. 2 major and 238 minor surgical operations were performed. Vaccination is performed by Khatáv-Khánápur Vaccinator. Seven dead bodies were examined at the request of the police. The dispensary was inspected by the Deputy Sanitary Commissioner on 9th February and by the Civil Surgeon, Sátára, in November. The total cost was Rs. 928-2-7 and the cost per patient Re. 0-2-9, against Rs. 835-12-9 and Re. 0-3-0 in 1891 and Rs. 945-0-3 and Re. 0-3-9 in 1890.

MHASVAD.—*In charge of* Hospital Assistant WÁSUDEV BÁLKRISHNA.

The dispensary building is in good repair; furniture and fittings in good order. The conservancy of the town is fair. The commitee visited the dispensary 13 times. The water-supply from the Mán river is abundant except in hot weather. The total treated was 4,887 out-door and 17 in-door patients as compared with 5,031 and 19 in 1891 and 4,788 and 17 in 1890. A few cases of cholera occurred in the surrounding villages in the months of June and July. The prevailing diseases were malarial fevers, worms, conjunctivitis, diseases of the respiratory system, and skin diseases, including ulcers. One major

and 100 minor surgical operations were performed. Vaccination is carried on by the Dahivadi Táluka Vaccinator. Four dead bodies were examined. The dispensary was inspected by the Deputy Sanitary Commissioner on the 27th January and by the Civil Surgeon, Sátára, on the 15th December. The total cost was Rs. 846-7-8 and the cost per patient Re. 0-2-9, against Rs. 911-8-0 and Re. 0-2-10 in 1891 and Rs. 985-12-3 and Re. 0-3-1 in 1890.

PÁTAN.—*In charge of* Hospital Assistant MOHANLA'L NA'NAKRA'M.

The dispensary building and out-houses are in good repair. The committee visited the dispensary frequently and regularly. There is no Municipality and consequently there is no regular conservancy establishment. The water-supply is chiefly from the rivers Koina and Keira, and it is abundant and of fair quality, but liable to pollution. The total treated was 5,504 out-door and 39 in-door patients as compared with 6,478 and 25 in 1891 and 5,289 and 21 in 1890. The most common diseases were malarious fevers, ophthalmia, intestinal worms and skin affections. Cholera prevailed more or less in the town and in the táluka. Three major and 172 minor surgical operations were performed. The work of vaccination is carried on by the táluka vaccinator. The total number of children vaccinated was 139. Four *post-mortem* examinations were made and opinions were given in 17 other medico-legal cases. The dispensary was inspected by the Deputy Sanitary Commissioner, C. D., in May, and by the Civil Surgeon, Sátára, in December. The total cost was Rs. 1,382-11-8 and the cost per patient Re. 0-4-0, against Rs. 1,161-12-1 and Re. 0-2-10 in 1891 and Rs. 1,712-1-2 and Re. 0-5-1 in 1890.

TÁSGAON.—*In charge of* Hospital Assistant VITHAL BHIKÁJI.

The dispensary is in good order, but it requires ordinary repairs. The furniture is sufficient. A table for operations and iron cots for in-patients are wanted. The committee visited the dispensary five times during the year. The conservancy of the town is defective. The water-supply is good in quality but deficient in hot season. The total treated was 5,582 out-door and 23 in-door patients as compared with 4,933 and 19 in 1891 and 4,681 and 9 in 1890. The most common diseases were dysentery, fevers, worms, rheumatism, ophthalmia, bronchitis, diarrhœa, skin diseases and injuries. Cholera prevailed in the town and its vicinity during the months of July, August and September. Two major surgical operations were performed. Vaccination is carried on by the Táluka Vaccinator and is well received. Five *post-mortem* examinations were made and opinion given in several medico-legal cases at the request of the police. The dispensary was inspected by the Civil Surgeon, Sátára, in December. The total cost was Rs. 1,038-5-6 and the cost per patient Re. 0-3-0, against Rs. 1,288-12-9 and Re. 0-4-1 in 1891 and Rs. 1,373-4-2 and Re. 0-4-8 in 1890.

PANCHGANI.—*In charge of* Superintendent J. F. DEJOSS.

The buildings are in good repair. Sanitary arrangements are satisfactory, and the supply of water ample. The total treated was 9,039 out-door and 4 in-door patients against 9,030 and 4 in 1891 and 7,702 and 3 in 1890 respectively. Malarious fevers, worms, dyspepsia, and other diseases of respiratory and digestive systems and eye and skin diseases were the most common complaints. Cholera made its appearance in the valley below in September 1892. The town was free from cholera. There were 16 major and 77 minor surgical operations performed. Vaccination is conducted by the municipal vaccinator. The dispensary was inspected by the Surgeon-General, the Deputy Sanitary Commissioner, the Civil Surgeon, the Collector and the First Assistant Collector of the district. The total cost was Rs. 810-15-9 and the cost per patient Re. 0-1-5, as compared with Rs. 786-5-3 and Re. 0-1-4 in 1891 and Rs. 982-10-6 and Re. 0-2-0 in 1890.

RAHIMATPUR.—*In charge of* Hospital Assistant HANMANTRA'O CHOWA'N.

The dispensary building, a hired house, is quite unsuitable for the purpose. The committee visited the dispensary regularly. Conservancy arrangements are well attended to. The water-supply, chiefly from nálas, is good and abundant. The total treated was 6,257 out-door and 29 in-door patients as compared with 5,762 and 23 in 1891 and 4,700 and 22 in 1890 respectively. The prevailing complaints were diseases of skin, malarial fevers, bronchitis, round worms and injuries. 11 major and 316 minor surgical operations were performed. Cholera provailed in June and July 1892. Vaccination is carried out by the táluka vaccinator. Four *post-mortem* examinations were held and opinion given in 15 medico-legal cases. The dispensary was inspected on 16th November by the Civil Surgeon, Sátára. The total cost was Rs. 1,295-5-8 and the cost per patient Re. 0-3-4, as compared with Rs. 1,091-13-0 and Re. 0-3-0 in 1891 and Rs. 970-14-11 and Re. 0-3-3 in 1890.

SHOLA'PUR COLLECTORATE.

CIVIL HOSPITAL, SHOLA'PUR.—*In charge of* Senior Apothecary W. R. SCROGGIE, L.R.C.P.

Conservancy.—The conservancy arrangements are carried out fairly satisfactorily on the whole, but a more active attention to the condition of the drains generally is needed. The drainage is incomplete.

Water-supply.—From the Ekruk tank is good and sufficient. There has been no change beyond having one additional water reservoir constructed in the camp for the use of those residing there.

Hospital buildings.—Two cholera sheds have been added to the hospital to accommodate 8 males and 4 females; they belong to the Municipality and consist of a roof of Mangalore tiles supported on iron pillars; the walls, doors and windows being of corrugated iron. The male and female wards of the hospital have been flagged with Shahabad stone, and cloth ceilings have been put up, thus preventing the annoyance hitherto caused by sparrows' buildings in the chupper roofs. The floor of the police ward remains unflagged. An operating and examining room and bath-rooms to each ward are still required. Corrugated iron latrines for males and females have been added, but their flooring is badly constructed as it permits soakage and is not drained. A room for the female ward servant has been added.

General health.—Good. Cholera, influenza, measles and small-pox prevailed during the year.

Attendance of patients.—526 in-door and 11,762 out-door as compared with 515 and 10,875 in 1891 and 490 and 9,350 in 1890.

Prevailing diseases.—Ascaris lumbricoides, conjunctivitis, ague (quotidian), injuries, bronchitis, inflammation of external meatus, rheumatism and itch.

Surgical operations.—1,334 minor and 102 major operations were performed against 1,014 and 77 in 1891 and 686 and 55 in 1890. The most important of the major operations were 6 for cataract, 1 aspiration of hepatic abscess, 1 incision for exploration of abdomen, 6 lateral lithotomies, 1 supra-pubic lithotomy, 2 delivery by forceps, 1 podalic version and 2 amputations of breast, 1 of arm, 4 of forearm, and 2 of leg.

Mortality and its causes.—There were 27 deaths. Dysentery caused 6 deaths, pneumonia 3, hydrophobia, cholera, opium poisoning and Bright's disease 2 each and several diseases accounted for 1 each.

Vaccination.—Is performed by the municipal vaccinator of the town. There were 2,364 primary and 120 re-vaccinations. During 1891 vaccination from the calf was introduced into Sholápur and has been carried on successfully since.

Medico-legal.—There were 63 cases, including 13 *post-mortem* examinations.

Conduct of establishment.—The conduct of the 1st and 2nd class establishment has been good.

Cost.—The total cost was Rs. 3,577-13-8 and the cost per patient Re. 0-4-8, against Rs. 10,888-13-3 and Re. 0-15-3 in 1891 and Rs. 10,124-14-9 and Rs. 1-0-5 in 1890.

MUNICIPAL DISPENSARIES.

SHOLÁPUR.—*In charge of* Hospital Assistant PURSONSING.

The building is in fairly good repair; a good deal of repair is very necessary to the Hospital Assistant's and servants' quarters. The furniture and other fittings are complete and in good order. The conservancy arrangements of Sholápur are not up to the average and there is ample room for improvement. The water-supply is abundant and good in quality. The dispensary committee met ten times. The total treated was 15,874 out-door and 71 in-door patients as compared with 17,273 and 100 in 1891 and 16,133 and 59 in 1890. The prevailing diseases were ague, ascaris lumbricoides, conjunctivitis, dysentery, bronchitis, diarrhœa, eczema and scabies. Cholera was prevalent during the months of July and August. Eighteen cases were treated in the dispensary. 29 major and 846 minor surgical operations were performed. Vaccination is conducted by the municipal vaccinator. The dispensary was inspected by the Civil Surgeon and by the Surgeon-General and the Sanitary Commissioner and the Collector twice and by the Deputy Sanitary Commissioner once. The total cost was Rs. 3,178-6-0 and the cost per patient Re. 0-3-2, against Rs. 3,012-12-7 and Re. 0-2-9 in 1891 and Rs. 2,475-6-9 and Re. 0-2-5 in 1890.

DA'RA'SHAW DISPENSARY, SHOLA'PUR.—*In charge of* MR. BALWANTRA'O NILKANT.

The building is in fairly good condition except the roof. This and the Hospital Assistant's quarters require to be thoroughly repaired. Furniture and fittings are complete and in good order. Conservancy arrangements of the town are tolerably good. The water-supply is ample. The committee did not visit the dispensary during the year. The total number of out-door patients treated was 5,417 against 5,368 in 1891. The most common diseases were malarial fevers, conjunctivitis, dysentery, diarrhœa, rheumatic affections, affections of the respiratory and digestive systems, worms and skin diseases. Cholera prevailed in August. 1 major and 154 minor surgical operations were performed. Vaccination

is not carried on in this dispensary. It is done by the municipal vaccinator. The dispensary was inspected 4 times by the Civil Surgeon, twice by the Huzúr Deputy Collector and once by the Surgeon-General with the Government of Bombay. The total cost was Rs. 1,144-12-1 and the cost per patient Re. 0-3-5, against Rs. 620-12-7 and Re. 0-1-10 in 1891.

PANDHARPUR.—*In charge of* Assistant Surgeon G. G. BOPARDIKAR, L.M. & S.

The buildings are in good repair. Quarters for the Hospital Assistant and some of the members of the second class establishments, a private examination room, plank ceilings for the office and store-rooms, a screen wall for the dead-house, *post-mortem* and operation tables are wanted. The furniture and fittings with the above exceptions are sufficient for the requirements of the dispensary; but the chairs and some of the benches require repairs. The conservancy of the town is well attended to. Water-supply (*a*) from the municipal tank is hardly sufficient (in summer) for wants of such a town of pilgrimages as Pandharpur; and that (*b*) from the river Bhima, although sufficient, is liable to contamination. Abundant and pure water-supply, that would reach the highest part of the town,—the temple and its surrounding part, is a great desideratum, deserves the early attention of the local Municipality, more specially as they receive something like forty thousand rupees in the shape of pilgrim-tax. The Mhasvad canal water scheme has long been hanging before the Municipality. This, if carried out, would cure the chronic complaint as regards the water-supply. The committee met three times in the dispensary and seven times in the municipal hall. The principal diseases were worms, diseases of the eye and skin and malarial fevers. The total treated were 8,782 out-door and 80 in-door patients against 8,665 and 90 in 1891 and 8,496 and 80 in 1890. The total number of deaths among the in-patients was 14 with a percentage of 17·5. Twelve major and 478 minor surgical operations were performed; of these 2 were incisions for large abscesses, 5 reductions of recent dislocations, and 1 of each of the following, *viz.*, polypus nasi, ascitis, vesical calculus, abortion and conjoined fingers. The general health of the town is fairly good and except for a small outbreak of cholera in July and August, the period corresponding to the Ashádhi Fair, there has been nothing in the form of an epidemic. Cholera broke out on the 12th of July and lasted till the 19th of August. There were only 68 attacks with 27 deaths. There was no epidemic of small-pox. There were 29 medico-legal cases examined and reported upon and 15 *post-mortem* examinations were made at the request of the police. Vaccination is conducted by a municipal vaccinator. There were 659 primary and 2 re-vaccinations against 652 and 3 in 1891. The dispensary was inspected by the Deputy Sanitary Commissioner in January and July. The total cost was Rs. 4,534-13-3 and the cost per patient Re. 0-8-2, as compared with Rs. 3,603-9-7 and Re. 0-6-7 in 1891 and Rs. 3,659-7-0 and Rs. 0-6-9 in 1890.

BÁRSI.—*In charge of* Hospital Assistant BA'LKRISHNA HARI.

The building is in good order, except the ventilation of the female ward which is defective. The committee met frequently. The water-supply is from tanks and wells. The total treated was 17,872 out-door and 62 in-door patients as compared with 15,421 and 55 in 1891 and 13,914 and 53 in 1890. The prevailing diseases were worms, ophthalmia, malarial fevers, disease of the digestive and respiratory systems, and skin and rheumatic affections. Cholera prevailed in July. There were 4 cases and 3 deaths. Fifty-nine major surgical operations were performed. Eleven *post-mortem* examinations were made; 1 human and 3 animal viscera were sent to the Chemical Analyser. Vaccination is carried on by the municipal vaccinator. The dispensary was inspected by the Civil Surgeon, Sholápur, in November. The total cost was Rs. 2,567-6-11 and the cost per patient Re. 0-2-3, against Rs. 2,384-2-3 and Re. 0-2-5 in 1891 and Rs. 1,729-10-7 and Re. 0-1-11 in 1890.

GRANT-IN-AID DISPENSARIES.

KARMA'LA.—*In charge of* Hospital Assistant N. POCHA'YA.

The dispensary building is in a fair state of repair. In-door accommodation and quarters for servants are much needed. Furniture and fittings are sufficient and in good order. The dispensary committee met monthly. The sanitation of the town is well attended to. Water-supply has been improved by placing iron pipes in lieu of earthen ones and by providing more wells. The total treated was 10,002 out-door and 23 in-door patients as compared with 10,496 and 13 in 1891 and 8,740 and 21 in 1890. The prevailing diseases were ophthalmia, malarial fevers, intestinal worms, rheumatism and diseases of the respiratory and digestive systems and skin. There was no cholera, but small-pox and measles prevailed in the latter part of the cold season to a slight extent. Eight major surgical operations were performed. Four *post-mortem* examinations were held and opinion was given in 15 medico-legal cases. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Sholápur, on 6th December, and was visited by the Collector and his Assistant while on tour. The total cost was Rs. 1,475-14-1 and the cost per patient Re. 0-2-4 against Rs. 1,424-6-7 and Re. 0-2-2 in 1891 and Rs. 1,526-13-11 and Re. 0-2-9 in 1890.

AKLUJ.—*In charge of* Hospital Assistant GANESH RA'VJI.

The building has not been repaired since March 1891; a dead-house, a female ward and servants' quarters were built during the year. The furniture and fittings are sufficient. The dispensary committee met six times. The sanitary condition is not what it ought to be. The water-supply from the River Nira and a well is abundant and of good quality, but liable to pollution. The total number of patients treated were 8,295 out-door and 38 in-door as compared with 10,832 and 52 in 1891 and 11,004 and 42 in 1890. The prevailing diseases were rheumatic affections, diseases of the eye and the respiratory system, diarrhœa, dysentery and skin diseases and intestinal worms. Eye diseases prevailed in the months of June and July. Minor surgical operations numbered 262 and major 13. Vaccination is carried on by the táluka vaccinator. The dispensary was in February inspected by the Civil Surgeon, the Collector and the Assistant Collector of Sholápur and by the Commissioner, C. D. Five *post-mortem* examinations were made and opinion given in fifteen medico-legal cases. The total cost was Rs. 959-13-3 and the cost per patient Re. 0-1-10, as compared with Rs. 1,605-13-0 and Re. 0-2-4 in 1891 and Rs. 1,729-11-8 and Re. 0-2-6 in 1890.

NATIVE STATE DISPENSARY.

AKALKOT.—*In charge of* Mr. R. S. POREDI, L.M. & S.

The dispensary buildings are in a fair state of repair. A new book-shelf and wooden cot were added to the furniture. There is no dispensary committee, the town not having a Municipality. The dispensary was visited by His Highness the Ráje Sáheb often. The total treated was 10,403 out-door and 89 in-door patients against 11,251 and 71 in 1891 and 8,628 and 30 in 1890. The most common diseases were ague, malarial fevers, pneumonia, digestive and respiratory affections, ophthalmia and skin diseases. The town was free from epidemic disease. 17 major and 395 minor surgical operations were performed. The dispensary was inspected by the Deputy Sanitary Commissioner in January. Six *post-mortem* examinations were held and opinion given in 43 medico-legal cases. The total cost was Rs. 3,905-8-9 and the cost per patient Re. 0-5-11, as compared with Rs. 3,287-4-0 and Re. 0-4-7 in 1891 and Rs. 2,606-8-1 and Re. 0-4-9 in 1890.

BELGAUM COLLECTORATE.

CIVIL HOSPITAL, BELGAUM.—*In charge of* Surgeon-Major J. P. GREANY, M.D.

Conservancy.—The conservancy arrangements of Belgaum are still far from perfect; though the establishment maintained is a large one, the general sanitary condition of the town is unsatisfactory. The surface drainage scheme is still under contemplation, but plans and estimates are shortly expected from the Executive Engineer.

Water-supply.—Is abundant and obtained mainly from wells, which are more or less liable to pollution from soakage. A good water-supply is very much needed.

Hospital buildings.—These have been regularly lime-washed by the Public Works Department, and this year a new roof is being put on, which will make the wards more comfortable, especially during the monsoon months when, owing to leakages and the absence of a plinth, they were always damp, cold, and cheerless. Plans and estimates for a new hospital have been called for in Government Resolution No. 433 C. W.—1706 of 1892, Public Works Department, and when funds are available, one is to be built; the present buildings might then be utilised for medical subordinates and servants' quarters, store-rooms, wards for supposed lunatics, &c. &c.

General health.—The general health of the population has been on the whole fairly good; for although cholera visited the town each year, it was, with the exception of 1892, of a mild character and of brief duration on each occasion.

Attendance of patients.—318 in-door and 5,403 out-door patients were treated against 305 and 5,225 in 1891 and 329 and 6,450 in 1890. The daily average was 97·9 as compared with 100·5 in 1891 and 91·0 in 1890.

Prevailing diseases.—Malarious fevers, intestinal worms, rheumatic affections, diseases of the eye, respiratory and digestive systems, skin affections and injuries.

Mortality and its causes.—There were 40 deaths among in-door patients. The principal causes were diarrhœa 10, cholera 6, dysentery and debility 3 each, pneumonia and ulcer 2 each, &c.

Surgical operations.—34 major and 266 minor operations were performed. Of the former the most important were removal of tumours, double amputations of arms and fore-arms, removal of cataracts, excision of entire sac for hœmatocele, lithotomies, amputation of penis, amputation of leg, tracheotomy, reduction of dislocation, operation for vesico-vaginal fistula, lithotrity, castration, amputation of breast for malignant disease, aspirating abscesses, &c., were amongst the principal major operations performed.

Medico-legal.—19 *post-mortem* and 35 medico-legal investigations were made on the requisition of the Police and Magisterial authorities.

Vaccination.—Has been attended to by the municipal vaccinator, who is under the orders of the Deputy Sanitary Commissioner, Southern Registration District.

Conduct of establishment.—Has been uniformly good.

Cost.—The total cost was Rs. 5,286-5-11 and the cost per patient Re-0-14-9, against Rs. 14,468 and Rs. 2-9-10 in 1891 and Rs. 14,165-9-10 and Rs. 2-1-5 in 1890.

MUNICIPAL DISPENSARY.

BELGAUM.—*In charge of* pensioned Hospital Assistant RÁMCHANDRA RA'OJI.

The dispensary was opened on the 1st April 1890 and is kept in excellent repair; the furniture and fittings are sufficient and in good order. The municipal committee visited the dispensary several times. The conservancy arrangements of the town are as in previous years. The water-supply is obtained from wells and it is sufficient for the requirements. The total number of out-door patients treated were 6,826 as compared with 7,084 in 1891 and 4,335 in 1890. The prevailing diseases were malarious fevers, intestinal worms, rheumatic affections, diseases of the eye and skin and of the respiratory and digestive systems. Cholera and influenza prevailed during the year. 261 minor surgical operations were performed. Vaccination is carried out by the Local Fund vaccinator. The dispensary was inspected by the Civil Surgeon on the 5th December. The total cost was Rs. 779-10-0 and the cost per patient Re. 0-1-10, as compared with Rs. 809-10-5 and Re. 0-1-9 in 1891 and Rs. 277-5-4 and Re. 0-1-1 in 1890.

GRANT-IN-AID DISPENSARIES.

GOKA'K.—*In charge of* Hospital Assistant SHIVU BHA'GU.

The building has not been repaired. There are no quarters for the dispensary servants. The committee visited the dispensary eight times. The water-supply is from the river and wells. The sanitary condition of the town is fair. The total treated was 4,887 out-door and 23 in-door patients as compared with 3,198 and 12 in 1891 and 3,776 and 22 in 1890. The prevailing diseases were malarious fevers, worms, diseases of the eye, digestive system, and skin and ulcers. Cholera prevailed during the year: forty-four cases were treated in the dispensary. Vaccination is carried on by the municipal vaccinator. The dispensary was inspected by the Civil Surgeon, Belgaum, in February, and visited by the Commissioner, S. D., and the 2nd Assistant Collector. The total cost was Rs. 1,285-7-3 and the cost per patient Re. 0-4-2, as compared with Rs. 980-13-11 and Re. 0-4-10 in 1891 and Rs. 1,317-9-2 and Re. 0-5-6 in 1890.

ATHNI.—*In charge of* Hospital Assistant ANANT MULHAR.

The buildings are in good repair. The committee visited the dispensary twelve times, the President twice, and the Collector of the district and the Commissioner of Southern Division once each. The town is kept fairly clean. The water-supply is sufficient and is chiefly derived from wells and a tank. The total treated was 5,161 out-door and 29 in-door patients as compared with 5,058 and 25 in 1891 and 4,528 and 16 in 1890. The most common diseases were ophthalmia, worms, diseases of the skin, bowel-complaints, rheumatic affections and malarious fevers. Cholera was prevalent from 12th May to 25th July in the town: 37 cases with 17 deaths. Six major surgical operations were performed. Vaccination is carried on by the municipal vaccinator. Thirteen *post-mortem* examinations were made and opinion given in seven medico-legal cases. The dispensary was inspected by the Deputy Sanitary Commissioner of Southern Division in January and by the Civil Surgeon, Belgaum, in December. The total cost was Rs. 1,394-6-3 and the cost per patient Re. 0-4-4, as compared with Rs. 1,406-3-7 and Re. 0-4-5 in 1891 and Rs. 1,363-0-3 and Re. 0-4-9 in 1890.

SAUNDATTI.—*In charge of* Hospital Assistant MORO RÁMCHANDRA.

The building is in good order. A compound wall, quarters for servants and the services of a sweeper are wanted. The committee regularly visited the dispensary. Drainage and surface conservancy of the town is good. The water-supply is good. The total number treated was 3,911 out-door and 13 in-door patients as compared to 3,158 and 13 in 1891 and 2,837 and 17 in 1890. The most common diseases were malarious fevers, worms, diseases of the eye and respiratory system, diarrhœa, ulcers and skin diseases. 29 cases of cholera were treated, of which 15 proved fatal. The out-break was severe, necessitating the appointment of a special Hospital Assistant for the táluka. 3 major and 103 minor surgical operations were performed. Ten *post-mortem* examinations were held. The dispensary was inspected by the Civil Surgeon, Belgaum, in January. Vaccination was carried on by the táluka vaccinator. The total expenditure was Rs. 1,895-1-9 as compared to Rs. 1,174-1-0 in 1891 and Rs. 1,223-12-3 in 1890. The cost per patient was Re. 0-7-9 as compared to Re. 0-5-11 in 1891 and Rs. 0-6-10 in 1890. The increase in expenditure is owing to the payment to contractor of the balance for erecting the dispensary buildings.

CHIKODI.—*In charge of* Hospital Assistant NARSA'PA NAIDU.

The building has been repaired but the roof is in bad condition. The committee visited the dispensary twelve times. Conservancy of the town is bad, there being no Muni-

cipality. The water-supply from brook is good and abundant. The total treated was 4,888 out-door and 47 in-door patients as compared with 4,843 and 32 in 1891 and 3,611 and 31 in 1890. The prevailing diseases were malarious fever, diseases of the respiratory and digestive systems and eye, intestinal worms, rheumatic affections, diseases of the skin and local injuries. Cholera prevailed in the town and surrounding villages. 48 cases were treated in the dispensary, of which 16 were fatal. Seven *post-mortem* examinations were held. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon of Belgaum in October. The total cost was Rs. 12,46-10-11 and the cost per patient Re. 0-4-1 as compared with Rs. 1,539-15-10 and Re. 0-5-0 in 1891 and Rs. 1,040-4-2 and Re. 0-4-6 in 1890.

KHA'NA'PUR.—*In charge of* Hospital Assistant NA'RA'YEN VITHAL.

The roof of the building, which was in a dilapidated state, has been repaired during the year. The furniture and fittings are in good order and sufficient. Conservancy has been fairly attended to, though there is no regular Municipality. Water-supply from the river and wells is ample and tolerably pure, but liable to pollution. Cholera broke out in the town and its vicinity in a virulent form. There occurred 73 cases in Khánápur itself with 37 deaths, and the total number in the táluka was 521 with 310 deaths. The number of out-patients were 2,911 against 2,745 in 1891 and 2,849 in 1890 and the daily average was 35·6, 32·5 and 28·7 respectively. The prevailing diseases were dysentery, malarious fevers, influenza, worms, rheumatic affections, eye and ear diseases, respiratory affections and bowel-complaints, skin diseases, ulcers and injuries. There is no accommodation for in-door patients. One major surgical operation was performed. The minor operations numbered 23. Vaccination is conducted by the táluka vaccinator. Seven *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Belgaum, in April. The total cost was Rs. 808-8-11 and the cost per patient Re. 0-4-5, as compared with Rs. 902-11-8 and Re. 0-5-3 in 1891 and Rs. 710-14-2 and Re. 0-4-10 in 1890.

DHA'RWÁR COLLECTORATE.

CIVIL HOSPITAL, DHÁRWÁR.—*In charge of* Surgeon-Major H. MCCALMAN, M.D.

Conservancy.—Pit privy system still in force. Sweepings and refuse removed by cart and sold for agricultural purposes. Latrine accommodation very inadequate. Night-soil deposited in pits to the south of the town. Sanitary supervision insufficient and lax.

Water-supply.—Quality very indifferent. Tanks exposed to pollution from surface drainage. Majority of wells brackish. Supply short. New scheme, to cost 4½ lákhs, submitted to Government.

Hospital buildings.—In good repair. Alterations of the floors of three main wards have been sanctioned.

General health.—Influenza epidmic in 1890. In the month of March one-half the inhabitants of the town were affected by it. Cholera broke out in the northern táluka in June 1891. Eventually it spread over the whole district and only disappeared in August 1892. It was most prevalent in Dhárwár itself in May, June and July. From first to last the cases reported were over 10,000 with a mortality exceeding 50 per cent.

Attendance of patients.—247 in-door and 8,193 out-door against 267 and 9,408 in 1891 and 234 and 9,122 in 1890.

Prevailing diseases.—Ague, round worms, bronchitis and bronchial catarrh, disorders of digestion, conjunctivitis, scabies, ring-worm, eczema and ulcers.

Surgical operations.—84 major and 476 minor against 59 and 433 in 1891 and 82 and 569 in 1890. The most important of the former were removal of tumours, reduction of dislocations, delivery by forceps, paracentesis of ovarian cysts and of abdomen.

Mortality and its causes.—There were 17 deaths in hospital or a ratio to treated of 6·8 per cent., most of which were admitted in a moribund state. The causes were chronic diarrhœa, ague, and cholera 3 each, and general dropsy, large abscess, ulcers and necrosis, constitutional syphilis, pneumonia, anœmia, debility and compound fracture of the skull 1 each.

Medico-legal.—21 *post-mortem* examinations were performed for medico-legal purposes and 29 reports made to the Police and Magisterial authorities.

Vaccination.—Animal vaccination has been in force for several years and is well received. There were 1,185 primary and 431 re-vaccinations. Two-thirds of the vaccinator's salary is defrayed by the Municipality.

Conduct of the establishment.—Is reported to be satisfactory.

Cost.—The total cost was Rs. 4,831-14-2 and the cost per patient Re. 0-9-2, as compared with Rs. 13,998-10-5 and Rs. 1-7-2 in 1891 and Rs. 16,64-73-10 and Rs. 1-12-5 in 1890.

GRANT-IN-AID-DISPENSARIES.

HUBLI.—*In charge of* Assistant Surgeon D. CARDOZ.

The dispensary buildings have been in a fair state of repair. The buildings, however, are inadequate for the purpose for which they are intended, and a new building on a larger scale will shortly be erected, the Municipality having made the necessary allotment for the purpose. More furniture and fittings are necessary. The committee visited the dispensary 12 times. The conservancy arrangements of the town are fairly good. Latterly there has been some improvement, which is due to better supervision and increase in the conservancy staff. The water-supply from wells and tanks is good and abundant. Hubli will be supplied with water from the new water-works constructed at Unkal, a village 3 miles to the north of Hubli. The total number of patients treated was 18,900 and the daily attendance 291·8 against 18,543 and 266·2 in 1891 and 16,420 and 245.6 in 1890. The usual diseases prevailed, namely, simple, continued and malarious fevers, syphilitic and rheumatic complaints, affections of the respiratory system, dysentery, diarrhœa, dyspepsia and local injuries. Cholera prevailed from March till August, there being 226 seizures with 161 deaths. A few cases of small-pox were also reported during the latter part of 1892. There were 37 major and 1,051 minor surgical operations performed and 22 *post-mortem* examinations were made. Vaccination is performed by the municipal vaccinator, animal vaccine being used. The Civil Surgeon, Dhárwár, inspected the dispensary in February. The total cost was Rs. 6,416-0-1 and the cost per patient Re. 0-5-5, against Rs. 6,930-0-9 and Re. 0-5-11 in 1891 and Rs. 6,559-10-8 and Re. 0-6-4 in 1890.

GADAG.—*In charge of* Assistant Surgeon ABDUL GHANI HAKIM, L.M.

The building is in good repair. The committee visited the dispensary nine times. The sanitation of the town is fair. The water-supply is good and abundant. The total treated was 11,071 out-door and 38 in-door patients against 10,980 and 27 in 1891 and 11,594 and 42 in 1890. The most common diseases were worms, malarial fevers, diseases of the eye and skin and affections of the respiratory and digestive systems. There was cholera in 1st quarter of the year of rather a mild type. 38 major and 421 minor surgical operations were performed. 16 *post-mortem* examinations were held and 50 medico-legal cases examined, reported on and treated. This year calf lymph was introduced for vaccination and received favourably by the people. The dispensary was inspected by the Deputy Sanitary Commissioner in January and October, by the Sanitary Commissioner in March and by the Civil Surgeon, Dhárwár, in August. The total cost was Rs. 4,946-0-9 and the cost per patient Re. 0-7-1, against Rs. 5,023-3-1 and Re. 0-7-3 in 1891 and Rs. 5,163-5-9 and Re. 0-7-1 in 1890.

HAVERI.—*In charge of* Hospital Assistant LUXIMANRA'O SA'VANT.

The dispensary building has not been repaired and the roof leaks. A few cots with tapes, kamlies, satrangies, cooking-pots and suitable pans for latrines are wanted. The committee visited the dispensary four times. The sanitary condition of the town is bad. The water-supply is mainly from a tank, is insufficient and polluted to a great extent. The total treated was 5,383 out-door and 42 in-door as compared with 5,784 and 85 in 1891 and 5,435 and 59 in 1890. The most common diseases were fevers, worms, ulcers, sore eyes, itch, rheumatic and bronchial affections. Cholera and influenza prevailed in the town and surrounding villages. 10 major and 240 minor surgical operations were performed. 13 *post-mortem* examinations were made and opinion given in 18 other medico-legal cases. Vaccination is carried out by the Local Fund vaccinator. The dispensary was inspected by the Civil Surgeon, Dhárwár, and by the Deputy Sanitary Commissioner, Southern Registration District. The total cost was Rs. 1,805-1-7 and the cost per patient Re. 0-5-4, as compared with Rs. 1,282-13-4 and Re. 0-3-5 in 1891 and Rs. 1,285-2-8 and Re. 0-3-8 in 1890.

NAVALGUND.—*In charge of* Hospital Assistant GANU ARJUN.

The building is excellent and convenient. A compound wall and well are required. Furniture and fittings are sufficient and in good order. Individual members visited the dispensary often. Conservancy of the town is fairly good. The water-supply from tanks and wells is abundant and of good quality. The total treated was 2,765 out-door, and 19 in-door patients as compared with 2,968 and 26 in 1891 and 3,140 and 18 in 1890. The most common diseases were intermittent fever, conjunctivitis, scabies and ringworms, dyspepsia, diarrhœa and rheumatism. Cholera prevailed in the town and several villages in the month of April. Vaccination is carried out by the táluka vaccinator. There were 242 primary vaccinations. Several *post-mortem* examinations were held and opinion given in many medico-legal cases. One major surgical operation was performed. The dispensary was inspected by the Civil Surgeon, Dhárwár, in December. The total cost was Rs. 1,469-13-11 and the cost per patient Re. 0-.8-5, against Rs. 1,597-6-0 and Re. 0-8-6, in 1891 and Rs. 1,438-13-8 and Re. 0-7-3 in 1890.

RANEBENNUR.—*In charge of* Hospital Assistant PARASHRÁM NÁGESH.

The building, a hired one, is in good repair. The committee visited the dispensary occasionally. The sanitary condition of the town is not satisfactory. The water-supply is from

tanks and wells; from the latter it is brackish. The total treated was 4,804 out-door and 2 in-door patients as compared with 4,476 and 3 in 1891 and 4,068 and 2 in 1890. Dysentery, worms, malarial fevers, rheumatic affections, diseases of the nervous system, and diseases of the skin were the most common diseases. Cholera, small-pox and measles were epidemic in the town and surrounding villages. One hundred and sixty-two minor surgical operations were performed. Six *post-mortem* examinations were made. Vaccination is carried on by the Local Fund vaccinator. The dispensary was inspected by the Civil Surgeon, Dhárwár, in March. The total cost was Rs. 6,897-11-8 and the cost per patient Re. 1-7-0, as compared with Rs. 1,120-10-8 and Re. 0-4-0 in 1891 and Rs. 1,206-7-10 and Re. 0-4-8 in 1890.

BIJAPUR COLLECTORATE.

CIVIL HOSPITAL, BIJÁPUR.—*In charge of* Surgeon Lieutenant-Colonel C. T. PETERS, M.B.

Conservancy.—Much has been done by the extra-mural party of convicts from the district jail to supplement the work commenced by the convict gang (since transferred) in extirpating the prickly-pear bushes and levelling down old *debris* and filling up old dried up tanks, wells and pits. The work still continues under the superintendence of the Public Works Department. The Municipality have erected 13 latrines with 66 seats, some of which are used by the people, but there seems to be a feeling of repugnance against the use of latrines.

Water-supply.—Of the two old systems of water-supply the "Begam Tank" is now sufficiently repaired to admit of the water-supply reaching the Jumma Masjid Peit where wells are not so numerous; but the water is brackish. Of the "Torneh" system there are now only two wells which yield good drinking water.

Hospital buildings.—Are in good order. Three cells for lunatics, one dressing room, a well for drinking water and a shed for infectious cases have been completed.

General health.—An epidemic fever prevailed more or less causing great mortality not only in this town but in other places in this district; also cholera and small-pox.

Attendance of patients.—214 in-door and 7,191 out-door against 208 and 8,096 in 1891 and 207 and 8,606 in 1890.

Prevailing diseases.—Ague, remittent fever, ascaris lumbricoides, conjunctivitis, bronchitis and skin diseases.

Surgical operations.—44 major and 195 minor. Of the former the most important were reductions of dislocations, amputations, version, application of forceps and lateral lithotomies.

Mortality and its causes.—There were 11 deaths among in-patients who were admitted in a moribund state, 8 from starvation and 1 each from diarrhœa, pneumonia and wound of throat (suicidal).

Vaccination.—Is performed by the municipal vaccinator under the control of the Sanitary Department.

Medico-legal cases.—Five *post-mortem* examinations were held at the request of the police and 15 medico-legal cases were reported on.

Cost.—The total cost was Rs. 2,781-9-2 and the cost per patient Re. 0-6-0, as compared with Rs. 11,186-0-7 and Rs. 1-5-6 in 1891 and Rs. 14,016-3-3 and Rs. 1-9-8 in 1890.

Conduct of the establishment.—Satisfactory.

GRANT-IN-AID DISPENSARIES.

ILKAL.—*In charge of* Hospital Assistant RANGÁPA JAGANNÁTH.

The building was in good order. The committee visited the dispensary four times. The sanitary condition of the town was fair. The water-supply from wells and nála, is good and sufficient. The total treated was 3,405 out-door and 16 in-door patients as compared with 3,038 and 17 in 1891 and 3,107 and 13 in 1890. The most common diseases were ague, intestinal worms and eye diseases. There were 126 cases of cholera with 47 deaths. No small-pox. Four major and 173 minor surgical operations were performed. Vaccination was conducted by the táluka vaccinator. There were 8 *post-mortem* examinations held and 11 medico-legal cases were reported on. The dispensary was inspected by the Civil Surgeon, Bijápur, on 10th December. The total cost was Rs. 1,642-4-0 and the cost per patient Re. 0-7-8, as compared with Rs. 1,174-13-1 and Re. 0-6-1 in 1891 and Rs. 1,660-14-9 and Re. 0-8-6 in 1890.

BA'GALKOT.—*In charge of* Hospital Assistant BHÁGU MAHÁDU.

The buildings are in good repair. The furniture and fittings are sufficient and in good order. The committee visited the dispensary six times. The sanitation of the town is

fairly good. The water-supply is from wells and rivers and is good and sufficient. The total treated were 10,842 out-door and 25 in-door patients against 10,007 and 19 in 1891 and 11,911 and 34 in 1890. The prevailing diseases were malarial fevers, round worms and diseases of the eye and skin. Only two cases of cholera occurred. There were 19 dead bodies examined. Seven medico-legal cases were reported on. Vaccination is carried on by the municipal vaccinator. 15 major and 56 minor surgical operations were performed. The dispensary was inspected by the Civil Surgeon, Bijápur, in February. The total cost was Rs. 1,614-10-10 and the cost per patient Re. 0-2-5, as compared with Rs. 1,296-0-5 and Re. 0-2-0 in 1891 and Rs. 2,020-1-2 and Re. 0-2-8 in 1890.

MUDDEBIHÁL.—*In charge of* Hospital Assistant PÁNDURANG GANESH.

The building wants repair. The compound wall is newly built. A female ward is required. The dispensary furniture is ample and in a good condition. The committee visited the dispensary quarterly. The sanitary conditions of the town are neglected. Water-supply is from wells and is good and abundant. The total treated was 2,005 out-door and 16 in-door patients as compared with 1,624 and 12 in 1891 and 1831 and 22 in 1890. The prevailing diseases were malarial fevers, worms, diseases of the eye and of the digestive system and ulcers. Vaccination was carried out by the táluka vaccinator. Five *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Bijápur, in December. The total cost was Rs. 1,499-10-4 and the cost per patient Re. 0-11-10, against Rs. 1,091-0-1 and Re. 0-10-8 in 1891 and Rs. 1,105-8-11 and Re. 0-9-6 in 1890.

BA'GEVA'DI.—*In charge of* Hospital Assistant M. GOVIND.

The building is in good repair. The dispensary committee visited the dispensary every month. The sanitary and conservancy arrangements are unsatisfactroy. The water-supply is abundant and fairly good. The total treated was 3,449 out-door and 24 in-door patients as compared with 3,116 and 20 in 1891 and 2,751 and 15 in 1890. The prevailing diseases were malarial fevers, intestinal worms, ophthalmia, and diseases of the digestive and respiratory systems. Influenza and small-pox were prevalent in the táluka with three deaths from the latter. Six major surgical operations were performed. Vaccination is conducted by local fund vaccinators. Three *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Bijápur, in February. The total cost was Rs. 1,090-4-5 and the cost per patient Re. 0-5-0 against Rs. 964-9-1 and Re. 0-4-11 in 1891 and Rs. 931-15-4 and Re. 0-5-4 in 1890.

SINDGI.—*In charge of* Hospital Assistant KRISHNÁJI VITHAL.

The building is in good repair. The committee visited the dispensary quarterly. The sanitary condition of the town is fairly good, and water-supply from wells good and abundant. The total treated was 2,832 out-door and 25 in-door patients as compared with 2,718 and 8 in 1891 and 2,883 and 6 in 1890. The prevailing diseases were ophthalmia, worms, skin diseases, malarial fevers, diseases of the digestive system, ulcers and local injuries. Cholera prevailed in this táluka. 8 major and 59 minor surgical operations were performed. Vaccination is conducted by the Local Fund vaccinator. Six *post-mortem* examinations were held. The dispensary was inspected by the Civil Surgeon, Bijápur, in December. The total cost was Rs. 959-10-3 and the cost per patient Re. 0-5-4, as compared with Rs. 890-4-11 and Re. 0-5-2 in 1891 and Rs. 789-3-9 and Re. 0-4-4 in 1890.

INDI.—*In charge of* Hospital Assistant CHINTA'MAN SAKHA'RA'M.

The dispensary buildings are of concrete and are kept in excellent condition. Furniture and fittings continue to be good and ample. No dispensary meeting was held during the year. Sanitation of the town continued to be in a backward state. Water-supply is chiefly derived from a nála and a few of the wells as hitherto. Some scarcity was felt during the last hot season on account of scanty rainfall of 1891. It is of good quality. The total treated was 3,989 out-door and 12 in-door patients as compared with 3,535 and 11 in 1891 and 3,598 and 10 in 1890. The prevailing diseases were intestinal worms, ophthalmia, malarious fevers and skin affections. 12 cases of cholera with 6 deaths occurred in the táluka. 228 cases of small-pox with 15 deaths were registered. 1 major and 86 minor surgical operations were performed. Four *post-mortem* examinations were made and many other medico-legal cases examined. Vaccination was performed by the Local Fund Vaccinator. The dispensary was inspected by the Civil Surgeon, Bijápur, in December. The total cost was Rs. 1,087-15-8 and the cost per patient Re. 0-4-4, as compared with Rs. 819-1-11 and Re. 0-3-8 in 1891 and Rs. 917-14-6 and Re. 0-4-0 in 1890.

KOLHÁPUR AND SOUTHERN MARÁTHA AGENCY.

ALBERT EDWARD HOSPITAL, KOLHA'PUR.—*In charge of* Darbár Surgeon G. SINCLAIR.

Conservancy.—Drainage receiving more attention; conservancy well carried out.

Water-supply.—Good, abundant and well distributed.

Hospital buildings.—A handsome structure, commodious and excellent in all respects.

General health.—Cholera and small-pox prevailed more or less in the district.

Attendance of patients.—1,629 in-door and 37,652 out-door against 1,591 and 38,126 and 1,624 and 36,589 in 1890.

Prevailing diseases.—Malarial fevers, respiratory diseases, bowel-complaints, and affections of the eye and of the skin.

Surgical operations.—There were 110 major surgical operations performed against 144 in 1891. The most important were obstetric operations and amputations. Minor operations numbered 1,380 as compared with 1,143 in the previous year.

Mortality.—There were 77 deaths chiefly among those admitted in a moribund state. The causes were dysentery 10, pneumonia 8, cholera and diarrhœa 6 each, ascitis 5, phthisis 4, remittent fever 3, debility and peritonitis 2 each, &c. &c.

Vaccination.—Continues to receive every attention. There were 2,154 primary vaccinations and 810 re-vaccinations.

Medico-legal cases.—144 cases were referred for report, and 34 *post-mortem* examinations held at the request of the police.

Conduct of establishment.—Uniformly good.

Cost.—The total cost was Rs. 22,068 and the cost per patient Re. 0-9-0, as compared with Rs. 22,088 and Re. 0-8-10 in 1891 and Rs. 22,391 and Re. 0-9-4 in 1890.

GADH HINGLAJ.—*In charge of* Mr. R. Y. DHANAVDE.

The dispensary building is suitable. The dispensary was visited by the officials of the State. The sanitary condition of the town is looked after. The water-supply is insufficient and of inferior quality, especially in hot seasons. The total treated was 8,323 out-door and 38 in-door patients in 1890, 7,730 and 29 in 1891 and 8,976 and 34 in 1892. The prevailing diseases were malarial fevers, worms, rheumatic and respiratory affections, ophthalmia, stomach and bowel-complaints, skin diseases and injuries. Fourteen major surgical operations were performed. Vaccination was carried out by the táluka vaccinator. Eight *post-mortem* examinations were made. The dispensary was inspected by the Darbár Surgeon, Kolhápur. The total cost was Rs. 1,214-9-6 and the cost per patient Re. 0-2-3 in 1890, as compared with Rs. 1,233-12-3 and Re. 0-2-6 in 1891 and Rs. 1,362-9-4 and Re. 0-2-5 in 1892.

MIRAJ.—*In charge of* Mr. M. H. BHATVADEKAR, L.M. & S.

The dispensary building is convenient and in good repair. The furniture and fittings are sufficient and in good order. His Highness the Chief of Miraj, the Political Agent and Assistant Political Agent of Kolhápur and the members of the dispensary committee visited the dispensary. The sanitary and conservancy arrangements of the town are satisfactory. The water-supply is good and plentiful. The total treated was 15,973 out-door and 63 in-door patients as compared with 16,509 and 54 in 1891 and 14,000 and 64 in 1890. The most common complaints were worms, skin diseases, ulcers, ophthalmia and diseases of the respiratory and digestive systems. Influenza and cholera were epidemic during two months of the year. 16 major and 449 minor surgical operations were performed. Opinion was given in 23 medico-legal cases, and 3 *post-mortem* examinations were made. Vaccination is conducted by the State vaccinator. The dispensary was inspected by the Civil Surgeon, Belgaum, and the Darbár Surgeon, Kolhápur. The total cost was Rs. 4,827-1-7 and the cost per patient Re. 0-4-10 against Rs. 4,572-6-3 and Re. 0-4-4 in 1891 and Rs. 6,112-9-9 and Re. 0-6-10 in 1890.

MUDHOL.—*In charge of* Mr. S. C. PASCOL, L.M. & S.

As the old dispensary building is undergoing additions and alterations, the dispensary is located in an adjoining building, which though much smaller and not providing accommodation for in-patients, answers the purpose for out-door patients very well. The furniture and fittings are sufficient and in good order. There is no dispensary committee. The Political Agent of Kolhápur and Southern Marátha Country visited the dispensary on 22nd January 1892. The conservancy of the town is well attended to by the Municipality. The water-supply is good and abundant. The total number of patients treated were 15,759 out-door and 3 in-door patients against 14,031 and 7 in 1891 and 12,897 and 13 in 1890. The prevailing diseases were malarial fevers, worms, skin diseases, ophthalmia, rheumatism, dyspepsia and bowel-complaints. An epidemic of cholera of a rather virulent type prevailed in the town and adjacent villages in April, May and June. There were 18 medico-legal cases certified and 3 *post-mortem* examinations held. 9 major and 242 minor surgical operations were performed. Vaccination is carried out by the State vaccinator. The dispensary was inspected by the Darbár Surgeon, Kolhápur, twice. The total cost was Rs. 3,560-0-9 and the cost per patient Re. 0-3-7, as compared with Rs. 3,641-2-9 and Re. 0-4-1 in 1891 and Rs. 3,936-4-8 and Re. 0-4-10 in 1890.

MALKA'PUR.—*In charge of* Mr. G. K. GUNE.

The dispensary building, a new one, is convenient and in good repair. The furniture is sufficient. Officials of the Kolhápur State visit the dispensary occasionally. The sanitation of the town, though unsatisfactory as usual, is expected to undergo some improvements.

The water-supply is bad and plentiful except in summer. The total treated was 8,449 out-door and 21 in-door patients as compared with 9,376 and 28 in 1891 and 8,851 and 44 in 1890. The most common diseases were malarial fevers, animal parasites, ophthalmia, bowel-complaints, skin affections and diseases of the nervous system. There was no epidemic. 18 major and 160 minor surgical operations were performed. Opinion was given in 20 medico-legal cases and 3 *post-mortem* examinations were held. Vaccination is conducted by the State vaccinator. The Darbár Surgeon, Kolhápur, inspected the dispensary annually. The total cost was Rs. 1,352-14-5 and the cost per patient Rs. 0-2-7, against Rs. 1,270-11-8 and Re. 0-2-1 in 1891 and Rs. 3,329-13-6 and Re. 0-5-11 in 1890.

RA'MDURG.—*In charge of* Mr. VA'SUDEV V. CHHATRE, L.M. & S.

The buildings are in good repair, and furniture, &c., sufficient. The dispensary was frequently visited by the State and Darbár Kárbháris of Rámdurg. The sanitary and conservancy arrangements are good. The water-supply is good and abundant. The total treated was 6,829 out-door and 28 in-door patients as compared with 5,809 and 35 in 1891 and 5,780 and 25 in 1890. The most common diseases were malarial fevers, round worms, bronchitis and scabies. Influenza prevailed at Rámdurg in the months of March and April. There were at Rámdurg 122 cases of cholera with 68 deaths. 16 major and 307 minor surgical operations were performed. Vaccination is carried on by the State vaccinator. One *post-mortem* examination was performed. The dispensary was inspected by the Darbár Surgeon, Kolhápur, in January and December. The total cost was Rs. 2,894-12-0 and the cost per patient Re. 0-6-9, as compared with Rs. 2,782-13-0 and Re. 0-7-7 in 1891 and Rs. 3,253-8-10 and Re. 0-9-0 in 1890.

KA'GAL.—*In charge of* Mr. NARSU LINGU.

The dispensary was removed in April 1891 to a new building in the town which is very airy and commodious with wards for in-door patients. It is kept in good repair. The furniture and fittings are sufficient. There is no committee. The dispensary was visited twice by the Diván of Kolhápur and frequently by the State Kárbhári and other officials of the Kolhápur State. The conservancy arrangements are well looked after. The water-supply is good and sufficient. The total treated was 5,880 out-door and 6 in-door patients, against 5,522 out-door and 2 in-door in 1891 and 3,960 out-door in 1890. The prevailing diseases were malarial fevers, respiratory affections, bowel-complaints and eye, ear and skin diseases. A few cases of cholera occurred. Small-pox and influenza were prevalent, but were of a very mild type. 5 major and 32 minor surgical operations were performed. Vaccination is carried out by the State vaccinator. The dispensary was inspected by the Darbár Surgeon, Kolhápur. The total cost was Rs. 1,577-15-8 and the cost per patient Re. 0-3-4, as compared with Rs. 1,087-12-4 and Re. 0-3-1 in 1891 and Rs. 933-15-5 and Re. 0-3-9 in 1890.

AJRA.—*In charge of* Mr. D. R. SA'THE.

The dispensary buildings are suitable and kept in good repair. The furniture and fittings are sufficient and in good order. There is no dispensary committee, but the State officials visit the dispensary frequently. The conservancy arrangements still continue to be unsatisfactory, there being no Municipality. Water-supply is abundant but liable to pollution by soakage. The total treated were 5,087 out-door and 14 in-door patients as compared with 5,280 and 23 in 1891 and 5,707 and 18 in 1890. The prevailing diseases were malarial fevers, worms, rheumatism, ophthalmia, diseases of the respiratory and digestive systems and skin. Cholera prevailed in a mild form in June and July, attacking 42 persons with 18 deaths. 16 major and 198 minor surgical operations were performed. Vaccination is carried out by the táluka vaccinator. 2 *post-mortem* examinations were made. The dispensary was inspected by the Darbár Surgeon, the Diván of Kolhápur and the Chief Revenue Officer. The total cost was Rs. 1,463-9-2 and the cost per patient Re. 0-4-7, as compared with Rs. 1,222-1-4 and Re. 0-3-8 in 1891 and Rs. 1,126-3-11 and Re. 0-3-1 in 1890.

GARGOTI.—*In charge of* Mr. S. R. DESÁI.

The dispensary is well situated, convenient, and in good repair. The furniture and fittings are sufficient and in good order. There is no committee, but the officers of the Kolhápur State visit the dispensary while on tour. The sanitation is well attended to; the water-supply is abundant and of a fair quality. The total treated was 6,892 out-door and 36 in-door patients as compared with 6,635 and 33 in 1891 and 7,261 and 31 in 1890. The most common complaints were malarial fevers, respiratory affections, diseases of the digestive system, worms, skin diseases, conjunctivitis and injuries. Cholera was epidemic in 1891 and 1892. There were 11 major and 307 minor surgical operations performed. Two dead bodies were examined and opinion given in 9 medico-legal cases. The dispensary was inspected by the Darbár Surgeon, Kolhápur, on the 29th November. Vaccination is performed by the táluka vaccinator. The total cost was Rs. 1,420-10-1 and the cost per patient Re. 0-3-3, against Rs. 1,137-8-6 and Re. 0-2-8 in 1891 and Rs. 1,136-9-6 and Re. 0-2-5 in 1890.

LAKSHMESHVAR.—*In charge of* Mr. SHIWRA'M LINGUJI.

The dispensary building is in excellent repair. The furniture is sufficient and in good order. The members of the committee did not meet during the year. The conservancy

arrangements are well attended to by the Municipality; the water-supply is abundant. The total number of patients treated were 5,425 out-door and 5 in-door, against 4,486 and 6 in 1891 and 4,812 and 7 in 1890. The prevailing diseases were worms, ophthalmia, skin diseases, ulcers and malarial fevers. Cholera was epidemic in the town and surrounding villages, giving 233 cases with 122 deaths. 3 major and 125 minor surgical operations were performed. Opinion was given in several medico-legal cases and one *post-mortem* examination was held at the request of the police. Vaccination is performed by the State vaccinator. The dispensary was inspected by the Political Agent and Assistant Political Agent, Southern Mahrátta Country, by the Deputy Sanitary Commissioner and the State officials. The total cost was Rs. 1,707-6-11 and the cost per patient Re. 0-5-0, as compared with Rs. 1,759-14-10 and Re. 0-6-3 in 1891 and Rs. 2,191-2-5 and Re. 0-7-3 in 1890.

RA'IBA'G.—*In charge of* Mr. KESHAV BA'PUJI.

The dispensary is located in a new building erected for the purpose in 1892. The furniture and fittings are sufficient and in good order. There is no committee, but the State officials visit the dispensary often. Conservancy is neglected; the water-supply is good and abundant. The total treated was 6,606 out-door and 8 in-door patients as compared with 7,281 and 1 in 1891 and 7,145 and 6 in 1890. The most common complaints were malarial fevers, eye, ear and skin diseases, bowel-complaints, local injuries and rheumatic affections. Cholera prevailed in 1892. One major surgical operation was performed. Minor operations numbered 253. Two *post-mortem* examinations were held and opinion given in 15 medico-legal cases. Vaccination is conducted by the State vaccinator. The dispensary was inspected by the Darbár Surgeon, Kolhápur, in February. The total cost was Rs. 1,514-14-8 and the cost per patient Re. 0-3-8, as compared with Rs. 1,062-0-5 and Re. 0-2-4 and Rs. 1,099-2-7 and Re. 0-2-5 in 1890.

SHIROL.—*In charge of* Mr. HARI RAGHUNA'TH GUNE.

The dispensary building answers the purpose. Furniture and fittings are sufficient and in good order. The conservancy arrangements have improved since the establishment of the Municipality in 1887. The water-supply is obtained from a well and the river Pánchaganga, distant about a mile from the town, and is fair in quality. There is no committee, but the officers of the State visit the dispensary occasionally. The total treated was 6,623 out-door and 8 in-door patients as compared with 6,761 and 14 in 1891 and 5,147 and 5 in 1890. The most common diseases were malarial fevers, respiratory and rheumatic affections, dyspepsia, worms, ophthalmia and skin diseases. Cholera was present in a mild form in the town and its villages. Opinion was given in 5 medico-legal cases and 6 *post-mortem* examinations were held. Vaccination is conducted by the táluka vaccinator. The dispensary was inspected by the Darbár Surgeon, Kolhápur. The total cost was Rs. 1,317-4-4 and the cost per patient Re. 0-3-2, against Rs. 1,103-4-10 and Re. 0-2-7 in 1891 and Rs. 949-6-2 and Re. 0-2-11 in 1890.

KATKOL.—*In charge of* Mr. BA'PUJI SHIVRA'M VAKHA'RKAR.

The building though unsuitable is in good repair. The State officials visited the dispensary frequently. Conservancy is well attended to by the Municipality. The water-supply is good and abundant. The total treated was 6,165 out-door and 13 in-door patients as compared with 5,080 and 1 in 1891 and 6,075 and 3 in 1890. The most common diseases were malarial fevers, intestinal worms, respiratory and skin diseases, and eye and ear affections. One major surgical operation was performed. One *post-mortem* examination was made and opinion given in 4 medico-legal cases. The dispensary was inspected by the Darbár Surgeon in December. The total cost was Rs. 1,023-2-10 and the cost per patient Re. 0-2-8, against Rs. 961-1-9 and Re. 0-3-0 in 1891 and Rs. 993-14-0 and Re. 0-2-7 in 1890.

INCHALKARANJI.—*In charge of* Mr. D. PURSHOTAM.

The dispensary has been moved into a new building in a central locality. Furniture and fittings are sufficient and in good order. The dispensary was visited by the State officials occasionally. The sanitary condition of the town is defective. The water-supply from the river is good and abundant. The total treated was 14 in-door and 10,341 out-door patients against 8 and 11,121 in 1891 and 3 and 10,009 in 1890. The most common diseases were malarial fevers, intestinal worms, skin affections and the diseases of the eye and ear. Cholera and influenza were epidemic. Twelve cases of cholera occurred. 5 major and 226 minor surgical operations were performed. Three *post-mortem* examinations were made and opinion was given in 18 medico-legal cases. Vaccination is carried on by the State vaccinator. The dispensary was inspected by the Diván of Kolhápur in June and by the Darbár Surgeon in November. The total cost was Rs. 1,518-7-6 and the cost per patient Re. 0-2-4, against Rs. 1,311-8-3 and Re. 0-1-10 in 1891 and Rs. 1,669-7-8 and Re. 0-1-10 in 1890.

SUREBA'N.—*In charge of* Mr. POCHA'TEE HIRA'PA.

The building requires repair. Furniture is sufficient. The dispensary was occasionally visited by the State and Dárbar Kárbháris of Rámdurg. The sanitary and conservancy

arrangements are fair. The water-supply is abundant. The dispensary was visited by the medical officer of Rámdurg in the month of October. The total treated was 2,979 out-door patients as compared with 2,812 in 1891 and 2,859 in 1890. The most common diseases were malarial fevers, scabies, ringworm, bronchitis and intestinal worms. Influenza prevailed at Surebán in the months of February, March and April. Cholera prevailed in April and May. Seventy minor surgical operations were performed. Vaccination is carried on by the State vaccinator. The dispensary was inspected by the Assistant Political Agent, Southern Marátha Country, on the 6th December. The total cost was Rs. 438-8-0 and the cost per patient Re. 0-2-4, as compared with Rs. 548-10-0 and Re. 0-3-1 in 1891 and Rs. 506 and Re. 0-2-9 in 1890.

KOLHA'PUR CITY.—*In charge of* Mr. MA'ROTI NA'NA CHOWA'N.

The building is quite unsuitable for a dispensary. The water-supply is good and abundant. The Darbár Surgeon visited the dispensary frequently. The total treated was 24,689 out-door patients as compared with 22,777 in 1891 and 19,174 in 1890. The prevailing diseases were malarial fevers, worms and diseases of the eye and skin and of the respiratory and digestive systems. One major surgical operation was performed. There were a few cases of cholera, influenza and small-pox. Measles prevailed throughout the year. The total cost was Rs. 2,032-1-0 and the cost per patient Re. 0-1-4, against Rs. 1,577-0-4 and Re. 0-1-1 in 1891 and Rs. 1,630-5-11 and Re. 0-1-4 in 1890.

GADGERI.—*In charge of* Mr. V. V. GOKHALE.

The dispensary is in good repair and the furniture sufficient. The water-supply is sufficient. The members of the committee visited the dispensay frequently. The total treated was 2,891 out-door patients as compared with 1,853 in 1891 and 1,225 in 1890. The prevailing diseases were ague, worms and diseases of the eye and skin and of the respiratory and digestive systems. There were 4 cases of cholera. The dispensary was inspected by the Political Agent in February and by the Deputy Sanitary Commissioner. The total cost was Rs. 931 and the cost per patient Re. 0-5-2, as compared with Rs. 2,893-5-2 and Rs. 1-8-11 in 1891 and Rs. 1,217-3-2 and Re. 0-15-10 in 1890.

BUDGAON.—*In charge of* Mr. S. R. BULERKER.

The building is in good repair and the furniture suitable and sufficient. The members of the committee visited the dispensary occasionally. The total treated was 5,406 out-door patients against 6,926 in 1891 and 7,398 in 1890. The most common diseases were ophthalmia, skin diseases, dyspepsia and malarial fevers. Influenza prevailed in the early part of the year. Fifty minor surgical operations were performed. The dispensary was inspected by the Darbár Surgeon and also by the Political and Assistant Political Agents, Kolhápur. The total cost was Rs. 1,789-9-9 and the cost per patient Re. 0-5-4, as compared with Rs. 2,825-4-7 and Re. 0-6-6 in 1891 and Rs. 1,438-12-10 and Re. 0-3-1 in 1890.

VADGAON.—*In charge of* Mr. S. B. BHAGWAT.

The dispensary, which was opened on the 1st December 1890 in a small hired native shop unsuited for the purpose, was removed to the old váda on the 10th July 1892, which is suitable. The furniture and fittings are sufficient and in good order. There is no dispensary committee, but the State officials visit the dispensary occasionally. The sanitary condition of the town is well attended to and the water-supply good and abundant. The prevailing diseases were malarial fevers, worms, rheumatic and eye affections and diseases of the nervous, digestive and cutaneous systems. Cholera was prevalent in 1892 in some of the neighbouring villages. The total treated was 6,300 out-door patients and the daily average sick was 81·3 as compared with 7,619 and 74·1 in 1891. 1 major and 346 minor surgical operations were performed. The dispensary was inspected by the Darbár Surgeon, Kolhápur, on the 16th November. Vaccination was performed by the State vaccinator. 3 *post-mortem* examinations were made. The total cost was Rs. 1,215-11-0 and the cost per patient Re. 0-3-1, as compared with Rs. 1,327-14-4 and Re. 0-2-9 in 1891.

KA'PSI.—*In charge of* Mr. N. P. BHURE.

The dispensary was opened on 1st January 1892. It is a nice building. The furniture is sufficient and in good order. The sanitary condition of the town is not good. The water-supply is sufficient. The State officials visited the dispensary occasionally. The total treated was 6 in-door and 6,535 out-door patients. The most common diseases were ague, rheumatic affections and diseases of the nervous, respiratory and digestive systems. Twenty-three cases of cholera occurred. Two major surgical operations were performed. Vaccination is performed by the táluka vaccinator. The dispensary was inspected by the Darbár Surgeon in May and December. The total cost was Rs. 1,798-10-2 and the cost per patient Re. 0-4-5.

GUJARÁT.

SURAT COLLECTORATE.

SIR COWASJI JEHA'NGIR CIVIL HOSPITAL, SURAT.—*In charge of* Surgeon-Major K. S. NARIMA'N, L.R.C.P.

Conservancy.—The conservancy of the hospital is well attended to; that of the city is gradually improving. The number of objectionable well-privies is annually decreasing, and that of open privies increasing.

Water-supply.—Abundant, from wells which are almost all brackish; from river which is subject to tidal influences, and from under-ground masonry tanks in which rain water is stored up. The question of supplying the city with pure water from the river Tápti at Waráchá has been under the consideration of the Municipality, and steps are now being taken to devise means to meet the expenditure on the scheme, which is estimated to cost about seven or eight lákhs.

Hospital Buildings.—Are in good repair.

Attendance of Patients.—534 in-door and 11,339 out-door as compared with 586 and 11,583 in 1891 and 524 and 9,143 in 1890.

General Health.—Was not satisfactory. Malarial fevers prevailed to a great extent There were a few isolated cases of cholera in August, of which 7 were fatal.

Prevailing Diseases.—Ague, scabies, bronchitis, worms, otorrhœa, rheumatism, conjunctivitis, diarrhœa and dysentery.

Surgical Operations.—76 major against 78 in 1891. The most important were removal of tumours, incisions for hepatic abscess, lithotomies, paracentesis of the abdomen, amputation of penis, removal of breast, and amputation at the thigh and leg. The minor operations numbered 587 against 582 in the previous year.

Mortality and its causes.—There were 53 deaths among in-patients—11 from diarrhœa, 6 dysentery, phthisis pulmonalis and debility 4 each, chronic bronchitis, pneumonia, ascitis and Bright's disease 3 each, abscesses 2, cholera 1, and 13 from other causes.

Vaccination.—By the municipal vaccinator twice a week, both at the Civil Hospital and at the Párakh Dispensary. There were 3,073 primary vaccinations, of which 3,047 were successful, 20 unsuccessful, and 6 doubtful. The number of re-vaccinations was 218.

Medico-Legal Cases.—The numbers for *post-mortem* and medico-legal cases were 4 and 108 respectively.

Conduct of Establishment.—First Class Hospital Assistant Náráyanráo Jádhow has given entire satisfaction and discharged his duties with great zeal, industry and ability. The conduct of the second class establishment was fairly good.

Cost.—The total cost was Rs. 8,508-11-9 and the cost per patient Re. 0-11-6, as compared with Rs. 15,579-4-4 and Rs. 1-4-5 in 1891 and Rs. 17,884-1-7 and Rs. 1-13-7 in 1890.

GRANT-IN-AID DISPENSARIES.

PA'RAKH DISPENSARY, SURAT.—*In charge of* Assistant Surgeon Khán Bahádur DOSSA'BHAI PESTONJI, G.G.M.C., Honorary Assistant Surgeon to His Excellency the Viceroy.

The dispensary building is very substantial and commodious, well ventilated, and in a good state of repairs. The sanitary condition of the town is not good. The Committee visited the dispensary seven times. The total treated was 8,441 out-door and 3 in-door patients against 8,571 and 4 in 1891 and 8,355 and 2 in 1890. The prevailing diseases were ague, diarrhœa, bronchitis, dysentery, worms, ophthalmia and diseases of the skin. Four major and 400 minor surgical operations were performed. Vaccination, as usual, has been carried on twice a week by the municipal vaccinator. The dispensary was inspected by the Surgeon-General on 24th December and the Civil Surgeon, Surat, on 7th December. The total cost was Rs. 5,588-12-10 and the cost per patient Re. 0-10-7, as compared with Rs. 5,402-14-8 and Re. 0-10-0 in 1891 and Rs. 5,554-15-11 and Re. 0-10-7 in 1890.

OPLA'D.—*In charge of* Hospital Assistant A'NANT SANTRA'M MALVE.

The dispensary premises are in good order and are repaired every year. The furniture and fittings are sufficient. The dispensary was visited three times by the Committee. The sanitary condition of the town is not satisfactory. The water-supply is from wells and tanks and is good and abundant. The total treated were 3,330 out-door and 21 in-door patients, against 3,774 and 36 in 1891 and 4,461 and 35 in 1890. The prevailing diseases were

malarial fevers, ear and eye affections, diseases of the respiratory and digestive systems, ulcers, local injuries and skin diseases. No epidemics occurred in the town or in táluka. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected in December by the Civil Surgeon of Surat, also by the Deputy Sanitary Commissioner, the Collector and the District Deputy Collector. One *post-mortem* examination was made and 53 medico-legal cases were examined and certified at the request of the police. Six major and 96 minor surgical operations were performed. The total expenditure was Rs. 749-14-0 and the cost per patient Re. 0-3-7, as compared with Rs. 982-8-4 and Re. 0-4-1 in 1891 and Rs. 998-0-11 and Re. 0-3-6 in 1890.

BA'RDOLI.—*In charge of* HOSPITAL ASSISTANT SHANKARLA'L KESHAVLA'L VYAS.

The building has been repaired. The committee visited the dispensary 11 times. The sanitary condition of the town is fair. The Municipality, which was established only in the year 1891, works satisfactorily. The water-supply is ample but inferior in quality. The total treated was 4,376 out-door and 38 in-door patients against 4,042 and 52 in 1891 and 3,524 and 53 in 1890. The most common causes of admissions in the order of their frequency are malarial fevers, cutaneous diseases, ophthalmia, diseases of the digestive and respiratory systems and worms. There were 22 cases of cholera in a neighbouring village with 11 deaths, besides this it prevailed very violently in the neighbouring Gáekwár's villages, but the town municipality had adopted, at the suggestion of the Hospital Assistant, strong prophylactic measures and Bardoli escaped. Seven major surgical operations were performed including a case of vaginal lithotomy. Vaccination is carried out by the taluka vaccinator. The Civil Surgeon inspected the dispensary on the 21st March. The total cost was Rs. 1,022-0-3 and the cost per patient Re. 0-3-8, as compared with Rs. 1,000-15-4 and Re. 0-3-10 in 1891 and Rs. 1,198-14-7 and Re. 0-5-4 in 1890.

SIR DINSHAW MA'NEKJI PETIT DISPENSARY, Chíkhli.—*In charge of* Hospital Assistant MAGANLA'L KASSANJA'L.

The building is in a very bad state of repair. The chairman of the committee visits the dispensary monthly. The sanitation of the town is not satisfactory. The water-supply, mainly from wells, is good and abundant. The total treated was 7,644 out-door and 22 in-door patients as compared with 7,277 and 33 in 1891 and 7,260 and 21 in 1890. The prevailing diseases were intermittent fever, ascaris lumbricoides, catarrhal bronchitis, diarrhœa, conjunctivitis, inflammation of the external ear and skin diseases. A few cases of cholera occurred in the district during August, September and October. There were 3 major and 209 minor surgical operations. Vaccination is performed by the táluka vaccinator. The Civil Surgeon inspected the dispensary on 27th November. The total cost was Rs. 588-10-10 and the cost per patient Re. 0-1-3, against Rs. 938-13-5 and Re. 0-2-0 in 1891 and Rs. 1,152-8-9 and Re. 0-2-6 in 1890.

PA'RDI.—*In charge of* Hospital Assistant NASSARVÁNJI PA'LIONJI SETHNA.

The building is in a fair state of repair except the glass roof, which leaks in monsoon. A store-room and an examination room are required. Except an operating table, the furniture and fittings are sufficient and are in good condition. The dispensary was visited once a month by the chairman and quarterly by the dispensary committee. The sanitary and conservancy arrangements of the town are defective. The water-supply from wells is good and abundant but liable to pollution by soakage. The total treated were 6,835 out-door and 14 in-door patients as compared with 5,498 and 14 in 1891 and 5,417 and 12 in 1890. The prevailing diseases were malarial fevers, worms, diarrhœa, diseases of the skin and digestive system. No epidemics occurred during the year. There were 126 minor surgical operations performed. Two *post-mortem* examinations were held. Opinion was given in several medico-legal cases. Vaccination is carried out by the taluka vaccinator. The dispensary was inspected by the Civil Surgeon, Surat, on 14th December. The total cost was Rs. 982-14-0 and the cost per patient Re. 0-2-4, as compared with Rs. 1,063-7-6 and Re. 0-3-1 in 1891 and Rs. 1,081-3-1 and Re. 0-3-2 in 1890.

MA'NDVI.—*In charge of* Hospital Assistant GOVIND TÁNTIA.

The building is in good repair. The committee visited the dispensary 7 times and individual members 6 times. Water-supply is abundant but of inferior quality. The total number treated was 4,359 out-door and 60 in-door patients, against 3,480 and 50 in 1891 and 3,255 and 49 in 1890. The prevailing diseases were malarious fevers, skin diseases, respiratory and rheumatic affections, ophthalmia, diseases of the ear, local injuries, ulcers and enlargement of spleen. There was no epidemic. Vaccination is carried on by the Local Fund vaccinator. 4 major and 142 minor surgical operations were performed. One *post-mortem* examination was made and 12 medico-legal cases examined and reported on. The dispensary was inspected by the Civil Surgeon, Surat, on the 6th May. The total cost was 1,124-1-1 and the cost per patient Re. 0-4-1, against Rs. 1,032-11-8 and Re. 0-4-8 in 1891 and Rs. 1,096-0-4 and Re. 0-5-3 in 1890.

RA'NDER.—*In charge of* Hospital Assistant SHRIPAT NIKAM.

The building, a leased one, is in good repair, but not suitable for the purpose. It contains two small rooms only. The dispensary committee visited it 12 times. Conservancy arrangements of the town are not very satisfactory, as house refuse and other rubbish are allowed

to accumulate in some places. The water-supply from the river Tápti and from wells is abundant but not good in quality, and that from wells is liable to pollution by percolation from night-soil depôt near them. The total number of out-door patients treated was 11,571 as compared with 9,895 and 10,743 in 1891 and 1890. The increase is due to malarial fevers, which were much more prevalent in the last year. The most common diseases were malarial fevers, worms and diseases of the eye, ear and skin. The town was free from epidemic. No *post-mortem* examinations were made, nor opinion given in any case. Vaccination is performed by the taluka vaccinator. Thirteen major surgical operations were performed. The dispensary was inspected in December by the Civil Surgeon of Surat. The total cost was Rs. 1,249-8-7 and the cost per patient Re. 0-1-9, as compared with Rs. 1,003-15-9 and Re. 0-1-7 in 1891 and Rs. 1,762-15-9 and Re. 0-2-7 in 1890.

NASSERVÁNJI MÁNEKJI PETIT Dispensary, Kheirgaon.—*In charge of* Hospital Assistant MAHOMEDUSUF DADAMIA MUNSHI.

The buildings require repair. *Post-mortem* room is very small and unsuitable. The dispensary was visited by the committee 12 times. The sanitation of the village is not satisfactory. The water-supply from wells is good and ample. The total treated was 6,197 out-door and 19 in-door patients, against 3,128 and 6 in 1891 and 2,366 and none in 1890. The prevailing diseases were malarial fevers, ascaris lumbricoides, diseases of the eye, respiratory and digestive systems and of the connective tissue and skin. Eighteen major surgical operations were performed. Vaccination is carried out by the Local Fund vaccinator at the Sarkári chowdi. The dispensary was inspected by the Civil Surgeon on 13th May. The total cost was Rs. 1,206-15-1 and the cost per patient Re. 0-3-1, against Rs. 863-9-1 and Re. 0-4-4 in 1891 and Rs. 961-5-10 and Re. 0-6·5 in 1890.

SELF-SUPPORTING DISPENSARY.

VICTORIA DISPENSARY, NAVSÁRI.—*In charge of* Assistant-Surgeon D. H. MOTIVÁLA, L.M. &. S.

The building is in good repair. Furniture and fittings are sufficient. The committee held two meetings. The sanitary condition of the town is fairly good. The watter-supply is good and sufficient. The total treated was 4,239 out-door and 24 in-door patients against 4,064 and 12 in 1891 and 4,425 and 17 in 1890. The prevailing diseases were malarial fevers, skin diseases, diseases of the digestive functions, ear, &c. There was no epidemic. 10 major and 183 minor surgical operations were performed. Vaccination is conducted by the Local Fund vaccinator. No *post-mortem* examination was made, but opinion was given in 13 medico-legal cases at the request of the police. The dispensary was inspected by the Civil Surgeon, Surat, on 16th October, and by the Assistant Collector on 8th December. The total cost was Rs. 3,347-5-7 and the cost per patient Re. 0-12-7, as compared with Rs. 3,005-13-2 and Re. 0-11-9 in 1891 and Rs. 2,718-7-2 and Re. 0-9-9 in 1890.

GOVERNMENT DISPENSARY.

MANECKJEE PETIT DISPENSARY, BULSÁR.—*In charge of* Assistant Surgeon P. H. DA'DA'CHA'NJI, L.M.

The building is in a fair state of repair. The dispensary committee held twelve meetings. The sanitation of the town is well looked after by the Municipality. The water-supply is good and sufficient. The total treated was 95 in-door and 16,729 out-door patients against 74 and 17,473 in 1891 and 90 and 16,166 in 1890. The most common complaints were ague, skin diseases, worms, respiratory affections, diarrhœa and eye diseases. Twenty-four major surgical operations were performed. Vaccination is carried on by the Municipality under the supervision of the Assistant Surgeon. Four *post-mortem* examinations were made at the request of the police. The dispensary was inspected by the Civil Surgeon, Surat, in November. The total cost was Rs. 5,356-0-2 and the cost per patient Re. 0-5-1, against Rs. 4,985-5-7 and Re. 0-4-6 in 1891 and Rs. 5,024-7-6 and Re. 0-4-11 in 1890.

NATIVE STATE DISPENSARY.

DUMAS.—*In charge of* Hospital Assistant H. E. ANKLESARIA.

The dispensary buildings are undergoing thorough repairs under the supervision of the State overseer. The dispensary committee visited the institution once. The sanitary condition of the town is fairly good; the main roads are fairly clean, but the streets are all without drains. The water-supply is from wells and is good and abundant. The total treated was 5,399 out-door and 1 in-door patients against 3,118 and 2 in 1891 and 2,820 and 6 in 1890. The most common diseases were ague, scabies, conjunctivitis, worms, bronchitis, rheumatism and bowel-complaints. No epidemic occurred in the station or its vicinity. Twenty-nine major surgical operations were performed; of these the most important were removal of tumours, application of forceps in laborious labour, reduction of dislocations of humerus, ulna and radius, carpus and metacarpus. Minor operations numbered 186. Vaccination is carried on by the Local Fund Vaccinator. The dispensary was inspected in December by the Civil Surgeon, Surat, and by the Surgeon-General with the Government of Bombay in December 1892. The total cost was Rs. 1,069-1-9 and the cost per patient Re. 0-3-2 against Rs. 668-12-0 and Re. 0-3-5 in 1891 and Rs. 986-4-3 and Re. 0-5-6 in 1890.

BROACH COLLECTORATE.

CIVIL HOSPITAL, BROACH.—*In charge of* Assistant Surgeon M. G. DESÁI, L.M.

Conservancy.—The town is kept clean and in good order.

Water-supply.—From the river Narbada, wells and reservoirs. The river water is brackish.

Hospital buildings.—Are in good repair. The Senior Hospital Assistant's quarters have been completed and the floor of the police and female wards paved with stone.

General health.—Was not so good as the preceding year owing to the prevalence of malarial fevers and cholera—29 cases of the latter having occurred with 14 deaths.

Attendance of patients.—471 in-door and 13,079 out-door as compared with 503 and 11,048 in 1891 and 559 and 10,870 in 1890.

Prevailing diseases.—Malarial fevers, diseases of the skin and digestive system, diseases of the ear and eye, diseases of the respiratory system and rheumatism.

Surgical operations.—24 major and 868 minor operations were performed against 38 and 712 in 1891. Of the former the most important were paracentesis of abdomen, lateral lithotomies and reductions of dislocations of lower jaw and humerus.

Mortality and its causes.—There were 33 deaths among in-door patients, most of whom were admitted in advanced and incurable stages of disease. The causes were diarrhœa, remittent fever, ague, starvation, acute bronchitis, injuries, &c.

Vaccination.—Is performed by the municipal vaccinator, who is under the control of the Deputy Sanitary Commissioner.

Medico-legal cases.—181 cases, including 11 *post-mortem* examinations, were reported upon at the request of the police.

Conduct of the establishment.—Was in every way satisfactory. 1st Class Hospital Assistant Báláji Mucund, No. 109, has done his duties with zeal and care. The 3rd Class and 2nd Class Hospital Assistants have also done their duties satisfactorily. The conduct of the 2nd class establishment has been good.

Cost.—The total cost was Rs. 3,833-15-3 and the cost per patient Re. 0-4-6, against Rs. 9,254-9-4 and Re. 0-12-9 in 1891 and Rs. 10,344-8-9 and Re. 0-14-7 in 1890.

GRANT-IN-AID DISPENSARIES.

ANKLESVAR.—*In charge of* Hospital Assistant LUXUMON ANANT MULE.

Building is in very good repair. The committee visited the dispensary four times. The general sanitary condition is attended to, but there is no drainage. Water-supply is plentiful and good. Numbers treated were 35 in-door and 12,677 out-door patients as compared with 61 and 12,911 in 1891 and 47 and 12,157 in 1890. The most common diseases were malarious fevers, dysentery, syphilitic affections, gonorrhœa, rheumatic affections, diseases of the nervous system, eye, ear and respiratory system, diarrhœa and skin diseases. Eighteen major and 1,226 minor surgical operations were performed. There were 4 *post-mortem* examinations held and opinion was given in 17 medico-legal cases. Vaccination is carried out by the táluka vaccinator. The Civil Surgeon, Broach, inspected the dispensary on 2nd March. The total cost was Rs. 2,702-11-7 and the cost per patient Re. 0-3-5, against Rs. 1,679-4-0 and Rs. 0-2-0 in 1891 and Rs. 1,669-1-7 and Re. 0-2-2 in 1890.

A. H. WADIA DISPENSARY, ILAV.—*In charge of* Hospital Assistant PIROZSHA D. COOPER.

The dispensary is in good repair. A dead-house has been erected. Quarters for the compounder and the dispensary servants are much wanted. The committee visited the dispensary eleven times. There is no Municipality and the conservancy is unsatisfactory. The water-supply is good and copious. The total number of out-door patients treated was 4,941 against 4,501 in 1891 and 4,284 in 1890. There were three male in-door patients only against five in 1891 and two in 1890. The most common diseases were dysentery, malarious fevers, rheumatic affections and diseases of the eye, ear, respiratory system, digestive system and skin. There has been no case of cholera during the past three years, and with the exception of a few cases of small-pox and measles, no epidemic disease. The dispensary was inspected by the Civil Surgeon on 18th March. Two major surgical operations were performed. Vaccination is performed by the táluka vaccinator. The total cost was Rs. 1,864-0-5 and the cost per patient Re. 0-6-0, against Rs. 861-8-7 and Re. 0-3-0 in 1891 and Rs. 1,557-6-4 and Re. 0-5-9 in 1890. The increase of expenditure is due to the cost of Europe medicines and dispensary repairs for two years being debited in the year under report.

HANSOT.—*In charge of* Hospital Assistant ESSOOBJI SELAMANJI.

The building, a hired one, is quite unsuitable for the purpose. There is no accommodation for in-patients, nor is there a dead-house. Dissection is therefore performed in an open place outside the town. A new building is highly desirable. A committee composed of two members visit the dispensary every month. The sanitation of the

town is good: The water-supply from wells outside the town is both good and plentiful. The total number of out-door patients treated was 7,156 against 6,921 in 1891 and 5,841 in 1890. The most common diseases were malarial fevers, diseases of the skin, eye and digestive system. No case of cholera occurred in the town but one was imported from Broach and recovered. Three major surgical operations were performed. Vaccination is carried out by the táluka vaccinator. Opinion was given in 30 medico-legal cases at the request of the police. The Civil Surgeon, Broach, inspected the dispensary in March. The total cost was Rs. 1,055-14-2 and the cost per patient Re. 0-2-4, as compared with Rs. 1,770-2-6 and Re. 0-4-1 in 1891 and Rs. 1,037-5-10 and Re. 0-2-10 in 1890.

JAMBUSAR.—*In charge of* Hospital Assistant ISAAC AARON.

The dispensary is situated on high ground, is well ventilated and is kept in very good repair. The furniture and fittings are sufficient and in good order. The Mámlatdár visits the dispensary every month. The total number treated was 8,491 out-door and 64 in-door patients as compared with 8,509 and 82 in 1891, 7,520 and 72 in 1890. The general health of the town has been fair and its sanitary condition fairly good. The water-supply from the wells is good and ample and there is no soakage. There is a large tank on the north side of the town, the water of which is generally used for washing purposes only. Vaccination is carried on by the táluka vaccinator. Two major and 466 minor surgical operations were performed. No *post-mortem* examination was performed. Opinion was given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Broach, in November. The total cost was Rs. 1,540-2-4 and the cost per patient Re. 0-2-11, as compared with Rs. 1,771-15-6 and Re. 0-3-3 in 1891 and Rs. 1,335-15-11 and Re. 0-2-9 in 1890.

AMOD.—*In charge of* Hospital Assistant BHA'SKAR SITA'RA'M.

The building is in good repair. The dispensary was visited 4 times by the committee. The conservancy arrangements of the town are fairly satisfactory. The water-supply from wells is good and abundant, but liable to contamination by soakage. The total treated was 3,814 out-door and 22 in-door patients, against 3,727 and 20 in 1891 and 3,576 and 23 in 1890. The most common complaints were malarial fevers, skin diseases, bowel-complaints and rheumatic affections. Cholera did not prevail. Vaccination was performed by the táluka vaccinator. Two *post-mortem* examinations were made and opinions given on several medico-legal cases at the request of the police. The dispensary was inspected by the Civil Surgeon, Broach, in March. The total cost was Rs. 1,398-9-2 and the cost per patient Re. 0-5-10, as compared with Rs. 1,087-13-11 and Re. 0-4-7 in 1891 and Rs. 1,705-0-3 and Re. 0-7-6 in 1890.

VAGRA.—*In charge of* Hospital Assistant KESHAVLA'L CHOTA'LA'L.

The building is in good repair. The dispensary was visited seven times by the members. The sanitation of the village is fairly good. The water-supply from the wells outside the village is good and ample. The total treated was 3,836 out-door and 52 in-door patients as compared with 4,054 and 49 in 1891 and 3,886 and 34 in 1890. The prevailing diseases were skin affections, malarial fevers, diseases of the eye, especially ophthalmia, diseases of the digestive system and ear. 2 major and 190 minor surgical operations were performed. Vaccination is conducted by the táluka vaccinator. Opinion was given in 41 medico-legal cases and one *post-mortem* examination was performed at the request of the police. The dispensary was inspected on the 19th December by the Civil Surgeon, Broach. The total cost was Rs. 1,334-1-2 and the cost per patient Re. 0-5-6 against Rs. 1,217-3-4 and Re. 0-4-8 in 1891 and Rs. 1,315-13-9 and Re. 0-5-4 in 1890.

KAVI.—*In charge of* Hospital Assistant DA'MODHAR LAXUMAN.

The dispensary building, a hired one, is in a bad state of repair. The members visited the dispensary every month. The sanitary condition of the town and its neighbourhood is not satisfactory. There is no Municipality. The water-supply is abundant but of poor quality and liable to pollution from soakage. The total treated was 3,778 out-door and 4 in-door patients as compared with 3,309 and 6 in 1891 and 3,126 and 9 in 1890. The most common diseases were ague, rheumatic affections, diseases of the eye, ear, respiratory affections, digestive system and of the skin. There were 248 minor surgical operations preformed. Vaccination is carried out by the taluka vaccinator. Three *post-mortem* examinations were performed at the request of the police. The dispensary was inspected by the Acting Civil Surgeon, Broach, on the 26th November. The total cost was Rs. 709-0-2 and the cost per patient Re. 0-3-0, against Rs. 855-10-1 and Re. 0-4-2 in 1891 and 1,026-8-11 and Re. 0-5-2 in 1890.

DEHEJ.—*In charge of* Hospital Assistant P. E. BHARUCHA.

The dispensary is located in a hired house; it is unsuitable for the purpose and requires a dead-house, store-room and a latrine. It is in a fair state of repair. A new building on a standard plan is highly desirable. The dispensary was visited occasionally by a member of the committee. The sanitation of the town is unsatisfactory. The water-supply is

insufficient, especially during the latter months of the hot season, and is liable to pollution. The total treated was 1,450 out-door (no in-door patients) against 1,519 and 18 in 1891 and 1,523 and 15 in 1890. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Acting Civil Surgeon, Broach, in December. The total cost was Rs. 902-14-7 and the cost per patient Re. 0-10-0, against Rs. 708-11-11 and Re. 0-7-4 in 1891 and Rs. 913-3-0 and Re. 0-9-5 in 1890.

KAIRA COLLECTORATE.

CIVIL HOSPITAL, KAIRA.—*In charge of* Surgeon-Captain W. H. QUICKE.

Conservancy.—Satisfactory.

Water-supply.—From wells and the Watrak river is good and abundant; it becomes brackish in October owing to the floods and heavy rainfall.

Hospital buildings.—Have been kept in good repair. The wards and dead-house were improved in 1891 at the expense of the Local Fund and a cholera shed was built in 1890.

General health.—Was bad. Cholera prevailed in part of the district; also malarial fevers complicated with pneumonia and bronchitis.

Attendance of patients.—473 in-door and 7,111 out-door as compared with 389 and 5,506 in 1891 and 415 and 4,232 in 1890.

Pevailing diseases.—Skin diseases, malarial fevers, diseases of the eye and ear, rheumatism, bronchitis, diarrhœa and pneumonia.

Surgical operations.—The number of major operations performed was 90 against 49 in 1891. The most important were for extraction of lens, lateral lithotomies, litholapaxy, removal of large sequestra, osteotomy, amputation of forearm and perineal section. There was no death after operation, chiefly owing to the improved arrangements for their performance and the better sanitary condition of the wards. There were 727 minor operations against 319 in 1891.

Mortality and its causes.—The number of deaths among in-patients were 27 or 5·7 per cent. of the total treated. Malarial fever, complicated with a dangerous form of diarrhœa, accounts for the increase in the mortality which occurred chiefly among the Fakirs and patients brought to the hospital in a moribund state. Pneumonia gave 6 deaths, phthisis 2 and heart disease 2.

Vaccination.—By the táluka vaccinator.

Medico-legal cases.—12 dead bodies were examined at the request of the police against 7 in 1891.

Conduct of the establishment—Has never been good. This is due to the want of an efficient 1st Class Hospital Assistant.

Cost.—The total cost was Rs. 4,099-4-3 and the cost per patient Re. 0-8-8, against Rs. 10,525-0-5 and Rs. 1-12-6 in 1891 and Rs. 10,503-8-8 and Rs. 2-4-1 in 1890.

GRANT-IN-AID DISPENSARIES.

MEHMADABAD.—*In charge of* Hospital Assistant KISSON SINGH.

The buildings are in good repair. Quarters for the Hospital Assistant are very small. The committee visited 12 times. The sanitary condition of the town is good. The water-supply is good and abundant. The total treated was 8,324 out-door and 139 in-door patients against 7,088 and 135 in 1891 and 6,875 and 120 in 1890. The most common diseases were malarial fevers, diseases of the skin, eye and ear, ulcers, bowel-complaints and injuries. There were five cases of cholera in the town, of which 3 were fatal. Four major surgical operations were performed. Vaccination is performed by the táluka vaccinator. Seventy-three medico-legal cases were examined and reported on. The dispensary was inspected by the Civil Surgeon on December 29th. The total cost was Rs. 1,660-10-11 and the cost per patient Re. 0-3-2, as compared with Rs. 1,399-8-8 and Re. 0-3-1 in 1891 and Rs. 2,064-12-6 and Re. 0-4-8 in 1890.

NADIÁD.—*In charge of* Hospital Assistant RA'MSING.

The building is in good repair. Quarters for the compounders and menial servants are required. The committee visited the dispensary four times and the Chairman six times. The water-supply from wells for drinking purposes is abundant and of good quality both for the town and district. The total treated was 19,113 out-door and 221 in-door patients as compared with 16,933 and 184 in 1891 and 15,495 and 161 in 1890. The prevailing diseases were malarial fevers, ophthalmia, inflammation of the external ear and diseases of the respiratory system and skin. There occurred 12 cases of cholera with 7 deaths in the town and 36 cases with 29 deaths in the surrounding villages. 21 major and 951 minor surgical operations were performed. Vaccination is performed by the municipal vaccinator. 133 medico-legal cases were examined and reported upon and 8 *post-mortem* examinations made at the request of the police. The dispensary was inspected by the Surgeon-General in December, by the Civil Surgeon in June and by the Sanitary Commissioner in January and November. The total cost was Rs. 2,628-8-1 and the cost per patient Re. 0-2-2 against Rs. 2,028-13-4 and Re. 0-1-10 in 1891 and Rs. 2,963-8-6 and Re. 0-3-0 in 1890.

BORSAD.—*In charge of* Hospital Assistant M. PRASA'D.

The dispensary building is in good repair. The meetings of the dispensary committee were held regularly every month and quarterly reports were made to the Collector. The sanitary condition of the town was fair and looked after by the Municipality. The water-supply from wells in the town is sufficient and good. The total treated was 8,020 out-door and 106 in-door patients against 5,709 and 114 in 1891 and 4,079 and 245 in 1890. The prevailing diseases were malarial fevers, diseases of the skin and eye, disorders of digestion and local injuries. There was no epidemic disease. Vaccination was performed by the táluka vaccinator. Inspection by the Civil Surgeon was made in May. The total cost was Rs. 1,275-12-5 and the cost per patient Re. 0-2-6, against Rs. 1,218-12-0 and Re. 0-3-4 in 1891 and Rs. 1,304-10-9 and Re. 0-4-9 in 1890.

MAHUDA.—*In charge of* Hospital Assistant BEHRA'MJI JIVA'JI.

The building is not in good repair. A dead-house will shortly be completed. The committee visited the dispensary eight times. The sanitation of the town is fair. The water-supply from wells is abundant and of good quality. The total treated was 7,177 out-door and 71 in-door patients as compared with 6,350 and 64 in 1891 and 7,598 and 90 in 1890. The most common complaints were malarial fevers, ophthalmia, ear, rheumatic and respiratory affections, diarrhœa, dysentery and skin diseases. No epidemic occurred in the town, but cholera prevailed in the neighbouring villages. Two major surgical operations were performed. Vaccination is carried on by the táluka vaccinator. Thirty-one medico-legal cases were examined and reported on and two *post-mortem* examinations made at the request of the police. The dispensary was inspected by the Civil Surgeon, Kaira, in May. The total cost was Rs. 1,340-13-4 and the cost per patient Re. 0-3-0, as compared with Rs. 1,108-12-1 and Re. 0-2-9 in 1891 and Rs. 1,226-1-0 and Re. 0-2-6 in 1890.

DA'KOR.—*In charge of* Hospital Assistant SHANKAR HARI.

The building is in good repair. The committee visited the dispensary ten times. The sanitary condition of the town is fair. Water-supply is ample but of inferior quality. The total treated was 9,407 out-door and 72 in-door patients against 8,352 and 95 in 1891 and 8,208 and 60 in 1890. The prevailing diseases were ague, conjunctivitis, otorrhœa, diseases of the respiratory organs and digestive system and scabies. Cholera was epidemic in the month of July. One major surgical operation was performed. Vaccination is carried out by the táluka vaccinator. Three *post-mortem* examinations were made and several medico-legal cases examined and resported upon. The dispensary was inspected by the Civil Surgeon, Kaira, in March. The total cost was Rs. 1,842-12-11 against Rs. 1,794-5-8 in 1891 and Rs. 1,721-4-7 in 1890. The cost per patient was Re. 0-3-1 against Re. 0-3-4 in 1891 and Re. 0-3-3 in 1890.

KAPADVANJ.—*In charge of* Hospital Assistant ABRAHAM SHALLAM.

The building is in good repair. The committeee visit the dispensary every month. The sanitary condition of the town is good. Water-supply is good and abundant. The total number treated was 14,911 out-door and 74 in-door patients as compared with 13,850 and 71 in 1891 and 14,561 and 63 in 1890. The most common diseases were malarial fevers, rheumatic, eye, ear and respiratory affections, bowel-complaints, ulcers and diseases of the skin. Cholera prevailed in the months of July and August. There were 4 *post-mortem* examinations held. The dispensary was inspected by the Civil Surgeon, Kaira, in May. Vaccination is carried out by the táluka vaccinator. The total cost was Rs. 2,104-9-1 and the cost per patient Re. 0-2-3, as compared with Rs. 1,530-13-6 and Re. 0-1-9 in 1891 and Rs. 2,136-14-2 and Re. 0-2-4 in 1890.

ANAND.—*In charge of* Hospital Assistant SADA'SHIV VA'MAN.

The buildings are kept in good repair. An operation table, three iron latrine pans and a cupboard to keep poisonous drugs in are wanted. The dispensary was visited by the committee eleven times, once by the Collector and thrice by the Assistant Collector. The sanitary condition of the town is unsatisfactory. The water-supply is from wells and is good and abundant. The total number of patients treated was 6,302 out-door and 154 in-door as compared with 5,363 and 101 in 1891 and 6,466 and 90 in 1890. There were two deaths, one from pneumonia and the other from compression of brain. Cholera was epidemic in the town and in the surrounding villages. The prevailing diseases were malarial fevers, ophthalmia and diseases of the digestive and respiratory systems. The dispensary was inspected by the Civil Surgeon, Kaira, on 3rd June, the Deputy Sanitary Commissioner on 7th January and 20th November and the Surgeon-General on 27th December. The total cost was Rs. 1,314-9-4 and the cost per patient Re. 0-3-3, as compared with Rs. 1,172-3-5 and Re. 0-3-5 in 1891 and Rs. 1,290-12-9 and Re. 0-3-1 in 1890.

MUNICIPAL DISPENSARY.

UMRETH.—*In charge of* Mr. SHIVPRASA'D.

The dispensary was opened on 3rd July 1891, in a hired building, part of the Anglo-Vernacular School erected in honour of Her Majesty the Queen Empress's Jubilee. The dispensary is kept in fair repair. The furniture and fittings are not sufficient; some chairs are wanting. The dispensary was visited by the members of the Umreth Municipality ten times. The dispensary was visited by the Deputy Sanitary Commissioner on the 3rd November. The sanitation of the town is fair. The water-supply is from wells and is abundant and considered of good quality, but is liable to pollution by soakage. The total treated was 13,114 out-door patients. The prevailing diseases were ague, bronchitis, constipation, otorrhœa, ringworm, scabies, eczema, asthma, diarrhœa and intestinal worms. Cholera was prevalent in the months of June, July and August: 26 cases were treated, out of which 3 proved fatal. There were 3 major and 139 minor surgical operations performed. Vaccination is carried out by the municipal vaccinator. No *post-mortem* examination was performed. There is no dead-house. The total cost was Rs. 2,141-13-10 and the cost per patient Re. 0-2-7.

PANCH MAHA'LS.

CIVIL HOSPITAL, GODHRA.—*In charge of* Surgeon—Major K. H. MISTRI.

Conservancy.—Fair on the whole. The sanitary condition of the Ghanchi quarters has somewhat improved. The old cesspools and pit-privies still exist, but the construction of new ones is prohibited.

Water-supply.—Is from wells, river and tank, and was ample owing to increased rainfall in the year 1892. Some of the wells are liable to pollution from insanitary surroundings.

Hospital buildings.—A new police ward of 14 beds, a dead-house, servants' quarters, a store-house and servants' latrine were completed and brought into use; and the old store-room, the dead-house, the police and the pauper wards were respectively converted into a cook-room, low caste ward, pauper ward and female ward after necessary alterations. The earthen floor of the female ward was replaced by a cement one; the office, the surgery and the operating room were each provided with a ceiling cloth and a portion of the verandah was partitioned off to form a small room for dressing out-door patients.

General health.—Was not so satisfactory as in previous years. Cholera prevailed, there being 193 cases with 50 deaths. The outbreak was due to importation from Dákor and Dohad.

Attendance of patients.—598 in-door and 9,346 out-door patients were treated against 522 and 8,260 in 1891 and 386 and 8,045 in 1890. The increased attendance in 1892 was owing to the wide prevalence of ague and cholera, and also to increased accommodation of the Civil Hospital, as compared with the previous years.

Prevailing diseases.—Ague, scabies, bronchitis, worms, ringworm, conjunctivitis and ulcers.

Surgical cases.—30 major and 666 minor operations were performed against 8 and 233 in 1891. The major operations include amputations, lithotomy, obstetric operations, excision of tumours, reduction of dislocations, paracentesis of abdomen and bladder, and reparative operations.

Mortality and its causes.—112 deaths occurred in the hospital against 74 in 1891. A very large proportion of these took place among mendicants and pilgrims who applied for relief in the last stage of disease. The chief causes were starvation 32, diarrhœa 18, remittent fever 31, cholera 6, bronchitis 4, and influenza and pneumonia 3 each.

Vaccination.—Is carried out by the Local Fund vaccinator under the supervision of the Sanitary Department.

Medico-legal.—Seven *post-mortem* examinations were made and opinion given in 20 medico-legal cases at the request of the police.

Conduct of establishment.—Good. Hospital Assistants Bápuji Jádow and Chimanlál Máhsukrám are well reported on.

Cost.—The total cost was Rs. 3,800-14-6 and the cost per patient Re. 0-6-1; against Rs. 9,564-14-2 and Rs. 1-1-5 in 1891 and Rs. 10,217-6-5 and Rs. 1-3-4 in 1890.

GRANT-IN-AID DISPENSARY.

KÁLOL.—*In charge of* Hospital Assistant BA'LKRISHNA PA'NDURANG.

The dispensary buildings are suitable and in good repair. The committee visited the dispensary frequently. The sanitation of the town is fairly good, but the water-supply is not sufficient. The total treated was 3,504 out-door and 98 in-door patients as compared with

3,284 and 83 in 1891 and 4,571 and 84 in 1890. The most common diseases were malarial fevers, skin diseases, ophthalmia and bowel-complaints. There was no epidemic in the town, but cholera prevailed in the district. Vaccination is carried on by the táluka vaccinator from house to house. Six *post-mortem* examinations were made and opinion given in medico-legal cases at the request of the police. The dispensary was inspected by the Civil Surgeon, Godhra, in December. The total cost was Rs. 998-7-0 and the cost per patient Re. 0-4-5, against Rs. 1,006-0-7 and Re. 0-4-9-8 in 1891 and Rs. 1,275-10-4 and Re. 0-4-4 in 1890.

GOVERNMENT DISPENSARY.

DOHAD.—*In charge of* Assistant Surgeon D. E. KOTHÁWA'LA, L.M. & S.

The buildings are in fair repair. The dispensary was visited by the Collector the Executive Engineer, the Police Superintendent and the District Deputy Collector Sanitary arrangements of the town are fairly good. The water-supply is from wells and a tank. It is fair in quality but deficient in quantity. The total number of patients treated was 6,632 out-door and 275 in-door as compared with 5,785 and 320 in 1891 and 6,107 and 412 in 1890. The prevailing diseases were malarial fevers, eye and ear affections, diseases of the respiratory system, intestinal worms and disturbances of the digestive system. A few cases of cholera occurred. 4 major and 287 minor surgical operations were performed. Vaccination is carried on from house to house under the supervision of the Sanitary Department. Eight *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Godhra, in November. The total cost was Rs. 2,527-0-9 and the cost per patient Re. 0-5-10, against Rs. 2,406-8-0 and Re. 0-6-3 in 1891 and Rs. 3,228-8-11 and Re. 0-8-0 in 1890.

AHMEDABAD COLLECTORATE.

HATTESING AND PREMA'BHA'I CIVIL HOSPITAL, AHMEDABAD.—*In charge of* Surgeon—Major M. L. BARTHOLOMEUSZ, M.B., C.M.

Hospital buildings.—Are in good repair. A consulting room, an operating theatre, two detached wards (Wyllie Wards), a store-room, and servants' quarters have been added. Part of the expenditure incurred in the erection of these additional buildings was defrayed by a portion of the legacy of the late Surgeon-General Wyllie to the city of Ahmedabad.

Water-supply.—The new water-works were completed in the year 1891, and the inhabitants of the town have since then enjoyed the great advantage of a good and ample supply of drinking water.

Conservancy.—The pail system of conservancy remains in force in the greater part of the town, the night-soil being conveyed by tram cars to a considerable distance beyond municipal limits and buried in pits. The drainage scheme for the disposal of sullage water &c., recommended by Mr. Baldwin Latham has been nearly completed in a certain section of the town: house connections are now being carried out; and should this experimental scheme prove satisfactory, the Municipality intend extending the scheme to other parts of the town. Most of the sewage is now conveyed to a plot of ground beyond the city wall and utilized in the sewage farm.

Public health.—Was very unsatisfactory, particularly during the months succeeding the rains in consequence of the general prevalence of malarious fevers with complications. A few cases of cholera also occurred about this time, but the pure water-supply which the town now enjoys saved it from an epidemic outbreak.

Attendance of patients.—1,992 in-door and 25,122 out-door as compared with 2,012 and 22,307 in 1,891 and 1,797 and 20,670 in 1890.

Prevailing diseases.—Malarious fevers, ulcers, diarrhœa and dysentery, venereal diseases, leprosy (isolated in the Kankrapeth Hospital), alcoholism, pneumonia, calculus of the bladder, rheumatism, phthisis, ophthalmia, inflammation of the ear, chronic bronchitis, scabies, ringworm, abscess and dyspepsia.

Surgical operations.—There were 118 major operations performed against 103 in 1891. Of the former the most important were lateral lithotomies, amputations of various kinds, removal of tumours, cataract operations, abdominal sections and plastic operations. The number of minor operations was 867 against 1,253 in the previous year.

Mortality and its causes.—There were 166 deaths in hospital or 8·3 per cent. of total treated against 117 and 5·8 per cent. in 1891. As usual a large number of these cases belonged to the mendicant class, pilgrims and others, in a state of semi-starvation and more or less in a hopeless and moribund condition on admission. The chief causes of death were general diarrhœa, dysentery, pneumonia, phthisis, heat stroke, leprosy, cholera, remittent fever, and debility brought about by various causes.

Vaccination.—Performed regularly by the municipal vaccinator at the Civil Hospital and at certain of the city dispensaries on stated days of the week. On an average 4,623 successful primary vaccinations and 60 re-vaccinations are performed yearly.

Medico-legal cases.—633 medico-legal cases (assaults and injuries) were examined and reported upon, and 24 *post-mortem* examinations were performed at the request of the police authorities.

Conduct of establishment.—This has been satisfactory throughout. 1st Class Hospital Assistant Luxmonsingh Arjunsingh is commended for his excellent conduct and work.

Cost.—The total cost was Rs. 14,100-11-4 and the cost per patient Re. 0-8-4, as compared with Rs. 23,392-3-8 and Re. 0-15-4 in 1891 and Rs. 25,387-3-4 and Rs. 1-2-0 in 1890.

MUNICIPAL DISPENSARY.

RA'IPUR.—*In charge of* Hospital Assistant BHÁU SAKHÁRÁM.

The buildings are kept in a good state of repair. The furniture and fittings are quite sufficient. The committee visited the dispensary regularly every month. The sanitation of the city is pretty fair and the Municipality has appointed a health officer to look after its sanitation. Up to 1890 the people of Ahmedabad used to supply themselves with water from wells, tanks, and the river Sábarmati, but good potable water was amply supplied to them by the Municipality from the new water-works in the years 1891 and 1892. The total treated was 16,803 out-door and 26 in-door patients against 14,780 and 43 in 1891 and 14,721 and 32 in 1890. The average daily attendance, both in-door and out-door, was 168·1 as compared with 155·1 in 1891. There were only two cases of cholera treated at the dispensary with one death. The most common diseases were malarial fevers, diseases of the skin, eye, and ear, affections of the stomach and bowels, rheumatism, and diseases of the respiratory system. There were 17 major and 688 minor surgical operations performed. Vaccination is carried on by the municipal vaccinator. The dispensary was inspected by the Civil Surgeon, Ahmedabad, in April, and the Surgeon-General with the Government of Bombay, in March. The total cost was Rs. 2,715-13-2 and the cost per patient Re. 0-2-7, as compared with Rs. 2,108-14-6 and Re. 0-2-3 in 1891 and Rs. 2,115-3-7 and Re. 0-2-3 in 1890. In October 1892 the Government grant was withdrawn and the institution ceased to be a Grant-in-aid dispensary.

GRANT-IN-AID DISPENSARIES.

SA'NAND.—*In charge of* Hospital Assistant RÁMA MÁLAP.

The buildings are in good repair. A room for surgical operations and quarters for a compounder are much needed. Furniture and fittings are not sufficient. The committee visited the dispensary regularly every month. The sanitation is defective. The water-supply is from wells and is ample and of good quality. The prevailing diseases were malarial fevers, ophthalmia, dyspepsia, ulcers and skin diseases. The total treated was 9,238 out-door and 87 in-door patients as compared with 7,925 and 107 in 1891 and 8,169 and 136 in 1890. There was no epidemic in the town or its vicinity. Vaccination is carried on by the táluka vaccinator. Five *post-mortem* examinations were made and opinion given on several medico-legal cases at the request of the police. Four major surgical operations were performed. The dispensary was inspected by the Civil Surgeon in December. The total cost was Rs. 1,711-13-5 and the cost per patient Re. 0-2-11 against Rs. 1,056-5-9 and Re. 0-2-1 in 1891 and Rs. 2,112-11-6 and Re. 0-4-0 in 1890.

VIRAMGÁM.—*In charge of* Hospital Assistant POPATLA'L LALLUBHAI.

The building is in good repair. The sanitation of the town is fair. The committee visited the dispensary every month. The water-supply is ample and of fair quality, but is liable to soakage. The total treated was 9,230 out-door and 101 in-door patients against 6,523 and 78 in 1891 and 6,670 and 111 in 1890. The most common diseases were malarial fevers, ophthalmia, skin diseases, bowel-complaints, pneumonia, bronchitis and injuries. There was no epidemic. Five major surgical operations were performed. Vaccination is carried on by the táluka vaccinator at the dispensary and municipal office. Eleven *post-mortem* examinations were made and opinion given in numerous medico-legal cases. The dispensary was inspected by the Civil Surgeon, Ahmedabad, in December, and by the Deputy Sanitary Commissioner in January and December. The total cost was Rs. 1,962-8-8 and the cost per patient Re. 0-3-4, against Rs. 1,196-4-3 and Re. 0-2-10 in 1891 and Rs. 2,165-5-4 and Re. 0-5-1 in 1890.

DHOLKA.—*In charge of* Hospital Assistant RA'MCHANDRA GOVIND NICUM.

The dispensary buildings are in good condition but they require white-washing. The committee met 16 times. The sanitation of the town is fairly good. The water-supply is from the wells outside the town and is abundant, free from soakage and of good quality. The total treated was 6,015 out-door and 112 in-door patients against 6,995 and 113 in 1891 and 5,462 and 121 in 1890. The prevailing diseases were malarious fevers, eye, ear, skin and respiratory affections, pneumonia and ulcers. Only one case of sporadic cholera occurred. Four major surgical operations were performed. Vaccination is carried on by the municipal

vaccinator. Ten *post-mortem* examinations were held at the instance of the police. The number of medico-legal cases examined and reported on was 82. The Civil Surgeon, Ahmedabad, inspected the dispensary in May. The total cost was Rs. 1,395-13-11 and the cost per patient Re. 0-3-8, as compared with Rs. 2,372-14-1 and Re. 0-5-4 in 1891 and Rs. 1,301-15-4 and Re. 0-3-8 in 1890.

DHANDHUKA.—*In charge of* Hospital Assistant BA'BURAO NA'R'AYEN.

The dispensary buildings are in good repair. In addition to annual repairs the floors of the main hall and one of the side-rooms have been paved with stone. The furniture and fittings are sufficient and in good order. After the suspension of the Municipality in 1892, the Mámlatdár visited the Dispensary from time to time. The conservancy arrangements of the town are fairly satisfactory. Water-supply of the town is chiefly from wells. It is sufficient and good in quality. The total number of patients treated was 6,190 out-door and 53 in-door as compared with 5,642 and 88 in 1891 and 5,270 and 85 in 1890. The most common diseases were malarial fevers, rheumatic affections, diseases of the ear, digestive and respiratory systems and skin and ulcers. Four major surgical operations were performed. Vaccination is conducted from house to house by the Local Fund vaccinator. Ten *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Ahmedabad, in May. The total cost was Rs. 1,534-1-6 and the cost per patient Re. 0-3-11, against Rs. 1,299-0-6 and Re. 0-3-7 in 1891 and Rs. 1,280-9-1 and Re. 0-3-9 in 1890.

PARÁNTI'J.—*In charge of* Hosptial Assistant D. AARON.

The building requires repairs. During the time the Municipality was suspended, the dispensary was visited by Revenue officers who recorded satisfactory remarks. The sanitary condition of the town as a whole is unsatisfactory. The water-supply to the town is from wells and is fair in quality and sufficient in quantity. The total treated was 8,195 out-door and 43 in-door patients as compared with 7,735 and 99 in 1891 and 7,350 and 69 in 1890. The prevailing diseases were malarious fevers, nervous affections, ophthalmia, diseases of the respiratory and digestive systems, skin affections and ulcers. Measles, influenza and chicken-pox prevailed during the last two years, but not cholera. Eight major surgical operations were performed. Thirty *post-mortem* examinations were made and opinions given in several medico-legal cases. Vaccination is carried on by the táluka vaccinator as usual. The dispensary was inspected by the Civil Surgeon, Ahmedabad, on the 26th March. The total cost was Rs. 1,212-7-0 and the cost per patient Re. 0-2-4, against Rs. 1,478-15-8 and Re. 0-3-0 in 1891 and Rs. 1,219-5-11 and Re. 0-2-7 in 1890.

GOGHA.—*In charge of* Hospital Assistant HARI KRISHNA RÁYA KAR.

The buildings were repaired and now require only usual annual repairs. The committee visited the dispensary 13 times and the chairman and members 41 times. The sanitary condition of the town was good. The water-supply was fairly sufficient and of fair quality. The total treated was 6,753 out-door and 58 in-door patients as compared with 8,106 and 69 in 1891 and 6,739 and 85 in 1890. The most common diseases were malarial fevers, worms, ophthalmia, respiratory and skin affections. There were 20 major surgical operations performed. Vaccination is conducted by the táluka vaccinator and is well received. Five *post-mortem* examinations were held at the request of the police. The Civil Surgeon inspected the dispensary in July. The total cost was Rs. 1,381-5-4 and the cost per patient Re. 0-3-3, against Rs. 1,607-5-5 and Re. 0-3-1 in 1891 and Rs. 2,033-10-3 and Re. 0-4-9 in 1890.

MODA'SA.—*In charge of* Hospital Assistant JEYSHING NAGINDA'S SHÁH.

The dispensary buildings are in good state; they are kept in good repair and are whitewashed every year. They suit their purpose well. There are no quarters for the Hospital Assistant in the dispensary compound. The furniture and fittings are sufficient except a table for *operations* and almirah for *poisonous medicines*, which are much wanted. The dispensary committee visited the institution four times. The Collector of Ahmedabad, Assistant Collector and President of Modása Municipality and Mahálkari of this station visited the dispensary once, twice and four times respectively. The town is kept fairly clean by the Municipality, but conservancy arrangements are still defective. Water-supply is good but deficient. The total treated was 3,398 out-door and 44 in-door patients against 3,829 and 45 in 1891 and 3,586 and 68 in 1890. The most common diseases were ague, rheumatic affections, diseases of the eye, ear and of the respiratory and digestive systems and local injuries. No epidemics of any kind occurred in the town. One hundred and twenty-six minor surgical operations were performed. Vaccination is conducted by a Local Fund vaccinator. Three *post-mortem* examinations were made at the request of the police, and opinions given on several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Ahmedabad, on the 4th April. The total cost was Rs. 983-14-9 and the cost per patient Re. 0-4-7, against Rs. 1,011-2-6 and Re. 0-4-2 in 1891 and Rs. 1,082-14-10 and Re. 0-4-8 in 1890.

RANCHODLÁL CHHOTÁLÁL DISPENSARY, AHMEDABAD.—*In charge of* Assistant Surgeon S. F. GHÁNDY, L.M. & S.

The buildings are kept in a good state of repair except the floor of the dispensary which requires repairs. The furniture and fittings are quite sufficient. The committee visited the dispensary every month. Sanitary condition of the town is fair. The water-supply from the Dudheswar water-works is of good quality and people generally make use of it. The construction of the drainage works for draining a portion of the town experimentally is nearly completed. The numbers treated were 17,812 out-door and 183 in-door patients against 15,775 and 204 in 1891 and 16,466 and 128 in 1890. The most common diseases were malarial fevers, skin diseases, diseases of the ear and eye, diarrhœa and dysentery. Malarial fever in a severe form prevailed very extensively. Forty-one major surgical operations were performed. Vaccination is carried on by a municipal vaccinator. The dispensary was inspected by the Civil Surgeon, Ahmedabad, in August, and the Surgeon-General in March. The total cost was Rs. 3,497-4-9 and the cost per patient Re. 0-3-1, as compared with Rs. 4,798-8-10 and Re. 0-4-9 and Rs. 6,649-11-4 and Re. 0-6-4 in 1891 and 1890.

VICTORIA JUBILEE DISPENSARY, AHMEDABAD.—*In charge of* Miss KÁPADIA.

The buildings are kept in a good state of repair except the floors of the dispensary rooms which require to be repaired. The furniture and fittings are sufficient. The committee visited the dispensary five times, but the individual members were frequent visitors. The total treated was 14,597 out-door and 170 in-door patients against 11,404 and 129 in 1891 and 8,785 and 112 in 1890. The most common diseases were malarial fevers, diseases of the generative, respiratory and digestive systems, skin, eye and ear. Twenty-two major surgical operations were performed (including 2 craniotomy, 2 version, 2 delivery by forceps, 3 extraction of the lens and 3 removal of stones). The dispensary was inspected by the Civil Surgeon, Ahmedabad, in August, and by the Surgeon-General with the Government of Bombay in March. The total cost was Rs. 4,491-0-7 and the cost per patient Re. 0-4-10, against Rs. 4,474-3-5 and Re. 0-6-2 in 1891 and Rs. 4,146-8-9 and Re. 0-7-4 in 1890.

RÁNPUR.—*In charge of* Hospital Assistant SHIVRÁM NÁRÁYAN.

The dispensary was opened in January 1892. It is situated in the north of the town in a hired building and therefore is not very convenient to the public. The building needs repairs. The furniture and fittings are sufficient and in good order. The committee visited the dispensary nine times during the year. The sanitary condition of the town is tolerably good. The water-supply is chiefly from the river and is plentiful. The total treated was 10 in-door and 6,557 out-door patients. The prevailing diseases were malarial fevers, rheumatic affections, diseases of the ear, digestive and respiratory systems and skin and ulcers. One major surgical operation was performed. There were two medico-legal cases. Vaccination was carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Ahmedabad, in May. The total cost was Rs. 1,340-13-1 and the cost per patient Re. 0-3-3.

ENDOWED DISPENSARY.

BAICHERDÁS DISPENSARY, AHMEDABAD.—*In charge of* Assistant Surgeon K. B. COOPER, L.M.

The buildings are in very good repair. The furniture and fittings are in good order. The committee held its meetings every month. The dispensary district is a crowded one, and sanitary arrangements are defective. The total number treated was 20,457 out-door and 89 in-door patients as compared with 16,767 and 69 in 1891 and 17,620 and 79 in 1890. The more common complaints were ague, conjunctivitis, bronchitis, scabies, ulcers and syphilis. There was no epidemic. There were 66 major surgical operations performed (including 28 lithotomies) and 1,024 minor operations. Vaccination is carried out by the municipal vaccinator. The dispensary was inspected by the Surgeon-General in January and the Civil Surgeon in August. The total cost was Rs. 5,389-10-9 and the cost per patient Re. 0-4-2, as compared with Rs. 5,752-9-0 and Re. 0-5-5 in 1891 and Rs. 5,718-15-1 and Re. 0-5-2 in 1890.

GOVERNMENT DISPENSARY.

KHÁRÁGHODA.—*In charge of* Assistant Surgeon R. J. KÁPADIA, L.M. & S.

The buildings are in good repair. Sanitary arrangements fairly good. Water-supply brackish and abundant. The total treated was 4,215 out-door and 20 in-door patients, as compared with 4,193 and 50 in 1891 and 3,678 and 21 in 1890. The prevailing diseases were malarious fevers, ophthalmia, skin diseases and bowel-complaints. Two major surgical operations were performed. Vaccination is carried out by the Assistant Surgeon at the dispensary. Five medico-legal cases were examined and reported upon. The dispensary was inspected by the Civil Surgeon in December. The total cost was Rs. 3,293-4-7 and the cost per patient Re. 0-12-5, as compared with Rs. 2,632-10-6 and Re. 0-9-11 in 1891 and Rs. 2,819-12-5 and Re. 0-12-2 in 1890.

SELF SUPPORTING DISPENSARY.

DHOLERA.—*In charge of* Hospital Assistant BANKAY BEHÁRI.

The dispensary building, a hired one, is kept in good repair. Vaccination is performed by the táluka vaccinator. The committee visited the dispensary regularly every month. It was visited also both by the Assistant Collector and President and by the Mámlatdár of Dhandhuka. The water-supply, generally from tanks, is insufficient and brackish. Conservancy arrangements of the town are fairly satisfactory. The total treated was 5,737 out-door and 46 in-door patients against 5,946 and 44 in 1891 and 6,369 and 32 in 1890. The most common diseases were malarial fevers, skin diseases, diseases of the digestive system, inflammation of the external ear and ulcers. There was no epidemic disease either in the town or in its vicinity. Four *post-mortem* examinations were made at the request of the police and opinion was given on several medico-legal cases. 2 major and 440 minor surgical operations were performed. The dispensary was inspected by the Civil Surgeon, Ahmedabad, in May. The total cost was Rs. 1,216-11-8 and the cost per patient Re. 0-3-4, as compared with Rs. 1,712-2-7 and Re. 0-4-6 in 1891 and Rs. 1,096-1-1 and Re. 0-2-8 in 1890.

MAHI KA'NTHA.

CIVIL HOSPITAL, SÁDRA.—*In charge of* Assistant Surgeon D. E. ANKLESARIA, L.M. & S.

Conservancy.—Of the Sádra Camp fair, but capable of being improved by the erection of a few public latrines and urinals and increase in the number of sweepers; that of the Sádra village continues to be unsatisfactory.

Water-supply.—From the Sábarmati river is ample but inferior. The wells in the Sádra Bazár limits ought to be periodically cleaned.

Hospital buildings.—In tolerably good repair. The Jamshedji Nasserwanji Petit female ward of 4 beds was erected. A consultation room, a separate ward for the Agency Police, a store-room, quarters for servants and a cook-room for the use of the in-patients are much needed. The dead-house should be in the hospital compound. The buildings have been taken up by Government and it is hoped the above wants will be supplied.

General health.—Was tolerably fair. Malarial fevers were most prevalent. The town was free from cholera and small-pox.

Attendance of patients.—228 in-door and 12,907 out-door as compared with 208 and 10,631 in 1891 and 156 and 9,943 in 1890.

Prevailing diseases.—Malarial fevers, skin diseases, eye affections, bronchitis, bowel-complaints, spleen affections, venereal and rheumatic affections.

Surgical operations.—42 major and 793 minor operations against 27 and 727 in 1891. Of the major the most important were extraction of the lens, reductions of dislocation of lower jaw, humerus femur and of radius and ulna, removal of sebaceous cysts and lateral and median lithotomies.

Mortality.—There were 6 deaths in the hospital, of which 3 were among the Agency Police. The causes were catarrhal pneumonia, chronic nephrites, tubercular phthisis, psoriasis and wound of the abdomen with protrusion of the viscera.

Vaccination.—Is performed by the Assistant Surgeon from arm to arm for six months of the year. There were 165 primary vaccinations, of which 152 were successful and the result was not known in 13.

Medico-legal.—8 *post-mortem* examinations were held and 22 medico-legal cases were reported on, against 4 and 8 in 1891.

Conduct of establishment.—Good.

Cost.—The total cost was Rs. 1,392-3-5 and the cost per patient Re. 0-1-8, as compared with Rs. 3,561-4-3 and Re. 0-5-3 in 1891 and Rs. 4,821-5-8 and Re. 0-7-7 in 1890.

KA'THIA'WA'R.

WEST HOSPITAL, RÁJKOT.—*In charge of* Surgeon Lieutenant-Colonel F. C. BARKER, M.D., F.R.C.S.

Conservancy.—No change in the principle,—the dry earth system continuing to be employed. Sweepers' quarters have been built.

Water-supply.—As yet unchanged, being that by a bhistee from a good source and latterly the new well in the compound was used for drinking as well as for watering the garden. Endeavours are being made to get water laid on from the new works for the interior of the hospital.

Hospital buildings.—In good order.

General health.—Fever prevailed extensively and of a severe type in the last quarter of the year as usual.

Attendance of patients.—4,530 out-patients and 844 in-patients were treated against 5,199 and 693 in 1891 and 7,292 and 842 in 1890.

Prevailing diseases.—Malarial fevers, skin diseases, bowel-complaints, eye and ear diseases, ulcers, respiratory affections, worms, rheumatism and local injuries.

Surgical operations.—109 major operations were performed against 127 in 1891. The most important were lateral lithotomies 21, litholapaxies 14, amputations 7, extraction of the lens 6, paracentesis of the abdomen 5, and 1 supra-pubic lithotomy. Minor operations amounted to 695 against 542 in 1891.

Mortality and its causes.—34 deaths occurred among in-patients, of which 6 were due to dysentery, 5 to diarrhœa, debility 4, phthisis 3, anœmia, cholera and intermittent fever 2 each, malarial cachexia, cancer neck, laryngitis, acute bronchitis and pneumonia 1 each, and 5 after operations.

Vaccination.—Is performed under the superintendence of the Medical Officer to the Political Agency.

Medico-legal.—10 cases including one dead body.

Conduct of establishment.—Very satisfactory.

General remarks.—The hospital has had the benefit of Miss Goldney's superintendence over the women and children and this department of the hospital grows in popularity as was to be expected.

Cost.—The total cost was Rs. 9,061-0-2 and the cost per patient Rs. 1-11-0, as compared with Rs. 17,161-4-10 and Rs. 2-14-7 in 1891 and Rs. 20,096-3-8 and Rs. 2-7-6 in 1890.

WADHWÁN.—*In charge of* Assistant Surgeon Ráo Bahádur THÁKORDAS KIKÁBHÁI.

The dispensary building is in good repair. Stone pavement has been substituted for cow-dung flooring in the *post-mortem* room. The dispensary is under the direct supervision of the Assistant Political Agent, Jhálávád Pránt, who visits it frequently. The sanitation of the town is good. The water-supply good. It has much improved. The total treated was 7,915 out-door and 296 in-door patients against 6,995 and 170 in 1891 and 6,665 and 144 in 1890. The most common diseases were malarial fevers, diseases of the skin, eye, ear and of the digestive system, intestinal worms and rheumatic and respiratory affections. Eighteen major surgical operations were performed. Vaccination is carried out by the district vaccinator. 2 *post-mortem* examinations were made and 5 medico-legal cases examined and reported upon. The dispensary was inspected by the Surgeon-General in February. The total cost was Rs. 6,278-6-2 and the cost per patient Re. 0-12-3, as compared with Rs. 5,914-9-1 and Re. 0-13-2 in 1891 and Rs. 5,740-10-9 and Re. 0-13-5 in 1890.

SONGAD.—*In charge of* MR. KESHAVLA'L ICHACHAND.

The dispensary is included in this report for the first time. The buildings are in good order. A dead-house and *post-mortem* table are required. The Political Agent, Káthiáwár, visited the dispensary on the 18th March. Sanitary condition of the station is good Water-supply is ample and good. The total number of out-door patients treated is 1,632 against 1,697 and 1,695 in 1890 and 1891. Average daily attendance was 22·4 against 23·1 and 28·1 in 1890 and 1891. Total number of minor surgical operations performed was 48. The prevailing diseases were fever, cough, diseases of digestive system and skin diseases. No epidemic prevailed in the station. The total cost was Rs. 921-4-9 and the cost per patient Re 0-9-0.

JETALSAR.—*In charge of* MR. K. P. DAVE.

The dispensary is included in this report for the first time. The building is a new one, is in thorough repair and in very good condition. The sanitary condition of the station is good. The water-supply is abundant for potable purposes. The total treated was 1,676 out-door and 25 in-door patients as compared with 1,710 and 18 in 1891 and 1,279 and 32 in 1890. The prevailing diseases were ague, skin diseases and diseases of the digestive system. The dispensary was visited by the Political Agent, the Assistant Political Agent and the Medical Officer to the Káthiáwár Political Agency. Vaccination is conducted by the Agency vaccinator and is favourably received by the people. The total cost was Rs. 1,097-5-6 and the cost per patient Re. 0-10-4.

CUTCH.

CIVIL HOSPITAL, BHU'J.—*In charge of* MR. B. J. DAMANIA, L.M. & S.

Conservancy.—Is satisfactory.

Water-supply.—Abundant from wells and tanks.

Hospital building.—In good order.

General health.—Fair. Cholera prevailed in summer.

Details of treated.—569 in-door and 14,967 out-door against 558 and 13,225 in 1891 and 508 and 13,748 in 1890.

Prevailing diseases.—Malarial fevers, worms, rheumatic, skin and bronchial affections, dysentery, diarrhœa and ulcers.

Surgical operations.—136 major against 143 in 1891. The most important were extraction of the lens, removal of cystic and glandular tumours, ovariotomy, paracentesis of the abdomen, lithotomies, amputations of the thigh, forearm, wrist, leg and foot at the ankle-joints.

Mortality and its causes.—Among in-door patients there were 19 deaths, due to diarrhœa, dysentery, phthisis, syphilis, starvation, leprosy, &c.

Vaccination.—Is carried out satisfactorily at the expense of the State. There were 897 primary and 56 secondary vaccinations, of which 849 were successful and 104 unsuccessful.

Conduct of the establishment.—Very satisfactory.

Cost.—The total cost was Rs. 14,105-10-11 and the cost per patient Re. 0-14-6, against Rs. 13,246-15-3 and Re. 0-15-4 in 1891 and Rs. 13,103-15-7 and Re. 0-14-8 in 1890.

NATIVE STATE DISPENSARIES.

CUTCH-MA'NDVI.—*In charge of* Mr. A. DA'DA'BHÁI, L.M. & S.

The building is in good repair. The sanitary and conservancy arrangements are fair. The water-supply is deficient in quantity and brackish in quality. The total treated was 13,352 out-door and 196 in-door patients as compared with 14,100 and 160 in 1891 and 14,307 and 97 in 1890. The prevailing diseases were malarious fevers, worms, rheumatic affections, diseases of the skin, eye, ear, nervous and digestive systems and ulcers. Eighty-two cases of cholera were treated at the dispensary. Nineteen major surgical operations were performed. Vaccination was carried on by the State vaccinator. The dispensary was inspected by the Chief Medical Officer, Bhúj. The total cost was Rs. 7,676-4-9 and the cost per patient Re. 0-9-1, against Rs. 7,028-6-2 and Re. 0-7-10 in 1891 and Rs. 6,898-4-11 and Re. 0-7-7 in 1890.

SHET DATTUBHA'I IBRA'HIM DISPENSARY, CUTCH-MÁNDVI.—*In charge of* Mr. RUGNÁTHJI MANCHÁRA'M.

The building is in a good condition. The sanitary condition of the town is somewhat improved. The water-supply is ample but brackish. The total treated was 9,275 out-door patients as compared with 8,609 in 1891 and 9,982 in 1890. The prevailing diseases were malarious fevers, worms, eye and ear affections, diseases of the skin and respiratory and digestive systems. Cholera prevailed in an epidemic form in the months of June, July and August. The dispensary was inspected by Mr. A. Dádábhái, the Chief Medical Officer, Cutch State, in May. The total cost was Rs. 2,616-13-7 and the cost per patient Re. 0-4-6, as compared with Rs. 2,687-10-1 and Re. 0-4-11 in 1891 and Rs. 16,307-2-0 and Re. 1-10-1 in 1890.

CUTCH-ANJA'R.—*In charge of* Mr. ATMA'RA'M KESHAV.

The building is in good repair. Furniture and fittings are sufficient. Conservancy is well attended to by the Municipality. The water-supply is good and abundant. The total treated was 69 in-door and 15,026 out-door patients against 59 and 14,821 in 1891 and 62 and 15,961 in 1890. The prevailing diseases were ague, worms, diseases of the eye and ear, respiratory and digestive systems and skin, abscess and ulcers. Cholera prevailed in July, August and September. In the town of Anjár alone there were 121 cases. Nine major surgical operations were performed. The State vaccinator carries on the work of vaccination. The total cost was Rs. 3,138-11-4 and the cost per patient Re. 0-3-1, against Rs. 3,097-1-5 and Re. 0-3-3 in 1891 and Rs. 3,240-3-7 and Re. 0-3-2 in 1890.

CUTCH-NALIYA.—*In charge of* Mr. MANISHANKAR.

The building, a hired one, is unsuituable for a dispensary. The conservancy of the town is fairly attended to. The water-supply is derived from tanks and wells and is of good quality. The total treated was 5,405 out-door patients as compared with 5,646 in 1891 and 5,446 in 1890. The most common complaints were malarious fevers, worms, diseases of the eye, ear and skin and respiratory affections. Vaccination is carried on by the State-vaccinator. The total cost was Rs. 1,653-2-3 and the cost per patient Re. 0-4-11, against Rs. 1,555-11-5 and Re. 0-4-4 in 1891 and Rs. 1,383-14-6 and Re. 0-4-0 in 1890.

CUTCH-RA'PUR.—*In charge of* Mr. RA'OJI JA'DAOJI.

The building is in good repair. The sanitation is well looked after. The water-supply is sufficient and of good quality. The total treated was 43 in-door and 4,561 out-door patients as compared with 50 and 4,577 in 1891 and 48 and 3,973 in 1890. The prevailing diseases were ague, worms, ophthalmia, skin diseases, ulcers and rheumatic affections. There was no epidemic. The total cost was Rs. 1,478-3-11 and the cost per patient Re. 0-5-2, against Rs. 1,597-10-6 and Re. 0-5-6 in 1891 and Rs. 1,355-11-4 and Re. 0-5-4 in 1890.

CUTCH-BACHAO.—*In charge of* Mr. LAKHAMSI TULSIDA'S.

The building is in good repair. The furniture and fittings are sufficient. There is no committee. The water-supply is sufficient and good. The sanitary condition of the town

is fair. The total treated was 5,158 out-door patients as compared with 3,403 in 1891 and 4,522 in 1890. The prevailing diseases were skin affections, ophthalmia, fevers and ulcers. Cholera prevailed in an epidemic form in the western part of the province. One major surgical operation was performed. Vaccination is conducted by the State vaccinator. The total cost was Re. 1,242-4-6 and the cost per patient Re. 0-3-10, against Rs. 1,067-13-4 and Re. 0-5-0 in 1891 and Rs. 1,029-7-9 and Re. 0-3-7 in 1890.

CUTCH-MUNDRA.—*In charge of* Hospital Assistant HIRJI HUNSRA'J.

The building is in bad repair. The funiture and fittings are in good order. A dead-house is wanted. The town is kept clean by the Municipality. The water-supply is good and abundant. The total treated was 95 in-door and 9,617 out-door patients against 90 and 10,499 in 1891 and 75 and 10,028 in 1890. The most common diseases were ague, worms, conjuctivitis, respiratory and digestive affections, ulcers and skin diseases. Cholera prevailed in the middle of the year. 17 cases were treated in the dispensary. Vaccination is carried on by two State vaccinators. Nearly 2,840 children were vaccinated. Three major surgical operations were performed. The total cost was Rs. 2,038-9-0 and the cost per patient Re. 0-3-4, as compared with Rs. 2,279-4-0 and Re. 0-3-5 in 1891 and Rs. 2,472-7-0 and Re. 0-3-10 in 1890.

CUTCH NA'RA'YEN SAROVAR.—*In charge of* Mr. MULJI HARIRA'M THA'KOR.

The building, a hired one, is in good repairs, but not suitable for a dispensary. The necessary furniture has been supplied by the State. The sanitary condition of the town requires much improvement. The water-supply is from the tank and is abundant. The total treated was 3,862 out-door patients as compared with 3,720 in 1891 and 2,984 in 1890. The prevailing diseases were malarial fevers, rheumatism, bronchitis, ophthalmia, dyspepsia and skin diseases. Cholera prevailed in the town and the surrounding district in June, July and August. Two major surgical operations were performed. Vaccination is carried out by the State vaccinator. The total cost was Rs. 902-15-8 and the cost per patient Re. 0-3-9, as compared with Rs. 1,097-12-9 and Re. 0-4-8 in 1891 and Rs. 990-1-3 and Re. 0-5-3 in 1890.

MHOW.

ENDOWED DISPENSARY.

DORA'BJI PESTONJI DISPENSARY, MHOW.—*In charge of* Surgeon-Captain T. H. GRIFFITH, M.B., C.M.

The building is in excellent order. This year separate dwelling has been constructed for the Hospital Assistant, his old quarters converted into a ward for women and the old ward for women used as an additional ward for males. The cleanliness and conservancy of the town are most carefully attended to. The water-supply is good and abundant. The total treated was 9,244 out-door and 66 in-door patients as compared with 9,352 and 79 in 1891 and 9,480 and 82 in 1890. The prevailing diseases were malarial fevers, respiratory affections, bowel-complaints, ophthalmia, skin diseases and local injuries. Small-pox prevailed during February, March and April, but was not of a virulent type. Two major surgical operations were performed. The total cost was Rs. 2,568-1-4 and the cost per patient Re. 0-4-5, as compared with Rs. 2,785-4-4 and Re. 0-4-8 in 1891 and Rs. 2,627-3-4 and Re. 0-4-4 in 1890.

In administrative charge of Surgeon-Colonel P. S. TURNBULL, M.D., Principal Medical Officer, Sind District.

KARA'CHI COLLECTORATE.

CIVIL HOSPITAL, KARA'CHI.—*In charge of* Brigade-Surgeon Lieutenant-Colonel G. BAINBRIDGE, M.D.

Conservancy.—This is properly attended to, and no changes have been made.

Water-supply.—This still seems to be of good quality. Two additional pipes have been laid on to the Apothecary's and Hospital Assistant's quarters. The quantity is amply sufficient.

Hospital buildings.—In good order. The paving of the wards and verandah floors was completed, the verandah of the central block enclosed by a neat teakwood railing, an office for the Civil Surgeon formed by dividing the central hall, out of which also a waiting room for patients and a dispensary was formed by railing it off, giving the whole a neat and business-like appearance. The Hospital Assistant's quarters were improved by adding a verandah to them and two servants' quarters were erected. The lighting and ventilation of the mortuary was improved.

Health of the town.—Was unsatisfactory, due to an unusual amount of sickness in the town and district caused by the prevalence of malarial fevers, influenza, cholera, small-pox and measles.

Attendance of patients.—882 in-door and 7,883 out-door against 975 and 9,054 in 1891 and 802 and 7,901 in 1890.

Prevailing diseases.—Malarial fevers, dysentery, diarrhœa, cholera, conjunctivitis and bronchitis.

Surgical operations.—83 major and 890 minor against 60 and 1,141 in 1891. Of the former the most important were litholapaxies, lateral lithotomies, herniotomies, ovariotomy and large amputations. The operation for ovariotomy done on June 5th resulted in the woman's death on the third day. The cyst was very large and had contracted rather extensive and firm adhesions to the parietes of the abdomen.

Mortality.—There were 80 deaths among in-door patients against 52 in 1891. The increase was mainly attributable to cholera and diarrhœa, which together caused 22 deaths, and bronchitis and privation also contributed to swell the roll. Thirty-two of the deaths occurred within two days after the patients' admission.

Medico-legal cases.—5 *post-mortem* examinations were held and 15 cases of poisoning were admitted against 3 and 36 in 1891.

Vaccination.—Is well carried out by the municipal vaccinators under the control of the Sanitary Department.

Conduct of establishment.—Has been on the whole satisfactory.

Cost.—The total cost was Rs. 12,342-11-8 and the cost per patient Rs. 1-6-6, against Rs. 20,728-10-1 and Rs. 2-1-0 in 1891 and Rs. 20,518-3-2 and Rs. 2-5-8 in 1890. The average cost of each diet for Europeans was Re. 0-8-8 and for Natives Re. 0-3-8, as compared with Re. 0-5-9 and Re. 0-2-9 in 1891 and Re. 0-5-8 and Re. 0-2-9 in 1890. The charges for dieting in 1892 were increased owing to the admission of an unusual number of pauper cases requiring extra food.

GOVERNMENT DISPENSARY.

MANORA.—*In charge of* Assistant Surgeon E. MACKENZIE, Honorary Assistant Surgeon to His Excellency the Viceroy.

The building remains the same as last year. There is no committee. The total treated was 5,313 out-door patients as compared with 5,115 in 1891 and 4,288 in 1890. The chief diseases were intermittent fevers, diseases of the digestive system and lungs, rheumatism and local injuries. Three major surgical operations were performed. Cholera prevailed in an epidemic form in Karáchi. There were 1,234 attacks with 974 deaths. General health of the people at Manora however continued good. The Assistant Surgeon as Health Officer of the Port granted bills of health to 170 out-going vessels. Ten steamers and 214 country crafts from different places were inspected for infectious diseases. Four cases of small-pox and 3 of cholera were treated in the Quarantine Hospital. 47 samples of mineral oil were tested, of which 33 were petroleum (2 being samples of gasoline) and the rest of lubricating oils. The

dispensary was inspected by the Principal Medical Officer, Sind District, in February, and by the Civil Surgeon, Karáchi, in November. The total cost was Rs. 4,592-2-7 and the cost per patient Re. 0-13-10, as compared with Rs. 4,827-12-11 and Re. 0-15-1 in 1891 and Rs. 5,163-10-2 and Rs. 1-3-3 in 1890.

MUNICIPAL DISPENSARIES.

BACHUBA'I EDALJI DINSHAW DISPENSARY, KEAMARI.—*In charge of* Mr. F. A. DESOUZA, L.R.C.P.

The building is in good repair, necessary annual repairs having been lately carried out. Furniture and fittings are sufficent. The sanitary condition of the town was indifferent. The water-supply is good. The committee visited the dispensary once during the year. The total treated was 17 in-door and 5,589 out-door patients against 18 and 5,546 in 1891 and 15 and 4,927 in 1890. The most common diseases were remittent fevers, conjunctivitis, rheumatism, ulcers, boils and local injuries. Small-pox and cholera prevailed, of the latter 57 cases were treated. One major surgical operation was performed. Vaccination is carried out by the Sanitary Department. The dispensary was inspected on 17th February by the Principal Medical Officer, Sind District, and on 16th November by the Civil Surgeon, Karáchi. The total cost was Rs. 2,059-7-11 and the cost per patient Re. 0-5-11, as compared with Rs. 2,329-4-9 and Re. 0-6-8 in 1891 and Rs. 2,068-6-3 and Re. 0-6-8 in 1890.

EDALJEE DINSHAW DISPENSARY, SADAR BAZA'R, KARA'CHI.—*In charge of* Hospital Assistant P. RODRIGUES.

The dispensary building is in a good state of repair. The committee visited the dispensary every month. The sanitary condition is fairly good. The water-supply is from Malir; it is good and abundant. The total number treated was 14,768 out-door patients as compared with 14,050 in 1891 and 12,734 in 1890. The prevailing diseases were intermittent fever, conjunctivitis, boils, catarrhal bronchitis, rheumatism, inflammation of external ear, diarrhœa and dysentery. Measles and influenza prevailed in January, February, and March; 17 cases of small-pox from January to March and 44 cases of cholera with 27 deaths from June to September. Four major surgical operations were performed. Vaccination is carried on by the Sanitary Department. The dispensary was inspected by the Principal Medical Officer, Sind District, in November, and by the Civil Surgeon, Karáchi, in December. The total cost was Rs. 2,356-5-2 and the cost per patient Re. 0-2-7, as compared with Rs. 1,593-12-11 and Re. 0-1-9 in 1891 and Rs. 2,004-8-8 and Re. 0-2-6 in 1890.

BANDAR ROAD DISPENSARY, KARA'CHI.—*In charge of* Hospital Assistant SHIU PIRA'JI.

The dispensary buildings are in a good state of repair. The committee visited the dispensary three times. The sanitary condition of the city is fairly good. The water-supply is from Mullir; it is good and sufficient. The total number treated were 11,976 out-door patients as compared with 12,160 in 1891 and 12,156 in 1890. The prevailing diseases were malarial fevers, rheumatism, respiratory affections, inflammation of external meatus, stomach and bowel-complaints, ulcer, cutaneous diseases and venereal affections. Cholera prevailed from June to September and also small-pox from February to April. Seven major surgical operations were performed. Vaccination is carried on by the Sanitary Department. The dispensary was inspected by the Principal Medical Officer, Sind District, in November, and by the Civil Surgeon, Karáchi, in December. The total cost in 1890 was Rs. 1,928-4-11 and the cost per patient Rs. 0-2-6, as compared with Rs. 2,322-7-10 and Re. 0-3-0 in 1891 and Rs. 1,925-2-3 and Rs. 0-2-7 in 1892.

LYA'RI DISPENSARY, KARA'CHI.—*In charge of* Hospital Assistant D. C. D'SILVA.

The dispensary building is in good repair. The committee visited the dispensary twice. The sanitary condition of the quarter is fairly good. The water-supply is from Malir; it is good and sufficient. The total number treated was 10,472 out-door patients as compared with 10,479 in 1891 and 9,788 in 1890. The prevailing diseases were malarial fevers, worms, rheumatism, conjunctivitis, inflammation of external meatus, bronchitis, catarrhal diarrhœa, scabies and ulcers. Cholera prevailed from June to September, and also small-pox in the months of February, March, April, November and December. Three major surgical operations were performed. Vaccination is carried on by the Sanitary Department. The dispensary was inspected by the Principal Medical Officer, Sind District, in February and November, and by the Civil Surgeon, Karáchi, in December. The total cost in 1890 was Rs. 1,430-8-8 and the cost per patient Re. 0-2-4, as compared with Rs. 938-11-8 and Re. 0-1-5 in 1891 and Rs. 1,150-10-0 and Re. 0-1-9 in 1892.

JAMNA'BA'I DISPENSARY, TATTA.—*In charge of* Assistant Surgeon J. B. UNWALA, L.M. & S.

The dispensary buildings are undergoing repair. A latrine with 4 seats and a mortuary on the standard plan have been constructed, the former in 1891 and the latter this year. The dispensary committee met five times. Individual members visited the dispensary

frequently. Conservancy and water-supply are unsatisfactory. The total number of patients treated was 10,573 out-door and 33 in-door as compared with 10,101 and 23 in 1891 and 9,695 and 21 in 1890. The prevailing diseases were malarial fevers, conjunctivitis, skin diseases, diseases of digestive system, ulcer and ear affections. 21 major surgical operations were performed. 55 cases of cholera with 44 deaths occurred. Vaccination is carried on by the municipal vaccinator. The dispensary was inspected by the Civil Surgeon, Karáchi, on 20th December, and by the Deputy Sanitary Commissioner on 28th February. The total cost was Rs. 2,983-9-8 and the cost per patient Re. 0-4-6, as compared with Rs. 2,786-10-11 and Re. 0-4-4 in 1891 and Rs. 2,881-14-0 and Re. 0-4-8 in 1890.

KETI BANDAR.—*In charge of* Hospital Assistant METHA'RA'M.

The dispensary buildings are in good state of repair. The furniture and fittings are insufficient. The committee visited the dispensary very irregularly. Some improvements have been done by providing the town with 20 more lamp-posts and some new portable iron latrines. The water-supply from the river Indus was abundant, but often brackish. To remedy this evil Rs. 5,000 were contributed by the Municipality towards clearing the river mouth at Titia Junction, but of no avail. Health of the town was fairly good. Only 94 cases of cholera occurred, out of which 56 resulted in death. The total treated was 11 in-door and 1,788 out-door patients against 6 and 1,755 in 1891 and 8 and 1,642 in 1890. The most common diseases were intermittent fever, cojunctivitis, ulcers and diseases of the skin and of the digestive and respiratory systems. 2 major and 82 minor surgical operations were successfully performed, and seven children were vaccinated during the period. The dispensary was visited by the Collector of Karáchi and the Commissioner in Sind once, and twice by the Assistant Collector, Jerruck Division, and inspected by the Civil Surgeon, Karáchi, in December. The total cost was Rs. 1,159-14-8 and the cost per patient Re. 0-10-4, against Rs. 1,176-1-6 and Re. 0-10-8 in 1891 and Rs. 957-9-8 and Re. 0-8-11 in 1890.

MIRPUR BATORO.—*In charge of* Hospital Assistant MAHOMED YUSSUF.

The dispensary building is in good repair. Furniture and fittings are sufficient. The dispensary committee meets monthly. The sanitary condition of the town was good. Conservancy is well attended to. The water-supply is ample and good. The total treated was 2,373 out-door and 25 in-door patients against 2,311 and 29 in 1891 and 2,707 and 20 in 1890. The most common diseases were malarious fevers, conjunctivitis, bronchitis, diarrhœa and ulcers. Cholera prevailed epidemically in the town. Out of 251 cases, 206 succumbed to death. Vaccination is carried out by the táluka vaccinator. Three *post-mortem* examinations were made. One major surgical operation was performed. The dispensary was inspected by the Civil Surgeon, Karáchi, and by the Deputy Sanitary Commissioner once during the year. The total cost was Rs. 1,086-10-1 and the cost per patient Re. 0-7-3, against Rs. 1,519-13-8 and Re. 0-10-4 in 1891 and Rs. 878-0-10 and Re. 0-5-1 in 1890.

GRANT-IN-AID DISPENSARIES.

KOTRI.—*In charge of* Hospital Assistant P. D. TALA'TI.

The building is located in the old mukhtiárkárate. It is in every way unfit for a dispensary and a new building on standard plan B will shortly be constructed. The committee visited the dispensary five times. The Vice-President and Chairman visited the dispensary very often and other members occasionally. The water-supply is good and abundant. It is supplied from the river Indus. The total treated was in-door 74 and 8,286 out-door patients as compared with 92 and 8,507 in 1891 and 72 and 7,714 in 1890. The principal diseases were dysentery, malarial fevers, diseases of the lungs, diarrhœa and ulcers. Cholera of a severe type prevailed in the town and district from the 28th June to 2nd October. In the town and municipal limits 131 cases occurred, out of which 81 died. The cases were actually seen and treated by me. Cholera of a severe type prevailed throughout the district. Eleven major operations were performed. Six *post-mortem* examinations were held. Vaccination is performed by the táluka vaccinator. The dispensary was inspected by the Principal Medical Officer, Sind District, in January and December; by the Deputy Sanitary Commissioner in February and December, and by the Civil Surgeon, Karáchi, in December. The total cost was Rs. 2,148-10-8 and the cost per patient Re. 0-4-1, as compared with Rs. 1,280-3-5 and Re. 0-2-4 in 1891 and Rs. 1,571-15-11 and Re. 0-3-2 in 1890.

JERRUCK.—*In charge of* Hospital Assistant NA'RA'YEN LAXUMON.

The dispensary building is in good order. A dead-house and a cook-room for in-patients are needed. The committee meets regularly every month. The conservancy of the town is fairly good. The water-supply from the River Indus is good and abundant. The total treated was 2,148 out-door and 3 in-door patients as compared with 1,841 and 4 in 1891 and 1,818 and 4 in 1890. The most common diseases were malarial fevers, conjunctivitis, bowel-complaints, skin diseases and ulcers. Cholera prevailed in the town during the months of June and July. Vaccination is conducted by the táluka vaccinator. One major surgical operation was performed. The dispensary was inspected by the Deputy Sanitary Commissioner, Sind Registration District, on the 23rd February, and by the Civil Surgeon, Karáchi, on the 14th December. The total cost was Rs. 864-10-7 and the cost per patient Re. 0-6-5, as compared with Rs. 734-7-4 and Re. 0-6-4 in 1891 and Rs. 944-4-4 and Re. 0-8-3 in 1890.

PARUMAL KHUBCHAND DISPENSARY, SEHWAN.—*In charge of* Hospital Assistant TUKA'RA'M PANDARINA'TH.

The buildings and out-houses require repair; the furniture and fittings are sufficient. The committee meets regularly. The sanitary condition of the town is fairly satisfactory. The water-supply is from the river Indus in the inundation season and from wells and the Manchar Lake in winter. It is good and ample. The total treated was 7,738 out-door and 118 in-door patients as compared with 7,092 and 162 in 1891 and 5,364 and 72 in 1890. The prevailing diseases were malarial fevers, rheumatic affections, eye diseases, respiratory affections, skin diseases and ulcers. Cholera prevailed epidemically in town and district. There were 128 cases. Three major surgical operations were performed. Vaccination was carried out by the Sanitary Department. Five *post-mortem* examinations were held. The dispensary was inspected in January and December by the Principal Medical Officer, Sind District, twice by the Deputy Sanitary Commissioner, Sind Registration District, and in December by the Civil Surgeon, Karáchi. The total cost was Rs. 2,228-12-8 and the cost per patient Re. 0-4-6, as compared with Rs. 1,868-7-6 and Re. 0-4-1 in 1891 and Rs. 1,677-8-3 and Re. 0-4-11 in 1890.

THANO BULAKHAN.—*In charge of* Hospital Assistant DAYA'RA'M DANDUMAL.

The dispensary buildings and medical subordinates' quarters are in a good state of repair. A dead-house and a compound wall are much needed. Furniture and fittings are sufficient for the purpose. The committee visited the dispensary thrice during the year. The water-supply from wells is good and abundant. The total number of patients treated was 8 in-door and 1,787 out-door as compared with 4 and 2,066 in 1891 and 3 and 1,539 in 1890. The most common diseases were malarial fevers, ophthalmia, diseases of digestive system and ear, ulcers and skin diseases. There was no epidemic in the town or its vicinity. One *post-mortem* examination was performed. Six major surgical operations were performed. The dispensary was inspected by the Civil Surgeon, Karáchi, on the 13th December, by the Collector, Karáchi, on 21st November, by the Deputy Sanitary Commissioner, Sind District, on the 9th November, and by the Assistant Collector, Sehwan, on 27th June. The total cost was Rs. 1,096-0-11 and the cost per patient Re. 0-9-9, as compared with Rs. 832-12-9 and Re. 0-6-5 in 1891 and Rs. 810-0-9 and Re. 0-8-4 in 1890.

HYDERABAD COLLECTORATE.

CIVIL HOSPITAL, HYDERABAD.—*In charge of* Brigade Surgeon Lieutenant-Colonel J. F. KEITH, M.D., C.M.

Conservancy.—The conservancy of the town is fairly well looked after by the Municipality, for which purpose a sufficient number of scavengers with a due proportion of Muccadums and Inspectors is maintained. Night-soil from the public latrines (of which there are 13 in number) is removed to a distance to two manure depôts to the north-east and south-east of the city, where it is buried in pits for some months or a year.

Water-supply.—From the River Indus is good and abundant.

Hospital buildings.—No addition or alteration was made, a new Civil Hospital and Medical School has been sanctioned by Government and will be built shortly.

General health.—Was very bad. An epidemic of cholera broke out in June and lasted up to September, during which period 890 cases occurred with 633 deaths. During the months of September, October and November fevers of intermittent and remittent types also largely prevailed, owing to the River Indus having risen unusually high and completely submerged all the low-lying ground around the plateau on which the town is situated.

Attendance of patients.—13,481 out-patients and 901 in-patients against 14,168 and 811 in 1891 and 14,739 and 712 in 1890.

Prevailing diseases.—Intermittent fever, conjunctivitis, inflammation of the external ear, bronchitis, abscess, boils, eczema, ulcers and vesical calculus.

Surgical operations.—511 major operations were performed, of which 328 were for litholapaxy, 45 for perineal lithotrity, 3 for lithotomy, 35 for amputations and 7 for paracentesis of abdomen. Minor operations numbered 2,076 against 2,531 in 1891.

Mortality and causes.—38 deaths occurred in the hospital, due to diarrhœa 11, calculus of the bladder 7, dysentery 4, pneumonia 3, ascitis and mycetoma 2 each, remittent fever, lipoma, pericarditis, acute bronchitis, asthma, obstruction of the intestine, caries of foot, ununited fracture of leg and compound fracture of femur 1 each.

Vaccination.—Is conducted by the public vaccinator under the directions of the Deputy Sanitary Commissioner, Sind Dirtrict, but he is paid by the Municipality.

Medico-legal.—3 human bodies and 4 other medico-legal cases were examined at the request of the police authorities, and several persons were brought up for examination on account of hurt and grievous hurt.

Conduct of hospital establishment.—Assistant Surgeons T. H. Aquino and J. E. Bocarro, teachers of the Medical School, Hyderabad, have performed their clinical duties in

the hospital satisfactorily. First Class Hospital Assistant E. Jacob is diligent and has given, as usual, entire satisfaction.

Cost.—The total cost was Rs. 4,449-2-8 and the cost per patient Re. 0-4-11, as compared with Rs. 15,852-11-8 and Rs. 1-0-11 in 1891 and Rs. 15,370-0-6 and Re. 0-15-11 in 1890.

GRANT-IN-AID DISPENSARIES.

TA'NDO ALAHYAR.—*In charge of* Hospital Assistant PARMA'NAND VISHANDA'S.

The dispensary buildings are much in want of repair. Furniture, &c., is sufficient. The dispensary committee met seven times. The town is a municipal one. General health of the town and district was good. Sanitary conditions of the town and district satisfactory. Conservancy fairly well attended to by the Municipality. Water-supply, from wells and canals, was abundant and of good quality. The total number of patients treated was 4,278 out-door and 30 in-door against 4,164 and 35 in 1891 and 3,951 and 22 in 1890. The increase during the last two years is due to the winter being unhealthy and appearance of cholera in summer of 1892. The most common diseases were simple, continued and intermittent fevers, rheumatism, diseases of the eye and ear, chronic bronchitis, caries tooth, dyspepsia, diseases of the skin and ulcer. Cholera occurred during the year, 61 cases with 24 deaths. The death-rate was very high among those who sought no medical aid. The dispensary was inspected by the Civil Surgeon, Hyderabad, in September, Deputy Sanitary Commissioner in February, and by the Collector of Hyderabad in December. Four major surgical operations were performed. Vaccination is carried on by the táluka vaccinator. The total cost was Rs. 1,328-15-2 and the cost per patient Re. 0-4-11, as compared with Rs. 900-8-2 and Re. 0-3-5 in 1891 and Rs. 1,521-9-7 and Re. 0-6-1 in 1890.

TA'NDO MUHAMAD KHA'N.—*In charge of* KHIA'MAL HASHMATRA'I.

The buildings are under repair. A house for the dispensary servant is under construction. The committee met ten times. The conservancy of the town is fairly good. The water-supply is good and abundant. The total treated was 5,137 out-door and 25 in-door patients as compared with 5,703 and 24 in 1891 and 4,455 and 38 in 1890. The most common diseases were conjunctivitis, malarial fevers, bowel-complaints, ulcers, skin diseases and inflammation of the ear. There were 65 cases of cholera in the town with 45 deaths. One major surgical operation was performed. Six *post-mortem* examinations were made. Vaccination is conducted by the Local Fund vaccinator. The dispensary was inspected by the Civil Surgeon, Hyderabad, in June, and by the Deputy Sanitary Commissioner in December. The total cost was Rs. 1,037-2-7 and the cost per patient Re. 0-3-3, against Rs. 1,046-6-8 and Re. 0-2-11 in 1891 and Rs. 1,179-0-10 and Re. 0-4-2 in 1890.

HA'LA.—*In charge of* Hospital Assistant THA'KURDA'S PHABIASING.

The dispensary buildings are in good state of repair. The furniture and fittings, though old, are in good condition and sufficient. The dispensary committee composed of 4 members, with the Mukhtiárkar at their head, held monthly meetings and took great interest and care in the welfare of the dispensary. The town was kept clean and every measure for cleanliness was attended to. The public latrines were kept clean and dry earth system was carried out. The private latrines were kept clean. Water was good and plentiful. The people use well water throughout the year, though some who are close to the canal use canal water. The diseases causing the largest number of admissions were malarial fevers, rheumatic affections, ophthalmia, respiratory affections, diarrhœa, diseases of connective tissue and skin, ulcer, local injuries and cholera. Cholera made its appearance in Hála Táluka; 1,120 cases occurred in the Hála Táluka, out of which 899 cases proved fatal. Out of these, 131 cases occurred in the Hála town and 75 died. The total treated was 10 in-door and 3,166 out-door patients as compared with 12 and 3,214 in 1891 and 12 and 3,374 in 1890. Fifteen *post-mortem* examinations were performed and opinion given in several other cases. Eight major surgical operations were performed. The dispensary was inspected by the Deputy Sanitary Commissioner, Sind District, in December, and by the Civil Surgeon, Hyderabad, in February. The total cost was Rs. 967-8-2 and the cost per patient Re. 0-4-10, against Rs. 980-5-1 and Re. 0-4-10 in 1891 and Rs. 941-2-5 and Re. 0-4-5 in 1890.

THA'RU SHA'H.—*In charge of* Hospital Assistant REUBEN SUDKIEL.

The buildings require repairs. The dispensary committee held seven meetings and individual members frequently visited the institution. Sanitary condition of the town is on the whole fairly good. The water-supply from wells is abundant and good but is liable to contamination. The total treated was 3,305 out-door and 41 in-door patients as compared with 3,739 and 56 in 1891 and 3,164 and 30 in 1890. The prevailing diseases were intermittent fevers, conjunctivitis, bronchitis and ulcers. Cholera prevailed in the town. Seven major surgical operations were performed. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Deputy Sanitary Commissioner, Sind District, in January, and by the Civil Surgeon, Hyderabad, in February. Five *post-mortem* examinations were made for the police and opinion was given in several medico-legal cases. The total cost was Rs. 1,399-9-6 and the cost per patient Re. 0-6-8, as compared with Rs. 1,128-13-6 and Re. 0-4-9 in 1891 and Rs. 1,209-15-10 and Re. 0-6-0 in 1890.

MIRPUR KHA'S.—*In charge of* Hospital Assistant S. ABDUL RAYMAN.

The building and its out-houses are in good repair but wards are not sufficiently ventilated. The furniture is not sufficient and utensils for in-patients are wanted. The committee meets every month regularly and individual members frequently visit the institution. The sanitary condition of the town is fair. The water-supply is good and abundant. The total treated was 5,222 out-door and 22 in-door patients as compared with 4,575 and 19 in 1891 and 3,596 and 18 in 1890. The prevailing diseases were malarious fevers, ophthalmia, ulcers, respiratory affections, skin diseases and bowel-complaints. There was no epidemic in the town itself, but 144 cases of cholera with 89 deaths are said to have occurred in the surrounding villages during the months of July and August. Vaccination is carried on by the Local Fund vaccinator. There were 62 primary and 6 re-vaccinations. 5 major and 158 minor surgical operations were performed. Opinion was given in three medico-legal cases. The dispensary was inspected by the Civil Surgeon of Hyderabad in September and by the Deputy Sanitary Commissioner, Sind Registration District, in February last. The total cost was Rs. 1,590-15-7 and the cost per patient Re. 0-4-10, as compared with Rs. 1,057-8-6 and Re. 0-3-8 in 1891 and Rs. 1,118-1-9 and Re. 0-4-11 in 1890.

BOULTON DISPENSARY, TA'NDO BAGO.—*In charge of* Hospital Assistant BHUMA'YA POACHATTY.

The building is in good repair. Quarters for dispensary servant and a cook-room for in-door patients are needed. Furniture and fittings are in good condition. The dispensary committee meet regularly once a month and submit their quarterly reports to the Collector of the district. The sanitary condition of the town is not satisfactory. Water-supply from canals and wells is abundant, but that from wells is liable to contamination. The total treated was 63 in-door and 2,496 out-door patients, against 66 and 2,526 in 1891 and 91 and 2,782 in 1890. The most common diseases were malarial fevers, conjunctivitis, bowel-complaints, respiratory affections and ulcers. Cholera appeared in the town on the 23rd June: 24 cases were treated in the dispensary, of which 12 died. In all 321 cases were reported in the whole táluka, of which 250 were fatal. 2 major and 220 minor surgical operations were performed. Vaccination is carried out by the táluka vaccinator. Five *post-mortem* examinations were held at the request of the police. The dispensary was inspected by the Civil Surgeon, Hyderabad, on 8th June, and by the Deputy Sanitary Commissioner on 30th December. The total cost was Rs. 1,034-13-2 and the cost per patient Re. 0-6-6, against Rs. 1,069-1-3 and Re. 0-6-7 in 1891 and Rs. 883-9-4 and Re. 0-4-11 in 1890.

BADIN.—*In charge of* Hospital Assistant CHOITRA'M DULAMAL.

The dispensary was opened on the 21st July 1892. The building is old and unsuitable for its purpose. The furniture is insufficient. The dispensary committee met once during the year. The total treated was 900 out-door and 19 in-door patients. The prevailing diseases were intermittent fever, rheumatism, bronchitis and ulcers. There were 23 cases of cholera in the town with 19 deaths. 2 major and 47 minor surgical operations were performed. The dispensary was inspected by the Civil Surgeon and the Assistant Collector, Hyderabad, in December. The total cost was Rs. 2,113-0-7 and the cost per patient Rs. 2-4-9.

MUNICIPAL DISPENSARIES.

TA'NDO ADAM.—*In charge of* Hospital Assistant TIRITHDA'S KHA'NCHAND.

The dispensary building is a good one and well situated for the purpose. The furniture is in a good condition. The committee visited the dispensary every month regularly. The town was kept fairly clean. The conservancy was attended by the Municipality and was in a fair state. The water-supply was wholesome and plentiful. This town was also supplied with river water in the summer through the large tank lying on the western side of the town. The total treated was 4,280 out-door and 48 in-door patients as compared with 4,107 and 41 in 1891 and 3,505 and 50 in 1890. The diseases causing the largest number of admissions were malarial fevers, conjunctivitis, ulcers and skin diseases. Cholera prevailed in the town in the months of July and August. Thirty-seven cases were reported with 18 deaths. Six major surgical operations were performed. The dispensary was inspected by the Deputy Sanitary Commissioner, Sind District, in January, by the Civil Surgeon, Hyderabad, in March, and by the Collector of Hyderabad in December. Vaccination was performed in the town and in the district by the táluka vaccinator. Six *post-mortem* examinations were made. The total cost was Rs. 1,008-4-6 and the cost per patient Re. 0-3-9, against Rs. 1,183-7-1 and Re. 0-4-6 in 1891 and Rs. 902-2-7 and Re. 0-4-0 in 1890.

VICTORIA JUBILEE DISPENSARY, HYDERABAD.—*In charge of* Mr. TA'RA'CHAND, L.M. & S.

The dispensary is included in this report for the first time. The buildings are in a good condition. The conservancy of the town is carried out under the orders of the Municipal Engineer and Secretary, for which purpose a staff of Head Inspector, Sub-Inspectors, Muccadams and sweepers is maintained by the Municipality. Water-supply is wholesome and abundant from the River Indus, raised by means of three steam-pumps,

A large sized centrifugal steam-pump raises water from the river, which is delivered into an aqueduct leading to two depositing reservoirs, whence it is conveyed into the city through several pipes. The general health of the town was worse than the previous two years. Cholera broke out and carried off 633 out of 890 persons attacked. There was much of malarial fever owing to the river rising considerably and flooding the surrounding country to a great extent. The total treated was 18,231 out-door patients against 17,218 in 1891 and 18,315 in 1890. The prevailing diseases were intermittent fever, conjunctivitis, diarrhœa, dysentery, boils, ulcers, caries tooth, and chronic inflammation of the external ear. 56 major and 1,778 minor surgical operations were performed. Vaccination is performed by the municipal vaccinator under the orders of the Deputy Sanitary Commissioner. The total cost was Rs. 3,319-1-0 and the cost per patient Re. 0-2-11, against Rs. 3,762-13-7 and Re. 0-3-5 in 1891 and Rs. 3,683-0-7 and Re. 0-3-2 in 1890.

EMPRESS DISPENSARY, GIDU BANDAR.—*In charge of* Mr. NEBHRA'J.

The dispensary is included in this report for the first time. It is located in a municipal building erected for the purpose. There is only one room with verandahs all round and a store-room. There are no examination room, wards for in-door patients or quarters for the medical officer. Members of the committee visited the dispensary occasionally. The sanitary condition of the town is fair. The water-supply is from the River Indus and is good and abundant. The total treated was 5,289 out-door patients against 3,724 in 1891 and 3,364 in 1890. The most common diseases were malarial fevers, dysentery, rheumatic and respiratory affections, diseases of the skin, eye and ear, dyspepsia, ulcers and local injuries. Cholera prevailed in the town and surrounding villages. There were 44 cases with 34 deaths. One major surgical operation was performed. Vaccination is conducted by a public vaccinator. The dispensary was inspected by the Civil Surgeon, Hyderabad, in December. The total cost was Rs. 958-13-10 and the cost per patient Re. 0-2-11.

LOCAL FUND DISPENSARIES.

MORO.—*In charge of* Mr. MANGHOMMALL.

The dispensary is included in this report for the first time. The buildings are in good repair. Furniture and fittings are sufficient and in good order. The dispensary committee visited the dispensary once every month. Sanitation is well attended to. The water-supply is from wells and is good and abundant. The total treated was 3,668 out-door and 21 in-door patients against 5,319 and 10 in 1891. The prevailing diseases were intermittent fevers, rheumatism, conjunctivitis, bronchitis, diseases of the respiratory and digestive systems, abscesses and ulcers. Cholera was prevalent in the vicinity of the town, attacking 113 persons, of whom 76 died. There were 2 major and 420 minor surgical operations performed. Vaccination is attended to by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, the Collector and the Commissioner in Sind. The total cost was Rs. 1,123-7-8 and the cost per patient Re. 0-4-10.

NAUSHAHRO.—*In charge of* Mr. B. SOLOMON.

The dispensary, though opened on 25th March 1889, is included in this report for the first time. The building is in good repair. A room for in-door patients, a *post-mortem* room, and servants' quarters are wanted. Furniture and fittings are incomplete. The sanitary condition of the town is good. The water-supply is from wells and is good and ample. The committee held ten meetings. The total treated was 5,650 out-door patients. The prevailing diseases were fevers, conjunctivitis, diseases of the ear, skin, and digestive and respiratory systems. Vaccination is carried on by a táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Hyderabad, in January, and visited by the Commissioner in Sind and the Collector of Hyderabad in February. The total cost was Rs. 1,335-5-1 and the cost per patient Re. 0-3-9.

THAR AND PA'RKAR.

GRANT-IN-AID DISPENSARIES.

UMARKOT.—*In charge of* Hospital Assistant BA'LLA'JI CADDAM.

The dispensary building is well situated and ventilated. There is no accommodation for female patients. The town has always been kept clean by the Municipality, no filth or rubbish being allowed to accumulate. The water-supply is abundant and of a good quality. The dispensary committee visited the dispensary often. The total treated was 3,903 out-door and 208 in-door patients against 2,781 and 186 in 1891 and 3,278 and 153 in 1890. The prevailing diseases were dysentery, malarial fevers, rheumatic affections, diseases of the eye, diseases of the respiratory and digestive systems, skin diseases and ulcers. There were 4 major and 165 minor surgical operations. Six medico-legal cases were examined. Vaccination is carried on by the Local Fund vaccinator. The dispensary was inspected by the Civil Surgeon, Hyderabad, on 29th December. The total cost was Rs. 1,996-12-10 and the cost per patient Re. 0-7-9, as compared with Rs. 1,771-13-3 and Re. 0-9-6 and Rs. 1,603-0-8 and Re. 0-7-5 in 1890.

KHIPRA.—*In charge of* Hospital Assistant TECKCHAND RACHUMAL.

The dispensary building is in a good state of repair, but is quite unsuitable for a dispensary. The furniture is in good order. The committee met thrice. The general health of the town was fair. Sanitation is well attended to. The water-supply is from a well and is good and sufficient. The total number of patients treated was 3,552 out-door and 47 in-door against 3,255 and 49 in 1891 and 3,118 and 49 in 1890. The dispensary was inspected by the Deputy Commissioner, Thar and Párkar, by the Deputy Collector, Nára Valley, and by the Deputy Sanitary Commissioner. 1 major and 322 minor surgical operations were performed. Vaccination was performed throughout by the táluka vaccinator. At the request of the police six dead bodies were examined. The total expenditure was Rs. 1,254-9-9 and the cost per patient Re. 0-5-7, against Rs. 1,114-7-6 and Re. 0-5-4 in 1891 and Rs. 957-6-6 and Re. 0-4-10 in 1890.

MITTI.—*In charge of* Hospital Assistant NANDIRA'M RANGUMAL.

The dispensary buildings are in a good state of repair; the furniture in good order. The committee visited the dispensary often. The sanitary condition of the town was fair. The water-supply from wells is brackish. The total treated was 2,290 out-door and 56 in-door patients as compared with 2,694 and 55 in 1891 and 2,578 and 93 in 1890. The most common diseases were fevers, rheumatic affections, conjunctivitis, diseases of digestive system and skin, ulcers and abscess. Cholera prevailed in the village and táluka in July and 5 cases of small-pox occurred in the táluka in June. Vaccination was carried on by the táluka vaccinator. The total cost was Rs. 1,179-2-4 and the cost per patient Re. 0-8-1 as compared with Rs. 1,295-0-5 and Re. 0-7-6 in 1891 and Rs. 1,097-15-3 and Re. 0-6-6 in 1890.

NAGAR PA'RKAR.—*In charge of* Hospital Assistant TEJUMAL DHALA'MAL.

The buildings are in a fair state of repair. The furniture and fittings are in good order. The sanitary arrangement of the town on the whole was fair. Conservancy of the town was fairly attended to. The committee met regularly every month. The water-supply is from wells and is sufficient and of good quality. The total number treated was 1,723 out-door and 53 in-door patients against 1,633 and 62 in 1891 and 1,706 and 59 in 1890. The prevailing diseases were intermittent fevers, conjunctivitis, respiratory affections, diseases of the digestive system and skin and ulcers. Vaccination was carried on by the táluka vaccinator. 108 minor surgical operations were performed. The dispensary was inspected by the Deputy Commissioner and the Deputy Collector, Thar and Párkar. The total cost was Rs. 805-6-11 and the cost per patient Re. 0-7-3, as compared with Rs. 1,286-2-9 and Re. 0-12-1 in 1891 and Rs. 1,439-13-7 and Re. 0-13-0 in 1890.

CHACHRA.—*In charge of* Hospital Assistant GHIRDARILA'L DA'NA'JI.

The dispensary was opened in 1891. The town is kept fairly clean. Water-supply is sufficient from sweet and bitter wells. The dispensary building has not been constructed as yet. A tumble-down dharmshála is used as a dispensary building. The total treated was 73 in-door and 1,724 out-door patients against 39 and 851 in 1891. Ague, conjunctivitis, constipation, bronchitis and ulcers were the prevailing diseases. Cholera prevailed in the town and the táluka of Chachra in the month of July. Only one major surgical operation was performed. Two medico-legal cases were examined. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Deputy Commissioner and the Deputy Collector, Thar and Párkar, and by the Civil Surgeon, Hyderabad, on 28th December. The total cost was Rs. 1,180-0-2 and the cost per patient Re. 0-10-6, against Rs. 1,008-13-2 and Rs. 1-2-1 in the previous year.

SHIKA'RPUR COLLECTORATE.

CIVIL HOSPITAL, SHIKA'RPUR.—*In charge of* Surgeon-Captain H. C. L. ARNIM up to 4th April; Assistant Surgeon MULCHAND GANGA'RA'M till 22nd December; afterwards Surgeon-Major A. F. FERGUSON, M.B.

Conservancy.—Is fairly satisfactory. There are 4 Crawford latrines and 36 mud latrines, and it is hoped they will be kept clean now that the Halálcore cess has been introduced. Night-soil is now carried away in covered iron carts, which is a very great improvement. The streets, both paved and unpaved, are in a filthy state, most on account of people throwing their refuse water on them and to the outflow of drains from private cess-pools which empty themselves into the roadway.

Water-supply.—From wells, is good and abundant.

Hospital buildings.—Are in a satisfactory state.

General health.—Was tolerably fair, though cholera prevailed extensively in Upper Sind. Cholera imported from Sukkur gave 48 cases with 28 deaths.

Attendance of patients.—The total number of patients treated was 421 in-door and 4,038 out-door against 384 and 2,633 in 1891 and 402 and 3,037 in 1890.

Prevailing diseases.—Intermittent fever, ulcer, vesical calculus, dysentery, pneumonia, abscess, bronchitis, bowel-complaints, rheumatism and injuries.

Surgical operations.—30 major and 341 minor operations. Of the former the most important were 9 lithotrities, 7 lithotomies, 1 amputation of arm and 1 opening of large hepatic abscess.

Mortality and its causes.—There were 9 deaths, 3 from lobar pneumonia, 2 from spasmodic asthma, and 1 each from arsenical poisoning, fracture of skull, ascites and dysentery.

Medico-legal.—13 *post-mortem* examinations were held at the request of the police and opinion was given in 30 medico-legal cases.

Vaccination.—Is carried on by the municipal vaccinator and is favourably received. There were 1,273 primary vaccinations and 231 revaccinations, 1,251 being successful, 63 unsuccessful and 180 doubtful.

Conduct of establishment.—Is reported to be satisfactory.

Cost.—The total cost was Rs. 2,123-0-3 and the cost per patient Re. 0-7-7, against Rs. 7,308-12-1 and Rs. 2-6-9 in 1891 and Rs. 5,004-12-5 and Rs. 1-7-3 in 1890.

CIVIL HOSPITAL, SUKKUR.—*In charge of* Surgeon-Captain W. A. CORKERY till 1st May; Assistant Surgeon J. B. UNWA'LLA up to 13th May; afterwards Surgeon-Captain S. E. PRALL, M.B., B.S.

Conservancy and water-supply.—General sanitary condition of the town above ground is good. Underground the sewers have recently been discovered to be in very bad condition. Water-supply is from the River Indus and municipal and private wells. From the river the water is good, but requires to be treated with alum and filtered before using. From the wells it is bad, most of them being pollutted by soakage from neighbouring houses. Plans and estimates, both for an improved system of drainage and a water-supply with complete pipe service from the river, are under preparation and the work will be put in hand during the current year.

Hospital buildings.—Two main detached buildings. one for Europeans and another for Natives. The former has been repaired, re-roofed and two additional wards provided. A grant has been sanctioned for levelling the ground in front of the two hospitals and providing a new approach, both of which are much needed.

General health.—Was not satisfactory, there having been both an epidemic of cholera and high inundation with (for the locality) a heavy rainfall, causing a large number of admissions from malarial fevers.

Attendance of patients.—The total number treated was 314 in-door and 5,920 out-door patients against 312 and 6,285 in 1891 and 338 and 6,103 in 1890.

Prevailing diseases.—Malarial fevers, dysentery, respiratory affections and venereal diseases.

Mortality and its causes.—The total number of deaths was 25 against 22 in the previous year. The principal causes of deaths were cholera and dysentery 4 each, pneumonia 3, intermittent fever, secondary syphilis, chronic bronchitis, hœmorrhage, gastritis, hepatic abscess, inflammation and ascites 1 each, and calculi in the bladder and heat apoplexy and diarrhœa 2 each.

Surgical operations.—There were 62 major operations against 88 in 1891. The most important were lateral lithotomies, litholapaxies, supra-pubic lithotomies, amputations of the thigh and hepatic abscess.

Medico-legal.—64 cases against 70 in the previous year.

Vaccination.—Is carried out efficiently by the municipal vaccinator.

Conduct of establishment.—Very satisfactory. Hospital Assistants Shaik Shabuddin and Vithoba are well reported on.

Cost.—The total cost was Rs. 10,998-15-10 and the cost per patient Rs. 1-12-3, as compared with Rs. 10,379-9-5 and Rs. 1-9-2 in 1891 and Rs. 12,337-8-11 and Rs. 1-14-7 in 1890.

MUNICIPAL DISPENSARIES.

VICTORIA DISPENSARY, SHIKA'RPUR.—*In charge of* Hospital Assistant E. BENJAMIN.

The dispensary building was lately constructed and is an excellent one for the purpose. The dispensary committee meets every month. The sanitary and conservancy arrangements of the town are greatly improved. The water-supply is from wells and is ample and of good quality. The total treated was 17,623 out-door and 77 in-door patients against 16,824 and 67 in 1891 and 15,227 and 65 in 1890. The most common diseases were dysentery, intermittent

fever, conjunctivitis, inflammation of the ear, bronchitis and abscess. Twenty-two major surgical operations were performed. Vaccination is carried out by the Municipal Vaccinator under the Sanitary Department. The dispensary was inspected by the Principal Medical Officer, Sind District, in January and November, and by the Civil Surgeon, Sukkur, in December. The total cost was Rs. 2,268-11-2 and the cost per patient Re. 0-2-1, as compared with Rs. 2,646-5-7 and Re. 0-2-6 in 1891 and Rs. 3,492-7-9 and Re. 0-3-7 in 1890.

SUKKUR.—*In charge of* Hospital Assistant M. SHALOAMJI.

Buildings are in thorough repair. Furniture and fittings are complete and in good order. The committee met four times. Sanitation is well looked after by the Municipality. The water-supply is from the River Indus and is good and abundant. The total number of patients treated were in-door 67 and out-door 7,132 against 49 and 6,669 in 1891 and 58 and 7,129 in 1890. The prevailing diseases were malarial fevers, conjunctivitis, catarrh, inflammation of external meatus and cholera. There were 267 minor surgical operations. Vaccination is performed by the municipal vaccinator. The Civil Surgeon of the Station, the Principal Medical Officer, Sind District, the Deputy Sanitary Commissioner, Sind Circle, and the Sanitary Commissioner, Bombay, inspected the dispensary. The total cost was Rs. 2,162-13-1 and the cost per patient Re. 0-4-10 against Rs. 1,736-7-9 and Re. 0-4-1 in 1891 and Rs. 2,462-4-1 and Re. 0-5-5 in 1890.

ROHRI.—*In charge of* Hospital Assitant MULCHAND LA'LCHAND.

Water-supply is from the River Indus and is good and abundant. The sanitary condition of the town is defective. The dispensary building does not require any improvement at present. It is regularly repaired each year. The dispensary committee visited the dispensary once a month. Cholera prevailed to some extent in the town and neighbourhood and carried away a number of people. Precautionary measures were adopted by the Municipality under orders of the Acting Collector and the disease disappeared from the town in about a month after its first appearance. The total treated was 5,215 out-door and 62 in-door patients against 4,941 and 43 in 1891 and 4,894 and 40 in 1890 respectively. The prevailing diseases were fevers, ulcers, skin diseases, diseases of the digestive system, chest complaints, ear and eye diseases. Fifteen major surgical operations were performed. Vaccination is carried on by the Municipal Vaccinator. Three *post-mortem* examinations were held. The dispensary was inspected by the Principal Medical Officer, Sind District, the Civil Surgeon, Sukkur, the Collector of Shikárpur, and the Assistant Collector, Rohri Division. The total cost was Rs. 2,005-6-8 and the cost per patient Re. 0-6-1, against Rs. 1,464-9-9 and Re. 0-4-8 in 1891 and Rs. 1,772-10-8 and Re. 0-5-8 in 1890.

LA'RKHA'NA.—*In charge of* Assistant Surgeon MULCHAND GANGA'RA'M.

The buildings are in good repair; furniture and fittings sufficient. The water-supply is from wells and is good and abundant. The conservancy of the town has been satisfactory. The committee visited the dispensary once every month. The total treated was 230 in-door and 14,417 out-door patients, as compared with 159 and 13,280 in 1891 and 105 and 10,760 in 1890. The prevailing diseases were malarial fevers, diseases of the eye, ear and skin, ulcers and local injuries. Cholera prevailed in the Shikárpur District during July, August and September. Only one case was treated in Lárkhána. Thirty-eight major surgical operations, including 10 lithotomies, were performed. Vaccination is performed from house to house. Eight *post-mortem* examinations were made. The dispensary was inspected twice by the Principal Medical Officer, Sind District, and by the Civil Surgeons of Shikárpur and Sukkur. The total cost was Rs. 2,790-9-2 and the cost per patient Re. 0-3-1, against Rs. 3,747-15-7 and Re. 0-4-5 in 1891 and Rs. 2,458-2-4 and Re. 0-3-7 in 1890.

GRANT-IN-AID DISPENSARIES.

MEHAR.—*In charge of* Hospital Assistant GANPAT KA'KDAY.

Buildings require repairs. Furniture and fittings are good and sufficient. Committee visits monthly. The sanitary condition of the town is fair. Water-supply is from wells and canal and is good and abundant. The total treated was 5,803 out-door and 63 in-door patients against 6,056 and 79 in 1891 and 4,686 and 79 in 1890. The prevailing diseases were malarial fevers, rheumatic affections, diseases of the eye, ear, respiratory and digestive systems, connective tissue and skin, ulcers and local injuries. Ten major surgical operations were performed. Vaccination is performed by the táluka vaccinator. Five *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Shikárpur, on the 25th February. The total cost was Rs. 1,949-10-1 and the cost per patient Re. 0-5-4, against Rs. 1,634-2-9 and Re. 0-4-3 in 1891 and Rs. 1,148-0-1 and Re. 0-3-9 in 1890.

KAMBAR.—*In charge of* Hospital Assistant JOSEPH ISRAEL.

The building is in a fair state of repair. The furniture and fittings are complete and in good order. The dispensary committee met once a month regularly. Conservancy of the town is well looked after by the Municipality. Water-supply is from wells and is ample but brackish. The total treated were 5,219 out-door and 109 in-door patients against 6,107 and

91 in 1891 and 6,749 and 121 in 1890. The prevailing diseases were malarial fevers and diseases of respiratory and digestive systems and skin. Cholera prevailed in the town, giving 27 cases with 13 deaths. Seven major surgical operations were performed. Vaccination is carried on by the táluka vaccinator. Four *post-mortem* examinations were held. The dispensary was inspected by the Civil Surgeon, Shikárpur, in February. The total cost was Rs. 1,184-9-3 and the cost per patient Re. 0-3-7, against Rs. 1,955-1-11 and Re 0-5-2 in 1891 and Rs. 2,079-2-5 and Re. 0-4-10 in 1890.

GHOTKI.—*In charge of* Hospital Assistant CHELA'RA'M TILUMAL.

The repairs of the dispensary are going on. Furniture and fittings are sufficient. The dispensary was visited every month regularly by the committee. The water-supply is good and sufficient. The sanitary condition of the town was fair. The total treated was 38 in-door and 4,321 out-door patients as compared with 46 and 3,198 in 1891 and 39 and 3,068 in 1890. The most common complaints were malarial fevers, ophthalmia, bronchitis, ulcers, boils, ear affections, scabeis, rheumatism and dysentery. Cholera raged all over the district. Three major surgical operations were performed. Seven *post-mortem* examinations were made and opinion given in several medico-legal cases. Vaccination is carried on by the táluka vaccinator. The Civil Surgeon inspected the dispensary in March and November. The total cost was Rs. 1,267-4-11 and the cost per patient Re. 0-4-8, against Rs. 1,072-1-9 and Re. 0-5-4 in 1891 and Rs. 1,330-9-11 and Re. 0-6-10 in 1890.

DOKRI.—*In charge of* Hospital Assistant ASUMAL ISARDA'S.

The dispensary buildings require repair. Furniture and fittings are sufficient and in good order. Dispensary committee meet once a month. The prevailing diseases were malarial fevers, rheumatic, respiratory and syphilitic affections, anœmia, ophthalmia, dysentery, diarrhœa, gonorrhœa, abscess, boils, ulcers and skin diseases. There occurred 105 cases of cholera in the táluka, of which 59 proved fatal. 2,226 out-door and 19 in-door patients were treated against 1,948 and 19 in 1891 and 2,906 and 14 in 1890. Conservancy is fairly well looked after. Water-supply is from wells and Nára Canal and is good and sufficient. 280 minor surgical operations were performed. One *post-mortem* examination was held and opinion was given in four medico-legal cases. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Shikárpur, on 29th January. The total cost was Rs. 945-11-6 and the cost per patient Re. 0-6-9, as compared with Rs. 927-2-5 and Re. 0-7-6 in 1891 and Rs. 1,267-8-5 and Re. 0-6-11 in 1890.

RA'TO DERO.—*In charge of* Hospital Assistant LACHASING SEWUSING.

The dispensary was opened on 27th May 1892. The building is not suitable. A dead-house, a latrine, and quarters for Medical Officer are required. The furniture and fittings are sufficient. Conservancy of the town is fairly attended to by the Municipality. The water-supply is from wells and is good and ample. The dispensary committee meets regularly. The total treated was 2,842 out-door and 26 in-door patients. The most common complaints were malarial fevers, rheumatic affections, eye diseases, respiratory affections, skin diseases and ulcers. The town was free from epidemic disease, but some cases of cholera occurred in its vicinity. The dispensary was inspected by the Civil Surgeon, Sukkur, on 29th December. One major surgical operation was performed. Vaccination is carried out by the Sanitary Department. Two *post-mortem* examinations were held. The total cost was Rs. 826-8-7 and the cost per patient Re. 0-4-7.

UPPER SIND FRONTIER.

GOVERNMENT DISPENSARY.

JACOBABAD.—*In charge of* Surgeon-Captain F. E. MURRAY, M.D.

The dispensary buildings are in good repair and have been much improved, but the wards and verandahs require putting roofing and shelves are required for store-room. The sanitary condition of the town is satisfactory and the water-supply sufficient and good. The total treated was 7,100 out-door and 321 in-door patients against 5,654 and 327 in 1891 and 4,231 and 250 in 1890. The prevailing diseases were malarial fevers, dysentery, rheumatic, and eye affections, diarrhœa, ulcers and skin diseases. Thirty-five major surgical operations were performed, of which the most important were lateral lithotomies 17 and paracentesis of abdomen 6. The minor operations numbered 781. Vaccination is carried on by a municipal vaccinator. The dispensary was inspected by the Principal Medical Officer, Sind District, on 24th November. The total cost was Rs. 2,772-13-2 and the cost per patient Re. 0-6-0, against Rs. 5,486-2-4 and Re. 0-14-8 in 1891 and Rs. 3,731-1-7 and Re. 0-13-3 in 1890.

GRANT-IN-AID DISPENSARIES.

KA'SHMORE.—*In charge of* Hospital Assistant MAHOMED RAHIMANKHÁN.

The dispensary is in a good state; no addition or alteration was made. The annual repairs will be commenced shortly. Cholera prevailed in Káshmore and in its vicinity from 18th June to 4th July. There were 25 cases, of which 14 recovered. The water-supply is

from wells and is abundant, but liable to pollution from soakage. The sanitary condition of the town is fair. Roads and streets are fairly clean. The dispensary was inspected by the Deputy Collector in April, May and November. The committee visited the dispensary seven times. The total number treated was in-door 73 and out-door 3,629 against 80 and 2,441 in 1891 and 46 and 2,244 in 1890. 6 major and 235 minor surgical operations were performed. The prevailing diseases were conjunctivitis, intermittent fever, bronchitis and ulcers. Four dead bodies were examined. Vaccination is performed by the táluka vaccinator. The total cost was Rs. 1,596-3-3 and the cost per patient Re. 0-6-11, against Rs. 1,420-1-8 and Re. 0-9-0 in 1891 and Rs. 1,585-4-11 and Re. 0-11-0 in 1890.

VICTORIA DISPENSARY, SHAHDÁDPUR.—*In charge of* Hospital Assistant SADHUMAL SANTDÁS.

The building is in want of repair. The committee visited the dispensary every month. The sanitary condition of the town is fair. The water-supply from wells is abundant and of good quality. The total treated was 1,800 out-door and 28 in-door patients as compared with 3,532 and 90 in 1891 and 3,546 and 50 in 1890. The prevailing diseases were malarial fevers, diseases of the nervous system, eye, ear, respiratory and digestive systems and skin. There were 8 cases of cholera, of which 3 proved fatal. Vaccination is carried out by the táluka vaccinator. Four *post-mortem* examinations were made and certificates granted in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Sukkur, and the Deputy Commissioner, Upper Sind Frontier. The total cost was Rs. 1,055-12-1 and the cost per patient Re. 0-9-3, against Rs. 1,055-3-4 and Re. 0-4-7 in 1891 and Rs. 634-3-9 and Re. 0-2-9 in 1890.

FOREIGN.

ADEN.

EUROPEAN GENERAL HOSPITAL, ADEN.—*In charge of* Surgeon-Major C. MONKS.

Conservancy and water-supply.—Conservancy is well looked after. The town is very clean. The water-supply is from condensers.

General health.—Has been very good ashore and afloat.

Hospital building.—The dilapidated old building in Tawahi used for so many years as a hospital for the European sick of the Shipping and Civil community was abandoned on the 1st May 1892, and the patients moved into the fine new European General Hospital, Steamer Point, on the same day.

Attendance of patients.—The total treated were 163 in-door and 3,665 out-door patients against 137 and 3,574 in 1891 and 83 and 3,340 in 1890.

Prevailing diseases.—Malarial fevers, ulcers, diseases of the disgestive system, injuries, diarrhœa, diseases of the skin, dysentery and rheumatic affections.

Surgical operations.—There were 3 major and 622 minor operations. Of the former 2 were for reductions of dislocation of radius and ulna and 1 for incision of large abscess.

Mortality and its causes.—There were 10 deaths in the hospital. The causes were enteric fever 2, and heat, apoplexy, jaundice, chronic dysentery, delirium tremens, abscess of the liver, hemiphlegia, hœmorrhage and fracture of the spine 1 each.

Vaccination.—Is carried on by the municipal vaccinator satisfactorily.

Conduct of establishment.—Excellent.

Cost.—The total cost was Rs. 10,710-2-11 and the cost per patient Rs. 2-12-9 against Rs. 10,429-2-3 and Rs. 2-12-11 in 1891 and Rs. 10,189-9-3 and Rs. 2-15-7 in 1890. The cost of each diet was Rs. 1-0-7, as compared with Rs. 1-4-5 in 1891 and Rs. 1-4-10 in 1890.

CIVIL HOSPITAL, ADEN.—*In charge of* Surgeon Major J. W. T. ANDERSON, F.R.C.S.

Conservancy.—Is well looked after by the Municipality. In the whole settlement the excreta is removed to places appointed out-side the limit of each township and there either buried or burnt. Extensive improvements have been effected in the Jewish quarters. Sweeper lines have been constructed in the most crowded part and a large number of cess-pits have been closed and privies introduced in their stead.

Water-supply.—I. Condensed; II. Brackish; III. Rain. *Condensed* is the chief drinking water for Government employés and the better class of residents. *Brackish*, either from the Banian well or aqueduct is the supply the larger number of inhabitants have to depend on, that from the Banian well is fairly good, but the water from the aqueduct is highly charged with saline matter and quite unfit for drinking purposes. *Rain water* is scarce and seldom available.

Hospital buildings.—The Civil Hospital, situated on a commanding eminence in the centre of the native town, was built in 1861 at a cost of Rs. 21,000, the greater portion of which sum was contributed by the Municipality. Since its establishment the hospital has undergone many extensive alterations and additions, costing about Rs. 56,000, which were borne by the Municipality, and it is now as complete a building as one could desire, and practically a new one, there being ample accommodation for over 100 patients without any overcrowding—the ventilation of the wards being well secured.

General health.—Fairly good. There was no epidemic disease in the settlement, but cholera was prevalent to an alarming extent at Zaila and Bulhar and to a lesser degree in Berbera during last hot weather. It was also epidemic in Arabia and Abyssinia.

Attendance of patients.—1,285 in-door and 5,436 out-door patients against 1,504 and 5,238 in 1891 and 1,096 and 5,079 in 1890.

Prevailing diseases.—Malarial fevers, ulcers, local injuries, diseases of the digestive and respiratory systems, skin, eye and ear and rheumatic affections.

Surgical operations.—There was a total of 127 major and 1,100 minor operations. Of the former the most important were 19 amputations, 21 litholapaxies, 6 lateral lithotomies, 1 supra pubic, 4 lithotrities, 1 median lithotomy, 1 paracentesis of abdomen, 9 operations on the eye, 6 on joints, 3 on bones and 2 external urethrotomies.

Mortality and its causes.—There were 99 deaths in hospital. The principal causes were privation 21, phthisis 16, respiratory affections 13, remittent fever 9. After surgical operations there were 6 deaths—empyema 1, paracentesis of abdomen 1, vesical calculus 3 (litholapaxy 1 and lithotrities 2), and Cock's operation 1.

Vaccination.—Is carried on by a vaccinator and vaccinatrix who are paid by the Municipality according to result and not by fixed salaries. Regular stations are appointed by the Civil Surgeon who personally inspects the work twice weekly.

Conduct of establishment.—Has on the whole been good. Hospital Assistants Ibrahim Khan and Samson Reuben are commended for their zeal and efficiency in the discharge of their duties.

Cost.—The total cost was Rs. 19,449-14-10 and the cost per patient Rs. 2-14-4, against Rs. 36,306-12-5 and Rs. 5-6-1 in 1891 and Rs. 20,639-3-2 and Rs. 3-5-5 in 1890. The cost of each diet was Re. 0-3-7, as compared with Re. 0-3-11 in 1891 and Re. 0-3-10 in 1890.

MUNICIPAL DISPENSARIES.

PRINCE OF WALES DISPENSARY, ADEN.—*In charge of* Assistant Surgeon M. J. MISTRI, L.M. & S.

The dispensary was removed, on 1st August 1890, from its old and unsuitable premises, to its present new, more commodious and suitable building, which at first was hired on a rental of Rs. 40 per mensem but was finally, in December 1891, purchased by the Aden Municipality and handed over to the dispensary committee, for the permanent use of the dispensary, free of any charge; but the municipal contribution towards the dispensary fund was consequently reduced by Rs. 500 per annum. The monthly meetings of the dispensary committee were regularly held and two members visited the dispensary every month by rotation. The sanitary condition of the town is good. The water-supply is from Government and private condensers and is good and ample. The total number of out-door patients treated was 6,828 against 6,866 in 1891 and 6,393 and 1 in-door in 1890. The prevailing diseases were malarial fevers, disorders of the disgestive system, ulcers (of a specific type known as the Yemen ulcer), skin diseases, respiratory affections and diseases of the eye and the nervous system. 25 major and 358 minior surgical operations were performed. The dispensary was inspected by the Principal Medical Officer, Bombay, Deesa and Aden Districts, and also by the Civil Surgeon, Aden. The total cost was Rs. 4,209-1-1 and the cost per patient Re. 0-9-10, against Rs. 4,120-12-10 and Re. 0-9-7 in 1891 and Rs. 4,970-5-0 and Re. 0-12-5 in 1890.

SHAIK OTHMAN.—*In charge of* Hospital Assistant EBRA'HIM KHA'N.

The dispensary building is in a good state of repair. Furniture, fittings, &c., are sufficient and in good order, except the cots of the patients. There is no committee, but the Municipal Officer visits the dispensary every week. The most common diseases were malarial fevers, ulcers, rheumatic affections and diseases of the respiratory and digestive systems, eye and skin. The total treated was 3,456 out-door and 387 in-door patients as compared with 3,486 and 293 in 1891 and 3,617 and 257 in 1890. Vaccination is carried on by the municipal vaccinator. The water-supply is chiefly from wells and is abundant but brackish. The sanitary condition of the town is well looked after. There were 7 major and 218 minor surgical operations performed. Opinion was given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Aden, in November, and by the Principal Medical Officer, Bombay, Deesa and Aden Districts, in December. The total cost was Rs. 4,190-12-9 and the cost per patient Rs. 1-1-5, against Rs. 5,726-12-9 and Rs. 1-8-2 in 1891 and Rs. 5,027-13-1 and Rs. 1-4-9 in 1890.

GOVERNMENT DISPENSARY.

BERBERA.—*In charge of* Hospital Assistant GOPA'LRA'O RA'MCHANDRA.

The building is unsuitable, but alterations and additions are being made to remedy this defect. Furniture and fittings are sufficient and in good order. The dispensary is under the supervision of the Assistant Resident, Berbera. The sanitary condition of the town is good. The water-supply through pipes from hot spring at Dubar, seven and a half miles away, is good and abundant. The total treated was 2,578 out-door and 77 in-door patients against 2,158 and 15 in 1891 and 2,099 and 8 in 1890. The most common complaints were diseases of the digestive system, local injuries, ulcers, skin diseases, respiratory and rheumatic affections, malarial fevers and ophthalmia. 3 major and 111 minor surgical opperations were performed. The dispensary was inspected by the Political Resident and the Senior Medical Officer, Aden, and by the Medical Officer, 16th Regiment. The total cost was Rs. 1,461-12-3 and the cost per patient Re 0-8-10, against Rs. 1,764-0-0 and Re. 0-12-11 in 1891 and Rs. 1,192-7-10 and Re. 0-9-0 in 1890.

PERSIAN GULF.

CIVIL HOSPITAL, MUSKAT.—*In charge of* Surgeon Lieutenant-Colonel A. S. G. JAYAKAR.

Conservancy.—Conservancy and sanitation generally neglected.

Water-supply.—Good and abundant.

Hospital building.—In good repair and suitable.

General health.—Influenza prevailed in an epidemic form. In other respects the public health was good.

Details of treated.—44 in-door and 4,110 out-door against 9 and 4,060 in 1891 and 23 and 4,286 in 1890.

Prevailing diseases.—Malarious fevers, influenza, rheumatic and respiratory affections, diseases of the stomach and intestines, ulcers and skin diseases.

Surgical operations.—One major and 261 minor operations were performed.

Mortality and its causes.—Four deaths occurred among in-door patients. The causes were influenza, dysentery, diarrhœa, and injury.

Vaccination.—Two hundred and one operations, 198 were successful and 3 unsuccessful.

Conduct of establishment.—Good. First Class Hospital Assistant Muhammad Hussein is commended for his assiduity and zeal in the discharge of his duties.

Cost.—The total cost was Rs. 1,475-0-8 and the cost per patient Re. 0-5-8, as compared with Rs. 12,507-14-10 and Rs. 3-1-2 in 1891 and Rs. 13,169-5-3 and Rs. 3-0-10 in 1890.

CIVIL HOSPITAL, BUSHIRE.—*In charge of* Surgeon-Captain A. L. DUKE, M.B., C.M.

Conservancy.—No attention is ordinarily paid to the cleansing of the town or to any sanitary measures.

Water-supply.—Fairly good from wells five miles away; bad from wells 2 miles away. Liable to partial failure in continued dry seasons.

Hospital buildings.—In good repair. An extra room has been added and cement laid down in the out-patient room. There is no accommodation for in-door patients.

General health.—Fairly good. There has been a marked increase in the number of cases of malarial fevers and a consequent deterioration of the general health. There was an epidemic of whooping cough and a few cases of small-pox. No other epidemics.

Attendance of patients.—5,443 out-door against 6,024 in 1891 and 7,323 in 1890.

Prevailing diseases.—Malarial fevers, eye diseases, intestinal worms, respiratory diseases, dysentery, diarrhœa, rheumatic affections and ulcers.

Surgical operations.—12 major and 248 minor surgical operations were performed. The most important of the former were paracentesis of the abdomen, lateral lithotomies, reduction of dislocation of lower jaw and extraction of the lens.

Vaccination.—386 persons were vaccinated against 188 in the preceding year.

Conduct of establishment.—Good. Assistant Apothecary Lobo is commended.

Cost.—The total cost was Rs. 2,860-8-5 and the cost per patient Re. 0-8-4, against Rs. 12,267-8-8 and Re. 2-0-7 in 1891 and Rs. 14,720-2-2 and Re. 2-0-1 in 1890.

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

APPENDIX II.

SUMMARIES OF THE ANNUAL REPORTS

ON THE

MEDICAL SCHOOLS.

BYRA'MJI JIJIBHOY MEDICAL SCHOOL, POONA.

This school was under the superintendence of Brigade Surgeon Lieutenant-Colonel (now Surgeon-Colonel) D. E. Hughes, M.D., F.R.C.S., till 10th September, Surgeon-Captain W. H. Burke, M.B., till 1st October, afterwards Surgeon Lieutenant-Colonel W. McConaghy, M.D.

There were 100 pupils undergoing instruction at the beginning of the year—20 first year's, 46 second year's and 34 third year's pupils. Of these 24 were civil medical, 26 native military, 15 stipendiary, 3 Native State, 31 paying and 1 free pupils.

Four native military, 6 paying, 1 civil medical and 1 stipendiary pupils were dismissed; 1 civil medical and 1 paying were permitted to resign; 1 native military failed to join the school, and 1 paying pupil was transferred to the native military pupil class.

At the second examination held on 24th September 1892, 16 of the first year's pupils presented themselves, of whom 13 passed and the other 3 were allowed to pass on to the second year's course.

Forty-one of the second year's pupils were examined, of these 31 passed.

One native military and 1 paying pupil who had failed in the previous final examination were permitted to appear for a special examination in March, when both passed.

The final examination of the third year's pupils was held in September. 27 lads presented themselves, of whom 25 passed and 2 were put back as third year's pupils. Of the lads who passed, 3 were civil, 7 native military, 7 stipendiary, 1 Native State (Bhor), 1 free and 6 paying pupils (2 of whom obtained service in the Rájputána Agency and 3 in the Baroda State).

The following prizes were awarded to at the final examination in September:—The Bálkrishna Chintoba's prizes of Rs. 30 each to Vaikunth Vithal Pálekar for proficiency in Medicine and Therapeutics and in Medical Jurisprudence. The Bálkrishna Chintoba's scholarship of Rs. 5 per mensem for proficieney in Anatomy and Physiology to second year pupil Náráyen Sakárám, State pupil, Sángli.

No changes were made in the course of instruction during the year under report. The entrance examination was held in October when 152 candidates presented themselves. Of these 8 were admitted as stipendiary, 8 as military, 2 as paying and 13 as civil medical pupils. After the school had opened, four State pupils (1 Kurundvád, 1 Bhor and 2 Kolhápur) and two paying pupils (one into the second year and the other into the third year) were admitted. At the close of the year there remained 32 civil, 22 native military, 20 paying, 15 stipendiary and 6 State pupils, giving a total of 95. Of these 34 were third year, 26 second year and 35 first year pupils. The castes of these pupils were Bráhmins 43, Maráthas 16, 10 Sáraswats, Goanese and Telagus 8 each, 5 Mussalmáns, 3 Native Christians and Pársi and Bania 1 each. The total amount of fees realized from paying pupils was Rs. 942, against Rs. 967 in 1891 and Rs. 996 in 1890. The total cost amounted to Rs. 17,353, as compared with Rs. 17,941 in 1891 and Rs. 15,667 in 1890. The Superintendent speaks in high terms of the services rendered by Surgeon-Captain W. H. Burke, M.B. First Grade Apothecary W. Church who succeeded Senior Apothecary Fearn in September, and Assistant Surgeon Ráo Sáheb Bhicaji Amrut Chobbe, Teacher of Anatomy and Physiology, and Assistant Surgeon D. G. Sabnis are commended for the able assistance and interest evinced by them in the work of their several departments.

BYRÁMJI JIJIBHOY MEDICAL SCHOOL, AHMEDABAD.

This school was under the superintendence of Surgeon-Major M. L. Bartholomeusz, M.B., C.M.

The thirteenth year of the school opened with the winter session on 1st November 1891 with 83 names on the roll, comprising 32, 26 and 25 students of the third, second and first years respectively.

Of the first year's pupils examined at the close of the winter session in April, 16 passed, 7 failed, 1 did not appear for examination on account of sickness and 1 (native military) was struck off the roll in consequence of repeated failures.

Of the second year's pupils examined, 12 passed and 14 failed, 1 of whom was struck off the roll on account of repeated failures.

Thus at the commencement of the summer session in June there were in all 81 names on the school register. These were examined in September. Of the first year's students 21 passed satisfactorily and 3 failed in one subject, 2 of whom were promoted along with the 21 who had passed, and 1 put back for another year. All the second year's pupils were found qualified for promotion on examination and were passed on to the third year's class. Of the third year's students, 31 passed (19 creditably) and 1 was put back for another year.

Scholarships and prizes were awarded as usual for proficiencies in studies and for general good conduct and excellence in the discharge of hospital duties.

At the entrance examination held in October, 190 candidates presented themselves from various civil hospitals and schools of the Presidency; of these 58 passed, but 28 only were admitted into the school to fill vacancies. 15 as paying, 5 each as native military and stipendiary, and 3 as civil medical pupils. At the close of the year the result was that there were on the roll 76 students (comprising 25, 23 and 28 third, second and first year respectively). The castes of these pupils were Hindus 63, Mussalmáns 6, Jews 5 and Pársis 2.

The income realized on account of fees from paying pupils and compounders, fines and savings and sale of unserviceable packing articles amounted to Rs. 1,125-8-7 or Rs. 93-12-7 more than in the previous year. The total cost was Rs. 17,054-15-2 against Rs. 16,383-1-4 in 1891.

There was no change in the teaching staff during the year under review. All the teachers are reported to have performed their several duties with zeal and regularity and to have given the Superintendent valuable assistance in the efficient working of the school. The conduct of the students was satisfactory.

Hyderabad Medical School.

This school was under the superintendence of Brigade Surgeon Lieutenant-Colonel J. F. Keith, M.D., C.M.

There were 33 pupils on the school roll at the beginning of the year—11, 10 and 12 respectively of the 1st, 2nd and 3rd years. Of these 25 were stipendiary, 4 civil medical, 3 paying and 1 native millitary pupils.

The first sessional examination was held in April when 10 first year's pupils presented themselves, of whom 5 passed and the others were allowed to prosecute their studies for re-examination at the close of the next session.

Of the 10 second year's pupils examined, 6 passed and 4 who had failed were allowed to go on with their studies but were put on the pay of 1st year's lads.

At the second sessional exmination 8 second year and 8 first year students appeared and all passed with the exception of one 2nd year paying pupil who was, in consequence, made to repeat the year.

The final examination of 3rd year's pupils was held in September when 10 third year's pupils presented themselves (1 civil medical and 9 stipendiary) and they all passed and were taken on into the service as 3rd class hospital assistants.

The entrance examination was held in October. The total number of candidates who appeared for this test was 43 including 2 civil medical pupils from the civil hospitals at Karáchi and Shikárpur. Only 28 were admitted to the examination, as the rest were not provided with the required certificates. 18 candidates passed and were admitted into the school,—16 as stiptendiary, 1 as civil medical and 1 as paying pupils. Among the new admissions were 14 Sindhis (11 A'mils, 2 Banias and 1 Mahomedan), 1 Jew, 2 Maráthas and 1 Hindu (Tirkoli).

At the close of the year there were 32 pupils on the roll, comprising 17, 9 and 6 students of the 1st, 2nd and 3rd years. Of these 24 were stipendiary, 4 civil medical, 3 paying and 1 native military pupils. During the year under report 2 pupils died, 5 were dismissed and 2 resigned.

Rs. 4,062-15-6 were realized during the year and remitted into the treasury. Of these Rs. 3,536 were contributed by the Local Boards, Rs. 18 were fees from paying pupils and Rs. 508-15-6 were the refunds. The total expenditure was Rs. 11,946-1-1 against Rs. 9,909-11-8 in 1891.

Assistant Surgeons J. E. Bocarro and T. H. Aquino have done their duties very satisfactorily and the good results obtained at the examinations were mainly due to their zeal and ability. The conduct of the students was not satisfactory, but it is hoped that the dismissal of the disaffected ones will have a salutary effect on others now in school.

APPENDIX III.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT No. 1.

Showing the Classification of the Mofussil Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1892.

Annual Reports: Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1892.

No. 3195.

GENERAL DEPARTMENT.

Bombay Castle, 8th September 1893.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—490, dated 10th July 1893—Submitting the Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1892.

RESOLUTION.—During the year under review four new dispensaries were opened at Kápsi, Ránpur, Badin and Rato-dero, and information is given in the report for the first time regarding 10 other dispensaries which were opened in former years. The total number of hospitals and dispensaries working in the Mofussil was 258 at the end of the year.

2. The total number of patients treated was 1,880,327, of whom 28,372 were in-door and 1,851,955 out-door patients, as compared with 1,732,858 in 1891. In Aden and Persian Gulf Hospitals and Dispensaries there was a small decrease in the number treated, and in the Konkan the increase was slight; in the Deccan, Gujarát and Sind, however, there were increases of 31,273, 69,822 and 43,341 respectively. As compared with the previous year, the season was generally unhealthy, and it is chiefly to this cause, though partly also to the opening of new institutions, that the general increase of patients must be ascribed.

The number of cases of cholera which came under treatment was 5,121, as against 2,131 in the previous year. Cholera prevailed to an unusual extent in all the divisions of the Presidency. As in 1891, there were very few cases of small-pox.

An increase of 70,574 is reported in the number of admissions from malarial fever, which reached the enormous total of 381,837. Government have already requested the officers of the Sanitary Department to ascertain, if possible, the causes of the serious increase of this disease in recent years. The officers in charge of hospitals and dispensaries should also be requested to make such enquiries and observations as may be possible and to embody the result in their reports.

The admissions from venereal diseases showed a small decrease. Other variations have been fully noticed by the Surgeon General.

3. The income of the hospitals and dispensaries is shown below :—

Opening balance	Rs.	1,33,653
From Government	„	2,98,081
From Local Funds	„	97,026
From Municipalities	„	1,27,932
Miscellaneous	„	47,503
Subscription	„	14,432
Diet and sale of medicines	„	9,835
	Rs.	7,28,462

A comparison with former years is impossible, as the salaries of Civil Surgeons have, during the year under report, been excluded from the amount contributed by Government. It is to this cause that the decrease shown in the grant from Government is due.

The total expenditure amounted to Rs. 6,09,637, leaving a closing balance of Rs. 1,18,824. The actual net cost to Government, exclusive of the salaries above-mentioned, was Rs. 2,67,570, and the percentage of the total expenditure borne by Government was 43·8.

4. Only one dispensary remained unvisited, and the general administration appears to have been thoroughly efficient.

W. L. HARVEY,
Under Secretary to Government.

To

The Surgeon General with the Government of Bombay,
The Sanitary Commissioner for the Government of Bombay,
The Commissioner in Sind,
The Commissioner, N. D.,

1894.

No. $\frac{S.B.}{537}$ OF 1894.

FROM

THE SURGEON-GENERAL
WITH THE GOVERNMENT OF BOMBAY;

To

THE CHIEF SECRETARY TO GOVERNMENT,
General Department,
Bombay.

Bombay, 21st June 1894.

SIR,

I have the honour to submit my Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1893.

2. As per Government order, the summaries of the annual reports of medical officers and subordinates and of the medical schools are omitted from this year's report.

3. At the close of 1893 there were 185 pupils in the three Provincial Medical Schools, distributed as follows:—

Classes of Pupils.	B. J. Medical School, Poona.				B. J. Medical School, Ahmedabad.				Medical School, Hyderabad.				Total.			
	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.
Native Military	8	5	5	18	3	4	5	12	..	1	..	1	11	10	10	31
Stipendiary	3	6	6	15	5	5	4	14	4	16	6	26	12	27	16	55
Native State	1	4	3	8	..	..	2	2	..	..	..	..	1	4	5	10
Paying	5	3	2	10	11	14	12	37	1	..	..	1	17	17	14	48
Civil Medical Pupils	9	9	10	28	5	2	2	9	1	2	1	4	15	13	13	41
Total ..	26	27	26	79	24	25	25	74	6	19	7	32	56	71	58	185

4. The following estimates show the present prospects of recruiting the Military and Civil Hospital Assistants:—

(a).—Military Hospital Assistants.

Sanctioned strength, including 15 per cent. reserve ...	...	143
Actual strength on 31st March 1894 ...	...	152
	Excess ...	9
In the medical schools will pass in 1894 ...	...	11
Do. do. in 1895 ...	...	10
	Total ...	30

At 10 casualties per annum, 20 will be absorbed in 1894.

The 5 Native Military Pupils admitted in Poona and the 5 in Ahmedabad in 1893 should pass out in 1896; the estimated excess then will be 20, if they all pass; but even allowing for failures at the examinations, the requirements of that year will probably be more than met.

The Government of India have expressed their inability to sanction, at present, the proposed increase in the strength of the Military Hospital Assistant class to 160, mentioned in last year's report, owing to the financial pressure, but

will have no objection to its being resubmitted later on for consideration with the estimates for 1895-96. The excess is employed in Burmah.

(b).—Civil Hospital Assistants.

Sanctioned strength		262
20 per cent. reserve		52
Total ...		314
Present strength (on 31st March 1894).		301
Deficiency ...		13

There are 15 third-year Civil Medical Pupils—9 in Poona, 5 in Ahmedabad and 1 in Hyderabad. If all pass in September next, the sanctioned strength will be completed. But even if otherwise, there are 13 third-year Stipendiary Pupils from whom a selection can be made to complete the establishment.

5. The teaching staff remained unchanged throughout the year at Poona. At Ahmedabad Surgeon-Major James McCloghry acted as Superintendent for two months, *viz.* September and October, during the absence of Surgeon Lieutenant-Colonel M. L. Bartholomeusz on privilege leave and also from 14th to 31st December 1893 during his illness. Assistant Surgeon Phirozsha Pállonji Mullán acted as Teacher of Anatomy from 4th November 1893 to the end of the year during the absence of Assistant Surgeon Nilkant Dáyábhai on leave. At Hyderabad, Assistant Surgeon Erachshah Sheriárji Bharucha acted for one month during the absence of Assistant Surgeon T. H. Aquino on leave, and Assistant Surgeon Mulchand Gungárám Tádháni was appointed Teacher, vice Assistant Surgeon T. H. Aquino transferred to Bombay on account of ill-health. He received charge of his duties on the 2nd December 1893.

6. On the tables given in Appendix I, I beg to offer the following remarks :—

Statement No. I gives the classification of hospitals and dispensaries. On the 1st January 1893, there were 258 institutions open. Nine new ones, *viz.* Kalvan, Páchora, Sángola, Mándal and Jhálod (5 grant-in-aid), and Mánsa, Panhala, Sávanúr and Cutch Keru (4 Native State) were opened during the year; and Shanvár Peth, Nanás Peth and Kasba Peth, all in the city of Poona (3 Municipal), Kandeiaro and Sakrand (2 Local Fund), and Modnimb, Maindargi, Mahálingpur, Kurundvád, Tikota, Sángli, Mangalvedha, Sháhápore, Shirhatti, Terdal, Játh and Kavatha Mahánkal (12 Native State) are shown in the report for the first time though opened some time ago. This gives a total of 284 institutions open at the end of the year, as against 258 on the same date in the preceding year, an increase of 26.

Statement No. II gives the number of in-door and out-door patients treated. The number of patients treated was 2,160,898 as compared with 1,880,327 in 1892, the increase being mainly due to the inclusion, for the first time, of several dispensaries in the report which contributed 184,348 cases. Of the total treated, 28,489 were in-door and 2,132,409 out-door patients, against 28,372 and 1,851,955 respectively in the preceding year. Of the in-door patients, 20,890 were cured, 2,414 relieved, 2,339 discharged otherwise and 1,543 died; the ratio of deaths to total treated being 5·4 per cent., a diminution of 0·9 per cent. as compared with the ratio of the preceding year. The daily average of in-door sick was 1,294·7 (1,031·4 men, 182·2 women and 81·1 children) against 1,263·9 in 1892. Of the out-door patients, 1,918,108 attended personally aud 214,301 were represented by friends. The daily average attendance was 20,726·5 as compared with 18,991·4 in the previous year. The total number of patients treated in the civil hospitals was 341,458, and that in the dispensaries 1,819,440, as compared with 326,635 and 1,553,692 respectively in 1892. The total number of beds was 2,866 (for males 2,006 and for females 860) or 40 more than in the preceding year.

With regard to the number of patients represented by friends, I consider it much too high, and I have endeavoured during the past year to correct it, but the results will only appear in the report for the current year.

Statement No. III gives the diseases for which in-door and out-door patients were treated. There were 237 cases of small-pox or 97 more than in the previous year. Cholera contributed 3,692 cases or 1,429 less than in 1892. Of these, the Deccan gave 2,096, Gujarát 1,468, Konkan 99, Sind 28 and foreign institutions 1. Dysentery gave 28,726 or 1·3 per cent. to the total treated as compared with 32,173 or 1·7 per cent. in 1892.

Malarious fevers form, as usual, the largest number of cases, *viz.*, 434,113 or 20·1 per cent. of the total treated against 381,837 or 20·3 per cent. respectively in the previous year. Of these, 28·4 were in the Konkan, 14·8 in the Deccan, 25·0 in Gujarát, 22·7 in Sind, and 24·6 in foreign institutions as contrasted with 29·4, 12·9, 25·6, 22·9 and 24·6 respectively in 1892. Venereal diseases numbered 31,911 or 2,054 more than in the previous year. Of these, primary syphilis contributed 7,003, secondary syphilis 11,210, gonorrhœa 10,487 and other venereal diseases 3,211 against 6,302, 10,315, 9,944 and 3,296 respectively in the previous year. Worms gave 229,046 or 10·6 per cent. to the total treated as compared with 175,055 or 9·3 per cent. in 1892. They were most prevalent in the Konkan and the Deccan Registration Districts, 27,005 cases having been treated in the former and 178,893 in the latter. 940 cases of leprosy were admitted against 931 in 1892. Rheumatic affections gave 55,846 or 2·6 per cent. of the total treated as compared with 49,527 or 2·6 per cent. in the preceding year. Eye and ear diseases numbered 219,758 and 75,465 or 10·2 and 3·4 per cent. respectively as contrasted with 189,056 and 73,448 or 10·5 and 3·9 per cent. in 1892. 43,874 patients were treated for diarrhœa as compared with 48,063 in the previous year. Of skin diseases there were 263,887 cases or 12·2 per cent. to the total treated against 207,862 or 11·5 per cent. in the preceding year—the percentages for each registration district being, Konkan 12·6, Deccan 11·4, Gujarát 15·8, Sind 8·6 and foreign institutions 5·9, as compared with 10·3, 10·9, 12·9, 8·5 and 6·7 respectively in the preceding year.

The several Civil Surgeons have reported on the prevalence of malarial fevers in their respective districts, but as none of them have been able to assign any definite or removable cause of the disease, or rather diseases, I do not think any good would come of publishing their remarks. Indeed until more is known as to the etiology of these diseases, the opinions expressed must be more or less speculative and of little or no practical use. But there are general causes of disease in abundance everywhere, and many of these must be exciting causes of these fevers, and until these are removed or reduced to a minimum I do not think much progress will be shown in the reduction of the admission and death rates from "fevers."

I am not aware what the total deaths from malarial diseases for 1893 was—this being a subject dealt with by the Sanitary Department, to whom returns are rendered; but so far as the admissions to hospitals and dispensaries can guide us it does not appear that fevers have been more prevalent in 1893 than in the preceding year. Further, as the following ratios will show, the percentage of total patients treated is almost the same in the three provinces of Bombay, Bengal and the North-West Provinces :—

Bombay	... 20·30
Bengal	... 19·83
North-West Provinces	... 19·46

These figures are for 1892, those of 1893 for Bengal and North-West Provinces not being available for comparison.

I need not here enumerate all the insanitary conditions which require attention, but I may mention some which appeared specially prominent in the past year and which it appears to me must have been influential factors in the number of attacks, if not in the actual production, of malarial diseases.

The rainfall of the autumn of 1892 was heavy and unseasonable and the succeeding cold weather was unusually severe and prolonged, and must have been, I think, a very active exciting cause. Besides, heavy rainfall leads to increase of sub-soil water, which especially in the polluted soil and sub-soil of undrained villages and all but universally insanitary dwellings, with the accompaniment of bad, unsuitable or deficient food, deficient and unseasonable clothing, defective and often polluted water-supply, is a potent cause of disease, and the wonder, I think, is that malarial and continued fevers are not more prevalent

than they are. In Gujarát, especially in the Northern Collectorates where the sub-soil is most water-logged and the changes of temperature (especially the diurnal range) are greatest and most sudden, malarial fevers are always most prevalent. Improved sanitation in towns and villages, especially the provision of a good water-supply and the introduction of a good system of drainage, are the most urgent measures for the improvement of the health of the people, but they must be carried out simultaneously, as a large and increased water-supply unaccompanied by a drainage scheme leads to saturation of an impure sub-soil, and instead of proving the blessing which was expected it turns out in some cases—particularly in a flat country with a deep soil—the reverse. Waste water of all kinds and indeed pure water, if allowed to sink into the soil, stagnate and ferment—evolving gases of various kinds—will only make matters worse. To give the improved water-supply a fair chance, therefore, other sanitary measures—drainage particularly—must be carried out *pari passu*. I may also mention among the chief removable causes the irrigation of land near towns, especially land heavily manured and in many cases, I fear, overmanured, improved house sanitation, not to say improved dwellings, education of the people in elementary sanitary matters in schools—particularly as regards house sanitation, ventilation, purity of drinking water and means of preserving it from pollution, clothing, especially the kinds suited to the various seasons, food, &c. By instilling such matters into the youthful minds much may be done in preparing for sanitary progress in the future. Much might be written and has been written on these subjects, but I think in the present financial condition of the country I have indicated enough.

I beg to add that though fevers have no doubt increased, especially in Gujarát, the number of cases of malarial fevers treated at hospitals and dispensaries is scarcely a safe guide. In such diseases particularly, the popularity of quinine and other medicines is a great factor, and sufferers from such diseases are more and more attracted to dispensaries in consequence. Much may be expected from the proposed sale of quinine through the Postal Department, but, in my opinion, improved water-supply, drainage and household sanitation must be attended to at the same time. Prevention should be the motto, not cure.

Statement No. III-A gives the number of major surgical operations performed. There remained under treatment, on 1st January 1893, 128 cases which had undergone operations, and 4,525 were performed during the year, giving a total of 4,653 or 734 more than in the previous year. Of these, 3,955 were cured, 266 relieved, 81 discharged otherwise and 118 proved fatal, giving a death-rate of 2·5 per cent. to the total operations or 0·5 less than in the preceding year. There remained under treatment on 31st December 1893, 116 patients who had been operated on. The result of 117 operations performed on out-door patients, being unknown, was not recorded. Of the total number of operations, 3,072 were performed in civil hospitals and 1,581 at dispensaries. Operations on the urinary organs were the most numerous, there being 1,298 cases with 30 deaths as compared with 966 with 44 respectively in the previous year. Of these 643 were lithola-paxy, 466 lithotomy, 60 perineal lithotrity and 45 for stricture of urethra. Next in order follow the operations on the organs of locomotion with 795, of which 572 were for reductions of dislocation of joints. Opening of abscesses amounted to 640 with 21 deaths, operations on the eye and its appendages 529 with no death, and on the digestive organs 342 with 19 deaths, of which 258 were paracenteses of the abdomen with 11 deaths. There were 281 operations for removal of tumours with 6 deaths and 241 amputations with 16 deaths. Obstetric operations numbered 119 with 10 deaths. Of these, 45 were version, 30 application of forceps and 26 craniotomy. The total number of minor operations was 92,078 as compared with 85,494 in 1892.

As ordered by the Government of India in their letter No. 13-Medical-612, dated 30th September 1893, Home Department, Medical, embodied in the Bombay Government Resolution No. 3733, dated 17th October 1893, General Department, I give the following two separate lists showing the number of major surgical operations performed by each officer in civil hospitals and dispensaries during the year 1893 as also the period during which each operator was present:—

Mofussil Civil Hospitals.

Charge.	Name of Officer,	Period.	Number of operations performed.
Thána	Surgeon-Major K. R. Kirtikar	Whole year	14
Ratnágiri	Surgeon-Captain W. E. Jennings	Do.	16
	Hospital Assistant Rámji Bâpuji	Do.	2
Westropp Hospital, Sávantvádi.	Doctor D. G. Dalgado	Do.	13
Kárwár	Surgeon-Lieutenant-Colonel J. A. Howell...	1st January to 31st July. 1st September to 31st December.	17
	Assistant Surgeon T. C. Khandwala ...	11th to 31st August ...	10
Sassoon General Hospital, Poona.	Surgeon-Lieutenant-Colonel W. McConaghy	Whole year	28
	Surgeon-Captain W. H. Burke	1st January to 3rd March 4th June to 31st December.	394
	Surgeon-Captain R. W. S. Lyons	4th March to 3rd June ...	48

Statement No. IV shows the sex and caste of the patients. The following tables give the ratio per cent. of men, women and children and of castes as compared with the previous year :—

	Men.		Women.		Children.	
	1892.	1893.	1892.	1893.	1892.	1893.
Konkan	45·7	45·3	18·7	17·8	35·6	36·9
Deccan	42·2	39·9	17·1	17·3	40·7	42·8
Gujarát	43·5	44·3	21·6	21·3	34·9	34·4
Sind	51·9	53·0	15·9	15·9	32·2	31·1
Foreign	65·0	62·2	16·7	16·8	18·3	21·0
	44·8	43·8	18·5	18·2	36·7	38·0

	1892.	1893.
Hindus	69·2	70·2
Mahomedans	25·9	25·1
Native Christians	2·2	2·0
Pársis	1·5	1·2
Europeans	0·3	0·2
Eurasians	0·1	0·1
Other Castes	0·8	1·2

Statement No. V, Part I, shows the income and expenditure of civil hospitals and dispensaries during the year. The total income was Rs. 7,57,275-14-2, of which Rs. 1,20,608-8-10 was the cash balance.

Rs. 3,18,421-3-6 were received from Government, Rs. 1,03,575-8-11 from Local Funds and Rs. 1,46,239-10-0 from Municipal Funds. The corresponding figures in 1892 were Rs. 2,98,080-15-9, Rs. 97,026-5-0 and Rs. 1,27,931-15-7.

Interest on invested capital amounted to Rs. 19,790-3-11 against Rs. 19,071-13-0 in the previous year, and the sale of securities or withdrawals of deposits Rs. 13,100 as compared with Rs. 9,400 in 1892.

Rs. 6,789-15-8 were received as subscription from Europeans and natives as contrasted with Rs. 14,432-4-0 in the preceding year, and Rs. 28,750-11-4 were realized by the sale of medicines not supplied by Government, from hospital stoppages, &c., &c.

The total expenditure was Rs. 6,14,760-15-6 against Rs. 6,09,637-3-6 in 1892. Deducting from this Rs. 10,400 invested during the year and Rs. 38,941-6-6 remitted into the treasury on account of hospital stoppages, sale of unserviceable articles, &c., and the unexpended balances which lapsed to the municipalities, the net expenditure was Rs. 5,65,419-9-0 as compared with Rs. 5,50,751-14-10 in 1892. The average cost of each diet was Re. 0-2-5 or the same as in the preceding year. The percentage of total cost paid by Government was 49·6 against 54·1 in the preceding year. The cost per patient was Re. 0-5-3 as contrasted with Re. 0-5-4 in 1892.

The following discrepancies have been found between the closing balances of 1892 and the opening balances of 1893 :—

	Balance on 31st December 1892.	Balance on 1st January 1893.	Remarks.
	Rs. a. p.	Rs. a. p.	
Borsad	455 11 9	530 13 11	The difference is due to the amount of Rs. 75-2-2 on account of pay of the Hospital Assistant having been erroneously shown in the last year's accounts though paid in 1893.
Dohad	.....	2,562 12 1	The Assistant Surgeon was not aware of there being a cash balance to the credit of the dispensary, as it was converted from Government to a grant-in-aid institution, and this error was discovered when the accounts of this year were sent in to the Treasury Officer for verification.
Kálol	38 9 4	44 8 2	Remains unexplained, though several reminders have been sent. The Collector has been addressed on the subject.
Gogha	292 10 2	278 10 2	The amount of Rs. 14, travelling allowance, was not taken into account by the present incumbent's predecessor in last year's account through an oversight.
Sádra	3,890 6 1	2,390 6 1	The invested capital of Rs. 1,500 was erroneously included in the cash balance.
Badin	798 10 8	944 4 10	The interest on the invested capital, *viz.* Rs. 145-10-2, was not taken into account by the present incumbent's predecessor last year.
Kandeiáro	.....	283 12 10	These dispensaries are shown in the report for the first time.
Sákrand	.....	282 13 0	
Nagar Párkar... ...	891 13 3	833 14 2	The discrepancy is due to the payment of two bills amounting to Rs. 57-15-1 which were drawn in the end of December 1892 and had not been taken into account by the present incumbent's predecessor last year.

The following table shows the pay drawn by the Civil Surgeons during the year 1893 :—

	Rs.	a.	p.		Rs.	a.	p.
Thána	9,000	0	0	Kaira	7,020	1	3
Ratnágiri	7,050	6	8	Godhra...	7,163	10	10
Kárwár	10,993	1	1	Ahmedabad	12,963	8	7
Poona	13,059	9	9	Sádra	2,746	0	0
Ahmednagar	10,228	10	3	Rájkot	11,809	4	2
Násik	11,698	15	8	Karáchi	13,550	12	4
Dhulia...	9,000	0	0	Hyderabad	12,260	3	6
Sátára	7,154	14	9	Shikárpur	9,356	0	10
Mahábaleshvar ...	8,693	5	4	Sukkur	5,354	1	10
Sholápur	6,226	15	11	Aden (Civil Hospital)...	9,679	1	11
Belgaum	10,889	15	0	Aden (European General Hospital)	12,251	11	1
Dhárwár	12,810	0	3				
Bijápur...	10,051	9	10				
Surat	9,000	0	0	Total Rs.	2,46,068	8	3
Broach...	6,056	7	5				

Statement No. V, Part II, shows the account of the invested capital. On 1st January 1893 there was a balance of Rs. 4,65,600, and Rs. 10,400 were invested during the year, making a total of Rs. 4,76,000. Deducting Rs. 13,100 on account of securities sold, there remained Rs. 4,62,900 as invested capital on 31st December 1893.

7. The following works were executed and paid for from the "discretionary grant" at the disposal of the Surgeon-General during the year 1893 :—

	Rs.
Cement-plastering the floors of the three general wards of the Civil Hospital, Dhárwár	285
Completing additions and alterations to the Civil Hospital, Ratnágiri	92
Erecting compound wall to the Hospital Assistant's quarters at the Civil Hospital, Ratnágiri	192
Shelving the store-room of the Dispensary, Jacobabad ...	105
Putting in 4 windows for light and ventilation in Hospital Assistant's quarters at Jacobabad Dispensary ...	32
Cut-stone paving in the prescribing room of the Khán Bahádur Pestonji Sorábji Charitable Dispensary, Poona ...	79
Erecting partition wall in the Civil Hospital, Sátára ...	242

8. The administrative Medical Officer in the Sind District inspected all the civil hospitals, jail hospitals and the dispensaries on his route, and reported favourably of all. The administrative Medical Officer of the Bombay, Deesa and Aden Districts inspected the civil medical institutions in Aden and reported very favourably on the condition of these and on the officers in charge.

9. The dispensaries at Viramgám, Jerruck, Mirpur Batoro, Thano Bulákhán, Shikárpur, Kambar and Ratodero were not inspected by the Civil Surgeons, but they were inspected by the Deputy Sanitary Commissioners.

Inspection Tour.

10. In the report on the medical institutions in Bombay I have recorded the results of my inspections on those institutions, and they need not therefore be repeated here.

On the 8th June 1893, I visited and inspected the Panchgani Dispensary and on the following day a portion of the station. The dispensary was found in fair order, but not as tidy and clean as it should have been. There was an ample supply of medicines, and the instruments were in fair order. The records bore evidence of carelessness. The sanitary state of the station might be much improved were money available.

On the 12th June I inspected the Wái Dispensary and found it generally in fair order. The building is an old native one and quite unsuited for a dispensary, especially for in-door patients. The instruments and medicines were sufficient and well cared for, and the records correct.

On the 24th October the Sassoon General Hospital, Poona, was inspected and, so far as the Civil Surgeon could make it, was in excellent order. But minute enquiry into its sanitary condition revealed the facts that the drainage is most primitive and defective. Earlier in the year an opportunity occurred of cheaply filling up the large quarry at the north end of the building, and as the quarry had long been a sanitary danger, Government sanctioned Rs. 7,000 for filling it up with material derived from the excavations connected with the new water reservoirs being constructed near St. Mary's Church. This work has since been accomplished and is an immense improvement in every way. But much remains to be done. The only drains connected with the hospital are for storm water, and even they are choked. Besides these, there is not a single drain in all the premises of this large hospital and its numerous subsidiary buildings. All the waste water sinks into the ground. To these defects may be added one which at times is serious, *viz.* the condition of the canal running along the east side of the enclosure, as also on the north side and running close by the servants' houses, latrines, dissecting room, lecture room, and the nursing sisters' quarters, a distribution channel which for several days of the week is without water and emits a disagreeable and unwholesome odour.

On all these points an informal committee was held, consisting of the Superintending Engineer, the Executive Engineer, the Executive Engineer for Irrigation, the Civil Surgeon and myself, and their proposals have, I believe, been formulated, if not already submitted to Government. In my opinion, early action should be taken to remedy these grave sanitary defects.

The condition of the roof and floor of the Senior Apothecary's quarters was unsatisfactory, the former (an iron one) being in a leaky condition and the latter (having no plinth) damp, owing, apparently, to soakage from the canal only a few feet from it.

The wards were clean and neat, and the instruments in good order and well cared for. The hospital is carefully managed by Surgeon-Lieutenant-Colonel MacConaghy assisted by Surgeon-Captain Burke, Senior Apothecary Church, and an excellent staff of nurses.

On the 26th October I inspected the Poona Lunatic Asylum and on the following day the Khán Bahádur Pestonji Sorábji Dispensary in the city, and found them in good order and under careful management. At the latter institution, quarters for the Medical Officer and better accommodation for in-door patients are very desirable.

Left Poona on the 28th October for Ahmedabad with a view to enquire into the further requirements of that city in the way of accommodation for sick, to enable me more correctly to answer a reference from Government, and, while there, took an opportunity of making the annual inspections of the various medical institutions.

Inspected the Civil Hospital and found everything in order with the exception of the Out-patient Department. There is no waiting-room, and out-patients have to use the verandah—a most unsatisfactory arrangement and anything but conducive to that quiet which should prevail in the neighbourhood of wards for sick.

A special building for out-patients and dispensary is necessary and a much felt want at this hospital.

The lately built Wyllie wards are very bright and cheerful. A few instruments required repairs, but with these exceptions all was in order.

At the same time I inspected the Byramji Jijibhoy Medical School and its arrangements, and with slight exceptions found them in good order. The defects will be remedied at small cost.

On the 31st October I inspected the Runchhodlál Dispensary and the Victoria Jubilee Dispensary for women and children. Both were in excellent order.

On the 1st November I inspected the Bechardás and Ráipur Dispensaries and the Jail Hospital and found them in good order and repair. At the Bechardás Dispensary, Assistant Surgeon Cooper has a high reputation as a Surgeon, due to confidence inspired by good and successful surgical work.

November 2nd.—Inspected the Ahmedabad Lunatic Asylum and the Police Hospital, and found both in good order—the former particularly.

On November 12th the Mahábaleshvar Hospital, which had been occasionally visited in April and May, was formally inspected and found clean and in fair order. But much is wanted to make it complete. The following are some of its requirements:—Quarters for the establishment (Hospital Assistant, Compounder and dispensary servant), a mortuary, a store-room and other subsidiary buildings. The present site is too public, too close to the Club chambers, and, in my opinion, not suited for a hospital or dispensary I have reported all this specially, and suggested that a new dispensary be erected near the bazár on the ground on which Apna Cottage now stands and adjoining the Reay Garden.

Proceeded to Sátára on the 19th and inspected the Civil Hospital there on the 20th November. It was found in a good state—the hospital and premises clean, the instruments well cared for, and the medical supplies sufficient. A new wing was being built at the time of my inspection, and as a large quantity of excavated material was available, I instructed the Civil Surgeon to get a rough estimate prepared for filling up a large disused well in front of and close to the hospital. This work was sanctioned by Government. I also instructed the Civil Surgeon to ask the sanction of the municipality to making a road on a portion of their ground and to bringing the remainder within the hospital premises so as to exclude passengers from the hospital compound. This has been sanctioned, and will be a great improvement.

Inspected the Convalescent Home at Khandála on the 24th November and found it in admirable order—clean and neat and in a state very creditable to Mrs. Tarrant, the Lady Superintendent.

On the 25th November inspected the Railway dispensary at Lonavla, to which Government gives a grant of Rs. 600 per annum, and found it in order. In my opinion, a grant-in-aid dispensary should be instituted at Lonávla, with accommodation for in-door patients. The amounts now contributed to the Railway dispensary by Government and the Local Board, *viz.* Rs. 600 each, would go far towards supporting it. There is no dispensary within 20 miles of it, and none in the ghát region.

On the 27th November I inspected the Mátherán Dispensary and submitted a report to Government thereon and the medical arrangements of the sanitarium.

The dispensary and its establishment should, in my opinion, be placed on an independent footing. At present the establishment consists of one man, the Hospital Assistant, and he is practically Head Clerk (almost sole clerk indeed) to the Superintendent, and Head Mukádam. The time devoted to the sick must be very small indeed. Further, the dis-

pensary is accommodated in one room of a square block of buildings in which the Superintendent's office and court room, the post office, telegraph office and Telegraph Master's quarters are—a most unsuitable place for a dispensary and quite inadequate as regards accommodation.

The dispensary records were not well kept, and the accounts are very much mixed with those of the Superintendent of the hill. The Hospital Assistant is not only old, but deaf, and quite unsuited for medical work. He has since been pensioned and replaced by a younger and abler man. But the medical affairs of the sanitarium will never be satisfactorily carried on so long as the affairs of the dispensary are mixed up with those of the administration of the hill.

On the 5th December I inspected the Ripon Hospital, Ahmednagar, and found it in excellent order—clean and neat throughout. The hospital is a new one, but has one great defect—a defect almost universal—*viz.* the want of a waiting room for out-door patients. They have to make use of the verandah. The books were correctly kept and up to date, the instruments well-cared for, and the medicines sufficient.

I inspected the Dhulia Civil Hospital on the 8th December and found it an excellent one, but in its present condition rather barn-like. Except the bedsteads there is nothing in the way of furniture or ornamentation—no bedside tables, no dado to the wall, no pictures, &c., but I hope to see something done before my next visit.

There are no quarters for the Hospital Assistants. The state of the store-rooms and dispensary was anything but creditable to the Senior Hospital Assistant, who has since been pensioned and replaced by a more efficient subordinate.

In the evening I inspected the Jail Hospital and found it in order.

On the 9th December I inspected the Municipal Dispensary and found it in fairly good order. The building being unsuitable and too small, it is proposed to build a new one.

On the 11th December I inspected the Lord Harris Hospital at Násik and found it clean and neat throughout. The woodwork of the doors and windows having been made of very inferior and unseasoned material, the result in the dry climate of the Deccan will be apparent. The stone pavement is very rough, and as it is cemented with mortar, instead of cement, the flooring is anything but sightly.

The books and records were found very neatly and correctly kept and up to date, the instruments well-cared for and the medical supplies sufficient.

Surgeon-Lieutenant-Colonel Murphy is a good practical surgeon and has done much in a very difficult position to extend the benefits of the hospital as a surgical institution.

On December 12th and 13th I visited the Dhankoribái Hospital maintained under the rules of the Lady Dufferin Fund. I was not at all satisfied with what I observed, and reported accordingly to the Collector of Násik, sending a copy to the Honorary Secretary to the Countess of Dufferin Fund, Bombay Branch.

On the 14th December I inspected the Civil Hospital, Thána, and found it in great part unroofed and under repairs. The building is old, the wards dark, the floors of mud, and the mud walls innocent of anything in the shape of ornamentation. The dispensary is simply part of the verandah, and there is no waiting-room for out-patients. The accommodation for Hospital Assistants is insufficient, but this will be remedied shortly. Books correct, medicines sufficient, and instruments well looked after.

On the 15th December I inspected the Cursetji Rustomji Wadia Dispensary. The building is quite unsuitable, and has lately been made more so by building operations on the neighbouring properties—blocking up the windows and excluding the light. In the rains particularly the light must be very defective. In my opinion, a new should be erected on a site at a greater distance from the Civil Hospital.

The records were in order, the instruments well-cared for, and the supply of medicines sufficient.

On the 3rd January I proceeded to Sholápur, where I inspected the Civil Hospital on the 5th and the two municipal dispensaries on the 6th and found all of them in fairly good order. The Police ward of the former requires reflooring, and glazed windows are necessary throughout the hospital. There is at present no means of keeping out wind and weather, except the jamp-boards, which when closed make the wards dark and dingy. In other respects the hospital was clean and in order.

As regards the municipal dispensaries, they were in good order, the records up to date, and medical and surgical supplies sufficient.

On the 9th December I inspected the Civil Hospital, Bijápur. The building is a new one and was found in good order. The records were neatly and correctly kept, the instruments in good condition, and the medical supplies sufficient.

On the 10th January I inspected the Jail Hospital. The number of sick was in excess of the hospital accommodation, but it was otherwise in order.

On the 11th January I travelled to Gadag and inspected the dispensary there on the 12th. I was not quite satisfied with its condition—everywhere carelessness and want of attention to details was evident, but I have taken such steps as will, I trust, ensure more efficient and correct arrangements in future. Inspected the Hubli Dispensary on the 13th January. So far as possible it was found in order, but it is a mere shed quite unsuited to modern requirements. A new one is being built, and will soon be occupied. New furniture will be necessary. I also visited the Convict Gang employed on Hubli reservoir and found the prisoners healthy and the hospital nearly empty.

On the 14th, 15th and 16th January I inspected the Civil and Jail Hospitals and the Lunatic Asylum at Dhárwár and found all in excellent order. A good operating room is much wanted at the former, and the male and female departments at the latter require re-arrangement. The new barracks at the Lunatic Asylum, though finished, except the flooring and latrines, two years ago, are still in the hands of the Public Works Department, though urgently required.

On the 19th January I inspected the Civil Hospital, Belgaum, and so far as the Civil Surgeon could make it, it was in order. But it is a mere shed—dark, ill-ventilated, without plinth and without quarters for the establishment. Even the furniture of the hospital is borrowed from the Military Department. Steps are being taken to have the furniture transferred to the Civil Department, and I have strongly urged the early construction of a new hospital.

On the 20th January I examined the various sites proposed for a new hospital, but found none so good as the present one.

On the 21st January I inspected the Municipal Dispensary and found it in fair order. A pensioned Hospital Assistant is in charge, but he was absent on the day of inspection. The house is a native one—part of the municipal offices—and had an air of untidiness.

Proceeded to Kárwár *viâ* Marmagao and inspected the Kárwár Civil Hospital on the 25th January. It was in fair order only. Nothing has been done in the way of ornamentation, and there was an air of untidiness and want of attention to details in various directions. The medical supplies were not carefully stored, and on the whole I am of opinion that more careful management on the part of the Civil Surgeon is desirable.

Visited the Kárwár Jail Hospital on the 26th January and found it empty. The prisoners appeared to be healthy.

Arrived at Ratnágiri on the 28th January and inspected the Civil Hospital on the 29th, the Jail Hospital and Lunatic Asylum in the morning and the Leper Asylum in the evening of the 30th January. The Civil Hospital requires a good deal of alteration and additions to make it suitable for its purpose. Servants' accommodation in particular is very much required. Quarters for civil medical pupils were about to be constructed. They are much required. The instruments and stores were in order, and premises clean. I was satisfied with the state of the Jail Hospital and the Lunatic and Leper Asylums. The subordinate in sole charge of the latter—a pensioned Hospital Assistant—is too old and infirm for such a position.

Returned to Bombay 1st February and left it for Rájkot, where on the 17th idem inspected the West Hospital and Jail Hospital and found everything in good order,—especially at the former institution, due to the great interest taken in it by Surgeon-Lieutenant-Colonel Barker and Miss Goldney.

Leaving Rájkot for Ahmedabad on the 18th February I inspected the Wadhwán Dispensary *en route* and found it in excellent order. I re-visited Ahmedabad on my way to Kaira, and at the request of the Honourable Ráo Bahádur Ranchodlal Chotalal, C.I.E., inspected the municipal sewage farm. The area of the farm is, in my opinion, too small, and there is a want of water for irrigation purposes. To ensure success a large area is required, and irrigation with sewage and water alternately is necessary. At present irrigation is by sewage, insufficiently diluted, only.

Inspected the Kaira Civil Hospital on the 20th and the Kaira Jail Hospital on the 21st and found both of them in order, the former looking particularly bright and nice.

Leaving Kaira on the 22nd February I inspected the Nadiád and A'nand Dispensaries *en route* for Godhra and found them in order. The premises of the former are very much cramped and the building of a new dispensary, on ground available in close proximity to the present one, is very desirable.

Inspected Godhra Civil Hospital and was much pleased with the condition of it. Quarters for the Hospital Assistants are rather deficient. In other respects, though not a model hospital, the institution is fairly complete.

Visited and inspected the Broach Civil Hospital on the 24th February. It requires a better operating room, but is otherwise a good hospital and in good order. A compound

wall is required. The instruments, stores and books were in order and correct. There is very little surgical work done at this hospital, and in this respect there is room for improvement.

On the 26th February I inspected the Surat Civil Hospital and found it in order. In the plans of the proposed Hospital Assistants' quarters, the store-rooms were to be utilized, and as I thought this and the position of the houses a mistake, I have suggested a re-arrangement of the plans, at a small extra cost, so as to preserve the store-rooms for their present purpose. Cells for supposed lunatics under observation are much required. The present arrangement of putting them in a small ward is very objectionable, and disturbs the quiet which should prevail in the hospital.

On the 27th February I inspected the Jail Hospital and the Párekh Dispensary. The former was in order, as also the latter, but the dispensary might be decorated a little with advantage, and a few pictures on the walls are desirable. Very little in the way of surgery is done, but it is hoped an improvement in this respect will soon be observable.

From Surat I went on the 28th February to Bulsár and inspected the dispensary. Instruments, stores, &c., were well-cared for, and the dispensary on the whole well managed by Assistant Surgeon Dádáchanji.

On the 1st March I went to Poona to inspect the alterations in progress at the Lunatic Asylum and the Roman Catholic School Dispensary. The former were nearly completed—adding, at small cost, much needed accommodation for 23 insanes. This was done by utilization of the main ward of the old Civil Hospital, which till now has remained unused.

11. As a body, the Medical Officers in charge of civil hospitals and dispensaries in the Mofussil have done excellent service during the year, but owing to the circumstances and opportunities of each varying so considerably it is difficult to compare the value of their labours. Taking the number of major surgical operations as an index of good work done, the names of the following officers may be mentioned. I have added the number of operations performed by each :—

Brigade-Surgeon-Lieutenant-Colonel J. F. Keith ...	656	
Surgeon-Captain W. H. Burke	394	
Surgeon-Major J. W. T. Anderson	138	
,, ,, D. C. Davidson	104	
,, ,, K. S. Nariman	92	
Senior Apothecary W. R. Scroggie	87	
Brigade-Surgeon-Lieutenant-Colonel G. Bainbridge...	80	
Surgeon-Major K. A. Dalál	66	
Surgeon-Captain S. E. Prall...	66	
,, ,, James Jackson	64	For four months only.
Assistant Surgeon J. E. Bocarro	64	
,, ,, T. C. Khandvala	62	
,, ,, K. B. Cooper	57	
Hospital Assistant Sadáshiv Wáman	34	
,, ,, Ganpat Kakday	33	Since deceased.

12. In conclusion, I beg to bring to the notice of Government the names of Brigade-Surgeon-Lieutenant-Colonels Bainbridge and Keith, Surgeon-Lieutenant-Colonels MacConaghy and Bartholomeusz, and Surgeon-Majors Davidson and Anderson for excellent surgical, medical and administrative work done, and also those of Assistant Surgeons Cooper, Bocarro and Khandvala and Hospital Assistants Ganpat Kakday and Sadáshiv Wáman for excellent surgical work.

I have the honour to be,
Sir,
Your most obedient Servant,

P. S. TURNBULL, M.D., Surgeon-Major-General,
Surgeon-General with the Government of Bombay.

APPENDIX I.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT No. 1.

Showing the Classification of the Mofussil Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1893.

1	2	3	4	5	6	7
Population of the Province.	Class.	Number open on 31st December 1892.	Number opened during the year.	Number closed during the year.	Number open on the last day of the year.	Remarks.

Annual Reports: Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1893.

No. 3243.

GENERAL DEPARTMENT.

Bombay Castle, 28th August 1894.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—547, dated 2nd July 1894—Submitting the Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1893.

RESOLUTION.—The number of hospitals and dispensaries in the Mofussil at the end of 1893 was 258. During the year under review nine new dispensaries were opened, five in the Presidency proper, at Kalvan, Páchora, Sángola, Mándal and Jhálod, and four in Native States, at Mánsa, Panhála, Savanur and Cutch Keru. Information is also given in the report for the first time regarding 17 other dispensaries, which were open in former years. No hospitals or dispensaries were closed during the year.

2. The total number of patients treated was 2,160,898, as compared with 1,880,327 in 1892, an increase of 280,571. Of this number, 184,348 were treated at institutions newly opened during the year, or at dispensaries included in the report for the first time; so that the net increase in the numbers treated at hospitals and dispensaries open during the previous year amounts to 96,223. The increase was general in all the divisions of the Presidency, but was most marked in the Deccan and Southern Marátha Country, where the heavy rains of 1892, followed by a cold weather of unusual length and severity, made the season extremely unhealthy.

The total number of cases of malarial fever which came under treatment was 434,113, as compared with 381,837 in the previous year, an increase of 52,276, which occurred almost entirely in the Deccan; as in Gujarát and the Konkan the totals declined, while in Sind the increase was extremely small. As directed in paragraph 2 of the remarks on the report for last year, enquiries have been made by officers in charge of hospitals and dispensaries throughout the Presidency with a view to discovering, if possible, the causes which have led to the serious increase of this disease in recent years. The results of the inquiries, however, cannot be said to be very satisfactory, as none of the officers consulted has been able to assign any definite or tangible cause. The increase in the number of patients treated is no doubt due in some degree to the increasing popularity of European medicines and methods of treatment, which attract larger numbers of patients to the hospitals every year; while the unusually heavy rainfall of the autumn of 1892, and the prolonged season of cold weather which followed it, supplied, in the opinion of the Surgeon General, an active exciting cause of malarial diseases, the development of which may perhaps also be attributed to the various insanitary conditions described by the Surgeon General, which are still so largely present in most towns and villages in the Mofussil. The number of cases of cholera treated was 3,692, or 1,429 less than in 1892; small-pox, as in the two previous years, was almost entirely absent.

3. The total income of the hospitals and dispensaries in the Mofussil was as under:—

	Rs.
Opening balance	1,20,609
From Government	3,18,421
„ Local Funds	1,03,576
„ Municipalities	1,46,240
Subscriptions	6,790
Miscellaneous	52,664
Diet and sale of medicines	8,976
Total ...	Rs. 7,57,276

The total income for 1892 was Rs. 7,28,462, or Rs. 28,814 less.

The total expenditure amounted to Rs. 6,14,761, as against Rs. 6,09,637 in 1892, and the cash balance at the end of the year was Rs. 1,42,515. The actual net cost to Government, exclusive of a sum of Rs. 2,46,069 expended on the salaries of Civil Surgeons, was Rs. 2,80,368, and the percentage of the total cost borne by Government was 45·6 against 43·8 in 1892.

4. The number of dispensaries unvisited by the Civil Surgeons—seven—is larger than usual, and no reason is assigned by the Surgeon General for the failure of the officers concerned to perform this very important part of their duties. It should be understood that Government expect Civil Surgeons to inspect all dispensaries in their charge at least once a year, unless there is some very urgent reason for their not doing so. With this exception, however, the administration of the department has been, as usual, extremely efficient and the general results recorded in the report are very satisfactory.

G. S. CURTIS,
Under Secretary to Government.

ADMINISTRATION AND PROGRESS REPORT

ON THE

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

MOFUSSIL

CIVIL HOSPITALS AND DISPENSARIES

UNDER THE

GOVERNMENT OF BOMBAY

FOR THE YEAR

1894.

Bombay:
PRINTED AT THE GOVERNMENT CENTRAL PRESS.

1895.

No. $\frac{S.B.}{435}$ OF 1895.

FROM

THE SURGEON-GENERAL

WITH THE GOVERNMENT OF BOMBAY;

To

THE CHIEF SECRETARY TO GOVERNMENT,

General Department,

Bombay.

Bombay, 24th May 1895.

SIR,

I have the honour to submit the Annual Administration and Progress Report on Mofussil Civil Hospitals and Dispensaries in the Bombay Presidency for the year 1894.

2. At the close of the year 1894 there were 186 pupils in the three Provincial Medical Schools, distributed as follows:—

Classes of Pupils.	B. J. Medical School, Poona.				B. J. Medical School, Ahmedabad.				Medical School, Hyderabad.				Total.			
	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.
Native Military	5	4	3	12	7	3	4	14	...	...	...	...	12	7	7	26
Stipendiary	6	4	5	15	6	5	4	15	15	4	8	27	27	13	17	57
Native State	4	4	5	13	...	1	1	2	...	...	...	...	4	5	6	15
Paying	2	1	2	5	12	11	13	36	...	...	7	7	14	12	22	48
Civil Medical Pupils	9	10	9	28	3	2	2	7	2	...	1	3	14	12	12	38
Free	...	...	...	...	2	...	...	2	...	...	...	...	2	...	...	2
Total ...	26	23	24	73	30	22	24	76	17	4	16	37	73	49	64	186

3. The following estimates show the present prospects of recruiting the Military and Civil Hospital Assistants:—

(a).—Military Hospital Assistants.

Sanctioned strength, including 15 per cent. reserve		143
Actual strength 31st March 1895		152
	Excess ...	9
In the medical schools will pass in 1895		12
Do. do. in 1896		7
		28

At 10 casualties per annum, 20 will be absorbed in 1896.

The 3 Native Military Pupils admitted at Poona and the 4 at Ahmedabad in 1894 should pass out in 1897; the estimated excess then will be 13, if they all pass; but even allowing for failures at the examinations, the requirements of that year will probably be more than met.

There is a proposal before the Government of India to increase the strength of the Military Hospital Assistant class to 154, owing to the transfer of the Quetta District from the Bengal Presidency to the Bombay Command with effect from 1st April 1895, *vide* G. G. O. No. 981 of 1894, and if this be sanctioned, the present excess will be absorbed at once and the strength will be below the sanctioned number by 2.

(b).—Civil Hospital Assistants.

Sanctioned strength		268
20 per cent. reserve		53
		321
Present strength (on 31st March 1895)		311
	Deficiency ...	10

There are 14 third-year Civil Medical Pupils—9 in Poona, 3 in Ahmedabad and 2 in Hyderabad. If all pass in September next, the sanctioned strength will be completed. But even if otherwise, there are 27 third-year Stipendiary Pupils from whom a selection can be made to complete the establishment.

4. The teaching staff remained unchanged throughout the year at Poona. At Ahmedabad Surgeon-Major James McCloghry acted for Surgeon-Lieutenant-Colonel M. L. Bartholomeusz from 1st to 14th January 1894. On the 27th of May 1894 Surgeon-Major McCloghry took over charge of the appointment of the Superintendent from Surgeon-Lieutenant-Colonel M. L. Bartholomeusz and held it to the end of the year. Assistant Surgeon Phirozsha Pallonji Mullán acted as Teacher of Anatomy from 1st to 27th January 1894, both days inclusive, during the absence of Assistant Surgeon Nilkanth Dáyábhái on leave. Assistant Surgeons Navroji Kávasji Kalliánwála and Dorábsha Edalji Kothawála acted as Teacher of Anatomy, the former from 20th March to 29th October 1894 and the latter from 29th November 1894 to the end of the year, during the absence of Assistant Surgeon Nilkanth Dáyábhái on furlough. At Hyderabad Brigade-Surgeon-Lieutenant-Colonel J. F. Keith was the Superintendent of the school up to the 6th May 1894, and since then Surgeon-Major W. G. H. Henderson has been in charge. Assistant Surgeon Javatrám Allimchand Lálváni acted as Teacher of Surgery and Midwifery from 29th November 1894 till the end of the year during the absence of Assistant Surgeon John Eugene Bocarro on leave.

5. On the tables of figures which form Appendix I, I beg to offer the following remarks:—

Statement No. I gives the classifications of hospitals and dispensaries in the Bombay Presidency and Aden, except those in the city of Bombay. On 1st January 1894 there were 284 institutions open. During the year 5 new ones, viz., Shukerwár Peith in the city of Poona (Municipal), Hálol, a temporary dispensary in the Panch Maháls (grant-in-aid), Mátar and Mehmadabad itinerating dispensaries in the Kaira Collectorate (Local Funds) and Satlásna in Mahi Kántha (Native State) were opened during the year. The Prince of Wales Hospital at Jamkhandi, and Banhátti, Savalgi and Kundgol Dispensaries in the Southern Marátha Country (Native State), Superintendency Hospital at Pálanpur (Agency), Viramgám Branch Dispensary (Municipal) and Zaila Dispensary on Somáli Coast (Government), in all 7, are shown in the report for the first time though opened some time ago. These make up the total of 296 at the end of the year, or 12 more on the same date of the previous year.

Statement No. II gives the number of in-door and out-door patients treated. The total number of patients treated was 2,327,598 as compared with 2,160,898 in 1893. Of the total treated, 30,281 were in-door and 2,297,317 out-door patients against 28,489 and 2,132,409 respectively in the previous year. Of the former, 21,848 were cured, 2,717 relieved, 2,700 discharged otherwise and 1,755 died, the ratio of deaths to total treated being 5·7 per cent., or 0·3 more than in the preceding year. The daily average of the in-door sick was 1,110·8 men, 187·3 women and 85·2 children—total 1,383·3 as compared with 1,294·7 in 1893. Of the out-door patients 2,112,619 attended personally and 184,698 were represented by friends. The daily average attendance was 20,911·5 against 20,726·5 in the previous year. The total number of patients treated in civil hospitals was 365,218 and that in dispensaries 1,962,380 as contrasted with 341,458 and 1,819,440 respectively in 1893. The total number of beds was 2,068 for males and 877 for females—total 2,945, or 79 more than in the previous year, partly due to the additions of new hospitals and dispensaries.

With reference to the remark made in the last report regarding the large number of out-door patients represented by friends, I am glad to state that the number of such patients has greatly disminished; but I hope for still further diminution in the current year. A large proportion of these cases, however, occur in Native States' dispensaries over which I have no control.

Statement No. III gives the diseases for which the in-door and out-door patients were treated. There were 218 cases of small-pox, or 19 less than in the previous year. Cholera gave 3,900 cases, or 208 more than in the preceding year. Of these, the Deccan institutions contributed 3,059, Konkan 488 and

Gujarát 353. There were 36,460 cases of dysentery as compared with 28,726 in 1893, the percentage of the total treated being 1·5 against 1·3 in 1893.

Malarious fevers gave, as usual, the largest number of admissions, *viz.*, 473,300, or 20·3 per cent. of the total treated, as compared with 434,113, or 20·1 respectively in the preceding year. Of these, 29·6 were treated in the Konkan, 28·5 in Foreign institutions, 23·3 in Gujarát, 22·7 in Sind and 15·8 in the Deccan, the corresponding figures for the preceding year being 28·4, 24·6, 25·0, 22·7 and 14·8. Venereal diseases contributed 33,104 cases, or 1·4 per cent. of the total treated, against 31,911, or 1·5 per cent. in 1893. Of these, 6,970 were treated for primary syphilis, 12,301 for secondary syphilis, 10,808 for gonorrhœa and 3,025 for other venereal affections as contrasted with 7,003, 11,210, 10,487 and 3,211 respectively in the previous year. Worms gave 227,638 cases, or 9·7 per cent. of the total treated, against 229,046, or 10·6 per cent. in 1893. They were, as in last year, most prevalent in the Konkan and in the Deccan, there being 25,677 cases in the former and 177,715 in the latter. 1,012 cases were treated for leprosy, or 72 more than in the previous year. Rheumatic affections contributed 58,552 cases, or 2·5 per cent. of the total treated, as compared with 55,846, or 2·6 per cent. in 1893. Eye and ear affections numbered 231,041 and 83,738, or 9·9 and 3·5 per cent. respectively of the total treated, as contrasted with 219,758 and 75,465, or 10·2 and 3·4 per cent. in the previous year. 50,499 cases were due to diarrhœa against 43,874 in 1893. Skin diseases gave 305,204, or 13·1 per cent. of the total treated as compared with 263,887, or 12·2 per cent. in the preceding year, the percentages for each registration district being Konkan 11·6, Deccan 12·1, Gujarát 18·3, Sind 8·3 and Foreign institutions 4·9, against 12·6, 11·4, 15·8, 8·6 and 5·9 respectively in 1893.

As regards malarial fevers I have nothing new to add to what I said in last year's report. The predisposing causes which I noted last year were equally in action in the year under report. I am afraid that for years to come this class of disease will always head the list, some years showing a slight increase, in other years a decrease according as the rainfall is excessive or otherwise and the usual general causes are present or absent. A large proportion of the cases occur at a time when strict attention to clothing is most necessary and when woollen clothing would at all events diminish the number of attacks, but owing to indifference, to custom and to poverty, thin cotton clothing is worn and chills occur, especially in persons in weak general health or predisposed to the disease.

The recent arrangements for the supply of quinine will, I hope, do something to check the ravages of the disease; but no permanent subsidence of the disease can be hoped for until the sanitary life of the people generally improves, and in this matter only very slow progress can be expected. When Local Boards and Municipalities fully appreciate the advantages of, and can secure, pure water and efficient and sanitary disposal of sewage and refuse, and the people by due and regular observance of the laws of health do what in them lies for the prevention of disease, then only can we hope for a gradual disappearance of malarial fevers, cholera and other classes of disease which are more or less closely associated with insanity conditions. Education properly carried out can do this; but in a country like India, bound down by rigid customs, I fear rapid changes cannot be expected. At the same time I feel sure that during the past quarter of a century advances, not inconsiderable in amount, have been steadily and silently made in all directions.

Statement No. III-A gives the number of major surgical operations performed during the year with their results. On 1st January 1894 there remained under treatment 115 cases which had undergone operations, 5,172 were performed during the year, giving a total of 5,287 as compared with 4,653 in the previous year,—an increase of 634. Of these, 4,395 resulted successfully, 294 were relieved, 112 discharged otherwise and 162 proved fatal, giving a death-rate of 3·0 per cent. to the total operations as compared with 2·5 per cent. of the preceding year. On the 31st December 1894 there remained under treatment 153 patients who had been operated upon. The result of 171 operations performed on out-door patients is unknown, not having been recorded. The total number of operations performed at civil hospitals was 3,252 and at dispensaries 2,035, showing an increase of 180 and 454 respectively over the previous year.

Operations on the organs of locomotion stand first on the list, *viz.* 1,000. Of these, 167 were performed on bones and 787 (including 688 reductions of dislocations) on joints. Next in order follow the operations on the urinary organs which numbered 981 with 55 deaths. Opening of abscesses amounted to 921 cases with 15 deaths, operations on the digestive organs 507 cases with 29 deaths, on eye and its appendages 495 cases with no fatal results, removal of tumours 388 cases with 3 deaths, amputations 240 with 20 deaths and obstetric operations 182 with 14 deaths.

Of the 981 operations on the urinary organs there were 67 operations for stricture of urethra and 866 for removal of vesical calculi. Of the latter, 393 were lithotomies (6 supra-pubic with 4 deaths, 390 lateral with 35 deaths, and 1 median and 1 recto-perineal with no death), 75 perineal lithotrities with 3 deaths and 393 litholapaxies with 7 deaths.

Operations on the digestive organs include 349 paracenteses of the abdomen with 15 deaths.

Of the obstetric operations, 62 were cases of turning with 4 deaths, 33 of application of forceps with 2 deaths, 55 of embryotomy (craniotomy 40 with 4 deaths and decapitation 1, bisection of body 2 and evisceration 12 with no death) and 20 for adherent placenta.

The total number of minor operations was 99,563, or 7,485 more than in the previous year.

The following lists show the number of major surgical operations performed by each officer in civil hospitals and dispensaries during the year under report as also the period during which each operator was present on duty, *viz.*:—

Mofussil Civil Hospitals.

Charge.	Name of Officer.	Period.	Number of operations performed.
Thána	Surgeon-Major K. R. Kirtikar	1st January to 5th September and 19th November to 31st December.	18

Eurasians	0·1	0·1
Other Castes	1·2	0·9

Statement No. V, Part I, shows the income and expenditure of the mofussil civil hospitals and dispensaries during the year. The total income was Rs. 7,80,602-10-0, of which Rs. 1,38,233-8-10 was the cash balance.

Rs. 3,16,025-11-8 were received from Government, Rs. 99,599-15-7 from Local Funds and Rs. 1,54,059-4-7 from Municipalities. The corresponding figures for the previous year were Rs. 3,18,421-3-6, Rs. 1,03,575-8-11 and Rs. 1,46,239-10-0 respectively. Interest on invested capital yielded Rs. 16,212-11-6 as compared with Rs. 19,790-3-11 in 1893, and the sale of securities or withdrawals of deposits amounted to Rs. 4,300-0-0 against Rs. 13,100-0-0 in the previous year.

Rs. 828-0-0 were received as subscriptions from Europeans and Rs. 13,804-11-8 from Natives as compared with Rs. 1,115-8-0 and Rs. 5,674-7-8 respectively in the preceding year, and Rs. 37,538-10-2 were realized by the sale of medicines not supplied by Government, hospital stoppages, sale of unserviceable articles, &c., &c., against Rs. 28,750-11-4 in 1893.

The total expenditure amounted to Rs. 6,59,694-15-11 as compared with Rs. 6,14,760-15-6 in 1893. Deducting from this Rs. 20,000-0-0 invested during the year, Rs. 334-13-11, the unexpended balance at the Baichardas Dispensary, Ahmedabad, which lapsed to the Municipality at the close of the official year, and Rs. 39,312-5-7 remitted into the Treasury on account of hospital stoppages, sale of unserviceable articles, &c., &c., the net expenditure was Rs. 6,00,047-12-5 against Rs. 5,65,419-9-0 in the previous year. The average cost of each diet was Rs. 0-2-5 and the cost per patient Rs. 0-5-3, or the same as in the preceding year. The percentage of total cost paid by Government was 46·1 as compared with 49·6 in 1893.

The following is an abstract of the cash account of the hospitals and dispensaries for the year 1894 as compared with the previous year :—

	Income.				Expenditure.			
	1894.		1893.			1894.		1893.
	Rs. a. p.		Rs. a. p.			Rs. a. p.		Rs. a. p.
Cash balance on 1st January ...	1,38,233 8 10		1,20,608 8 10		Paid by Government as salaries—

Total Income ...	7,80,602 10 0		7,57,275 14 2		Cost per patient	0 5 3		0 5 3

The opening balance of the year should correspond with the closing one of the previous year, but it will be seen that there is a discrepancy of Rs. 4,281-5-10, which is accounted for as follows :—

	Balance on 31st December 1893.	Balance on 1st January 1894.	Remarks.
	Rs. a. p.	Rs. a. p.	
Sirsi Dispensary ...	1,226 3 11	1,465 10 4	The difference is due to the interest on invested capital for the half-year ending 30th September 1893, paid in December 1893, *viz.* Rs. 239-6-5, not being included in the last year's report owing to want of intimation from the Treasury Officer, Kárwár.
Mundgod Dispensary ...	313 9 1	83 6 0	The balance now shown is correct, that shown by the predecessor of the present Hospital Assistant in last year's report being incorrect.
Páchora do. ...	1,051 12 0	1,049 7 4	The amount of income-tax (Rs. 2-5-0) deducted from the Hospital Assistant's salary was not accounted for on the expenditure side of the last year's statement, and hence the discrepancy.

	Balance on 31st December 1893.			Balance on 1st January 1894.			Remarks.
	Rs.	a.	p.	Rs.	a.	p.	
Kapadvanj Dispensary ...	329	12	6	231	1	1	The balance now shown is correct, that shown in the last year's report being incorrect.
Viramgám do. ...	297	10	4	290	10	4	The discrepancy of Rs. 7 was found on comparing the dispensary accounts with those of the Treasury. The balance now shown is correct.
Wadhwán do. ...	2,890	11	1	.....			The balance on 31st December 1893 was transferred to the Civil Station Fund, the dispensary being maintained by that fund.
Keti Bandar do. ...	1,349	1	11	349	1	11	The Hospital Assistant erroneously converted the invested capital of Rs. 1,800 into cash balance, whereas the securities of Rs. 800 only were sold in 1891 and those for Rs. 1,000 were actually in hand. The invested capital of Rs. 1,000 has therefore been excluded from the cash balance.
Jerruck do. ...	78	5	7	71	15	7	Travelling allowance of (Rs. 6-6-0) disbursed to the Hospital Assistant in 1893 by the Huzúr Deputy Collector was not taken into last year's account and hence the discrepancy.
Badin do. ...	6,719	2	0	6,706	0	6	The present Hospital Assistant's predecessor erroneously added Rs. 8-12-2 as interest to the cash balance and omitted to include Rs. 4-5-4 for want of intimation from the Treasury Officer though disbursed in 1893.
Moro do. ...	866	2	4	589	8	10	The balance now shown is correct, that shown in the last year's report having been incorrect.
Kashmor do. ...	367	8	5	371	11	5	Rs. 4-3-0 was erroneously debited by the Treasury Officer to the Dispensary Funds.

The following table shows the pay drawn by the Civil Surgeons during the year 1894:—

	Rs.	a.	p.
Thána	7,540	0	0
Ratnágiri	8,311	7	0
Kárwár	13,224	7	8
Poona	13,427	2	0

Sukkur	10,375	7	10
Aden (Civil Hospital) ...	8,248	2	7
Aden (European General Hospital)	12,909	1	9
Total ...	Rs. 2,53,138	8	7

Statement No. V, Part II, shows the account of the invested capital. On 1st January 1894 there was a balance of Rs. 4,63,900, Rs. 20,000 were invested during the year, making a total of Rs. 4,83,900. Securities worth Rs. 4,300 having been sold, there remained at the end of the year Rs. 4,79,600.

6. The following works were executed and paid for from the "Discretionary grant" at my disposal during the year 1894:—

	Rs.
Providing and fixing a swing half door on first floor of the St. George's Hospital	16
Laying patent stone floor to the store-room of the Civil Hospital, Ratnágiri...	143
Putting a door between the dispensary and office room at the Civil Hospital, Ratnágiri	50
Putting a window in the wall between the dispensary and the male ward at the Civil Hospital, Ratnágiri ...	24
Raising the floor of the bath-room to assist the drainage outside the compound wall of the Civil Hospital, Ratnágiri	23
Making certain additions and alterations to the Civil Hospital, Belgaum	47
Providing two new compound gates at the Civil Hospital, Shikárpur	70
Providing glazed windows to the two low caste wards of the Civil Hospital, Ahmedabad	275
Laying cement floors to the female and paupers' wards in the new Civil Hospital, Dhárwár	274
Constructing a sweeper's hut at the Civil Hospital, Ahmednagar	218
Providing wooden railing round the verandah of the Civil Hospital, Sátára	329
Providing iron-barred and ventilation shutter windows to the store-room of the Civil Hospital, Sátára ...	48
Providing an iron-latrine in the Hospital Assistant's quarters at the Civil Hospital, Sátára	48
	1,565

7. The Principal Medical Officer in the Sind District inspected all the civil hospitals, jail hospitals and dispensaries on his route and reported favourably on them. The Administrative Medical Officer of the Bombay and Aden Districts inspected the institutions in Aden and reported favourably on the Medical Officers and the working of the institutions.

8. All the dispensaries without exception were inspected during the year by the Civil Surgeons of the various districts.

Inspection Tour.

9. In the report on Civil Medical Institutions for the city of Bombay I gave the results of my inspections of the hospitals situated within the municipal limits of that city and I therefore omit them from this report.

18th October.—I inspected the Civil Hospital at Mahábaleshvar and found it in much the same condition as in the preceding year. Nothing has yet been done to remedy its numerous defects. The provision of quarters for the hospital staff cannot, however, be longer delayed, as the condition in which they live during the rains (rain-fall about 300 inches) must be most miserable; indeed they have to live the greater part of the time in the wards. The medical store supply was ample and the instruments well cared for, but some need repairs; and a few instruments of more modern pattern are required.

It is hoped that before long a new hospital will be built on a more suitable site partly by public subscription—an appeal which I have issued is being liberally responded to.

27th October.—Visited Pánchgani and inspected the dispensary and station and found the former in good order—much improved since the previous inspection. A waiting room for patients is much wanted. The instruments were found in good order and the medicines sufficient.

The conservancy of the station is defective for want of funds, there being no municipality or means for raising money.

29th October.—Inspected the Wái Dispensary and found it neat and clean, the instruments bright and the supply of stores sufficient. The building however is an old native one and in tumble-down condition.

30th and 31st October.—Inspected the Sátára Civil Hospital and found it clean and in good order, but much requires to be done to arrange it properly. As a surgical institution this hospital stands high, and it is hoped that before long its defects will be remedied. The books, records, instruments and stores were all in satisfactory condition, and several improvements in the building have been carried out since last inspection.

5th November.—Inspected the Ripon Hospital at Ahmednagar and found it in excellent order throughout. But though a new building, it has wants. Among these may be mentioned an operating room with a good light and a waiting room for patients. The books were correct, the instruments in good order and the medical supplies sufficient, but the countersigned contingent grant is insufficient.

9th November.—Inspected the Lord Harris Hospital at Násik and found everything in excellent order. But though this also is a new hospital, it has neither an operating room nor a waiting room for patients. Cells for supposed lunatics and a house for the sweeper are required. The amount of surgical work done at this hospital is not large but is increasing.

10th November.—Inspected the Lady Dufferin Hospital at Násik which adjoins the Civil Hospital and found it clean and in order and apparently well looked after by the Medical Officer, Miss Smith—a great improvement on last year.

12th November.—Inspected the Civil Hospital, Thána, and found it in fairly satisfactory condition. The building however is an old one and anything but a credit to the department. The wards are dark and dingy, there is no waiting room for patients, no proper dispensary and no room with sufficient light for surgical operations. Besides, the accommodation for medical subordinates is very defective, but it is hoped this will soon be remedied. There is very little surgery done at this hospital and it is difficult to say why this should be so. There were only 20 major operations performed throughout the year.

On the same date (in the evening) I inspected the C. R. Wadia Dispensary, Thána, and found everything in order, but the building is quite unsuited for its purpose and is too near the Civil Hospital. It is defective in every respect, and it is hoped that it will soon be replaced by a new one on a better site.

Inspected the jail hospital and found it in order. The Hospital Assistant being too junior has since been replaced by a senior and more efficient one.

13th November.—Inspected the site of the proposed Lunatic Asylum at Nowpada.

15th November.—Inspected the Mátherán Dispensary and found it in the same unsatisfactory condition as last year. The work of the dispensary is quite subordinated to that of the hill. Nothing can be worse from a medical point of view. But so far as it can be made under the present system and with the tiny space available it is in good order, a younger and more efficient Hospital Assistant being now in charge.

29th November.—Inspected the Sassoon General Hospital, Poona, and found the wards clean and tidy as usual, the medicines sufficient and the instruments in good order. But much requires to be done to make this hospital complete and in good working order. It has no out-door dispensary and no waiting room for out-patients,—the out-door patients being seen and treated in the central hall and verandah. The store-rooms are insufficient in size and badly placed,—especially the steward's store-room, which is very badly ventilated and much too small.

The cook-rooms were unpaved and without any convenience for keeping food preparatory to its being cooked. This has been remedied by an allotment of funds from my discretionary grant.

All the defects as regards drainage, &c., mentioned in last year's report remain as therein stated.

2nd December.—Left Poona for Sholápur and inspected the Sholápur Municipal Dispensary in the city the same evening and found it in fair condition. But with the exception of a few old wooden cots it is unfurnished and undecorated, no attempt being made to brighten and improve its appearance.

Good work is done in it however and the services of the Medical Officer appear to be appreciated by the public.

3rd December.—Inspected the Lady Dufferin Out-door Dispensary in the morning (it is in the heart of the city) and the Lady Dufferin Hospital and the Civil Hospital at Sholápur in the afternoon. The first was fairly satisfactory, but the building is not well suited for its purpose. The second is in better order than it was at my visit last year.

The Civil Hospital I found in good order throughout, but, as in most hospitals, the great wants are an operating room with a good northern light and a waiting room for out-door patients. Plans and estimates for remedying these defects are being prepared and they can be carried out when funds are available. Much good work is done at this hospital and its usefulness would be extended if the defects above noted were remedied.

5th December.—Inspected the Civil and Jail Hospitals at Bijápur and found both in excellent order. The latter however is too small, but I was informed that it is to be enlarged at an early date.

As at all other hospitals, the want of a good operating room is much felt at the Civil Hospital which, though a new building, is unprovided with one.

10th December.—Inspected the Lunatic Asylum and Jail Hospital at Ratnágiri this morning and the Leper Asylum in the evening. Found all in excellent order. There are too many cook-rooms in the former institution and as sanction for the addition of two separate cells has been given, I consulted the Executive Engineer as to the fasibility of turning two of them into cells and utilizing the balance for enlarging one of the others and converting it into a central cook-house for the whole asylum, so that it might be constantly under the eye of the Hospital Assistant.

11th December.—Inspected the Civil Hospital at Ratnágiri in the afternoon and found it clean and neat, the instruments in good order and the medicines ample. But much requires to be done to put the hospital and subsidiary buildings in good and suitable condition. Quarters for medical pupils were being constructed, but there are no servants' houses. Rough plans for the latter were shown to me and approved with some minor alterations. But the hospital latrine—a small closed room saturated with impurity—should be removed and replaced by an iron one. Very little surgical work is done at this hospital. The operating room is badly lighted, and in the rainy season it is not possible to perform the more delicate operations without artificial lighting. I have no doubt the small amount of operative work is in part due to defective accommodation.

18th December.—Left Ratnágiri on the 12th *en route* for Belgaum *viâ* Bombay. Arrived on the 17th and inspected the Civil Hospital on the 18th December. The building is an old one without any conveniences—it was originally a gun shed—and is in my opinion unsuited for its purpose. But so far as the Civil Surgeon could make it, it was neat and clean. The hanging of a few pictures on the walls, the provision of a screen to separate the Police from the other male patients and a few other minor changes, with the addition of some extra furniture during the year, has improved the appearance of an otherwise dull building. There is no operating room, no quarters for the Second Hospital Assistant, for the medical pupils or for the servants on the establishment.

It is satisfactory to be able under these circumstances to report that good and increasingly large amount of work is done at this hospital. The number of major operations has been more than double during the year. For this very favourable result credit is, I think, due to Surgeon Lieut.-Colonel Greany and Surgeon-Major Peacocke and to Hospital Assistant Piraji Sewaji.

In the evening I inspected the municipal dispensary and found it in better order than on the last occasion—a more efficient Medical Officer being now in charge.

20th December.—Inspected the Dhárwár Civil Hospital and found it neat and clean throughout, the instruments well cared for and the medical stores sufficient. The only urgent want is an operating room. A plan for one has been drawn and will, I hope, soon be submitted for the orders of Government.

21st December.—Inspected the Dhárwár Jail Hospital and the Lunatic Asylum. The former is a dingy place but not unsuitable for prisoners. The latter is satisfactory in all respects so far as the Superintendent and Hospital Assistant can make it. It is a bright and cheery looking place. It requires some alterations, however, and these have been sanctioned by Government. Warders' quarters are much wanted and, in my opinion, it would be well to construct a separate ward and cells for criminal lunatics for which there is no accommodation either here or at Poona. There are now Hospital Assistants for both the Lunatic Asylum and Prison instead of one for the combined institutions as hitherto.

22nd December.—Travelled to Hubli and inspected the Hubli Dispensary—new and old. The old one has been condemned but the new one was almost ready for occupation. It has since been opened and is a great improvement on the old one, but like all institutions in this Presidency, it is minus an operating room and waiting accommodation for out-patients. I hope these will soon be supplied however.

23rd December.—Travelled to Gadag, inspected the dispensary and returned the same evening to Hubli. Many alterations are required to make this dispensary building suitable. Dispensary and everything connected with the out-patient department

is done in the verandah, a narrow one,—there being no waiting room, no operating room and only an apology for a consulting room. The patients crowd round the compounders, which is very objectionable. Further the mortuary is nearly half a mile off and is in a bad state. I pointed out all these defects to two members of the dispensary committee and they promised to do what in them lay to remedy them.

28th December.—Returned to Poona to complete the inspections there and inspected the Lunatic Asylum. The books were correctly kept and completed up to date.

One of the wards—a portion of the old Civil Hospital—required re-roofing, roof ventilation and raising of the back verandah to the ward floor-level and this had just been completed,—partly at the expense of my discretionary allowance—a great improvement.

The wants of this asylum are (*a*) accommodation for criminal lunatics, (*b*) day and work sheds for both males and females, (*c*) better and larger kitchen accommodation, (*d*) land for agricultural purposes, &c.

2nd January 1895.—Completed the inspection of the Sassoon General Hospital. The books were well kept and up to date. The paving of the cook-rooms will soon be taken in hand. At present they are most unsightly and there are no chimneys. The alterations have since been completed.

Safes are required for keeping various articles of diet and will be provided, also a small cupboard to prevent the cooks' using the floor. Some of these defects have since been remedied.

Inspected the Byramji Jijbihoy Medical School, Poona, and the dormitories of the students. All was clean and in order. But in my opinion so many young lads should not be left to their own devices as they are at present. A few more rooms should be built—single-storied—and part of the present building should be given to one of the Assistant Surgeons (Teachers) rent-free on condition that discipline is maintained. There were no serious disturbances during the past year, but some irregularities did occur and three or four years ago there was a regular *emute*. At the Ahmedabad School an Assistant Surgeon resides on the premises and the students' studies and games are superintended by him. During the past year this plan has been found to work well. In Poona one of the senior students takes the place of the resident teacher but, as might be expected, the result is not satisfactory.

4th January.—Inspected the Khán Bahádur Pestonji Sorabji Charitable Dispensary in the city of Poona. I was well satisfied with the management and found all in order, but the accommodation is not good—though much improved in recent years. The Municipality occupy the upper floor as an office, while the Assistant Surgeon in charge of the Dispensary lives at a distance of nearly half a mile. In my opinion the Medical Officer should live on the premises.

6th January.—Inspected the Convalescent Home at Khandálla and found it in admirable order and well managed by Mrs. Tarrant, the Lady Superintendent. A wing for children, suggested last year, is about to be built. This, I think, should be single-storied and have a wide verandah. The institution is a very useful one and thanks are due to the Medical Officer of the G. I. P. Railway at Lanowli—Dr. Field—for his disinterested and gratuitous services to the institution.

10th January.—Travelled to Surat and inspected the Cawasji Jehangir Civil Hospital and found everything in excellent order—clean and tidy. Several improvements have been carried out. The old boxes in which clothing, &c., were kept have been replaced by shelves on the walls fitted with doors, pictures for the walls of the wards have been provided and new quarters for the Hospital Assistants have been sanctioned and will, it is hoped, soon be built.

The amount of surgical work done at this hospital is fair, but might, I think, be increased. I am glad that Surgeon-Major Nariman takes considerable personal interest in the out-patient department, with favourable results.

In the evening I inspected the C. F. Parekh Dispensary and found it in good order. Khan Bahádur Dossabhoy Pestonji is an excellent officer and keeps the premises clean and neat, but the amount of surgical work done is very small for such an important institution. Only six cases were treated as in-door patients and only 12 major operations performed during the year.

The books were up to date, the medicines sufficient, but the instruments did not appear to show that sufficient care had been bestowed on them.

11th January.—Inspected the Ránder Dispensary this morning. The building is quite unsuited for its purpose and quite unworthy of such a town as Ránder, but it is hoped that ere long it will be removed into newer and better premises. The work done at the dispensary is considerable and the institution seems to be growing in the estimation of the people.

The same day travelled to Navsári and inspected the Victoria Dispensary at Kaliavadi. It is badly arranged, and though well endowed, is practically a barn. The wards are bare and uninviting No attempt to make them nice by furnishing them and decorating the walls with pictures has been made and yet Rs. 1,000 was invested last year.

There are no quarters for the Assistant Surgeon, who lives at a distance of two miles—in Navsári. There are very few in-door patients and the number of out-door patients is small—quite incommensurate with the importance of the institution. It is hoped that the committee will take early steps to improve the condition and working of the institution.

12th January.—Inspected the Sir. D. M. Petit Dispensary, Bassein, and found it in fair order. No repairs, however, have been done during the past three years and are now very much required. The floors throughout require relaying, and that portion of the building devoted to the out-patient department re-arranging and dividing.

The compounders, though employed for nine years, have not yet passed the examination laid down in paragraph 17 of the Dispensary Rules. The Medical Officer was requested to see to this. It is hoped that early steps will be taken to remedy the defects brought to notice. The supply of medicine was sufficient and the instruments in fair order, but provision for dieting and clothing paupers had not been made.

15th January.—Returned to Bombay for the committee for revision of the plans of the Nowpada Lunatic Asylum, which detained me till the 22nd January.

24th January.—Travelled to Wadhwán on the 22nd—23rd January and inspected the dispensary on the 24th. It was neat and clean and in good order throughout. The stores were sufficient, the instruments clean and bright and the in-patients (8) comfortable. The wants of this dispensary are a cook and a cook-room. The institution is well managed by Ráo Bahádur Thakurdas K. Dalal, the popular Assistant Surgeon in charge.

26th January.—Inspected the West Hospital, Rájkot and found everything in admirable order and very clean and tidy. Both Surgeon-Lieutenant-Colonel Barker and Miss Goldney take the greatest interest in the institution. At all institutions where much surgical work is done the great want is accommodation for the patients' friends who almost invariably accompany them. In my opinion a few rooms should always be available for them. All the books, instruments and medicines were correct and in order.

28th January.—Inspected the Viramgám Dispensary *en route* to Khárághoda. The whole building is very much in want of repairs and the arrangements for dispensing are not good. In my opinion a new building for this and the branch dispensary should be built in the town. Efficiency and economy would result from this amalgamation. The stores are sufficient, the instruments in fair order and the books correct.

Inspected the Khárághoda Despensary and found it in order throughout. But the accommodation for in-door patients is very poor, the wards—if they can be called such—being dark and dingy, more suited to the accommodation of native servants than the sick. Mr. Kapadia seems efficient and popular.

29th January.—Travelled to Ahmedabad and inspected the Bechardás Dispensary the same evening and found it in good order. The wards were full of surgical cases. Mr. Cooper performed 73 major operations during the past year. He is an excellent surgeon and keen operator. The books were correct and the instruments and medical stores well cared for.

30th January.—Inspected the Ranchodlál Dispensary and Victoria Jubilee Dispensary for women and children and found both institutions in good order, clean and tidy. At the former Mr. Ghandhy is doing good work, while at the latter Miss Kapadia seems very popular. When the new obstetric wards, for which the Honourable Ráo Bahádur Runchodlál has provided the money, have been added, the Victoria Jubilee Dispensary will be a very important institution with a great future before it. The foundation stone of the new wards was laid by His Excellency Lord Harris in November 1894. The compounds of these dispensaries are small and, in my opinion, a strip of land, at least 20 feet wide, should be added thereto, behind, where Government land, now unused, is available.

In the evening I visited the Ráipur Municipal Dispensary and found it clean and in order and the books correct and up to date. The interior of the building wants re-arranging for dispensing and consulting purposes, and I have made suggestions accordingly which, I trust, will be carried out.

31st January.—Inspected the Huttesing and Premabhai Civil Hospital and the Byramji Jijibhoy Medical School, Ahmedabad, and found them in admirable order and creditable to the management of Surgeon-Major McCloghry. But much yet remains to be done to make the Civil Hospital complete. Last year I suggested the building of an out-door dispensary and endeavoured to get some one to provide money for building an ophthalmic hospital. Since then a charitable gentleman, Khán Bahádur Nowroji Pestonji Vakil, has kindly offered Rs. 25,000 on certain

conditions for the construction of both buildings and the matter is now under the consideration of Government, and I trust it will soon be found possible to commence operations.

In the evening I visited and inspected the Kagrapeth Leper Asylum and the Infectious Diseases Hospital which are worked in connection with the Civil Hospital. The compound is a large one and the buildings, though not palatial, are suitable. The immates of the Leper Asylum seem well cared for. The Infectious Diseases Hospital was empty.

1st February—Visited the Lunatic Asylum. The accommodation for insanes is not quite sufficient and is not very good. The separate cells are small, the verandah, very narrow (2½ feet), and as the cells are placed back to back, there is no through draught and must be very hot in summer. It is proposed to add accommodation for 25 criminal lunatics, and the matter is now before Government.

The great wants of the asylum are day rooms or shelter sheds, work sheds, better ventilation, quarters for the Hospital Assistant (who now occupies rooms built originally for warders) and additional rooms for warders.

The books were found to be neatly and correctly kept and the asylum well and economically managed.

In the evening visited hospital of the Central Prison at Sábarmati. The prison and hospital are new, and the latter, at all events, is not good of its kind or sufficiently large. There were 960 prisoners in jail and of these 24 were in hospital, 4 were convalescents and 77 (chiefly itch cases) were treated as out-patients in a barrack room. The hospital has accommodation for about 20 patients only and is too narrow (16 feet), the doors are badly placed and being "barred" and without means of shutting out the cold winds, are not well suited to a climate like that of Ahmedabad in winter. The clerestory windows are like the doors, and being unprotected and unglazed, must admit both the cold winds and rain. There are no night urinals and no medical store-room, while the mortuary and infectious diseases ward are situated at opposite corners of the prison and to the windward of the barracks. So far as the Medical Officer could make it, the whole was in good order.

4th February.—Inspected the proposed arrangements for the temporary accommodation of the sick belonging to the Agency, as also the site of the proposed new Scott Memorial Hospital at Pálanpur. I also visited the Agency Jail and His Highness the Diwán's (Goodfellow) Hospital and was generally pleased with what I saw.

5th February.—Inspected the Bai Manekbai Byramji Jijibhoy Dispensary at Mehmadabad and found it in excellent order—clean and well cared for. The Hospital Assistant occupies part of the hospital which is objectionable, but separate quarters are in process of erection and will soon be ready. Other defects will be gradually remedied and in a few years the dispensary will, I hope, be a fairly complete one.

Travelled to Kaira and inspected the Civil Hospital there in the afternoon. It is in a transition state—a police ward and quarters for the two Hospital Assistants being under construction, but when finished will be a great improvement and addition to the accommodation of the institution—for at present the Hospital Assistants occupy space in the main building which ought to be available for the sick.

The wards were clean and neat, though unadorned, but the bedsteads are neither good nor sightly. The store-rooms require fitting, and accommodation for the sweeper is wanted.

I was quite satisfied with the management.

7th February.—Travelled to Godhra and inspected the Civil Hospital there and found all in order and the institution well managed by Surgeon-Major Mistri.

8th February.—Travelled to Broach and inspected the A'nand Dispensary *en route*. The large central room now used for all purposes—office, waiting-room, consulting room and for dispensing—should be divided and fitted properly to suit these requirements. Privacy in ordinary consultations even is very necessary. Otherwise I found all in order, the premises and instruments clean and the books correctly kept.

9th February.—Inspected the Broach Civil Hospital and found it well cared for throughout by Surgeon-Captain Jones. The great want of the hospital is an operating room with a good northern light. The room now used for the purpose is in the centre of the building and, owing to defective light, is quite unsuited for the purpose. The amount of surgical work done at this hospital has always been small and it may be that it is due partly, at all events, to this cause.

11th February.—Attended the laying of the foundation stone of the new lunatic asylum at Nowpada by His Excellency the Governor.

10. The Officers in charge of Civil Hospitals and Dispensaries in the mofussil have, with very few exceptions, done excellent service throughout the year, and I have much pleasure in bearing testimony to the excellent work done. Where all have done so well it is difficult to compare results, more especially as opportunities for work vary so at different institutions. But as was done last year, taking the number of major surgical operations as a test of good work done, I beg to give the following table :—

Surgeon-Major W. H. Burke	459	
Brigade-Surgeon Lieutenant-Colonel J. F. Keith ...	247	Retired 6th May 1894.
Surgeon-Major W. G. H. Henderson	203	
Do. J. W. T. Anderson	108	
Do. W. A. Corkery	102	
Surgeon-Captain Scroggie	83	
Hospital Assistant H. E. Anklesaria	80	
Assistant Surgeon D. E. Anklesaria	79	
Do. K. B. Cooper	73	
Surgeon-Major J. H. C. Peacocke	71	
Do. K. S. Nariman	71	
Brigade Surgeon Lieutenant-Colonel G. Bainbridge...	69	
Surgeon-Major D. C. Davidson	65	For 3 months only; performed 291 operations besides in Bombay.

11. In conclusion I beg to bring to the notice of Government the names of Brigade Surgeon Lieutenant-Colonel Bainbridge, Surgeon-Majors Henderson, Davidson, Anderson and Burke for good surgical, medical and administrative work done, and those of Assistant Surgeons Cooper and Anklesaria and Hospital Assistant Anklesaria for good surgical work.

I have the honour to be,
Sir,
Your most obedient Servant,

P. S. TURNBULL, M.D., Surgeon-Major-General,
Surgeon-General with the Government of Bombay.

APPENDIX I.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT No. 1.

Showing the Classification of the Mofussil Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1894.

* The predecessor of the present Hospital Assistant erroneously showed Rs. 100 as balance of invested capital in hand on 31st December 1893, though there was no invested capital, the promissory notes of Rs. 2,500 (not Rs. 2,400) having been sold in the year 1893 for the new dispensary building.

† The predecessor of the present Hospital Assistant erroneously converted the invested capital of Rs. 1,000 into cash balance in the year 1891 when Rs. 800 were sold out of Rs. 1,800, and Rs. 1,000 remained actually invested.

‡ Rs. 600 were found to be the actual invested capital on a reference to the Deputy Commissioner, Upper Sind Frontier.

Annual Reports.—

Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1894.

General Department.
No. 4094

Bombay Castle,
4th October 1895.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—449, dated 5th July 1895—

Submitting the Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1894.

RESOLUTION.—In this report the Surgeon General deals with 296 civil medical institutions as compared with 284 dealt with in his report for 1893. The difference is partly accounted for by the opening of 5 new institutions during the year under review, but it appears that 7, which should have been included in, were omitted from, the last report. The 296 are distributed as follows:—

	Hospitals.	Dispensaries.	Leper Asylums.
Konkan	3	30	2
Deccan	9	84	...
Gujarát	7	52	...
Sind...	4	43	...
Native States	5	49	...
Foreign (Aden, Somáli Coast and Persian Gulf) ...	4	4	...
Total ...	32	262	2

2. An increase from 2,160,898 to 2,327,598 in the total number of patients is reported, and there was also an increase in daily average attendance. The ailments to which the largest number of admissions were due were malarious fevers (473,300), skin diseases (305,204), eye affections (231,041) and worms (227,638). There was an appreciable increase in the number of major surgical operations, of which 3,252 were performed at hospitals and 2,035 at dispensaries. The total expenditure is given as Rs. 6,59,695 as compared with Rs. 6,14,761 in the year 1893, but from these figures "investments" amounting in the former case to Rs. 20,000 and in the latter to Rs. 1,900 should be deducted.

3. It will be convenient to consider separately the statistics for hospitals and those for dispensaries. The former are Provincial institutions, in charge of Civil Surgeons: their expenditure is debited to Provincial Revenues, to which also items of receipt are credited. Dispensaries on the other hand are, for the most part, maintained by Municipalities or District Local Boards, whose revenues receive credit for Government grants and other items of receipt. Omitting from consideration "Native State" and "Foreign" hospitals and dispensaries, and leper asylums, the following are the statistics of attendance at the medical institutions under report:—

I.—Hospitals.

	Total number of Patients.		Average daily strength.	
	In-door Patients.	Out-door Patients.	In-door Patients.	Out-door Patients.
Konkan, 3 hospitals	974	18,979	46·8	211
Deccan, 9 „	6,768	91,331	298·4	833
Gujarát, 7 „	5,031	90,377	221·7	959·7
Sind, 4 „	2,876	29,379	107·3	314·9
Total...23 „	15,649	230,066	674·2	2,318.6

II.—Dispensaries.

	Number of Dispensaries.	Number of Patients.		Daily average strength.	
		In-door Patients.	Out-door Patients.	In-door Patients.	Out-door Patients.
Konkan	30	1,143	207,888	45·8	1,989·7
Deccan	84	2,203	655,436	92·2	5,388
Gujarát	52	2,648	413,274	106·4	4,113·8
Sind	43	2,152	262,753	84·8	2,379·2
Total... ...	209	8,146	1,539,351	329·2	13,870·7

4. From the above two statements it appears that the average daily attendance at a hospital was 29 in-patients and 101 out-patients, and at a dispensary 1·6 in-patient and 66 out-patients. In other words, while in the case of out-patients the attendance at a hospital was, on an average, only 53 per cent. in excess of the attendance at a dispensary, in the case of in-patients the attendance at the former was 18 times as large as at the latter.

5. The following table is an abstract of the expenditure in the year under review on the 23 hospitals and 209 dispensaries mentioned above. The figures are taken from the Surgeon General's Statement No. V, but sums shown therein as having been invested during the year are excluded, as being rather of the nature of closing balance than expenditure :—

	23 Hospitals.	209 Dispensaries.
	Rs.	Rs.
Establishment	72,700	2,46,465
Bazár Medicines...	1,953	5,915
European Medicines	30,807	80,421
Diet	26,193	5,390
Miscellaneous (including repairs) ...	48,077	67,050
Total ...	1,79,730	4,05,241

6. The average expenditure per annum works out as shown in the following table, which is of interest when compared with the figures in paragraph 4 above :—

	Establishment.	Bazár Medicines.	European Medicines.	Diet.	Miscellaneous.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Average per hospital ...	3,160	83	1,339	1,139	2,090	7,031
Average per dispensary ...	1,180	28	385	26	328	1,947

7. It may be observed that the real cost to Government of maintaining hospitals is somewhat in excess of that shown above, for a large portion of the time of Civil Surgeons in the mofussil is devoted to hospital work, though their salaries are not included in the returns of hospital expenditure.

8. The expenditure shown above falls chiefly on Government in the case of hospitals and chiefly on local bodies, *i.e.*, Municipalities and District Local Boards in the case of dispensaries. The extent to which the 23 hospitals and 209 dispensaries were supported otherwise than by Government is shown below under four heads, which comprise the figures for so-called "Income" in State-

ment V, omitting Provincial grants and a few petty items of a miscellaneous nature:—

	23 Hospitals.	209 Dispensaries.	Total.
	Rs.	Rs.	Rs,
Local Board's Grants	7,572	89,519	97,091
Municipal Grants	9,898	1,34,706	1,44,604
Interest	38	15,173	15,211
Subscriptions	1,556	5,682	7,238
Total ...	19,064	2,45,080	2,64,144
Average ...	829	1,172	...

9. In other words, these institutions were independent of Government aid to the extent of 10·6 per cent. of their expenditure in the case of hospitals, 60 per cent. in that of dispensaries, and 47 per cent. in that of both.

10. The Surgeon General should be asked to review the working of the rules for hospital "Stoppages" or fees in future reports, and to state separately the receipts on this account at each hospital and dispensary. In the present report the figures are mixed up with other statistics and it is impossible to draw any inferences regarding them except that they were in most cases of a very trifling amount.

11. In other respects it appears unnecessary to comment on or add to the remarks of Surgeon-Major-General Turnbull. His report is concisely compiled and he made an extensive and observant tour. Many of the matters dealt with in his inspection notes have already formed or will hereafter form the subject of separate correspondence. His Excellency the Governor in Council recognizes the good work done by the majority of the medical officers, to which the Surgeon General bears testimony in the concluding paragraphs of his report.

No. S. B. / 458 of 1896.

From

THE SURGEON-GENERAL WITH THE
GOVERNMENT OF BOMBAY;

To

THE CHIEF SECRETARY TO GOVERNMENT,
General Department,
Bombay.

Bombay, 29th June 1896.

SIR,

I have the honour to submit my annual Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries of the Bombay Presidency for the year 1895. The summaries of the annual reports of medical officers and subordinates in charge of civil hospitals and dispensaries as well as those of medical schools are also appended.

2. At the close of the year 1895 there were 191 pupils in the three Provincial Medical Schools, distributed as follows :—

Classes of Pupils.	Byramji Jijibhoy Medical School, Poona.				Byra'mji Jijibhoy Medical School, Ahmedabad.				Medical School, Hydrabad.				Total.			
	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.
Native Military	4	5	5	14	4	4	5	13	...	...	...	...	8	9	10	27
Stipendiary	5	5	5	15	5	5	5	15	4	8	15	27	14	18	25	57
Native State	4	4	11	19	1	1	2	4	...	...	...	...	5	5	13	23
Paying	...	2	4	6	17	9	13	38	...	2	2	4	17	13	19	43
Civil Medical	10	7	11	28	2	2	2	6	...	1	3	4	12	10	16	38
Free	...	...	...	...	...	2	1	3	...	...	...	...	...	2	1	3
Total ...	23	23	36	82	23	23	28	74	4	11	20	35	56	57	84	191

3. The following estimates show the present prospects of recruiting the Civil Hospital Assistants :—

Sanctioned strength	273	
20 per cent. reserve	54	
		327
Present strength (on 31st March 1896) ...	323	
Deficiency ...	4	

There are 12 third-year civil medical pupils—10 in Poona and 2 in Ahmedabad. If they all pass in September next, the number required to complete the sanctioned strength will be complete.

4. At Poona Surgeon-Major W. H. Burke, M.B., performed the duties of the Superintendent, in addition to his own, from 9th March to 8th June 1895, during the absence of Surgeon-Lieutenant-Colonel W. McConaghy, M.D., on privilege leave. Assistant Surgeon E. S. Bharucha succeeded Assistant Surgeon Ráo Sáheb Bhikáji Amrut Chobhe, who retired from the service on the 12th June 1895. At Ahmedabad Surgeon-Lieutenant-Colonel James McCloghry, F.R.C.S.I., acted for Surgeon-Lieutenant-Colonel M. L. Bartholomeusz, M.B., C.M., till the 1st November 1895. Assistant Surgeon D. E. Kotháwála acted till the 1st February, when Assistant Surgeon N. K. Kaliánwálla took charge from him; Assistant Surgeon Nilkanth Dáhyábhái took charge for one day, *viz.* 20th March 1895, and Assistant Surgeon N. K. Kaliánwála resumed charge on the 21st March 1895. 1st Class Hospital Assistant Laxmansingh Arjunsingh, the Teacher of Materia Medica, retired from the service on the 10th January 1895

and was succeeded by First Class Hospital Assistant Rámsingh. The teaching staff at Hyderabad remained the same, with the exception of Assistant Surgeon J. E. Bocarro, who had gone on three months' privilege leave. Assistant Surgeon Jivatrám Alimchand Lálváni acted for Assistant Surgeon Bocarro, who returned on 1st March 1895. Mr. Bocarro was transferred to Sholápur and subsequently to Rájkot as Assistant to the Agency Surgeon, and the duties were again performed by Assistant Surgeon Jivatrám when he was succeeded by Assistant Surgeon Rámchandra Shiváji Poredi and transferred to the Lárkhána dispensary.

5. As the summaries of the annual reports of all medical institutions for the year under review are given in Appendix I, I shall briefly note the more important points of the statistical statements given in Appendix III.

6. Statement I. shows the classification of hospitals and dispensaries. On 1st January 1895 there were 296 institutions open against 284 in 1894 and 258 in 1893. During the year, 10 new ones (Bhatkal in the Kánara, Niphád in the Násik and Nipáni in the Belgaum districts, Umdi in Kolhápur and Southern Mahrátta Country, Lord Harris Travelling Dispensary, Daskroi Táluka, in Ahmedabad, Bhúj Branch in the Cutch State and Matári in the Hyderabad, Sanghar in the Thar and Párkar and Ubauro and Garhi Yássin in the Shikárpur districts, were opened against 5 in 1894 and 9 in 1893. One (the Aden Quarantine Hospital) has been shown in the report for the first time, though opened two years ago, against 7 in 1894 and 17 in 1893. The Mátar and Mehmadabad travelling dispensaries, which were formerly two distinct institutions, were amalgamated as one institution. Thus the total number of institutions open at the end of the year 1895 was 306 as compared with 296 in 1894 and 284 in 1893.

7. Statement No. II. is a return showing the number of patients treated. The following table gives the number of patients (both in-door and out-door) treated as compared with the two previous years :—

	In-door.	Out-door.	Total.
1895 ...	30,848	2,351,221	2,382,069
1894 ...	30,281	2,297,317	2,327,598
1893 ...	28,489	2,132,409	2,160,898

It will be seen that there is a steady increase in the number of in-door and out-door patients every year. The results of the in-door patients treated in 1895 as compared with 1894 and 1893 are :—

	1895.	1894.	1893.
Cured	21,817	21,848	20,890
Relieved	2,913	2,717	2,414
Discharged otherwise ...	3,064	2,700	2,339
Died	1,766	1,755	1,543
Ratio of deaths to treated ...	5·7	5·7	5·4

and the daily average sick was :—

	Men.	Women	Children.	Total.
1895 ...	1,136·3	181·4	95·0	1,412·7
1894 ...	1,110·8	187·3	85·2	1,383·3
1893 ...	1,031·4	182·2	81·1	1,294·7

Of the out-door patients there were :—

	Attended personally.	Represented by friends.	Daily average strength.
1895 ...	2,159,535	191,686	20,208·1
1894 ...	2,112,619	184,698	20,911·5
1893 ...	1,918,108	214,301	20,726·5

Of the total number of in-door and out-door patients, 359,470 were treated at the Civil Hospitals and 2,022,599 at dispensaries, as compared with 365,218 and 1,962,380 in 1894 and 341,458 and 1,819,440 in 1893, respectively. The number of beds available were :—

	Male.	Female.	Total.
1895 ...	2,150	884	3,034
1894 ...	2,068	877	2,945
1893 ...	2,006	860	2,866

8. Statement No. III. shows the diseases for which the patients were treated. The following table shows the principal diseases for which the patients were treated, as compared with the two preceding years :—

	1895.	1894.	1893.
Small-pox	195	218	237
Cholera	1,813	3,900	3,692
Dysentery	37,570	36,460	28,726
Malarial fevers	430,383	473,300	434,113
Venereal affections	33,581	33,104	31,911
Worms	239,486	227,638	229,046
Leprosy	1,005	1,012	940
Rheumatic affections	60,474	58,552	55,846
Diseases of the eye	224,555	231,041	219,758
Do. ear	84,366	83,738	75,465
Diarrhœa	52,238	50,499	43,874
Skin diseases	342,594	305,204	263,887

Of the venereal diseases, 7,303 were treated for primary syphilis, 12,274 for secondary syphilis, 10,912 for gonorrhœa and 3,092 for other venereal affections as compared with 6,790, 12,301, 10,808, and 3,025 in 1894 and 7,003, 11,210, 10,487 and 3,211 in 1893, respectively. The table below gives the number and the ratios per cent. of the above diseases to the total treated in the various divisions :—

From the above table it will be seen that small-pox, cholera, malarial fevers and leprosy were less prevalent during the year 1895 and show a marked decrease over the two previous years, whereas dysentery, venereal diseases, worms, rheumatic affections, diseases of the ear and skin and diarrhœa were more common and returned a larger number of admissions than in 1894 and the year previous. The cases treated of eye diseases show a decrease over 1894 but an increase over 1893.

As regards the number of cases treated of various diseases, malarial fevers, as usual, stand first on the list. Next in order follow skin affections, worms, eye and ear diseases, rheumatic affections, diarrhœa, dysentery and venereal affections.

It is very satisfactory to note that the number of cases of malarial fevers have much diminished as stated above. The causes assigned to the prevalence of these fevers have been given in my previous reports and may be briefly summed up here, *viz.*, heavy rainfall leading to increase of sub-soil water, bad and imperfect drainage, bad, unsuitable or deficient food, deficient and unseasonable clothing, polluted water-supply and insanitary dwellings. Until the sanitary life of the people improves, this class of diseases will probably always head the list and no permanent reduction in the admissions from this disease can be hoped for.

9. Statement No. III A. is a return of major surgical operations performed during the year with their results as briefly indicated in the following table:—

	1895.	1894.	1893.
Remaining on 1st January	155	115	128
Performed during the year	6,305	5,172	4,525
Total ...	6,460	5,287	4,653
Cured	5,280	4,395	3,955
Relieved	424	294	266
Discharged otherwise	149	112	81
Died	167	162	118
Remaining under treatment	187	155	116
Percentage of deaths to total operations .	2·5	3·0	2·5

The result of 253 operations performed on out-door patients being unknown was not recorded. The total number of major surgical operations performed in Civil Hospitals and Dispensaries was:—

	Civil Hospitals.	Dispensaries.
1895	3,716	2,744
1894	3,252	2,035
1893	3,072	1,581

The opening of large and deep abscesses stands first on the list with 1,239 cases and 18 deaths as compared with 921 cases and 15 deaths in 1894 and 640 cases and 21 deaths in 1893. Next in order follow the operations on the organs of locomotion with 1,212 cases against 1,000 in 1894 and 795 in 1893; urinary organs with 1,087 cases as compared with 981 in 1894 and 1,298 in 1893; digestive organs with 608 cases against 507 and 342 in 1894 and 1893, respectively; the eye and its appendage with 551 cases against 495 in 1894 and 529 in 1893. There were 478 cases of removal of tumours as compared with 388 in 1894 and 281 in 1893. Amputations of limbs are credited with 282 cases against 240 and 241 in 1894 and 1893, respectively, and obstetric operations with 216 as compared with 182 in 1894 and 119 in 1893.

Of the operations on the organs of locomotion, 182 (including 116 for removal of large or deep sequestra) were on bones, 979 (including 823 reductions of dislocations) on joints, 18 on muscles, tendons, fasciæ and bursæ and 33 on connective tisue, as compared with 167, 787, 17 and 29 in 1894 and 107, 649, 24 and 15 in 1893, respectively.

Of the operations on the urinary organs, 946 were for removal of vesical calculi, of which 399 were by lithotomy (6 supra-pubic with one death, 390 lateral with 28 deaths and 3 median with one death), 32 by lithotrity perineal, all successfully performed, and 515 by litholapaxy with 8 deaths. There were 72 operations for stricture of the urethra—35 by forcible dilatations, 3 by internal and 34 by external urethrotomies (with 3 deaths).

Operations on the digestive organs include 382 cases for paracentesis of the abdomen with 20 deaths and 80 for hœmorrhoids, 41 for division of sphincter ani and 33 for exploration of liver with no deaths, and 7 for abdominal section with 4 deaths.

Out of the operations on the eye and its appendages, 63 were for eye-lids, 106 on other appendages of the eye and 382 on the eye-ball (including 216 for extraction of the lens).

Operations on the limbs as a whole include amputation of legs in 83 cases with 8 deaths, of thigh in 22 cases with 6 deaths and of fore-arm in 38 cases with 3 deaths.

Of the obstetric operations, 70 were cases of version with 2 deaths, 53 of delivery by application of forceps with 1 death, and 55 of embryotomy (42 of craniotomy with 4 deaths and 9 of evisceration with 2 deaths, and 2 each of decapitation and bisection of the body—all successful). There was only one

case of cæsarian section, which proved fatal. Of the 24 cases of adherent placenta, 23 were cured and 1 died.

10. The following list shows the number of major surgical operations performed by each officer during the year 1895 and the period during which he was present :—

Mofussil Civil Hospitals.

Charges.	Name of Officer.	Period.	Number of operations performed.
Thána	Surgeon-Major K. R. Kirtikar ...	Whole year	13
	Hospital Assistant Rájanna Lokáji.	Do.	1
Ratnágiri... ...	Surgeon-Major J. Crimmin, V.C.	1st January to 4th July ...	12
	Do. M. A. T. Collie, M.B., C.M.	5th July to 31st December.	7
	Hospital Assistant Rámji Bápuji .	Whole year	1
	Do. Gopál Raghunáth.	Do.	1
Westropp Civil Hospital, Sávantvádi.	Doctor D. G. Dalgado, M.D. ...	1st January to 28th February and 29th May to 31st December.	19
	Assistant Surgeon C. M. Rodrigues	4th March to 28th May ...	9
Kárwár	Surgeon-Lieutenant-Colonel J. A. Howell.	1st January to 21st February.	1
	Assistant Surgeon V. B. Karandikar, B.A., L.M. & S.	22nd February to 19th March.	1
	Surgeon-Captain S. E. Prall, M.B., B.S.	20th March to 31st December.	20
	Hospital Assistant Hanmantráo Chowán.	Whole year	2
Sassoon General Hospital, Poona.	Surgeon-Lieutenant-Colonel W. McConaghy, M.D.	1st January to 9th March and 8th June to 31st December.	20
	Surgeon-Major W. H. Burke, M.B.	Whole year	425
	Surgeon-Lieutenant W. Church, Senior Assistant Surgeon, I. S. M. D.	Do.	11
	Assistant Surgeon Ráo Sáheb Bhikáji Amrut Chobhe.	1st January to 12th June...	3
	Do. Dattu Ganesh Sabnis.	Whole year	5
	Do. E. S. Bharucha.	13th June to 31st December.	33
Ripon Hospital, Ahmednagar.	Surgeon-Major H. W. Stevenson...	Whole year	54
	Hospital Assistant Sitárám Dáji...	Do.	3
	Do. Mallu Suráji .	Do.	9
Harris Hospital, Násik.	Surgeon-Major C. G. W. Lowdell .	Do.	135
	Hospital Assistant Shaik Sarfráz Hákim.	Do.	6
Dhulia	Surgeon-Major K. A. Dalál, M.B.	Do.	72
	Hospital Assistant Hari Kákáji ...	Do.	11
	Do. Dattátraya Rámchandra.	12th to 16th February, 14th April to 2nd October and 2nd November to 28th December.	3

Charges.	Name of Officer.	Period.	Number of operations performed.
Sátára	Brigade-Surgeon-Lieutenant-Colonel C. T. Peters, M.B.	1st to 6th January ...	2
	Surgeon-Major D. C. Davidson ...	7th January to 23rd March.	49
	Surgeon-Lieutenant B. H. F. Leumann, M.B.	24th March to 1st April ...	19
	Surgeon-Major H. Adey... ...	7th April to 1st May ...	2
	Do. J. C. H. Peacocke	2nd May to 31st December	152
	Hospital Assistant Hari Vithal ...	1st January to 14th September.	26
	Do. Gangárám Abunna.	15th September to 31st December.	7
	Do. Mahádev Govind.	24th June to 31st December.	5
	Do. Govind Gangádhar.	1st January to 7th January, 15th January to 28th March and 14th April to 31st December.	3
Mahábaleshvar ...	Surgeon-Major C. Monks ...	1st January to 6th July and 13th October to 31st December.	63
	Hospital Assistant Abraham Shalum.	1st January to 5th December.	2
Sholápur... ...	Surgeon-Captain W. R. Scroggie, Senior Assistant Surgeon, I. S. M. D.	1st January to 16th March and 17th May to 31st December.	74
	Assistant Surgeon J. E. Bocarro...	17th March to 16th May...	54
	Hospital Assistant Govind Tantia.	Whole year	6

11. The minor surgical operations numbered 107,733 as compared with 99,563 in 1894 and 92,078 in 1893.

12. The orders of the Government of India contained in their letter No. 6—Medical—237, dated 14th March 1896, Home Department (Medical), embodied in the Bombay Government Resolution of the same date, were received too late to return in this report the major and minor surgical operations collectively, but they will be given effect to in my next report.

13. Statement No. IV. shows the sex and caste of the patients treated. The table below gives the number and the ratios of men, women and children and of caste, as compared with the two previous years :—

	1895.		1894.		1893.	
	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.
Sex.						
Men	1,066,034	44·8	1,034,807	44·4	945,211	43·8
Women	428,731	18·0	420,387	18·1	393,098	18·2
Children	887,304	37·2	872,404	37·5	822,589	38·0
Caste.						
Hindus	1,676,218	70·4	1,629,892	70·0	1,516,721	70·2
Musalmáns	601,157	25·2	593,470	25·5	541,899	25·1
Native Christians ...	44,133	1·9	45,647	2·0	43,410	2·0
Pársis	27,531	1·1	28,552	1·2	25,910	1·2
Europeans	6,626	0·3	5,926	0·3	5,106	0·2
Eurasians	2,893	0·1	2,529	0·1	2,617	0·1
Other castes	23,511	1·0	21,582	0·9	25,235	1·2

The ratio per cent. of men, women and children in the different divisions was :—

	Men.			Women.			Children.		
	1895.	1894.	1893.	1895.	1894.	1893.	1895.	1894.	1893.

14. Statement No. V., Part I., shows the current income and expenditure of the mofussil civil hospitals and dispensaries during the year under report.

Under the orders of the Government of India conveyed in their Home Department, Medical, No. 1—Medical—44, dated 23rd January 1896, embodied in the Bombay Government Resolution No. 794, dated 18th February 1896, General Department, the expenditure incurred on account of nursing establishment by Government and local bodies is shown in separate columns on the expenditure side of this statement.

The following is an abstract of the cash accounts of the institutions for the year 1895 as compared with the two preceding years :—

	1895.	1894.	1893.
	Rs. a. p.	Rs. a. p.	Rs. a. p.

Cost per patient	0 5 3	0 5 3	0 5 3

The opening balance of the year under review should correspond with the closing balance of the previous year, but it will be seen that there is a discrepancy of Rs. 150-2-8, which is accounted for as follows :—

	Balance on 31st December 1894.	Balance on 1st January 1895.	Remarks.
	Rs. a. p.	Rs. a. p.	
Junnar	365 9 5	405 15 1	The present Hospital Assistant states that the balance now shown is correct and tallies with the accounts of the dispensary committee; the mistake was made by his predecessor in not keeping the accounts correctly.
Páchora	571 1 9	532 12 9	The present Hospital Assistant states that the mistake has arisen owing to certain charges paid during 1894 not having been correctly entered in the accounts by his predecessor, and that the balance now shown is correct and tallies with the municipal accounts.
Empress Dispensary, Gidu Bandar.	6 1 0	.....	The sale-proceeds of unserviceable articles were erroneously shown as closing balance in 1894, whereas actually there was no balance.
Boulton Dispensary, Tando Bago.	285 7 10	586 12 9	The accounts were not kept correctly by the predecessor of the present Hospital Assistant; they have now been carefully examined and found to tally with those kept in the Hyderabad Treasury.
Nagar Párkar	700 15 3	531 6 1	The interest on the invested capital realized in 1894, *viz.*, Rs. 169-9-2, was not shown in the accounts by the predecessor of the present Hospital Assistant, and hence the discrepancy.
Kashmor	634 14 11	642 6 8	The interest on the invested capital realized in 1894, *viz.*, Rs. 7-7-9, was not shown in the accounts by the Hospital Assistant through oversight, and hence the discrepancy.
Victoria Dispensary, Shahdádpur.	906 6 4	921 5 10	The interest on invested capital realized in 1894, *viz.*, Rs. 14-15-6, was not added to the accounts, and hence the discrepancy.

The total income, exclusive of the cash balance, was Rs. 6,78,959-0-0, as compared with Rs. 6,42,369-1-2 in 1894 and Rs. 6,36,667-5-4 in 1893. The amount received from Government was Rs. 3,26,516-5-4, or Rs. 10,490-9-8 and Rs. 8,095-1-10 more than in 1894 and 1893, respectively. Rs. 1,64,887-2-3 were contributed by the Municipal Funds and Rs. 1,05,517-2-6 by the Local Funds, showing an increase of Rs. 10,827-13-8 and Rs. 5,917-2-11 in 1894 and Rs. 18,647-8-3 and Rs. 1,941-9-7 in 1893, respectively. The interest on invested capital yielded Rs. 21,164-4-0 against Rs. 16,212-11-6 in 1894 and Rs. 19,790-3-11 in 1893. The sale of securities or withdrawals of deposits amounted to Rs. 13,400-0-0, as compared with Rs. 4,300-0-0 in 1894 and Rs. 13,100-0-0 in 1893.

Rs. 13,460-6-5 were received as subscriptions from Europeans and natives, showing a decrease of Rs. 1,172-5-3 over 1894, but an increase of Rs. 6,670-6-9 over 1893. Receipts from paying patients for diet show an increase of Rs. 2,030-11-8 and Rs. 2,558-2-0, respectively, over the two preceding years—Rs. 11,503-5-0 against Rs. 9,472-9-4 and Rs. 8,945-3-0. The amount realized by the sale of medicines not supplied by Government and from other miscellaneous sources, such as hospital stoppages, sale of unserviceable articles, &c. &c., was Rs. 22,510-6-6, as compared with Rs. 28,066-0-10 in 1894 and Rs. 19,805-8-4 in 1893.

The total expenditure amounted to Rs. 6,69,294-4-11 against Rs. 6,59,694-15-11 in 1894 and Rs. 6,14,760-15-6, in 1893. Deducting Rs. 12,600-0-0 invested during the year, Rs. 244-13-6 the unexpended balance at the close of the official year at the Baichardás Dispensary, Ahmedabad, which lapsed to the Ahmedabad Municipality, and Rs. 41,259-10-10 remitted into the Treasury on account of hospital stoppages, sale of unserviceable articles, &c. &c., in all Rs. 54,104-8-4, from the total expenditure, the net expenditure was Rs. 6,15,189-12-7, as compared with Rs. 6,00,047-12-5 in 1894 and Rs. 5,65,419-9-0 in 1893. The cost of each diet averaged Re. 0-2-5 and of each patient Re. 0-5-3, being the same as in the two previous years. The percentage of total cost paid by Government was 46·4 against 46·1 in 1894 and 49·6 in 1893.

15. With reference to paragraph 10 of Government Resolution No. 4094, dated 4th October 1895, General Department, I beg to state, for the information of Government, that the receipts on account of hospital "stoppages" or fees collected in each hospital and dispensary during the year under review have been distinctly shown in the foot-notes to column 20 of Statement No. V., Part I., accompanying this report. The receipts during the year 1895 on this account have also been compared with those of the two previous years in the summaries of the annual reports of each hospital and dispensary which form Appendix I. of this report.

The following statements marked A, B & C show the amounts realized under the hospital stoppage rules (*a*) in each of the Civil Hospitals of this Presidency, (*b*) in the Dispensaries of the various districts and (*c*) of the Civil Hospitals and Dispensaries in the various divisions, as compared with 1894 and 1893:—

16. In most of the civil hospitals and dispensaries the rules for hospital stoppages are very unpopular, and a great majority of patients who are liable under the rules to be charged with fees, leave the hospital or dispensary when asked to pay, often on the ground of poverty, and go elsewhere, either to private practitioners whose charge is less than that at a civil hospital or dispensary, or to municipal dispensaries where these rules are not enforced. As a rule, private medical practitioners in most of the districts charge only 4 annas for both consultation and medicine for adults and 2 annas for children. The introduction of the compounding system in some of the dispensaries of the Gujarát Division has attracted almost all the income-tax payers to these dispensaries, where, for payment of only one rupee per family per annum, the whole family gets medicine and advice gratis all throughout the year. This system is not in force at civil hospitals, and income-tax payers have to pay according to the hospital stoppage rules, *viz.*, 11 annas at the first visit (8 annas for consultation and 3 annas for medicine) and 7 annas (4 annas for consultation and 3 annas for medicine) for every subsequent visit. From the reports of medical officers in charge of hospitals and dispensaries of the Gujarát Division, it is apparent that the compounding system is very popular and will have, I hope, in course of time, the effect of raising the receipts under this head.

17. The following table shows the pay drawn by the Civil Surgeons during the year 1895 as compared with the two preceding years :—

	1895.			1894.			1893.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Thána	9,000	0	0	7,540	0	0	9,000	0	0
Ratnágiri	10,595	6	0	8,311	7	0	7,050	6	8
Kárwár	8,118	15	2	13,224	7	8	10,993	1	1

Do. (European General Hospital)	10,148	14	2	12,909	1	9	12,251	11	1
Total ...	2,57,634	15	9	2,53,138	8	7	2,46,068	8	3

18. Statement No. V., Part II., shows the account of the invested capital. The following table gives the account of investments for the three years—1895, 1894 and 1893 :—

	1895.	1894.	1893.
	Rs.	Rs.	Rs.
Balance in hand on 1st January	4,79,600	4,63,900	4,65,600
Invested during the year	12,600	20,000	10,400
Total ...	4,92,200	4,83,900	4,76,000

	1895.	1894.	1893.
	Rs.	Rs.	Rs.
Securities sold	13,400	4,300	13,100
Deposits withdrawn	*Nil.*	*Nil.*	*Nil.*
Balance on 31st December	4,78,800	4,79,600	4,62,900

19. The following minor works were executed and paid for from the discretionary grant at my disposal during the year ending 31st December 1895:—

	Rs.
Providing a chimney to the cook-room in the Harris Hospital at Násik	37
Paving the floors of both the cook-rooms for Natives and for Europeans and the verandah at the Sassoon General Hospital, Poona	351
Providing shelves in the Sassoon General Hospital, Poona ...	324
Providing teak-rail in verandah of the Harris Hospital, Násik ...	161
Providing a cement water tank for garden at the Civil Hospital, Dhárwár	50
Converting old matrons' quarters into a house for a medical pupil at the Civil Hospital, Karáchi	300
Providing teakwood partition screen for dispensary at the Civil Hospital, Dhárwár	191
Fitting in extra shelves to the store-room of the Civil Hospital, Bijápur	50
Do. iron-bars to windows of the two observation cells at the Civil Hospital, Bijápur	12
Providing wire-netting to ridge ventilators of the Hospital Assistants' quarters attached to the Civil Hospital, Bijápur ...	27
Providing sky-light for operation theatre at the Civil Hospital, Ahmedabad	111
Do. ventilation windows with perforated zinc bars and weather board for store-room at the Civil Hospital, Ahmedabad	40
Painting with brown silicate paint the walls of the male wards in the Civil Hospital, Kárwár	32
Providing Dado of silicate paint to the two wards in the new Civil Hospital at Dhárwár	62
Total ...	1,748

20. The Principal Medical Officer, Sind District, inspected all the Civil and Jail Hospitals and Dispensaries on his route and reported favourably on all of them. The Administrative Medical Officer of the Bombay and Aden Districts inspected the civil medical institutions in Aden and reported very favourably on the medical officers and the working of these institutions.

21. All the dispensaries, with the exception of those noted below, were inspected by the Civil Surgeons of the various districts:—

Dápoli. Chiplún.	Ratnágiri District.	
Yellápur. Siddápur.	Karwár	do.
Savanur ...	Dhárwár	do.
Párekh Dispensary, Surat.	Surat	do.

The Civil Surgeons of Ratnágiri, Kárwár and Dhárwár report that they were unable to visit all the dispensaries in their district on account of very serious cases of illness among the several officials in the town. But this is an excuse which cannot be accepted: with proper arrangements there should be no difficulty in visiting each dispensary once in the year.

The Civil Surgeon, Surat, gave as his excuse that he generally inspects this dispensary in the last quarter of the year, and that he omitted to do so because he went on privilege leave, which he had not foreseen. He has been informed that this excuse could not be accepted, because he had nine months of the year to inspect before he went on privilege leave, so that he had plenty of time to do this important duty. I have issued a circular on the subject of the inspection of

dispensaries, and hope in future that I shall not have to comment on the neglect of Civil Surgeons in this regard.

22. Surgeon-Major-General P. S. Turnbull made the following notes of the results of his inspections during the past travelling season :—

October 18th, 1895.—Inspected the Poona Lunatic Asylum and found it in order, many minor defects having been remedied during the year. Sheds for use during the day are required, and improved drainage all round the institution.

October 22nd, 1895.—Visited the Panchgani Dispensary and found it in order and well cared for. It required a good many alterations to make it perfect however, and funds are not available. A popular subscription, if got up yearly among visitors, would in time produce sufficient funds. In the past hot weather Rs. 127 were raised in this way—a good beginning. The management appears satisfactory.

October 28th, 1895.—Inspected the Mahábaleshvar Hospital and found it in the same unsatisfactory state as hitherto. A new building on a better site is required, and it is hoped will soon be provided. During the year I collected nearly Rs. 12,000 in aid of it, and as Government have undertaken to provide the remainder, it is hoped that a new building will be provided during the current year.

November 3rd and 4th, 1895.—Inspected the Sátára Civil Hospital and found it in order, but it might be much improved at no great expense. This I have pointed out to my successor. The books, records and stores were all in order and well cared for.

November 8th—17th, 1895.—Halted at Poona during the visit of His Excellency the Viceroy.

November 18th, 1895.—Travelled to Bombay.

„ *19th* „ —Travelled to Thána.

„ *20th* „ —Inspected the Civil Hospital, Thána, this morning and found it clean, neat and in order throughout. Much needed quarters for Hospital Assistant and servants, as also cells for suspected lunatics, are under construction. An operating room is much wanted.

November 20th, 1895.—In the evening inspected the Cursetji Rastomji Wádia Dispensary, Thána, and found everything in order, so far as it could be in the present building. A new building on a more suitable site at a greater distance from the Civil Hospital, perhaps near the Railway station, is wanted. This institution, under Assistant Surgeon F. A. Moos, is however doing much good.

I afterwards inspected the Prison Hospital and found it in excellent order.

November 21st, 1895.—Travelled to Násik.

„ *22nd, 1895.*—Inspected the Lord Harris Hospital and found it in admirable order throughout. Increasingly good surgical work is being done at this hospital. The contract grant is however too small and hampers action. A new operating room is urgently wanted. Also quarters for the sweeper.

November 23rd, 1895.—Intended inspecting the Bái Dankoribái Hospital for Women, but found it shut for want of funds. It was expected to open again shortly.

November 25th—26th, 1895.—Travelled to Dhulia.

November 27th, 1895.—Inspected the Dhulia Civil Hospital and found it clean and in order throughout. The institution is well managed, but in my opinion more surgical work should be done. The Civil Surgeon, however, is much handicapped by the large amount of travelling necessary for the inspection of dispensaries and mills.

November 27th, 1895.—Inspected the Dhulia Prison Hospital and found it in satisfactory condition.

December 4th, 1895.—Travelled to Sholápur.

„ *5th* „ —Inspected the Sholápur City Dispensary in the morning and found it in fair order and good work done therein. Much might be done by the management to make the dispensary brighter and more comfortable, especially for in-door patients. Medical supplies rather short.

December 5th, 1895.—In the evening visited and inspected the Sholápur Civil Hospital. The institution was clean and in order throughout. It has however many wants, among others (*a*) quarters for Hospital Assistant (lately burned down), (*b*) an operating room, (*c*) improvements in the out-door department and (*d*) paving of the Police ward. With the latter exception, these defects are being remedied. Supplies sufficient; instruments well cared for.

The Lady Dufferin Hospital at Sholápur was closed like the sister institution at Násik. But I visited the out-door dispensary in the city and found it in charge of the compounder. No work was being done, but the dispensary was clean and in order.

December 6th, 1895.—Travelled to Bijápur.

„ *7th* „ —Inspected the Bijápur Prison Hospital this morning and found it in good order throughout.

In the evening inspected the Civil Hospital and found it in admirable order. I was well satisfied with the management.

December 9th, 1895.—Travelled to Gadag and inspected the dispensary there. I found all in order; the stores well cared for and the books up to date and correct. The income from hospital stoppages is large and increasing—good evidence of the popularity of the institution which is excellently managed by Assistant Surgeon T. H. Aquino.

December 10th, 1895.—Inspected the Hubli Dispensary and found it in excellent order—very creditable to the medical officer, Mr. Cardoz, and to the managers. The new building is a fine one. I was well satisfied with all I saw.

December 12th, 1895.—Inspected the Dhárwár Lunatic Asylum and the Prison Hospital and found both in admirable order, clean and neat throughout, the former particularly. Much has been done to improve the asylum during the past three years, but still a good deal remains to be done to make it complete. Warders' quarters are wanting and some alterations in the asylum buildings proper. To these Government sanction has been given, and it is hoped they will soon be carried out.

December 13th, 1895.—Inspected the Dhárwár Civil Hospital and found it well managed. It is under re-arrangement, and an operating room is shortly to be added. The books were correct and the medical supplies and instruments sufficient and well cared for. More surgical work was done in the past year than hitherto, and with a proper operating room, I trust, the amount will increase still more in future. Some new instruments have been sanctioned.

December 14th—15th, 1895.—Travelled to Kárwár *vid* Marmagao.

December 16th, 1895.—Inspected the Civil Hospital, Kárwár, and found it much improved since last inspection. The present Civil Surgeon, Surgeon-Captain Prall, takes great interest in it. The instruments were well cared for, but some required repairs. Some medicines were found deficient, but have since been supplied. The wants of the hospital are an operating room (there being absolutely none) and iron cots, both of which should be supplied early.

December 17th, 1895.—Inspected the Kárwár Prison Hospital and found all in order. There were only three patients.

December 20th, 1895.—Inspected the Civil Hospital, Belgaum, which I found much improved in appearance, due to the purchase of furniture and fittings, in which it has hitherto been very deficient. The increase in surgical work was the most noticeable feature. I was well satisfied with the condition in which I found it. Nothing however will make it a saisfactory hospital, though all is done to make the best of everything under the circumstances.

December 21st, 1895.—Inspected the Belgaum Municipal Dispensary and found it in good order, an ex-Military Hospital Assistant efficiently carrying on the work of the institution.

December 24th, 1895.—Visited His Highness the Rája of Kolhápur's State Hospital—the Albert Edward Hospital—and was well pleased with all I saw. It is a handsome building and seems well managed.

December 27th, 1895.—Inspected the whole of the buildings and wards of the Sassoon General Hospital, Poona, and found everything in admirable order. The store-rooms and kitchens were quite clean and the arrangements good. The kitchens, which hitherto have had mud floors and no appliances for storage of food stuffs prior to cooking, have been properly completed from the Surgeon-General's discretionary allowance and are now in good order.

But much is required to bring this hospital up to modern requirements. There is practically no drainage, the latrine accommodation is bad, the House Surgeon's quarters have been condemned, &c. But the whole matter is now before Government and early action is expected. I am well satisfied with the management of the hospital so far as Surgeon Lieutenant-Colonel McConaghy has power over it.

December 28th, 1895.—Inspected the students' quarters of the Byramji Jijibhoy Medical School, Poona. The building is old but suitable, and excepting the central hall, the roof of which had given way and was under repairs, was in fair order. For purposes of discipline the presence of an Assistant Surgeon is required, and I have suggested that free quarters be set apart for one of them. Sufficient room can be made available for his accommodation.

January 3rd, 1896.—Inspected the Ripon Hospital at Ahmednagar and found it clean and neat throughout, the books well kept and the stores and instruments well cared for—very creditable to Surgeon-Major Stevenson.

As at nearly every hospital in the Presidency, an operating room with a good light is required.

January 7th and 8th, 1896.—Travelled to Wadhwán.

January 9th, 1896.—Inspected the Wadhwán Dispensary and found it in excellent order, the books correct and the instruments and stores well cared for. The wards were full of patients.

January 11th, 1896.—Visited and inspected the West Hospital, Rájkot, and found it in admirable order as usual—very creditable to Surgeon-Lieutenant-Colonel McCloghry and Miss Goldney.

The requirements of this hospital are: (*a*) a detached building for the dispensary and (*b*) quarters for the Assistant Surgeon. These, it is hoped, will soon be supplied. Ground space is available.

January 14th, 1896.—Inspected the Huttesing and Premábhai Civil Hospital and the Byramji Jijibhoy Medical School at Ahmedabad this morning and found all in good order. An out-door dispensary and an Ophthalmic Hospital are very much required, and Khán Bahádur Nawroji Pestanji Vakil has generously offered to defray the whole expense of the necessary buildings, *viz.*, Rs. 32,000, and as the up-keep will not amount to much, it is hoped early sanction will be accorded to the scheme which is now before Government. The wards of the hospital were found clean and neat, the store-room for medical supplies in excellent condition and the instruments in good order. The books were correct and up to date.

The Byramji Jijibhoy Medical School was in good repair, but in my opinion the lecture-room requires re-fitting and the benches raised from before backwards so as to enable students to see the lecture or demonstration table better. The building is an excellent one otherwise.

Thereafter inspected the Lunatic Asylum and found all in as good order as is possible in buildings which are structurally defective.

In the evening inspected the Baichardás and Ráipur Dispensaries and found both in excellent order.

The Baichardás Dispensary is excellently managed by Assistant Surgeon (now Khán Bahádur) K. B. Cooper, whose skill as an operating Surgeon is well and widely known. The beds are always fully occupied.

January 15th, 1896.—Inspected the Ranchodlál Dispensary and the Victoria Jubilee Dispensary for women at Ahmedabad this morning and found all correct. At the former Assistant Surgeon Ghándy is doing good work, while at the latter Miss Kápadia, judging from the attendance, seems popular.

In the evening visited and inspected the Ahmedabad Central Prison Hospital. Though the building is a new one, it is structurally very defective and the accommodation quite insufficient. There is accommodation for 22 patients. At the time of inspection there were 13 sick, 52 convalescents and 126 out-patients.

January 16th, 1896.—Travelled to Kaira and inspected the Civil Hospital there and found it in fairly good order. But the number of in-door patients was smaller than usual. There have been disputes among the subordinates lately. These were enquired into and disposed of.

January 17th and 18th, 1896.—Travelled to Godhra and inspected the Godhra Civil Hospital on the latter date, finding it in very good order throughout. The amount of work done is not great—surgical work particularly.

January 19th, 1896.—Travelled to Broach.

January 20th, 1896.—Inspected the Broach Civil Hospital and found it in excellent order throughout. Fixed on a site for a new operating room—a much required addition—which, it is hoped, will be completed before the end of the official year. As a surgical institution this hospital does not stand high. At present operations have to be done in the verandah, which, no doubt, partially accounts for this.

January 21st, 1896.—Travelled to Surat and inspected the Párekh Dispensary in the evening. I was not satisfied with the way in which the institution is conducted. Both the in-door and out-door attendance is small. The state of the store-room, dispensing cupboards and the dispensary generally showed want of care on the part of the medical officer.

January 22nd, 1896.—Inspected the Sir Cowasji Jehánghir Civil Hospital, Surat, and found it clean and in order throughout. The number of in-door patients is smaller than it should be. The hospital does not seem popular as a surgical institution.

Quarters for two Hospital Assistants, rooms for supposed insanes, a mortuary, &c., have been added during the year, greatly increasing the usefulness of the institution. In the evening I visited the new Women's Hospital in process of erection, as also the temporary premises. The latter are suitable and the former were in advanced progress.

January 30th, 1896.—Travelled to Mátherán.

February 1st, 1896.—Inspected the Mátherán Dispensary and found it in as good condition as its cramped nature will allow.

February 6th, 1896.—Inspected the Convalescent Home at Khandálla and found it in the usual admirable condition—creditable to all concerned.

February 7th, 1896.—Inspected the Railway Dispensary at Lanowli (Lonávla) and found it in good order. In my opinion the early opening of a dispensary for the general public is most desirable. The grants given by Government and the Local Board are chiefly spent on the Railway establishment.

23. I have great pleasure in testifying to the excellent work done by the majority of the medical officers in the Civil Hospitals and Dispensaries. It is not easy to estimate the amount of good resulting from the working of a medical institution and still more difficult to compare the resultant good accomplished by two institutions, because conditions vary in each locality. As it is with institutions, so it is with individual medical officers; but taking the amount of surgical work done by the medical officers as a basis of comparison, the following table shows those who have performed upwards of 65 major surgical operations:—

Surgeon-Major W. G. H. Henderson, F.R.C.S.I.	431
„ W. H. Burke, M.B.	425
„ J. C. H. Peacocke	205
„ C. G. W. Lowdell	135
2nd Class Hospital Assistant H. E. Anklesaria, No. 222 ...	116
Surgeon-Major W. A. Corkery	104
Assistant Surgeon J. E. Bocarro	101
Surgeon-Major J. W. T. Anderson, F.R.C.S.	94
„ D. C. Davidson	84
Surgeon-Lieutenant-Colonel J. McCloghry, F.R.C.S.I. ...	83
Assistant Surgeon T. C. Khándvála	83
Surgeon-Major C. Monks	81
Assistant Surgeon (now Khán Bahádur) K. B. Cooper ...	78
Assistant Surgeon T. H. Aquino	77
Surgeon-Captain W. R. Scroggie, 1st Grade Senior Assistant Surgeon, I. S. M. D.	74
Surgeon-Major K. A. Dalál, M.B.	72
Surgeon-Captain J. B. Smith, M.B., M.Ch.	71
Assistant Surgeon M. G. Desái	69
„ D. Cardoz...	69
„ D. E. Anklesaria	67

24. In conclusion, I would bring to the special notice of Government Brigade-Surgeon-Lieutenant-Colonel G. Bainbridge, Surgeon-Lieutenant-Colonel W. McConaghy, Surgeon-Major W. G. H. Henderson and Surgeon-Lieutenant-Colonel J. McCloghry for their good work, both medical and administrative, in the important institutions under their care during the year. I would also beg to notice Surgeon-Majors Henderson, Burke, Peacocke and Lowdell and Assistant Surgeons Bocarro, Khándvála, Cooper and Aquino and Hospital Assistant Anklesaria for good surgical work.

I have the honour to be,

Sir,

Your most obedient Servant,

H. COOK, M.D., Surgeon-Major-General,

Surgeon-General with the Government of Bombay.

APPENDIX I.

SUMMARIES OF THE ANNUAL REPORTS

ON THE

MOFUSSIL CIVIL HOSPITALS AND DISPENSARIES FOR THE YEAR 1895.

KONKAN.

THA'NA COLLECTORATE.

CIVIL HOSPITAL, THA'NA.—*In charge of* Surgeon-Major K. R. KIRTIKAR.

Conservancy.—Defective during 1893, 1894 and the first quarter of 1895. Since April 1895 more attention is paid to the cleaning of the town, and the Municipality has under consideration, in conjunction with the Executive Engineer, Thána, a drainage scheme.

Water-supply.—From Pokran tank, ample and of good quality.

Hospital buildings.—Defective as reported before. A new suite of rooms for a second class Hospital Assistant, another for a Civil Medical Pupil, a set of seven rooms for the menials and a room of suitable dimensions for the bhangi have been added. All these are under construction and will be ready in a month or two for occupation. A set of three rooms for lodging lunatics, who are sent from the district, to be kept under observation prior to their being sent to a lunatic asylum, has also been sanctioned. The work is not yet begun, but will be shortly.

General health of the town.—Good. No epidemics.

Attendance of patients.—387 in-door and 5,434 out-door patients, as compared with 447 and 4,536 in 1894 and 369 and 4,060 in 1893, respectively.

Prevailing diseases.—Ague quotidian, complicated with enlarged spleens, round worms, ring-worm, enlarged tonsils, diarrhœa and dysentery.

Mortality.—There were 24 deaths in hospital against 22 in 1894 and 27 in 1893. They were due to diarrhœa, dysentery, phthisis pulmonalis, bronchitis, pneumonia, debility, starvation, &c.

Surgical operations.—There were 14 major and 400 minor operations, as compared with 20 and 112 in 1894 and 14 and 120 in 1893, respectively.

Vaccination.—Carried on satisfactorily by the municipal vaccinator.

Medico-legal cases.—81 cases of a more or less serious nature were treated during the three years. 16 *post-mortems* were made during that period at the request of the Police.

Conduct of the establishment.—Satisfactory on the whole.

Hospital Stoppages.—Rs. 131-2-0 were realized, against Rs. 187-13-0 in 1894 and Rs. 217-3-0 in 1893.

Cost.—The total cost was Rs. 3,436-14-9 and the cost per patient Re. 0-9-5, as compared with Rs. 4,378-7-4 and Re. 0-14-1 in 1894 and Rs. 4,218-11-0 and Re. 0-15-3 in 1893, respectively.

GRANT-IN-AID DISPENSARIES.

SIR COWASJI JEHA'NGIR READYMONEY DISPENSARY, BA'NDRA.—*In charge of Assistant Surgeon* J. F. GONSALVES, L.M.

There has been no alteration in or addition to the dispensary buildings wherein no accommodation for in-patients is provided. They are kept in a fair state of repair. The fittings and furniture are in good condition. The conservancy of the town is well looked after by the Municipality. The halalkhor service, introduced in a part of the town four years ago, is being extended all over. The work of laying pipes for the extension of lake water-supply is going on, and it is expected to be completed by the end of March next. All the roads and streets are lighted, and the principal ones are watered daily during the fair season. The total treated—all out-patients—was 16,828, as compared with 19,253 in 1894 and 17,011 in 1893. The most common diseases were malarial fevers, respiratory affec-

tions, intestinal worms and diarrhœa. There was no cholera in 1895, nine cases in 1894, all but one proving fatal, and none in 1893. Small-pox and influenza, both of a mild type, have appeared here every year from 1893 to 1895. Two major surgical operations were performed, against eight in 1894 and six in 1893. Six dead bodies were examined and reported upon at the request of the Police, against one in 1894 and two in 1893. Vaccination is conducted by a special vaccinator paid by the Municipality and the District Local Board, and it is effected with animal lymph. The dispensary has been inspected every year by the Civil Surgeon, Thána, and in 1895 by the Sanitary Commissioner for the Government of Bombay. It was visited by the Commissioner, N. D., and the Collector and the Assistant Collector of Thana. One of the members of the dispensary committee visited it also every month. The income from hospital stoppages was Rs. 347-15-0, as compared with Rs. 396-8-0 in 1894 and Rs. 349-13-0 in 1893. The total cost was Rs. 7,061-1-5 and the cost per patient Re. 0-6-8, as compared with Rs. 5,393-3-5 and Re. 0-4-5 in 1894 and Rs. 5,034-1-10 and Re. 0-4-9 in 1893, respectively.

SIR DINSHAW MA'NECKJI PETIT DISPENSARY, BASSEIN.—*In charge of* Assistant Surgeon K. V. PATEL.

The building is in want of repairs, but the estimates for the repairs have been sanctioned and the work will be soon undertaken. Two dispensary committee members visited the dispensary once; but the individual members came very often and have only on nine occasions entered their remarks in the visitors' book. There were fourteen dispensry committee meetings in the municipal hall. The sanitary condition of the town is fair. The water-supply from tanks and wells is liable to contamination. The total treated was 13,272 out-door and 25 in-door patients, against 13,360 and 13 in 1894 and 15,187 and 35 in 1893, respectively. The most common diseases were malarious fevers, diarrhœa, skin affections and diseases of the digestive system. There were in all 17 cases of cholera with 9 deaths in the town during the year. 32 major and 364 minor surgical operations were performed, as compared with 12 and 328 in 1894 and 10 and 519 in 1893, respectively. Vaccination is performed by the táluka vaccinator. Six *post-mortem* examinations were made, and opinion was given in fifty-five medico-legal cases and viscera forwarded to the Chemical Analyser thrice during the year. The dispensary was inspected by the Surgeon-General with the Government of Bombay, the Civil Surgeon of Thána, the Revenue Commissioner, Northern Division, the Collector of Thána and the Assistant Collector and President, Bassein Municipality. The total cost was Rs. 3,934-6-3 and the cost per patient Re. 0-4-8, against Rs. 3,913-4-10 and Re. 0-4-8 in 1894 and Rs. 4,063-1-5 and Re. 0-4-3 in 1893. The amount collected under hospital stoppage system was Rs. 109-4-0, as compared with Rs. 146-4-0 in 1894 and Rs. 135-8-0 in 1893.

BÁI GULBÁI PETIT DISPENSARY, BHIWNDI.—*In charge of* Assistant Surgeon M. M. VAKIL.

The dispensary building is in a good state of repair, but the shed on the western side of the Medical Officer's quarters is rickety and should be renewed. The work of building servants' quarters has already commenced. The committee visited the dispensary six times during the year. The total treated during the year was 11,709 out-door and 6 in-door patients, against 11,741 and 7 in 1894 and 10,224 and 13 in 1893, respectively. The most common diseases were malarial fevers, skin diseases, bronchitis, worms and diarrhœa. Small-pox was prevalent during the year 1893, but the town has been free from cholera since 1889. 1 major and 176 minor surgical operations were performed, against 2 and 132 in 1894 and 1 and 115 in 1893, respectively. The dispensary was inspected by the Civil Surgeon, Thána, in November 1895. One *post-mortem* examination was performed. The total cost was Rs. 3,929-6-5 and the cost per patient Re. 0-5-4, against Rs. 6,463-11-2 and Re. 0-8-9 in 1894 and Rs. 2,767-9-8 and Re. 0-4-4 in 1893, respectively. The hospital stoppage rules are not in force here.

KELVA MÁHIM DISPENSARY.—*In Charge of* First Class Hospital Assistant RA'JA'RA'M BA'LKRISHNA, No. 40.

The dispensary building is in a fair state of repair, but unsuitable for the purpose. A new good site is to be secured and a new building erected. Furniture, fittings, &c., are sufficient. The dispensary committee visited the dispensary seven times in 1895, against five and nine times in 1894 and 1893, respectively. The most common diseases were malarial fevers, respiratory and bowel affections and skin diseases. Cholera prevailed in one of the villages of this táluka in November last and 14 cases occurred with 10 deaths. In 1894, 251 cases occurred with 173 deaths in the surrounding villages. In 1893, 13 cases occurred with 10 deaths in the village. Within the municipal limits of Kelva and Máhim not a single case occurred during the years under review. The dispensary was inspected by the Civil Surgeon, Thána, once in the year. The total treated was 8,801 out-door and 57 in-door patients, as compared with 10,064 and 42 in 1894 and 9,431 and 39 in 1893, respectively. No major surgical operation was performed in the years 1895 and 1894 except 1 in 1893. Minor operations numbered 67, against 87 in 1894 and 118 in 1893. The sanitary condition of the municipal towns of Kelva and Máhim has not been improved since 1893. The water-supply from wells, though abundant, is not wholesome. The quality of the water is affected by the large quantity of oil-cakes employed for manuring the garden lands. Vaccination within the municipal limits is performed by the

táluka vaccinator. 2 *post-mortem* examinations were made, against 4 in 1894 and 5 in 1893. The total cost was Rs. 1,729-10-5 and the cost per patient Re. 0-3-1, as compared with Rs. 2,006-5-9 and Re. 0-3-2 in 1894 and Rs. 1,779-9-9 and Re. 0-3-0 in 1893, respectively. The amount collected under the system of hospital stoppages was Rs. 35-13-0, against Rs. 41-15-0 in 1894 and Rs. 38-9-0 in 1893.

SHÁHÁPUR DISPENSARY.—*In charge of* First Class Hospital Assistant MORO NILKANT, No. 135.

The dispensary building and out-houses are in a good state of repair. The ceiling has been replaced. The furniture and fittings, &c., are in good condition and sufficient for the purpose. The dispensary committee visit the dispensary quarterly. The conservancy of the town and surrounding villages is not good on account of the prevalence of malarious fevers throughout the year. The water-supply is sufficient from wells and river. The total treated during the year was 6,009 out-door and 8 in-door patients, as compared with 6,288 and 12 in 1894 and 4,945 and 4 in 1893, respectively. The daily average number of out-patients was 37·6 and of in-patients 0·21, against 37·9 and 0·47 in 1894 and 33·5 and 0·1 in 1893, respectively. Malarious fevers, rheumatic affections and diseases of the eye, ear, air passages, stomach, bowel and skin prevailed as usual. There was no outbreak of malignant cholera either in the town and táluka, but there were only 12 cases of small-pox in two villages with no deaths. All the operations performed during the year were minor except one for dislocation of the lower jaw. Vaccination is carried on by the táluka vaccinator. Four *post-mortem* examinations were made during the year at the request of the Police. The dispensary was inspected by the Civil Surgeon, Thána, once in each year. The total cost was Rs. 1,343-0-4 and the cost per patient Re. 0-3-6, against Rs. 1,504-10-2 and Re. 0-3-9 in 1894 and Rs. 1,232-7-3 and Re. 0-4-0 in 1893, respectively. The amount realised on account of hospital stoppages was Rs. 5-15-0, against Rs. 6-2-0 in 1894 and Rs. 11-0-0 in 1893.

BA'I SÁKARBA'I PETIT DISPENSARY, CHINCHNI.—*In charge of* Second Class Hospital Assistant MORESHWAR TRIMBAK SA'THE, No. 164.

The dispensary building is in a good state of repair. A dead-house, a store-room and a cook-room are badly wanted. The furniture and fittings are in good condition. The dispensary committee visited the dispensary once. The sanitary condition of the town is unsatisfactory. The water-supply is abundant but liable to contamination by soakage. The total number of patients treated were 11,364 out-door and 54 in-door, as compared with 12,451 and 45 in 1894 and 11,707 and 34 in 1893, respectively. The prevailing diseases were malarial fevers, worms and diseases of the respiratory and digestive systems and skin. There was no epidemic during the three years. 12 major and 389 minor surgical operations were performed, against 5 and 405 in 1894 and 2 and 483 in 1893, respectively. Vaccination is carried on by the táluka vaccinator from house to house. 5 *post-mortem* examinations were held, against 2 in 1894 and 1 in 1893. The dispensary was visited by the Civil Surgeon, Thána, once a year. The total cost was Rs. 1,672-8-0, the cost per patient Rs. 0-2-4, as compared with Rs. 1,381-7-5 and Re. 0-1-9 in 1894 and Rs. 1,571-7-2 and Re. 0-2-1 in 1893, respectively. The amount collected under the hospital stoppage rules was Rs. 30-14-0, against Rs. 19-0-0 in 1894 and Rs. 6-14-0 in 1893.

COWASJI DINSHAW PETIT DISPEPSARY, UMBARGAON.—*In charge of* First Class Hospital Assistant BÁPUJI JANÁRDHAN, No. 110.

The dispensary buildings are in good order, and furniture and fittings complete. The dispensary committee visited the dispensary three times. The general health of the town was good. The water-supply from wells is sufficient but brackish. The total treated was 5,440 out-door and 105 in-door patients, as compared with 5,822 and 87 in 1894 and 5,878 and 50 in 1893, respectively. Malarial fevers, worms, respiratory and skin affections and bowel complaints were the prevailing diseases. There was no epidemic. There were 10 major and 107 minor surgical operations performed, against 5 and 154 in 1894 and *nil* and 108 in 1893. Three *post-mortem* examinations were made, and opinion was given in several medico-legal cases. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon of Thána once in each year. The total cost was Rs. 1,377-9-7 and the cost per patient Re. 0-3-11, as compared with Rs. 1,511-4-2 and Re. 0-4-1 in 1894 and Rs. 996-0-11 and Re. 0-2-8 in 1893, respectively. Rs. 83-0-0 were receipts on account of hospital stoppages, against Rs. 53-0-0 in 1894 and Rs. 45-14-0 in 1893.

SIR DINSHAW MANÉCKJI PETIT DISPENSARY, MÚRBÁD.—*In charge of* Second Class Hospital Assistant SÁYANA BA'LLU, No. 179.

The dispensary building and out-houses are in good repair. The sanitary condition of the town is unsatisfactory. The town has no Municipality and has only one sweeper for a population of about 3,000, and in consequence there is a great likelihood of the privies of private persons being at times unclean, this point of sanitation requiring special improvement. The water-supply is very scanty during the hot seasons. The most common diseases were malarial fevers and diseases of the digestive system and skin. Small-pox was also prevalent. 2 major surgical operations were performed, against 1 in 1894 and 1 in 1893. There were 59

minor operations, as compared with 56 in 1894 and 52 in 1893. Eight *post-mortem* examinations were made at the request of the Police. Vaccination is carried on by the táluka vaccinator. The total number of patients treated was 4,143 out-door and 1 in-door, against 3,614 and 4 in 1894 and 2,943 and 3 in 1893, respectively. The dispensary is annually inspected by the district Revenue officers, the Civil Surgeon, Thána, and the Sanitary Commissioner for the Government of Bombay. The dispensary committee visited the dispensary frequently but not according to the rules of the dispensary. Having no store-room built, the dispensary committee has proposed to use the sweeper's room as the store-room, but it is insufficient and unsuitable for the purpose. The total cost was Rs. 1,234-5-7 and the cost per patient Re. 0-4-9, as compared with Rs. 1,091-1-10 and Re. 0-4-9 in 1894 and Rs. 1,008-8-7 and Re. 0-5-6 in 1893, respectively. The amount collected under hospital stoppage rules was Rs. 4-0-0, against Rs. 38-15-0 in 1894 and Rs. 4-8-0 in 1893.

JAMSETJI NASSARVA'NJI PETIT DISPENSARY, VA'DA.—*In charge of* THIRD Class Hospital Assistant JETHA'BHA'I BA'RBHAI, No. 302.

The dispensary is in a good state of repair. The dispensary committee meet when subjects connected with the dispensary require consideration. The members and the chairman of the dispensary committee visited the dispensary four times during the year. Sanitation of the town is unsatisfactory, and the water-supply, solely from wells in the town, is neither sufficient nor of good quality. The total number of patients treated was 3,746 out-door and 46 in-door, as compared with 3,629 and 48 in 1894 and 5,168 and 30 in 1893. The most common diseases were malarious fevers, diseases of the digestive system and skin and intestinal worms. Eight major surgical operations were performed, against 3 in 1894 and 2 in 1893. Minor operations numbered 42, as compared with 47 in 1894 and 46 in 1893. One *post-mortem* examination was made. Vaccination is carried on by a vaccinator paid from local funds. The dispensary is annually inspected by the Civil Surgeon, Thána. The total cost was Rs. 1,219-7-10 and the cost per patient Re. 0-5-1, against Rs. 876-3-3 and Re. 0-3-9 in 1894 and Rs. 998-8-1 and Re. 0-5-0 in 1893, respectively. The amount realized under the system of hospital stoppages was Rs. 41-7-0, as compared with Rs. 27-6-0 in 1894 and Rs. 22-0-0 in 1893.

"EDALJI FRA'MJI ALLBLESS" TROMBAY LEPER HOME.—*In charge of* Mr. PETER JOHN CREADO.

The dispensary buildings are clean and in good order, and their site is all that could be desired. The affairs of the home are administered by the Archbishop of Bombay as Patron and by the committee of management appointed for the purpose, who held meetings when necessary. The sanitary condition of the home is well attended to. Water-supply is not what it ought to be, and this cannot be remedied except by the introduction of lake water, for which there are no funds available. There were 24 lepers treated, against 26 in 1894 and 28 in 1893. The Leper Home was inspected by the Civil Surgeon, Thána, once in each year. The total cost was Rs. 5,815-2-10 and the cost per patient Rs. 242-4-9, as compared with Rs. 4,463-6-4 and Rs. 171-10-8 in 1894 and Rs. 4,621-10-10 and Rs. 165-1-0 in 1893, respectively.

ENDOWED DISPENSARIES.

RASTAMJI WA'DIA DISPENSARY, THA'NA.—*In charge of Assistant Surgeon* F. A. MOOS, L.M. & S.

The dispensary building is in a good state of repair, well situated, but useless for dispensary purposes. Conservancy defective. Water-supply fair in quality and ample for drinking purposes. Dispensary committee met eleven times in 1895, six times in 1894 and eight times in 1893. The total number of out-door patients treated was 12,377, as compared with 10,587 in 1894 and 9,724 in 1893. The average daily attendance was 185·6, against 177·2 in 1894 and 130·9 in 1893. There is no accommodation for in-door patients. The most common diseases were intermittent fevers of the quotidian type, catarrhal bronchitis, scabies, ring-worms, diarrhœa and worms. No epidemic of any kind occurred during the three years. 6 major and 144 minor surgical operations were performed, as compared with 5 major and 121 minor in 1894 and 3 major and 100 minor in 1893. Vaccination is carried out by the municipal vaccinator. The dispensary was inspected annually by the Surgeon-General with the Government of Bombay and by the Civil Surgeon of Thána. The total cost was Rs. 5,251-8-9 and the cost per patient Re. 0-6-9, as compared with Rs. 5,293-13-9 and Re. 0-8-0 in 1894 and Rs. 4,051-1-6 and Re. 0-6-8 in 1893, respectively. The amount realized under the hospital stoppage rules was Rs. 313-15-0, against Rs. 219-14-0 in 1894 and Rs. 204-13-0 in 1893.

BA'I RUKMINIBA'I DISPENSARY, KALYA'N.—*In charge of* Assistant Surgeon R. R. DA'DINA.

In 1894 the leaking roof over the central tower of the dispensary building was removed and replaced by a new one. In 1895 Government sanctioned the construction of additional quarters for the Assistant Surgeon at the recommendation of the Surgeon-General with the Government of Bombay. The municipal dispensary committee met once in every quarter and had evinced fair interest in its work. The most common diseases were ague, worms, bronchitis, diarrhœa and skin diseases. The total treated was 7,091 out-door and 82 in-door patients, as compared with 6,896 and 95 in 1894 and 6,919 and 70 in 1893, respectively. The daily average attendance of patients was 70·7 out-door and 2·0 in-door, against 75·7 and 2·4 in 1894 and 76·4 and 1·5 in 1893, respec-

tively. 21 *post-mortem* examinations were made against 12 in 1894 and 18 in 1893. 8 major and 170 minor surgical operations were performed, as compared with 10 and 168 in 1894 and 10 and 173 in 1893, respectively. The income from hospital stoppage rules was Rs. 316-15-0, against Rs. 306 in 1894 and Rs. 277-10-0 in 1893. Opinion was given in 20 medico-legal cases, as compared with 26 in 1894 and 23 in 1893. Vaccination is carried out by the táluka vaccinator. The Civil Surgeon, Thána, inspected the dispensary annually. The total cost was Rs. 10,664-12-8 and the cost per patient Re. 1-7-9, against Rs. 5,743-11-9 and Re. 0-13-1 in 1894 and Rs. 4,972-4-7 and Re. 0-11-5 in 1893, respectively.

BA'I MITHIBA'I WA'DIA DISPENSARY, KURLA.—*In charge of* Assistant Surgeon NASSARWA'NJI DHANJIBHAI.

The building and out-houses are conveniently situated and kept in good order. The committee visit the dispensary every 3 or 4 months. Much improvement in the sanitary condition of the town ensued from the extension of the Vehár water-supply, removal of night-soil to the Bombay municipal pits at Chembur and building of public and private latrines. The total treated was 9,646 out-door and 12 in-door patients, as compared with 10,786 and 8 in 1894 and 10,758 and 9 in 1893, respectively. The most common diseases were malarial fevers, diseases of the skin and respiratory and digestive systems, diarrhœa, dysentery, worms and rheumatic affections. Cholera prevailed epidemically in 1894, returning 88 cases with 58 deaths. 9 major and 208 minor surgical operations were performed, against 11 and 239 in 1894 and 4 and 227 in 1893. Vaccination is carried on by the táluka vaccinator with animal lymph. Six *post-mortem* examinations were made and opinion given in many medico-legal cases. The dispensary was inspected once every year by the Civil Surgeon, Thána. The total cost was Rs. 4,848-13-9 and the cost per patient Re. 0-8-0, against Rs. 6,267-15-10 and Re. 0-9-3 in 1894 and Rs. 5,375-12-11 and Re. 0-8-0 in 1893, respectively. The hospital stoppage rules are not worked in this dispensary.

KOLA'BA COLLECTORATE.

GRANT-IN-AID DISPENSARIES.

PEN.—*In charge of* 1st Class Hospital Assistant MA'NA'JI CUDDUM, No. 86.

The dispensary building, a hired one, is suitable for the purpose, but it has neither been white-washed nor repaired since November 1893, with the exception of some minor chunam repairs done here and there. A brick chunam compound wall was built in March 1895 to the front of the dispensary in place of wooden railings. There is only one wooden cot with tapes. The Municipality has sanctioned Rs. 85 for the purchase of iron-cots, clothing, bedding, &c., for the use of in-patients. The sanitation and conservancy of the town are not satisfactory. The water-supply is good and sufficient. The general health of the town and district was good, except in 1894, when cholera was prevalent in the town and in some of the surrounding villages from June to August, returning 131 cases with 88 deaths. The total number of patients treated was 8,945 out-door and 15 in-door, against 9,024 and 14 in 1894 and 9,229 and 29 in 1893, respectively. The most common diseases were malarious fevers, intestinal worms, bronchitis, diarrhœa, conjunctivitis and itches. There were 16 major and 128 minor surgical operations performed, against 9 and 126 in 1894 and 10 and 126 in 1893, respectively. Vaccination is carried out by the municipal vaccinator. The total amount of fees received on account of hospital stoppages was Rs. 47-6-0, against Rs. 60-12-0 in 1894 and Rs. 46-8-0 in 1893. The total cost was Rs. 1,841-4-10 and the cost per patient Re. 0-3-4, against Rs. 1,785-6-3 and Re. 0-3-1 in 1894 and Rs. 2,043-8-6 and Re. 0-3-6 in 1893, respectively.

MAHA'D.—*In charge of* Second Class Hospital Assistant EZEKIEL REUBEN, No. 186.

No repairs have been executed to the dispensary buildings for the last two years. Furniture and fittings are sufficient. The dispensary committee visited the dispensary seven times. The sanitation of the town is not satisfactory. The water-supply from tanks, rivers and wells is abundant but liable to pollution. The total treated was 5,299 out-door and 34 in-door patients, as compared with 6,095 and 39 in 1894 and 6,001 and 46 in 1893, respectively. Malarial fevers, ophthalmia, skin, respiratory and rheumatic affections and bowel complaints were the prevailing diseases. A few sporadic cases of cholera occurred in the vicinity of the town in 1895. There were 1 major and 67 minor surgical operations performed, against 5 and 94 in 1894 and 9 and 239 in 1893. Three *post-mortem* examinations were held and opinion given in 13 medico-legal cases at the request of the Police. The dispensary was inspected by the Assistant Surgeon of Alibág once every year. The receipts on account of hospital stoppages amounted to Rs. 17-3-0, against Rs. 19-10-0 in 1894 and Rs. 20-3-0 in 1893. The total cost was Rs. 1,376-4-0 and the cost per patient Re. 0-4-1, as compared with Rs. 1,299-2-3 and Re. 0-3-4 in 1894 and Rs. 1,713-4-2 and Re. 0-4-6 in 1893, respectively.

PANVEL.—*In charge of* 1st Class Hospital Assistant MR. ABRAHAM SHALLUM, No. 150.

The buildings are in good state. They require white-washing. Servants' quarters have been built during the year. The sanitary condition of the town is fair. The water-

supply from the new water-works is good and abundant. Cholera was prevalent in 1894. 115 cases were treated with 26 deaths. The dispensary was inspected by the Assistant Surgeon, Alibág, once in each year, and by the Deputy Sanitary Commissioner in 1895. Six *post-mortem* examinations were made, against three in 1894 and five in 1893. Vaccination is carried out by the táluka vaccinator. The most common diseases were malarial fevers, rheumatic, respiratory and skin affections, bowel complaints and ulcers. The total number of patients treated was 7,704 out-door and 36 in-door, as compared with 9,135 and 37 in 1894 and 8,880 and 20 in 1893, respectively. The total cost was Rs. 1,910-14-9 and the cost per patient Re. 0-3-11, against Rs. 2,838-1-9 and Re. 0-4-11 in 1894 and Rs. 1,152-1-4 and Re. 0-2-1 in 1893, respectively. Hospital stoppages amounted to Rs. 111-2-0, as compared with Rs. 69-1-0 in 1894 and Rs. 68-4-0 in 1893.

ENDOWED DISPENSARY.

MRS. P. D'SOUZA DISPENSARY, URAN.—*In charge of* Assistant Surgeon MANCHERJI SORA'BJI POSTWÁLLA, L.M.

The dispensary is still located in the hired building, which is not fit for its purpose, there being no accommodation for in-patients, servants, &c. The committee visited the dispensary every month. The sanitary condition of the town is fair; the water-supply from tanks and wells is liable to contamination. The total treated was 5,126 out-door patients, against 5,025 in 1894 and 5,245 in 1893. The most common diseases were malarious fevers, bronchitis, skin diseases, intestinal worms, diarrhœa and rheumatic affections. There was no epidemic. Seven major surgical operations were performed, against nine in 1894 and seven in 1893. One *post-mortem* examination was made at the request of the Police, as compared with three in 1894. Opinion was given in some medico-legal cases. The dispensary was inspected by the Civil Surgeon, Thána. The total cost was Rs. 5,115-3-6 and the cost per patient Re. 0-15-11, as compared with Rs. 4,963-13-3 and Re. 0-15-9 in 1894 and Rs. 5,069-7-9 and Re. 0-15-6 in 1893, respectively. The fees collected under the hospital stoppage system amounted to Rs. 150-2-0, as compared with Rs. 136-2-0 in 1894 and Rs. 313-7-0 in 1893.

GOVERNMENT DISPENSARIES.

ALIBA'G.—*In charge of* Assistant Surgeon M. F. PEREIRA.

The dispensary buildings are in very good repair. The female ward has to be furnished, as Rs. 70, sanctioned by the local board, are not sufficient. Six iron cots for female and eight for male wards are required, also an operating table, a press and a couple of chairs. A sweeper is needed. The sanitary condition of town is good. Water-supply from the Eshwi water-works and shallow wells is ample. That from the former contains suspended vegetable matter and fails in the hot season; that from the latter is hard. The total treated was 8,220 out-door and 67 in-door patients, as compared with 7,577 and 65 in 1894 and 9,005 and 53 in 1893. The daily average attendance for the three years was 60·2 and 2·52, 59·1 and 2·2, and 57·7 and 1·36, respectively. The prevailing diseases were ague, bronchitis, skin affections, rheumatism and worms. There has been no cholera for several years past. Three major surgical operations were performed, being the same as in the two previous years. Three *post-mortem* examinations were made. Vaccination is carried out by the Sanitary Department. The dispensary was visited by the Executive Engineer and inspected by the Deputy Sanitary Commissioner. The total cost was Rs. 5,179-7-3, as compared with Rs. 5,228-1-9 in 1894 and Rs. 5,246-3-11 in 1893. The cost per patient was Re. 0-10-0, against Re. 0-10-11 in 1894 and Re. 0-9-3 in 1893. The amount of fees realized under the hospital stoppage rules was Rs. 117-10-0, as compared with Rs. 100-10-0 and Rs. 64-2-0 in 1894 and 1893, respectively.

MÁTHERÁN.—*In charge of* Brigade Surgeon Lieutenant-Colonel G. HAY.

The dispensary is located in one of the rooms of the Superintendent's office. There is no dispensary committee. The total treated was 3,349 out-door patients, as compared with 2,348 in 1894 and 1,282 in 1893, the increase being due to the energy and attention of Second Class Hospital Assistant Sadáshiv Wámon Dane. Malarial fevers, worms, respiratory and skin affections and bowel complaints were the prevailing diseases. There was no epidemic. On account of want of accommodation for in-door patients, no surgical or medical cases are admitted. There were 9 major and 59 minor surgical operations performed, against 18 and 58 in 1894 and 0 and 19 in 1893, respectively. The total cost was Rs. 456-6-7 and the cost per patient Re. 0-2-2, as compared with Rs. 1,059-7-4 and Re. 0-7-2 in 1894 and Rs. 836-13-10 and Rs. 0-10-5 in 1893, respectively.

RATNA'GIRI COLLECTORATE.

CIVIL HOSPITAL, RATNÁGIRI.—*In charge of* Surgeon-Major M. A. T. COLLIE, M.B., C.M.

Conservancy.—The conservancy arrangements of the town are unsatisfactory, and on account of the extreme poverty of the Municipality, it would be futile to attempt any reform.

Water-supply.—There is a pipe water-supply which would be ample for most of the household requirements of the inhabitants, if the Municipality and its Executive Officers were less apathetic. They might advantageously devote more attention to the cleaning and repairing of the pipes and the prevention of waste.

Hospital buildings.—The following improvements have been effected:—(*a*) quarters for Civil Medical Pupils, (*b*) paving store-room, (*c*) paving front verandah and (*d*) constructing window between dispensary and ward.

Attendance of patients.—There were 188 in-door and 6,485 out-door patients treated, as compared with 169 and 7,035 in 1894 and 154 and 6,779 in 1893, respectively. The daily average strength was in-door 7·6 and out-door 41·5, against 9·4 and 44·5 in 1894 and 6·6 and 80·3 in 1893, respectively.

Prevailing diseases.—Malarial fevers, worms and respiratory, skin and bowel affections.

Surgical operations.—24 major and 201 minor, against 29 and 339 in 1894 and 18 and 278 in 1893, respectively.

Mortality and its causes.—There were 12 deaths in hospital, as compared with 10 in 1894 and 6 in 1893. The causes were malarious fevers and diseases of the lungs.

Vaccination.—Is carried out by the táluka vaccinator.

Conduct of establishment.—Good.

Hospital stoppages.—Rs. 169-3-0 were realized, against Rs. 214-8-0 in 1894 and Rs. 194-7-0 in 1893.

Cost—The total cost was Rs. 5,237-14-3 and the cost per patient Re. 0-12-6, as compared with Rs. 6,361-7-6 and Re. 0-14-1 in 1894 and 6,007-4-1 and Re. 0-13-10 in 1893, respectively.

SIR DINSHAW MA'NECKJI PETIT LEPER ASYLUM, RATNÁGIRI.—*In charge of* Surgeon-Major M. A. T. COLLIE, M.B., C.M.

Buildings.—Are in good repair.

Water-supply—The well has been deepened by an extra ten feet at a cost of Rs. 63-9-0 sanctioned under Government Resolution No. 4023, dated 27th October 1894, General Department. It is hoped that this new work will give an ample supply of water in the latter part of the hot weather.

Conservancy.—Is on the dry earth system and is satisfactory. Attempts will be made to grow a few trees by sinking pits in the laterite—*vide* Government Resolution No. 4023, dated 27th October 1894, General Department. If this be successful, it will modify to some extent the desolate aspect of the site.

Admissions and history.—The following table shows the number of admissions and the proportion in which a hereditary leprous taint could be traced. It must be noted that the same cases may have been included in each year, as lepers often go out of hospital during the fair season and return for the monsoon:—

Leprous Relations.

Years.	Total admissions.	Parents.	Brothers and sisters.	Husband.	Wife.	Grand parents.	Children.	Other relations.	Total in which leprous family taint is traceable.	Percentage of leprous relations.
1893... ...	42	7	6	...	...	...	2	2	17	40·5
1894... ...	68	4	8	...	...	2	2	2	18	26·5
1895... ...	49	6	7	1	...	1	2	5	23	46·9

Results.—The following table shows the admissions and results during the past three years:—

Years.	Remaining on 31st December.	Admitted.	Total treated.	Discharged cured.	Relieved.	Absented otherwise (absconded).	Died.	Daily average.
1893... ...	39	42	81	...	...	32	8	50·4
1894... ...	41	68	109	1	1	59	5	54·1
1895... ...	43	49	92	...	...	45	15	47·1

The chief causes of death were exhaustion and ulceration.

Establishment.—The conduct of the establishment has been reported satisfactory.

Cost.—The total cost was Rs. 4,075-5-3 and the cost per patient Rs. 44-4-9, as compared with Rs. 4,736-15-9 and Rs. 43-7-4 in 1894 and Rs. 5,399-14-5 and Rs. 66-10-8 in 1893, respectively.

WESTROPP CIVIL HOSPITAL, SA'VANTVA'DI.—*In charge of* Dr. D. G. DALGADO, M.D.

Conservancy.—The local Municipality looks after the conservancy of the town. The night-soil is removed to a neighbouring village and thrown into a pit, where it is disinfected by means of earth and ashes. The sweepings of the town are utilized as manure for rice fields. The water-supply of the town is obtained by means of pipes from Kesri, a village at the foot of the Ghâts, about 8 miles from the town.

Hospital buildings.—The hospital is built on an elevated piece of ground, and is well ventilated. It contains accommodation for 36 beds, out of which 26 are for males and 10 for females. The Dalgado ward for paying patients is a small detached building with 2 beds. It was occupied by 5 patients during the last year. All the buildings are in good repair.

General health.—The general health of the town and of the State was fairly good. There was no cholera in 1895 and 1894; in 1893 there were 6 cases in the district. There were 3 cases of small-pox in the town and 13 in the district, against none in the town and 13 in the district in 1894 and 10 and 44 cases, respectively, in 1893. There were 110 cases of influenza in June, July and August; 17 of whooping cough, and a few of measles and chicken-pox. The general death-rate of the town was 23·2 per mille and birth-rate 25·6, against 17·4 and 31·9 in 1894 and 20·9 and 23·3 in 1893, respectively. The still-births during the last year were 12.

Attendance of patients.—The total number of patients treated was 597 in-door and 8,248 out-door, as compared with 532 and 7,576 in 1894 and 524 and 6,854 in 1893, respectively, and their daily average was 17·24 and 136·4 in 1895; 16·2 and 102·9 in 1894, and 17·6 and 97·3 in 1893. Of the total in-patients during the last year, 521 were men, 58 women and 18 children; and of the out-door, 3,815 were men, 1,590 women and 2,843 children. As regards caste and religion of the in-patients, 285 were Hindus, 217 Mussalmáns and 95 Christians, and of the out-patients, 1 European, 5,395 Hindus, 1,839 Mussalmáns and 1,013 Christians.

Most common diseases.—Malarial fevers, bronchitis and bronchial catarrh, simple continued fevers, ascaris lumbricoides and dyspepsia.

Surgical operations.—There were 19 major and 931 minor surgical operations, as compared with 24 major and 316 minor in 1894 and 13 major and 409 minor in 1893. Most of the obstetric operations were not successful. This is due to the fact that these cases were brought to the hospital after the village midwives had done all they could for 3 or 4 days.

Mortality and its causes.—The total number of deaths among in-patients was 26, as compared with 36 in 1894 and 27 in 1893. The chief causes were remittent fever, pneumonia, dysentery and diarrhœa. The patients who generally suffer from a bad type of dysentery and diarrhœa are religious mendicants and Fakirs who wander from place to place.

Vaccination.—Is performed by a separate department of the State consisting of 1 Inspector and 5 qualified vaccinators. In 1895, there were in the town 329 primary and 34 secondary vaccinations; in 1894, 267 and 67, and in 1893, 697 and 34; and in the district there were in 1895, 6,122 primary and 79 secondary; in 1894, 6,169 and 214, and in 1893, 5,091 and 397, respectively.

Conduct.—The conduct of the Hospital Assistants was very good. The First Class Hospital Assistant performed his duties with care and attention.

General observations.—The medico-legal cases were 60, out of which 9 were *post-mortem* examinations, as compared with 24 and 13 in 1894 and 19 and 13 in 1893, respectively. The rainfall was 149·67, against 136·73 and 139·4 in 1893. The maximum and minimum temperatures recorded during 1895 were 99° on 3rd June and 52° on the 11th December.

Cost.—The total cost of the hospital, including the pay of the Medical Officer, was Rs. 10,380-0-4 and the cost per patient Re. 1-2-9, against Rs. 10,406-6-5 and Re. 1-4-6 in 1894 and Rs. 10,447-1-4 and Re. 1-6-7 in 1893, respectively. Medical Officer's pay amounted to Rs. 5,920-15-1, against Rs. 6,600-0-0 in 1894 and Rs. 6,600-0-0 in 1893.

Hospital stoppages.—The income from this sources was Rs. 101-3-0, against Rs. 174-0-0 in 1894 and Rs. 131-12-0 in 1893.

GRANT-IN-AID DISPENSARIES.

DA'POLI.—*In charge of* Fist Class Hospital Assistant GOPA'L HURRY, No. 82.

The dispensary building is in good repair. Quarters are required for first and second class establishment. There is no dispensary committee. The conservancy system of the Town Municipality is carried on by men employed under the Municipality, and the general health

of the town is good. The water-supply is abundant and of good quality. The total treated was 5,063 out-door and 38 in-door patients, as compared with 5,034 and 45 in 1894 and 4,663 and 30 in 1893. The prevailing diseases were malarious fevers, rheumatism, respiratory affections and diseases of the digestive system. Cholera broke out in the station and its vicinity. There were 2 major and 131 minor operations performed, against 3 and 121 in 1894 and 3 and 127 in 1893. Nine *post-mortem* examinations were made at the request of the Police, and opinion was given on 5 medico-legal cases, as compared with 9 and 7 in 1894 and 7 and 4 in 1893. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Ratnágiri, in 1894 and 1893, and not in 1895. The total cost was Rs. 1,692-4-5 and the cost per patient Re. 0-5-3, as compared with Rs. 1,789-10-8 and Re. 0-5-7 in 1894 and Rs. 1,485-11-3 and Re. 0-5-1 in 1893, respectively. The fees under hospital stoppage rules amounted to Rs. 18-0-0, against Rs. 6-2-0 in 1894 and Rs. 22-6-0 in 1893.

CANDY DISPENSARY, VENGURLA.—*In charge of* Assistant Surgeon C. M. RODRIGUES.

The buildings are in good order. The conservancy of the town is unsatisfactory. Water-supply is good and sufficient. General health of the town and the adjoining villages good. There was no epidemic of any kind. The dispensary committee visited the dispensary seven times. The total treated was 7,225 out and 129 in-patients, against 6,864 and 110 in 1894 and 5,953 and 128 in 1893. The most common diseases were simple continued and malarial fevers, worms, rheumatic, bronchial and neuralgic affections and diseases of the digestive system and skin. There were 2 deaths among in-door patients from pneumonia, as compared with 5 in 1894 and 6 in 1893. Vaccination is performed by the municipal vaccinator. Two *post-mortem* examinations were made at the request of the Police, and opinion given in 7 medico-legal cases. 8 major and 364 minor surgical operations were performed, against 13 and 487 in 1894 and 10 and 455 in 1893. The dispensary was inspected by the Civil Surgeon, Ratnágiri, once in each year. The receipts on account of hospital stoppages were Rs. 178-15-0, against Rs. 137-8-0 in 1894 and Rs. 175-14-0 in 1893. The total cost was Rs. 3,195-4-5 and the cost per patient Re. 0-6-11, as compared with Rs. 3,468-1-8 and Re. 0-7-11 in 1894 and Rs. 3,432-4-6 and Re. 0-9-0 in 1893, respectively.

RÁJÁPUR.—*In charge of* First Class Hospital Assistant GANESH BA'BA'JI, No. 77.

The dispensary building is in a fair state of repair, but the roof requires extensive repairs as it leaks badly in monsoon. Furniture and fittings are in good order. The dispensary committee visited the dispensary 5 times against 6 in 1894 and 2 in 1893. Conservancy of the town is carried on by the Municipality. There are no public latrinês. Water-supply from main reservoir is abundant and of good quality, also from a few wells in the town, which, in rainy season, allow of pollution by soakage. The total teated were 4,415 out-door and 37 in-door patients, as compared with 4,784 and 18 in 1894 and 4,952 and 28 in 1893, respectively. The prevailing diseases were malarial fevers (chiefly ague), worms, rheumatism, respiratory affections and diseases of the digestive systems and skin. Small-pox was prevalent in the town in 1895. A few cases of measles and small-pox occurred in the town, and cholera was prevalent in the neighbouring villages in 1894. The town was free from epidemic in 1893. The dispensary was inspected by the Civil Surgeon, Ratnágiri, once in each year, and by the Deputy Sanitary Commissioner in 1894. Vaccination is carried on by the táluka vaccinator. Four *post-mortem* examinations were made and opinion given in 20 medico-legal cases against 7 and 12 in 1894 and 5 and 18 in 1893. 123 minor and 9 major surgical operations were performed, against 137 and 10 in 1894 and 160 and 16 in 1893, respectively. The total cost was Rs. 1,411-6-5 and the cost per patient Re. 0-5-0, as compared with Rs. 1,257-5-4 and Re. 0-4-2 in 1894 and Rs. 1,456-15-5 and Re. 0-4-8 in 1893, respectively. The fees collected under the hospital stoppage system amounted to Rs. 45-11-0, against Rs. 52-11-0 in 1894 and Rs. 65-9-0 in 1893.

MUNICIPAL DISPENSARY.

CHIPLUN.—*In charge of* Mr. NÁRÁYEN JINGA'JEE CUDDUM.

The dispensary, which is located in a big room on the lower storey of the municipal office, is in good condition but unsuitable for the purpose. Furniture and fittings are insufficient but in good order. The municipal committee visited the dispensary three times in each year. Conservancy arrangements, as for surface cleaning of the streets and gutters, are well attended to. Water-supply from wells and pipes is good and abundant. 41 cases of cholera occurred in 1893 with 25 deaths; 47 in 1894 with 21 deaths. No epidemic disease appeared in the station in 1895. The total treated was 3,512 out-door patients, against 2,941 in 1894 and 2,215 in 1893. The most common diseases were malarial fevers, worms, ophthalmia, diseases of the digestive system and skin and lung, respiratory and rheumatic affections. There were 9 major and 61 minor surgical operations performed, as compared with 4 and 18 in 1894 and *nil* and 29 in 1893. Opinion was given in several medico-legal cases. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Ratnágiri, in 1894 and 1893, and by the Collector of the district in 1895. The total cost was Rs. 610-4-4 and the cost per patient Re. 0-2-9, as compared with Rs. 736-12-0 and Re. 0-4-0 in 1894 and Rs. 901-8-3 and Re. 0-6-6 in 1893, respectively. The hospital stoppage rules are not in force here.

KANARA COLLECTORATE.

CIVIL HOSPITAL, KÁRWÁR.—*In charge of* Surgeon-Captain S. E. PRALL, M.B., B.S.

Conservancy.— There has been no change for the last three years. It is well looked after by the Municipality. Night-soil is daily removed and buried at a distance so as not to interfere with public health.

Water-supply.—The water-supply is abundant and good. It is obtained from wells which are covered and looked after.

Hospital buildings.—In good order. No change during the last three years; accommodation for 28 males and 7 females.

General health.—Good. No epidemic of any kind.

Attendance of patients.—345 in-door and 6,474 out-door, as compared with 358 and 7,408 in 1894 and 409 and 8,564 in 1893, respectively.

Prevailing diseases.—Malarial fevers head the list for the last three years, next to which are round worms; the other diseases were mild, such as skin diseases, diseases of the digestive system and respiratory affections, &c. &c.

Surgical operations.—There were 24 major and 193 minor surgical operations, against 50 and 603 in 1894 and 27 and 202 in 1893, respectively.

Mortality and its causes.—There were 15 deaths, as compared with 12 in 1894 and 12 in 1893. The causes were pneumonia, anœmia, malarial cachexia, ovarian cyst, epithelioma of lower jaw, cancrum oris, &c.

Medico-legal cases.—3 bodies were examined at the request of the Police, against 2 in 1894 and none in 1893.

Vaccination.—The total number vaccinated was 2,255 (766 in 1895, 794 in 1894 and 695 in 1893), of which 1,669 were successful, 214 unsuccessful and 372 unknown.

Conduct of the establishment.—Good.

Cost.—The total cost was Rs. 3,319-0-8 and the cost per patient Re. 0-7-9, as compared with Rs. 4,616-14-8 and Re. 0-9-6 in 1894 and Rs. 3,941-14-11 and Re. 0-7-0 in 1893, respectively.

Hospital stoppages.—The total income was Rs. 68-3-0, as compared with Rs. 21-14-0 in 1894 and Rs. 24-0-0 in 1893.

GRANT-IN-AID DISPENSARIES.

KUMTA.—*In charge of* Assistant Surgeon BHÁU GOVIND up to 12th December 1895 and of 1st Class Hospital Assistant KESHAV GOVIND, No. 154, from 13th December to the end of the year.

The dispensary buildings are in good repair. The chairman of the dispensary committee visited the dispensary three times. The conservancy arrangements are not quite satisfactory. The water-supply is plentiful but liable to contamination by soakage, especially during the rains. Public health was, on the whole, fair. The total treated was 53 in-door and 6,056 out-door patients, against 61 and 6,185 in 1894 and 69 and 6,373 in 1893, respectively. The daily average attendance was 1·9 in-door and 38·51 out-door, against 2·76 and 49·97 in 1894 and 2·18 and 55·86 in 1893. The most common diseases were malarial fevers, intestinal worms, skin diseases, digestive disorders, respiratory and rheumatic affections, injuries and diseases of the eye and ear. Whooping cough among children prevailed in April and May. Dysentery prevailed in the months of August, September, October and November in an epidemic form. There were a few cases of chicken-pox during the year. There was no other epidemic disease. Vaccination is performed by the town vaccinator. 12 major and 247 minor surgical operations were performed, as compared with 4 and 424 in 1894 and 7 and 229 in 1893, respectively. One *post-mortem* examination was performed and opinion given in 5 medico-legal cases. The Civil Surgeon, Kárwár, inspected the dispensary once in each year. The Collector and the 1st Assistant Collector visited the dispensary twice during the year. The total cost was Rs. 3,455-4-6 and the cost per patient Re. 0-9-0, as compared with Rs. 3,040-2-4 and Re. 0-7-9 in 1894 and Rs. 2,804-5-7 and Re. 0-7-0 in 1893, respectively. The receipts on account of hospital stoppages amounted to Rs. 114-9-0 against Rs. 82-1-0 in 1894 and Rs. 90-7-0 in 1893.

HONÁVAR.—*In charge of* Third Class Hospital Assistant H. T. CHANDORKAR, No. 278.

The dispensary buildings require thorough repairs, as the windows of the main building and the roof are dilapidated. There is no latrine attached to the Hospital Assistant's quarters. The plank beds for in-patients cannot be recommended for comfort or sightliness. The furniture is in good order but insufficient. The committee visited the dispensary frequently and held quarterly meetings. The conservancy is well attended to. The water-supply from wells is sufficient, except during hot season, but liable to contami-

nation by soakage. The total treated was 4,441 out-door and 48 in-door patients, as compared with 4,862 and 48 in 1894 and 3,878 and 45 in 1893, respectively. 20 major and 242 minor surgical operations were performed during the year, against 8 and 184 in 1894 and 1 and 92 in 1893, respectively. The prevailing diseases were malarial fevers, worms, skin diseases and bowel complaints. There was no epidemic. Vaccination is performed by the local fund vaccinator. 3 *post-mortem* examinations were made at the request of the Police, as compared with 4 in 1894 and 2 in 1893. The dispensary was inspected by the Civil Surgeon, Kárwár, once every year. The total cost was Rs. 1,104-8-9 and the cost per patient Re. 0-3-11, against Rs. 976-7-0 and Re. 0-3-2 in 1894 and Rs. 1,013-9-4 and Re. 0-4-2 in 1893, respectively. The fees under the hospital stoppage rules amounted to Rs. 22-12-0, as compared with Rs. 15-10-0 in 1894 and Rs. 4-8-0 in 1893.

SUPA.—*In charge of* Third Class Hospital Assistant ABDUL LATIFF KÁZI, No. 402.

The buildings are in fair repair. The dispensary building proper and servants' quarters require considerable repairs. Some portions of the dead and cook-houses require replastering. The furniture and fittings require petty repairs. The committee visited the dispensary 5 times, against 8 and 13 times in 1894 and 1893, respectively. Malarial fevers, diseases of the skin and digestive and respiratory systems, intestinal worms and dyspepsia were the most common complaints. There was no epidemic disease. The dispensary was inspected by the Civil Surgeon, the Collector and the Assistant Collector of Kánara once every year. The total treated was 1,175 out-door and 28 in-door patients, as compared with 1,297 and 34 in 1894 and 1,206 and 51 in 1893, respectively. The conservancy of the town is not well attended to. Water-supply is abundant but liable to pollution by soakage Vaccination is performed by the petha vaccinator. There were 5 major and 10 minor surgical operations performed. The total cost was Rs. 919-4-1 and the cost per patient Re. 0-12-2, against Rs. 923-15-2 and Re. 0-11-1 in 1894 and Rs. 926-14-11 and Re. 0-11-10 in 1893, respectively. Rs. 13-13-0 were realized on account of hospital stoppages, as compared with Rs. 2-10-0 in 1894 and Rs. 6-0-0 in 1893.

HALIYA'L.—*In charge of* Third Class Hospital Assistant SESHGIR UDPIRA'O, No. 318.

The conservancy of the town is well looked after by the Municipality. There are no public latrines in the city owing to the want of bhangies. There are about 20 pit privies in the city and 5 private latrines. The conservancy establishment consists of one muccadam and four peons, and 16 sweepers are engaged for cleaning the roads and gutters. There are two dust carts, and lately one Sanitary Inspector has been engaged this year by the Municipality to look after the sanitation of the city. The water-supply from two tanks is sufficient, except during the hot season. The dispensary buildings are in good repairs and the furniture and fittings sufficient. Quarters for the servants are much needed. The total number of out-patients treated was 4,130 with a daily average attendance of 45·4, as compared with 5,355 and 45·5 in 1894 and 5,330 and 49·4 in 1893. The total number of in-patients was 57 with a daily average attendance of 1·4, as compared with 73 and 2·3 in 1894 and 65 and 2·5 in 1893. Two deaths occurred among in-door patients, as compared with two in 1894 and five in 1893. Simple continued and malarial fevers, ascaris lumbricoides, conjunctivitis and diseases of the skin and digestive and respiratory systems were the prevailing diseases. There was no epidemic. Vaccination is performed by the táluka vaccinator. The Civil Surgeon of Kárwár inspected the dispensary once annually. The Deputy Sanitary Commissioner and the Assistant Collectors visited the dispensary. The dispensary committee visited it 8 times, as compared with 11 times in 1894 and 9 times in 1893. The total expenditure was Rs. 1,001-13-3, as compared with Rs. 1,055-8-7 in 1894 and Rs. 864-3-7 in 1893. The cost per patient was Re. 0-3-9, as compared with Re. 0-3-1 in 1894 and Re. 0-2-7 in 1893. The receipts from hospital stoppages amounted to Rs. 25-0-0, against Rs. 29-8-0 in 1894 and Rs. 15-3-0 in 1893.

SIRSI.—*In charge of* Assistant Surgeon V. B. KARANDIKAR, B.A., L.M. & S.

The dispensary building proper is in good condition. Of the attached buildings reported to be in a bad state of repair last and some previous years, the pauper ward and the cook-house were repaired during this year and are now in good condition. The repair of the police ward is now going on, and it will be set right shortly. The dispensary committee meet regularly every month. Sanitary arrangements are, as before, not satisfactory. The water-supply is abundant. There are many wells and tanks, all of fresh water, but liable to contamination by soakage. One tank, which is used by the majority of the people for drinking purposes, is closed in by a parapet wall round it by the Municipality since last year to prevent people from getting into it and spoiling it, but yet much remains to be done to improve its surroundings. The total treated was 7,778 out-door and 70 in-door patients against 7,922 and 94 in 1894 and in 10,310 and 88 in 1893, respectively. The most common diseases were malarial fevers, worms and diseases of the skin and digestive and nervous systems. There was a slight outbreak of small-pox in the months of March and July 1894, and a sharp attack of severe cholera at Banarasi, a village 15 miles off from this place, in the month of May 1895. There were 11 major surgical operations performed against 24 in 1894 and 43 in 1893. Vaccination is conducted by the táluka vaccinator. 7 *post-mortem* examinations were performed against 2 in 1894 and 3 in 1893. The total cost was Rs. 4,432-10-11 and the cost per patient was Re. 0-9-0, as compared with Rs. 3,445-15-1 and Re. 0-6-10 in 1894 and Rs. 2,819-12-2 and Re. 0-4-4 in 1893, respectively. The fees collected under the hospi-

tal stoppage system amounted to Rs. 137-3-0, against Rs. 180-5-0 in 1894 and Rs. 174-13-0 in 1893.

YELLA'PUR.—*In charge of* Third Class Hospital Assistant NA'RA'YEN KRISHNA, No. 308.

The dispensary building is in good condition and suitable for the purpose. The Hospital Assistant's quarters and dead-house are also in good order. The out-house and servants' quarters require reconstruction. The proposal to surround the dispensary compound with iron railings has not yet been carried out. The committee visited the dispensary 11 times during the year. The sanitary arrangements are fair, the town is kept clean by the Local Fund Department; there is no Municipality; there are no latrines and the people resort to the neighbouring fields and jungles for natural purposes. There being no separate sweeper sanctioned for the requirements of the dispensary, the dispensary compound is very frequently in disorder. The sweeper appointed for the travellers' bungalow has orders to comply with the dispensary requirements. During the fair season when officers on tour put up in the bungalow, the sweeper very rarely comes to the dispensary, pleading as an excuse that he has much work there and that he scarcely finds time to do the additional duty. The water-supply from wells and tanks is sufficient and fair. The total number of patients treated was 3,651 out-door and 40 in-door, as compared with 3,466 and 51 in 1894 and 3,991 and 79 in-door in 1893, respectively. The most common diseases were dysentery, malarial fevers, intestinal worms, respiratory affections, digestive disorders, spleen affections and itches. No cholera during the year. One *post-mortem* examination was made and reported on at the request of the Police. Vaccination is carried out by the táluka vaccinator. The total cost was Rs. 1,352-2-9 and the cost per patient Re. 0-5-10, as compared with Rs. 1,241-8-8 and Rs. 0-5-7 in 1894 and Rs. 1,067-1-5 and Rs. 0-4-2 in 1893. The receipts under the hospital stoppage system were Rs. 41-2-0, against Rs. 39-12-0 in 1894 and Rs. 27-14-0 in 1893.

SIDDA'PUR.—*In charge of* Second Class Hospital Assistant DATTA'TRAYA GANESH, No. 163.

The building is situated on a good airy place and kept in good repair. Furniture and fittings are sufficient but require repair. The roof of the Hospital Assistant's quarters needs repair. The water-supply from wells is of fair quality and sufficient. There is no municipality. The dispensary committee visited the dispensary 5 times, and the Collector and the Assistant Collector of Kánara, once. The conservancy is not well attended to. The total treated was 47 in-door and 3,101 out-door patients, against 55 and 2,305 in 1894 and 55 and 2,794 in 1893. The prevailing diseases were malarious fevers, worms, diseases of the digestive system, skin affections and local injuries. Small-pox was prevalent in May 1894 and in April 1895. There were 7 major and 71 minor surgical operations performed. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Deputy Sanitary Commissioner on the 26th April 1895 and by the Civil Surgeon of Kárwár in 1894 and 1893. The total cost was Rs. 1,071-0-2 and the cost per patient Re. 0-5-5, as compared with Rs. 1,006-10-6 and Re. 0-6-9 in 1894 and Rs. 1,011-8-6 and Re. 0-5-8 in 1893. The fees on account of hospital stoppages amounted to Rs. 21-10-0, against Rs. 18-14-0 in 1894 and Rs. 40-7-0 in 1893.

MUNDGOD.—*In charge of* Third Class Hospital Assistant LAXUMAN NA'RA'YEN SHIVALKAR, No. 364.

The dispensary building are clean and in good repair. A separate ward for females is much needed. Furniture and fittings are sufficient and in good order. The dispensary committee visited the dispensary twelve times. There are no arrangements for keeping the town clean. The water-supply from tanks is insufficient and liable to pollution during the hot season; that from the wells in the town is brackish. The total treated was 3,081 out-door and 38 in-door patients, as compared with 3,178 and 38 in 1894 and 2,795 and 34 in 1893. The prevailing diseases were malarial fevers, worms, conjunctiva, bowel complaints, skin affections, ulcers and injuries. Cholera broke out in a village eight miles off the town, returning 45 cases with 24 deaths. There were 7 major and 40 minor surgical operations performed. Three *post-mortem* examinations were made at the request of the Police, and opinion given in several medico-legal cases. Vaccination is carried out by the local fund vaccinator. The dispensary was inspected by the Civil Surgeon of Kárwár once in each year, and by the Deputy Sanitary Commissioner in May 1895. The amount realized on account of hospital stoppages was Rs. 5-12-0, against Rs. 3-10-0 in 1894 and Rs. 4-9-0 in 1893. The total cost was Rs. 793-2-7 and the cost per patient Re. 0-4-0, as compared with Rs. 1,078-2-6 and Re. 0-5-4 in 1894 and Rs. 838-13-11 and Re. 0-4-9 in 1893.

BHATKAL.—*In charge of* Third Class Hospital Assistant YESHWANT VITHAL, No. 363.

The dispensary was opened in June 1895. The present building was the old Pétha Kacheri and has been altered to suit the purposes of a dispensary. It is kept in good repair. There is no store-room. Furniture and fittings are sufficient and in good order. The dispensary committee visited the dispensary five times. The total treated was 2,445 out-door and 18 in-door patients. Malarial fevers, skin affections, worms and diseases of the digestive system were the most common complaints. The Civil Surgeon of Kárwár inspected the dispensary on 9th December 1895. The income from hospital stoppages was Rs. 19-15-0. The total cost was Rs. 1,106-0-11 and the cost per patient Re. 0-7-2.

POONA COLLECTORATE.

SASSOON GENERAL HOSPITAL, POONA.—*In charge of* Surgeon-Lieutenant-Colonel W. MCCONAGHY, M.D.

Conservancy.—A city conservancy establishment is maintained at an average yearly cost of Rs. 91,699-1-9 for the years 1892-93, 1893-94 and 1894-95, being Rs. 4,567-1-9 per annum in excess of that of three (3) years ago. Seventy-eight public latrines and 70 urinaries are maintained. In the cantonment the work has been done departmentally. In the Suburban Municipality, the average yearly expenditure for the past three (3) years, has been Rs. 8,061-10-1. The hospital conservancy is very satisfactorily attended to by the hospital establishment.

Water-supply.—Sufficient and good. The city is supplied by aqueducts from the Kátraj lake and by canals from Khadakvásla lake. Water from a well in Ráste's Peth and from the river Mutha is also used to a certain extent. The river receives the town drainage and is consequently much contaminated, but its water is only used for bathing and washing purposes. The hospital is supplied by pipes from the Khadakvásla lake. There has been no change in the water-supply of the city during the past triennial period, but during the past year it is understood that considerable improvements have been effected in the filtering beds which supply the cantonment.

Hospital buildings.—The buildings are generally in good order. The following alterations were made :—

A.—The mud floors of the different kitchens have been replaced by stone pavements.

B.—The various cooking ranges have also been rebuilt.

C.—The kitchens have been fitted with wooden shelves and the European cook-room provided with a large safe and a marble table.

D.—The verandhás of wards have been fitted with closed shelves.

E.—Surface drains for 2 wards have been laid down as a temporary measure.

Other measures, such as the building of a new maternity hospital, quarters for the House Surgeon and thorough drainage of the hospital are at present under the consideration of Government.

General Health.—The general health of the town has been good, though cholera was more or less present from August to December, after the fairs held at Pandharpur and other villages in the district. Malarial fevers predominate. Anæmia and scurvy are common, and syphilis also largely affects the population.

Details of treated.—The total number of patients treated was 2,954 in-door and 14,652 out-door, against 2,840 and 13,313 in 1894 and 2,601 and 13,817 in 1893, respectively.

The prevailing diseases.—Malarial fevers, dysentery, syphilis, gonorrhœa, worms, rheumatic affections and diseases of the respiratory, digestive and generative systems and skin.

Mortality and its causes.—There were 234 deaths, against 240 in 1894 and 218 in 1893; the principal causes being cholera, dysentery, diseases of the nervous system and lungs and diarrhœa.

Surgical operations.—513 major surgical operations were performed, against 539 in 1894 and 503 in 1893; the principal being opening of liver and other large abscesses, paracentesis abdominis, lithotomy, obstetric operations and amputations.

Vaccination.—Vaccination is regularly performed every Monday from 8 to 9 A.M., lymph from calf being exclusively used. The vaccinator is not attached to the hospital but works under the Sanitary Department.

Medico-legal cases.—There were 61 *post-mortem* examinations held, against 72 in 1894 and 53 in 1893. Besides, opinion was given on 65 medico-legal cases, as compared with 40 in 1894 and 68 in 1893.

Conduct of the Establishment.—Surgeon-Captain W. H. Burke, M.B., the Assistant Civil Surgeon, of which post he is permanent, performed his duties with great care and ability. He was absent on privilege leave during the months of March, April and May 1893, and Surgeon-Captain R. W. Lyons, M.D., who was appointed to act for him during his absence, performed his duties in an efficient manner. Surgeon-Captain W. H. Burke, M.B., was promoted to the rank of Surgeon-Major in October 1894. He acted as Civil Surgeon and Superintendent, Byramji Jijibhoy Medical School, from 9th of March to 8th of June 1895 during the absence on privilege leave of Surgeon-Lieutenant-Colonel W. McConaghy, M.D., for three (3) months. Surgeon-Lieutenant W. Church, Senior Assistant Surgeon, I. S. M.D.,

performed his duties very satisfactorily. Assistant Surgeon Ráo Sáheb Bhikáji Amrut Chobhe, G.G.M.C., retired on pension on the 12th of June 1895 after a long and meritorious service. He performed his duties during the period under report with his usual zeal and ability. He was succeeded by Assistant Surgeon E. S. Bharucha, L.M. & S., who promises to make an efficient and capable teacher. Assistant Surgeon Ráo Sáheb Dattu Ganesh Sabnis performed his duties very satisfactorily. The second class establishment have conducted themselves satisfactorily.

The nursing of the hospital.—Throughout the period has been under the directions and supervision of the Wantage Sisters, whose devotion to the sick and suffering merit all praise.

Cost.—The total cost was Rs. 40,365-14-3 and the cost per patient Rs. 2-4-8, as compared with Rs. 38,312-3-8 and Rs. 2-5-11 in 1894 and Rs. 32,827-5-11 and Rs. 2-0-0 in 1893, respectively. The cost of each diet was Re. 0-9-5 for Europeans and Re. 0-3-6 for Natives, against Re. 0-8-7 and Re. 0-3-5 in 1894 and Re. 0-7-1 and Re. 0-3-3 in 1893.

Hospital stoppages.—Rs. 59-12-0 were realized, against Rs. 124-5-0 in 1894 and Rs. 108-0-0 in 1893.

ROMAN CATHOLIC ORPHANAGE SCHOOL HOSPITAL, POONA.—In charge of Surgeon-Major E. W. YOUNG.

Conservancy.—The latrines for boarders and day scholars are emptied twice daily, and the surroundings are kept clean.

Water-supply.—By pipes from Kadakvásla lake, is very good and abundant.

Hospital building.—There is no regular hospital building. The sick children are treated in a well ventilated room in the upper storey of the school, and it is in good repair. Cases of a contagious nature are transferred to a building called the Saint Anne's School.

Attendance of patients.—83 in-door patients were treated, as compared with 73 in 1894 and 30 in 1893.

Prevailing diseases.—Ague and bronchial catarrh.

General health of the Institution—Has been excellent during the three years.

Vaccination.—Is carefully attended to. Children on admission to the school are examined and vaccinated, if necessary. There were 16 children revaccinated in the month of April 1895, of which 12 were successful and 4 unsuccessful. The vaccination work is performed by the cantonment vaccinator.

Conduct of establishment.—Satisfactory.

Cost.—The total cost was Rs. 1,190-5-4 and the cost per patient Rs. 14-5-6, as compared with Rs. 1,090-11-3 and Rs. 14-15-0 in 1894 and Rs. 1,074-11-7 and Rs. 35-13-2 in 1893.

ENDOWED DISPENSARY.

KHA'N BAHA'DUR PESTONJI SORA'BJI DISPENSARY, POONA.—*In charge of* Assistant Surgeon D. N. SHELKE.

The dispensary building is an old double-storied house, which was formerly used by the Peishwa for gymnastic exercises. The house is quadrangular in shape and has an open yard 29′×29′ in its centre. The building is situated in the centre of the city, and is convenient and suitable only for the treatment of out-door patients. It is kept in good repair by the Public Works Department. As there was only one common door situated in the northern side of the building, it was found inconvenient for both male and female patients to enter by the same door, and this inconvenience was lately removed by putting a door in the western side of the building. This alteration was effected by removing a window and putting a door in its stead on that side. A small compartment was hitherto allotted to accommodate three beds for in-door patients, but as it is in no way convenient for their accommodation, it is now used to keep old records and other unserviceable articles belonging to the dispensary. The upper storey of the building is still occupied by the office of the Municipality, and it, in many respects, hinders the proper management of the institution. There are six members in the dispensary committee, and of them one, according to his turn, visited the dispensary every month. Sanitary arrangements of the city are well attended to by the Municipality. The surface drainage works in the city are in progress. Water-supply is abundant during the greater part of the year but deficient during the hot weather, and sometimes the water is altogether stopped for several days together to the great inconvenience of the people, who are then compelled to drink water from wells and other open cisterns situated in different parts of the city. The quality of water supplied by pipes is generally good, but that from wells and open cisterns in the city is often contaminated by bathing and washing near them. The total treated was 14,511 out-door and 1 in-door patient, as compared with 16,170 and 3 in 1894 and 17,555 and 5 in 1893, respectively.

There has been a gradual decrease in the number of patients treated during the last three years, and this is to be attributed chiefly to two new dispensaries being opened by the Municipality within about two hundred yards from this dispensary, and also to several other qualified medical practitioners opening their dispensaries quite close to this institution. The prevailing diseases were simple continued and malarial fevers, intestinal round worms, bronchitis, diarrhœa, dyspepsia, eczema and itches. There were 60 cases of cholera in the city with 46 deaths. There were 15 major and 634 minor surgical operations performed as compared with 13 and 585 in 1894 and 9 and 567 in 1893, respectively. Of the major, five were reductions of dislocations, five opening of large abscesses, three removal of tumours and glands, one extirpation of breast and one slitting of large sinus. Vaccination is carried on by two municipal vaccinators. The dispensary was inspected by the Surgeon-General on the 4th January and 12th November, and by the Civil Surgeon on the 14th June 1895. The Surgeon-General with the Government of India visited the Institution on the 14th November, accompanied by the Surgeon-General with the Government of Bombay. The total cost was Rs. 5,459-2-5, the cost per patient Re. 0-6-0, as compared with Rs. 5,451-3-8 and Re. 0-5-4 in 1894 and Rs. 5,159-6-11 and Re. 0-4-8 in 1893, respectively. The income under hospital stoppages was Rs. 521-11-0, against Rs. 470-9-0 in 1894 and Rs. 184-3-0 in 1893. From this it is evident, therefore, that the hospital stoppage rules have been working satisfactorily here, notwithstanding there are five municipal dispensaries (two of which are situated within about two hundred yards from this institution), where all people, whether rich or poor, get medicines gratis, and also notwithstanding that several qualified medical practitioners have opened their dispensaries almost close to this institution. The Assistant Surgeon is of opinion that the income under this head would still be increased if the charge of fees for consultation be altogether done away with and the medicine charges reduced from three annas to two annas for a bottle of mixture and to one anna for medicines used for local applications, such as liniments, ointments, &c. From his experience of the people of this city, he finds that almost every patient from the middle ranks of society, whether he be liable to pay income tax or not, would gladly pay this trifling amount rather than take medicine gratis from the dispensary, and is quite convinced that people will not grudge to pay this small sum for their medicines and thereby the income under this head would gradually increase.

MUNICIPAL DISPENSARIES.

KASBA PETH DISPENSARY NO. 3, POONA.—*In charge of* pensioned First Grade Hospital Assistant MA'RTAND RA'MKRISHNA.

The dispensary building, a hired one, is in fair order. Quarters for the medical officer and establishment are not provided. The furniture and fittings are sufficient and in good order. The members of the Municipality visited the dispensary 35 times, against 28 in 1894 and 20 in 1893. The sanitary arrangements of the town are under the supervision of the Health Officer of the Municipality. Arrangements for water-supply to the town are managed by the municipal committee. Vaccination is carried out by the public vaccinator. The total treated was 17,833 out-door patients, as compared with 15,310 in 1894 and 19,627 in 1893. The most common diseases were ascaris lumbricoides, malarial fevers, affections of the skin and disorders of the digestive system. No cases of epidemic nature were treated during the past three years. There were 1 major and 450 minor surgical operations performed, against 835 minor in 1894 and 1,144 minor in 1893. The dispensary was inspected by the Civil Surgeon, Poona, once in each year, and by the Health Officer of the Municipality frequently. The total cost was Rs. 1,870-0-11 and the cost per patient Re. 0-1-8, as compared with Rs. 2,078-10-4 and Re. 0-2-2 in 1894 and Re. 2,444-0-8 and Rs. 0-2-0 in 1893, respectively. The hospital stoppage rules are not in force here.

NA'NAS PETH DISPENSARY NO. 2, POONA.—*In charge of* Mr. GANGA'JI NURSOO.

The building, a hired one, is small and in a fair state of repair. The dispensary is supplied with sufficient furniture. The committee visited the dispensary 22 times. The sanitary condition of the Nána's Peth is fair. The water-supply from the Khadakvásla canal is good and abundant, but deficient in the hot season. The total number of patients treated was 22,845 out-door, as compared with 24,607 in 1894 and 25,500 in 1893. The prevailing diseases were malarial fevers, worms, rheumatic affections and diseases of the eye, ear, respiratory and digestive system and skin. Cholera broke out in the city from August to December 1895. 698 minor surgical operations were performed against 574 in 1894 and 531 in 1893. Vaccination is carrried out by the municipal vaccinators. The dispensary was inspected by the Civil Surgeon, Poona, once in each year. The total cost was Rs. 2,221-3-7, the cost per patient Re. 0-1-7, as compared with Rs. 2,098-5-1 and Re. 0-1-4 in 1894 and Rs. 2,068-3-11 and Re. 0-1-4 in 1893, respectively. The hospital stoppage rules are not worked here.

SHANWÁR PETH DISPENSARY NO. 1, POONA.—*In charge of* Mr. NURSUJI SAYÁ'JI POREDI.

The building, a hired one, is small and in a fair state of repair. The dispensary is supplied with sufficient furniture. The committee visited the dispensary 23 times. The sanitary condition of the Shanwár Peth is fair. The water-supply from the Khadakvásla canal is good and abundant, but deficient in the hot season. The total number of patients

treated was 18,437 out-door as compared with 17,272 in 1894 and 18,940 in 1893. The prevailing diseases were malarial fevers, worms, rheumatic affections and diseases of the eye, ear, respiratory and digestive systems and skin. Cholera broke out in the city from August to December 1895. 504 minor surgical operations were performed, against 461 in 1894 and 662 in 1893. Vaccination is carried out by the municipal vaccinators. The dispensary was inspected by the Civil Surgeon, Poona, once in each year. The total cost was Rs. 1,782-4-6 and the cost per patient Re. 0-1-7, as compared with Rs. 1,765-12-9 and Re. 0-1-7 in 1894 and Rs. 2,035-10-2 and Re. 0-1-9 in 1893, respectively. The hospital stoppage rules are not in force here.

SHUKARWÁR PETH DISPENSARY No. 4 for Females and Children, POONA.—

In charge of Mrs. W. STEPHENS, M.D.

The dispensary was opened in October 1894 in a hired building, which is in good repair. The furniture and instruments are sufficient. There is no dispensary committe, but the Health Officer and the members of the municipal committee visit the dispensary often. The sanitation of Poona is fairly good, considering its crowded state. The water-supply is ample and of good quality. The total treated was 9,159 out-door patients, as compared with 1,214 in 1894. There were no in-door patients. The most common diseases were malarial fevers, worms, rheumatic affections, diseases of the eye, respiratory, digestive and generative systems and skin. There were 340 minor surgical operations performed against 32 in 1894. Vaccination is performed by municipal vaccinators. The total cost was Rs. 3,044-10-7, the cost per patient was Re. 0-5-4, as compared with Rs. 1,943-6-7 and Re. 1-9-7 in 1894, respectively. The hospital stoppage rules are not worked here.

SIRUR.—*In Charge of* Pensioned first Class Hospital Assistant SHAIK USIFF.

The dispensary is situated at the distance of about quarter of a mile from the eastern termination of the town. The sanitary arrangement of the town is good. There are ten public latrines with 50 seats, which are served by 3 municipal bhangis; the night-soil is removed by carts to a depôt on the eastern side outside the town; besides, there are 324 private privies which are served by seven municipal bhangis. The town is supplied with 8 iron stand-pipes in different parts of the locality for the purpose of supplying water to the people. This water is pumped out from the river into a reservoir founded at the bank of River Ghodnadi, to a cistern in the town by means of iron pipes, from which it is distributed to the several stand-pipes. As the pipe water is brackish, the people make use of this water for the purpose of bathing, washing, &c., and obtain their drinking water direct from the river. During the hot season the supply of this water to the town becomes scanty, as the beds of the river become dry, and the people then suffer from want of sufficient water. The total number of patients treated during the year amounted to 11 in-door and 8,449 out-door, as compared with 11 and 5,338 in 1894 and 9 and 4,967 in 1893, respectively. The prevailing diseases were dysentery, malarial fevers, rheumatic and skin affections, ophthalmia and bowel complaints. Cholera broke out in the town on 1st October 1895, giving 38 cases with 21 deaths. 10 major surgical operations were performed, against 2 in 1894 and 4 in 1893. Of these, removal of nasal polypi is credited with 1, application of forceps 4, version 3, craniotomy 1 and reduction of the dislocation of the lower jaw 1. Vaccination is carried on by the táluka vaccinator. The total cost was Rs. 1,158-5-4, against Rs. 1,046-7-5 in 1894 and Rs. 966-5-7 in 1893. During the year under report the cost for each patient was Re. 0-2-2, as compared with Re. 0-3-1 in 1894 and Re. 0-3-1 in 1893. No hospital stoppage rules are in force here. Medicines and advice are given gratis to the poor as well as to the rich people of the town and of the táluka.

GRANT-IN-AID DISPENSARIES.

SÁSVAD.—*In charge of* second Class Hospital Assistant NURSOO DAMOOJI, No. 187.

The building, a hired one, is in good repair. There is no accommodation for in-patients. The furniture and fittings are sufficient. The sanitary condition of the town is satisfactory. The water-supply from the river Kurha is good and sufficient, but liable to pollution. The committee visited the dispensary seven times. The total treated was 10,988 out-door patients, against 13,456 in 1894 and 14,397 in 1893. The prevailing diseases were ague, scurvy, worms, rheumatic affections, diseases of the nervous system, eye, ear, respiratory and digestive systems and skin, and local injuries. Cholera broke out in the town and its surrounding villages in July and August. Vaccination is carried on by the táluka vaccinator. Three major and 569 minor surgical operations were performed. Four *post-mortem* examinations were made, and opinion given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Poona, once in each year. The total cost was Rs. 1,442-14-9 and the cost per patient Re. 0-2-1, as compared with Rs. 1,139-13-2 and Re. 0-1-4 in 1894 and Rs. 807-14-0 and Re. 0-0-11 in 1893, respectively. The receipts from hospital stoppages were Rs. 9-4-0, against Rs. 25-5-0 in 1894 and Re. 1-10-0 in 1893.

JEJURI.—*In charge of* second Class Hospital Assistant TRIMBAK LAXUMAN, No. 161.

All the buildings of the dispensary, including quarters of the Hospital Assistant and compound, are in very good repair. There is no window to the western side of one ward. Two windows should be built for free ventilation. The compounder's quarters attached to

the western side of this ward should be removed and newly built in other place. Quarters for the peon are also required. The furniture and fittings are sufficient and in good repair. The committee visited the dispensary six times, the Collector and President twice and the Vice-President once during the year. The sanitary condition of the town is fairly satisfactory, but admits of much improvement. The water-supply from H. H. Holkar's tank is deficient and of bad quality owing to scanty rainfall. The question of supplying good water from wells is under the consideration of the Municipality. The total number of patients treated was 10,377 out-door and 17 in-door, as compared with 10,528 and 13 in 1894 and 9,819 and 14 in 1893, respectively. The most common diseases were ascaris lumbricoides, conjunctivitis, ague, scabies and diarrhœa. Cholera was epidemic in the town and its surrounding villages. The total number of persons attacked in the town from 12th to 29th November 1895 was 12, including 8 deaths. There were 8 major surgical operations performed. The táluka vaccinator vaccinates children twice in each year with cow's lymph. Nine *post-mortem* examinations were made. Opinion was given in one medico-legal case at the request of the Police, against four in 1894 and seven in 1893. The dispensary was inspected by the Civil Surgeon, Poona, once in each year, and by the Deputy Sanitary Commissioner in 1894 and 1893. The total cost was Rs. 756-13-5, the cost per patient Re. 0-1-2, against Rs. 1,126-12-6 and Re. 0-1-8 in 1894 and Rs. 1,475-1-5 and Re. 0-2-5 in 1893, respectively. The fees realized on account of hospital stoppages amounted to Rs. 9-5-0, as compared with Rs. 10-3-0 in 1894 and Rs. 8-6-0 in 1893.

BÁRÁMATI.—*In charge of* First Class Hospital Assistant Mr. VITHAL BALVANT, No. 131.

The building, a hired one, is old and quite unsuited for dispensary purposes and not in a good state of repair. Furniture and fittings are not sufficient. The committee visited the dispensary twice, as compared with eight times in 1894 and nine times in 1893. The sanitary condition of the town is fair. The water-supply from the river Karha and the Nira canal is good and abundant, except in the hot season. The total number of patients treated was 7,326 out-door and 36 in-door, as compared with 7,668 and 33 in 1894 and 5,895 and 36 in 1893, respectively. The prevailing diseases were intermittent fevers, conjunctivitis, ascaris lumbricoides, diarrhœa, dysentery, rheumatic affections, bronchitis and itches. Cholera broke out in the town in the middle of October 1895, lasting only for eight days and returning 8 cases with 4 deaths, as compared with 60 cases and 14 deaths in 1894 and 49 cases and 15 deaths in 1893. 13 major and 405 minor surgical operations were performed, against 10 and 386 in 1894 and 8 and 306 in 1893. Vaccination is carried on by the táluka vaccinator. 11 *post-mortem* examinations were made and opinion given in 7 medico-legal cases, as compared with 5 and 13 in 1894 and 7 and 16 in 1893, respectively. The dispensary was inspected by the Civil Surgeon, Poona, once in each year, and by the Deputy Sanitary Commissioner, Central Registration District, twice in 1895 and once in 1893. The total cost was Rs. 1,205-15-5 and the cost per patient Re. 0-2-7, as compared with Rs. 1,051-7-6 and Re. 0-2-2 in 1894 and Rs. 993-1-1 and Re. 0-2-8 in 1893, respectively. The amount collected under the hospital stoppage system was Rs. 26-5-0, against Rs. 10-14-0 in 1894 and Rs. 9-12-0 in 1893.

INDA'PUR.—*In charge of* Native Doctor R. MALHA'R.

The dispensary is located in an old hired building, which is in tolerably good repair. The furniture and fittings are sufficient. The dispensary committee visited the dispensary 3 times, as compared with 3 in 1894 and 2 in 1893. The sanitation of the town is fairly good. The water-supply is abundant and of fairly good quality. The total treated was 28 in-door and 7,501 out-door, as compared with 24 and 7,759 in 1894 and 37 and 8,087 in 1893, respectively. The most common diseases were intermittent and remittent fevers, ascaris lumbricoides, conjunctivitis, bronchitis, dyspepsia, diarrhœa and skin diseases. The town was free from epidemic, but a few villages were said to have suffered from a mild sort of epidemic in 1895; but in the year 1894, both the town and villages around it severely suffered from cholera; and in the year 1893, the town and its villages mildly suffered with the epidemic. There were 3 major and 114 minor surgical operations performed, against 1 and 86 in 1894 and 0 and 104 in 1893, respectively. Vaccination is conducted by the táluka vaccinator. *Post-mortem* examinations were held on 10 human dead bodies, against 4 human bodies and 3 cattle in 1894 and 6 human bodies and 5 cattle in 1893. The dispensary was inspected every year by the Civil Surgeon, the Deputy Sanitary Commissioner, the Collector and the Assistant Collector of Poona, and once by the Commissioner. The total cost was Rs. 1,203-3-8, the cost per patient Re. 0-2-7, as compared with Rs. 1,251-5-5 and Re. 0-2-7 in 1894 and Rs. 922-8-7 and Re. 0-1-10 in 1893, respectively. Rs. 11-1-0 were receipts on account of hospital stoppages, against Rs. 12-5-0 in 1894 and Rs. 6-6-0 in 1893.

JUNNER.—*In charge of* Second Class Hospital Assistant PIRA'JI KA'MA'JI, No. 206.

The dispensary building is in a very bad state of repair. Steps have been taken to repair it. There is no accommodation for in-door patients, and neither is there a dead-house nor a cook-room and quarters for Hospital Assistant and servants. The furniture and fittings are sufficient. The dispensary committee visited the dispensary twice, against three times in 1894 and four times in 1893. Sanitation of the town is unsatisfactory. Water-supply is good and sufficient. The total treated was 1 in-door and 10,704 out-door patients, against 2 and 11,231 in 1894 and 3 and 11,016 in 1893. The most common diseases were ophthalmia,

malarial fevers, intestinal worms, bowel complaints and respiratory and skin affections. There was no epidemic disease in 1895. There were 221 cases of cholera with 107 deaths in Junner and 1,085 cases of cholera with 529 deaths in other villages of the táluka in 1894; and 60 cases of cholera with 31 deaths in six villages of the táluka, excluding Junner, in 1893. 3 major and 373 minor surgical operations were performed, against 5 and 436 in 1894 and 6 and 418 in 1893. Vaccination by calf lymph, which was introduced in 1893, is performed by the táluka vaccinator. 4 *post-mortem* examinations were made and opinion given in 6 medico-legal cases, against 9 and 20 in 1894 and 13 and 16 in 1893. The dispensary was inspected by the Civil Surgeon, Poona, once in each year, and by the Deputy Sanitary Commissioner, Central Registration District, in 1894 and 1893. The total cost was Rs. 1,189-15-3, against Rs. 1,132-3-5 in 1894 and Rs. 954-14-7 in 1893. The cost per patient was Re. 0-1-9 against Re. 0-1-7 in 1894 and Re. 0-1-5 in 1893. The fees realized under the hospital stoppage rules amounted to Rs. 40-8-0, as compared with Rs. 28-13-0 in 1894 and Rs. 40-10-0 in 1893.

KHED.—*In charge of* Second Class Hospital Assistant GANGA'DHAR B. SA'THE, No. 198.

The dispensary buildings are in good repair. Furniture and fittings sufficient. Glass windows are necessary instead of wooden ones to admit light and prevent heavy breeze. A verandah on the south and east side of the dispensary is required. A piece of land has been bought by the dispensary committee for the quarters of the Hospital Assistant at a cost of Rs. 275, but is lying useless for want of funds. The committee visited the dispensary quarterly and individual member frequently. The sanitary state of the town is fair, and the water-supply generally scanty and of inferior quality. The total treated was 11 in-door and 5,863 out-door patients, as compared with 17 and 5,851 in 1894 and 15 and 6,708 in 1893, respectively. The prevailing diseases were malarial fevers, ascaris lumbricoides, ophthalmia, skin and respiratory affections, bowel complaints and local injuries. Small-pox prevailed in 1893 and cholera in a strong form in 1894 and 1895. Eight *post-mortem* examinations were made. Vaccination is performed by the local fund vaccinator. The total cost was Rs. 883-10-10 and the cost per patient Re. 0-2-5, as compared with Rs. 1,052-11-2 and Re. 0-2-10 in 1894 and Rs. 930-4-1 and Re. 0-2-3 in 1893, respectively. Fees from hospital stoppages amounted to Rs. 39-9-0, against Rs. 57-5-0 in 1894 and Rs. 13-11-0 in 1893.

TALEGAON DA'BHA'DA.—*In charge of* Third Class Hospital Assistant KESHAV GANPAT JA'DHAV, No. 299.

The roof of the dispensary building is rotten and urgent repairs are, therefore, necessary. Furniture and fittings are sufficient and in good order. The dispensary committee visited the dispensary 4 times, against 10 times in 1894 and 8 times in 1893. The sanitation of the town is fair. The water-supply from a new tank constructed by the Municipality is abundant and of good quality. The total treated was 4,255 out-door and 18 in-door patients, as compared with 4,058 and 15 in 1894 and 5,258 and 12 in 1893, respectively. The prevailing diseases were ophthalmia, malarial fevers, febricula, worms, diseases of the connective tissue, skin and digestive and respiratory systems, dyspepsia, diarrhœa, ulcers and local injuries. There was neither cholera nor small-pox in 1895 and 1893, but 28 cases of the former and 15 of the latter occurred in 1894. 8 major and 117 minor surgical operations were performed, as compared with 3 and 113 in 1894 and 0 and 131 in 1893, respectively. Four *post-mortem* examinations were held and opinion given on 7 medico-legal cases, against 4 and 4 in 1894 and 2 and 5 in 1893. The dispensary was inspected by the Civil Surgeon, Poona, once in each year; also by the Deputy Sanitary Commissioner on 10th May 1895. The total cost was Rs. 918-8-10 and the cost per patient Re. 0-3-5, as compared with Rs. 815-1-0 and Re. 0-3-2 in 1894 and Rs. 906-4-0 and Re. 0-2-9 in 1893, respectively. Rs. 14-9-0 were realized for hospital stoppages, against Rs. 16-2-0 in 1894 and Rs. 19-14-0 in 1893.

TALEGAON DHAMDHERA.—*In charge of* Third Class Hospital Assistant PRATA'P GANGA'RA'M, No. 314.

The dispensary building, a hired one, is in a good state of repair. The furniture and fittings are sufficient and in good order. A dead-house is badly wanted. The dispensary committee visited the dispensary 7 times, as compared with 4 in 1894 and 5 in 1893. Conservancy arrangements are not satisfactory. Water-supply is scanty, owing chiefly to the fact of there being several embankments built to water the lands high up the river. The total treated was 9,527 out-door and 2 in-door patients, against 6,133 and 0 in 1894 and 5,725 and 2 in 1893, respectively. The most common diseases were fevers, ophthalmia, skin affections, worms and bowel complaints. There was no epidemic in the town as well as in the surrounding villages during the year. Two *post-mortem* examinations were made at the request of the Police. 14 major and 441 minor surgical operations were performed, as compared with *nil* and 194 in 1894 and 1 and 132 in 1893, respectively. Vaccination is carried on by the táluka vaccinator. The Civil Surgeon, Poona, inspected the dispensary once in each year. The total cost was Rs. 1,071-5-10 and the cost per patient Re. 0-1-10, against Rs. 1,036-5-6 and Re. 0-2-8 in 1894 and Rs. 827-13-9 and Re. 0-2-4 in 1893, respectively. The fees under hospital stoppage rules amounted to Rs. 6-9-0, as compared with Re. 1-10-0 in 1894. There were no receipts under this head in 1893.

ALANDI.—*In charge of* First Class Hospital Assistant ANTA'JI GOPA'L, No. 143.

The building is a part of a dharmshála and quite unsuitable for the purposes of a dispensary. It is kept in good repair. There are no quarters for the Hospital Assistant and servants. A dead-house and a latrine are much needed. The dispensary committee visit the dispensary quarterly. The sanitary condition of the town is fair. Cholera prevailed in the month of November 1895, when 21 cases were reported with 12 deaths. The people generally obtain their water-supply from the river. The total treated was 6,823 out-door and 25 in-door patients, as compared with 4,480 out-door and 3 in-door in 1893 and 5,821 out-door and 4 in-door in 1894. The prevailing diseases were fevers, worms, conjunctivitis and diseases of the respiratory and digestive systems and skin. Vaccination is carried on from house to house by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Poona, once in each year, also by the Deputy Sanitary Commissioner on 10th October 1895. The total cost was Rs. 1,016-2-5 and the cost per patient Re. 0-2-4, against Rs. 1,434-6-9 and Re. 0-3-11 in 1894 and Rs. 888-14-5 and Re. 0-3-2 in 1893, respectively. The receipts on account of hospital stoppages amounted to Rs. 5-4-0, as compared with Rs. 2-4-0 in 1894 and Rs. 3-10-0 in 1893.

LONA'VLA.—*In charge of* DR. J. W. FIELD from 1st January to 31st May 1895, and DR. J. MARR, M.B., C.M., from 1st June 1895 to 31st December 1895.

The conservancy of the town is managed by a staff of 5 sweepers, 7 bhangies, one Inspector and one peon, and fairly attended to. The water-supply is obtained from the Railway Bhusy Reservoir by pipes laid on to 6 stand-posts in different places throughout the town. It is pure and sufficient only for drinking purposes. Water for washing and bathing purposes is taken from the tank and the Indrávati river. The G. I. P. Railway Hospital building is utilized. The total treated was 3,161 out-door patients, against 3,276 in 1894 and 3,206 in 1893. There were 2 in-door patients during the year 1895. The prevailing diseases were malarial fevers and diseases of the respiratory and digestive systems. Vaccination is carried on by the Government vaccinator of the district twice in a year. The sanitary state of the town is fair. The health of the public is good. The conduct of the establishment is reported on favourably. The total cost was Rs. 1,200-0-0 and the cost per patient Re. 0-6-1, as compared with Rs. 1,200-0-0 and Re. 0-5-10 in 1894 and Rs. 1,202-14-9 and Re. 0-6-0 in 1893, respectively. The hospital stoppage rules are not in force here.

AHMEDNAGAR COLLECTORATE.

RIPON HOSPITAL, AHMEDNAGAR.—*In charge of* Surgeon-Major H. W. STEVENSON.

Conservancy.—There has been no change in the drainage, public latrines or cess-pits during the past three years. These are all still in an unsatisfactory condition.

Water-supply.—There has been no change in the water-supply during the past three years. There is now a scheme being carried out which should improve both the quantity and quality of the supply and also its manner of distribution.

Hospital buildings.—Afford excellent accommodation and are in good repair.

General health.—Good.

Epidemic.—Cholera broke out in the city, returning 40 cases with 20 deaths, as compared with 98 cases and 54 deaths in 1894 and 84 cases and 37 deaths in 1893.

Attendance of patients.—10,154 out-door and 324 in-door patients, against 11,463 and 362 in 1894 and 12,226 and 553 in 1893, respectively.

Prevailing diseases.—Ascaris lumbricoides, malarial fevers, ophthalmia and skin diseases.

Mortality.—There were 16 deaths as compared with 13 in 1894 and 25 in 1893.

Surgical operations.—69 major and 944 minor, against 85 and 1,048 in 1894 and 73 and 1,680 in 1893, respectively.

Vaccination.—Is carried out by the municipal vaccinator. There were 1,744 vaccinations and revaccinations, as compared with 2,224 in 1894 and 2,276 in 1893. Of these, 1,686, 2,099 and 2,144, respectively, were successful.

Medico-legal cases.—30 *post-mortem* examinations were performed, against 24 in 1894 and 26 in 1893. Opinion was given in 63 cases, as compared with 43 in 1894 and 60 in 1893.

Conduct of Establishment.—Of the 1st class establishment the conduct has been uniformly good, and their work satisfactory. That of the 2nd class establishment has not been so satisfactory, and it is difficult to obtain servants of this class who are respectable and hard-working.

Cost.—The total cost was Rs. 3,016-2-6 and the cost per patient Re. 0-4-7, against Rs. 3,711-4-9 and Re. 0-5-0 in 1894 and Rs. 4,125-6-2 and Re. 0-5-2 in 1893, respectively.

Hospital stoppages.—Amounted to Rs. 191-10-0, as compared with Rs. 179-11-0 in 1894 and Rs. 152-4-0 in 1893.

GRANT-IN-AID DISPENSARIES.

SANGAMNER.—*In charge of* First Class Hospital Assistant HARI VITHAL, No. 87.

The dispensary building requires white-washing, tile-turning and other petty repairs. A store-room and an examination room are needed. Except an operating table, the furniture and fittings are sufficient. The dispensary was visited by individual members of the dispensary committee seven times. The sanitary and conservancy arrangements of the town are defective and drainage is imperfect, having no arrangement for ventilation or flushing. Every available corner is fouled by excreta. The tributary nálas around the town and the dry bed of river Mahálungi are used for natural purposes. There are eight public latrines, but they are seldom used by the people. The surface cleanliness (road sweeping) is well attended to. Water-supply from wells is abundant and brackish, that from the river Pravara is good for potable purposes, but liable to contamination. The total treated was 8,016 out-door and 33 in-door patients, as compared with 8,389 and 32 in 1894 and 7,648 and 39 in 1893. The most common diseases were ague, ophthalmia, ascaris lumbricoides, scabies and eczema. Cholera made its appearance in the town on the 22nd July and continued up to 21st August 1895. 28 cases of cholera were treated, of which 5 proved fatal. 11 major surgical operations were performed, against 3 in 1894 and 5 in 1893. Six *post-mortem* examinations were made at the request of the Police. Vaccination is carried out by the táluka vaccinator. The Civil Surgeon, Ahmednagar, inspected the dispensary once annually. The total cost was Rs. 1,335-8-3 and the cost per patient Re. 0-2-8 against Rs. 1,303-10-3 and Re. 0-2-5 in 1894 and Rs. 1,357-2-6 and Re. 0-2-10 in 1893, respectively. The income under the hospital stoppage system was Rs. 45-11-0, as compared with Rs. 62-12-0 in 1894 and Rs. 66-1-0 in 1893.

NEVÁSA.—*In charge of* First Class Hospital Assistant WÁMAN GANESH, No 159.

The dispensary buildings are in good repair. A new latrine is constructed. The quarters for Hospital Assistants are not sufficient. A new dead-house is required. The dispensary committee visit the dispensary every month. No system of conservancy is in force in the town. The water-supply from the river Pravara is good and abundant. The total treated was 3,751 out-door and 24 in-door patients, against 4,779 and 19 in 1894 and 3,729 and 17 in 1893, respectively. The most common complaints were conjunctivitis, malarial fevers, worms and diseases of the respiratory and digestive systems and skin. Cholera prevailed in the town and its vicinity in the years 1894 and 1895. In 1893 there was no epidemic. Vaccination is carried on by the táluka vaccinator. Six *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon of Ahmednagar every year, and by the Deputy Sanitary Commissioner in 1894 and 1893. The total cost was Rs. 973-14-3, against Rs. 926-11-0 in 1894 and Rs. 950-14-6 in 1893. The cost per patient was Re. 0-4-2, as compared with Re. 0-3-1 in 1894 and Re. 0-4-1 in 1893. The receipts from hospital stoppages amounted to Re. 1-6-0, as compared with Rs. 8-6-6 in 1894 and Rs. 3-15-0 in 1893.

SHEVGAON.—*In charge of* Second Class Hospital Assistant MAHÁDEO MANOHAR, No 142.

The dispensary building is in excellent order and kept in good repair. The conservancy of the town is unsatisfactory. There is no Municipality. The water-supply from wells is deficient during the hot season, but good in quality. The total treated was 9 in-door and 2,207 out-door patients, as compared with 8 and 2,456 in 1894 and 12 and 2,479 in 1893, respectively. The most common diseases were ophthalmia, malarial fevers, worms and diseases of the digestive and respiratory systems and skin. The town was free from epidemic. 147 minor surgical operations were performed, against 155 in 1894 and 189 in 1893. Vaccination has been carried on by the táluka local fund vaccinator. The dispensary was inspected by the Civil Surgeon once every year. There were 2 *post-mortem* examinations held, against 3 in 1894 and 1 in 1893. The total cost was Rs. 953-11-3 and the cost per patient Re. 0-6-11, as compared with Rs. 833-14-3 and Re. 0-5-4 in 1894 and Rs. 765-4-11 and Re. 0-4-11 in 1893, respectively. The total income from hospital stoppages was Re. 1-10-0, as compared with Rs. 2-5-0 in 1894 and Re. 1-4-0 in 1893.

PÁRNER.—*In charge of* Third Class Hospital Assistant NÁRÁYEN VISHVANÁTH, No. 270.

The dispensary building is in a good state of repair. A new well has been sunk in the dispensary compound but not completed as yet. Sanitation of the town is defective. Water-supply for the town is abundant but liable to pollution by soakage. The town is a non-municipal one. The total treated was 4,913 out-door and 25 in-door patients, against 4,496 and 49 in 1893 and 5,294 and 31 in 1894. The prevailing diseases were malarial fevers, intestinal worms, ophthalmia and diseases of the respiratory and digestive systems and skin. Cholera broke out in July, August and September 1895, giving 133 cases with 67 deaths. Five *post-mortem* examinations were performed, and opinion was given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon of Ahmednagar and the Deputy Sanitary Commissioner. Vaccination is carried on by the táluka vaccinator. 7 major and 226 minor surgical operations were performed, as compared with 3 and 190 in 1894 and 4 and 194 in 1893, respectively. The total cost was Rs. 1,129-11-11 and the cost per patient Re. 0-3-8, against Rs. 1,012-13-8 and Re. 0-3-6 in 1893 and Rs. 960-12-0 and

Re. 0-2-10 in 1894. The income from hospital stoppages was Rs. 30-15-0, against Rs. 12-9-0 in 1894 and Rs. 12-8-6 in 1893.

AKOLA.—*In charge of* Third Class Hospital Assistant MAHÁDEO SHANKAR, No 304.

The dispensary building, though an old one, is in a good state of repair. Quarters for servants are required. The dispensary committee visited the dispensary 4 times and individual members 7 times. The sanitary condition is fair; the town is non-municipal and without proper drains and sweeping system; the water-supply is abundant but liable to contamination. The total number treated was 3,062 out-door and 29 in-door patients, as compared with 2,438 and 31 in 1894 and 2,533 and 37 in 1893. The prevailing diseases were malarial fevers, ophthalmia, round worms and skin diseases. There was no epidemic; but about 15 deaths from cholera occurred in a village 8 miles off the town. Vaccination is carried on by the táluka vaccinator. Nine *post-mortem* examinations were performed, and opinion given in several medico-legal cases at the request of the Police and judicial officers. The dispensary was inspected by the Civil Surgeon, Ahmednagar, once in each year. The total cost was Rs. 767-4-3 and the cost per patient Re. 0-4-0, as compared with Rs. 753-1-2 and Re. 0-4-10 in 1894 and Rs. 755-4-2 and Re. 0-4-8 in 1893. The amount of hospital stoppages was Rs. 25-10-0, against Rs. 8-1-0 in 1894 and Rs. 3-12-0 in 1893.

MIRAJGAON.—*In charge of* Second Class Hospital Assistant ANNÁJI PÁNDURANG, No. 175.

The dispensary was opened in July 1890, and it is situated on an open and healthy place to the north of the town. Conservancy arrangements are defective, as there is no Municipality. The water-supply from wells is used only for washing clothes, and the drinking water is brought in hot and cold seasons from two wells sunk by the Táluka Local Board on the bed of the Dukri river. The health of the town was fairly good. Cholera was epidemic in 1893 and 1895. The total treated was 4,411 out-door and 24 in-door patients against 4,467 and 19 in 1894 and 4,404 and 22 in 1893, respectively. The prevailing diseases were worms, conjunctivitis, ague, scabies and bronchitis. 159 minor surgical operations were performed, against 145 in 1894 and 140 in 1893. 4 *post-mortem* examinations were made against 2 in 1894 and 5 in 1893. Vaccination is performed by the táluka vaccinator. The dispensary committee visited the dispensary seven times. The Civil Surgeon, Ahmednagar, inspected the dispensary once in each year. The total cost was Rs. 914-1-10 and the cost per patient Re. 0-3-4, as compared with Rs. 944-3-10 and Re. 0-3-4 in 1894 and Rs. 828-4-9 and Re. 0-3-0 in 1893, respectively. The total receipts from hospital stoppages amounted to Rs. 45-6-0, as compared with Rs. 71-1-0 in 1894 and Rs. 44-14-0 in 1893.

NÁSIK COLLECTORATE.

HARRIS HOSPITAL, NÁSIK.—*In charge of* Surgeon-Major C. G. W. LOWDELL.

Conservancy, water-supply and drainage.—A survey of the town was made in 1894 and a drainage scheme planned, a drain is now being made along the river bed to receive the outflow of the city drains and carry it off lower down. A new water scheme has been planned, but the cost has hitherto prevented the work being carried out.

Hospital buildings.—A store-room and Hospital Assistant's quarters were added in 1894, but the latter are on the plan laid down for a medical pupil; in 1895 trellis work rail was put up in front of the hospital verandah.

General health.—Fairly good throughout; there were 14 cases of cholera in 1893, 153 cases in 1894, and 33 cases in 1895; there were very few cases of small-pox and chicken-pox.

Attendance of patients.—10,027 out-door and 684 in-door, as compared with 9,071 and 595 in 1894 and 7,554 and 448 in 1893, respectively.

Prevailing diseases.—Malarial fevers, diseases of the skin, respiratory and digestive systems and ear and ascaris lumbricoides.

Surgical operations.—148 major and 611 minor, as compared with 84 and 557 in 1894 and 82 and 606 in 1893, respectively.

Mortality and its causes.—52 deaths, against 60 in 1894 and 39 in 1893. The chief causes were diarrhœa, calculi in bladder, cholera, chronic bronchitis, dysentery and valvular diseases of the heart.

Medico-legal cases.—20 *post-mortem* examinations against 16 in 1894 and 14 in 1893. Opinion was given in 58 cases, as compared with 59 in 1894 and 44 in 1893. Articles sent for analysis numbered 21, against 18 in 1894 and 6 in 1893.

Vaccination.—There were 663 primary and 6 secondary vaccinations, against 812 and 11 in 1894 and 762 and 24 in 1893, respectively.

The conduct of the establishment.—Was good throughout the three years, except in the cases of No. 267, 3rd Class Hospital Assistant Náráyen Luximon, No. 392, 3rd Class Hospital

Assistant Rámchandra Nursingh, and No. 396, 3rd Class Hospital Assistant Yeshwant Ganuji, who were giving constant trouble in their work and tending to insubordination.

Hospital stoppages.—Amounted to Rs. 30-2-0, against Rs. 2-10-0 in 1894 and Rs. 3-3-0 in 1893.

Cost.—The total cost was Rs. 3,023-12-2 and the cost per patient Re. 0-4-6, as compared with Rs. 3,489-10-2 and Re. 0-5-9 in 1894 and Rs. 3,764-12-0 and Re. 0-7 6 in 1893, respectively.

GRANT-IN-AID DISPENSARIES.

MÁLEGAON.—*In charge of* Assistant Surgeon M. G. DESÁI.

The dispensary building requires thorough repair. It has not been repaired since 9th February 1894. The building is quite inadequate and too small for its requirements. The two small wards are inconvenient and badly ventilated. There is no store-room, nor is there a cook-room for the patients, and consequently great difficulty is felt by persons who come from the surrounding villages for treatment. There are no quarters for the Medical Officer and the compounder. The chief source of water-supply is the river Mosum, which is liable to contamination. During the fair season a bund of coarse sand is laid across the river which allows the water to filter through it. The water thus filtered is used for drinking purposes. The municipal authorities specially engage a couple of men to keep this bund in good order and to prevent the people from dirtying the water. The subject of water-works is under consideration, and if funds permit, it is proposed to bring the water from the river "Girna" about 3 miles off. The conservancy of the town is pretty fairly looked after by the Municipality. The night-soil is conveyed to a depôt where it is thrown into pits or trenches, covered over with earth and converted into poudrette. The general health of the town is fair. With an increasing population, bad water-supply, bad drainage, bad sanitary conditions and dirty habits of the people, it is but natural that the general health of the town cannot be good. The total number of patients treated was 50 in-door and 22,301 out-door, against 41 and 20,138 in 1894 and 19 and 16,356 in 1893, while the average daily attendance was 2·08 in-door and 168·9 out-door, as compared with 2·05 and 173·47 in 1894 and 0·4 and 187·4 in 1893, respectively. The prevailing diseases were malarial fevers, ophthalmia, skin and respiratory affections and bowel complaints. 80 major and 708 minor surgical operations were performed, against 48 and 639 in 1894 and 5 and 231 in 1893, respectively. Vaccination is performed by the municipal vaccinator. 60 medico-legal cases were examined, against 28 in 1894 and 35 in 1893. Besides these, 11 *post-mortem* examinations were made, against 8 in 1894 and 7 in 1893. There is not a single year in which cholera has not made its appearance, and the year 1895 must be considered more unfortunate, as there was an epidemic of small-pox in addition to the usual one of cholera. The dispensary was inspected by the Civil Surgeon, Násik, once in each year, and by the Deputy Sanitary Commissioner, Western Registration District, in 1894 and 1893. The dispensary committee visited the dispensary 8 times in 1895, 9 times in 1894 and thrice in 1893. The total cost was Rs. 6,413-11-11, against Rs. 5,119-12-3 in 1894 and Rs. 2,877-14-2 in 1893; the average cost per head being Re. 0-4-7, against Re. 0-4-0 in 1894 and Re. 0-2-10 in 1893. The percentage of total cost paid by Government was 92·3, as compared with 29·8 in 1894 and 52·7 in 1893. The fees received under the hospital stoppage rules amounted to Rs. 85-9-0 against Rs. 91-1-0 in 1894 and Rs. 18-3-0 in 1893.

YEOLA.—*In charge of* First Class Hospital Assistant ATMÁRÁM TÁTIYÁJI, No. 108.

The buildings are in a fair state of repair, and the furniture and fittings sufficient. Quarters for servants are much required, and for this, a sum of Rs. 1,000 has been sanctioned by the committee. An additional sum of Rs. 1,000 has also been sanctioned for compound walls. However the works will not be carried out unless the scheme for water-works is carried out. The dispensary committee visited the dispensary once during the year under report, as compared with four times in 1894 and twice in 1893. The sanitary condition of the town is unsatisfactory. The water-supply from wells was sufficient throughout the year. More wholesome water will be supplied to the town on completion of the new water-works. Arrangements for drainage and male latrines are under contemplation. The total treated was 12,341 out-door and 155 in-door patients, as compared with 12,183 and 111 in 1894 and 12,416 and 18 in 1893, respectively. The most common diseases were ophthalmia, malarial fevers, worms, ulcers and skin, ear, respiratory and rheumatic affections. There was no epidemic in 1895, but 9 cases of cholera occurred in 1894 and 60 in 1893. In the táluka 39 cases of this disease occurred, as compared with 357 in 1894 and 138 in 1893. Small-pox and measles were prevalent in the town and the district from January to May 1895. There were 5 major and 831 minor surgical operations performed, against 5 and 709 in 1894 and 2 and 790 in 1893. Vaccination was carried on by the municipal vaccinator. 7 *post-mortem* examinations were held and opinion given in 28 medico-legal cases, as compared with 9 and 26 in 1894 and 6 and 14 in 1893. The dispensary was inspected once annually by the Civil Surgeon, Násik. The total cost was Rs. 1,476-6-3 and the cost per patient Re. 0-1-11, against Rs. 1,365-2-7 and Re. 0-1-9 in 1894 and Rs. 1,282-0-1 and Re. 0-1-8 in 1893, respectively. The amount realized on account of hospital stoppages was Rs. 66-7-0, as compared with Rs. 70-5-0 in 1894 and Rs. 41-7-0 in 1893.

DINDORI.—*In charge of* Third Class Hospital Assistant SAMSON REUBEN, No. 276.

The building is in good repair. The work of additions and alterations to the main building was completed in the year 1894, and consequently sufficient accommodation is now available. The committee held their meetings occasionally and individual members visit the dispensary often. The sanitary condition of the town is fair. The water-supply is good and ample on account of the wells being sunk at several places in the town. The total treated was 7,027 out-door and 13 in-door patients, as compared with 5,487 and 10 in 1894 and 5,195 and 19 in 1893, respectively. The prevailing diseases were malarial fevers, intestinal worms and diseases of the eye, digestive system and skin. There was no epidemic of any kind in the town itself during these three years, but a few cases of cholera are said to have occurred in the 2 or 3 adjacent villages in 1895. Vaccination is performed by the táluka vaccinator. There were held 3 *post-mortem* examinations in 1893, 3 in 1894 and 7 in 1895. Opinion was given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Násik, once in each year, and by the Deputy Sanitary Commissioner in 1894 and 1893. It was visited by district officers while on tour in the táluka. The total cost was Rs. 950-10-2, the cost per patient Re. 0-2-2, against Rs. 1,973-3-8 and Re. 0-5-8 in 1894 and Rs. 1,127-1-5 and Re. 0-3-6 in 1893, respectively. The amount collected under the hospital stoppage system was Rs. 14-2-0, as compared with Rs. 13-6-0 in 1894 and Rs. 8-14-2 in 1893.

SINNAR.—*In charge of* First Class Hospital Assistant VENKA'JI DEOJI, No. 63.

There was no change effected in the dispensary buildings which are unsuitable, and the male wards have no free ventilation. Cook-room and bath-room for in-patients are badly wanted. Quarters for the dispensary establishment were completed and occupied; but a compound and latrines are greatly wanted. Furniture is insufficient. The dispensary committee held 4 meetings; and the members visited the dispensary frequently. The supply of drinking water from wells and rivulets is scanty and impure, owing to the insufficiency of rain. General health of the town and táluka has been fair. Conservancy of the town is fair. There are 7 public and 52 private latrines. Conservancy establishment is too small when compared with the area of the town. The total number of out-patients treated was 12,931 with 92·8 daily attendance, against 10,816 with 81·9 of 1894; and 10,701 with 85·5 of 1893; and the total number of in-patients treated was 33 with 1·3 daily average attendance against 39 with 1·4 of 1894 and 39 with 1·0 of 1893. The prevailing diseases were malarial fevers, bowel complaints, eye and skin diseases and worms. Cholera broke out in the month of July and lasted till end of the year. The total number of cholera cases treated was 27; of these 21 were discharged cured and 6 proved fatal. The dispensary was inspected by the Civil Surgeon, Násik, once in each year. Vaccination is performed by the táluka vaccinator. The total number of operations was 207; of these 204 were primary and 3 secondary vaccinations. Two *post-mortem* examinations were performed and opinions given in 19 assault cases sent by the Police. The total cost was Rs. 1,381-8-0 and the cost per patient Re. 0-1-8, against Rs. 1,325-12-11 and Re. 0-1-11 in 1894 and Rs. 1,166-11-10 and Re. 0-1-9 in 1893, respectively. The fees from hospital stoppages amounted to Rs. 23-6-0, as compared with Rs. 4-6-0 in 1894 and Rs. 9-14-0 in 1893.

SATA'NA.—*In charge of* Third Class Hospital Assistant KA'SHINÁTH ANANT, General No. 365.

The dispensary building is convenient. The committee visited the dispensary four times in each year. Sanitation of the town is fair. Water-supply is good and sufficient, but the people make it dirty by washing their cattle and clothes in the upper part of the river. The total treated was 27 in-door and 7,157 out-door patients, against 26 in-door and 7,026 out-door in 1894 and 23 in-door and 7,165 out-door in 1893. The most common diseases were malarial fevers, worms and diseases of the eye, digestive system and skin. No epidemic during the year. There were 360 cases of cholera with 172 deaths in the táluka, including Satána itself, in 1894 against 954 cases with 400 deaths in 1893 in the táluka, including Satána. Three major and 409 minor surgical operations were performed, as compared with 2 major and 301 minor in 1894, and 4 major and 259 minor in 1893. Vaccination is carried on by the táluka vaccinator. Two *post-mortem* examinations were made, and opinion given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Násik, once in each year. The total cost was Rs. 946-10-2, against Rs. 995-7-8 in 1894 and Rs. 711-2-10 in 1893. The cost per patient was Re. 0-2-1 against Re. 0-2-3 in 1894 and Re. 0-1-7 in 1893. Rs. 15-5-0 were realized as hospital stoppages, against Rs. 30-12-2 in 1894 and Rs. 16-0-0 in 1893.

PIMPALGAON BASVANT.—*In charge of* First Class Hospital Assistant MULHA'R SITA'RA'M, No. 99.

The dispensary building is in good repair Quarters for the Hospital Assistant and a shed for cholera patients are urgently wanted. The dispensary committee visited the dispensary four times against thrice in 1894 and four times in 1893. The sanitation of the town is not satisfactory, excepting that of the main street which the people generally keep fairly clean. The water-supply is obtained from the river Parasheri and from wells for drinking and other purposes. It is generally of a fair quality and abundant. The total treated was 37 in-door and 10,229 out-door patients, as compared with 21 and 8,694 in 1894 and 15 and 7,465 in 1893, respectively. The prevailing diseases were malarial fevers, worms, ophthalmia, inflammation of the external ear, diseases of the digestive and respiratory systems, ulcers and skin diseases. Cholera prevailed in the town and neighbouring villages in November 1895

The total number of cases reported was 10, of which 5 proved fatal, against 50 cases with 21 deaths in 1894. There were performed 49 major and 203 minor surgical operations, as compared with 4 and 242 in 1894 and *nil* and 202 in 1893, respectively. 5 *post-mortem* examinations were made and opinion given in 12 medico-legal cases, against 8 and 7 in 1894 and 5 and 2 in 1893, respectively. The dispensary was inspected by the Civil Surgeon, Násik, once in each year. Vaccination is performed by the local fund vaccinator from house to house. The total cost was Rs. 1,422-6-0 and the cost per patient Re. 0-2-3, against Rs. 1,228-2-0 and Re. 0-2-3 in 1894 and Rs. 1,354-6-3 and Re. 0-2-11 in 1893, respectively. The fees under hospital stoppage rules amounted to Rs. 8-9-0, as compared with Rs. 12-4-0 in 1894 and Rs. 10-7-0 in 1893.

TRIMBAK.—*In charge of* Third Class Hospital Assistant NA'RA'YEN GOVIND Sâthaye, No. 274.

No repairs were made to the dispensary buildings. Furniture and fittings are sufficient. A dead-house, a cook-room and a cholera shed are required. The sanitary arrangements of the town are not satisfactory, and the town is extremely dirty. The water-supply from the Vithoba's tank and the Ketaki well is good, but that of the latter becomes deficient in hot weather. The dispensary committee does not visit the dispensary regularly. The total treated was 2,309 out-door and 3 in-door patients, against 2,543 and 5 in 1894 and 1,951 and 5 in 1893, respectively. The most common diseases were intestinal worms, diseases of the skin, malarial fevers, ophthalmia and digestive disorders. Cholera prevailed in the town in the months of June and November 1895 in a mild form. 2 major and 118 minor surgical operations were performed, against 1 and 90 in 1894 and 1 and 99 in 1893. The dispensary was inspected by the Civil Surgeon, Násik, in March 1895. Two *post-mortem* examinations were made. Vaccination is performed by the táluka vaccinator. The total cost was Rs. 763-6-6 and the cost per patient Re. 0-5-3, against Rs. 861-10-11 and Re. 0-5-4 in 1894 and Rs. 520-4-9 and Re. 0-4-3 in 1893, respectively. Fees from hospital stoppages amounted to Rs. 6-2-0, as compared with Rs. 8-4-0 in 1894 and Re. 1-6-0 in 1893.

KALVAN.—*In charge of* First Class Hospital Assistant NA'RA'YAN BA'PUJI, No. 153.

The dispensary building is in good repair. Furniture and fittings are sufficient and in good order. The committee visited the dispensary four times, against twice in 1894 and six times in 1893. The sanitation of the town is fair. The water-supply from the river is abundant and of good quality. The total treated was 4,546 out-door and 15 in-door patients, as compared with 5,427 and 25 in 1894 and 1,995 and 16 in 1893, respectively. The prevailing diseases were malarial fevers, worms, conjunctivitis, disorders of the stomach and bowel and skin diseases. Cholera was not prevalent during 1895 and 1893, but in 1894, 57 cases occurred. There were 256 minor surgical operations, against 210 in 1894 and 127 in 1893. Five *post-mortem* examinations were held. Vaccination is conducted by the táluka vaccinator from house to house. The dispensary was inspected by the Civil Surgeon of Násik once during each year. The total cost was Rs. 1,117-2-10 and the cost per patient Re. 0-3-11, as compared with Rs. 1,031-15-8 and Re. 0-4-9 in 1894 and Rs. 819-0-10 and Re. 0-6-6 In 1893, respectively. Under hospital stoppage rules Rs. 26-5-0 were realized, against Rs. 20-5-0 in 1894 and Rs. 15-5-0 in 1893.

NIPHA'D.—*In charge of* First Class Hospital Assistant WA'SUDEV BA'LCRISHNA, No. 112.

The dispensary was opened on 1st July 1895. The building is in good repair. Furniture and fittings are sufficient and in good order. The dispensary committee visited the dispensary three times, and the Collector and the Assistant Collector visited it once. The sanitation of the town is defective. The water-supply is chiefly from the river Wanata and admits of soakage during the hot season. The total treated was 2,750 out-door and 11 in-door patients. The prevailing diseases were malarial fevers, worms, ophthalmia and respiratory, bowel and skin affections. Thirty-six minor surgical operations were performed. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Násik, on 5th December. The fees under the hospital stoppage rules amounted to Rs. 11-1-0. The total cost was Rs. 823-10-3 and the cost per patient Re. 0-4-9.

GOVERNMENT DISPENSARY.

PEINT.—*In charge of* Second Class Hospital Assistant MOHANLA'L NA'NAKRA'M, No. 152.

The dispensary building and its out-houses are in a good state of repair. The dispensary committee visited the dispensary four times. There is no Municipality, consequently there is no regular conservancy establishment. The water-supply, chiefly from two local fund wells and a muddy shallow tank, is scanty and liable to pollution during the hot season. The total treated was 4,347 out-door and 20 in-door patients, as compared with 4,338 and 21 in 1894 and 3,944 and 17 in 1893, respectively. The most common diseases were malarious fevers, intestinal worms, diseases of the digestive system and skin affections. There was no epidemic of any kind at or in the vicinity of Peint. One major and 89 minor surgical operations were performed, against *nil* and 35 in 1894 and 2 and 65 in 1893, respectively. Vaccination is carried on by the táluka vaccinator. The total number of children vaccinated was 110, as compared with 96 in 1894 and 112 in 1893. The dispensary was inspected by the Civil Surgeon, Násik, once in each year, and by the Collector. The total cost was Rs. 878-15-1 and the cost per patient Re. 0-3-3,

against Rs. 762-6-6 and Rs. 0-2-9 in 1894 and Rs. 806-3-11 and Re. 0-3-3 in 1893, respectively. Fees on account of hospital stoppages amounted to Re. 0-3-0 against Rs. 4-0-0 in 1894 and Rs. 3-6-0 in 1893.

KHA'NDEISH COLLECTORATE.

CIVIL HOSPITAL, DHULIA.—*In charge of* Surgeon-Major K. A. DALA'L, M.B.

Conservancy.—During the last few years the conservancy of the town has been much improved, but a great deal still requires to be done. There are 15 public latrines, 3 having been added during the year under report. The number is still insufficient. There are several dust-bins erected at different places. The night-soil is buried in trenches on the east side and at a distance from the town.

Water-supply.—Is derived from wells and the river Pánjra. All wells are brackish, and most of them allow of soakage. River water is good, but is very much liable to contamination. The Dhulia water-works were completed, and they were opened by His Excellency the Governor in last October. Many people have already begun to use this water, which on an analysis has been found good and potable, while the well-water was always condemned as bad.

Hospital buildings.—Are in very good order. There were no quarters for the Hospital Assistants, but they have been sanctioned and are under construction.

General health.—During the last three years was fairly good, except that cholera was prevalent in the months of May, June, July and August in 1893 and in May, June and July in 1894, while a few sporadic cases occurred in the year 1895. Fevers as usual were prevalent after the rains, but not in a serious form.

Attendance of patients.—737 in-door and 5,294 out-door patients, against 591 and 4,919 in 1894 and 515 and 6,143 in 1893, respectively. The Civil Hospital being situated far from the town, many out-patients go to the municipal dispensary, which is very conveniently situated.

Prevailing diseases.—Ague, bronchitis, eczema, intestinal worms, venereal diseases, inflammation of external meatus, rheumatism and vesical calculus.

Mortality and its causes.—There were 41 deaths, against 33 in 1894 and 36 in 1893. Excess in 1895 is due to several gunshot cases being admitted into the hospital on account of Mahomedan riot. Several cases were admitted in a moribund state.

Surgical operations.—There were 88 major and 422 minor surgical operations against 69 and 498 in 1894 and 70 and 486 in 1893.

Vaccination.—Is carried on by the municipal vaccinator.

Conduct of the establishment.—Fairly good. First Class Hospital Assistant Hari Kakaji is zealous and efficient, and his general conduct is excellent. Third Class Hospital Assistant Yeshwant Shridhar is zealous and efficient, and his general conduct is good. Several junior Hospital Assistants attached to this hospital on general duty also gave satisfaction.

Cost.—The total cost was Rs. 3,733-5-6 and the cost per patient Re. 0-9-11, against Rs. 3,384-8-4 and Re. 0-9-9 in 1894 and Rs. 3,829-5-8 and Re. 0-9-2 in 1893, respectively.

Hospital stoppages.—Amounted to Rs. 36-5-0 against Rs. 42-15-0 in 1894 and Rs. 7-11-0 in 1893.

MUNICIPAL DISPENSARY.

DHULIA.—*In charge of* Pensioned First Class Hospital Assistant SHAIK DA'DU.

The dispensary building is in good repair, properly ventilated, and its situation is convenient to the people. The dispensary committee visit the dispensary once a month. The water-supply is derived from the river and the Dedargaon water-works. The total treated was 14,259 out-door patients, against 12,300 in 1894 and 9,518 in 1893. The most prevalent diseases were malarial fevers, ophthalmia, rheumatic affections, diseases of the digestive and respiratory systems, ear and skin and intestinal worms. 319 cases of cholera with 159 deaths occurred. The dispensary was inspected by the Civil Surgeon of Dhulia once in each year. The total cost was Rs. 1,524-7-7, the cost per patient Re. 0-1-9, against Rs. 1,621-10-2 and Re. 0-2-1 in 1894 and Rs. 1,149-9-10 and Re. 0-1-11 in 1893, respectively. The hospital stoppage rules are not in force here.

GRANT-IN-AID DISPENSARIES.

PAROLA.—*In charge of* First Class Hospital Assistant BASANTSING CHATURSING, No. 119.

The dispensary buildings are in a fair repair; furniture and fittings are sufficient and in good order, except one table for operation, which is required. The committee visited the dispensary six times; no meeting was held during 1894, but there were 3 meetings in 1893. The conservancy arrangements are satisfactory. Water-supply from wells is abundant and of good quality. The total treated was 7,555 out-door and 24 in-door patients, as compared

with 7,561 and 16 in 1894 and 8,349 and 16 in 1893, respectively. The prevailing diseases were malarial fevers, intestinal worms and diseases of the eye, ear, respiratory and digestive systems and skin. Cholera and small-pox prevailed in the town and district in 1894 and 1893, and small-pox only during the year 1895. There were 509 minor surgical operations, against 698 in 1894 and 616 in 1893. Vaccination is carried out by the local fund vaccinator. The dispensary was inspected by the Civil Surgeon of Dhulia once annually. The total cost was Rs. 1,571-8-8 and the cost per patient Re. 0-3-3, against Rs. 1,613-13-1 and Re. 0-3-4 in 1894 and Rs. 1,272-12-8 and Re. 0-2-5 in 1893, respectively. Rs. 50-3-0 were collected under the hospital stoppage rules, as compared with Rs. 68-5-0 in 1894 and Rs. 50-2-0 in 1893.

ERANDOL.—*In charge of* First Class Hospital Assistant CHATURJI NA'RA'YAN, No. 155.

The dispensary building was not repaired during 1893 and 1894, but the repairs have been executed by the committee during 1895. The sanitary condition of the town is not properly attended to by the Municipality. There is no "pukka" drainage. Water-supply is from wells and river "Anginy." The water of most of the wells is brackish. The river water is good but liable to contamination. Scarcity of water is felt during the summer. The total treated was 6,638 out-door and 10 in-door patients, as compared with 6,616 and 3 in 1894 and 6,095 and 27 in 1893, respectively. The prevailing diseases were ophthalmia, malarial fevers, ulcer, inflammation of the external ear, local injuries, eczema, ringworm and constipation. There were 34 cases of cholera with 19 deaths against 41 cases with 15 deaths in 1894 and 3 cases with 1 death in 1893. There were 4 major and 247 minor surgical operations performed, against 4 and 243 in 1894 and 4 and 281 in 1893, respectively. *Post-mortem* examinations were held seven times. Opinion was given on several medico-legal cases. Vaccination is conducted by the táluka vaccinator. The dispensary was inspected once annually by the Civil Surgeon, Dhulia. The total cost was Rs. 1,365-3-6 and the cost per patient Re. 0-3-3, as compared with Rs. 1,261-4-7 and Re. 0-3-0 in 1894 and Rs. 1,178-0-6 and Re. 0-3-1 in 1893, respectively. Rs. 15-5-0 were received under hospital stoppage rules, against Rs. 9-8-0 in 1894 and Rs. 11-9-0 in 1893.

CHOPDA.—*In charge of* First Class Hospital Assistant GANGA'DIN, No. 50.

The building is spacious and in good order. The members of the committee visited the dispensary regularly. The sanitary condition and water-supply of the town have been good. The total treated was 8,329 out-door and 7 in-door patients, against 7,435 and 5 in 1894 and 7,602 and 10 in 1893. The most common diseases were malarial fevers, ophthalmia, syphilis, rheumatism, skin affections and chest and bowel complaints. There were 108 cases with 43 deaths from cholera during the year, against 104 and 42 in 1894 and 158 and 51 in 1893, respectively. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Dhulia, once in each year, and by the Deputy Sanitary Commissioner. The total cost was Rs. 1,464-13-0 and the cost per patient Re. 0-2-9, against Rs. 1,207-6-3 and Re. 0-2-7 in 1894 and Rs. 1,310-13-4 and Re. 0-2-9 in 1893, respectively. The income from hospital stoppages amounted to Rs. 35-5-0, as compared with Rs. 39-7-0 in 1894 and Rs. 48-5-0 in 1893.

SUNDAR MULJI DISPENSARY, JALGAON.—*In charge of* Assistant Surgeon P. P. MOOLAN.

The dispensary buildings are in good repair, and the furniture and fittings in fair order. Most of the compound railing has been replaced by a masonry wall, and a new latrine erected in the year 1894. The gates of the compound, however, require renewal. The floor of the prescribing room has been made of slab-stones, and certain special repairs as the renewing of the muram floors, as well as the addition of another staircase to the Assistant Surgeon's quarters, done during 1895. The dispensary committee visited the dispensary eleven times during 1893, eight times during 1894 and eight times during 1895. Drainage and conservancy are not properly looked to and are still faulty. The water-supply is chiefly from Mehrum tank, which generally fails during the hot weather. It, as well as the water from many wells in the town, from which also the water-supply is derived, are liable to pollution. The scheme for the improvement of the water-supply is still under consideration and will probably take about three years more. The total treated was 81 in-door and 8,798 out-door patients, as compared with 62 and 8,974 in 1894 and 50 and 8,463 in 1893, respectively. The prevailing diseases were malarious fevers, intestinal worms, affections of the eye, ear and skin and injuries. Cholera was prevalent in the town in the months of August and September 1893, giving 14 attacks with 7 deaths, and during July and August 1894, giving 50 attacks with 22 deaths; while in 1895 it prevailed during July, August and September, giving 127 attacks with 61 deaths. There was no small-pox in 1893; 69 cases with 5 deaths during the months of February, March, April and May in 1894. It has again this year just commenced during the latter part of December 1895; 11 cases having been reported with 1 death up to the end of the year. 4 major and 335 minor surgical operations were performed in 1893, as compared with 7 major and 313 minor in 1894 and 14 and 250 in 1895. Vaccination is carried on by the táluka vaccinator. Twelve *post-mortem* examinations were performed during 1893, nine during 1894 and eight during 1895. The dispensary has been inspected by the Civil Surgeon, Dhulia, every year, as also by the Sanitary and the Deputy Sanitary Commissioners, and the Collector and the

Assistant Collectors when on tour. The total cost was Rs. 4,365-7-1 and the cost per patient Re. 0-7-10, as compared with Rs. 2,974-5-2 and Re. 0-5-3 in 1894 and Rs. 3,355-0-2 and Re. 0-6-4 in 1893, respectively. Hospital stoppages amounted to Rs. 151-0-0 against Rs. 144-8-0 in 1894 and Rs. 186-7-0 in 1893.

NANDURBÁR.—*In charge of* Second Class Hospital Assistant SAKHÁRÁM LAXUMON, No. 199.

The present hired dispensary building is an improvement to the old building, but still it is not quite suited for a dispensary. It is not well repaired. There is no accommodation for in-door patients. The committee visited the dispensary monthly. The sanitation of the town is unsatisfactory. The water-supply, chiefly derived from step-wells, is scanty and bad. The conservancy arrangements are not attended to by the Municipality, and the town is not kept clean. The total treated was 9,311 out-door patients, against 9,855 out-door in 1894 and 6,559 out-door and 1 in-door in 1893. The most common diseases were malarious fevers, worms, ophthalmia and diseases of the respiratory and digestive systems and skin. Six major surgical operations were performed, including three operations for stone. Vaccination is conducted by the táluka vaccinator from house to house and at the Police chávdi. Thirteen *post-mortem* examinations were made. The dispensary was inspected by the Deputy Sanitary Commissioner and by the Civil Surgeon of Dhulia once in each year. The total cost was Rs. 971-2-3 and the cost per patient Re. 0-1-7, against Rs. 996-7-3 and Re. 0-1-7 in 1894 and Rs. 1,177-1-5 and Re. 0-2-10 in 1893, respectively. The amount realized under hospital stoppage rules was Rs. 6-4-6, against Rs. 11-9-6 in 1894 and Rs. 21-6-0 in 1893.

SHIRPUR.—*In charge of* Second Class Hospital Assistant RÁMCHANDRA VISHNU, No. 262.

The dispensary building and quarters are suitable. The furniture is sufficient. The dispensary committee visited the dispensary regularly. The conservancy arrangements of the town are good. The water-supply is good and abundant. The total number of patients treated was 4,959 out-door and 36 in-door, as compared with 4,853 and 39 in 1894 and 5,192 and 22 in 1893, respectively. The most common diseases were malarial fevers, rheumatic affections, diseases of the eye, ear, respiratory and digestive systems and skin and local injuries. Cholera and small-pox prevailed in some villages of the táluka every year. There were 162 cholera cases with 55 deaths in the town in 1893. Small-pox was prevalent in the town in 1895. Three major and 214 minor surgical operations were performed against 4 and 210 in 1894 and 5 and 155 in 1893. Vaccination is carried on by the táluka vaccinator. Three *post-mortem* examinations were made during the year. The dispensary was inspected by the Deputy Sanitary Commissioner in April and by the Civil Surgeon, Dhulia, in October. The total cost was Rs. 900-7-9 and the cost per patient Re. 0-2-10, against Rs. 979-8-0 and Re. 0-3-2 in 1894 and Rs. 909-6-6 and Re. 0-2-9 in 1893, respectively. Rs. 29-13-0 were received as hospital stoppages, against Rs. 44-11-0 in 1894 and Rs. 75-11-0 in 1893.

BHADGAON.—*In charge of* Second Class Hospital Assistant GANGÁDHAR RÁMCRISHNA, No. 171.

The dispensary building is in good repair. The furniture and fittings are not sufficient. The committee visited the dispensary eleven times, against three times in 1894 and eight times in 1893. Conservancy has been a little improved. Water-supply from wells is impure and allows of soakage, and that from the river good but liable to contamination. The total treated was 5,363 out-door and 20 in-door patients, as compared with 4,966 and 38 in 1894 and 5,100 and 48 in 1893, respectively. The prevailing diseases were ague, worms, ophthalmia and diseases of the digestive system and skin. 1 major and 236 minor surgical operations were performed, against 6 and 197 in 1894 and 5 and 193 in 1893, respectively. There were no *post-mortem* examinations held. Vaccination is carried on by the petha vaccinator. The dispensary was inspected by the Civil Surgeon, Dhulia, once in each year. The total cost was Rs. 1,211-12-2 and the cost per patient Re. 0-3-7, against Rs. 934-14-6 and Re. 0-2-11 in 1894 and Rs. 1,062-4-2 and Re. 0-3-4 in 1893, respectively. Fees from hospital stoppages amounted to Rs. 8-0-0, as compared with Rs. 15-11-0 in 1894 and Rs. 7-15-0 in 1893.

PIMPALNER.—*In charge of* Third Class Hospital Assistant RÁMCHANDRA GANGÁDHAR, No. 253.

The dispensary buildings require some repairs, such as turning of tiles, repairs to the ceiling of the dispensary hall and dispensary room and other petty repairs. A *drain* in the dispensary room is required; a *wooden shelf* to keep the dispensary records is also a great want. Quarters for the 2nd class servants are much needed. The sanitary condition of the town is unsatisfactory. Water-supply from wells and from river "Panzra" is good and abundant; some wells allow of soakage and the river water is liable to contamination. The total number of patients treated was 4,197 out-door and 26 in-door, as compared with 5,014 out-door and 41 in-door in 1894 and 4,625 out-door and 38 in-door in 1893. The most common diseases were malarious fevers, intestinal worms and diseases of the digestive system, skin and eye. No epidemic prevailed during 1895 and 1894 with the exception of measles, of which a very few cases occurred in 1895 in the town and in the neighbouring villages. Cholera was prevalent in the year 1893 during the months of April, May and June; and there were 76 admissions. Vaccination is carried on by the táluka vaccinator. Five *post-mortem* examinations were performed, against one in 1894 and two in 1893. 8 major surgical operations were performed, against 10 and 13 in 1894 and 1893, respectively. The dispensary committee visited

the dispensary 8 times, against 5 in 1894 and 7 in 1893. The dispensary was inspected by the Civil Surgeon of Dhulia once in each year. The total cost was Rs. 1,361-13-4 and the cost per patient Re. 0-5-1, against Rs. 1,064-0-9 and Re. 0-3-4 in 1894 and Rs. 1,237-6-3 and Re. 0-4-3 in 1893, respectively. The total income under hospital stoppage rules was Rs. 8-15-0, against Rs. 7-9-0 in 1894 and Rs. 4-10-0 in 1893.

SHÁHÁDA.—*In charge of* Third Class Hospital Assistant KRISHNÁJI VITHAL, No. 298.

The new dispensary building, which was occupied in November 1895, is suitable. The committee visited the dispensary several times. The sanitary condition of the town is not satisfactory, and the water-supply from the river Gomai sufficient, but liable to contamination. The total treated was 2,895 out-door and 15 in-door patients, against 3,518 and 2 in 1894 and 3,493 and 2 in 1893, respectively. The most common complaints were malarial fevers and diseases of the ear, digestive system and skin. There was no epidemic. Vaccination is conducted by the táluka vaccinator. Three *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Dhulia, once in each year. The total cost was Rs. 1,146-9-7 and the cost per patient Re. 0-6-3, as compared with Rs. 1,121-11-11 and Re. 0-5-1 in 1894 and Rs. 1,355-6-5 and Re. 0-6-2 in 1893, respectively. The amount received under hospital stoppage rules amounted to Rs. 8-9-0, against Rs. 15-9-0 in 1894 and Rs. 9-4-0 in 1893.

TALODA.—*In charge of* Third Class Hospital Assistant SHANKAR GANGÁDHAR, No. 337.

The dispensary building is suitable. The necessary additions and alterations to the quarters of the Hospital Assistant have been made. The dispensary committeee visited the dispensary three times, against eight and four in 1894 and 1893, respectively. Conservancy arrangements are well attended to by the Municipality, and the town is always kept clean. The water-supply from wells, is sufficient and of a fair quality. The total number of patients treated was 2,527 out-door and 32 in-door, against 2,175 and 40 in 1894 and 2,180 and 28 in 1893, respectively. The prevailing diseases were malarial fevers and diseases of the digestive and respiratory systems, eye and skin. 67 minor surgical operations were performed, against 92 in 1894 and 96 in 1893. In the year 1894, 1 case of cholera and 26 cases of small-pox occurred in the town, the cholera case proving fatal. In the neighbouring villages 21 cases of cholera (with 11 deaths) and 191 cases of small-pox occurred. There was no epidemic in the town of Taloda in the years 1893 and 1895, but 11 cases of small-pox and 20 cases of cholera (with 9 deaths) occurred in the neighbouring villages in 1893. Vaccination is conducted by the táluka vaccinator. There were 183 cases of primary vaccination and 6 of re-vaccination, against 185 and 130 of the former in 1894 and in 1893, respectively. Four *post-mortem* examinations were made. The dispensary was inspected every year by the Civil Surgeon of Dhulia, the Deputy Sanitary Commissioner, Western Registration District, Násik, and the Assistant Collector of the division. The total cost was Rs. 1,450-13-1 and the cost per patient Re. 0-9-0, against Rs. 1,157-3-8 and Re. 0-8-4 in 1894 and Rs. 1,278-12-0 and Re. 0-9-3 in 1893, respectively. Rs. 16-15-0 were received under hospital stoppage rules, against Rs. 5-14-0 in 1894 and Rs. 6-15-0 in 1893.

AMALNER.—*In charge of* Third Class Hospital Assistant RA'MCHANDRA NARSINGH, No. 392.

The building is suitable and is constructed according to the standard design. A dead-house, a wall round the dispensary compound, a large compounding table and shelves in the store-room are very badly required. The committee visited the dispensary three times against four times in 1894 and five times in 1893. The sanitation of the town is generally good, excepting the latrine accommodation of the town. The water-supply from the river is ample and good, but is deficient and inferior in the hot season. The total treated was 4,955 out-door and 15 in-door patients, as compared with 4,744 and 13 in 1894 and 4,278 and 15 in 1893, respectively. The most common diseases were malarial fevers, worms and diseases of the eye, ear, respiratory and digestive systems and skin. Two major surgical operations were performed against one in 1894 and one in 1893; minor operations 145 as compared with 94 in 1894 and 58 in 1893. Vaccination is carried out by the táluka vaccinator. Three *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Dhulia, once in each year. The total cost was Rs. 1,028-1-8, the cost per patient Re. 0-3-3, as compared with Rs. 834-10-3 and Re. 0-2-9 in 1894 and Rs. 1,432-5-9 and Re. 0-5-4 in 1893, respectively. No fees were received on account of hospital stoppages during the three years.

DHARANGAON.—*In charge of* First Class Hospital Assistant MAHA'DEO CHUDA'MON, No. 91.

The dispensary building is in good repair. A ward for females and quarters for the Hospital Assistant are being built. The furniture is sufficient. The dispensary committee visited the dispensary six times. The sanitary condition of the town is unsatisfactory. The water-supply is good. The total number treated was 7,984 out-door and 2 in-door patients against 7,775 and 8,123 out-door in the two previous years. The most common diseases were skin affections, malarial fevers, conjunctivitis, ulcers and diseases of the digestive system and ear. Cholera broke out in the town in the months of September and October. Vaccination is well received by the people; it is carried on by the local fund vaccinator. The total cost was Rs. 1,452-6-4 and the cost per patient Re. 0-2-10 against

Rs. 1,265-8-7 and Re. 0-2-7 in 1894 and Rs. 1,243-11-8 and Rs. 0-2-5 in 1893. The amount realized under hospital stoppages rules was Rs. 25-3-0 against Rs. 21-2-0 in 1894 and Rs. 17-14-0 in 1893.

SINDKHEDA.—*In charge of* Second Class Hospital Assistant VISHNU SHIVARA'M, No. 220.

The dispensary, a dhába building, is in good repair. The committee visited the dispensary nine times against 15 in 1894 and 9 in 1893. A dissecting table and a dead-house still continue to be urgent wants. The sanitary condition of the town is anything but satisfactory. The water-supply is obtained from the river and from wells. That from the former is scanty in hot season and liable to pollution by the manure used for the melon fields made in the river bed, and also by the people's dirty habits; that from the latter is abundant, though brackish in some places. The total treated was 3,013 out-door and 22 in-door patients against 2,779 and 17 in 1894 and 2,453 and 23 in 1893. The most common diseases were malarial fevers and diseases of the skin, eye, lung and nervous and digestive systems. Vaccination is carried on by the táluka vaccinator. There were 34 major and 137 minor surgical operations performed against 15 and 69 in 1894 and 22 and 83 in 1893, respectively. The major operations include lateral lithotomies 22, amputation 1, reduction of dislocation 3, excision of necrosed tibia 1, removal of large tumours 2, evisceration in transverse presentation 1, tapping of hepatic abscess 1, and opening of large abscesses 3. The Civil Surgeon of Dhulia inspected the dispensary every year. There were 3 *post-mortem* examinations made. The total cost was Rs. 1,350-10-11 and the cost per patient Re. 0-7-1, as compared with Rs. 1,405-0-9 and Re. 0-8-0 in 1894 and Rs. 1,097-7-4 and Re. 0-7-1 in 1893, respectively. Fees from hospital stoppages amounted to Rs. 10-4-0 against Rs. 3-4-0 in 1894 and Rs. 11-15-0 in 1893.

NAVA'PUR.—*In charge of* Third Class Hospital Assistant RA'JA'RA'M DA'MODHAR, No. 258.

The new dispensary building was occupied on the 1st April 1895. Furniture is insufficient. The dispensary was visited by the committee nine times and twice by the President. The sanitation is bad, there being no Municipality. The water-supply from wells and river is liable to contamination. The total treated was 2,967 out-door and 3 in-door patients, as compared with 2,883 and none in 1894 and 4,423 and none in 1893, respectively. The prevailing diseases were malarial fevers, skin diseases, bowel complaints and respiratory affections. There was no epidemic. Vaccination is carried out by the Local Fund vaccinator. The dispensary was inspected by the Civil Surgeon, Dhulia, once every year. The total cost was Rs. 1,567-13-11 and the cost per patient Re. 0-8-5 against Rs. 1,669-0-3 and Re. 0-9-3 in 1894 and Rs. 1,259-11-11 and Re. 0-4-6 in 1893, respectively. Rs. 19-4-0 were collected under the hospital stoppage system, as compared with Rs. 30-4-0 in 1894 and Rs. 75-2-0 in 1893.

SA'VDA.—*In charge of* Second Class Hospital Assistant KRISHNA'JI GOWALKAR, No. 212.

The buildings are in good repair, the furniture and fittings sufficient, but quarters for the Medical Officer and a cook room are much wanted. The dispensary committee visited the dispensary seven times. The sanitary condition of the town is unsatisfactory. The water-supply is from wells and is contaminated in some places. The total treated was 6,215 out-door and 34 in-door patients, as compared with 5,395 and 23 in 1894 and 3,108 and 22 in 1893. The most common diseases were ophthalmia, round worms, skin diseases, malarial fevers and diseases of the digestive system. There were 2 major and 154 minor surgical operations performed against 4 and 71 in 1894 and *nil* and 40 in 1893. Vaccination is conducted by the táluka vaccinator. Eleven *post-mortem* examinations were made and opinion given on several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Dhulia, once in each year. The total cost was Rs. 1,944-14-10 and the cost per patient Re. 0-4-11 against Rs. 874-11-3 and Re. 0-2-7 in 1894 and Rs. 1,088-4-5 and Re. 0-5-6 in 1893, respectively. The amount realized as hospital stoppages was Rs. 20-14-0, as compared with Rs. 9-3-0 in 1894. There were no receipts under this head in 1893.

YA'VAL.—*In charge of* Second Class Hospital Assistant MAHOMED KHA'N, No. 168.

The buildings are in good condition. The dispensary committee visited the dispensary eleven times, as compared with eleven times in 1894 and twelve times in 1893. It was also visited by the Assistant Collector once in each year. The sanitary condition of the town was fairly good. Water-supply from wells is sufficient and of good quality, but allows of soakage. The river water is used for ablution. The total treated was 2,903 out-door and 14 in-door patients, against 3,500 and 7 in 1894 and 4,081 and 3 in 1893, respectively. The most common diseases were malarial fevers, worms (ascaris lumbricoides), rheumatic affections, conjunctivitis, bronchitis, tinea circinata and scabies. Small-pox and cholera were prevalent from February to August 1894 in the town and in the surrounding villages. Vaccination is carried out by the petta vaccinator. 5 *post-mortem* examinations were made against 1 each in 1894 and 1893. 61 minor surgical operations were performed against 38 in 1894 and 44 in 1893. The total cost was Rs. 1,232-14-3 and the cost per patient Re. 0-6-9 as compared with Rs. 1,262-5-11 and Re. 0-5-9 in 1894 and Rs. 1,075-7-5 and Re. 0-4-2 in 1893, respectively. The fees under hospital stoppage system amounted to Rs. 15-11-0, as compared with Rs. 19-4-0 in 1894 and Rs. 16-6-0 in 1893.

PA'CHORA.—*In charge of* 2nd Class Hospital Assistant AMRUT GOVIND NICUM, No. 212.

The dispensary was opened on the 18th October 1893. The furniture and fittings are sufficient and in good order. The committee visited the dispensary once in 1893 and thrice in 1895. No visits were paid in 1894. The water-supply is from the river Hivra, which becomes dry, and the water remaining in the ditches becomes stagnant in hot seasons. The total treated was 26 in-door and 3,326 out-door patients, against 27 and 3,235 in 1894 and 1 and 690 in 1893, respectively. The prevailing diseases were malarial fevers, diseases of the eye, skin affections, worms and ulcers. Three major and 122 minor surgical operations were performed. Vaccination is conducted by the táluka vaccinator. Fifteen *post-mortem* examinations were made, and opinion given in several medico-legal cases. The dispensary was regularly inspected by the Civil Surgeon, Dhulia, and once by the Deputy Sanitary Commissioner, Central Division. The amount realized under hospital stoppage rules was 53-4-0 against Rs. 38-5-0 in 1894. There were no receipts under this head in 1893. The total cost was Rs. 1,170-5-11 and the cost per patient Re. 0-5-7, as compared with Rs. 1,728-15-9 and Re. 0-8-5 in 1894 and Rs. 162-12-10 and Re. 0-3-9 in 1893, respectively.

SATA'RA COLLECTORATE.

CIVIL HOSPITAL, SA'TA'RA.—*In charge of* Surgeon-Major J. C. H. PEACOCKE.

Conservancy.—There is no sewerage. The open road-side drains are rectangular and of half-dressed stone. They are not all in good repair, but flood water does not collect in the town, being quickly carried off by the many small hill streams in and about the town. The Municipality employ 18 road sweepers and 42 latrine sweepers. There are 14 night-soil carts and a night-soil depôt. The conservancy arrangements are not perfect.

Water-supply.—No change since previous report. Delivered from municipal pipes Quality variable. Quantity generally sufficient.

Hospital buildings.—Many changes and additions have from time to time been suggested in past years. None have been carried into effect, except the addition of a new ward, an operating room and a partition wall in the old main ward. A well in front of the male ward has been closed up.

General health.—Cholera was prevalent more or less in the district during a considerable portion of the years under review. A few cases occurred in the city and suburban Municipality limits, but the jail population was not affected. Strict sanitary measures were adopted. The cases were treated by the Hospital Assistants of the Civil Hospital. Amongst other towns which suffered severely from cholera may be mentioned Wái, where the sanitary state of things was extremely bad and the supply of drinking water very unsatisfactory. Some cases of small-pox were also reported from a few tálukas of the district.

Attendance of patients.—775 in-door and 8,987 out-door patients, against 678 and 9,471 in 1894 and 657 and 13,427 in 1893, respectively.

Prevailing diseases.—Malarial fevers, skin and eye diseases, worms and disorders of the digestive system have been most common.

Surgical operations.—269 major and 1,053 minor operations were performed, against 158 and 838 in 1894 and 170 and 886 in 1893, respectively. These included operations of the most varied kind and in every branch of surgery.

Mortality and its causes.—In the years 1893, 1894 and 1895, respectively, 21, 52 and 29 deaths occurred. Causes of death were cholera, dysentery, diarrhœa, bronchitis and abscess.

Medico-legal cases.—Total cases in 1893, 1894 and 1895 were 26, 20 and 40, respectively.

Vaccination.—By the municipal vaccinator.

Cost.—The total cost was Rs. 4,738-12-0 and the cost per patient Re. 0-7-9, against Rs. 6,576-3-5 and Re. 0-10-4 in 1894 and Rs. 6,156-6-9 and Re. 0-6-11 in 1893, respectively.

Hospital Stoppages.—Rs. 196-11-0 were realized, against Rs. 148-0-0 in 1894 and Rs. 94-8-0 in 1893.

General Remarks.—The work of the hospital has steadily increased, the surgical work having doubled within the past six years. The necessity for the many improvements and additions still incompleted is, therefore, most urgent, the work being seriously hampered for want of more modern appliances and equipment as already pointed out.

CIVIL HOSPITAL, MAHA'BALESHVAR.—*In charge of* Surgeon-Major C. MONKS.

Conservancy.—Inefficient. The Municipality is able to provide only 5 night-soil carts and 6 rubbish carts to serve the bazár and station, the former consisting of 400 houses and the latter of 117 bungalows scattered over an extensive area. A census taken on the night of 14th May showed that there were present on the hill 573 Europeans and 9,166 Natives, 637 horses and 935 head of cattle. The public latrine accommodation consists of only 41 seats, in out of the way places, for a population of about 5,000 persons.

Water-supply.—Good and abundant, except at end of hot season.

Hospital buildings.—With the exception of Hospital Assistant's quarters, in good repair. Rs. 12,000 were collected by public subscription in 1895 for a new hospital to be called the Lady Harris Hospital, the erection of which on another site was sanctioned by Government in its Resolution No. 5483, dated 6th December 1895.

General health.—Good. No epidemics, a few cases of imported cholera occurred in May 1894.

Attendance of patients.—65 in-door and 10,452 out-door patients, against 31 and 8,822 in 1894 and 12 and 11,215 in 1893, respectively.

Prevailing diseases.—Ascaris lumbricoides, scabies, malarial fevers, constipation, eye affections, bronchial affections and rheumatism.

Mortality.—Two deaths occurred, against 6 in 1894 and *nil* in 1893. The cause of the two deaths was double pneumonia.

Surgical operations.—65 major and 143 minor operations were performed, against 12 and 69 in 1894 and 1 and 219 in 1893, respectively.

Vaccination.—Satisfactory, carried out by the táluka vaccinator.

Medico-legal cases.—One in October 1895.

Conduct of establishment.—Good.

Cost.—The total cost was Rs. 1,754-0-3 and the cost per patient Re. 0-2-8, as compared with Rs. 2,080-4-0 and Re. 0-3-9 in 1894 and Rs. 1,628-10-3 and Re. 0-2-3 in 1893, respectively.

Hospital stoppages.—Amounted to Rs. 46-9-0, against Rs. 47-15-0 in 1894 and Rs. 35-11-0 in 1893.

GRANT-IN-AID DISPENSARIES.

WA'I.—*In charge of* Second Class Hospital Assistant RA'MCHANDRA S. PRABHUNEY, No. 173.

The present building is old and not worth repairing; and, according to the dispensary rules, it is quite unsuitable for dispensary purposes. The furniture and fittings are sufficient and in good order. The dispensary committee visited the dispensary eight times. The conservancy arrangement of the town is not satisfactory. The total treated was 16,503 out-door and 43 in-door patients, as compared with 16,106 and 53 in 1894 and 14,154 and 20 in 1893. respectively. The most common diseases were malarial fevers, rheumatism, ophthalmia, diseases of the ear, chest affections, worms, stomach and bowel complaints, skin diseases and injuries. 24 major and 221 minor surgical operations were performed against 10 and 205 in 1894 and 7 and 180 in 1893. There was no cholera during the year 1895. The dispensary was inspected by the Deputy Sanitary Commissioner, C. D., in March, by the Civil Surgeon of Sátára in November, and by the Collector and the 1st Assistant Collector in November and January respectively. Vaccination is carried on by the táluka vaccinator. Five *post-mortem* examinations were made. The total cost was Rs. 1,625-7-4 and the cost per patient Re. 0-1-6, against Rs. 1,387-4-2 and Re. 0-1-4 in 1894 and Rs. 1,576-10-3 and Re. 0-1-9 in 1893, respectively. The hospital stoppages amounted to Rs. 50-6-0, against Rs. 72-6-0 in 1894 and Rs. 126-15-0 in 1893.

KARA'D.—*In charge of* First Class Hospital Assistant VINA'YAK SAKHA'RA'M KELKAR, No. 105.

The dispensary buildings are in good repair. The furniture and fittings are sufficient and in good order. The committee visited the dispensary three times, against three times in 1894 and four times in 1893. Sanitary arrangements were well-looked after by the Municipality. The water-supply from Krishna and Koina rivers is good and abundant. The total treated was 10,115 out-door and 86 in-door patients, as compared with 11,164 and 100 in 1894 and 8,960 and 80 in 1893, respectively. The prevailing diseases were malarial fevers, skin diseases, worms, conjunctivitis and diseases of the respiratory system. Cholera was prevalent in the villages of the Karád Táluka. There were 17 major and 427 minor surgical operations performed, against 21 major and 400 minor in 1894 and 15 major and 422 minor in 1893. Seven *post-mortem* examinations were held, and 40 medico-legal cases were examined and reported upon. Vaccination was performed by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon of Sátára once in each year. The total cost was Rs. 1,729-4-1, the cost per patient Re. 0-2-8, as compared with Rs. 1,383-11-10 and Re. 0-1-11 in 1894 and 1,749-2-1 and Re. 0-3-1 in 1893, respectively. The amount realized on account of hospital stoppages was Rs. 44-15-0, against Rs. 57-8-0 in 1894 and Rs. 62-10-0 in 1893.

ISLA'MPUR.—*In charge of* Second Class Hospital Assistant BA'LA'JI KUSHA'BA, No. 205.

The dispensary is situated on an elevated ground in a healthy and open locality out of the town. The building is old and in a well repaired state, but too small for its purpose. An.

additional wing to the north to accommodate more male patients and a surgery and examination room to the south end are much needed. An operation table and quarters for second class establishment are also needed. The dispensary committee visited the dispensary twice, against three times in 1894 and four times in 1893, but the individual numbers of the Municipality and the District Revenue Officers paid frequent visits. The sanitary condition of the town is unsatisfactory. The Municipality have built latrines—24 seats—in three different places of the town, but they are not in use owing to the want of ground for night-soil. The water-supply from four tanks and a spring is insufficient in hot season and inferior in quality. The total treated was 8,596 out-door and 61 in-door patients, as compared with 8,057 and 77 in 1894 and 7,133 and 58 in 1893, respectively. The most common diseases were malarial fevers, ascaris lumbricoides, conjunctivitis, ear and respiratory affections, stomach and bowel complaints, skin diseases, especially scabies and ulcers, and local injuries. There was no epidemic in 1895, but cholera was prevalent in several villages of the táluka and in the town in 1894, and in several villages of the táluka in 1893. 7 major and 227 minor surgical operations were performed, as compared with 6 and 220 in 1894 and 5 and 240 in 1893, respectively. Vaccination is carried out by the táluka vaccinator. 19 *post-mortem* examinations were held, against 15 in 1894 and 20 in 1893. 31 medico-legal cases were examined and reported upon, against 27 in 1894 and 24 in 1893. The dispensary was inspected by the Civil Surgeon, Sátára, on 8th November 1893, 21st December 1894 and 15th December 1895, and by the Deputy Sanitary Commissioner on 9th March 1895. The total cost was Rs. 1,115-14-2 and the cost per patient Re. 0-2-0, against Rs. 1,161-7-6 and Re. 0-2-3 in 1894 and Rs. 1,225-5-7 and Re. 0-2-8 in 1893, respectively. The amount realized on account of hospital stoppages was Rs. 3-15-0, as compared with Rs. 7-15-0 in 1894 and Rs. 10-10-0 in 1893.

PUSESA'VLI.—*In charge of* Second Class Hospital Assistant GOVIND ANNA'JI BODHA'NI, No. 230.

Conservancy of the the town is better, but there is a great want of privy rooms. Water-supply from wells and brooks is good and abundant. Hospital buildings are re-roofed and in good order. There is no proper accommodation for in-door patients. General health of the town was fair. Influenza visited the town in the months of May and June. Cholera prevailed in October; 21 cases were treated against 16 in 1894. There were 58 in-door and 7,672 out-door patients treated, against 35 and 7,877 in 1894 and 16 and 7,308 in 1893, respectively. The prevailing diseases were fevers of intermittent type, eye diseases, intestinal worms, stomach and bowel complaints, respiratory affections and skin diseases. 7 major and 234 minor surgical operations were performed, against 15 and 233 in 1894 and 9 and 259 in 1893, respectively. Vaccination is performed by Khatáv-Khánápur vaccinator. 7 *post-mortem* examinations were made at the request of the Police, against 7 in 1894 and 5 in 1893. The dispensary was inspected by the Civil Surgeon, Sátára, once in each year. The total cost was Rs. 1,618-6-6 and the cost per patient Re. 0-3-4, against Rs. 1,260-7-2 and Re. 0-2-6 in 1894 and Rs. 1,112-2-3 and Re. 0-2-5 in 1893, respectively. Rs. 6-13-0 were received under hospital stoppage rules, against Rs. 4-0-0 in 1894 and Rs. 12-13-0 in 1893.

MHASVAD.—*In charge of* Third Class Hospital Assistant GANESH RA'MCHANDRA, No. 311.

The dispensary is in good repair. A wall should be built between the rooms for in-door patients and the dispensary proper to make it more suitable for in-door patients. The dispensary furniture, such as cots, tape-bundles, cooking pots for in-door patients, tables, benches, chairs, &c., are all useless and should be replaced by new ones. The dispensary committee visited the dispensary six times, and the Civil Surgeon inspected it on the 20th December. The conservancy of the town is fairly clean. Water-supply, chiefly from the river Mán, is abundant, but runs short in the summer. There are only three wells, the water of which is not used for drinking purposes. General health of the town was fair; cholera made its appearance in the months of July, August, September and October. The total number of patients was 32 in-door and 5,803 out-door, as compared with 21 and 5,341 in 1,894 and 27 and 5,208 in 1893, respectively. The prevailing diseases were malarial fevers, worms, conjunctivitis, diseases of the respiratory system and skin, including ulcers, local injuries, &c. 10 major and 179 minor surgical operations were performed, against 1 and 124 in 1894 and 1 and 99 in 1893, respectively. 4 *post-mortem* examinations were held at the request of the Police, as compared with 5 in 1894 and 2 in 1893. Vaccination is carried on by the Dahivadi Táluka vaccinator. The total cost was Rs. 1,182-4-6 and the cost per patient Re. 0-3-2, against Rs. 1,098-6-6 and Re. 0-3-3 in 1894 and Rs. 978-2-3 and Re. 0-2-11 in 1893, respectively. Rs. 17-6-0 were received as hospital stoppages, against Rs. 4-10-0 in 1894 and Rs. 4-8-0 in 1893.

PA'TAN.—*In charge of* Third Class Hospital Assistant GAJA'NAN KRISHNA, No. 286.

The roof of the verandah of the dispensary building, of a part of the Hospital Assistant's quarters and of the store-rooms require repairs. Other buildings are in a good state of repair. The committee visited the dispensary four times. The sanitary condition of the town is not satisfactory. Water-supply, chiefly from rivers Koyna and Keira, is of fair quality; that from the latter river runs short during the hot season. Both supplies are liable to pollution. The total treated was 4,886 out-door and 64 in-door patients, as compared with 5,847 and 31 in 1894 and 5,655 and 34 in 1893, respectively. The most common diseases were malarial fevers, intestinal worms, diseases of the skin, eye and digestive and respiratory systems and local injuries. Cholera prevailed in six villages of the táluka. 7 major and 77 minor surgical

operations were performed against 6 and 195 in 1894 and 3 and 169 in 1893. Vaccination is carried on by the táluka vaccinators. 10 *post-mortem* examinations were held at the request of the Police, and opinion given in 11 other medico-legal cases. The dispensary was inspected in November by the Civil Surgeon, Sátára. The total cost was Rs. 1,330-9-7 and the cost per patient Re. 0-4-3, against Rs. 1,194-5-2 and Re. 0-3-3 in 1894 and Rs. 1,399-10-3 and Re. 0-3-11 in 1893. The amount received on account of hospital stoppages was Rs. 39-9-0 against Rs. 26-8-0 in 1894 and Rs. 34-10-0 in 1893.

TA'SGAON.—*In charge of* First Class Hospital Assistant VITHAL BHIKA'JI, No. 83.

The dispensary buildings are in good order, but they require white-washing. The furniture is sufficient. A table for operations and iron cots for in-patients are wanted. The dispensary committee visited the dispensary three times. The conservancy of the town is defective. The water-supply is good but deficient in hot season. The total treated was 9,278 out-door and 31 in-door patients, as compared with 8,568 and 37 and 7,151 and 23, respectively, in the two preceding years. The most common diseases were ophthalmia, worms, ague, bronchitis, skin diseases and injuries. Cholera broke out in the town and in its vicinity in the month of August and disappeared in September. 35 cases of cholera occurred, of which 23 proved fatal. 1 major and 167 minor surgical operations were performed, against 2 and 150 in 1894 and 2 and 94 in 1893. Vaccination is carried on by the táluka vaccinator. Six dead bodies were examined and opinion furnished in several medico-legal cases referred to by the Police. The dispensary was inspected by the Civil Surgeon, Sátára, in November. The total cost was Rs. 1,321-13-5 and the cost per patient Re. 0-2-3, against Rs. 1,686-5-4 and Re. 0-3-1 in 1894 and Rs. 1,330-4-2 and Re. 0-2-11 in 1893. Rs. 49-0-0 were realized as hospital stoppages, against Rs. 31-3-0 in 1894 and Rs. 13-12-0 in 1893.

PA'NCHGANI.—*In charge of* First Class Hospital Assistant J. F. DE JOSS, No. 49.

The buildings are in good repair. Sanitary arrangements are satisfactory, and the supply of water ample. The total treated was 8,803 out-door and 1 in-door patients, against 8,692 and 5 in 1894 and 9,925 and 3 in 1893, respectively. Malarious fevers, worms, dyspepsia and diseases of the respiratory and digestive systems, eye and skin were the most common complaints. Cholera made its appearance in Sátára in April 1894, and it gradually spread in the surrounding villages; the epidemic at Wái was severe, while at Pánchgani there were eight cases with four deaths. The dispensary treated 42 cases, including the 8 which occurred at Pánchgani; the rest were from the surrounding villages; there were 5 cases in 1893 and none in 1895. There were 11 major and 94 minor surgical operations performed, against 10 and 72 in 1894 and 11 and 88 in 1893, respectively. Vaccination is conducted by the municipal vaccinator. The dispensary was inspected by the Surgeon-General with the Government of Bombay, the Civil Surgeon and the 1st Assistant Collector of Sátára and the Sanitary Commissioner for the Government of Bombay. The total cost was Rs. 750-15-5 and the cost per patient Re. 0-1-4, as compared with Rs. 740-5-2 and Re. 0-1-4 in 1894 and Rs. 563-9-7 and Re. 0-0-10 in 1893, respectively. The amount realized under hospital stoppage rules was Rs. 292-13-0, against Rs. 218-13-0 in 1894 and Rs. 213-8 in 1893.

RAHIMATPUR.—*In charge of* Second Class Hospital Assistant SHAIK GOOLA'B, No. 238.

The dispensary building, a hired one, is quite unsuitable for the purpose. There was no cholera in the town during the year. Conservancy arrangements are well attended to. The water-supply, chiefly from nálas, is good and abundant. The dispensary committee visited the dispensary regularly. The total treated was 11,725 out-door and 13 in-door patients, as compared with 8,816 and 26 in 1894 and 8,042 and 33 in 1893, respectively. The prevailing complaints were malarial fevers, worms and diseases of the skin, eye and digestive system. 6 major and 311 minor surgical operations were performed, against 9 and 321 in 1894 and 17 and 301 in 1893, respectively. Vaccination is carried out by the táluka vaccinator. 3 *post-mortem* examinations were held and opinion was given in 3 medico-legal cases, against 5 and 12 in 1894 and 5 and 13 in 1893, respectively. The dispensary was inspected every year by the Civil Surgeon, Sátára. The total cost was Rs. 2,214-0-5 and the cost per patient Re. 0-3-0 as compared with Rs. 1,312-6-8 and Re. 0-2-4 in 1894 and Rs. 1,260-3-8 and Re. 0-2-5 in 1893, respectively. The fees on account of hospital stoppages amounted to Rs. 6-11-0, as compared with Rs. 6-11-0 in 1894 and Rs. 15-3-0 in 1893.

SHOLÁPUR COLLECTORATE.

CIVIL HOSPITAL, SHOLÁPUR.—*In charge of* Surgeon-Captain W. R. SCROGGIE, L.R.C.P., Senior Assistant Surgeon, I. S. M. D.

Conservancy.—The conservancy arrangements are carried out fairly satisfactorily, but more attention should be given to the drains and gutters. There is no complete drainage system.

Water-supply.—From the Ekruk tank, is purer now since a 12″ cast-iron pipe was laid down from the tank to the settling tank at the pumping engine in 1893. There are wells in the town which allow of soakage from houses, but the water from them is still used, as they are supposed to have some virtues.

Hospital buildings.—No changes have been made, except that an operating and examining room is under construction at the northern side of the dispensary room of the male ward to supply a long felt want. The quarters for one of the hospital assistants adjoining the jail compound were burnt down, but new ones are being constructed in the hospital compound and will be completed in 1896. The floors of the police ward and the lunatic cells are of mud; these should be paved with Sháhábád stone, and the floor of the two of the six cells boarded. Bath-rooms to each of the wards are still needed, also a store-room for medicines and clothing. Venetian and glass windows should be substituted for the zamps of the wards. The cactus hedge of the compound is unsightly, gathers rubbish and harbours reptiles and rats; it would be well if it were removed, and wire fencing or a low wall substituted. The chupper roof of the wards have worn thin and leak a good deal. Mangalore or ordinary tiled roofing would be a great improvement to the present condition. The floor of the cells and the yard is low and damp during the rains; it should be raised about 8 inches and flagged. There is no accommodation for contagious diseases, such as measles, small-pox, leprosy, &c.

General health.—Fairly good. Cholera prevailed each year, but in 1894 the number attacked and of deaths was nearly double the number of the previous two years. Influenza of a mild type occurred each year. Measles and small-pox were present each year.

Attendance of patients.—There were 582 in-door and 14,108 out-door patients, as compared with 672 and 13,888 in 1894 and 601 and 13,341 in 1893, respectively.

Prevailing diseases.—Intermittent fever, ascaris lumbricoides, conjunctivitis, injuries, itches, bronchitis, rheumatism, external meatus, ringworm and eczema.

Surgical operations.—1,710 minor and 148 major surgical operations, against 1,783 and 97 in 1894 and 1,123 and 91 in 1893. The most important of the major operations were 1 for staphyloma, 3 for cataracts, 2 for iridectomies, 3 for imperforate anus, 10 for lateral lithotomies, 1 for strangulated hernia and 2 for amputation of breast, 1 of thigh and 4 of leg.

Mortality and its causes.—There were 62 deaths against 50 in 1894 and 36 in 1893. The chief causes were dysentery, cholera, pneumonia, remittent fever, vesical calculi, hemiplegia, tubercle of lungs and secondary syphilis.

Vaccination.—Is performed by the municipal vaccinator of the town from the calf lymph. There were 2,607 primary vaccinations, being 72 more than in 1894. There were 81 revaccinations or 1 less than in 1894.

Medico-legal.—There were 60 cases, including 14 *post-mortem* examinations.

Conduct of establishment.—The conduct of the 1st and 2nd class establishment has been good.

Cost.—The total cost was Rs. 3,294-11-5 and the cost per patient Re. 0-3-7, against Rs. 5,787-7-9 and Re. 0-6-4 in 1894 and Rs. 4,922-13-0 and Re. 0-5-7 in 1893, respectively.

Hospital stoppages.—The amount realized was Rs. 135-7-7, as compared with Rs. 173-5-4 in 1894 and Rs. 165-2-0 in 1893.

MUNICIPAL DISPENSARIES.

SHOLA'PUR.—*In charge of* First Class Hospital Assistant PURSON SINGH, No. 14.

The building is in good repair. A good deal of repairs is necessary to the Hospital Assistant and servants' quarters. The furniture and fittings are complete and in good order. The conservancy arrangements are not up to the average. Water-supply is abundant and good. The dispensary committee inspected the dispensary regularly. The total treated was 16,216 out-door and 51 in-door patients, against 16,897 and 55 in 1894 and 16,891 and 57 in 1893, respectively. The prevailing diseases were ague, conjunctivitis, ascaris lumbricoides, bronchitis and scabies. 20 cases of cholera were treated as compared with 26 in 1894 and 35 in 1893. There were 39 major and 872 minor surgical operations performed against 15 and 862 in 1894 and 16 and 928 in 1893. The dispensary was inspected by the Surgeon General with the Government of Bombay and by the Civil Surgeon of Sholápur once in each year. It was also inspected by the Sanitary Commissioner for the Government of Bombay and by the Deputy Sanitary Commissioner once during the three years. The total cost was Rs. 3,057-2-4 and the cost per patient Re. 0-3-0, as compared with Rs. 2,740-1-11 and Re. 0-2-7 in 1894 and Rs. 2,805-12-3 and Re. 0-2-7 in 1893, respectively. The hospital stoppage rules are not in force in this dispensary.

DA'RA'SHAW DISPENSARY, SHOLA'PUR.—*In charge of* Pensioned First Class Hospital Assistant BALWANT NILKANT.

The building is in good repair. An additional room was transferred to the dispensary, and Sháhábád paving laid in the compounding room. The roof and cloth ceiling of the new room require thorough repairs. The furniture and fittings are complete and in good order. Conservancy arrangements are as in previous years. Water-supply from one of the Ekruk Tank canals is good and ample. The dispensary committee visited the dispensary five times. The total number of out-door patients treated was 7,260, as compared with 6,906 in 1894 and 6,293 in 1893. The prevailing diseases were malarial fevers, diseases of the eye and digestive and respiratory systems, intestinal worms, dysentery, diarrhœa and rheumatic and skin affections. Cholera prevailed during the three years, giving 25 cases in all. There were 203 minor surgical operations performed. Vaccination is carried on by the municipal vaccinator. The dispensary was inspected once by the Surgeon General with the Government of Bombay, and by the

Civil Surgeon of Sholápur annually. The total cost was Rs. 861-0-0 and the cost per patient Re. 0-1-10, against Rs. 1,249-0-4 and Re. 0-2-10 in 1894 and Rs. 1,039-14-1 and Re. 0-2-7 in 1893, respectively. The hospital stoppage rules are not introduced in this dispensary.

PANDHARPUR.—*In charge of* Assistant Surgeon G. G. BOPARDIKAR, L.M. & S.

The buildings are in good repair. Quarters for the Hospital Assistant, a private examination room, a screen-wall for the dead-house and *post-mortem* and operation tables are badly wanted. No trees have as yet been planted in the dispensary compound. The furniture and fittings are sufficient for the requirements of the dispensary. The committee met four times in the municipal hall. The conservancy of the town is well attended to by the sanitary establishment. Water-supply from the municipal tank is hardly sufficient in summer for the wants of such a town of pilgrimage as Pandharpur; that from the river Bhima, though sufficient, is liable to contamination. Abundant and pure water-supply that would reach the highest parts of the town—the temple and its vicinity—is a great desideratum that deserves the prime attention of the local Municipality. The principal diseases were skin affections, worms, malarial fevers and ophthalmia. The total treated were 11,305 out-door and 156 in-door patients, against 11,213 and 126 in 1894 and 11,008 and 82 in 1893, respectively. The total number of deaths among the in-patients was 50 or 32·05 per cent. of the total treated, against 33 and 26·1 per cent. in 1894 and 10 and 11·2 per cent. in 1893. There were 32 major and 408 minor surgical operations performed, as compared with 20 and 437 in 1894 and 18 and 350 in 1893, respectively. Of the major operations, 10 were incisions of large abscesses, 5 reductions of dislocations, 2 craniotomies for diminutive pelvis, 2 paracentesis abdominis, 4 tappings for staphyloma and 2 extraction of nasal polypus. The general health of the town is indifferent. Cholera prevailed from July to November, corresponding to the periods of the Ashadhi and Kartiki fairs. There were 571 attacks with 343 deaths. There was no epidemic of small-pox. There were 67 medico-legal cases examined and reported upon and 17 *post-mortem* examinations made at the request of the Police, against 33 cases and 12 examinations in 1894 and 20 cases and 8 examinations in 1893. Vaccination is conducted by a municipal vaccinator. There were 586 primary and 2 re-vaccinations, against 955 and *nil* in 1894 and 700 and 1 in 1893, respectively. The dispensary was inspected by the Deputy Sanitary Commissioner in July last. The total cost was Rs. 4,865-12-6 and the cost per patient Re. 0-6-9, as compared with Rs. 3,817-2-2 and Re. 0-5-4 in 1894 and Rs. 5,425-5-7 and Re. 0-7-9 in 1893, respectively. The hospital stoppage rules are not in force here.

BA'RSI.—*In charge of* First Class Hospital Assistant BA'LKRISHNA HARI, No. 73.

The building is in good order. The water-supply is from wells and tanks. The total number of patients treated was 19,325 out-door and 51 in-door, as compared with 18,569 and 34 in 1894 and 17,597 and 40 in 1893, respectively. The prevailing diseases were malarial fevers, intestinal worms, conjunctivitis and diseases of the digestive system and skin. Cholera made its appearance in June last. Only 2 cases occurred, which proved fatal. 36 major and 1,004 minor surgical operations were performed, against 14 and 896 in 1894 and 28 and 787 in 1893. 12 *post-mortem* examinations were made. One packet of a case of suspected poisoning, one cloth for examination of seminal fluid and vomitted matter were sent to the Chemical Analyser to Government, Bombay, for analysis. Vaccination is carried on by the municipal vaccinator. The dispensary was inspected by the Civil Surgeon, Sholápur, and by the Deputy Sanitary Commissioner. The total cost was Rs. 2,760-15-0 and the cost per patient Re. 0-2-3, against Rs. 1,865-15-2 and Re. 0-1-7 in 1894 and Rs. 2,284-7-7 and Re. 0-2-0 in 1893, respectively. The rules for hospital stoppages are not enforced in this dispensary.

GRANT-IN-AID DISPENSARIES.

KARMA'LA.—*In charge of* Second Class Hospital Assistant NURSAPA POCHAYA, No. 166.

The building is in a fair state of repair. The in-door accommodation is insufficient. Quarters for servants are needed. The compound wall requires to be rebuilt. Furniture and fittings are sufficient. The committee met regularly every month. The total treated was 33 in-door and 11,003 out-door patients, against 27 and 11,176 in 1894 and 25 and 10,017 in 1893, respectively. The most common diseases were malarious fevers, intestinal worms, rheumatic and skin affections, ophthalmia and diseases of the respiratory and digestive organs. Cholera prevailed to a slight extent in the surrounding villages, but the town was free from epidemic during the three years. Measles and small-pox prevailed to a slight extent in the town and táluka in 1893 and the measles only in 1894. The dispensary was inspected by the Civil Surgeon of Sholápur once every year and by the Deputy Sanitary Commissioner in 1895. The sanitary condition of the town is fair and well attended to. Water-supply has been provided with iron pipes in place of earthen ones. There are 10 municipal latrines with six seats in each. 4 major and 358 minor surgical operations were performed, as compared with 7 and 377 in 1894 and 4 and 353 in 1893, respectively. 6 *post-mortem* examinations were held and opinion was given in 19 medico-legal cases, against 7 and 17 in 1894 and 4 and 18 in 1893, respectively. Vaccination is carried on by the táluka vaccinator. The total cost was Rs. 1,436-8-5 and the cost per patient Re. 0-2-0, as compared with Rs. 1,327-11-8 and Re. 0-1-10 in 1894 and Rs. 1,560-0-0 and Re. 0-2-4 in 1893, respectively. The amount realized on account of hospital stoppages was Rs. 29-0-0, as compared with Rs. 50-6-0 in 1894 and Rs. 45-1-0 in 1893.

AKLUJ.—*In charge of* Third Class Hospital Assistant GANESH RÁOJI No. 279.

The building is in a good state of repair. The furniture and fittings are sufficient. The dispensary committee met 3 times, against 1 in 1894 and 6 in 1893. As the town has no Municipality, the sanitary condition, on the whole, is not what it ought to have been. The water-supply from the river Nira and a well is abundant and of good quality, but liable to pollution. The total number of patients treated was 7,665 out-door and 40 in-door, as compared with 8,756 and 40 in 1894 and 8,359 and 40 in 1893, respectively. The prevailing diseases were rheumatic affections, ophthalmia, respiratory and skin affections, diarrhœa, dysentery and intestinal worms. The eye diseases prevail in the months of June and July when the river is flooded. Minor surgical operations numbered 133 and major 36, as compared with 208 and 34 in 1894 and 283 and 12 in 1893, respectively. Vaccination is carried on by the táluka vaccinator. The dispensary was annually inspected by the Civil Surgeon, the Collector and the Assistant Collector of Sholápur. 4 *post-mortem* examinations were made and opinion given in 5 medico-legal cases, as compared with 4 and 5 in 1894 and 3 and 3 in 1893. The total cost was Rs. 1,388-8-11 and the cost per patient Re. 0-2-10, as compared with Rs. 1,442-0-1 and Re. 0-2-7 in 1894 and Rs. 1,516-4-7 and Re. 0-2-10 in 1893, respectively. Rs. 8-2-0 were realized under the hospital stoppage rules, against Rs. 15-6-0 in 1894 and Rs. 12-10-0 in 1893.

SA'NGOLA.—*In charge of* Second Class Hospital Assistant GOVIND TÁNTIA, No. 182.

The dispensary was opened on the 16th September 1893. The dispensary building, together with servants' quarters and a dead-house, which were constructed by the Municipality, are in good repair. Sufficient furniture has been supplied and is in good order. The dispensary committee was appointed in the year 1894. Twenty-two meetings were held during the last two years for transacting business of the dispensary. The most common diseases were malarial fevers, worms, ophthalmia and skin and respiratory affections. Cholera breaks out generally at the time of Pandharpur fairs. The total cases of cholera treated were 43, against 20 in 1894. The dispensary was inspected by the Civil Surgeon, the Collector and the District Deputy Collector of Sholápur once in each year. The total number of out-door patients treated was 8,347, against 6,349 in 1894 and 1,065 in 1893. Their daily average strength was 54·5, against 50·2 in 1894 and 41·4 in 1893. The sanitary condition of the town is fair. Water-supply from ten public wells and a canal is deficient during the hot season, but of fair quality. Most of the wells are of the old pattern and, therefore, liable to soakage. Conservancy establishment consists of 2 sweepers and 1 bhangi, and a temporary establishment is entertained occasionally. There are no public latrines, but plots of ground sufficiently away from the town have been assigned by the Municipality for natural purposes. Vaccination is carried on by the táluka vaccinator. The general health of the town, on the whole, was fair. There were 6 major and 373 minor surgical operations, against 5 and 213 in 1894 and *nil* and 32 in 1893. 7 *post-mortem* examinations were made, and opinion given in 18 medico-legal cases, against 5 and 24 in 1894. One *post-mortem* examination was made in 1893 only. The total cost was Rs. 1,667-7-4 and the cost per patient Re. 0-3-2, against Rs. 1,934-11-7 and Re. 0-4-10 in 1894 and Rs. 199-4-8 and Re. 0-2-11 in 1893 respectively. The total income from hospital stoppages was Rs. 6-10-0, against Rs. 8-6-0 in 1894. There were no receipts under this head in 1893.

NATIVE STATE DISPENSARY.

AKALKOT.—*In charge of* Mr. V. N. REGE, L.M. & S.

The dispensary buildings are in a good state of repair. No important additions or alterations were made. There is no dispensary committee as yet. The dispensary was often visited by H. H. the Ráje Sáheb. The total treated was 11,410 out-door and 75 in-door patients, against 13,507 and 70 in 1894 and 11,652 and 89 in 1893. The most common diseases were ague, malarial fevers, digestive and respiratory affections, ophthalmia and skin diseases. 12 major and 387 minor surgical operations were performed against 14 and 343 in 1894 and 15 and 382 in 1893. Three *post-mortem* examinations were held, and opinion given in 14 medico-legal cases. The total cost was Rs. 3,358-8-10 and the cost per patient Re. 0-4-8, as compared with Rs. 3,582-14-5 and Re. 0-4-2 in 1894 and Rs. 3,521-4-5 and Re. 0-4-0 in 1893, respectively.

BELGAUM COLLECTORATE.

CIVIL HOSPITAL, BELGAUM.—*In charge of* Surgeon-Lieutenant-Colonel J. P. GREANY, M.D.

Conservancy.—The same system of conservancy as mentioned in former reports is still in force, and notwithstanding the large establishment maintained and the large sums expended yearly, the condition of the town leaves much to be desired. No further action has been taken regarding the introduction of a proper drainage scheme. Plans and estimates were drawn up, but the cost proved too great and beyond the means of the Municipality. The night-soil depôt is situated at more than three miles distance from the town, the road thereto being up a steep incline, consequently the carts can only make one journey in the day; a nearer site should be selected.

Water-supply.—Water for drinking and other purposes is mainly obtained as formerly from wells, of which there are 15 public and 1,587 private, within municipal limits. The

supply is always abundant, but the quality indifferent, especially that of some of the private wells: these, owing to their faulty construction, are constantly liable to contamination from soakage.

Hospital buildings.—These have been kept in a good state of repair and regularly lime-washed by the Public Works Department. The wants and imperfections yearly brought to notice still exist, and will, until the new Civil Hospital is erected, the plans and estimates for which, called for in Government Resolution No. 433 C. W.—1706 of 1892, Public Works Department, although made out in the rough, have not yet been finally completed.

General health.—The general health of the population has been on the whole good, for although cholera and small-pox prevailed in each year of the three under review, the epidemics never assumed alarming proportions.

Attendance of patients.—518 in-door and 10,776 out-door patients were treated, against 395 and 12,693 in 1894 and 290 and 12,368 in 1893, respectively.

Prevailing diseases.—The prevailing diseases were malarial fevers, intestinal worms, rheumatism, conjunctivitis, diseases of the respiratory system, disorders of the digestive system, skin affections and injuries.

Mortality and its causes.—There were 23 deaths in hospital, against 34 in 1894 and 24 in 1893. The principal causes were small-pox, debility, starvation, diarrhœa and empyema.

Surgical operations.—The number of major and minor surgical operations performed was 136 and 1,568, as compared with 104 and 605 in 1894 and 38 and 449 in 1893, respectively. Removal of tumours, amputations of shoulder, forearm and thigh, removal of cataract, excision of breast, lateral lithotomy, amputation of penis, removal of entire tibia for necrosis, excision of eyeball and opening of hepatic abscess were amongst the principal major operations performed.

Medico-legal.—15 *post-mortems* were made, against 16 in 1894 and 13 in 1893, on the requisition of the Police and Magisterial authorities.

Vaccination.—Vaccination for the past three years has been attended to by the municipal vaccinator under the orders of the Deputy Sanitary Commissioner, Southern Registration District.

Conduct of the establishment.—The conduct of the several members of the establishment has been uniformly good.

Cost.—The total cost was Rs. 3,889-9-4 and the cost per patient Re. 0-5-5, as compared with Rs. 7,301-11-0 and Re. 0-8-11 in 1894 and Rs. 4,804-11-4 and Re. 0-6-0 in 1893, respectively.

Hospital stoppages.—Amounted to Rs. 36-15-0 against Rs. 47-4-9 in 1894 and Rs. 46-3-6 in 1893.

GRANT-IN-AID DISPENSARIES.

GOKA'K.—*In charge of* 2nd Class Hospital Assistant GANPATI NILOBA, No. 233.

The building is under repair. There are no quarters for the dispensary servants. The committee visited the dispensary nine times, against eleven in 1894 and ten in 1893. The water-supply is from the river and wells. The sanitary condition of the town is fair. The total treated was 6,708 out-door and 40 in-door patients, as compared with 6,803 and 26 in 1894 and 5,615 and 15 in 1893, respectively. The prevailing diseases were malarious fever, worms, diseases of the eye, digestive system and skin and ulcers. There were 102 cases of cholera, against 186 in 1894 and 7 in 1893. Vaccination is carried on by the municipal vaccinator. The dispensary was inspected by the Civil Surgeon, the Collector and the District Deputy Collector of Belgaum, annually. 6 major and 348 minor surgical operations were performed, against 6 and 278 in 1894 and 3 and 264 in 1893, respectively. Three *post-mortem* examinations were performed at the request of the Police, and opinion was given in several medico-legal cases. The total cost was Rs. 1,424-13-9, the cost per patient Re. 0-3-4, as compared with Rs. 13,354-9-1 and Re. 0-3-2 in 1894 and Rs. 1,176-6-9 and Re. 0-3-4 in 1893, respectively. The fees collected under the hospital stoppage rules were Rs. 8-11-0, as compared with Rs. 18-4-0 in 1894 and Rs. 7-15-0 in 1893.

ATHNI.—*In charge of* First Class Hospital Assistant ANANT MULHÁR, No. 53.

The buildings are in good repair. The committee visited the dispensary seven times, the President once and the Collector of the District twice. The town is kept fairly clean. The water-supply is sufficient and is chiefly derived from wells and a tank. The total treated was 6,873 out-door and 29 in-door patients, as compared with 8,020 and 42 in 1894 and 6,631 and 18 in 1893. The most common diseases were malarial fevers, worms, ophthalmia, skin and respiratory affections and bowel complaints. One case of cholera occurred in the town and proved fatal. There were 4 major and 200 minor surgical operations performed against 3 and 167 in 1894 and 6 and 198 in 1893. Vaccination is carried on by the municipal vaccinator. Fourteen *post-mortem* examinations were held, and opinion given in two *medico-legal* cases. The dispensary was inspected by the Civil Surgeon, Belgaum, once in each year. The total cost was Rs. 1,585-3-9 and the cost per patient Re. 0-3-8, as compared with Rs. 1,688-12-5 and

Re. 0-3-4 in 1894 and Rs. 1,482-12-2 and Re. 0-3-6 in 1893, respectively. The fees collected under hospital stoppage rules amounted to Rs. 9-3-0, against Rs. 50-5-0 in 1894 and Rs. 39-1-0 in 1893.

SAUNDATTI.—*In charge of* Second Class Hospital Assistant PA'NDURANG GANESH, No. 170.

The building and out-houses are in good order. The want of a compound wall, quarters for servants and a store-room is much keenly felt. The services of a half-time sweeper have been lent to the dispensary since 15th June 1895. The committee did not regularly visit the dispensary. The practice of taking away the visitors' book by members to their residences for filling in their remarks has now been ordered to be discontinued. Surface conservancy of the town is good. Water-supply is very deficient in summer. The total number treated was 22 in-door and 6,571 out-door patients, as compared with 14 and 5,260 in 1894 and 15 and 5,183 in 1893. The most common diseases were malarious fevers, worms, diseases of the eye, respiratory and digestive systems and skin and ulcers. Small-pox to a small extent prevailed in 1893. In 1894 and 1895 the town was free from epidemic. Vaccination was carried on by the táluka vaccinator. Two major and 224 minor surgical operations were performed, as compared with 4 and 113 in 1894 and 4 and 112 in 1893. The dispensary was inspected by the Civil Surgeon, Belgaum, once in each year. Eleven *post-mortem* examinations were made, as compared with 7 in 1894 and 5 in 1893. The total cost was Rs 1,810-5-7, as compared with Rs. 1,067-13-9 in 1894 and Rs. 1,432-14-6 in 1893. The cost per patient was Re. 0-4-4, against Re. 0-3-2 in 1894 and Re. 0-4-4 in 1893. Rs. 27-2-0 were received on account of hospital stoppages, as compared with Rs. 39-7-0 in 1894 and Rs. 42-8-0 in 1893.

CHICODI.—*In charge of* First Class Hospital Assistant NARSAPA NAIDU, No. 97.

There being no Municipality, the sanitary condition of the town is not good. Water-supply from a brook in the middle of the town is good and ample; that from wells is also used for drinking and other domestic purposes. The dispensary is located in an old bungalow, which is in a dilapidated condition. The general health of the town was good. The total treated was 4,165 out-door and 27 in-door patients as compared with 5,144 and 25 in 1894 and 5,161 and 27 in 1893, respectively. Malarious fevers, intestinal worms, chronic rheumatism, skin and respiratory affections, ophthalmia and local injuries were the most common complaints. There were 2 deaths in the dispensary, due to injuries of the head. There was an epidemic of cholera in the town. There were 7 major and 154 minor surgical operations, against 7 and 594 in 1894 and 9 and 659 in 1893, respectively. Vaccination is carried out by the táluka vaccinator. 64 cases of assault were certified and 38 *post-mortem* examinations made at the request of the Police. The Civil Surgeon, Belgaum, inspected the dispensary once in every year. The total cost was Rs. 1,514-11-1 and the cost per patient Re. 0-5-9, as compared with Rs. 1,667-7-1 and Re. 0-5-1 in 1894 and Rs. 1,636-3-8 and Re. 0-5-0 in 1893, respectively. The fees collected under hospital stoppage rules amounted to Rs. 29-3-0, against Rs. 33-11-0 in 1894 and Rs. 46-0-0 in 1893.

KHA'NA'PUR.—*In charge of* Second Class Hospital Assistant GANESH VINA'YAK, No. 223.

Conservancy has been fairly attended to, though there is no regular Municipality. Water-supply from the river and wells is ample and tolerably pure, but liable to pollution. The dispensary building is in good repair, but accommodation for the in-door patients of both sexes, latrine for male and female patients and quarters for the hospital establishment are much needed. The furniture and fittings are sufficient and in good order. There was no epidemic disease in 1895. There were 21 cases of cholera in 1894 with 11 deaths, as compared with 3 cases (all fatal) in 1893. The number of out-door patients was 4,123, as compared with 3,346 in 1894 and 3,598 in 1893. The prevailing diseases were dysentery, malarious fevers, worms, rheumatic and respiratory affections, eye and skin diseases and bowel complaints. Two major and 78 minor surgical operations were performed. Vaccination is carried on by the táluka vaccinator. Seven *post-mortem* examinations were made against 4 in 1894 and 4 in 1893. The dispensary was inspected by the Civil Surgeon of Belgaum once annually, and by the Deputy Sanitary Commissioner in 1894. The dispensary committee visited the dispensary often, also the Collector and the Assistant Collector of Belgaum. The total cost was Rs. 1,042-0-3 and the cost per patient Re. 0-4-0, as compared with Rs. 878-2-0 and Re. 0-4-2 in 1894 and Rs. 898-11-2 and Re. 0-3-11 in 1893, respectively. Rs. 30-10-0 were received on account of hospital stoppages, against Rs. 19-10-0 in 1894 and Rs. 42-10-0 in 1893.

MUNICIPAL DISPENSARIES.

BELGAUM.—*In charge of* Mr. P. N. KOPPIKAR.

The conservancy arrangements of Belgaum remain the same as in previous years. The sanitary condition of the town is fairly good. The surface drainage scheme is under consideration of the Municipality and will be carried out when funds are available. The present road-side gutters are constantly cleaned by the Mahárs specially appointed by the Municipality for the purpose, but this scheme is unsatisfactory. Water-supply from the municipal and private wells is good and ample, but in some parts of the city it is rather brackish. The dispensary building is situated in the compound of the municipal office and quite fitted for the purpose. A window was let into the wall of the store-room, which was formerly a regular dark room. Necessary

repairs and white-washing are carried out every year. Furniture and fittings are sufficient and in good order. The general health of the town was fairly good. Small-pox prevailed from January to July, and a few cases of cholera, chicken-pox and measles also occurred. There were in all 208 cases of small-pox, of which 15 proved fatal, against 102 cases and 10 deaths in 1894. There were 8 cases of cholera with 4 deaths, as compared with 44 cases and 28 deaths in 1894 and 54 cases and 36 deaths in 1893. The total treated was 9,876 out-door patients, as compared with 7,587 in 1894 and 7,309 in 1893. Their daily average strength was 102·3, against 76·8 in 1894 and 50·7 in 1893. Malarial fevers, affections of the digestive and respiratory systems, ophthalmia, intestinal worms, skin affections, rheumatism, dysentery and diarrhœa were the prevailing diseases. There were 20 major and 412 minor surgical operations, as compared with 5 and 319 in 1894 and *nil* and 251 in 1893, respectively. The work of vaccination in the city is carried out by a local fund vaccinator. The total cost was Rs. 1,232-13-6, as compared with Rs. 1,219-10-5 in 1894 and Rs. 947-6-10 in 1893. The cost per patient was Re. 0-1-11, against Re. 0-2-6 in 1894 and Re. 0-2-0 in 1893. Rs. 94-13-0 were received on account of hospital stoppages in 1895; the rules not being in force during the previous years.

NIPA'NI'.—*In charge of* Mr. PARASHRA'M AMRUT.

The dispensary was opened on 1st June 1895 in a building which was originally intended for a dharmshála. It is in good order. There is no accommodation for in-door patients. There is no dispensary committee, but the managing committee of the Municipality look after the dispensary. The total treated was 4,455 out-door patients. The most common diseases were malarial fevers, worms, skin, respiratory and rheumatic affections and bowel complaints. One major and 63 minor surgical operations were performed. The dispensary was inspected by the Civil Surgeon, Belgaum, once. The total cost was Rs. 1,660-6-1 and the cost per patient Re. 0-5-11.

DHA'RWA'R COLLECTORATE.

CIVIL HOSPITAL, DHA'RWA'R.—*In charge of* Surgeon-Major D. C. DAVIDSON.

Conservancy.—The conservancy arrangements remain practically the same as reported on three years ago. Pit privies are still numerous and no effectual steps have been taken for their removal. The latrine and conservancy establishments are inadequate.

Water-supply.—The supply is very inadequate in quantity and in many cases indifferent in quality. Last year especially, the supply ran very short, and it was almost impossible to obtain sufficient for domestic purposes, while gardens generally became dried up for want of water. A new scheme estimated to cost 4½ lákhs has been submitted to Government.

Hospital building.—In good repair. Alterations to the floors of the three main wards have been completed. An operating-room has been sanctioned and the plans approved. The dispensary has been divided by a high teakwood partition in order to provide a consulting or examination room.

General health.—Small-pox prevailed to a small extent in the district in 1893 from June to September. Cholera also prevailed during the last three years more or less in all the tálukas. It generally commenced in July and disappeared at the end of October. In the town malarial fevers and influenza of a mild type have prevailed.

Attendance of patients.—357 in-door and 8,054 out-door patients, against 340 and 8,499 in 1894 and 289 and 8,093 in 1893, respectively.

Prevailing diseases.—Malarial fevers, ascaris lumbricoides, bronchitis and bronchial catarrh. dyspepsia, scabies, ulcers, eczema, conjunctivitis, diarrhœa and local injuries.

Surgical operations.—57 major and 598 minor surgical operations were performed, as compared with 57 and 682 in 1894 and 61 and 693 in 1893, respectively.

Mortality and its causes.—There were 13 deaths in hospital against 27 in 1894 and 16 in 1893. The chief causes were remittent fever, ovarian cystic tumours, diarrhœa, Bright's disease, ulcers and starvation.

Medico-legal.—15 *post-mortem* examinations were made, against 14 in 1894 and 28 in 1893. There were 53 medico-legal cases reported on, against 79 in 1894 and 85 in 1893.

Hospital stoppages.—Rs. 248-14-0 were received, against Rs. 189-3-0 in 1894 and Rs. 202-6-0 in 1893.

Expenditure.—The total cost was Rs. 3,456-13-10 and the cost per patient Re. 0-6-6, against Rs. 4,715-10-6 and Re. 0-8-6 in 1894 and Rs. 4,365-2-2 and Re. 0-8-3 in 1893, respectively.

Conduct of the establishment.—Has been, with some exceptions, satisfactory.

GRANT-IN-AID DISPENSARIES.

HUBLI.—*In charge of* Assistant Surgeon D. CARDOZ.

In the years 1893 and 1894 the temporary shed which stood on the premises of the old dispensary between the towns of old and new Hubli, served the purpose of a dispensary. The shed, however, was ill-fitted for the purpose for which it was used. The floors were damp

especially during the rains, the accommodation insufficient and the roof not sufficiently high either to give sufficient cubic space for the patients or to exclude the heat. A new building has since been erected, and it was occupied on the 25th January 1895. The building, which is situated on an elevated site and in a healthy locality, is well designed, ornamental and spacious, having accommodation for 16 in-door patients. It is more intended for an hospital than a dispensary. It is in excellent state of repair, and the fittings and furniture are ample for the present requirements. The dispensary committee visited the dispensary 17 times against 14 in 1894 and 10 in 1893, and have taken a commendable interest in the welfare of the institution. The conservancy arrangements, though not excellent, are fairly good. Owing to the strengthening of the conservancy establishment, to better supervision of the work by the Inspectors and the peons, and perhaps to greater zeal and activity on the part of the municipal authorities generally, the conservancy arrangements are gradually improving, and the sanitation has benefited proportionately. The continuance of pit privies is an evil of long standing. No substitute for the pits has been yet determined upon, but it is probable that this matter will finally be disposed of, when the drainage question is considered. The present system of drainage is in a most unsatisfactory condition. The built drains are few in number and are intended for the reception and carriage of storm-water and sullage from the *moris* or bathing places. They are however so badly kept, and so ill-adapted for the purposes for which they are intended, the gradients being faulty and the beds not water-tight, that much filth accumulates therein and considerable soakage into the soil takes place. This is a source of danger to public health which nothing short of a comprehensive system of drainage, now under contemplation, can remove. In 1893 and a part of 1894 the inhabitants depended for their water-supply partly on the wells situate in the town and partly on the old water-works. The wells, which yielded potable water, being situate in the midst of dwellings, many in the proximity of cess-pits, there was much risk of percolation of foul matter into them. The old water-works however yielded a wholesome supply of water. It being, however, thought that they would not meet the demands of the rapidly increasing population, new water-works costing roundly about 5 lákhs were constructed, and since the middle of 1894 the city of Hubli has had an abundant supply of water, which is wholesome enough, but whose quality might have improved vastly, had arrangements for filtration been made. It is perceived that this will have to be done sooner or later. The total number of patients treated was 133 in-door and 21,387 out-door, against 123 and 22,818 in 1894 and 112 and 19,741 in 1893, respectively. There has not been much variation in the prevalence of diseases. Simple continued and malarial fevers, venereal, rheumatic and respiratory affections, general debility, dysentery, diarrhœa, dyspepsia, nematoda, abscess, ulcer, eczema, scabies and local injuries prevailed as usual. The years 1893 and 1895 were free from the epidemics of cholera, small-pox and influenza. In 1894 there was an outbreak of cholera, returning 160 cases with 123 deaths during the four months it lasted. Influenza also prevailed in a very mild form, there being a very few cases, none of which was fatal. There were 74 major and 985 minor surgical operations performed, against 62 and 943 in 1894 and 42 and 1,149 in 1893. There were 15 *post-mortem* examinations held, against 25 in 1894 and 16 in 1893. Vaccination is performed by the municipal vaccinator. Since the introduction of animal vaccine in 1889, the vaccination has made rapid strides, and the vaccine operations performed are yearly increasing. The Civil Surgeon, Dhárwár, inspected the dispensary twice in 1893, once in 1894 and once in 1895. The Surgeon General with the Government of Bombay, the Sanitary Commissioner for the Government of Bombay and the Deputy Sanitary Commissioner also inspected the dispensary once in each year. The amount realized under hospital stoppage rules was Rs. 961-13-0, against Rs. 1,021-5-0 in 1894 and Rs. 1,279-12-0 in 1893. The total cost was Rs. 7,875-2-7, against Rs. 5,747-7-6 in 1894 and Rs. 7,566-13-9 in 1893, the cost per patient being Re. 0-5-10, Re. 0-4-0 and Re. 0-6-1, respectively.

GADAG.—*In charge of* Assistant Surgeon T. H. AQUINO, L.M. & S.

The building is in good repair. The committee visited the dispensary nine times, against eleven times in 1894 and ten times in 1893. The sanitation of the town is fair. The water-supply is good and abundant. The total treated was 9,776 out-door and 69 in-door patients, against 11,914 and 70 in 1894 and 12,452 and 36 in 1893, respectively. The most common diseases were worms, eye, respiratory and skin affections, malarial fevers and bowel complaints. There was no epidemic. 77 major and 511 minor surgical operations were performed, against 22 and 443 in 1894 and 37 and 614 in 1893. 19 *post-mortem* examinations were held and 42 medico-legal cases reported on, against 23 and 42 in 1894 and 19 and 41 in 1893. Calf lymph introduced for vaccination is received favourably by the people. The dispensary was inspected by the Civil Surgeon, Dhárwár, and by the Surgeon-General with the Government of Bombay, once in each year. The total cost was Rs. 3,804-5-3 and the cost per patient Re. 0-6-2, against Rs. 4,629-0-11 and Re. 0-6-2 in 1894 and Rs. 5,145-5-8 and Re. 0-6-7 in 1893, respectively. The amount collected on account of hospital stoppages was Rs. 487-9-0, as compared with Rs. 380-10-0 in 1894 and Rs. 379-15-0 in 1893.

HA'VERI.—*In charge of* Second Class Hospital Assistant D. NA'RA'YENRA'O, No. 197.

The dispensary building and out-houses are in urgent need of ordinary repairs. The roof of the dead-house and other out-houses leaks badly. A few cots with tapes, clothing for in-patients and suitable pans for the latrines are wanted. The committee visited the dispensary six times. The sanitary condition of the town is fair. The water-supply, mainly from the tank, is sufficient but not good. The total treated was 5,195 out-door and 16 in-door patients, as compared with 5,340 and 20 in 1894 and 5,997 and 51 in 1893. The most common diseases were worms,

skin diseases, ague, conjunctivitis, inflammation of the ear, bowel complaints and bronchial affections. 18 cases of small-pox with no deaths and 3 cases of cholera with 1 death occurred in the town. Cholera broke out in many villages. 5 major and 131 minor surgical operations were performed against 3 and 108 in 1894 and 7 and 238 in 1893, respectively. Seventeen *post-mortem* examinations were made, and opinion given in several medico-legal cases. Vaccination is conducted by the local fund vaccinator. The dispensary was inspected by the Civil Surgeon of Dhárwár once in each year. The total cost was Rs. 1,130-14-10 and the cost per patient Re. 0-3-5, as compared with Rs. 1,500-0-1 and Re. 0-4-5 in 1894 and Rs. 1,514-6-5 and Re. 0-4-0 in 1893. The amount realised under hospital stoppage rules was Rs. 30-8-0, against Rs. 33-1-0 in 1894 and Rs. 19-10-0 in 1893.

NAVALGUND.—*In charge of* First Class Hospital Assistant LUXIMANRA'O SA'VANT, No. 125.

The building and out-houses are in good repair. Ceiling to the roof and shelves to the walls are required in the store-room. Either a compound wall or a good fencing is necessary to prevent the cattle from spoiling the dispensary compound and trees. The dispensary was visited 27 times by the committee, twice by the Collector, once by the President and once by the Vice-President. Sanitation of the town is fair. The water-supply is fairly good and sufficient. The total treated was 4,503 out-door and 31 in-door patients, against 4,312 and 28 in 1894 and 2,828 and 10 in 1893. The most common diseases were fevers, ulcers, conjunctivitis, round worms, itch, bronchitis, rheumatism and dysentery. The town was free from epidemic. 18 major and 244 minor surgical operations were performed against 13 and 162 in 1894 and 2 and 99 in 1893. Four *post-mortem* examinations were held, and opinion given in seven medico-legal cases. Vaccination is conducted by the local fund vaccinator. The dispensary was inspected by the Civil Surgeon, Dhárwár, once in each year. The total cost was Rs. 1,435-3-0 and the cost per patient Re. 0-5-0, as compared with Rs. 1,496-2-10 and Re. 0-5-6 in 1894 and Rs. 1,304-0-4 and Re. 0-7-4 in 1893, respectively. Rs. 21-12-0 were received on account of hospital stoppages, against Rs. 25-9-0 in 1894. Nothing was realized in 1893 under this head.

RA'NEBENNUR.—*In charge of* Second Class Hospital Assistant RA'MCHANDRA BA'LA'JI, No. 128.

The dispensary was opened in November 1893. The building is new and in good repair. The dispensary committee visited the dispensary 12 times, against 13 in 1894 and 14 in 1893. The sanitary condition of the town is fair. The water-supply from tanks and wells is sufficient and of good quality. The total treated was 8,108 out-door patients, as compared with 5,370 in 1894 and 5,866 in 1893. There were 9 in-door patients treated in 1893. Minor surgical operations numbered 230, against 196 in 1894 and 165 in 1893. There were 6 major surgical operations performed in 1894 only. 7 *post-mortem* examinations were held, as compared with 12 in 1894 and 8 in 1893. Dysentery, malarial fevers, worms, rheumatic affections and diseases of the nervous system, eye, ear, digestive and respiratory systems, connective tissue and skin were the most common diseases. Cholera was epidemic in 1895 and small-pox in 1893 in the town and surrounding villages. Vaccination is carried on by local fund vaccinators. The dispensary was inspected by the Civil Surgeon, Dhárwár, once every year. The total cost was Rs. 1,322-8-4 and the cost per patient Re. 0-2-7, as compared with Rs. 1,414-8-11 and Re. 0-4-2 in 1894 and Rs. 1,297-3-10 and Re. 0-3-6 in 1893, respectively. The fees under the hospital stoppage system amounted to Rs. 38-1-0, against Rs. 45-10-0 in 1894 and Rs. 4-8-0 in 1893.

NATIVE STATE DISPENSARY.

SA'VANUR.—*In charge af* Second Class Hospital Assistant DATU PA'NDURANG, No. 160.

The dispensary was opened on the 1st of August 1893. The buildings are well ventilated and spacious, having wards for in-door patients, and kept in a fair state of repair. The dispensary committee, which was appointed on the 1st of August 1894, held meetings every third month. The dispensary was visited by the Political Agent and the Assistant Political Agent of the Savanur State, and by the District Superintendent of Police and the Members of the District Local Boards, Dhárwár. The water-supply is sufficient. The total number treated was 11,125 out-door and 30 in-door patients, against 8,903 and 7 in 1894 and 2,894 and *nil* in 1893, respectively. The prevailing diseases were malarial fevers, worms, diseases of the nervous, respiratory and digestive systems and skin, ulcers and dyspepsia. Cholera prevailed in an epidemic form from May to July 1895, returning 148 cases with 52 deaths. 7 major and 178 minor surgical operations were performed, against 10 and 227 in 1894 and 4 and 65 in 1893. The total cost was Rs. 3,874-6-1 and the cost per patient Re. 0-5-6, against Rs. 5,664-12-3 and Re. 0-10-2 in 1894 and Rs. 1,987-6-3 and Re. 0-10-11 in 1893, respectively. The system of hospital stoppages was introduced on the 20th September 1894. The amount realized in 1895 was Rs. 75-0-0, against Rs. 15-7-0 for the last quarter of 1894.

BIJA'PUR COLLECTORATE.

BIJA'PUR CIVIL HOSPITAL.—*In charge of* Brigade-Surgeon-Lieutenant-Colonel C. T. PETERS, M.B.

Conservancy.—The extra-mural party of convicts are still employed in extirpating the prickly pear bushes and since 1894 in the removal of the famine weed from Government land.

but unless private individuals co-operate and work simultaneously with this view, it will be difficult to get rid of this nuisance. In the Government compounds, where the weed has been removed, the natural grass is restored. There is still immense difficulty in introducing the latrine system. There have been no additions to the public latrines which numbered 13 with 66 seats in 1892.

Water-supply.—From the Begum tank, as previously reported, water-supply is obtained for the Jumma Masjid Peth. The Asar tank is also filled with water from this source, which supplies water to the neighbourhood, when the stand-pipe near the Jumma Masjid fails towards the close of the hot weather. The water is brackish. The Torweh system supplies two wells which yield good drinking water. There are other wells scattered throughout the town which, with one or two exceptions, are liable to run dry in the hot weather.

Hospital buildings.—Are in good order. An additional block was built for the 2nd Hospital Assistant at the western end of the Hospital Assistants and Medical Pupils' quarters and it was brought into use since April 1895.

General health.—The prevalence of fever has not been so marked in 1895, but in 1893 and 1894 the epidemic was pretty general throughout the district. Cholera prevailed in an epidemic form in 1894 and was very severe in some of the tálukas. It reappeared in a mild form in 1895 after the Pandharpur fair. There were a few cases of small-pox also.

Attendance of patients.—316 in-door and 8,521 out-door patients were treated, as compared with 295 and 8,014 in 1894 and 253 and 7,883 in 1893, respectively.

Prevailing diseases.—Malarial and simple continued fevers, ascaris lumbricoides, ophthalmia, respiratory affections and skin diseases.

Surgical operations.—There were 43 major and 388 minor surgical operations against 55 and 265 in 1894 and 25 and 231 in 1893, respectively. The principal major surgical operations during the year were removal of tumours, operations on the eye and its appendages and on the urinary organs, obstetric operations, reduction of dislocation and amputations.

Mortality and its causes.—There were 15 deaths, as compared with 7 in 1894 and 9 in 1893. The chief causes were dysentery, hemiplegia, diarrhœa, pneumonia, chronic pneumonic phthisis and gastritis.

Vaccination.—Performed under the direction of the Sanitary Department.

Medico-legal cases.—40 against 36 in 1894 and 20 in 1893. Of these, 14 were *post-mortem* examinations, against 8 in 1894 and 4 in 1893.

Hospital stoppages.—Rs. 83-5-0 were realized, as compared with Rs. 47-12-0 in 1894 and Rs. 62-0-0 in 1893.

Cost.—The total cost was Rs. 2,495-8-6 against Rs. 3,320-0-5 in 1894 and Rs. 3,128-6-3 in 1893. The cost per patient averaged Re. 0-4-6 as compared with Re. 0-6-4 in 1894 and Re. 0-6-1 in 1893.

Conduct of establishment.—First Class Hospital Assistant Shaik Ahmed Patel, No. 126, as Senior Hospital Assistant, has rendered his duties efficiently and with zeal and ability. If the funds will allow, I would strongly recommend him for a local allowance of Rs. 10 per mensem, as he has to render far more responsible duties than either the Hospital Assistant at Bágalkot or Ilkal in this district, especially in looking after medico-legal cases. Third Class Hospital Assistant Manikum Subrayam, No. 275, Third Class Hospital Assistant Wáman Káshináth Goghate, No. 360, and Third Class Hospital Assistant Mahádeo Govind, No. 320, who acted as Senior Hospital Assistant during the absence of Mr. Shaik Ahmed Patel towards the early part of 1895, have been efficient in the discharge of their duties, and their conduct satisfactory.

GRANT-IN-AID DISPENSARIES.

ILKAL.—*In charge of* Third Class Hospital Assistant HARI NA'RA'YEN, No. 417.

The building is in good order. The committee visited the dispensary 4 times, against 4 in 1894 and 8 in 1893. The sanitary condition of the town is fair. The water-supply from wells and nála is good and sufficient. The total treated was 6,028 out-door and 32 in-door patients, as compared with 4,945 and 9 in 1894 and 3,924 and 6 in 1893, respectively. The most common diseases were malarial fevers, intestinal worms and eye and skin diseases. The years 1895 and 1893 were quite free from epidemics. 41 cases of cholera with 16 deaths occurred in the months of June and July 1894. 4 major and 174 minor surgical operations were performed, against 4 and 124 in 1894 and 2 and 243 in 1893. Vaccination was conducted by the táluka vaccinator. There were 3 *post-mortem* examinations held and 10 medico-legal cases reported on, against 7 and 5 in 1894 and 11 and 1 in 1893. The dispensary was inspected by the Civil Surgeon, Bijápur, once in each year. The total cost was Rs. 1,517-1-10 and the cost per patient Re. 0-4-0, as compared with Rs. 1,724-8-2 and Re. 0-5-6 in 1894 and Rs. 1,198-6-6 and Re. 0-4-10 in 1893. The amount collected under hospital stoppage rules was Rs. 16-0-0, against Rs. 17-8-0 in 1894 and Rs. 16-2-0 in 1893.

BA'GALKOT.—*In charge of first* Class Hospital Assistant CHINTA'MON SAKHA'RA'M, No. 133.

The building continues in the same state as before, only the renewal of roofs of some of the rooms was done during the year 1894, and the subject of stone paving and of ceiling and partition in the dispensary room is under contemplation. Sanitation continues to be in an unsatisfactory state. Water-supply from the river and wells in the town is of good quality and abundant. The total treated was 13,702 out-door and 43 in-door patients, as compared with 16,900 and 51 in 1894 and 14,767 and 18 in 1893. The prevailing diseases were round worms, malarious fevers, ophthalmia and diseases of the skin and digestive system. There was no epidemic in 1893 and 1895. 169 cases of cholera with 72 deaths were registered in the town of Bágalkot during 1894. There were 17 major and 282 minor surgical operations performed, against 12 and 332 in 1894 and 10 and 80 in 1893. 15 *post-mortem* examinations were held against 20 in1 894 and 16 in 1893. Vaccination is conducted by a municipal vaccinator. The dispensary was inspected by the Civil Surgeon, Bijápur, every year. The total cost was Rs. 2,047-13-9 and the cost per patient Re. 0-2-4, as compared with Rs. 2,656-8-3 and Re. 0-2-6 in 1894 and Rs. 1,856-8-2 and Re. 0-2-0 in 1893. Rs. 22-15-0 were received as hospital stoppages against Rs. 50-9-0 in 1894 and Rs. 11-15-0 in 1893.

MUDDEBIHA'L.—*In charge of* Second Class Hospital Assistant NA'RA'YEN VITHAL, No. 229.

The dispensary buildings are in a good state of repair. A female ward is much wanted. The furniture and fittings are sufficient and in good order. The committee visited the dispensary twice. The District Revenue Officers also visited it. The Sanitation Act was introduced in 1895. The sanitary condition is however far from satisfactory, though an improvement over the previous years. The main streets are kept fairly clean, but the back streets and the open space are not so well looked after, as could be desired. There is no proper drainage. Sweepings and refuge are removed by cart and sold for agricultural purposes. The water-supply from three wells only is ample and of a fair quality. General health of the population has been fairly good. There was no epidemic disease during the three years; only 27 cases of small-pox with 2 deaths occurred in 1895 in the táluka. The total treated was 3,680 out-door and 20 in-door patients, as compared with 2,908 and 32 in 1894 and 2,106 and 15 in 1893, respectively. The prevailing diseases were malarious fevers, round worms, rheumatic, skin and respiratory affections, ophthalmia, bowel complaints, ulcers and injuries. Vaccination is carried out by the táluka vaccinator. Six major and 86 minor surgical operations were performed against 3 and 79 in 1894 and *nil* and 40 in 1893, respectively. Three *post-mortem* examinations were made at the request of the Police, and 10 medico-legal cases reported on. The dispensary was inspected by the Civil Surgeon, Bijápur, once in each year. Hospital stoppages amounted to Rs. 63-0-0, against Rs. 3-14-0 in 1894 and Rs. 3-9-0 in 1893. The total cost was Rs. 1,221-12-3 and the cost per patient Re. 0-5-3 against Rs. 1,124-15-8 and Re. 0-6-1 in 1894 and Rs. 878-15-9 and Re. 0-6-7 in 1893, respectively.

BÁGEVA'DI.—*In charge of* Third Class Hospital Assistant HARI SHRINIWA'S BICHU, No. 336.

The building is in good repair. The dispensary committee visited the dispensary six times. The sanitary and conservancy arrangements are unsatisfactory. The water-supply is abundant and fairly good. The total treated was 4,483 out-door and 42 in-door patients, as compared with 2,824 and 35 in 1894 and 3,488 and 13 in 1893, respectively. The prevailing diseases were malarial fevers, intestinal worms, diseases of the eye, ear, skin and respiratory and digestive systems and local injuries. Cholera and small-pox were prevalent in the táluka. 14 major and 279 minor surgical operations were performed against 2 and 35 in 1894 and 6 and 72 in 1893, respectively. Vaccination is conducted by local fund vaccinators. Three *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, Bijápur, once in each year. The total cost was Rs. 910-0-0 and the cost per patient Re. 0-3-2, against Rs. 742-4-7 and Re. 0-4-1 in 1894 and Rs. 899-13-1 and Re. 0-4-1 in 1893, respectively. Hospital stoppages amounted to Rs. 12-7-0, as compared with Rs. 3-5-0 in 1894 and Re. 1-9-0 in 1893.

SINDGI.—*In charge of* third Class Hospital Assistant NA'RA'YAN DHONDEO, No. 261.

The buildings are in good repair. The committee visited the dispensary monthly. The sanitary condition of the town is fairly good, and the water-supply from wells good and abundant. The total treated was 2,836 out-door and 19 in-door patients, as compared with 3,005 and 16 in 1894 and 3,418 and 19 in 1893. The prevailing diseases were malarial fevers, intestinal worms, ophthalmia and diseases of the digestive and respiratory systems and skin. Small-pox and cholera were prevalent in the táluka. Two major and 54 minor surgical operations were performed against *nil* and 50 in 1894 and 2 and 55 in 1893, respectively. Vaccination is carried on by the local fund vaccinator. Two *post-mortem* examinations were held. The dispensary was inspected by the Civil Surgeon, Bijápur, once in each year. The total cost was Rs. 1,029-1-0 and the cost per patient Re. 0-5-9, as compared with Rs. 849-11-11 and Re. 0-4-6 in 1894 and Rs. 645-9-11 and Re. 0-3-0 in 1893, respectively. The fees realized on account of hospital stoppages were Re. 1-12-0 against Re. 1-13-0 in 1894 and Rs. 14-0-9 in 1893.

INDI.—*In charge of* third Class Hospital Assistant GOVIND JANA'RDHAN, No. 301.

The dispensary buildings are in good repair. Furniture and fittings are ample and in good order. An operation table and a cupboard for keeping poisonous drugs are much needed. No meeting of the dispensary committee was held during the year 1893. There were three meetings in 1894 and three in 1895. The sanitary condition of the town is unsatisfactory. The water-supply is ample and of good quality. The total treated was 7,533 out-door and 30 in-door patients

as compared with 8,049 and 42 in 1894 and 4,887 and 20 in 1893, respectively. The most common diseases were malarial fevers, worms, eye, respiratory and skin affections and bowel complaints. Cholera prevailed during the three years in Indi táluka and Indi itself, and small-pox also in 1893. The number of surgical operations was 5 major and 204 minor, as compared with 2 and 270 in 1894 and none and 89 in 1893. Two *post-mortem* examinations were held, against six in 1894 and one in 1893, and opinion was given in several medico-legal cases. The vaccination work is conducted by the local fund táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Bijápur, once in each year. The total cost was Rs. 907-0-7 and the cost per patient Re. 0-1-11, as compared with Rs. 1,012-10-5 and Re. 0-2-0 in 1894 and Rs. 1,043-14-11 and Re. 0-3-4 in 1893, respectively. Rs. 21-8-0 were received on account of hospital stoppages, against Rs. 21-6-0 in 1894 and Rs. 2-9-0 in 1893.

KOLHA'PUR AND SOUTHERN MAHRA'TTA AGENCY.

ALBERT EDWARD HOSPITAL, KOLHA'PUR.—*In charge of* Darbár Surgeon G. SINCLAIR.

Conservancy.—Receives due attention and the drainage-work is progressing satisfactorily.

Water-supply.—Quantity increased, and quality maintained.

Hospital buildings.—A handsome structure, commodious and excellent in all respects.

General health.—Cholera prevailed to some extent, rather severely in 1894. Small-pox greatly diminished. Some cases of influenza and malarial fevers.

Attendance of patients.—1,652 in-door and 42,008 out-door, against 1,605 and 43,647 in 1894 and 1,615 and 42,670 in 1893.

Prevailing diseases.—Malarial fevers, respiratory, eye, and skin affections and bowel complaints, as usual.

Surgical operations.—There were 185 major surgical operations performed, against 191 in 1894 and 149 in 1893. The most important of these were obstetric operations, removal of tumours, amputations and lithotomies. Minor surgical operations numbered 4,672, against 1,392 in 1894 and 1,348 in 1893.

Mortality.—There were 56 deaths, as compared with 56 in 1894 and 51 in 1893. The chief causes were dysentery, diarrhœa, pneumonia, malarial fevers, cholera, phthisis and pleurisy.

Vaccination.—Vaccination continues to receive e very attention. There were 6,166 primary vaccinations and 1,807 re-vaccinations during the three years, the percentage of successful primary operations being 92.

Medico-legal cases.—366 cases were referred for report, and 87 *post-mortem* examinations held at the request of the Police.

Conduct of establishment.—Satisfactory.

Cost.—The total cost was Rs. 21,844 and the cost per patient Re. 0-8-0, as compared with Rs. 20,517 and Re. 0-7-3 in 1894 and Rs. 21,690 and Re. 0-7-10 in 1893.

PRINCE OF WALES HOSPITAL, JAMKHANDI.—*In charge of* Mr. VESHNU R. KIRLOSKAR.

Conservancy.—The sanitation of the town is good.

Water-supply.—Good and abundant.

Hospital buildings—Good and well furnished.

General health—Good.

Attendance of patients.—32 in-dooor and 19,323 out-door patients, against 53 and 17,988 in 1894 and 40 and 17,661 in 1893, respectively.

Prevailing diseases.—Worms, fevers, dysentery and lung diseases.

Surgical operations.—There were 26 major and 561 minor surgical operations, as compared with 30 and 584 in 1894 and 13 and 500 in 1893, respectively.

Mortality and its causes.—There were two deaths—one from dysentery and one from diarrhœa.

Conduct of establishment.—Good.

Cost.—The total cost was Rs. 6,636-0-0 and the cost per patient Re. 0-5-5, against 6,759-1-6 and Re. 0-5-11 in 1894 and Rs. 6,160-4-6 and Re. 0-5-6 in 1893, respectively.

KOLHA'PUR CITY DISPENSARY.—*In charge of* Mr. MA'RUTI NA'NA CHAVAN.

The dispensary, since its opening, is located in a portion of the State building called Nagpurkar's Wáda, where the lower portion of the Rájárám High School is also located. There are no quarters for the Medical Officers and dispensary servants. The dispensary building is quite

unsuitable for the purpose. No additions or alterations have been made to the dispensary building. Furniture and fittings are in good order. The conservancy of the city is well carried out by the Municipality. Water-supply is good and abundant from the Kalamba tank. There was no cholera in the city during the three years, but it appeared in the surrounding district. The most common diseases were malarial fevers, worms, diseases of the digestive and respiratory systems and skin and local injuries. The total number of out-door patients treated was 24,982, as compared with 28,131 and 26,020 in 1894 and 1893, respectively. The daily average attendance was 190·2, against 197·6 in 1894 and 167·7 in 1893. There were 14 major and 663 minor surgical operations, against 6 and 536 in 1894 and 4 and 630 in 1893, respectively. The Darbár Surgeon, Kolhápur, inspected the dispensary every year. There is no dispensary committee. The dispensary is under the supervision of the Darbár Surgeon, Kolhápur. The total cost was Rs. 1,844-10-1 and the cost per patient Re. 0-1-2, as compared with Rs. 1,910-5-5 and Re. 0-1-1 in 1894 and Rs. 1,811-0-0 and Re. 0-1-1 in 1893, respectively.

GAD HINGLAJ.—*In charge of* Mr. W. G. GA'DGIL.

The dispensary building is suitable. The dispensary was visited by the officials of the State. The sanitation of the town is looked after. The water-supply is insufficient and of inferior quality, especially in hot season. The total treated was 10,274 out-door and 23 in-door patients in 1893, 10,116 and 22 in 1894, and 10,293 and 19 in 1895, respectively. The prevailing diseases were malarial fevers, worms, rheumatic and respiratory affections, ophthalmia, stomach and bowel complaints, skin diseases and injuries. There were 13 major surgical operations performed, against 12 in 1894 and 7 in 1893. Vaccination was carried out by the táluka vaccinator. Five *post-mortem* examinations were made in 1893, five in 1894 and six in 1895. The dispensary was inspected by the Darbár Surgeon, Kolhápur, in 1893 and 1894. The total cost was Rs. 1,576-10-7, the cost per patient Re. 0-2-5 in 1893, as compared with Rs. 1,337-2-8 and Re. 0-2-1 in 1894 and Rs. 1,309-11-11 and Re. 0-2-0 in 1895, respectively.

MIRAJ.—*In charge of* Mr. MAHA'DEV G. VATVE.

The dispensary building is convenient and in good repair. The furniture and fittings are sufficient and in good order. His Highness the Chief of Miraj, the Political Agent and the Assistant Political Agent of Kolhápur and Southern Mahrátta Country and the members of the dispensary committee visited the dispensary annually. The sanitary and conservancy arrangements of the town are satisfactory. The water-supply is good and plentiful. The total treated was 17,660 out-door and 58 in-door patients, against 17,306 and 58 in 1894 and 17,414 and 78 in 1893, respectively. The most common complaints were worms, skin diseases, ulcers, ophthalmia, diseases of the respiratory and digestive systems and local injuries. There was no epidemic in 1895 and 1893; influenza of a mild type prevailed in February 1894. There were 32 major surgical operations performed, as compared with 10 in 1894 and 12 in 1893. Opinion was given in 56 medico-legal cases and 4 *post-mortem* examinations were held, against 35 and 4 in 1894 and 37 and 11 in 1893. Vaccination is conducted by the State vaccinator. The dispensary was inspected by the Civil Surgeon, Belgaum, and the Darbár Surgeon, Kolhápur, once in each year. The total cost was Rs. 3,945-8-9 and the cost per patient Re. 0-3-6, as compared with Rs. 3,806-14-3 and Re. 0-3-6 in 1894 and Rs. 3,822-1-6 and Re. 0-3-5 in 1893, respectively.

MUDHOL.—*In charge of* Mr. S. C. PASCAL, L.M. & S.

The dispensary building, which underwent new additions and other necessary alterations in the year 1893, is now quite suitable for the purpose, and is situated in a convenient and healthy locality. Furniture and fittings are sufficient and in good condition. The dispensary was visited by the Political Agent and the Assistant Political Agent, and inspected by the Darbár Surgeon of Kolhápur every year. Conservancy of the town is well attended to, and water-supply good and abundant. The total number treated was 9 in-door and 15,082 out-door patients, against 14 and 15,886 in 1894 and 5 and 19,362 in 1893, respectively. The most common diseases were intestinal worms, conjunctivitis, malarial fevers, diseases of the skin, stomach and intestines, rheumatism and respiratory affections. There were 12 major and 195 minor surgical operations performed, against 12 and 195 in 1894 and 7 and 232 in 1893. Six *post-mortem* examinations were made and 41 medico-legal cases were referred to for examination and report. The total cost was Rs. 3,650-12-3 and the cost per patient Re. 0-3-10, as compared with Rs. 5,163-5-10 and Re. 0-5-2 in 1894 and Rs. 3,339-15-7 and Re. 0-2-9 in 1893, respectively.

MALKA'PUR.—*In charge of* Mr. GOPA'L KRISHNA GUNE.

Conservancy is improving since the establishment of the Municipality in 1885. Water-supply is good throughout the year, except in summer, when it is bad and scanty. The dispensary is located in a building specially erected for the purpose. The servants' quarters are under consideration. Furniture and fittings are complete. 28 in-door and 9,200 out-door patients were treated, against 24 and 8,854 in 1894 and 25 and 10,255 in 1893, respectively. The prevailing diseases were malarial fevers, animal parasites, diseases of the nervous system, bowel complaints and skin affections. In 1894 and 1895 cholera prevailed in the town and the surrounding district, returning 182 cases with 105 deaths in 1894 and 75 cases and 33 deaths in 1895. There were 17 major and 134 minor surgical operations, against 11 and 159 in 1894 and 21 and 197 in 1893, respectively. Three *post-mortem* examinations were performed, and opinion was given in

20 medico-legal cases, as compared with *nil* and 10 in 1894 and 1 and 22 in 1893. The total cost was Rs. 1,320-11-3 and the cost per patient Re. 0-2-3, as compared with Rs. 1,603-14-1 and Re. 0-2-10 in 1894 and Rs. 1,601-4-5 and Re. 0-2-5 in 1893, respectively.

RA'MDURG.—*In charge of* Mr. VA'SUDEV V. CHHATRE, L.M. & S.

The dispensary buildings are undergoing repairs. Furniture and fittings are sufficient. The dispensary was frequently visited and inspected by the State and Darbár Kárbháris of Rámdurg. The sanitary and conservancy arrangements, though pretty good, require improvements. The water-supply is good and abundant, but liable to contamination. The total treated was 8,234 out-door and 29 in-door patients, as compared with 8,926 and 35 in 1894 and 8,940 and 25 in 1893, respectively. The most common diseases were malarial fevers, round worms, bronchitis, conjunctivitis and scabies. Influenza prevailed in January, February, November and December. 25 major and 296 minor surgical operations were performed against 13 and 287 in 1894 and 25 and 313 in 1893, respectively. Vaccination was carried out by the State vaccinator. Three *post-mortem* examinations were performed, and opinion was given in several medico-legal cases. The total cost was Rs. 2,789-0-9 and the cost per patient Re. 0-5-4, as compared with Rs. 3,419-12-5 and Re. 0-6-1 in 1894 and Rs. 2,897-7-11 and Re. 0-5-2 in 1893, respectively.

KA'GAL.—*In charge of* Mr. NARSU LINGU DAGEY.

Conservancy is well attended to. Water-supply is good and sufficient. The dispensary building is quite airy and commodious with wards for in-door patients, both males and females, and is in good repair. The total treated was 7 in-door and 8,116 out-door patients, as compared with 7 and 7,690 in 1894 and 18 and 6,909 in 1893, respectively. The prevailing diseases were ague, bronchitis, dysentery, dyspepsia, intestinal worms and diseases of the eye, ear and skin. There was no cholera in 1893 and 1895. There were 238 cases of cholera with 108 deaths in 1894, and measles prevailed to a slight extent in 1895. There were 5 major and 87 minor surgical operations, against 3 and 38 in 1894 and 11 and 47 in 1893, respectively. The total cost was Rs. 1,730-7-10 and the cost per patient Re. 0-3-4, against Rs. 1,518-2-4 and Re. 0-3-1 in 1894 and Rs. 1,800-10-4 and Re. 0-4-1 in 1893, respectively.

AJRA.—*In charge of* Mr. SADA'SHIV BHAGAWANT.

The dispensary building is in good repair, and the furniture sufficient and in good order. There is no dispensary committee, but the State officials visit the dispensary frequently. The sanitary and conservancy arrangements are not in a satisfactory condition, there being no municipal committee. The water-supply from wells is good and abundant, but liable to contamination by soakage. The total treated was 5,853 out-door and 20 in-door patients, as compaired with 5,408 and 9 in 1894 and 5,889 and 25 in 1893, respectively. The most common diseases were malarial fevers, worms, ophthalmia, rheumatism and diseases of the respiratory and digestive systems and skin. Cholera prevailed in a mild form in the months of October, November and December, attacking 36 persons and causing 18 deaths. 6 major and 235 minor surgical operations were performed, as compared with 1 and 131 in 1894 and 9 and 211 in 1893, respectively. Vaccination is carried on by the State vaccinator. Four *post-mortem* examinations were performed. The dispensary was inspected by the Kárbhári of Inchalkaranji State. The total cost was Rs. 1,137-15-9 and the cost per patient Re. 0-3-1, as compared with Rs. 1,267-7-1 and Re. 0-3-8 in 1894 and Rs. 786-9-11 and Re. 0-2-1 in 1893, respectively.

GARGOTI.—*In charge of* Mr. R. Y. DHANAWDE.

The dispensary building is suitable and in good repair. The furniture and fittings are complete and in good order. Water-supply is abundant and of a fair quality. Sanitation is well attended to. There is no dispensary committee, but the officers of the State visit the dispensary occasionally. The total treated was 8,613 out-door and 23 in-door patients, as compared with 9,559 and 30 in 1894 and 8,122 and 39 in 1893, respectively. The most common complaints were malarial fevers, intestinal worms, rheumatic and respiratory affections, ophthalmia, stomach and bowel complaints and skin diseases. Cholera and small-pox, both of a mild type, prevailed in 1894 and 1893 in a few villages of this táluka. 15 major and 128 minor surgical operations were performed, against 22 and 125 in 1894 and 10 and 154 in 1893, respectively. 5 dead bodies were examined and opinion was given in 15 criminal cases, against 2 and 13 in 1894 and 2 and 9 in 1893. The dispensary was inspected by the Darbár Surgeon, Kolhápur, in 1894. Vaccination is performed by the táluka vaccinator. The total cost was Rs. 1,187-8-2 and the cost per patient Re. 0-2-2, against Rs. 1,204-2-11 and Re. 0-2-0 in 1894 and Rs. 1,347-4-1 and Re. 0-2-7 in 1893, respectively.

LAKSHMESHVAR.—*In charge of* Mr. D. K. MAINDERGI.

The dispensary building is in excellent repair. The furniture is sufficient and in good order. The members of the committee did not meet during the year. The conservancy arrangements are well attended to by the Municipality. The water-supply is abundant. The total number of patients treated was 6,836 out-door and 10 in-door in 1893, 7,687 out-door and 3 in-door in 1894 and 9,398 out-door and 4 in-door in 1895. The prevailing diseases were worms, malarial fevers, diseases of the eye, skin and digestive system, ulcers and local injuries. The town was free from epidemic during the three years. There were 2 major and 175 minor

surgical operations performed in 1893, against 4 and 137 in 1894 and 5 and 303 in 1895. Opinion was given in 16 medico-legal cases at the request of the Police, against 12 in 1894 and 11 in 1893. Vaccination is performed by the State vaccinator. The dispensary was inspected by the Deputy Sanitary Commissioner, the Assistant Political Agent and other State authorities. The total cost was Rs. 1,616-5-3 and the cost per patient Re. 0-2-10, against Rs. 1,969-8-10 and Re. 0-4-1 in 1894 and Rs. 1,732-9-11 and Re. 0-4-0 in 1893, respectively.

RA'YBA'G.—*In charge of* Mr. S. B. BHAGWAT.

Conservancy arrangements are not satisfactory. The dispensary building is in good repair. Furniture and fittings are sufficient and in good order. Water-supply is good and abundant. The total treated was 4 in-door and 5,420 out-door patients, as compared with 5 and 5,725 in 1894 and 9 and 6,081 in 1893, respectively. Cholera appeared to a slight extent in 1895, but not in 1894 and 1893. The prevailing diseases were malarial fevers, intestinal worms, eye and ear affections, diseases of the nervous, digestive and cutaneous systems and local injuries. There were 3 major and 262 minor surgical operations, against *nil* and 320 in 1894 and 2 and 296 in 1893. Three dead bodies were examined and opinion given in 10 medico-legal cases, against 1 and 9 in 1894 and 5 and 17 in 1893. The total cost was Rs. 1,174-2-1 and the cost per patient Re. 0-3-5, against Rs. 1,245-2-9 and Re. 0-3-5 in 1894 and Rs. 1,358-10-2 and Re. 0-3-6 in 1893, respectively.

SHIROL.—*In charge of* Mr. D. R. SA'THE.

The dispensary was removed into the new buildings in December 1893, which were specially erected for the purpose. The furniture and fittings are sufficient and in good order. There is no dispensary committee, but the State officials visit the dispensary frequently. The conservancy arrangements are good. The water-supply is obtained from a well and the river Panchganga, which is one mile distant from the town, and is fair in quality. The total treated was 8,610 out-door and 37 in-door patients, as compared with 7,376 and 19 in 1894 and 8,101 and 10 in 1893, respectively. The most common diseases were malarial fevers, worms, rheumatism, ophthalmia and diseases of the respiratory and digestive systems and skin. There were 9 major and 291 minor surgical operations performed, against 7 and 260 in 1894 and 2 and 142 in 1893, respectively. Five *post-mortem* examinations were made. The dispensary was inspected by the Darbár Surgeon and visited by His Highness the Mahárája of Kolhápur. The total cost was Rs. 1,402-0-0 and the cost per patient Re. 0-2-7, against Rs. 1,338-5-4 and Re. 0-2-10 in 1894 and Rs. 1,230-8-11 and Re. 0-2-5 in 1893, respectively.

KATKOL.—*In charge of* Mr. J. S. TALPATI.

The dispensary building is convenient and in good repair. The furniture and fittings are sufficient and in good order. The State officials visit the dispensary occasionally. The sanitary condition of the town is good; the water-supply good and abundant. The total number of patients treated was 6,170 out-door and 14 in-door, as compared with 7,330 and 16 in 1894 and 6,515 and 9 in 1893, respectively. The prevailing diseases were malarial fevers, intestinal worms, diseases of the eye, respiratory and digestive systems and skin and local injuries. 4 major and 328 minor surgical operations were performed against 3 and 374 in 1894 and 2 and 199 in 1893, respectively. One *post-mortem* examination was made and opinion given on several medico-legal cases. Vaccination is carried out by the State vaccinator. The total cost was Rs. 1,191-6-8 and the cost per patient Re. 0-3-0, as compared with Rs. 1,283-4-1 and Re. 0-2-9 in 1894 and Rs. 1,137-11-9 and Re. 0-2-9 in 1893.

INCHALKARANJI.—*In charge of* Mr. V. B. JOSHI.

The dispensary building answers the purpose. Furniture and fittings are sufficient and in good order. The dispensary was inspected at the request of the Chief of Inchalkaranji by the Darbár Surgeon, Kolhápur. The sanitary and conservancy arrangements are good. Water-supply is good and plentiful. The total treated was 10,357 out-door and 5 in-door patients, as compared with 12,889 and 9 in 1894 and 10,584 and 11 in 1893. The most common diseases were malarial fevers, worms, ophthalmia and diseases of the respiratory and digestive systems and skin. There were 11 cases of cholera with 4 deaths. There were 8 major and 356 minor surgical operations performed against 8 and 356 in 1894 and 7 and 270 in 1893, respectively. Vaccination is carried out by the State vaccinators. Opinion was given on 4 medico-legal cases. The total cost was Rs. 1,444-8-0 and the cost per patient Re. 0-2-2, as compared with Rs. 1,546-8-9 and Re. 0-1-11 in 1894 and Rs. 1,314-13-8 and Re. 0-1-11 in 1893, respectively.

SUREBAN.—*In charge of* Mr. POCHA'TI HIRA'PA.

The dispensary building is in good repair. The dispensary was visited by the State Kárbhári of Rámdurg. The sanitary and conservancy arrangements are fair. The water-supply is good and abundant. The total treated was 3,810 out-door patients, as compared with 3,522 in 1894 and 3,539 in 1893. The most common diseases were malarial fevers, ulcers, dyspepsia, conjunctivits, diarrhœa, ringworm, scabies, hemicrania and intestinal worms. There were 3 major and 58 minor surgical operations performed. Vaccination is carried on by the State vaccinator. The dispensary was inspected by the Medical Officer of Rámdurg in January 1895. The total cost was Rs. 577-3-10 and the cost per patient Re. 0-2-5, as compared with Rs. 600-7-4 and Re. 0-2-8 in 1894 and Rs. 555-13-2 and Re. 0-2-6 in 1893, respectively.

GADGERI.—*In charge of* Mr. S. A. JOSHI.

The dispensary building is in good repair. Furniture and fittings are sufficient. The conservancy is well looked after by the Municipality. The water-supply is ample, but liable to pollution. The total treated was 3,916 out-door patients as compared with 4,153 in 1894, and 3,839 in 1893. The most common complaints were, as usual, ague, worms, ophthalmia and skin affections. Cholera prevailed in a mild form in the vicinity. There were 12 minor surgical operations performed against 12 in 1894 and 8 in 1893. The dispensary was inspected by the State Kárbhári. The total cost was Rs. 851-14-6 and the cost per patient Re. 0-3-5, as compared with Rs. 1,109-6-8 and Re. 0-4-3 in 1894 and Rs. 996-10-0 and Re. 0-4-1 in 1893, respectively.

BUDGAON.—*In charge of* Mr. V. V. GOKHALE.

The dispensary buildings are in good condition. Furniture and fittings are sufficient. The members of the dispensary committee visited the dispensary frequently. The sanitary condition is good. Water-supply is good and abundant. The total treated was 8,430 out-door patients, as compared with 5,921 in 1894 and 6,160 in 1893. The prevailing diseases were worms, conjunctivitis and diseases of the skin and respiratory and digestive systems. There was no epidemic, but a few cases of cholera occurred in the vicinity of the town. There were 4 major surgical operations against 6 in 1894. Vaccination is carried out by the State vaccinator. 5 *post-mortem* examinations were made and opinion was given in 14 medico-legal cases, as compared with 5 and 18 in 1894 and 8 and 19 in 1893, respectively. The Darbár Surgeon and the Assistant Political Agent, Kolhápur, inspected the dispensary. The total cost was Rs. 1,371-0-1 and the cost per patient Re. 0-2-7, against Rs. 1,755-2-3 and Re. 0-4-8 in 1894 and Rs. 1,818-8-5 and Re. 0-4-8 in 1893, respectively.

VADGAON.—*In charge of* Mr. NÁRA'YAN PRALHA'D BHURE.

The dispensary building is in good order. Funiture and fittings are sufficient. Conservancy arrangements are good. The water-supply is not good. The total number of patients treated was 8,579 out-door, as compared with 9,740 in 1894 and 7,555 in 1893. There were also 3 in-door patients treated in 1895. The most common diseases were malarial fevers, conjunctivitis, worms, rheumatic and skin affections and diseases of the respiratory and nervous systems. Cholera was prevalent in 1894 and 1893 and not in 1895. There were 10 major and 282 minor surgical operations, against 3 and 299 in 1894 and 2 and 436 in 1893. 5 *post-mortem* examinations were held and opinion was given in 15 medico-legal cases, as compared with 4 and 3 in 1894 and 1 and 5 in 1893. The total cost was Rs. 1,342-13-4 and the cost per patient Re. 0-2-6, against Rs. 1,164-9-10 and Re. 0-1-10 in 1894 and Rs. 1,304-7-4 and Re. 0-2-9 in 1893, respectively.

KA'PSI.—*In charge of* Mr. SHIVRA'M BA'PUJI VAKHA'RKAR.

The dispensary building is well suited for the purpose, but there is neither accommodation for the Medical Officer, nor for servants. Furniture and fittings are complete. Water-supply is good and abundant. Sanitation is not properly looked after. The total treated was 9 in-door and 7,296 out-door patients, as compared with 14 and 6,294 in 1894 and 7 and 6,143 in 1893, respectively. The prevailing diseases were malarial fevers, worms, rheumatic affections, diseases of respiratory and digestive systems and local injuries. Cholera broke out in October and November 1895, but the years 1893 and 1894 were free from this epidemic. 4 major and 143 minor surgical operations were performed against 4 and 124 in 1894 and 8 and 133 in 1893. Two *post-mortem* examinations were held and opinion given in 16 medico-legal cases, against 4 and 17 in 1894 and *nil* and 9 in 1893. The total cost was Rs. 938-10-4 and the cost per patient Re. 0-2-0, as compared with Rs. 1,116-2-4 and Re. 0-2-9 in 1894 and Rs. 1,018-3-7 and Re. 0-2-7 in 1893, respectively.

PANHA'LA.—*In charge of* Mr. C. R. OAK.

The dispensary building is in good repair. Furniture and fittings are sufficient and in good order. The conservancy of the town is good. The water-supply is good and sufficient. There were 2 in-door and 8,542 out-door patients treated, as compared with 15 and 9,158 in 1894 and 33 and 7,173 in 1893, respectively. The most common diseases were malarial fevers, respiratory and skin affections, dyspepsia and worms. There were 5 major and 179 minor surgical operations performed, against 5 and 210 in 1894 and 2 and 214 in 1893. 4 dead bodies were examined and opinion given in 13 medico-legal cases, as compared with 5 and 18 in 1894 and 5 and 9 in 1893. Vaccination is conducted by the State vaccinator. The total cost was Rs. 1,381-5-10 and the cost per patient Re. 0-2-7, against Rs. 1,278-2-8 and Re. 0-2-2 in 1894 and Rs. 1,449-9-2 and Re. 0-3-2-in 1893, respectively.

MODNIMB.—*In charge of* Mr. SHIVRA'M LINGUJI.

The dispensary was removed to the new building on the 23rd July 1891, which is suitable, The furniture and fittings are sufficient and in good order. There is no dispensary committee. but the State officials visit the dispensary occasionally. The sanitary condition of the town is well attended to. The water-supply is good and abundant. The prevailing diseases were simple and malarial fevers, bronchial affections, ophthalmia, diarrhœa, dysentery, worms and skin diseases. There was no epidemic. The total treated was 5,767 out-door and 4 in-door patients and the daily

average 50·9, as compared with 6,134 and 9 and 48·8 in 1894 and 4,703 and 2 and 35·1 in 1893, respectively. There were 112 minor surgical operations, against 81 in 1894 and 79 in 1893. The dispensary was inspected by the Chief of Miraj and State officials. Vaccination is performed by the State vaccinator. 2 *post-mortem* examinations were held, or the same as in 1894. The total cost was Rs. 1,225-8-8 and the cost per patient Re. 0-3-4, as compared with Rs. 1,268-13-4 and Re. 0-3-3 in 1894 and Rs. 1,947-0-1 and Re. 0-6-7 in 1893, respectively.

MAINDARGI.—*In charge of* Mr. JANA'RDHAN KRISHNA.

The dispensary building is commodious. A dead-house is wanted. There is no dispensary committee. The total treated was 7,776 out-door patients, as compared with 6,781 in 1894 and 6,789 in 1893. There were 120 minor surgical operations performed, against 87 in 1894 and 93 in 1893. The most common diseases were ague, bronchitis, worms and conjunctivitis. There was no epidemic. The total cost was Rs. 554-6-9 and the cost per patient Re. 0-1-1, as compared with Rs. 701-3-9 and Re. 0-1-7 in 1894 and Rs. 695-15-0 and Re. 0-1-7 in 1893, respectively.

MAHA'LINGPUR.—*In charge of* Mr. N. K. SHIROL.

The dispensary building is quite suitable for the purpose and is situated in a convenient locality. Furniture and fittings are sufficient and in good condition. The dispensary was visited by the Political Agent and the Assistant Political Agent, and was inspected by the Darbár Surgeon of Kolháp ur and the Chief Medical Officer of the Mudhol State. Conservancy of the town is well attended to, and water-supply is good. The total treated was 7,827 out-door patients, as compared with 7,791 in 1894 and 10,068 in 1893. The most common diseases were intestinal worms, conjunctivitis, skin and respiratory affections, malarial fevers, and bowel complaints. There were 3 major and 109 minor surgical operations performed. All medico-legal cases were submitted to the Chief Medical Officer. The total cost was Rs. 921-14-10 and the cost per patient Re. 0-1-10, against Rs. 991-15-7 and Re. 0-2-0 in 1894 and Rs. 1,015-12-9 and Re. 0-1-7 in 1893, respectively.

KURUNDVA'D.—*In charge of* Mr. S. V. MUDLIA'R.

The dispensary building is suitable for out-door patients, and it is in contemplation to provide accommodation for in-door patients. The dispensary was visited by the Chief, the State Karbhári and the Darbár Surgeon of Kolháp ur. The sanitary condition of the town is fair. The water-supply is deficient. The total treated was 4,945 out-door and 4 in-door patients, against 4,662 and 2 in 1894 and 4,547 and 1 in 1893, respectively. The most common diseases were malarial fevers, diseases of the bronchial tubes, skin and digestive system and injuries. Seven major surgical operations were performed, against 3 in 1894 and 1 in 1893. Vaccination is conducted by the State vaccinators. The total cost was Rs. 2,145-6-0 and the cost per patient Re. 0-6-11, against Rs. 2,448-8-3 and Re. 0-8-4 in 1894 and Rs. 2,503-4-6 and Re. 0-8-9 in 1893, respectively.

TIKOTA.—*In charge of* Mr. H. B. JATKAR.

The buildings are in good repair. Furniture and fittings are sufficient and in good order. The dispensary was visited by the Assistant Political Agent of Kolháp ur and the Collector of Bijápur in 1894 and by His Highness Bála Sáheb, the Chief of Kurundvád, in 1895. The sanitary and conservancy arrangements are good. The water-supply from wells is good and abundant. The total number of out-door patients treated was 1,343, as compared with 1,375 in 1894 and 1,375 in 1893. The most common diseases were malarial fevers, round worms, bronchitis and skin diseases. There were at Hurnall, one of the suburban villages of Tikota, 4 cases of cholera with 1 death in 1893, and 27 cases at Ratnápur with 12 deaths in 1894. One major and 34 minor surgical operations were performed, as compared with 3 and 50 in 1894 and *nil* and 70 in 1893, respectively. Vaccination is carried on by the State vaccinator. The total cost was Rs. 358-2-0 and the cost per patient Re. 0-4-3, as compared with Rs. 421-2-0 and Re. 0-4-10 in 1894 and Rs. 385-15-0 and Re. 0-4-5 in 1893, respectively.

SA'NGLI.—*In charge of* MR. Y. P. GODAMBE, L.M.

The dispensary building is in good repair. The furniture and fittings are sufficient and in good order. The water-supply is obtained from the river Krishna and the new water-works. The distribution of the new supply is in progress and will be shortly completed. The sanitary and conservancy arrangements of the town are fair. There is no regular dispensary committee. The dispensary was visited by the Political Agent and the Assistant Political Agent, Kolháp ur. The total treated was 11,962 out-door and 1 in-door patients, as compared with 10,304 and *nil* in 1894 and 9,287 and 1 in 1893, respectively. The most common complaints were worms, skin diseases, diarrhœa, dysentery and malarial fevers. 9 major and 155 minor surgical operations were performed, as compared with 2 and 182 in 1894 and *nil* and 198 in 1893, respectively. 7 *post-mortem* examinations were made and opinion given in 18 medico-legal cases. Vaccination is conducted by the State vaccinator. The total cost was Rs. 5,799-11-4 and the cost per patient Re. 0-7-9, as compared with Rs. 5,595-11-11 and Re. 0-8-8 in 1894 and Rs. 5,261-15-11 and Re. 0-9-0 in 1893, respectively.

MANGALVEDHA.—*In charge of* Mr. BA'BAJI BHUMKER.

The dispensary building is convenient and in good repair. The furniture and fittings are sufficient and in good order. His Highness the Chief of Sángli and the Collector of Sholápur visited the dispensary. The sanitary and conservancy arrangements of the town are good.

The water-supply is good and plentiful. The total number of out-door patients during the years 1895, 1894 and 1893 was, respectively, 10,491, 11,931 and 9,024. There were no in-door patients in 1895 and 1894, while there was one in 1893. The most common complaints were worms, skin diseases, eye affections and malarious fevers. The town was free from epidemic. There were 2 major surgical operations performed in 1895. Minor surgical operations numbered 137, against 167 in 1894 and 126 in 1893. Opinion was given in 5 medico-legal cases and 3 *post-mortem* examinations were made, against 5 and 2 in 1894 and 6 and 5 in 1893, respectively. Vaccination is conducted by the State vaccinator. The dispensary was inspected by the Chief Medical Officer. The total cost was Rs. 1,286-4-3 and the cost per patient Re. 0-1-11, as compared with Rs. 1,294-12-0 and Re. 0-1-9 in 1894 and Rs. 1,146-11-7 and Re. 0-2-0 in 1893, respectively.

SHA'HPORE.—*In charge of* Mr. T. V. MUDLIA'R.

The building is small and not sufficient for the present wants. More furniture is wanted. There is no special committee, but the municipal members visit the dispensary. Pit privy system is prevalent in the town. The water-supply is deficient. The total number of out-door patients was 11,905, against 11,758 in 1894 and 11,697 in 1893. The most common diseases were fevers, conjunctivitis, bowel and lung affections and skin diseases. Small-pox was prevalent in 1895 and 1893, and cholera in 1894. 14 *post-mortem* examinations were held and opinion given in 15 medico-legal cases, against 7 and 21 in 1894 and 9 and 27 in 1893, respectively. Four major surgical operations were performed. Vaccination was conducted by the State vaccinator. The total cost was Rs. 3,340-5-2 and the cost per patient Re. 0-4-5, against Rs. 3,604-11-10 and Re. 0-4-10 in 1894 and Rs. 3,701-3-4 and Re. 0-5-0 in 1893, respectively.

SHIRHATTI.—*In charge of* Mr. RAGHVENDRA RANGRAO JANGI.

The dispensary building is in good repair. Furniture and fittings are not ample. The sanitary arrangements of the town are satisfactory. The water-supply is good. The total number of out-door patients treated was 6,561 against 7,608 in 1894 and 6,653 in 1893. One in-door patient was treated in 1894. The prevailing diseases were malarial fevers, conjunctivitis, worms, skin diseases and local injuries. Cholera was prevalent in some parts of the táluka. The dispensary was visited by the State Kárbhári of Sángli and by the Deputy Sanitary Commissioner during 1895. Ten *post-mortem* examinations were made and opinion given in several medico-legal cases. The total cost was Rs. 925-11-2 and the cost per patient Re. 0-2-3, as compared with Rs. 1,105-4-10 and Re. 0-2-3 in 1894 and Rs. 1,194-2-0 and Re. 0-2-10 in 1893, respectively.

TERDAL.—*In charge of* Mr. V. V. PATWARDHAN.

The building is repaired every year. Furniture is sufficient. The dispensary was visited by the Chief and the Kárbhári of Sángli and the Political Agent, Southern Mahrátta Country. The sanitary and conservancy arrangements are fair. The water-supply is abundant. The total treated was 5,069 out-door patients as compared with 5,135 in 1894 and 3,615 in 1893. The most common diseases were malarial fevers, worms, rheumatism, conjunctivitis, diseases of the respiratory, nervous and digestive systems and skin and injuries. Cholera prevailed in July and August 1894. There were 1 major and 171 minor surgical operations performed against 1 and 78 in 1894 and 4 and 142 in 1893, respectively. Vaccination is carried on by the State vaccinator. The total cost was Rs. 1,002-3-1 and the cost per patient Re. 0-3-1, as compared with Rs. 806-0-0 and Re. 0-2-6 in 1894 and Rs. 837-0-0 and Re. 0-3-8 in 1893, respectively.

JATH.—*In charge of* Mr. PARUSHRAMSWA'MY.

The present dispensary building is old and unsuitable for the purpose, but a new one is shortly to be erected. The dispensary committee met once during the year. The sanitation of the town is satisfactory. The water-supply from streams and wells is good and sufficient. The total treated was 16,484 out-door patients as compared with 9,499 in 1894 and 9,405 in 1893. Two in-door patients were treated in 1893. The prevailing diseases were bowel complaints, ophthalmia, malarial fevers and rheumatic and respiratory affections. There was no epidemic in the town, but cholera prevailed in some of the surrounding villages. There were 7 major and 83 minor surgical operations performed. The dispensary was inspected by the Administrator of Jath and the Darbár Surgeon of Kolhápur once in each year. The total cost was Rs. 1,462-2-6 and the cost per patient Re. 0-1-5, as compared with Rs. 983-8-4 and Re. 0-1-7 in 1894 and Rs. 1,706-11-0 and Re. 0-2-10 in 1893, respectively.

KAVATHA MAHANKAL.—*In charge of* Mr. NA'RA'YEN SAKHA'RA'M WAIDYA.

The dispensary is situated on an elevated site just near the town. The dispensary building is in a good state of repair. Furniture and fittings are sufficient and in good order. The dispensary was visited by the Assistant Political Agent, Southern Mahratta Country, by the Medical Officer of Miraj State and by the Administrator of Jath State. The sanitary condition of the town is good. The water-supply from a brook is good and abundant. The total number of out-door patients treated was 7,392 against 5,239 in 1894 and 6,256 in 1893. The most common diseases were malarial fevers and diseases of the digestive and respiratory systems and skin.

Cholera was epidemic to a slight extent in some villages of the táluka. 79 minor surgical operations were performed. Two *post-mortem* examinations were made against four in 1894 and seven in 1893. Opinion was given in 3 medico-legal cases. Vaccination is carried out by the State vaccinator. The total cost was Rs. 693-4-2 and the cost per patient Re. 0-1-6 against Rs. 748-5-3 and Re. 0-2-3 in 1894 and Rs. 702-3-6 and Re. 0-1-9 in 1893, respectively.

BANHATTI.—*In charge of* Mr. P. V. GOKHALE.

The dispensary building, a new one, is convenient and in good repair. The officials of the Jamkhandi State visit the dispensary occasionally. The sanitation of the town is good. The water-supply is good and plentiful except in summer. The total treated was 5,656 out-door patients as compared with 6,400 in 1894 and 6,877 in 1893. The most common diseases were malarial fevers, animal parasites, ophthalmia, otorrhœa, bowel complaints, skin affections and diseases of the respiratory and nervous systems. There was no epidemic. 132 minor surgical operations were performed against 134 in 1894 and 163 in 1893. Opinion was given in one medico-legal case. The dispensary was inspected by the State Surgeon. The total cost was Rs. 777-0-0 and the cost per patient Re. 0-2-2, against Rs. 752-0-0 and Re. 0-1-10 in 1894 and Rs. 718-0-0 and Re. 0-1-1 in 1893, respectively.

SAVÁLGI.—*In charge of* Mr. BÁLÁJI RA'MCHANDRA MUTA'LIC DESAI.

The present dispensary building, though a small one, is kept clean and in good repair. The construction of a new building is in contemplation. Furniture and fittings are sufficient and in good order. The sanitary condition of the town and district is satisfactory. Water-supply from wells and a rivulet is good and abundant. There is no dispensary committee, but the Police Inspector of the State, the Postal Inspector of Bijápur and the Abkári Inspector and the District Deputy Collector of Belgaum visited the dispensary. The total treated was 5,225 out-door and 15 in-door patients as compared with 5,140 and 26 in 1894 and 3,366 and 23 in 1893, respectively. The prevailing diseases were worms, malarial fevers and diseases of the respiratory and digestive systems, eye and skin. There were 8 major and 290 minor surgical operations performed against 7 and 323 in 1894 and 12 and 290 in 1893, respectively. Opinion was given in 7 assault cases as compared with 8 in 1894 and 5 cases of assault, 1 of abortion and one of murder in 1893. Vaccination is carried out by the State vaccinator. The dispensary was inspected by the Chief Medical Officer of the Jamkhandi State. The total cost was Rs. 828-4-10 and the cost per patient Re. 0-2-6, as compared with Rs. 745-14-3 and Re. 0-2-3 in 1894 and Rs. 765-11-9 and Re. 0-3-7 in 1893, respectively.

KUNDGOL.—*In charge of* Mr. JAGANNA'TH HARI.

The dispensary building is situated on a high ground and is in good repair. The dispensary is well supplied with the necessary furniture. The sanitary condition of the town is good; water-supply from tanks and wells is good, though scanty. The total treated was 4,995 out-door patients against 5,445 out-door and 2 in-door patients in 1894 and 5,313 out-door and 1 in-door in 1893. The most common diseases were malarial fevers, bronchial, skin, eye and rheumatic affections, dyspepsia and worms. There was no epidemic. 226 minor surgical operations were performed against 197 in 1894 and 82 in 1893. Opinion was given in 13 medico-legal cases against 9 in 1894 and 11 in 1893. 1 *post-mortem* examination was held against 1 in 1894 and 2 in 1893. Vaccination is carried out by the State vaccinator. The dispensary was inspected by the Assistant Political Agent, Southern Mahrátta Country, and by the State Kárbhári of Jamkhandi. The total cost was Rs. 1,584-0-0 and the cost per patient Re. 0-5-0.

UMDI.—*In charge of* Mr. GOVIND GOPA'L.

The dispensary was opened in March 1895 in a chávdi which is kept in good repair. It is in contemplation to erect a new dispensary. The sanitary condition of the town is fair. The water-supply from a brook is good. The total treated was 3,936 out-door patients and the daily average attendance 33·6. The most common diseases were malarial fevers and rheumatic, eye, ear, skin and respiratory affections. There was no cholera in the town or its vicinity. The total cost was Rs. 2,069-13-2 and the cost per patient Re. 0-8-4.

GUJARA'T.

SURAT COLLECTORATE.

SIR COWASJI JEHA'NGIR CIVIL HOSPITAL, SURAT.—*In charge of* Surgeon-Major K. S. NARIMAN.

Conservancy.—The conservancy of the hospital is well attended to; that of the city has been gradually improving. The number of objectionable well privies are annually decreasing and that of open privies increasing.

Water-supply.—Abundant, from wells which are almost all brackish, from river, which is subject to tidal influences, and from under-ground masonry tanks in which rain water is stored up. The question of supplying the city with pure water from the River Tápti at Warácha has been decided upon by the Municipality, and steps are now being taken to devise means to meet the expenditure on the scheme, which is estimated to cost about seven or eight lacs.

Hospital buildings.—In very good state of repair. Quarters for Hospital Assistants, a new *post-mortem* room and two cells for supposed lunatics under observation, which were the long felt want of the hospital, were sanctioned in 1894 and have now approached completion.

Attendance of patients.—There were 593 in-door patients treated, against 573 in 1894 and 532 in 1893. The out-door patients numbered 11,622, as compared with 10,849 in 1894 and 10,550 in 1893.

General health.—As regards cholera, general health was not at all satisfactory in 1893 and 1894, as compared with that in 1895, for in 1893 there were 791 cases with 548 deaths. In 1894 there were about the same number of cases, *viz.*, 721, but the number of deaths was less, *viz.*, 377; while in 1895 there were only 3 cases, of which two proved fatal.

Prevailing diseases.—Ague, scabies, otorrhœa, bronchitis, worms, rheumatism, conjunctivitis, ulcers, diarrhœa and dysentery.

Surgical operations.—Major operations 92 in 1893, 88 in 1894 and 102 in 1895. The most important were removal of tumours, extraction of lens for cataract, incision for hepatic abscess, removal of calculi from the male and female bladder, turning for malposition of the fœtus, amputation at the leg and arm, paracentesis of the abdomen for ascites, amputation of penis for epithelioma and excision of cancer of breast. The minor operations were 659, 646 and 696 for 1893, 1894 and 1895, respectively.

Mortality and its causes.—There were 35 deaths among in-patients, against 57 in 1894 and 59 in 1893. The chief causes were diarrhœa, phthisis pulmonalis, dysentery, remittent fever, debility, pneumonia, intermittent fever, paraplegia, mania, ozæna, abscess of the liver, opium poisoning, multiple injury and fracture of the skull.

Vaccination.—By the municipal vaccinator twice a week both at the Civil Hospital and at the Párekh Dispensary. There were 3,452 primary vaccinations, of which 3,316 were successful, 29 unsuccessful and 107 doubtful. The number of re-vaccinations was 308.

Medico-legal cases.—The numbers for *post-mortem* and medico-legal cases were 2 and 163, against 1 and 116 in 1894 and 2 and 104 in 1893, respectively.

Conduct of establishment.—Is reported to be satisfactory. Second Class Hospital Assistant Mánekrái Pránshankar Vakil, No. 305, is commended for great zeal and industry.

Cost.—The total cost was Rs. 10,784-3-11 and the cost per patient Re. 0-14-1, as compared with Rs. 8,143-4-3 and Re. 0-11-4 in 1894 and Rs. 10,789-2-9 and Re. 0-15-6 in 1893, respectively.

Hospital stoppages.—Rs. 52-1-0 were realized, against Rs. 95-9-0 in 1894 and Rs. 126-9-0 in 1893.

GRANT-IN-AID DISPENSARIES.

PA'REKH DISPENSARY, SURAT.—*In charge of* Assistant Surgeon Khán Bahádur DOSSA'BHA'I PESTONJI, G.G.M.C., Honorary Assistant Surgeon to His Excellency the Viceroy.

The dispensary building is very substantial and commodious, well ventilated and in a good state of repair. The sanitary condition of the town has been not so good as in the two previous years. The committee visited the dispensary five times, against four times in 1894 and eight times in 1893. The total treated was 8,727 out-door and 7 in-door patients, against 8,298 and 9 in 1894 and 8,564 and 6 in 1893, respectively. The prevailing diseases were malarial fevers, diseases of the eye, ear, respiratory and digestive systems and skin, worms and rheumatic affections. 11 major and 407 minor surgical operations were performed, against 12 and 448 in 1894 and 9 and 408 in 1893, respectively. Vaccination, as usual, has been carried on thrice a week by the municipal vaccinator. The dispensary was inspected by the Surgeon-General with the Government of Bombay once in each year, by the Sanitary Commissioner for the Government of Bombay in 1895, by the Deputy Sanitary Commissioner, Gujarát Registration District, and the Civil Surgeon of Surat, in 1894 and 1893, and by the President of the Municipality in 1893.

The total cost was Rs. 5,173-8-1 and the cost per patient Re. 0-9-5, as compared with Rs. 5,075-15-4 and Re. 0-9-9 in 1894 and Rs. 5,264-12-0 and Re. 0-9-9 in 1893, respectively. The amount realized under hospital stoppage rules was Rs. 19-4-0, against Rs. 28-8-0 in 1894 and Rs. 69-0-0 in 1893.

OLPA'D.—*In charge of* Third Class Hospital Assistant ANANT SANTRA'M, No. 273.

The dispensary premises are in good order and are repaired every year. The furniture and fittings are sufficient. The dispensary was visited twice by the committee, as compared with 8 times in 1894 and 6 times in 1893. The sanitary condition of the town is not satisfactory. The water-supply from wells and tanks is good and abundant. The total treated was 4,076 out-door and 22 in-door patients, against 3,505 and 24 in 1894 and 3,036 and 36 in 1893, respectively. The prevailing diseases were malarial fevers, ear, eye, skin and respiratory affections, bowel complaints, ulcers and local injuries. No epidemics prevailed in the town or in the táluka in 1895, but 244 cases of cholera with 166 deaths occurred in 1894 and 609 cases with 267 deaths in 1893 in the táluka. The dispensary was inspected once every year by the Civil Surgeon of Surat, the Deputy Sanitary Commissioner, Gujarát Registration District, and the Collector and the Assistant Collectors of Surat. Vaccination is carried on by the táluka vaccinator. One *post-mortem* examination was made at the request of the Police and 56 medico-legal cases were examined and certified. There were 8 major and 136 minor surgical operations performed, against 3 and 122 in 1894 and 3 and 99 in 1893, respectively. The total expenditure was Rs. 1,250-13-2 and the cost per patient Re. 0-4-10, as compared with Rs. 857-12-10 and Re. 0-3-10 in 1894 and Rs. 977-12-2 and Re. 0-5-1 in 1893, respectively. The receipts under the hospital stoppage system amounted to Rs. 6-0-0, against Rs. 7-6-0 in 1894 and Rs. 4-2-0 in 1893.

BÁRDOLI.—*In charge of* Second Class Hospital Assistant SHANKARLA'L KESHAVLA'L VYA'S, No. 192.

The building has been repaired. The dispensary committee visited the dispensary 4 times, against 4 times in 1894 and 12 times in 1893. The sanitary condition of the town is fair. The municipality is abolished and a Sanitary Board established. The water-supply is ample but inferior in quality. The total treated was 4,248 out-door and 50 in-door patients, against 3,858 and 34 in 1894 and 3,916 and 45 in 1893, respectively. The most common causes of admissions were malarial fevers, cutaneous diseases, worms, ophthalmia and chest affections. Small-pox prevailed in Mota, a neighbouring village, and the necessary measures were adopted by the Sanitary Department at the request of the Hospital Assistant, who first brought the epidemic to the notice of that department. 33 major and 191 minor surgical operations were performed, as compared with 14 and 138 in 1894 and 14 and 110 in 1893. Vaccination is carried out by the táluka vaccinator. The Civil Surgeon inspected the dispensary once in each year. The total cost was Rs. 1,165-7-4 and the cost per patient Re. 0-4-4, as compared with Rs. 1,413-5-8 and Re. 0-5-9 in 1894 and Rs. 1,183-8-1 and Re. 0-4-9 in 1893, respectively. The fees collected under the hospital stoppage system amounted to Rs. 33-7-0, against Rs. 3-7-0 in 1894 and Rs. 12-6-5 in 1893.

SIR DINSHAW MÁNEKJI PETIT DISPENSARY, CHIKHLI.—*In charge of* Third Class Hospital Assistant MAGANLA'L KASSONLÁL, No. 268.

The building is in a fair state of repair. The dispensary was visited once a month by the Chairman and quarterly by the dispensary committee. The sanitation of the town is not satisfactory. The water-supply, mainly from wells, is good and abundant. The total treated was 7,045 out-door and 15 in-door patients, against 7,472 and 33 in 1894 and 6,664 and 24 in 1893, respectively. The most common diseases were intermittent fever, ascaris lumbricoides, catarrhal bronchitis, conjunctivitis, inflammation of the external ear and diseases of the skin and digestive system. No epidemic prevailed in the town or its vicinity. 13 major and 214 minor surgical operations were performed against 2 and 225 in 1894 and 2 and 217 in 1893, respectively. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected once every year by the Civil Surgeon, Surat. The total cost was Rs. 1,246-8-2 and the cost per patient Re. 0-2-9, against Rs. 900-7-1 and Re. 0-1-11 in 1894 and Rs. 1,209-6-3 and Re. 0-2-10 in 1893. The hospital stoppage fees amounted to Rs. 49-14-0, as compared with Rs. 26-8-0 in 1894 and Rs. 17-5-0 in 1893.

PA'RDI.—*In charge of* First Class Hospital Assistant ESSUBJI SELA'MONJI, No. 96.

The building is in a good state of repair. The brick flooring of the verandah is in a bad state; it would be better if the bricks were replaced by Porebandar stones. A store-room, an examination room and an operation table are required. The furniture and fittings are in good order. The dispensary was visited eleven times by the chairman and the members of the dispensary committee. The general sanitary condition of the town is fair; the arrangements for carrying out the Sanitary Act are in progress. The water-supply from wells is good and abundant, but liable to pollution by soakage. The total treated was 11,442 out-door and 50 in-door patients, as compared with 7,821 and 32 in 1894 and 6,619 and 18 in 1893, respectively. The prevailing diseases were malarial fevers, worms, diarrhœa and skin diseases. No epidemic during 1895; a few cases of cholera occurred in 1893 and 1894. 7 major and 262 minor surgical operations were performed, as compared with 9 and 112 in 1894 and *nil* and 118 in 1893. One *post-mortem* examination was made and opinion given in 20 cases of assaults and injuries at the request of the Police. Vaccination is performed by the táluka vaccinator.

The dispensary was inspected by the Civil Surgeon, Surat, once in each year. The total cost was Rs. 1,368-9-10 and the cost per patient Re. 0-1-10, as compared with Rs. 1,909-15-9 and Re. 0-3-10 in 1894 and Rs. 1,200-6-3 and Re. 0-2-10 in 1893. The amount collected under the hospital stoppage rules was Rs. 35-12-0, against Rs. 12-11-0 in 1894 and Rs. 23-13-0 in 1893.

MA'NDVI.—*In charge of* Second Class Hospital Assistant HORMASJI EDALJI ANKLESARIA, No. 222.

The buildings are in a very good state of repair. There were 11 meetings held by the dispensary committee, against 12 in 1894 and 12 in 1893. The water-supply from wells and the Tápti river is abundant but of inferior quality. The total treated was 7,585 out-door and 34 in-door patients, against 7,390 and 30 in 1894 and 5,864 and 35 in 1893, respectively. The prevailing diseases were ague, scabies, conjunctivitis, bronchitis, otorrhœa, diseases of the digestive system, worms and rheumatic affections. No epidemic prevailed in the station or its vicinity in 1894 and 1895; but in 1893 cholera broke out in the beginning of April and lasted till the middle of June in the town. There were in all 139 cases with 44 deaths. Vaccination is carried on by the táluka local fund vaccinator. There were 116 major and 336 minor surgical operations performed, against 80 and 346 in 1894 and 19 and 199 in 1893, respectively. Among the major operations the most important were removal of tumours from parts, opening of large abscesses and operations on the nose, digestive organs and joints. 12 medico-legal cases were examined and reported upon, as compared with 11 in 1894 and 12 in 1893. The dispensary was inspected by the Civil Surgeon, Surat, once in each year, and by the Deputy Sanitary Commissioner, Gujarát Registration District, in 1894. The total cost was Rs. 1,776-2-5 and the cost per patient Re. 0-3-8, against Rs. 1,604-1-2 and Re. 0-3-5 in 1894 and Rs. 1,191-13-11 and Re. 0-3-2 in 1893, respectively. The receipts on account of hospital stoppages were Rs. 31-2-0, as compared with Rs. 3-11-0 in 1894 and Rs. 8-2-0 in 1893.

RA'NDER.—*In charge of* Second Class Hospital Assistant SHRIPAT NICUM, No. 183.

The building, a leased one, is in good repair, but not suitable for dispensary purposes, containing but two small rooms. The dispensary committe visited the dispensary 11 times, against 9 in 1894 and 12 in 1893; it was also visited 5 times by the Collector and the Assistant Collectors of Surat during the three years. The conservancy arrangements of the town are not very satisfactory, as house refuse and other rubbish are allowed to accumulate and decay in some places, and pit privies and deep cesspools to be dug. The water-supply from the river Tápti and under-ground tanks is abundant, but not good in quality; that from wells is liable to pollution, owing to percolation from the night-soil depôt situated very near them. The total number of out-door patients treated was 16,567, as compared with 16,397 in 1894 and 12,798 in 1893. The most common diseases were malarial fevers, worms, diseases of the eye, ear, skin, respiratory and digestive systems and connective tissue and ulcers. The town was free from epidemic during the year 1895; but 52 cases of cholera with 16 deaths occurred in 1894 and 88 cases with 42 deaths in 1893. Vaccination was performed by the táluka vaccinator. 13 major surgical operations were performed, against 11 in 1894 and 9 in 1893. The dispensary was inspected every year by the Civil Surgeon of Surat and once by the Surgeon-General with the Government of Bombay, the Sanitary Commissioner for the Government of Bombay and the Deputy Sanitary Commissioner, Gujarát Registration District. The total cost was Rs. 1,009-9-11 and the cost per patient Re. 0-0-11, as compared with Rs. 2,229-9-1 and Re. 0-2-2 in 1894 and Rs. 1,599-8-10 and Re. 0-2-0 in 1893, respectively. Rs. 40-2-0 were realized under the hospital stoppage rules, against Rs. 29-6-0 in 1894 and Rs. 25-12-0 in 1893.

NASSERVA'NJI MA'NEKJI PETIT DISPENSARY, KHEIRGAON.—*In charge of* Third Class Hospital Assistant PURSHOTAM HARIBHAI PATEL, No. 257.

The building is in good repair. The *post-mortem* room is very small and unsuitable. The dispensary was visited by the committee 14 times. The sanitation of the village is not satisfactory. The water-supply from wells is good and ample. The total treated was 5,465 out-door and 17 in-door patients, against 5,531 and 11 in 1894 and 6,574 and 11 in 1893. The prevailing diseases were malarial fevers, ascaris lumbricoides and diseases of the eye, respiratory and digestive systems and of the connective tissue and skin. 13 major and 138 minor surgical operations were performed against 10 and 141 in 1894 and 15 and 243 in 1893, respectively. Vaccination is conducted by the local fund vaccinator at the Government chávdi. The dispensary was inspected by the Civil Surgeon of Surat once in each year. The total cost was Rs. 1,255-5-5 and the cost per patient Re. 0-3-7, against Rs. 1,103-5-1 and Re. 0-3-2 in 1894 and Rs. 670-5-3 and Re. 0-1-7 in 1893. The amount under the hospital stoppage rules was Rs. 4-0-0. There were no receipts under this head in 1894 and 1893.

SIR D. M. PETIT DISPENSARY, BALSA'R.—*In charge of* Assistant Surgeon P. H. DA'DA'CHA'NJI.

The building is kept in a fair state of repair. A suitable fence round the compound is wanted. The dispensary committee held 10 meetings. The sanitation of the town is well

looked after by the Municipality. The water-supply is good and sufficient. The total treated was 81 in-door and 13,982 out-door patients against 89 and 16,051 in 1894 and 80 and 15,161 in 1893. The prevailing diseases were malarial fevers, skin diseases, worms, respiratory affections, diarrhœa and ophthalmia. Twenty-five major surgical operations were performed against 9 in 1894 and 15 in 1893. The most important being operations for cataract and for hepatic abscess and obstetric operations. Vaccination is carried on by the táluka vaccinator. Seven *post-mortem* examinations were made at the request of the Police. The dispensary was inspected by the Civil Surgeon, Surat, once in each year, and by the Sanitary Commissioner for the Government of Bombay in 1895. The total cost was Rs. 6,580-5-2 and the cost per patient Re. 0-7-5 against Rs. 5,074-0-6 and Re. 0-5-0 in 1894 and Rs. 5,381-13-4 and Re. 0-5-7 in 1893. The receipts from hospital stoppages were Rs. 521-14-0, as compared with Rs. 413-4-0 in 1894 and Rs. 366-14-0 in 1893.

SELF SUPPORTING DISPENSARY.

VICTORIA DISPENSARY, NAVSA'RI.—*In charge of* Assistant Surgeon D. H. MOTIVA'LA.

The dispensary buildings are in a pretty good state of repair. The dispensary committee held meetings six times, and individual members visited the dispensary eight times. The town of Kaliávadi, in which the dispensary is situated, is a non-municipal one. The sanitary condition of the town is fairly good. The water-supply is abundant but brackish. There are four wells in the town, but the water of only one of them is used for drinking purposes, because it is sweet. The general health of the town was good; no epidemic of any kind prevailed during the three years. There were 71 in-door and 5,783 out-door patients, against 23 and 5,821 in 1894 and 19 and 4,364 in 1893, respectively. Malarial fevers and diseases of the cutaneous and respiratory systems were the most common complaints. 33 major and 529 minor surgical operations were performed, against 25 and 349 in 1894 and 5 and 247 in 1893, respectively. Of the major operations, the most important were opening of large abscesses, extraction of the nasal polypus, reduction of dislocation, application of forceps, turning and paracentesis abdominis. Vaccination is performed by the táluka local fund vaccinator. There was one *post-mortem* examination performed and opinion given in 27 medico-legal cases at the request of the Police. The total cost was Rs. 3,152-1-3 and the cost per patient Re. 0-8-7, as compared with Rs. 3,530-15-3 and Re. 0-9-8 in 1894 and Rs. 3,852-0-3 and Re. 0-14-0 in 1893, respectively. The hospital stoppage system is not introduced in this dispensary, as it is a self-supporting and an endowed dispensary.

NATIVE STATE DISPENSARY.

DUMA'S.—*In charge of* First Class Hospital Assistant BEHRA'MJI JIVA'JI, No. 156.

The buildings are in good repair. The dispensary committee visited the dispensary twice. The sanitary condition of the village is fair. The water-supply from wells is of good quality. The total treated was 2,570 out-door and 6 in-door patients against 3,261 and 4 in 1894 and 3,007 and 3 in 1893, respectively. The most common diseases were malarial fevers, conjunctivitis, worms and diseases of the ear, skin and digestive system. There was no epidemic. There were 5 major and 165 minor surgical operations performed against 4 and 107 in 1894 and 12 and 133 in 1893, respectively. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected once annually by the Civil Surgeon, Surat. The total cost was Rs. 1,242-0-0 and the cost per patient Re. 0-7-8, as compared with Rs. 1,214-14-4 and Re. 0-5-11 in 1894 and Rs. 1,181-5-5 and Re. 0-6-3 in 1893, respectively.

BROACH COLLECTORATE.

CIVIL HOSPITAL, BROACH.—*In charge of* Surgeon-Major R. W. S. Lyons, M.D.

Conservancy.—The town is kept fairly clean and in fair order. The conservancy establishment was increased from 150 to 155 sweepers, and a Chief Inspector entertained in 1894.

Water-supply.—From the river Narbada is used for washing and cooking purposes; that from wells situated along the right bank of the river and near the tanks is sweet and potable.

Hospital buildings.—Are in good order. An operation room has been sanctioned.

General health.—On the whole, good. In 1894 cholera prevailed in the district during April, May and June. There were 28 attacks reported with 130 deaths.

Attendance of patients.—There were 340 patients treated in hospital and 14,492 out of hospital, as compared with 416 and 12,917 in 1894 and 397 and 12,782 in 1893, respectively. The decrease among the in-patients is due to the smaller number of admissions among the Police, *viz.*, 89, as compared with 193 in 1894.

Prevailing diseases.—Malarial fevers and diseases of the digestive system, ear, eye and skin.

Surgical operations.—69 major and 1,047 minor operations were performed, as compared with 41 and 1,008 in 1894 and 31 and 815 in 1893. The most important were for cataract, necrosis of the shaft of the tibia, necrosis of the head of the femur and innominate bone, protrusion of the intestine with fœcal fistula, &c.

Mortality and its causes.—There were 21 deaths among the in-door patients, due to dysentery, brain injuries, lung diseases, phthisis, pneumonia and empyema, necrosis and fracture of bones and malarial fevers, against 17 in 1894 and 18 in 1893.

Vaccination.—Is performed by the municipal vaccinator. It is well received and carried out satisfactorily.

Medico-legal cases.—157 cases, including 5 *post-mortem* examinations, were reported upon at the request of the Police.

Conduct of the establishment.—Was satisfactory. First Class Hospital Assistant Bálaji Macund has performed his work efficiently and zealously. The Third Class Hospital Assistants have done their work satisfactorily. The conduct of the second class establishment has been good.

Cost.—The total cost was Rs. 3,767-15-3 and the cost per patient Re. 0-4-0 against Rs. 4,797-11-3 and Re. 0-5-9 in 1894 and Rs. 4,238-3-9 and Re. 0-5-1 in 1893, respectively.

Hospital stoppages.—Amounted to Rs. 110-10-0, as compared with Rs. 116-0-0 in 1894 and Rs. 210-4-0 in 1893.

GRANT-IN-AID DISPENSARIES.

ANKLESVAR.—*In charge of* First Class Hospital Assistant BHA'SKER SITA'RA'M, No. 72.

The dispensary building is in good repair. The committee visited the dispensary 13 times. Sanitation is attended to. Water-supply is plentiful and good. The total number treated was 30 in-door and 9,537 out-door patients, as compared with 35 and 10,959 in 1894 and 34 and 11,009 in 1893, respectively. The most common diseases were malarious fevers, dysentery, rheumatic affections, diseases of the eye, ear, skin and nervous and respiratory systems and diarrhœa. There were 1 major and 269 minor surgical operations performed against 3 and 351 in 1894 and 3 and 417 in 1893, respectively. There were three *post-mortem* examinations held, and opinion given in several medico-legal cases. Vaccination is carried on by the táluka local fund vaccinator. The Civil Surgeon, Broach, inspected the dispensary once in each year. The total cost was Rs. 1,901-13-7 and the cost per patient Re. 0-3-2 against Rs. 1,724-5-4 and Re. 0-2-6 in 1894 and Rs. 1,331-6-7 and Re. 0-1-11 in 1893, respectively. Hospital stoppages amounted to Rs. 24-12-0, as compared with Rs. 44-11-0 in 1894 and Rs. 76-8-0 in 1893.

A. H. WA'DIA DISPENSARY, ÍLA'V.—*In charge of* Second Class Hospital Assistant KESHAVLA'L CHOTA'LA'L, No. 245.

The dispensary building is in good repair. The furniture and fittings are sufficient and in good order. Quarters for the compounder and dispensary servants, as well as a store-room and a cook-room, are badly wanted. The individual members of the dispensary committee visited the dispensary 15 times, and the Collector and the District Deputy Collector of Broach once during the year. There is no Municipality. Conservancy is unsatisfactory. There are no arrangements for sanitation. The water-supply is good and copious. Vaccination is performed by the táluka vaccinator. The total number of patients treated was 5,275 out-door and 3 in-door against 4,985 and 1 in 1894 and 4,802 and none in 1893. The most common diseases were malarial fevers and diseases of the digestive and respiratory systems, eye, ear and skin. There was no epidemic. There were 2 major and 118 minor surgical operations performed against 5 and 63 in 1894 and 4 and 57 in 1893, respectively. The dispensary was inspected annually by the Civil Surgeon, Broach, and by the Deputy Sanitary Commissioner. The total cost was Rs. 1,530-7-7 and the cost per patient Re. 0-4-7 against Rs. 1,380-12-11 and Re. 0-4-5 in 1894 and Rs. 999-15-11 and Re. 0-3-4 in 1893, respectively. The amount of hospital stoppages was Rs. 57-5-0 against Rs. 121-3-0 in 1894 and Rs. 144-5-0 in 1893.

HANSOT.—*In charge of* Third Class Hospital Assistant SA'MALDA'S NA'HNJI, No. 307.

The dispensary is situated in a hired building, which is quite unsuitable for the purpose. There is no accommodation for in-patients, nor is there any provision for a dead-house. Dissection is, therefore, performed in an open space outside the town. A new building is highly desirable. A committee composed of two members visit the dispensary every month. The sanitation of the town is good. The water-supply from wells outside the town is both good and plentiful. The total number of out-patients treated was 7,376 against 6,488 in 1894 and 6,687 in 1893. The most common diseases were malarial fevers and diseases of the skin, digestive system, eye and ear. In 1895 one case of small-pox occurred in the town. In 1894 a few cases of cholera occurred only in the surrounding villages and in 1893 in Hansot proper and its neighbouring villages. There were 10 major surgical operations performed against 3 in 1894 and 3 in 1893. Vaccination is performed by the táluka vaccinator. Opinion was given in 69 medico-legal cases against 49 in 1894 and 29 in 1893 at the request of the Police. The dispensary was inspected by the Civil Surgeon, Broach, once in each year, and by the Deputy Sanitary Commissioner in 1895. The total cost was Rs. 1,353-8-1 and the cost per patient Re. 0-2-11, as compared with Rs. 1,471-6-2 and Re. 0-3-7 in 1894 and Rs. 1,435-2-8 and Re. 0-3-5 in 1893, respectively. Hospital stoppages amounted to Rs. 53-11-0 against Rs. 66-2-0 in 1894 and Rs. 56-10-0 in 1893.

JAMBUSAR.—*In charge of* First Class Hospital Assistant ISAAC AARON, No. 132.

The dispensary is situated on a high ground, well ventilated and kept in a good state of repair. The furniture and fittings are sufficient and in good order. The members of the dispensary committee visited the dispensary 9 times against 12 times in 1894 and 7 times in 1893. The most common diseases were malarial fevers, skin, eye and ear diseases, bowel complaints and respiratory affections. The town was free from epidemics in 1895. Cholera prevailed in the town and its villages in 1894 and 1893. The dispensary was inspected every year by the Civil Surgeon, Broach, and in 1895 by the Deputy Sanitary Commissioner. The total treated was 7,125 out-door and 67 in-door patients, as compared with 8,340 and 62 in 1894 and 7,884 and 66 in 1893 respectively. The general health of the town was fair. The sanitary condition of the town is fairly good. The water-supply from wells is good and ample; that from a large tank on the north side of the town is used for washing purposes only. Vaccination is carried on by the táluka vaccinator. 6 major and 454 minor surgical operations were performed as compared with 4 and 475 in 1894 and 4 and 563 in 1893, respectively. Seven *post-mortem* examinations were held against 7 in 1894 and 6 in 1893. Opinion was given in several medico-legal cases during the three years. The total cost was Rs. 1,614-3-10 and the cost per patient Re. 0-3-7, as compared with Rs. 1,500-3-6 and Re. 0-2-10 in 1894 and Rs. 1,238-7-8 and Re. 0-2-5 in 1893, respectively. The amount realized under hospital stoppage rules was Rs. 38-12-0 against Rs. 52-9-0 in 1894 and Rs. 47-15-0 in 1893.

AMOD.—*In charge of* Second Class Hospital Assistant D. AARON, No. 195.

The building is in good repair. The dispensary was visited 9 times by the committee against 21 in 1894 and 16 in 1893. The conservancy arrangements are good. The water-supply from wells is good and abundant, but liable to contamination by soakage. The total treated was 3,609 out-door and 19 in-door patients, against 3,213 and 34 in 1894 and 3,158 and 26 in 1893, respectively. The most common complaints were malarial fevers, rheumatic affections, diseases of the eye, ear, skin and respiratory and digestive systems and ulcers. There was no epidemic in 1895 and 1894, but cholera gave 33 cases in 1893. Vaccination was performed by the táluka vaccinator. There were 6 major and 181 minor surgical operations performed against 9 and 109 in 1864 and 4 and 127 in 1893. Four *post-mortem* examinations were made, and opinion given in several medico-legal cases at the request of the Police. The dispensary was inspected once every year by the Civil Surgeon of Broach. The total cost was Rs. 1,243-6-4 and the cost per patient Re. 0-5-5, as compared with Rs. 1,131-15-4 and Re. 0-5-6 in 1894 and Rs. 1,153-6-5 and Re. 0-5-9 in 1893, respectively. The amount of fees under hospital stoppages system was Rs. 23-7-0 against Rs. 52-14-0 in 1894 and Rs. 36-12-0 in 1893.

VÁGRA.—*In charge of* Third Class Hospital Assistant GOPÁLRÁO RÁMCHANDERRÁO, No. 277.

The buildings are in a good state of repair. The dispensary was visited eight times by the committee. Sanitation of the village is unsatisfactory and defective. Water-supply from a well is good and ample. The total treated was 4,306 out-door and 30 in-door patients, as compared with 4,619 and 37 in 1894 and 3,851 and 41 in 1893, respectively. The prevailing diseases were malarial fevers, diseases of the eye, skin, digestive and respiratory systems, connective tissue and ear and local injuries. Six major and 187 minor surgical operations were performed against 4 and 219 in 1894 and 3 and 246 in 1893, respectively. Vaccination is performed by the táluka vaccinator. Twenty-five medico-legal cases were treated and 1 *post-mortem* examination was performed at the request of the Police. The dispensary was inspected once in each year by the Civil Surgeon, Broach. The total cost was Rs. 1,175-12-5 and the cost per patient Re. 0-4-4, against Rs. 1,291-9-10 and Re. 0-4-5 in 1894 and Rs. 1,083-13-9 and Re. 0-4-5 in 1893, respectively. Rs. 15-14-0 were received on account of hospital stoppages, as compared with Rs. 34-0-0 in 1894 and Rs. 13-10-0 in 1893.

KAVI.—*In charge of* Third Class Hospital Assistant J. MAHÁBALSINGH, No. 323.

The dispensary building, a hired one, is in a bad state of repair. A new building is badly wanted. The sanitary condition of the town is bad. The water-supply from a well is liable to contamination. The total treated was 3,923 out-door and 38 in-door patients, as compared with 3,927 and 6 in 1894 and 3,558 and 18 in 1893, respectively. The most common diseases were ague, rheumatism and diseases of the respiratory and digestive systems, eye, ear, skin and connective tissue. There were 9 major and 215 minor surgical operations performed against 3 and 238 in 1894 and 1 and 329 in 1893. There was no epidemic. The dispensary was inspected by the Civil Surgeon, Broach, once every year. There is no Municipality. The total cost was Rs. 1,243-5-9 and the cost per patient Re. 0-5-0 against Rs. 985-3-4 and Re. 0-4-0 in 1894 and Rs. 921-15-5 and Re. 0-4-1 in 1893, respectively. Hospital stoppages amounted to Rs. 2-5-0 as compared with Rs. 5-14-0 in 1894 and Rs. 3-13-0 in 1893.

DEHEJ.—*In charge of* Third Class Hospital Assistant MANILÁL MANSHUKHRÁM, No. 292.

The present dispensary building, a hired one, is quite unsuitable for the purpose. A new dispensary building is under construction. The dispensary was visited by the members of the dispensary committee occasionally. The sanitary condition of the town is most unsatisfactory. The water-supply is insufficient, especially during summer, and liable to contamination. The total treated was 1,911 out-door and 21 in-door patients against 1,889 and 25 in 1894 and 1,405 and 6 in 1893. Vaccination is carried out by the táluka vaccinator. The dispensary was

inspected by the Civil Surgeon, Broach, once in each year. The total cost was Rs. 978-0-8 and the cost per patient Re. 0-8-1 against Rs. 974-5-9 and Re. 0-8-1 in 1894 and Rs. 896-6-9 and Re. 0-10-1 in 1893, respectively. Annas 6 were realized under hospital stoppage rules against annas 6 in 1894 and Re. 1-14-0 in 1893.

KAIRA COLLECTORATE.

KAIRA CIVIL HOSPITAL.—*In charge of* Surgeon-Major J. P. BARRY, M.B.

Conservancy.—Satisfactory.

Water-supply.—Abundant from the Watrak river, but it is liable to pollution from river side washing above stream and from the indefensible site north of the town where the town refuse is thrown. It is now sought to secure another spot from which whatever pollution is inevitable shall pass into a reach of the river below the town.

Hospital buildings.—Are in good repair. A new police ward, quarters for two hospital assistants and for two native medical pupils and a separate quarter for one sweeper with latrine for the 1st class establishment were completed this year and are now in use.

General health.—Good. No epidemic occurred in the town, though sporadic cholera is of occasional occurrence in the district.

Attendance of patients.—314 in-door and 8,142 out-door as compared with 381 and 7,835 in 1894 and 425 and 6,670 in 1893.

Prevailing diseases.—Malarial fevers, diseases of the eye, ear and skin, diarrhœa and lung troubles.

Surgical operations.—The major operations rose to 99 in 1895 from 72 in 1894 and 53 in 1893. They included trephining, operations for stone, cataract and removal of tumours and amputations. The minor operations were 656 against 644 in 1894 and 444 in 1893.

Mortality and its causes.—Among in-patients there were 23 deaths or 7·6 per cent. to the total treated, 23 or 6·0 per cent. in 1894, and 18 or 4·2 per cent. in 1893. The chief causes were malaria, phthisis, gangrene, starvation, diarrhœa and ascites.

Vaccination.—Is carried out by the táluka vaccinator.

Medico-legal cases.—Four bodies were examined against 7 in 1894 and 6 in 1893.

Conduct of the establishment.—Has never been good. This is due to want of an able 1st Class Hospital Assistant and to the presence of 3rd Class Hospital Assistant Shankerlál Náná-lál, No. 354, whose manners are objectionable and whose example in not co-operating cordially with his senior is mischievous to the younger men. He has been too long in Kaira. A clear sweep of the present establishment is very desirable.

Cost.—The total cost was Rs. 2,746-13-2 and the cost per patient Re. 0-5-2, as compared with Rs. 4,477-7-5 and Re. 0-8-8 in 1894 and Rs. 4,993-8-1 and Re. 0-11-3 in 1893, respectively.

Hospital stoppages.—Rs. 45-11-0 were received against Rs. 64-11-0 in 1894 and Rs. 115-5-0 in 1893.

GRANT-IN-AID-DISPENSARIES.

BÁI MÁNECKBÁI BYRÁMJI JIJIBHOY DISPENSARY, MEHMADABAD.—*In charge of* Second Class Hospital Assistant KISSON SINGH, No. 227.

The dispensary buildings are in good repair. Quarters for the Medical Officer were built in 1895 at the expense of the Municipality and District Local Board. Servants' quarters, a dead-house and a store-room are much needed. The committee visited the dispensary seven times. Sanitary condition of the town is good. The water-supply from wells and river is good and abundant. The total treated was 8,790 out and 97 in-door patients against 8,583 and 99 in 1894 and 8,775 and 71 in 1893. The most common diseases were malarial fevers, diseases of the skin, connective tissue, eye and ear, ulcers, bowel complaints and injuries. Small-pox was prevalent in the town. 8 major and 561 minor surgical operations were performed against 16 and 448 in 1894 and 8 and 502 in 1893. Vaccination is performed by the táluka vaccinator. 72 medico-legal cases were examined and reported on. The dispensary was inspected by the Civil Surgeon, Kaira, in March, and by the Surgeon-General with the Government of Bombay in February. The total cost was Rs. 1,572-3-7 and the cost per patient Re. 0-2-9, as compared with Rs. 1,705-11-4 and Re. 0-3-1 in 1894 and Rs. 1,036-14-8 and Re. 0-1-10 in 1893, respectively. Rs. 16-1-0 were realized as hospital stoppages against Rs. 11-7-0 in 1894 and Rs. 19-9-0 in 1893.

NADIA'D.—*In charge of* First Class Hospital Assistant PHIROZSHA D. COOPER, No. 144.

The dispensary building is in good repair. Quarters for compounders and dispensary servants, a better dead-house, a new latrine and a more decent ward for females are badly wanted. The dispensary committee visited the dispensary 9 times in 1895, against 5 in 1894 and 9 in

1893. The most common diseases were malarial fevers, dysentery, worms and eye, ear, skin, respiratory and rheumatic affections. The total treated was 26,237 out-door and 82 in-patients, as compared with 24,565 and 141 in 1894 and 21,074 and 167 in 1893, respectively. The average number of daily sick was 159·1 out-door and 2·8 in-patients, against 157·6 and 4·1 in 1894 and 177·7 and 5·0 in 1893, respectively. There was not a single case of cholera in the town this year, while there were two cases in the surrounding villages, of which one proved fatal. It raged with severity in 1894 in the months of May, July, August and September, when there were 100 cases with 56 deaths in the town and 51 cases with 26 deaths in the surrounding villages. In 1893 it was of a virulent type, when there were 107 cases with 50 deaths in the town and 746 cases with 398 deaths in the surrounding villages. The dispensary was inspected by the Civil Surgeon, Kaira, every year. There were 13 *post-mortem* examinations performed and 144 medico-legal cases examined and reported upon, against 9 and 119 in 1894 and 11 and 128 in 1893, respectively. The conservancy and sanitary condition of the town are fairly looked after. The water-supply, from wells situated outside the town, is copious and of good quality. There were 31 major and 1,277 minor surgical operationsl performed, against 37 and 1,139 in 1894 and 18 and 834 in 1893, respectively. The tota cost was Rs. 5,467-8-6, against Rs. 2,496-11-10 in 1894 and Rs. 3,320-8-10 in 1893. The cost per patient was Re. 0-3-3 in 1895, as compared with Re. 0-1-7 in 1894 and Re. 0-2-6 in 1893. The total amount of hospital stoppages realized was Rs. 62-7-0, against Rs. 80-4-0 in 1894 and Rs. 97-7-0 in 1893.

BORSAD.—*In charge of* Second Class Hospital Assistant RA'MKRISHNA SUKESHWAR, No. 234.

The dispensary buildings and Hospital Assistant's quarters are in a good state of repair The dispensary committee held meetings regularly every month and submitted quarterly reports to the Collector of Kaira. The sanitary condition of the town was fair and is improving under the management of the Municipality. The water-supply from wells in the town is of good quality and sufficient. The total treated was 7,881 out-door and 95 in-door patients, against 7,942 and 60 in 1894 and 7,516 and 43 in 1893, respectively. The prevailing diseases were malarial fevers, diseases of the eye, ear, skin, digestive system and connective issue, local injuries and ulcers. There was no epidemic in 1895. Cholera made its appearance in May 1893 and September 1894. Vaccination was performed by the táluka vaccinator. *Post-mortem* examinations were 14 in 1895, against 11 in 1894 and 6 in 1893. The Civil Surgeon, Kaira, inspected the dispensary once in each year. The total cost was Rs. 1,308-10-2 and the cost per patient Re. 0-2-7, against Rs. 1,376-8-9 and Re. 0-2-9 in 1894 and Rs. 1,281-14-9 and Re. 0-2-8 in 1893, respectively. Rs. 13-12-0 were received as hospital stoppages, as compared with Rs. 15-1-0 in 1894 and Rs. 18-12-0 in 1893.

MAHUDHA.—*In charge of* Second Class Hospital Assistant MAHA'BIR PRASADA, No. 202.

The dispensary building and the Hospital Assistant's quarters were white-washed and minor repairs made. The committee visited the dispensary eleven times, against five in 1894 and nine in 1893. The sanitation of the town is fair. The water-supply from wells is abundant and of good quality. The total treated was 7,278 out-door and 44 in-door patients, as compared with 7,787 and 25 in 1894 and 7,583 and 49 in 1893, respectively. The most common complaints were diseases of the eye, ear and skin, malarial fevers, bowel complaints and local injuries. There was no epidemic. Five major and 202 minor surgical operations were performed, against 5 and 243 in 1894 and 2 and 277 in 1893, respectively. Vaccination is carried on by the táluka vaccinator. Twenty-six medico-legal cases were examined and reported on, and five *post-mortem* examinations made, at the request of the Police. The dispensary was inspected once in each year by the Civil Surgeon, Kaira. The total cost was Rs. 1,377-15-6 and the cost per patient Re. 0-3-0, as compared with Rs. 1,347-7-1 and Re. 0-2-9 in 1894 and Rs. 1,264-11-9 and Re. 0-2-7 in 1893, respectively. The amount realized on account of hospital stoppages was Rs. 8-6-0, against Rs. 1-10-0 in 1894 and Rs. 4-12-0 in 1893.

DA'KOR.—*In charge of* Second Class Hospital Assistant SHANKAR HARI, No. 165.

The building is in good repair. The dispensary committee visited the dispensary 8 times, against 11 in 1894 and 7 in 1893. The most common diseases were malarial fevers, diseases of the eye, ear and skin, intestinal worms and ulcers. Cholera was epidemic in the surrounding villages; in the town itself only one case occurred. The dispensary was inspected by the Civil Surgeon of Kaira once in each year. The sanitary condition of the town is fair and water-supply ample, but of inferior quality. Vaccination is conducted by the táluka vaccinator. The total treated was 10,069 out-door and 75 in-door patients, as compared with 10,555 and 71 in 1894 and 10,336 and 99 in 1893, respectively. There were 5 major and 403 minor surgical operations performed, against 4 and 499 in 1894 and 6 and 483 in 1893. Five *post-mortem* examinations were held, and opinion given in several medico-legal cases. The total cost was Rs. 3,321-15-9 and the cost per patient Re. 0-5-2, as compared with Rs. 1,837-11-0 and Re. 0-2-9 in 1894 and Rs. 1,475-8-8 and Re. 0-2-3 in 1893, respectively. The income on account of hospital stoppages was Rs. 3-3-0, against Rs. 9-4-0 in 1894 and Rs. 16-14-0 in 1893.

KAPADVANJ.—*In charge of* First Class Hospital Assistant MA'NECKLA'L H. VYA'S, No. 145.

The building is in good repair. The committee visited the dispensary every month. The sanitary condition of the town is good. Water-supply is good and abundant. The total number

treated was 14,062 out-door and 59 in-door patients, as compared with 12,983 and 66 in 1894, and 15,422 and 50 in 1893, respectively. The most common diseases were malarial fevers rheumatic, eye, ear, skin and respiratory affections, bowel complaints and ulcers. There were 3 cases of cholera, all fatal, in November 1895. There were 22 major and 785 minor surgical operations performed, as compared with 12 and 545 in 1894 and 12 and 554 in 1893, respectively. There were 2 *post-mortem* examinations held against 2 in 1894 and 3 in 1893. The dispensary was inspected by the Civil Surgeon, Kaira, once every year. Vaccination is carried out by the táluka vaccinator. The total cost was Rs. 3,363-7-2 and the cost per patient Re. 0-3-9, as compared with Rs. 1,778-3-2 and Re. 0-2-2 in 1894 and Rs. 1,824-12-5 and Re. 0-1-10 in 1893, respectively. The amount collected under the hospital stoppage rules was Rs. 40-11-0, against Rs. 5-13-6 in 1894 and Rs. 8-3-0 in 1893.

ANAND.—*In charge of* Second Class Hospital Assistant DA'MODHER LAXUMAN, No. 200.

The dispensary buildings are in good order and the furniture and fittings suitable and sufficient. The dispensary committee visited the dispensary three times during the year. The most common diseases were malarial fevers and diseases of the eye, ear, digestive system and skin. Among in-patients there were four deaths from dysentery chronic, malarial fevers, remittent fever and rupture of the liver. There was no epidemic in the town, but there were a few cases of cholera in the surrounding villages. The dispensary was inspected by the Surgeon-General with the Government of Bombay, the Deputy Sanitary Commissioner and the Civil Surgeon of Kaira. The total treated was 5,429 out-door and 112 in-door patients, as compared with 6,161 and 138 in 1894 and 7,120 and 117 in 1893, respectively. There were three major surgical operations performed, against 4 in 1894 and 10 in 1893. The general health of the town was fair. The sanitation of the town and district is unsatisfactory. The water-supply from wells is good and plentiful. Vaccination is carried on by the táluka vaccinator. Seventeen *post-mortem* examinations were held at the request of the Police, and opinion on several medico-legal cases was given. The total cost was Rs. 1,611-12-0 and the cost per patient Re. 0-4-7, as compared with Rs. 1,607-9-8 and Re. 0-4-0 in 1894 and Rs. 1,843-5-4 and Rs. 0-4-0 in 1893, respectively. Rs. 14-14-0 were received as hospital stoppages, against Rs. 30-15-0 in 1894 and Rs. 28-10-0 in 1893.

MUNICIPAL DISPENSARY.

UMRETH.—*In charge of* Mr. SHIVPRASA'D JHAVERILA'L MEHLOR.

The dispensary building, a hired one, is kept in a fair state of repair. The furniture and fittings are sufficient. The dispensary was visited five times, against six times in 1894, by the dispensary committee. The dispensary was inspected by the Civil Surgeon, Kaira, and the Deputy Sanitary Commissioner, Gujarát Registration District. The sanitation of the town is fair and well attended to by the Municipality. The water-supply from wells is pure, abundant and wholesome. The total treated was 10,630 out-door patients, against 11,399 in 1894 and 11,117 in 1893. The prevailing diseases were ague, constipation, ophthalmia, rheumatism, intestinal worms, otorrhœa and skin and malarial affections. There were 2 major and 142 minor surgical operations performed, against *nil* and 128 in 1894 and 4 and 148 in 1893, respectively. Vaccination is carried out by the municipal vaccinator. There is neither a dead-house nor accommodation for in-door patients. Quarters for the Hospital Assistant and second class establishment are required. The total cost was Rs. 1,559-7-11, against Rs. 1,552-7-5 in 1894 and Rs. 1,571-10-9 in 1893. The cost per patient averaged Re. 0-2-4, as compared with Re. 0-2-2 in 1894 and Re. 0-2-3 in 1893. Stoppage rules are not in force at this dispensary.

LOCAL FUND DISPENSARY.

MA'TAR AND MEHMADABAD ITINERATING DISPENSARY.—*In charge of* Third Class Hospital Assistant PUNJA'BHAI THA'KERSI, No. 380.

The total treated was 1,313 out-door patients as compared with 2,125 in 1894. The sanitary condition is defective. One major surgical operation was performed. The prevailing diseases were malarial fevers and diseases of the skin, digestive and respiratory systems and spleen. The water-supply from wells and rivers is sufficient and of a fair quality. The total cost was Rs. 114-10-10 and the cost per patient Re. 0-1-4, against Rs. 111-15-2 and Re. 0-0-10 in 1894. Stoppage rules are not in force here.

PANCH MAHA'LS COLLECTORATE

GODHRA CIVIL HOSPITAL.—*In charge of* Surgeon-Major K. H. MISTRY.

Conservancy.—Fair on the whole. The sanitary condition of the Ghanchi quarters has somewhat improved, as it is kept cleaner than before. The old cesspools and pit-privies still exist, but the construction of fresh pit-privies is prohibited, and 10 more open privies accessible to the bhangis have been added.

Water-supply.—Is derived from wells, river and tank. Some of the wells are liable to pollution from insanitary surroundings.

Hospital buildings.—Are in a good state of repair. The old and worn-out ceiling cloth of the prescribing room has been replaced by a new one. The work of enclosing the hospital compound with an iron railing has not yet been taken in hand, although sanctioned in Government Resolution No 2829, dated 30th July 1894.

General health.—Was fair in 1893; bad in 1894, owing to wider prevalence of malarial fevers; in 1895 fairly good, owing to decline in the fever cases.

Attendance of patients.—8,968 out-door and 400 in-door, as compared with 12,200 and 432 in 1894 and 11,052 and 469 in 1893, respectively.

Prevailing diseases.—In their order of frequency were ague, scabies, bronchitis catarrhal, conjunctivitis catarrhal, round worm and ulcer.

Surgical cases.—29 major and 323 minor, against 25 and 400 in 1894 and 25 and 404 in 1893, respectively. The major operations among others were amputations, obstetric operations, excision of tumours and of eyeball, paracentesis abdominis, laryngo-tracheotomy and reduction of dislocations.

Mortality and its causes.—There were 42 deaths in hospital against 30 in 1894 and 55 in 1893. The causes were bronchitis, remittent fever, privation, pneumonia, cholera, diarrhœa, labour and dysentery.

Vaccination.—Is performed by the local fund táluka vaccinator. There were 509 primary and 3 secondary vaccinations, as compared with 422 and 2 in 1894 and 550 and 7 in 1893 respectively.

Medico-legal.—9 *post-mortem* examinations were made and 32 police cases examined, against 6 and 28 in 1894 and 9 and 22 in 1893, respectively.

Conduct of establishment.—Good.

Cost.—The total cost was Rs. 2,658-4-5 and the cost per patient Re. 0-4-6, as compared with Rs. 4,507-9-5 and Re. 0-5-8 in 1894 and Rs. 4,592-9-10 and Re. 0-6-4 in 1893, respectively.

Hospital stoppages.—Rs. 737-10-0 were realized against Rs. 795-5-0 in 1894 and Rs. 677-0-0 in 1893.

GRANT-IN-AID DISPENSARIES.

DOHAD.—*In charge of* Assistant Surgeon M. M. MODY.

The buildings are in a good state of repair. The dispensary was visited by the Collector, the Assistant Collector, the District Deputy Collector and the chairman of the dispensary committee. There were no meetings of the dispensary committee. The sanitary arrangements of the town are imperfect. The water-supply from a large tank and several wells is fairly sufficient in quantity, but is very impure. The total number of patients treated was 7,914 out-door and 208 in-door, as compared with 9,380 and 320 in 1894 and 7,817 and 308 in 1893. The prevailing diseases was malarious fevers, skin affections, intestinal worms and diseases of the digestive and respiratory systems. Cholera prevailed both in the town and neighbouring villages in July, August and September. 8 major and 363 minor surgical operations were performed against 12 and 353 in 1894 and 17 and 287 in 1893, respectively. Vaccination is carried on by a local fund vaccinator. Three *post-mortem* examinations were made at the instance of the Police. The dispensary was inspected by the Civil Surgeon of Panch Mahás in November. The total cost was Rs. 2,456-0-5 and the cost per patient Re. 0-4-10, against Rs. 3,563-13-7 and Re. 0-5-10 in 1894 and Rs. 4,306-1-6 and Re. 0-8-5 in 1893. The receipts from hospital stoppages were Rs. 134-2-0, as compared with Rs. 137-4-0 in 1894 and Rs. 96-14-0 in 1893.

KA'LOL.—*In charge of* Second Class Hospital Assistant JAGJIVAN MAHA'SHANKER, No. 246.

The dispensary building is sufficiently large, but repairs to the floor of the dispensary room and to the verandah are needed. The sanitation of town is fairly good, but the water-supply is not sufficient. The prevailing diseases were skin diseases, malarial fevers, ophthalmia, bowel complaints and ulcers. Vaccination is carried out by the táluka vaccinator. Five *post-mortem* examinations were made at the request of the Police and opinion given in several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Panch Mahals, once in each year. The total treated was 5,398 out-door and 107 in-door patients, as compared with 3,911 and 82 in 1894 and 2,819 and 94 in 1893. The total cost was Rs. 1,192-3-8 and the cost per patient Re. 0-3-5 against Rs. 1,134-8-4 and Re. 0-4-6 in 1894 and Rs. 1,118-10-6 and Re. 0-6-1 in 1893, respectively. The fees under the hospital stoppage system amounted to Rs. 11-1-0 against Rs. 11-8-0 in 1894 and Rs. 7-7-0 in 1893.

JHA'LOD.—*In charge of* Second Class Hospital Assistant CHUNILA'L SANKALCHAND, No. 196.

The dispensary was opened on the 1st April 1893. The building is suitable and in a good state of repair. Furniture and fittings are sufficient. A cupboard for keeping poisons is

required. The dispensary committee visited the dispensary 10 times against 11 times in 1894 and 4 times in 1893. The sanitation of the town is unsatisfactory. The water-supply from a tank and wells is ample, but of inferior quality. The total treated was 5,708 out-door and 72 in-door patients, as compared with 6,248 and 70 in 1894 and 4,879 and 40 in 1893, respectively. The most common diseases were malarial fevers, ophthalmia, bowel complaints and ulcers. 5 major and 322 minor surgical operations were performed, against 8 and 268 in 1894 and 0 and 141 in 1893, respectively. The town was free from epidemic, but cholera prevailed to some extent in the district. There were 3 *post-mortem* examinations held, as compared with 1 in 1894 and 1 in 1893. Opinion was given on several medico-legal cases. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Panch Maháls, once in each year. The total cost was Rs. 1,400-12-8 and the cost per patient Re. 0-3-10, against Rs. 1,002-2-3 and Re. 0-2-6 in 1894 and Rs. 891-5-4 and Re. 0-2-10 in 1893, respectively. The fees under hospital stoppage rules amounted to Rs. 32-3-0, as compared with Rs. 12-11-0 in 1894 and Rs. 11-1-0 in 1893.

TEMPORARY DISPENSARY, HA'LOL.—*In charge of* Third Class Hospital Assistant MUKUND SADA'SHIV, No. 385.

This dispensary was opened on 28th November 1894 in one of the rooms of the Mahálkari's Kutchery. This room is much too small and unsuitable to carry on the dispensary work. The sanitary condition of the town is fair. The water-supply from wells is of good quality. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Panch Maháls. The total number of out-patients treated was 1,883, as compared with 562 in 1894. There is no accommodation for in-door patients. The most common diseases were malarial fevers, bowel complaints, ophthalmia and diseases of the ear and skin. There was no epidemic in the town. The total cost was Rs. 486-11-6 and the cost per patient Re. 0-4-1. The expenditure incurred in 1894 was paid in 1895.

AHMEDABAD COLLECTORATE.

HUTTESING AND PREMA'BHAI CIVIL HOSPITAL, AHMEDABAD.—*In charge of* Surgeon-Lieutenant-Colonel M. L. BARTHOLOMEUSZ, M.B., C.M.

Hospital buildings.—Are in good repair. There have been no alterations or additions, except the addition of a sky-light to the roof of the operating theatre and putting on glazed doors and windows to the low caste ward and paving the verandahs of this ward with burnt tiles.

Water-supply and conservancy.—Nothing new since last report, except that the experimental drainage scheme has proved so far successful that similar drainage is being extended throughout the city under the scientific advice of Mr. Baldwin Latham.

Public health, epidemics and rainfall.—The public health has improved since the introduction of the municipal water-supply, and there have been no epidemics of cholera during the year under review. An epidemic of small-pox, however, occurred in the early part of 1895. The few cases of cholera which were reported as having occurred in the city during the last three years were mostly cases introduced from outside; but the disease never assumed an epidemic form, except in a portion of the municipal area where other than municipal water was used for drinking purposes.

Attendance of patients.—1,798 in-door and 22,740 out-door against 2,142 and 28,584 in 1894 and 1,978 and 26,916 in 1893.

Prevailing diseases.—Malarious fevers, ulcers, boils, scabies, ringworm, local injuries, venereal diseases, diarrhœa, dysentery, conjunctivitis, leprosy (isolated in the Kágra Peith Hospital), bronchitis, pneumonia, phthisis, calculus of the bladder, rheumatism and anæmia.

Surgical operations.—There were 191 major operations performed, against 127 in 1894 and 110 in 1893. The most important were lateral lithotomy, litholapaxy, operations on the eye, amputations, removal of tumours, trephining and rhinoplasty.

Mortality and its causes.—There were 125 deaths in hospital or 6·0 per cent. of the total treated, against 151 or 7·0 per cent. in 1894 and 127 or 6·4 per cent. in 1893. A large number of cases belonged to the mendicant class and were in a state of semi-starvation and almost in a hopeless condition on admission. The chief causes of death were phthisis, pneumonia, leprosy, diarrhœa, dysentery, malarious affections, sloughing ulcers and injuries.

Vaccination.—Is performed regularly by two municipal vaccinators at different stations set apart for the purpose. It is favourably received.

Medico-legal cases.—There were 373 medico-legal cases reported, including 12 *post-mortem* examinations.

Conduct of establishment.—Was satisfactory throughout the year.

Cost.—The total cost was Rs. 11,269-15-9 and the cost per patient Re. 0-7-4, as compared with Rs. 12,642-0-8 and Re. 0-6-6 in 1894 and Rs. 13,808-15-2 and Re. 0-7-7 in 1893, respectively.

Hospital stoppages.—Rs. 28-5-0 were realized, against Rs. 40-2-0 in 1894 and Rs. 50-15-0 in 1893.

GRANT-IN-AID DISPENSARIES.

RANCHHODLA'L DISPENSARY, AHMEDABAD.—*In charge of* Second Grade Assistant Surgeon S. F. GHA'NDHY.

The buildings are kept in a good state of repair. The furniture and fittings are quite sufficient. The dispensary committee visited the dispensary six times. The sanitary condition of the town is fair. The water-supply from Dudheswer water-works is of good quality. The drainage works have been completed in a part of the town. The number treated was 16,697 out-door and 141 in-door patients, against 19,165 and 148 in 1894 and 19,065 and 151 in 1893. The most common diseases were malarial fevers, diseases of the skin and digestive and respiratory systems. Thirty-five major surgical operations were performed, against 51 in 1894 and 36 in 1893. Vaccination is carried on by a municipal vaccinator. The dispensary was inspected by the Civil Surgeon of Ahmedabad and by the Surgeon-General with the Government of Bombay once every year. The total cost was Rs. 3,823-1-8 and the cost per patient Re. 0-3-7, as compared with Rs. 4,074-12-9 and Re. 0-3-4 in 1894 and Rs. 3,701-15-5 and Re. 0-3-0 in 1893, respectively. Hospital stoppage rules are not in force at this dispensary.

VICTORIA JUBILEE DISPENSARY, AHMEDABAD.—*In charge of* Miss M. R. KA'PADIA.

The buildings are kept in a good state of repair. Quarters for the compounders are required. The furniture and fittings are sufficient. The dispensary committee visited the dispensary ten times and the individual members frequently. The total treated was 14,470 out-door and 163 in-door patients, against 16,229 and 167 in 1894 and 17,248 and 148 in 1893, respectively. The most common diseases were malarial fevers and diseases of the skin, generative and respiratory systems, eye and ear. 33 major surgical operations were performed, as compared with 24 in 1894 and 12 in 1893. The dispensary was inspected by the Surgeon-General with the Government of Bombay and by the Civil Surgeon, Ahmedabad, once in each year. The total cost was Rs. 4,955-13-1 and the cost per patient Re. 0-5-5, against Rs. 5,087-6-0 and Re. 0-4-11 in 1894 and Rs. 5,266-12-5 and Re. 0-4-10 in 1893, respectively. Hospital stoppage rules are not in force at this dispensary.

SA'NAND.—*In charge of* First Class Hospital Assistant NASSERVA'NJI PA'LLONJI SETHNA, No. 157.

Repairs to the building, which were not done during the past three years, are now going on and will be shortly finished. A room for surgical operations and quarters for the compounder are much needed. Furniture and fittings are not sufficient. There is no cupboard for current and old records which are kept in the store-room in old deal-wood boxes where they are liable to be eaten away and destroyed by white ants and rats. The committee visited the dispensary every month. The conservancy of the town is well attended to. Water-supply from wells and tanks is good and ample. The principal diseases were malarial fevers, skin, eye, ear and respiratory affections, ulcers and bowel complaints. The total treated was 8,288 out-door and 82 in-door patients, against 8,913 and 81 in 1894 and 9,314 and 69 in 1893, respectively. The general health of the town is good. There was no epidemic disease during the three years. There were 5 major and 256 minor surgical operations performed, against 6 and 169 in 1894 and 6 and 223 in 1893, respectively. Nine *post-mortem* examinations were held against 5 in 1894 and 6 in 1893. Opinion was given in several medico-legal cases. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected once in each year by the Civil Surgeon, Ahmedabad. The amount of hospital stoppages collected during the year was Rs. 173-15-0, against Rs. 139-0-0 in 1894 and Rs. 92-7-6 in 1893, showing that the compounding system is much approved by the people. The total cost was Rs. 1,529-6-6 and the cost per patient Re. 0-2-11 against Rs. 1,732-6-10 and Re. 0-3-0 in 1894 and Rs. 1,653-9-8 and Re. 0-2-9 in 1893.

VIRAMGAUM.—*In charge of* First Class Hospital Assistant HARI KRISHNA RA'YAKAR, No. 129.

The buildings badly want repair. The sanitation of the town is fairly good. The committee visited the dispensary almost every month. The water-supply from wells is of fair quality. The total treated was 6,173 out-door and 195 in-door patients, against 7,211 and 158 in 1894 and 6,065 and 105 in 1893, respectively. The most common diseases were diseases of the skin, malarial fevers, ophthalmia, ulcers, injuries, inflammation of external meatus and bronchitis. 123 cases of cholera with 32 deaths were treated in 1893. There was no epidemic in 1894 and 1895. There were 23 major surgical operations performed, against 13 in 1894 and 10 in 1893. Vaccination is well received by the people, and is carried on by the táluka vaccinator at the dispensary and municipal office. 11 *post-mortem* examinations were made, against 5 in 1894 and 14 in 1893. The dispensary was inspected by the Surgeon-General with the Govern-

ment of Bombay, the Civil Surgeon of Ahmedabad and the Sanitary Commissioner for the Government of Bombay. The total cost was Rs. 2,511-10-8 and the cost per patient Re. 0-6-3, against Rs. 1,381-11-10 and Re. 0-3-0 in 1894 and Rs. 2,979-9-3 and Re. 0-3-6 in 1893, respectively. Rs. 75-9-0 were realized on account of hospital stoppages, as compared with Rs. 146-4-0 in 1894 and Rs. 85-5-0 in 1893.

DHOLKA.—*In charge of* First Class Hospital Assistant BA'BURA'O NA'RA'YAN, No. 122.

The dispensary buildings are in good repair. The furniture and fittings are sufficient and in good order. The dispensary committee met 6 times against 12 in 1894 and 15 in 1893. The sanitation of the town is fairly good. The water-supply from the wells outside the town is abundant, free from soakage and of good quality. The total treated was 8,630 out-door and 107 in-door patients against 6,363 and 96 in 1894 and 6,248 and 89 in 1893, respectively. The prevailing diseases were malarial fevers, neuralgia, diseases of the eye, respiratory and digestive systems and skin and ulcers. No epidemic occurred in 1895 and 1894, but in 1893 cholera appeared in the town at the end of May and lasted till about the middle of June. In all 40 cases occurred and 17 of these proved fatal. During the above period the disease prevailed also in some of the villages of the táluka. There were 9 major surgical operations performed against 3 in 1894 and 4 in 1893. Vaccination is carried on by the municipal vaccinator. 3 *post-mortem* examinations were held at the instance of the Police against 3 in 1894 and 4 in 1893. The number of the medico-legal cases examined and reported on was 130 against 63 in 1894 and 67 in 1893. The Civil Surgeon, Ahmedabad, inspected the dispensary once every year. The total cost was Rs. 1,977-9-7 and the cost per patient Re. 0-3-7, as compared with Rs. 1,639-6-11 and Re. 0-4-0 in 1894 and Rs. 1,557-12-10 and Re. 0-3-11 in 1893, respectively. The total realizations from hospital stoppages, &c., were Rs. 85-10-0 against Rs. 82-6-6 in 1894 and Rs. 84-15-0 in 1893.

DHANDHUKA.—*In charge of* First Class Hospital Assistant BA'BA'JI RA'WUT, No. 76.

The dispensary building is in good condition, but the roofs of the dead-house and two latrines require to be renewed. Roofs of the other out-houses were opened and completed during the year. The usual annual repairs will be executed as soon as the estimate is sanctioned. The dispensary is very convenient for the townspeople, as it is situated in the centre of the town. The furniture and fittings are sufficient and in good order. Writing and operating tables are required; also a few shelves to the store-room. The dispensary committee visited the dispensary 14 times against 15 in 1894 and 20 in 1893. The conservancy arrangements of the town are good. Water-supply of the town, chiefly from wells, is of good quality and sufficient. The total number of patients treated was 5,848 out-door and 63 in-door, as compared with 5,857 and 41 in 1894 and 5,051 and 54 in 1893, respectively. The most common diseases were malarial fevers, ulcers, diseases of the skin, ear and digestive and respiratory systems, local injuries and rheumatic affections. 17 major surgical operations were performed against 10 in 1894 and 7 in 1893. Vaccination is conducted from house to house by the local fund vaccinator. Six *post-mortem* examinations were made, as compared with 5 in 1894 and 6 in 1893. The dispensary was inspected by the Civil Surgeon, Ahmedabad, once in each year. The total cost was Rs. 1,810-4-2 and the cost per patient Re 0-4-10, against Rs. 1,580-2-7 and Re. 0-4-3 in 1894 and Rs. 1,631-1-5 and Re. 0-5-1 in 1893, respectively. The amount collected under the compounding and hospital stoppage systems was Rs. 6-5-0 against Rs. 66-1-0 in 1894 and Rs. 52-2-10 in 1893.

PARA'NTIJ.—*In charge of* Second Class Hospital Assistant BA'PUJI JA'DOW, No. 228.

The buildings are in a good state of repair. The tiled roof of the dispensary hall was replaced by a corrugated iron roof in 1893. The dispensary was frequently visited by the chairman and the members of the committee, as well as by the Collector of Ahmedabad. The sanitary condition of the town, on the whole, is good. The pit dug for night-soil by the Municipality in the close vicinity of the town still exists. Several latrines of bamboo tatee were constructed and carts for removal of filth and receptacles purchased by the Municipality. Water-supply from wells is fair and sufficient. The total treated was 7,197 out-door and 56 in-door patients against 7,712 and 48 in 1894 and 7,662 and 31 in 1893, respectively. The daily average attendance, both in-door and out-door, was 60·6 against 57·6 in 1894 and 58·4 in 1893. The prevailing diseases were malarious fevers, ophthalmia, diseases of the respiratory and digestive systems, itches, ringworm and ulcers. Cholera broke out in the beginning of August and lasted till the commencement of September 1895. It was imported from a village Gumná in the Gáikawár's territory. 13 major surgical operations were performed against 10 in 1894 and 5 in 1893. There were 172 minor operations, as compared with 269 in 1894 and 278 in 1893. Five *post-mortem* examinations were held against 4 in 1894 and 5 in 1893. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Ahmedabad, once in each year. The conduct of the establishment was good. The realizations under the hospital stoppage and compounding systems were Rs. 31-1-0 against Rs. 29-7-0 in 1894 and Rs. 34-12-6 in 1893. The total cost was Rs. 1,228-1-10 against Rs. 1,473-13-9 in 1894 and Rs. 1,903-7-3 in 1893. The cost per patient was Re. 0-2-8, as compared with Re. 0-3-0 in 1894 and Re. 0-3-11 in 1893.

GOGHA.—*In charge of* Second Class Hospital Assistant POPATLA'L LALLUBHA'I, No. 193.

The dispensary buildings are in good repair. The verandah of the dispensary building was paved with Porbandar stones. There are no quarters for the compounder and the dispensary servants. The committee visited the dispensary every month regularly. The sanitary condition of the town was good. The water-supply was fairly sufficient, but of an inferior quality and liable to soakage. The total treated was 8,081 out-door and 43 in-door patients, as compared with 8,147 and 48 in 1894 and 7,152 and 53 in 1893, respectively. The prevailing diseases were malarial fevers, round worms, conjunctivitis, diarrhœa, dyspepsia and respiratory and skin affections. Eight cases of cholera occurred in the town in July and August, when it raged furiously in Bhávnagar, which is only 12 miles distant from this place. 17 major and 503 minor surgical operations were performed against 18 and 812 in 1894 and 6 and 693 in 1893, respectively. Opinion in several medico-legal cases was given. Vaccination is carried on by the táluka vaccinator and is well received by the people. The dispensary was inspected by the Civil Surgeon, Ahmedabad, once in each year. The total cost was Rs. 1,646-2-11 and the cost per patient Re. 0-3-2 against Rs. 1,649-4-10 and Re. 0-3-2 in 1894 and Rs. 1,698-1-11 and Re. 0-3-9 in 1893, respectively. Rs. 72-0-0 were realized under the hospital stoppage system, as compared with Rs. 74-2-0 in 1894 and Rs. 62-9-0 in 1893.

MODA'SA.—*In charge of* Third Class Hospital Assistant JEYSING NAGINDA'S SHA'H, No. 324.

The dispensary buildings are in good order and kept in good repair and white-washed every year. There are no quarters for the Hospital Assistant in the dispensary compound. The furniture and fittings are sufficient, but an operating table and an almirah for poisonous medicines are much needed. The dispensary committee visited the institution seven times. The Collector of Ahmedabad, the Assistant Collector and President of the Modása Municipality and the Mahálkari of this station visited the dispensary once. The town is kept fairly clean by the Municipality, and conservancy arrangements are satisfactory. Water-supply from wells and the Mahájum river is abundant and of a fairly good quality. The total treated was 4,297 out-door and 62 in-door patients, against 3,461 and 60 in 1894 and 3,024 and 35 in 1893. The most common diseases were ague, diseases of the eye, ear, skin and digestive system, ulcers and local injuries. No epidemics of any kind occurred in the town during the last two years. In 1893, twenty-nine cases of cholera were treated at the dispensary with 15 deaths. There were 2 major and 105 minor surgical operations performed, against 2 and 101 in 1894 and *nil* and 123 in 1893, respectively. Vaccination is conducted from house to house by the local fund vaccinator. Three *post-mortem* examinations were made at the request of the Police and opinions given on several medico-legal cases. The dispensary was inspected by the Civil Surgeon, Ahmedabad, once in each year. The total cost was Rs. 966-0-7 and the cost per patient Re. 0-3-6 against Rs. 1,014-2-11 and Rs 0-4-7 in 1894 and Rs. 884-14-9 and Rs. 0-4-7 in 1893, respectively. The fees collected under the hospital stoppage rules amounted to Rs. 34-8-0, as compared with Rs. 18-12-0 in 1894 and Rs. 17-7-0 in 1893.

RA'NPUR.—*In charge of* Third Class Hospital Assistant SHIVARÁM NÁRÁYEN, No. 259.

The dispensary building, a hired one, is in good repair. The dispensary committee met 7 times against 7 in 1894 and 10 in 1893. The sanitation of the town has been fairly good. The water-supply from the river Bhadar and from wells to a certain extent is free from soakage and of good quality. The total number of out-door and in-door patients treated during the year was 4,431 and 30, against 4,451 and 16 in 1894 and 4,603 and 16 in 1893, respectively. The prevailing diseases were malarial fevers, rheumatic affections, diseases of the eye, ear, skin and respiratory and digestive systems and ulcers. There was no epidemic disease either in the town or in its vicinity. Six major surgical operations were performed against 2 in 1894. Vaccination is carried on by the local fund vaccinator. One *post-mortem* examination was made at the instance of the Police against 6 in 1894 and 1 in 1893. The Civil Surgeon, Ahmedabad, inspected the dispensary once every year. The total cost was Rs. 958-6-1 and the cost per patient Re. 0-3-5, as compared with Rs. 1,077-2-3 and Re. 0-3-10 in 1894 and Rs. 797-14-6 and Rs. 0-2-9 in 1893, respectively. The total realizations from hospital stoppage and compounding systems were Rs. 34-14-0 against Rs. 36-11-0 in 1894; there were no receipts under this head in 1893.

MANDAL.—*In charge of* Second Class Hospital Assistant BÁNKAY BEHÁRI, No. 242.

The dispensary was opened in October 1893. The present building in which the dispensary is located does not fulfil any requirements and is unfit for the purpose. It is an old and worn out building, but its roof has been repaired by the Municipality. Vaccination is performed by the táluka vaccinator. The dispensary committee visited the dispensary regularly. The dispensary was also visited by the District Deputy Collector and President and by the Mámlatdár of Viramgám. The water-supply from wells and tank is somewhat brackish. Conservancy arrangements of the town were fairly good. The dispensary was inspected by the Civil Surgeon, Ahmedabad, once every year. 7 major and 391 minor surgical operations were performed as compared with 8 and 298 in 1894 and *nil* and 46 in 1893, respectively. The total treated was 4,260 out-door and 11 in-door patients, as compared with 4,099 and 4 in 1894 and 1,191 and 0 in 1893, respectively. The most common diseases were ague, inflammation of the external ear, bronchitis, scabies, ringworm and ulcers. There was no epidemic disease either

in the town or in its vicinity. One *post-mortem* examination was held at the request of the Police. The total cost was Rs. 1,328-7-6 and the cost per patient Re. 0-4-11, as compared with Rs. 1,255-15-10 and Re. 0-4-10 in 1894 and Rs. 173-15-2 and Re. 0-2-4 in 1893, respectively. Receipts under the hospital stoppage system were Rs. 57-7-0 against Rs. 126-4-0 in 1894; there were no receipts under this head in 1893.

LORD HARRIS TRAVELLING DISPENSARY, DASKROI TÁLUKA, AHMEDABAD.—*In charge of* Third Class Hospital Assistant PHIROZSHA EDALJI BHARUCHA, No. 289.

The dispensary was started on the 20th May 1895. The dispensary committee met thrice during the year. The total treated was 4,616 out-door patients, of whom 2,133 were men, 967 women and 1,516 children, giving a daily average strength of 17·0, 7·1 and 11·2, respectively. The most common complaints were malarial fevers and eye, ear, skin and respiratory affections. There was no epidemic. The water-supply is ample and fairly good in quality. The sanitary condition of the villages in the Daskroi Táluka is unsatisfactory. There were 104 minor surgical operations performed. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon of Ahmedabad on the 10th December 1895. The total cost was Rs. 870-15-10 and the cost per patient Re. 0-3-0.

ENDOWED DISPENSARY.

BAICHARDA'S DISPENSARY, AHMEDABAD.—*In charge of* Assistant Surgeon K. B. COOPER.

The dispensary buildings are in good repair and the furniture and fittings in good order. The committee held 12 meetings. The water-supply from the new water-works is good and abundant. Sanitation and conservancy is fairly well attended to by the Municipality. The total treated was 24,680 out-door and 80 in-door patients, as compared with 26,202 and 104 in 1894 and 22,606 and 97 in 1893, respectively. The most common complaints were ague, conjunctivitis, bronchitis, scabies and ulcer. There was no epidemic. There were 89 major surgical operations performed, including 16 lithotomies, and 1,020 minor operations, against 77 and 1,024 in 1894 and 62 and 901 in 1893, respectively. Vaccination is carried out by the municipal vaccinator. The dispensary was inspected by the Surgeon-General with the Government of Bombay and by the Civil Surgeon of Ahmedabad once in each year. The total cost was Rs. 5,639-2-8 and the cost per patient Re. 0-3-7, as compared with Rs. 5,588-11-1 and Re. 0-3-4 in 1894 and Rs. 5,429-4-1 and Re. 0-3-9 in 1893, respectively. Hospital stoppages amounted to Rs. 83-2-0, against Rs. 53-10-0 in 1894 and Rs. 36-12-0 in 1893.

MUNICIPAL DISPENSARIES.

RA'IPUR DISPENSARY, AHMEDABAD.—*In charge of* First Class Hospital Assistant BHA'U SUCCA'RA'M, No. 27.

The buildings have been kept in good repair. Furniture and fittings are sufficient and in good order. The dispensary was visited every month by the dispensary committee. The total treated were 12,227 out-door and 13 in-door patients, as compared with 14,561 and 24 in 1894 and 16,291 and 49 in 1893, respectively. The average daily attendance, both in-door and out-door, was 115·9, against 138·5 in 1894 and 161·7 in 1893. Only four cases of cholera were treated in 1895; of these 2 proved fatal. There was one case of cholera in 1893 and none in 1894. The most common diseases were malarious fevers and diseases of the eye, ear, skin and digestive and respiratory systems. The dispensary was inspected by the Civil Surgeon, Ahmedabad, and by the Surgeon-General with the Government of Bombay, once every year. There were 11 major and 591 minor surgical operations performed, against 17 and 562 in 1894 and 14 and 628 in 1893, respectively. The number of children vaccinated at the dispensary by the municipal vaccinator during 1893, 1894 and 1895 was 723, 737 and 865, respectively. The sanitary arrangements of the city are looked after by the Municipal Health Officer specially appointed for the purpose. Since 1891 fresh water is supplied to the city, a part of which has now been provided with under-ground drainage. At present the water-supply is plentiful and cheap. The city of Ahmedabad has made a marked progress both as regards drainage and pure water-supply, and though, as a result of this, the attendance at this dispensary exhibits a slight falling off, the institution continues to maintain its popularity and usefulness on the whole. The total cost was Rs. 2,546-4-8 and the cost per patient Re. 0-3-3, as compared with Rs. 2,835-9-0 and Re. 0-3-1 in 1894 and Rs. 2,001-1-3 and Re. 0-1-11 in 1893, respectively. The hospital stoppage rules are not in force in this dispensary.

VIRAMGAUM BRANCH DISPENSARY.—*In charge of* Third Class Hospital Assistant CHUNILA'L NAGARDA'S KINA'RIWA'LA, No. 315.

The dispensary was first opened, as a temporary measure, for the relief of patients suffering from the effects of malaria. In the year 1893 the epidemic of cholera caused the dispensary to be opened for nearly the whole year. The people took great advantage of its situation in the heart of the town, as it will be seen that the attendance and admission was higher than that of the main dispensary. Seeing the usefulness of the institution, the Municipality resolved for its permanent establishment and got it recognized by Government Resolution No. 4802, dated the 9th December 1894. The dispensary building, a hired one, is quite unsuited for the purpose, there being a very small and unsafe room for stores and only one

room for examining patients, prescribing and compounding. The waiting place is an enclosed yard without any protection from rain or sun. The furniture is sufficient. The dispensary committee visited the dispensary eight times. Water-supply from wells is ample and of a fair quality. The total treated was 7,332 out-door patients against 8,052 in 1894 and 7,363 in 1893. The most common diseases were skin affections, malarial fevers, ulcers, dyspepsia, conjunctivitis, otorrhœa and bronchitis. Cholera was epidemic in 1893 only, when 102 cases were treated with 22 deaths. Vaccination is carried out by the táluka vaccinator at the municipal office. The dispensary was inspected by the Civil Surgeon of Ahmedabad. The total cost was Rs. 1,690-6-1 and the cost per patient Re. 0-3-8, against Rs. 827-6-9 and Re. 0-1-7 in 1894, respectively. The fees received under the compounding system amounted to Rs. 63-12-0 as compared with Rs. 81-13-0 in 1894.

SELF-SUPPORTING DISPENSARY.

DHOLERA.—*In charge of* First Class Hospital Assistant MULLOO SAYEE, No. 58.

The dispensary building, a hired one, is kept in good repair, as a sum of Rs. 36 is allowed annually for white-washing. Vaccination is performed by the táluka vaccinator. The committee visited the dispensary regularly every month. It was also visited by the Assistant or Deputy Collector in charge of the Division, the President and the Mámlatdár of Dhándhuka, the present Chairman of the dispensary committee. The water-supply generally from tanks is insufficient and brackish. Conservancy arrangements of the town are fairly satisfactory. The dispensary was inspected by the Civil Surgeon, Ahmedabad, once every year. The total treated was 6,889 out-door and 66 in-door prtients against 6,151 and 70 in 1894 and 5,648 and 76 in 1893, respectively. The most common diseases were malarial fevers, rheumatism, diseases of the eye, ear, skin and digestive system, bronchitis and ulcers. There was no epidemic disease during the years 1895 and 1894. Cholera had made its appearance in 1893; only two cases of the disease occurred in the town, while it gave many cases in a village three miles distant. There were 649 minor surgical operations performed, as compared with 494 in 1894 and 437 in 1893. Opinion was given on several medico-legal cases. The total cost was Rs. 1,611-9-2 and the cost per patient Re. 0-3-8 against Rs. 1,717-3-5 and Re. 0-4-4 in 1894 and Rs. 1,285-11-8 and Re. 0-3-7 in 1893, respectively. The hospital stoppage rules are not in force at this dispensary.

GOVERNMENT DISPENSARY.

KHA'RA'GHODA.—*In charge of* Assistant Surgeon R. J. KA'PADIA, L.M. & S.

The dispensary buildings and out-houses are in good repair. Furniture and fittings are sufficient and in good order. There is no dispensary committee, but the Collector and the Assistant Collector of Khárághoda visit the dispensary often. The conservancy arrangements of the camp are fair, and the building of pucca latrines for peons and establishment is under construction. The construction of such latrines for salt labourers is much desirable, as they resort to fields which are situated on low grounds, for calls of nature, and which are washed by rain to the neighbouring tank where water for culinary and drinking purposes is stored. The water-supply is carried into the camp by pipes from a tank built for the purpose where rain water is collected. It was deficient during the year, owing to scanty rainfall, and contained much saline. The total treated was 4,518 out-door and 23 in-door patients, as compared with 4,817 and 32 in 1894 and 4,435 and 18 in 1893, respectively. The most common complaints were, as usual, malarial fevers, ophthalmia, ulcers and skin, bowel and respiratory affections. There was no epidemic. There were 6 major and 106 minor surgical operations performed against 10 and 108 in 1894 and 3 and 105 in 1893, respectively. Opinion was given in 7 medico-legal cases, as compared with 14 in 1894 and 2 in 1893. Vaccination is carried out by the Assistant Surgeon at the dispensary. The number of children vaccinated was 21 against 19 in 1894 and 38 in 1893. The dispensary was inspected by the Civil Surgeon of Ahmedabad once in each year and by the Surgeon General with the Government of Bombay in 1895. The amount realized under the hospital stoppage system was Rs. 35-10-0, as compared with Rs. 25-9-0 in 1894 and Rs. 88-1-0 in 1893. The total cost was Rs. 3,244-0-11 and the cost per patient Re. 0-11-5, against Rs. 3,347-6-7 and Re. 0-11-0 in 1894 and Rs. 3,150-9-9 and Re. 0-11-3 in 1893, respectively.

MAHI KA'NTHA AGENCY.

SA'DRA CIVIL HOSPITAL.—*In charge of* Assistant Surgeon D. E. ANKLESARIA, L.M. & S.

Conservancy.—Of the Sádra bazar fair, but capable of being improved upon by the erection of a few public latrines and urinals, and an increase in the number of sweepers; that of the Sádra village continues to be unsatisfactory.

Water-supply.—Ample, from the river Sábarmati, but of inferior quality. The wells in the Sádra bazaar limits ought to be periodically cleaned.

Hospital buildings.—They are in a fair state of repair. A separate ward for the Agency Police, a properly fitted up store-room, two rooms for servants, a kitchen for in-patients are very much needed. A proposal for these is before Government, and it is expected to be favourably considered. The dead-house should be in the hospital compound. The furniture has become old and some new articles, *viz.*, cots, cot tapes, kamlis, sheets, a table for the dead-house, &c., are badly required.

General health.—On the whole, good. In 1893 and 1894 there was neither small-pox nor cholera, but in the latter year measles prevailed extensively. In 1895 there was a mild and short epidemic of cholera. Small-pox prevailed for a long time.

Attendance of patients.—12,465 out-door and 235 in-door, as compared with 13,295 and 270 in 1894 and 12,031 and 268 in 1893, respectively.

Prevailing diseases—Skin diseases, malarial fevers, eye and respiratory affections, bowel complaints and ulcers.

Surgical operations.—69 major and 598 minor against 79 and 684 in 1894 and 49 and 535 in 1893, respectively. Among the major, the most important were extraction of the lens, lithotomies, removal of tumours, reduction of dislocations, amputations and paracentesis of abdomen.

Mortality and its causes.—There were 3 deaths against 4 in 1894 and 1 in 1893. The causes were chronic Bright's disease, simple continued fever and fracture of skull.

Vaccination.—Is performed by the Assistant Surgeon for six months of the year from arm to arm. There were 227 primary vaccinations against 145 in 1894 and 178 in 1893. Of these, 200, 141 and 160, respectively, were successful. Of the 26 cases of revaccination only in 1895, 18 were successful and in 8 the result was not known.

Medico-legal.—6 *post-mortem* examinations were held and opinion given in 8 medico-legal cases, as compared with 3 and 16 in 1894 and 3 and 11 in 1893, respectively.

Conduct of establishment.—Was satisfactory.

Remarks.—The services of a ward boy and a cook are urgently needed, as the in-door patients (upwards of 200 a year) have to make their own arrangements for food and cooking. This is a serious drawback, the institution being used for in-door treatment in surgical cases especially. These wants have been much felt for the last 10 years, and it is high time they should now be supplied.

Cost.—The total cost was Rs. 856-4-5 and the cost per patient Re. 0-1-0, as compared with Rs. 1,598-6-5 and Re. 0-1-10 in 1894 and Rs. 3,560-2-1 and Re. 0-4-7 in 1893, respectively.

Hospital stoppages.—Rs. 39-0-0 were realized against Rs. 72-10-5 in 1894 and Rs. 46-13-0 in 1893.

NATIVE STATE DISPENSARIES.

MANSA.—*In charge of* Second Class Hospital Assistant BHUYAHSING, No. 174.

The dispensary building is suitable for the purpose, but there are no wards for in-patients, nor quarters for second class servants. Quarters for the Hospital Assistant were built in 1894 and a privy in 1895. The conservancy is well attended to by the State Manager. There is no Municipality. The water-supply from wells is ample and of good quality; that from tanks is used for bathing and washing purposes only. There is no dispensary committee. The dispensary was visited by the Political Agent, Mahi Kántha, and the State officers in each year. The general health was not satisfactory. There was no epidemic in 1894, but cholera prevailed in 1893 and 1895. Small-pox broke out also in 1893. The total treated was 6,776 out-door patients against 8,378 in 1894 and 7,286 in 1893. One in-patient was treated in 1895, being a case of tetanus resulting from abortion. The prevailing diseases were malarial fevers and diseases of the respiratory, digestive and cutaneous systems, eye, ear and spleen. There were 2 major and 185 minor surgical operations performed against 3 and 362 in 1894 and 5 and 616 in 1893, respectively. Vaccination was carried on by the táluka vaccinator. The total cost was Rs. 1,594-7-0 and the cost per patient Re. 0-3-6, as compared with Rs. 2,052-3-4 and Re. 0-3-11 in 1894 and Rs. 1,404-7-6 and Re. 0-3-1 in 1893, respectively.

SATLA'SNA.—*In charge of* Third Class Hospital Assistant CHIMANLA'L MAHA'SUKHRA'M, No. 322.

The dispensary was opened on the 1st January 1894 in a hired building, which is quite unsuitable for the purpose, though kept in a fair state of repair. Furniture and fittings are sufficient. The want of a compounder and a dead-house is greatly felt. The dispensary was visited once by the Political Agent, the Assistant Political Agent and the Personal Assistant to the Political Agent, Mahi Kántha. The sanitary condition of the town is fair. The water-supply from wells is sufficient but of a much inferior quality. The total treated was 2,107 out-door patients against 1,401 in 1894. The prevailing diseases were malarial fevers, skin affections, ophthalmia and bowel complaints. There was no epidemic. There were 59 minor surgical operations performed, as compared with 51 in 1894. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Assistant Surgeon of Sádra. The total cost was Rs. 1,140-10-9 and the cost per patient Re. 0-8-7 against Rs. 739-6-2 and Re. 0-8-5 in 1894, respectively.

KA'THIA'WA'R.

WEST HOSPITAL, RA'JKOT—*In charge of* Surgeon-Lieutenant-Colonel J. MCCLOGHRY. F.R.C.S.I.

Conservancy.—Satisfactory. As before on the trench system. The night-soil is used for garden purposes.

Water-supply.—Lake water is supplied for hospital use. A supply for the garden still remains a great want.

Hospital building.—There is a great need for a separate dispensary for out-door patients. Suggestions are made to convert the ulcer ward into a dispensary and examination room for out-door patients, making the necessary divisions of the ward. A small dharmsála in the hospital compound for the use of patients' friends and relatives, coming from a distance, is much needed in order to obviate their inconvenience and prevent the disturbance of the sick in the hospital. In other respects the building is complete. Two temporary privies were erected by the Agency Engineering Department on both sides of the eye ward. This was done for the accommodation of European patients who have been treated in these wards.

General health.—Cholera prevailed to some extent in autumn in the town of Rájkot.

Details of treated.—5,164 out-door and 891 in-door patients were treated against 4,697 and 817 in 1894 and 3,693 and 999 in 1893, respectively.

Prevailing diseases.—Were malarial fevers, diseases of the skin, eye, ear and digestive system, respiratory and rheumatic affections, worms and ulcers.

Surgical operations.—152 major surgical operations were performed against 123 in 1894 and 107 in 1893. Among them there were litholapaxy, removal of tumours, lateral lithotomy, cataract operations, paracentesis abdominis, amputations, opening of large abscesses, recto-vesical fistula and entropion.

Mortality and its causes.—28 deaths occurred among in-patients against 35 in 1894 and 26 in 1893. The chief causes were cholera, phthisis, diarrhœa, calculus vesical, valvular diseases, malarial cachexia and dysentery.

Vaccination.—Not done at the hospital, but by the station vaccinator, as usual, under the superintendency of the Medical Officer, Káthiáwár Political Agency and in charge West Hospital, Rájkot.

Medico-legal cases.—11 cases as under:—1 dead body, 3 wounds, 2 abrasions, 3 ecchymosis, 1 multiple injuries and 1 ulcer surrounding anus.

Conduct of establishment.—The conduct of the establishment continues to be good.

General remarks.—Assistant Surgeon E. S. Bharucha was transferred to the Byramji Jijibhoy Medical School, Poona, on the 5th June 1895, being relieved by Assistant Surgeon A. G. Hákim, who in his turn was succeeded by Assistant Surgeon J. E. Bocarro on the 7th July 1895. Miss Goldney still continues with unabated energy to keep the institution in that high state of cleanliness so necessary in a hospital where such a large proportion of surgical cases are treated.

Cost.—The total cost was Rs. 11,526-9-5 and the cost per patient Re. 1-14-5 as compared with Rs. 9,667-12-1 and Re. 1-12-0 in 1894 and Rs. 9,081-7-10 and Re. 1-14-11 in 1893, respectively.

Hospital stoppages.—Rs. 17-9-0 were realized against Rs. 25-7-0 in 1894 and Rs. 13-7-0 in 1893.

GRANT-IN-AID DISPENSARIES.

WADHWÁN.—*In charge of* Assistant Surgeon THA'KORDA'S KIKA'BHA'I DALA'L.

The dispensary building and its out-houses are in good repair. The new cook-room is under course of construction. The dispensary is under the direct supervision of the Assistant Political Agent, Jhálávár Pránt, who visits it from time to time. The sanitation of the town is good. Water-supply from wells and bed of the river Bhogano has much improved. The total treated was 7,711 out-door and 183 in-door patients against 8,186 and 189 in 1894 and 6,622 and 191 in 1893, respectively. The most common diseases were malarial fevers, diseases of the skin, eye, ear and digestive and respiratory systems, intestinal worms and rheumatic affections. 23 major and 329 minor surgical operations were performed against 12 and 286 in 1894 and 14 and 248 in 1893, respectively. Vaccination is carried out by the district vaccinator. 16 medico-legal cases were examined and reported upon against 24 in 1894 and 20 in 1893. The total cost was Rs. 6,746-11-3, as compared with Rs. 6,605-10-6 in 1894 and Rs. 6,337-8-2 in 1893. The cost per patient was Re. 0-13-8, as compared with Re. 0-12-7 in 1894 and Re. 0-14-10 in 1893. The hospital stoppage rules are not in force.

SONGAD.—*In charge of* Mr. KESHAVLA'L ICHA'CHAND.

The dispensary buildings are in good order. A *post-mortem* room was added during the year 1895. The dispensary is under the direct supervision of the Assistant Political Agent, Gohelvád Pránt, who visits it frequently. The sanitary condition of the station is good

Water-supply is good and ample. The most prevailing diseases were fevers and diseases of the eye, skin, connective tissues and respiratory and digestive systems. There were 1,664 out-door patients against 1,692 in 1894 and 1,526 in 1893. Two in-door patients were treated in 1895. The average daily attendance was 26·8 out-door against 25·5 in 1894 and 22·8 in 1893. There were 2 major surgical operations performed. Minor operations numbered 92 against 59 in 1894 and 67 in 1893. Two *post-mortem* examinations were held and 15 medico-legal cases examined and reported upon. The dispensary was inspected by the Medical Officer, Káthiáwár Political Agency, once in each year. No epidemic had prevailed in the station during the three years. Vaccination is carried out by the district vaccinator, and is favourably received by the people. The total cost was Rs. 1,173-9-11 and the cost per patient Re. 0-11-3, as compared with Rs. 1,207-12-5 and Re. 0-11-5 in 1894 and Rs. 1,278-12-6 and Re. 0-13-4 in 1893, respectively. The hospital stoppage rules are not in force.

JETALSAR.—*In charge of* Third Class Hospital Assistant CHUNILA'L PRA'NJIVANDA'S, No. 352.

The dispensary building is in good repair. The furniture and fittings are sufficient. The water-supply is pure and sufficient. The total treated was 35 in-door and 1,130 out-door patients against 50 and 1,552 in 1894 and 37 and 1,310 in 1893, respectively. The prevailing diseases were malarial fevers, diseases of the skin and digestive and respiratory systems and ulcers. The dispensary was inspected by the Medical Officer to the Káthiáwár Political Agency, Rájkot, once in each year. Vaccination is carried out by the Agency vaccinator. The total cost was Rs. 1,305-1-3 and the cost per patient Re. 1-1-11, as compared with Rs. 1,133-3-4 and Re. 0-11-3 in 1894 and Rs. 1,262-14-7 and Re. 0-15-0 in 1893, respectively. The hospital stoppage rules are not in force.

PA'LANPUR AGENCY.

SUPERINTENDENCY HOSPITAL, PA'LANPUR—*In charge of* Assistant Surgeon J. P. WA'DIA.

Conservancy.—Is well attended to.

Water-supply.—Good and ample.

Hospital buildings.—Are in a fair state of repair. Furniture and fittings are sufficient. The hospital has been located since 6th March 1895 in the Travellers' bungalow—a building belonging to the Pálanpur Darbár. A new building is in course of construction.

General health.—Good, though cholera prevailed in the town to some extent in the months from June to September 1895.

Attendance of patients.—3,764 out-door and 238 in-door, as compared with 2,160 and 213 in 1894, respectively.

Prevailing deseases.—Malarial fevers, lung and skin affections and digestive disorders.

Mortality and its causes.—There were 2 deaths from cholera and exhaustion against 1 from pneumonia in 1894.

Cost.—The total cost was Rs. 1,821-14-5 and the cost per patient Re. 0-7-3.

CUTCH AGENCY.

BHÚJ CIVIL HOSPITAL.—*In charge of* Dr. B. J. DAMANIA.

Conservancy.—Is satisfactory.

Water-supply—Abundant from wells and tanks.

Hospital building.—In good order.

General health—Fair. Small-pox prevailed to some extent in winter.

Details of treated.—587 in-door and 9,040 out-door patients against 519 and 11,321 in 1894 and 663 and 12,502 in 1893, respectively.

Prevailing diseases.—Malarial fevers, worms, rheumatic, skin and bronchial affections, dysentery, diarrhœa and ulcers.

Surgical operations.—137 major against 105 in 1894 and 124 in 1893. The most important were extraction of lens, removal of cystic and glandular tumours, ovariotomy, paracentesis of abdomen, lithotomies, amputations of the thigh, fore-arm, leg and foot at the ankle joints.

Mortality and its causes.—Among in-door patients there were 20 deaths against 24 in 1894 and 19 in 1893, due to diarrhœa, dysentery, phthisis, valvular disease of the heart and vesical calculus.

Vaccination.—Is carried out satisfactorily at the expense of the State. There were 2,565 primary and 360 secondary vaccinations, of which 2,415 were successful, 487 unsuccesful and 23 unknown.

Conduct of the establishment.—Very satisfactory.

Cost.—The total cost was Rs. 15,117-14-10 and the cost per patient Re. 1-9-1 against Rs. 14 661-4-8 and Re. 1-3-9 in 1894 and Rs. 14,813-11-5 and Re. 1-2-0 in 1893, respectively.

NATIVE STATE DISPENSARIES.

CUTCH-BHÚJ.—*In charge of* Mr. PRÁNLÁL MOHANLÁL.

The dispensary was opened on 10th May 1895. The dispensary building is very small and inconvenient, and some additions and alterations are required. Furniture and fittings are not sufficient. The conservancy is well looked after. The sanitary condition of the town is satisfactory. The water-supply from wells is good and sufficient. The total treated was 11,779 out-door patients. The most common complaints were malarial fevers, diseases of the skin and respiratory and digestive systems, worms, ophthalmia and ulcers. There were 270 minor surgical operations performed. Vaccination is carried out by the State vaccinator. The Chief Medical Officer of Bhúj inspected the dispensary in June 1895. The total cost was Rs. 1,205-7-2 and the cost per patient Re. 0-1-7.

CUTCH-MÁNDVI DISPENSARY.—*In charge of* Dr. M. D. KARANJIA, L.M. & S., L.R.C.P., M.R.C.S., &c.

The dispensary building is well situated and in good repair. The sanitary and conservancy arrangements are fair. The water-supply is fair. The total treated was 12,240 out-door and 152 in-door patients, as compared with 11,154 and 134 in 1894 and 11,532 and 172 in 1893, respectively. The prevailing diseases were worms, skin and respiratory affections, ophthalmia, bowel complaints and malarial fevers. There was only one case of cholera treated against 2 in 1894. There were 40 major and 463 minor surgical operations performed, as compared with 22 and 512 in 1894 and 33 and 582 in 1893, respectively. Vaccination is carried out by the State vaccinator. The dispensary was inspected by the Chief Medical Officer, Bhúj, and by the Political Agent, Cutch. The total cost was Rs. 5,650-13-2 and the cost per patient Re. 0-7-3 against Rs. 6,447-14-9 and Re. 0-9-1 in 1894 and Rs. 6,421-12-8 and Re. 0-10-6 in 1893, respectively.

DATTUBHA'I IBHRA'HIM DISPENSARY, CUTCH-MA'NDVI.—*In charge of* Mr. ROWJI JADOWJI.

The dispensary building is in a good state of repair. Furniture and fittings are sufficient and in good order. The sanitary condition of the town has somewhat improved of late. The water-supply from wells in the beds of a large tank is sufficient but brackish. The total treated was 11,776 out-door patients, as compared with 10,901 in 1894 and 9,783 in 1893. There were 17 in-door patients in 1895. The most common complaints were malarial fevers, intestinal worms, ophthalmia, diarrhœa, dysentery and skin, joint and respiratory affections. There was no epidemic disease. There were 5 major and 267 minor surgical operations performed against 1 and 232 in 1894 and 0 and 231 in 1893, respectively. The dispensary was inspected by the Chief Medical Officer, Bhúj, once in each year. The total cost was Rs. 2,148-14-2 and the cost per patient Re. 0-2-10, as compared with Rs. 2,618-8-2 and Re. 0-3-10 in 1894 and Rs. 2,392-1-1 and Re. 0-3-3 in 1893, respectively.

CUTCH-ANJA'R.—*In charge of* Mr. ATMA'RA'M.

The building is in good repair. Furniture and fittings are sufficient. Conservancy is well attended to by the Municipality. The water-supply is good and abundant. The total treated was 76 in-door and 15,526 out-door patients, against 76 and 16,450 in 1894 and 74 and 14,814 in 1893, respectively. The prevailing diseases were ague, worms, rheumatism, diseases of the eye, ear, respiratory and digestive systems and skin, abscess and ulcer. Small-pox and measles were more or less prevalent. Eight major surgical operations were performed against 12 in 1894 and 7 in 1893. The dispensary was inspected by the Chief Medical Officer, Cutch. The State vaccinator carries on the work of vaccination. The total cost was Rs. 3,102-4-9 and the cost per patient Re. 0-3-2, against Rs. 3,097-8-4 and Re. 0-2-11 in 1894 and Rs. 2,884-8-11 and Re. 0-3-1 in 1893, respectively.

CUTCH-NA'LIYA.—*In charge of* Mr. MANISHANKAR.

The building, a hired one, is unsuitable for dispensary purposes. The conservancy of the town is fairly attended to. The water-supply from tanks and wells is of good quality. The total treated was 6,167 out-door patients, as compared with 5,967 in 1894 and 6,293 in 1893. The most common complaints were malarial fevers, worms and diseases of the eye, ear, skin and respiratory system. Vaccination is carried on by the State vaccinator. The dispensary was inspected by the Chief Medical Officer, Bhuj, once in each year. The total cost was Rs. 1,170-14-6 and the cost per patient Re. 0-3-0, against Rs. 1,269-1-1 and Re. 0-3-4 in 1894 and Rs. 1,335-5-9 and Re. 0-3-4 in 1893, respectively.

CUTCH-RA'PUR.—*In charge of* Mr. BHAWA'NJI KARAMSI.

The dispensary building is in a good state of repair. The furniture and fittings are sufficient and in goood order. Conservancy is well attended to. The water-supply from wells situated in the beds of the river is sufficient and of good quality The total treated was 3,900 out-door and 45 in-door patients, as compared with 4,747 and 46 in 1894 and 4,651 and 41 in 1893, respectively. The prevailing diseases were bowel complaints, skin affections, ulcers,

ophthalmia and malarial fevers. There was no epidemic. There were 3 major and 364 minor surgical operations performed, against 3 and 245 in 1894 and 3 and 237 in 1893, respectively. Vaccination is carried out by the State vaccinators. The dispensary was inspected by the Chief Medical Officer of the Cutch State once annually. The total cost was Rs. 1,736-2-8 and the cost per patient Re. 0-7-0, as compared with Rs. 1,380-11-9 and Re. 0-4-7 in 1894 and Rs. 1,433-7-4 and Re. 0-4-10 in 1893, respectively.

CUTCH-BACHA'O.—*In charge of* Mr. DHARAMSI OOMARSI.

The building is in good repair. The furniture and fittings are sufficient. There is no committee. The water-supply is sufficient and good. The sanitary condition of the town is fair. The total treated was 5,020 out-door patients, as compared with 5,165 in 1894 and 4,813 in 1893. The prevailing diseases were malarial fevers, worms, conjunctivitis, inflammation of the external ear, bronchitis, skin diseases and ulcers. Small-pox prevailed to a slight extent in the city and its vicinity. Four major surgical operations were performed, against three in 1894 and four in 1893. Vaccination is conducted by the State vaccinator. The dispensary was inspected by Dr. B. J. Damania, the Chief Medical Officer, Cutch. The total cost was Rs. 972-11-8 and the cost per patient Re. 0-3-1, against Rs. 951-4-10 and Re. 0-2-11 in 1894 and Rs. 1,053-13-8 and Re. 0-3-6 in 1893, respectively.

LA'LJI SOMAN DISPENSARY, CUTCH-MUNDRA.—*In charge of* Mr. HIRJI HANSRA'J.

The dispensary and buildings are in good state. Furniture and fittings are in good order. The town is kept clean by the Municipality. Water-supply, chiefly from wells, is good and abundant. The total treated was 7,181 out-door and 68 in-door patients, against 8,067 and 87 in 1894 and 7,310 and 78 in 1893, respectively. The most common diseases were malarial fevers, ascaris lumbricoides, rheumatic affections, conjunctivitis, affections of the external ear and skin, dyspepsia and ulcer. There was no epidemic disease. Vaccination is carried on by the State vaccinators. More than 2,500 children were vaccinated during the year. Two major surgical operations were performed against *nil* in 1894 and 2 in 1893. The total cost was Rs. 2,503-6-4 and the cost per patient Re. 0-5-6, as compared with Rs. 2,621-1-2 and Re. 0-5-1 in 1894 and Rs. 2,464-15-7 and Re. 0-5-4 in 1893, respectively.

CUTCH-NA'RA'YAN SAROVAR.—*In charge of* Mr. MULJI HARRIRA'M.

The dispensary building, a hired one, is in good repair, but not suitable for the purpose. The furniture and fittings are sufficient and in good order. The sanitary condition of the town allows of much improvement. The water-supply from tanks is abundant and good. The total treated was 3,702 out-door patients, as compared with 3,866 in 1894 and 3,773 in 1893. The prevailing diseases were ophthalmia, skin and respiratory affections, ulcers, bowel complaints, dyspepsia and malarial fevers. A few cases of measles occurred in the town and its vicinity. There were 3 major and 152 minor surgical operations performed, against 3 and 213 in 1894 and 1 and 181 in 1893, respectively. Vaccination is conducted by vaccinators at the expense of the Cutch State. The total cost was Rs. 982-7-3 and the cost per patient Re. 0-4-2, as compared with Rs. 981-1-6 and Re. 0-4-0 in 1894 and Rs. 955-2-9 and Re. 0-4-0 in 1893, respectively.

GA'NGJIBHA'I DISPENSARY, CUTCH-KERU.—*In charge of* Mr. KUVERJI D. MEHTA.

The dispensary was opened on the 1st January 1893. The buildings are suitable, but require white-washing. Furniture and fittings are sufficient and in good order. No attention is paid to the sanitation of the town. Water-supply from wells and a tank is abundant and of good quality. The total treated was 4,265 out-door, as compared with 3,938 in 1894 and 3,213 in 1893. There were 39 in-door patients in 1895. The most common complaints were skin and respiratory affections, ulcers, diseases of the digestive system, eye and ear, malarial fevers and worms. Cholera prevailed in a mild form in the vicinity of the town. There were 3 major and 299 minor surgical operations performed, against *nil* and 286 in 1894 and 2 and 147 in 1893, respectively. Vaccination is conducted by the State vaccinator. The dispensary was inspected by the Chief Medical Officer and the Diván of Cutch. The total cost was Rs. 1,428-0-10 and the cost per patient Re. 0-5-3, as compared with Rs. 1,250-6-8 and Re. 0-5-0 in 1894 and Rs. 1,248-2-9 and Re. 0-6-2 in 1893, respectively.

MHOW.

ENDOWED DISPENSARY.

DORA'BJI PESTONJI DISPENSARY, MHOW.—*In charge of* Pensioned Hospital Assistant KISHNA'PPA'H.

The hospital building is in excellent order. The cleanliness and conservancy of the bazár and its suburbs are most carefully attended to. The water-supply is good and abundant. The total treated was 9,408 out-door and 55 in-door patients, as compared with 9,449 and 55 in 1894 and 9,673 and 35 in 1893, respectively. The prevailing diseases were malarial fevers, diseases of the digestive and respiratory systems, skin and eye and local injuries. Several cases of small-pox occurred from March to December 1895, but not of a virulent type. A few cases of cholera occurred amongst the troops during September 1895. The total cost was Rs. 2,174-0-2, as compared with Rs. 2,160-4-2 in 1894 and Rs. 2,124-15-3 in 1893. The cost per patient averaged Re. 0-3-8, against Re. 0-3-7 in 1894 and Re. 0-3-6 in 1893. The hospital stoppage rules are not in force.

KARÁCHI COLLECTORATE.

CIVIL HOSPITAL, KARÁCHI.—*In charge of* Brigade-Surgeon-Lieutenant-Colonel G. BAINBRIDGE, M.D.

Conservancy.—The latrines are cleaned by the hospital sweepers, the filth being regularly removed by the Municipal Health Department. A nuisance is created by the waste water from taps and washing platforms since the introduction of pipes into the compound. It now stands in the channels and soaks into the ground; but until this part of the city is sewered, there appears no other way to dispose of it unless a considerable expense were incurred for cesspools and carting.

Water-supply.—The water (a specimen of which from a tap in the prison is analysed twice a year) is reported by the Chemical Analyser to be of fair quality. The quantity is amply sufficient.

Hospital buildings.—Were kept in good order, and considerable improvements were made. The wooden railing along the edge of the verandahs was completed. Another room was added to the Assistant Surgeon's quarters by raising the roof at a cost of Rs. 1,000. Two wards for contagious diseases were built in the compound by the Municipality at a cost of Rs. 1,498. A bath-room and privy, costing Rs. 850, were built at the north-east corner of the hospital. Some of the wood-work of the roof of the central block was renewed, Mangalore tiles were substituted for the old ones, and the canvas ceiling of the European ward was replaced by dealwood planking at a cost of Rs. 3,000, of which three-fourths were paid by the Municipality. The old matron's quarters were converted into a house for a native medical pupil at a charge of Rs. 300. The new lunatic cells sanctioned by Government Resolution No. 247 C. W.—1843 of 6th December 1895, at a total estimated cost of Rs. 5,808, of which the Municipality will contribute Rs. 2,000, are under construction since the 1st January 1896. These will be most useful. Government Resolution No. 3536, dated 28th August 1895, have approved of the following new works, the probable cost of which is as stated against each:—

	Rs.
Operating room and ward for European females ...	2,500
Raising the height of the compound wall...	2,100

The operating room and ward are much required, and it is hoped that funds may be allotted during the ensuing financial year. The raising of the wall is necessary to keep out intruders and prevent patients from wandering.

Health of the town.—There were no epidemics during the period under report, except a moderate amount of influenza in each year, and a few cases of small-pox which began to prevail in Sind at the close of 1895.

Attendance of patients.—8,938 out-door and 1,155 in-door as compared with 7,842 and 1,001 in 1894 and 7,583 and 833 in 1893, respectively. Of the out-door patients, the daily average strength was 104·5 against 114·2 in 1894 and 102·4 in 1893. Of the in-door, it was 52·1 as compared with 46·9 in 1894 and 39·5 in 1893.

Prevailing diseases.—Malarial fevers, bowel complaints, conjunctivitis catarrhal, inflammation of the external ear, bronchitis catarrhal and rheumatism.

Surgical operations.—100 major and 983 minor as compared with 93 and 936 in 1894 and 94 and 1,367 in 1893, respectively. There is a disappointing equality in the number of major operations from year to year; and it is clear that except for vesical calculus, the people in this province are unwilling to submit to surgical treatment. Several ovarian tumours have been seen which might have been successfully removed, and in many other serious diseases or defects operation has been declined.

Mortality and its causes.—There were 93 deaths against 77 in 1894 and 80 in 1893. The chief causes were dysentery, pneumonia, diarrhœa, tubercle of lungs, bronchitis and injuries.

Medico-legal cases.—5 *post-mortem* examinations were held against 8 in 1894 and 10 in 1893. There were 13 medico-legal cases reported on against 28 in 1894 and 16 in 1893.

Cost.—The total cost was Rs. 10,118-3-3 and the cost per patient Re. 1-0-0 as compared with Rs. 7,862-7-7 and Re. 0-14-2 in 1894 and Rs. 9,716-7-11 and Re. 1-2-5 in 1893, respectively. The average cost of each diet was Re. 0-7-9 for Europeans and Re. 0-2-9 for Natives against Re. 0-12-4 and Re. 0-2-2 in 1894 and Re. 0-7-4 and Re. 0-2-7 in 1893, respectively.

Receipts from paying patients.—Rs. 171-4-0 were realized under the hospital stoppage system as compared with Rs. 257-14-0 in 1894 and Rs. 164-1-0 in 1893. Diet money from paying patients amounted to Rs. 36-13-8 against Rs. 276-9-1 in 1894 and Rs. 147-3-0 in 1893.

Conduct of establishment.—Good.

MUNICIPAL DISPENSARIES.

BANDAR ROAD DISPENSARY, KARA'CHI.—*In charge of* First Class Hospital Assistant SEWU PIRA'JI, No. 46.

The dispensary buildings are in a fair state of repair. A new building for the dispensary is in course of construction. Quarters for the compounder and goorgah have been erected. The furniture and fittings are sufficient and in good condition. The committee visited the dispensary 6 times against 3 in 1894 and 3 in 1893. The sanitary condition of the town is fairly good. The water-supply from Mulleer is good and abundant. The total treated was 12,021 out-door patients as compared with 11,234 in 1894, and 11,024 in 1893. The prevailing diseases were malarious fevers, rheumatism, respiratory affections, inflammation of external meatus, stomach and bowel complaints, ulcer, cutaneous diseases and venereal affections. There was no epidemic in 1895 and 1894. Small-pox of confluent variety and influenza prevailed in 1893. There were 19 major surgical operations performed against 5 in 1894 and 5 in 1893. Vaccination is carried on by the sanitary department. The dispensary was inspected by the Principal Medical Officer, Sind District, in 1893 and 1894, and by the Civil Surgeon of Karáchi once in each year. The total cost was Rs. 3,234-9-8 and the cost per patient Re. 0-4-3 as compared with Rs. 2,189-14-0 and Re. 0-3-1 in 1894 and Rs. 2,249-0-7 and Re. 0-3-3 in 1893, respectively. The hospital stoppage rules are not in force in this dispensary.

LYARI DISPENSARY, KARA'CHI.—*In charge of* Second Class Hospital Assistant D. C. D'SILVA, No. 221.

The dispensary building is in a good state of repair. Servants' quarters and a compound wall were built in 1893 and the quarters of the Medical Officer paved with stones in 1894. The committee visited the dispensary four times in each year. The sanitary condition of the town is fairly good. The water-supply from Malleer is good and sufficient. The total treated was 9,972 out-door patients as compared with 9,953 in 1894 and 9,823 in 1893. The prevailing diseases were malarial fevers, conjunctivitis, inflammation of external meatus, bronchitis, diseases of the digestive system, skin affections and ulcers. 7 cases of small-pox of a mild type in 1893 and 4 cases in 1895 occurred in the Lyari quarters. 1 major surgical operation was performed against 1 in 1894 and 2 in 1893. The dispensary was inspected by the Principal Medical Officer, Sind District, in 1893 and 1894, and by the Civil Surgeon, Karáchi, once in each year. The total cost was Rs. 1,599-10-11 and the cost per patient Re. 0-2-6, as compared with Rs. 1,492-11-9 and Re. 0-2-4 in 1894 and Rs. 2,181-13-0 and Re. 0-3-6 in 1893, respectively. The hospital stoppage system is not in operation at this dispensary.

EDULJI DINSHAW DISPENSARY, SUDDAR BAZA'R, KARA'CHI.—*In charge of* First Class Hospital Assistant P. RODRIGUES, No. 5.

The dispensary building is in good repair. The committee visited the dispensary five times against five in 1894 and three in 1893. Conservancy of the Suddar Bazar quarters is well looked after by the Municipality and the sanitary condition is fairly good. The water-supply from Malleer is good and abundant. The total treated was 18,734 out-door patients, as compared with 17,410 in 1894 and 16,426 in 1893. The prevailing diseases were intermittent fevers, conjunctivitis, boils, catarrhal bronchitis, inflammation of ths external ear, rheumatism, diarrhœa and dysentery. No epidemics prevailed during the three years. There were 3 major surgical operations performed against 3 in 1894 and 5 in 1893. Vaccination is carried on by the Sanitary Department. The dispensary was inspected by the Principal Medical Officer, Sind District, in 1893 and 1894, and by the Civil Surgeon, Karáchi, once in each year. The total cost was Rs. 2,145-0-7 and the cost per patient Re. 0-1-9, as compared with Rs. 1,981-6-8 and Re. 0-1-9 in 1894 and Rs. 1,763-0-1 and Re. 0-1-8 in 1893, respectively. The hospital stoppage rules are not adopted in this dispensary.

BÁI BACHUBÁI EDULJI DINSHAW DISPENSARY, KEAMARI.—*In charge of* Dr. F. A. DESOUZA, L.R.C.P. & S. (EDIN).

Repairs to the dispensary buildings are carried out every year. The old out-houses were pulled down and re-built. A dead-house was also constructed. Furniture and fittings are sufficient. The dispensary committee visited the dispensary four times. The sanitary condition of the town is indifferent. The water-supply from Mater water-works is good and abundant. The total treated was 5,945 out-door and 50 in-door patients, against 6,416 and 51 in 1894 and 5,390 and 27 in 1893, respectively. The prevailing diseases were intermittent fever, conjunctivitis catarrhal, bronchial catarrh, ulcers, diarrhœa and rheumatism. There was no epidemic disease, excepting that a few cases of whooping cough and one case of small-pox occurred. There were 9 major surgical operations performed against 9 in 1894 and 6 in 1893. Vaccination is carried out by the Sanitary Department. The dispensary was inspected by the Civil Surgeon, Karáchi, once in each year. The total cost was Rs. 2,589-1-6 and the cost per patient Re. 0-6-10, as compared with Rs. 2,568-10-4 and Re. 0-6-4 in 1894 and Rs. 2,250-7-10 and Re. 0-6-7 in 1893, respectively. The rules for hospital stoppages are not adopted in this dispensary.

KOTRI.—*In charge of* Second Class Hospital Assistant P. D. TALÁTI, No. 239.

The dispensary was temporarily located in a rented house outside the town up to 31st May 1894, after which date it was removed to a new building built according to standard plan B.

Furniture and fittings are sufficient. Iron bed-steads, with mattresses and warm blankets, for in-door patients, are urgently required. The dispensary committee visited the dispensary ten times against 12 in 1894 and 3 in 1893. The Vice-President and the Chairman visited it very often. The most common diseases were malarial fevers, eye, respiratory and skin affections and abscesses. Six deaths occurred among in-door patients against 6 in 1894 and 2 in 1893. There was no epidemic in the station or its vicinity during the three years. The dispensary was inspected by the Civil Surgeon, Karáchi, once in each year, by the Principal Medical Officer, Sind District, in 1894 and 1893, and by the Deputy Sanitary Commissioner, Sind Registration District, in 1895. The total treated was 6,687 out-door and 62 in-door patients against 7,300 and 105 in 1894 and 5,338 and 76 in 1893, respectively. Nine major surgical operations were performed against 10 in 1894 and 11 in 1893. The general health of the town and district was good in 1893 and 1895, but in 1894 the people suffered much from malarial fevers. The sanitary condition of the town is fairly good. The streets, roads and latrines are kept in a fairly clean state. The water-supply from the river Indus is good and abundant. Vaccination is performed by the Táluka Vaccinator. The total cost was Re. 2,435-12-11 and the cost per patient Re. 0-5-9, as compared with Rs. 2,048-15-5 and Re. 0-4-5 in 1894 and Rs. 5,319-8-2 and Re. 0-15-8 in 1893, respectively. Rs. 9-15-0 were realized under the hospital stoppage system against Rs. 14-4-0 in 1894 and Rs. 25-0-0 in 1893.

BA'I JAMNA'BA'I DISPENSARY, TATTA.—*In charge of* Assistant Surgeon J. B. UNVA'LA.

The dispensary buildings have thoroughly been repaired. A stone compound wall has been constructed in place of the mud wall. The dispensary committee met five times. Individual members visited the dispensary very frequently. Conservancy and water-supply are not quite satisfactory. The total number of patients treated was 10,321 out-door and 41 in-door patients as compared with 8,791 and 33 in 1894 and 9,821 and 20 in 1893, respectively. The most common diseases were malarial fevers, conjunctivitis, ulcers, inflammation of the external ear and rheumatism. 65 major surgical operations were performed as compared with 37 in 1894 and 19 in 1893. The dispensary was inspected by the Civil Surgeon, Karáchi, and by the Deputy Sanitary Commissioner. The total cost was Rs. 4,741-5-3 and the cost per patient Re. 0-7-3, as compared with Rs 3,524-4-8 and Re. 0-6-4 in 1894 and Rs. 3,829-15-2 and Re. 0-6-2 in 1893, respectively. The hospital stoppage rules are not adopted in this dispensary.

KETI BANDAR.—*In charge of* Third Class Hospital Assistant SADHUMAL SANTDA'S, No. 313.

The dispensary building is in want of repair. The wards are now being rebuilt. The furniture and fittings are insufficient. The dispensary committee did not visit the dispensary regularly. The water-supply from the River Indus is abundant but brackish. The sanitary condition of the town was fairly good. There was no epidemic. The most common diseases were intermittent fever, rheumatism, conjunctivitis, dyspepsia, diseases of the digestive system and skin, ulcers and local injuries. 4 major surgical operations were performed against 3 in 1894 and 3 in 1893. Vaccination is carried out by the táluka vaccinator. Two *post-mortem* examinations were made. The dispensary was inspected by the Commissioner in Sind, the Collector of Karáchi, the Head Assistant Collector, Jerruck Division, and the Civil Surgeon, Karáchi. The total treated was 2,083 out-door and 4 in-door patients, as compared with 1,943 and 6 in 1894 and 1,978 and 5 in 1893, respectively. The total cost was Rs. 2,008-10-10 and the cost per patient Re. 0-15-4 against Rs. 1,158-12-9 and Re. 0-9-6, in 1894 and Rs. 1,225-5-6 and Re. 0-9-10 in 1893, respectively. The hospital stoppage fees amounted to Rs. 6-13-0, as compared with Rs. 12-13-0 in 1894 and Rs. 13-4-0 in 1893.

PARUMAL KHUBCHAND DISPENSARY, SEHWAN.—*In charge of* Second Class Hospital Assistant MULCHAND LA'LCHAND, No. 204.

The building and out-houses require repairs. An estimate has been prepared with a view to the repairs being executed. Furniture and fittings are sufficient. The sanitary condition of the town is fairly satisfactory. Water-supply from wells and from the Aral canal, which is running quite close to the town, is good and abundant, but that from the latter source contains suspended particles of sand. The total treated was 8,211 out-door and 87 in-door patients as compared with 7,369 and 56 in 1894 and 6,512 and 97 in 1893, respectively. The prevailing diseases were malarial fevers, rheumatic, eye, skin and respiratory affections and ulcers. There were 18 major surgical operations performed against 6 in 1894 and 9 in 1893. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Principal Medical Officer, Sind District, in 1893 and 1894, and by the Civil Surgeon, Karáchi, and the Deputy Sanitary Commissioner, Sind Registration District, once in each year. The total cost was Rs. 2,411-9-10 and the cost per patient Re. 0-4-7, as compared with Rs. 2,144-4-4 and Re. 0-4-7 in 1894 and Rs. 1,956-2-4 and Re. 0-4-8 in 1893, respectively. The fees collected under the hospital stoppage system amounted to Rs. 18-4-0 against Rs. 16-14-0 in 1894 and Rs. 17-12-0 in 1893.

GRANT-IN-AID DISPENSARIES.

JERRUCK.—*In charge of* Third Class Hospital Assistant CHUHERMAL SANTDA'S, No. 374.

The dispensary building is small and is situated on a hill close to the town. The conservancy of the town is fairly good. There are no wells. The water-supply from the river Indus, which is about half a mile away from the town, is very dirty and not fit for immediate use.

A reservoir should be built, and the water from the river pumped into it. A filter should be supplied to the dispensary for this purpose. The town was free from epidemic during the three years. Vaccination is conducted by the táluka vaccinator. The most common diseases were malarial fevers, conjunctivitis, head-ache, ear, skin and respiratory affections, bowel complaints, abscesses, ulcers and local injuries. Two major surgical operations were performed against two in 1894 and *nil* in 1893. A dead-house, a female ward and a cook-room for in-door patients are needed. The total treated was 2,223 out-door and 13 in-door patients, as compared with 1,787 and 9 in 1894, and 1,621 and 3 in 1893, respectively. The dispensary was inspected by the Civil Surgeon and the Collector of Karáchi, the Deputy Sanitary Commissioner, Sind Registration District, and the Head Assistant Collector of Jerruck. The total cost was Rs. 1,030-15-3 and the cost per patient Re. 0-7-4. as compared with Rs. 891-10-7 and Re. 0-7-11 in 1894 and Rs. 822-14-0 and Re. 0-8-1 in 1893, respectively. The receipts under the hospital stoppage system were Rs. 5-10-3 against nothing in 1894 and Re. 1-11-0 in 1893.

MIRPUR BATORO.—*In charge of* Third Class Hospital Assistant BHUMAYA. POACHATTY, No. 335.

The dispensary buildings are repaired annually. A mortuary, a cook-room for in-patients and quarters for goorgha are badly required. The furniture and fittings are sufficient. The dispensary was inspected by the Civil Surgeon of Karáchi, the Deputy Sanitary Commissioner, the Collector of Karáchi and by the Assistant Collector, Shahbandar Division. The dispensary committee met nine times. The sanitary condition of the town was fairly good. Conservancy is fairly well attended to. Water-supply is ample and good. The total number of patients was 3,616 out-door and 14 in-door, as compared with 3,491 and 22 in 1894 and 2,539 and 15 in 1893, respectively. The prevailing diseases were malarial fevers, conjunctivitis, diseases of the digestive system and skin and ulcers. There were 300 minor surgical operations against 240 in 1894 and 146 in 1893. Vaccination is carried on by the táluka vaccinator. Four *post-mortem* examinations were held. The total cost was Rs. 1,187-13-8 and the cost per patient Re. 0-5-2 against Rs. 1,084-9-6 and Re. 0-4-11 in 1894 and Rs. 1,019-6-11 and Re. 0-6-4 in 1893, respectively. Annas 15 were receipts from hospital stoppages. There were no receipts under this head in 1894 and 1895.

THA'NO BULA KHA'N.—*In charge of* Third Class Hospital Assistant ALIMAHOMED HUSSAINBUX, No. 349.

The dispensary buildings are in a good state of repair. The building of the in-door ward and the mortuary, sanctioned in 1894, has not yet been commenced with, owing to the difficulty of obtaining a contractor for executing this work. Furniture and fittings are sufficient. The dispensary committee visited the dispensary thrice. The water-supply from wells is good and abundant. The total number of patients treated was 11 in-door and 2,001 out-door patients against 19 and 1,914 in 1894 and 3 and 1,581 in 1893, respectively. The most common diseases were malarial fevers, ophthalmia, diseases of the ear, skin and digestive system, rheumatic and venereal affections and ulcers. The dispensary was inspected by the Civil Surgeon, Karáchi, and by the Deputy Collector of Kotri and Mánjhund. There was no epidemic in the town or its vicinity. Nine major and 208 minor surgical operations were performed against *nil* and 169 in 1894 and 3 and 182 in 1893. The total cost was Rs. 952-4-4 and the cost per patient Re. 0-7-6, as compared with Rs. 1,050-1-4 and Re. 0-8-8 in 1894 and Rs. 934-11-6 and Re. 0-9-5 in 1893, respectively. The receipts on account of hospital stoppages were Re. 1-6-0 against Re. 1-4-0 in 1894 and Rs. 2-3-0 in 1893.

GOVERNMENT DISPENSARY.

MANORA.—*In charge of* Assistant Surgeon E. MACKENZIE, Honorary Assistant Surgeon to His Excellency the Viceroy.

The main building and out-houses of the dispensary are in good order. The verandahs require to be enclosed with trellis work, and a small latrine is necessary. The total treated was 9,462 out-door patients against 7,562 in 1894 and 5,705 in 1893. The increase is due to the unprecedentedly large number of admissions from intermittent fever. The average daily attendance was 86·7 against 72·3 in 1894 and 65·8 in 1893. The prevailing diseases were intermittent fever, rheumatism, catarrhal conjunctivitis, catarrhal bronchitis and diarrhœa. Intermittent fever was exceptionally high in the last months of the year. Bills of health were issued, after personal inspection, to 210 vessels leaving the harbour for foreign ports in Form 1, and to 13 vessels, proceeding to Indian ports in Form 2. Nine country craft arriving from infectious ports were boarded and inspected. Four samples of explosives, 21 of petroleum and 34 of mineral lubricating oil were tested. 12 major and 581 minor surgical operations were performed, as compared with 7 and 527 in 1894 and 3 and 392 in 1893, respectively. The dispensary was inspected by the Civil Surgen, Karáchi. The total cost was Rs. 5,492-7-7 and the cost per patient Re. 0-9-3, as compared with Rs. 5,600-5-2 and Re. 0-11-10 in 1894 and Rs. 4,793-3-0 and Re. 0-13-5 in 1893, respectively. Rs. 163-1-0 were realized as hospital stoppages, as compared with Rs. 151-11-0 in 1894 and Rs. 124-7-0 in 1893.

HYDERABAD COLLECTORATE.

HYDERABAD CIVIL HOSPITAL.—*In charge of* Surgeon-Major W. G. H. HENDERSON, F.R.C.S.I.

Conservancy.—The conservancy of the town is fairly well looked after by the Municipality, for which purpose a sufficient number of scavengers with a due proportion of muccadums and inspectors is maintained. Night-soil from the public latrines (now 16 in number) is removed to a distance to two manure depôts to the north-east and south-east of the city, where it is buried in pits.

Surgeon-Major W. G. H. Henderson, the predecessor of the present incumbent in charge, in his annual report for 1895 states that "the disposal of the night-soil is not attended to as carefully as it should be, and there have been many complaints concerning it. The Deputy Sanitary Commissioner, Sind Registration District, has taken the matter in hand, and it is hoped that some improvement will be the result."

Water-supply.—Is derived from the River Indus, distributed in pipes, and is good and abundant.

As the water is not equally distributed through the town, a scheme for more engines and another tank is on foot, which will overcome this defect, with the result that a more equable and abundant supply will be given to the inhabitants.

Hospital buildings.—On the 1st of December 1894 the new Civil Hospital was occupied. It is a large spacious building consisting of a double storied frontage with an east and west wing behind and a separate female ward. The lower story consists of four rooms, a surgical room, a dispensary, an office and a store-room. The upper story is allotted to the medical school and consists of a laboratory, a library and two lecture-rooms.

The wards are in the wings. There is accommodation for 62 beds.

A new bath-room has been built during the year 1895.

General Health.—The general health of the town and district has been generally good. The admissions for intermittent fevers during the years under report have been 3,610, 1,358 and 1,617, respectively. In June 1895 an epidemic of small-pox appeared. From that time to the end of the year 362 cases occurred, of which 78 died.

Attendance of patients.—10,890 out-door and 887 in-door, as compared with 12,765 and 895 in 1894 and 13,265 and 1,094 in 1893, respectively.

Prevailing diseases.—Intermittent fever, conjunctivitis, inflammation of the external ear, bronchitis, abscess, boils, eczema, ulcers and vesical calculus.

Surgical operations.—In 1895, 547 major operations were performed, of which 337 were cases of litholapaxies, 26 of perineal lithotrities and 16 of lithotomies, against 554 in 1894, of which 313 were litholapaxies, 56 perineal lithotrities, 14 lithotomies and 1 supra-pubic operation, and 762 in 1893, of which 555 were litholapaxies and 46 perineal lithotrities. Of these operations, the percentage mortality was in 1893, 0·66; in 1894, 1·83; and in 1895, 1·06. The other most important operations were removal of tumours 67, removal of breast 3, incision for hepatic abscess 4, operation for entropion 4, harelip 1, artificial pupils 4, iridectomy 2, extractions of lens 20, excision of eye-ball 2, excision of upper jaw for fibroma 1, of lower jaw for myeloid sarcoma 1, laryngotomy 1, operation for imperforate anus 1, paracentesis of pleura 2, paracentesis of abdomen 43, castration for tubercle of testicle 1, resection of elbow-joint 1, reduction of dislocation of lower jaw 9, reduction of dislocation of humerus (shoulder-joint) 8 and of femur at the hip 1, amputations of arm 4, of fore-arm 9, of thigh 5, of leg 39, of foot 4 and of penis 3. 1,416 minor operations were performed, against 2,227 in 1894 and 2,415 in 1893.

Mortality and its causes.—There were 17 deaths, as compared with 21 in 1894 and 25 in 1893. The chief causes were jaundice, dysentery, mycetoma, litholapaxy, ulcers, pneumonia and tubercle of lungs.

Vaccination.—Is conducted by the public vaccinator under the directions of the Deputy Sanitary Commissioner, Sind District, but he is paid by the Municipality.

Medico-legal cases.—During the last three years 32 human bodies were examined at the request of the Police authorities, and several persons were brought up for examination on account of hurt and grievous hurt.

Conduct of establishment.—Assistant Surgeon J. E. Becarro left during the year 1895. Assistant Surgeons Mulchand Gangárám (who succeeded Assistant Surgeon T. H. Aquino in December 1893) and Jivatrám Allimchand Lálváni carried on the work for the greater part of the year (1895), when the latter was succeeded by Assistant Surgeon R. S. Poredi. Surgeon-Major Henderson states: "All have worked to my entire satisfaction, and I desire to place on record the very great assistance I have received from Assistant Surgeon Mulchand Gungárám and 1st Class Hospital Assistant E. Jacob, who have performed their duties with great zeal and ability."

Cost.—The total cost was Rs. 5,858-13-0 and the cost per patient Re. 0-7-11, as compared with Rs. 5,466-9-10 and Re. 0-6-4 in 1894 and Rs. 4,846-10-7 and Re. 0-5-4 in 1893, respectively. The average cost of each diet was annas two only, or the same as in the two previous years.

Hospital Stoppages.—Rs. 6-0-0 were realized, as compared with Rs. 10-8-0 in 1894 and Rs. 14-0-0 in 1893.

MUNICIPAL DISPENSARIES.

VICTORIA JUBILEE DISPENSARY, HYDERABAD.—*In charge of* Mr. TA'RA'CHAND, L.M.&S.

Conservancy is fairly well looked after. Water-supply from the river Indus is of good quality and sufficient. The dispensary buildings are in a good condition. A room and a verandah to the north and west of the dispensary are under construction. This will add much to the convenience and comfort of the patients. The general health was very unsatisfactory. An epidemic of small-pox broke out in May 1895. The total number of cases up to 31st December 1895 was 371 with 78 deaths. The total treated was 18,283 out-door patients, against 18,440 in 1894 and 18,877 in 1893. The prevailing diseases were intermittent fever, conjunctivitis, bronchitis, carious teeth and boils. There were 37 major and 1,635 minor surgical operations were performed, against 35 and 1,404 in 1894 and 40 and 1,274 in 1893, respectively. Vaccination is performed by the municipal vaccinator under the orders of the Deputy Sanitary Commissioner, Sind District. On account of an epidemic of small-pox in the town, a temporary vaccinator has also been appointed to assist him and will be paid by the Municipality. The total cost was Rs. 4,597-4-8 and the cost per patient Re. 0-4-0, as compared with Rs. 4,488-1-10 and Re. 0-3-10 in 1894 and Rs. 4,315-8-2 and Re. 0-3-7 in 1893, respectively. The hospital stoppage rules are not adopted in this dispensary.

EMPRESS JUBILEE DISPENSARY, GIDU BANDAR.—*In charge of* Mr. NE'BHRA'J BHOJRA'J.

The dispensary is well situated and in good condition. At the suggestions of the Principal Medical Officer, Sind District, the Municipality has sanctioned a certain amount for building quarters for the Hospital Assistant in charge and for the purchase of one cupboard for keeping surplus stock of medicines. The furniture is in good condition. The dispensary committee is composed of three members with the Civil Surgeon, Hyderabad, at their head, who take much interest in the well-being of the dispensary. The committee did not visit the dispensary, but the chairman of the committee visited it once. The total treated was 5,067 out-door patients, against 5,203 in 1894 and 4,514 in 1893. The daily average attendance was 35·1, against 40·8 in 1894 and 37·5 in 1893. The most common diseases were intermittent fever, dysentery, rheumatic affections, conjunctivitis, abscess, boils, ulcers, inflammation external meatus, caries tooth and local injuries. There was no cholera, but small-pox and measles were prevalent in the town and its vicinity in 1895. Two major and 238 minor surgical operations were performed, against *nil* and 285 in 1894 and 1 and 294 in 1893. Vaccination is performed by the municipal vaccinator under the directions of the Deputy Sanitary Commissioner, Sind District, but he is paid by the Municipality. Vaccination is not very popular. The dispensary was inspected by the Principal Medical Officer, Sind District, and by the Civil Surgeon, Hyderabad, once in each year. Conservancy of the town is carried out under the orders of the Secretary, Municipality, Hyderabad, for which a sufficient staff of sweepers and muccadum is maintained. The sanitary condition of the town is good. Water-supply from river Indus is good and abundant, but requires to be treated with alum and filtered before using. The total cost was Rs. 1,357-11-10 and the cost per patient Re. 0-4-3, against Rs. 1,238-7-6 and Re. 0-3-9 in 1894 and Rs. 1,193-13-5 and Re. 0-4-2 in 1893, respectively. The rules regarding hospital stoppages or fees are not in operation in this dispensary.

TANDO ADAM.—*In charge of* Second Class Hospital Assistant PARMA'NAND VISHINDA'S, No. 208.

The dispensary building has been kept in good condition throughout the period. The additional accommodation and furniture was provided. Quarters for compounder are still wanted. The dispensary committee visited the dispensary regularly—monthly and quarterly. The most common diseases were malarial fevers, rheumatic affections, diseases of the eye, respiratory and digestive systems and skin and ulcer. The total number of patients treated was 5,732 out-door and 56 in-door against 5,730 and 50 in 1894 and 4,985 and 39 in 1893, respectively. There was no epidemic disease in 1893 and 1894. A few cases of influenza among Kotri-Rohri Railway officers and of small-pox in the town proper occurred in December 1895. The dispensary was inspected by the Deputy Sanitary Commissioner in Sind, the Civil Surgeon of Hyderabad and the District Revenue officers. His Excellency the Governor of Bombay with his Private Secretary was also pleased to visit the dispensary in November 1895. Conservancy is fairly well attended to by the Municipality. Water-supply from wells is good and abundant. Vaccination is carried on by the táluka vaccinator. 4 *post-mortem* examinations were held against 13 in 1894 and 8 in 1893. Opinion was given in a few medico-legal cases. There were 10 major and 280 minor surgical operations performed against 18 and 300 in 1894 and 5 and 239 in 1893, respectively. The total cost was Rs. 1,908-7-4 and the cost per patient Re. 0-5-3, as compared with Rs. 1,533-2-0 and Re. 0-4-2 in 1894 and Rs. 1,127-14-4 and Re. 0-3-7 in 1893, respectively. The hospital stoppages rules are not enforced here, as the dispensary is a municipal one.

MORO.—*In charge of* Mr. MANGHANMAL.

The dispensary buildings are in a good state. Repairs are shortly to be executed. Furniture and fittings are in good order. The dispensary committee visit the dispensary once every month. There is no Municipality. Water-supply from wells and tanks is good and ample. The total treated was 2,011 out-door and 3 in-door patients, as compared with 2,794 and 4 in 1894 and 3,133 and 20 in 1893, respectively. The decrease in attendance over the previous years is due to the dispensary being closed for eight months during the year 1895, except that a weekly visit was paid by the medical officer of the Naushahro Dispensary for treatment of patients. The prevailing diseases were intermittent fevers, conjunctiva, chest affections, bowel complaints and ulcers. Small-pox visited the station and its vicinity. There were 2 major surgical operations performed against 2 in 1894 and 5 in 1893. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon of Hyderabad, the Deputy Sanitary Commissioner, Sind Registration District, and the Assistant Collector of Naushahro. The hospital stoppage rules are not adopted in this dispensary. The total cost was Rs. 465-11-7 and the cost per patient Re. 0-3-8, as compared with Rs. 989-10-8 and Re. 0-5-7 in 1894 and Rs. 693-5-7 and Re. 0-3-6 in 1893, respectively.

NAUSHAHRO.—*In charge of* Mr. AMIN CHÁND.

The dispensary buildings are in order. A ward for in-door patients, a *post-mortem* room, quarters for servants and an operating room are necessary. Furniture and fittings are good and sufficient. The dispensary committee held one meeting, and individual members visited the dispensary occasionally. The sanitary condition of the town is good. The water-supply from wells is good and sufficient. The total treated was 3,966 out-door and 13 in-door patients as compared with 4,720 and 14 in 1894 and 4,989 and 2 in 1893, respectively. The decrease in attendance was due to the dispensary being closed from 7th April to 13th July 1895, except that the medical officer of Kandeiaro visited it every week for treatment of patients. The prevailing diseases were malarial fevers, conjunctiva, ear, respiratory and skin affections, bowel complaints, ulcers and local injuries. The general health of the town had been good, though small-pox was prevalent nearly five months. There were 9 major surgical operations performed against 24 in 1894 and 16 in 1893. Vaccination is conducted by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon of Hyderabad, the Deputy Sanitary Commissioner, Sind Registration District, and the Assistant Collector of Naushahro. The hospital stoppage rules are not adopted in this dispensary. The total cost was Rs. 911-2-1 and the cost per patient Re. 0-3-8, as compared with Rs. 2,230-10-1 and Re. 0-7-6 in 1894 and Rs. 844-2-2 and Re. 0-2-8 in 1893, respectively.

KANDEIÁRO.—*In charge of* Mr. MENGHRA'J.

The building is in good order but requires repair. Furniture and fittings are in good state but not ample. The dispensary committee visited the dispensary twice. The sanitary condition of the town is fair; water-supply from wells good and abundant. The total treated was 2,340 out-door and 13 in-door patients against 2,266 and 11 in 1894 and 2,938 and 27 in 1893, respectively. The most common complaints were ulcers, malarial fevers and diseases of the connective tissue, eye, ear and respiratory and digestive systems. There was no epidemic disease. The town is kept fairly clean. Though there is no municipality, the conservancy is carried out by private individuals selected for the purpose. Vaccination is conducted by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon, Hyderabad, the Deputy Sanitary Commissioner, Sind Registration District, and the Assistant Collector, Naushahro Division. The hospital stoppage rules are not adopted in this dispensary. The total cost was Rs. 649-5-2 and the cost per patient Re. 0-4-4, as compared with Rs. 1,386-2-1 and Re. 0-9-8 in 1894 and Rs. 758-11-6 and Re. 0-4-0 in 1893, respectively.

SA'KRAND.—*In charge of* Mr. CINDEKAR.

The dispensary building is repaired every six months and is in good order. The furniture is ample and in good condition. The dispensary committee meet thrice every year. The conservancy of the town is fair. The total treated was 3,446 out-door and 1 in-door patients against 2,943 and 7 in 1894 and 3,367 and 5 in 1893, respectively. Ulcers, intermittent and simple continued fevers, conjunctiva, dyspepsia, eczema and constipation were the prevailing diseases. There was no epidemic disease, and the general health of the town was fair. The dispensary was inspected by the Civil Surgeon of Hyderabad and by the Deputy Sanitary Commissioner, Sind Registration District, Karáchi. The hospital stoppage rules are not adopted in this dispensary. The total cost was Rs. 668-8-1 and the cost per patient Re. 0-3-1, as compared with Rs. 1,422-7-0 and Re. 0-7-8 in 1894 and Rs. 672-8-1 and Re. 0-3-2 in 1893, respectively.

GRANT-IN-AID DISPENSARIES.

TANDO ALAHY'AR.—*In charge of* Third Class Hospital Assistant DAYA'RA'M KHEMCHAND, No. 281.

The dispensary has been thoroughly repaired and is in good condition. Furniture, &c., is sufficient, excepting the cots which require to be renewed. The dispensary committee did not meet regularly as required by the rules. They met 3, 9 and 8 times, respectively, in 1895, 1894 and 1893. The most common diseases were fever intermittent, conjunctivitis catarrhal, ulcer (lower extremity), bronchitis, chronic inflammation of external meatus, acute neuralgia, caries

dental and rheumatism. The total number of patients treated was 4,236 out-door and 32 in-door against 5,927 and 37 in 1894 and 6,392 and 36 in 1893, respectively. No epidemic prevailed during the three years. The dispensary was inspected by the Deputy Sanitary Commissioner, Sind Registration District, the Civil Surgeon and the Collector of Hyderabad, the Assistant Commissioner in Sind and the Assistant and the Deputy Collectors of Hala Division. There were 3 major surgical operations performed against 7 in 1894 and *nil* in 1893. The town is a municipal one. The general health of the town was fair. The sanitary condition of the town is fairly good. Conservancy is fairly looked after. Water-supply from wells and canals is abundant and of good quality. Four *post-mortem* examinations were held against two in 1894 and two in 1893. Vaccination is carried on by the táluka vaccinator. The total cost was Rs. 1,556-15-6 and the cost per patient Re. 0-5-10, as compared with Rs. 1,479-10-7 and Re. 0-3-11 in 1894 and Rs. 1,423-15-6 and Re. 0-3-6 in 1893, respectively. The amounts realized under the hospital stoppage system was Rs. 55-0-0 against Rs. 66-1-0 in 1894 and Rs. 14-9-0 in 1893.

TANDO MUHAMMAD KHAN.—*In charge of* Third Class Hospital Assistant VITHOBA MATHURA'JI, No. 293.

The buildings are under repair. Quarters for the compounder were built in 1893 and a cook-room in 1895. The dispensary committee met 11 times. The conservancy of the town is fairly good. The water-supply is good and abundant. The total treated was 6,993 out-door and 48 in-door patients, as compared with 6,137 and 49 in 1894 and 5,720 and 22 in 1893, respectively. The most common diseases were dysentery, malarial fevers, rheumatism, conjunctivitis catarrhal, inflammation of external meatus, bronchitis catarrhal, dyspepsia and ulcers. 3 major and 425 minor surgical operations were performed, against 1 and 245 in 1894 and 1 and 155 in 1893, respectively. Three *post-mortem* examinations were held, and opinion was given in 9 medico-legal cases. Vaccination is conducted by the local fund vaccinator. The dispensary was inspected by the Deputy Sanitary Commissioner, Sind Registration District, and the Collector and the Civil Surgeon of Hyderabad. The total cost was Rs. 1,587-4-8 and the cost per patient Re. 0-3-7 against Rs. 1,401-5-4 and Re. 0-3-7 in 1894 and Rs. 1,381-1-3 and Re. 0-3-10 in 1893, respectively. Rs. 10-2-0 were realized on account of hospital stoppages, as compared with Rs. 7-1-0 in 1894 and Rs. 22-8-0 in 1893.

HALA.—*In charge of* Second Class Hospital Assistant THA'KURDA'S PHA'BIA'SINGH, No. 248.

The dispensary buildings are in a good state and have accommodation for in-door patients. The male ward was partitioned into two rooms, one accommodating two males and the other two females, and the female ward was dismantled and the latrine at the west end of the male ward removed to the south-east corner of the compound, as they stopped free ventilation coming from the south and the west. The buildings require annual repairs, the estimate for which has been submitted for sanction. The dispensary committee, composed of 3 members with the mukhtiárkar at their head, held monthly meetings and took great interest and care in the welfare of the dispensary. The diseases causing the largest number of admissions were malarial fevers, rheumatic affections, ophthalmia, diseases of the skin and digestive and respiratory systems, ulcers and local injuries. There was no epidemic disease. The dispensary was inspected by the Deputy Sanitary Commissioner, Sind Registration District, and by the Civil Surgeon and the Collector of Hyderabad. The total treated was 3,993 out-door and 7 in-door patients, as compared with 3,742 and 6 in 1894 and 3,446 and 19 in 1893, respectively. There were 2 major surgical operations performed gainst 3 in 1894 and 8 in 1893. The general health of the town has been good. 16 *post-mortem* examinations were performed, and opinion given in several medico-legal cases. The town was kept clean, and conservancy well attended to. The public and private latrines are kept clean, and the dry earth system carried on. Water-supply from wells and canal is good and plentiful. The total amount realized from hospital stoppages was Rs. 4-2-0, as compared with Rs. 7-12-0 in 1894 and Rs. 4-9-0 in 1893. The total cost was Rs. 1,954-3-5 and the cost per patient Re. 0-7-9 against Rs. 1,593-4-9 and Re. 0-6-9 in 1894 and Rs. 1,038-0-1 and Re. 0-4-10 in 1893, respectively.

THA'RU SHA'H.—*In charge of* Third Class Hospital Assistant BHOWA'NDA'S HASHMATRA'I, No. 310.

The buildings are under repair. The doors of the ward, the dead-house and quarters for the Hospital Assistant are eaten up by white ants. An estimate for their renewal is being prepared. Quarters for the compounder are needed. Furniture and fittings are good and sufficient. The dispensary committee held five meetings, and individual members frequently visited the institution. Water-supply from wells is good and abundant. The sanitary condition of the town is fairly good. The total treated was 2,746 out-door and 16 in-door patients, as compared with 3,364 and 24 in 1894 and 3,072 and 14 in 1893. The prevailing diseases were intermittent fever, conjunctivitis catarrhal, eczema and ulcers. Small-pox broke out in the station and its vicinity from September to December 1895. Seven major surgical operations were performed against 1 in 1894 and 4 in 1893. Minor operations numbered 228, as compared with 190 in 1894 and 120 in 1893. Vaccination is carried on by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon of Hyderabad. Five *post-mortem* examinations were performed at the request of the Police, and opinion given in several other cases. The total cost was Rs. 1,217-2-6 and the cost per patient

Re. 0-7-0 against Rs. 1,195-3-9 and Re. 0-5-7 in 1894 and Rs. 1,758-12-6 and Re. 0-9-1 in 1893, respectively. Rs. 8-10-0 were realized as hospital stoppages, as compared with Rs. 3-14-0 in 1894 and Rs. 15-4-0 in 1893.

BOULTON DISPENSARY, TANDO BAGO.—*In charge* of Second Class Hospital Assistant SANTRA'MDAS RA'MCHA'ND, No. 231.

The dispensary buildings are kept in good condition. The compounder and the goorgah have been provided with quarters. A cook-room for in-door patients is required. Furniture and fittings are in good order. The dispensary committee met regularly once a month. The sanitary condition of the town is not satisfactory owing to want of funds and a municipality. Water-supply is abundant from canals and wells; that from the latter is liable to contamination. The total treated were 69 in-door and 5,619 out-door patients against 65 and 5,935 in 1894 and 53 and 5,016 in 1893, respectively. The prevailing diseases were malarial fevers, conjunctivitis, diseases of the digestive system and skin, ulcer and local injuries. 3 major and 687 minor surgical operations were performed against *nil* and 734 in 1894 and *nil* and 614 in 1893, respectively. Vaccination is carried out by the táluka vaccinator. Twelve *post-mortem* examinations were made. The Civil Surgeon of Hyderabad inspected the dispensary once in each year. The total cost was Rs. 2,164-11-9 and the cost per patient Re. 0-6-1, as compared with Rs. 1,371-8-3 and Re. 0-3-7 in 1894 and Rs. 1,335-7-3 and Re. 0-4-2 in 1893, respectively. In the year 1894 Rs. 42-6-0 were collected under the hospital stoppage system and in 1893 Rs. 12-10-0, whereas there were no receipts under this head in 1895.

MIRPUR KHÁS.—*In charge of* Second Class Hospital Assistant S. ADUL RYMON, No. 184.

The building and its out-houses are in good condition and only some petty ordinary repair are needed. The enlargement of the dispensary room and the addition of a verandah, which are in progress, will be useful improvements. Quarters for the compounder and a cook-house for in-door patients are also under construction. The furniture, fittings and instruments are sufficient and in good order. The committee meet every month regularly and individual members visit the dispensary frequently. The sanitary condition of the town is fair. The water-supply is good and abundant. The total treated was 5,151 out-door and 10 in-door patients, as compared with 5,003 and 14 in 1894 and 5,290 and 12 in 1893. The prevailing diseases were intermittent fevers, conjunctivitis, ulcers, chronic bronchitis, skin diseases and bowel complaints. There was no epidemic disease. Vaccination is carried on by the local fund vaccinator. There were 94 primary and 53 secondary vaccinations. 1 major and 94 minor surgical operations were performed against 1 and 101 in 1894 and 5 and 100 in 1893, respectively. One *post-mortem* examination was held at the request of the Police, and opinion given in one medico-legal case. The dispensary was inspected by the Civil Surgeon of Hyderabad and by the Deputy Sanitary Commissioner, Sind Registration District. The total cost was Rs. 1,436-2-8 and the cost per patient Re. 0-4-5, as compared with Rs. 1,230-5-6 and Re. 0-3-11 in 1894 and Rs. 1,170-5-1 and Re. 0-3-6 in 1893. The receipts on account of hospital stoppages amounted to Rs. 13-14-0 against Rs. 6-2-0 in 1894 and Rs. 5-10-0 in 1893.

BADIN.—*In charge of* Third Class Hospital Assistant BA'LKRISHNA MAHA'DEO, No. 341.

The dispensary building is quite new and was occupied only last year. The estimate for building quarters for the Hospital Assistant, a dispensary compound, latrines for patients and a dead-house is under consideration. The dispensary committee met eleven times. Conservancy of the town is fair. The water-supply is good and abundant in hot season, but in winter it is deficient and bad. The new well lately sunk is not much used, as it contains saline matters. The total treated was 3,117 out-door and 52 in-door patients, as compared with 2,697 and 47 in 1894 and 2,342 and 48 in 1893, respectively. The most common diseases were dysentery, malarial fevers, rheumatism, conjunctivitis, bronchitis and splenitis. One major surgical operation was performed, as compared with 3 in 1894 and *nil* in 1893. Four *post-mortem* examinations were made. The dispensary was inspected by the Civil Surgeon, the Collector and the Assistant Collector, Hyderabad. The total cost was Rs. 2,230-13-9 and the cost per patient Re. 0-11-3 against Rs. 5,197-6-0 and Re. 1-14-3 in 1894 and Rs. 3,337-14-11 and Re. 1-6-4 in 1893, respectively. Rs. 20-6-0 were received on account of hospital stoppages, as compared with Re. 1-4-0 in 1894 and Rs. 21-9-0 in 1893.

MATA'RI.—*In charge of* Third Class Hospital Assistant GHANSHA'MDA'S GULUMAL, No. 309.

The dispensary was opened on the 1st May 1895. The building is in want of urgent repairs, as it is disfigured by the attacks of kalar. A female ward and an operating room are much needed. The committee visited the dispensary every month. The sanitary condition of the town is fair, and the water-supply from wells good and abundant. The total treated was 3,154 out-door and 20 in-door patients. Intermittent fever, rheumatism, conjunctiva, dyspepsia, abscesses, eczema and ulcers were the most common complaints. There was no epidemic disease. There were 11 major and 224 minor surgical operations performed. One *post-mortem* examination was held. Vaccination is carried out by the táluka vaccinator. The dispensary was inspected by the Civil Surgeon and the Collector of Hyderabad. The total cost was Rs. 794-2-1 and the cost per patient Re. 0-4-0. The receipts on account of hospital stoppages were anna 12 only.

THAR AND PA'RKAR.

GRANT-IN-AID DISPENSARIES.

UMARKOT.—*In charge of* First Class Hospital Assistant BA'LLA'JI CUDDUM, No. 67.

The dispensary building is well situated and ventilated. There is no accommodation for female patients. The town is kept clean and neat by the Municipality, no filth or rubbish being allowed to accumulate. Water-supply is plentiful and of good quality. The total treated was 4,332 out-door and 91 in-door patients, against 3,988 and 129 in 1894 and 4,259 and 184 in 1893, respectively. The prevailing diseases were dysentery, malarial fevers, diseases of the respiratory and digestive systems and skin, dyspepsia and ulcers. Six medico-legal cases were examined and reported upon. Vaccination is carried on by the local fund vaccinator. The total cost was Rs. 2,454-15-10 and the cost per patient Re. 0-8-10, as compared with Rs. 1,863-14-5 and Re. 0-7-2 in 1894 and Rs. 2,047-1-1 and Re. 0-7-4 in 1893, respectively. The fees collected under the hospital stoppage system amounted to Rs. 5-11-0, against Rs. 3-14-0 in 1894 and Re. 0-15-9 in 1893.

KHIPRA.—*In charge of* Third Class Hospital Assistant MULCHAND JHAMATMAL, No. 394.

The dispensary building is in a good state of repair, but quite unsuited for the purpose. The wards are small and ill-ventilated. There are no dead-house, latrine and servants' quarters. Furniture is in fair order. The native charpoys are very old and irrepairable. A cupboard for keeping poisons is badly required, as the present box is too small to hold all the poisons; also beddings and a few utensils for the patients. The dispensary committee met five times in each year. The number of patients treated was 3,943 out-door and 79 in-door, against 3,888 and 55 in 1894 and 3,776 and 64 in 1893, respectively. There were 5 major and 321 minor surgical operations performed, against 1 and 358 in 1894 and 3 and 300 in 1893, respectively. The general health of the town was fair. The roads and streets are kept in a fair state of cleanliness. There being no latrines, the people resort to the jungles for purposes of nature. Water-supply from wells is good and sufficient. Vaccination is carried out by the táluka vaccinator. 2 dead bodies were examined, against 3 in 1894 and 1 in 1893. The dispensary was inspected by the Deputy Sanitary Commissioner, Sind Registration District, the Deputy Commissioner, Thar and Párkar, and the Deputy Collector, Nára Valley. The total cost was Rs. 1,317-14-11 and the cost per patient Re. 0-5-2, as compared with Rs. 1,270-12-4 and Re. 0-5-1 in 1894 and Rs. 1,065-8-6 and Re. 0-4-5 in 1893, respectively. The amount collected on account of hospital stoppages was Re. 1-6-0, against Rs. 2-1-0 in 1894 and Re. 1-12-6 in 1893.

MITTI.—*In charge of* Third Class Hospital Assistant DAYA'RA'M DANDUMAL, No. 303.

The dispensary building is in a good state of repair, and furniture in good order. A female ward and a room and a verandah for the quarters for the hospital assistant were built in 1895. The committee visited the dispensary often. The sanitary condition of the town was good. The water-supply from wells is brackish. The total treated was 1,848 out-door and 54 in-door patients, against 2,749 and 51 in 1894 and 2,671 and 66 in 1893, respectively. The most common diseases were intermittent fever, conjunctivitis, bronchitis and ulcer. Two major surgical operations were performed, against 1 in 1894 and 6 in 1893. One case of small-pox occurred in the town in December 1895. Vaccination is carried on by the táluka vaccinator from arm to arm under the orders of the sanitary department. The dispensary was inspected by the Deputy Commissioner, Thar and Párkar, the Deputy Sanitary Commissioner, Sind Registration District, and the Deputy Collector, Thar Division. The total cost was Rs. 1,256-11-2 and the cost per patient Re. 0-10-6, as compared with Rs. 1,176-14-1 and Re. 0-6-8 in 1894 and Rs. 1,108-9-6 and Re. 0-6-5 in 1893, respectively. The fees realized under the hospital stoppage system amounted to Rs. 3-2-0, against Rs. 2-1-0 in 1894 and Re. 1-2-0 in 1893.

NAGAR PA'RKAR.—*In charge of* Third Class Hospital Assistant RA'MKISHINDA'S LELA'RA'M, No. 351.

The building is in a fair state of repair. Quarters for servants are needed. The furniture is sufficient with the exception of an almirah, which is required. Sanitary arrangements are fair. The conservancy of the town is fairly attended to. The dispensary committee met ten times. The water-supply from wells is good and sufficient. The total number of patients treated was 1,098 out-door and 42 in-door, as compared with 1,572 and 61 in 1894 and 1,798 and 34 in 1893, respectively. The prevailing diseases were intermittent fevers, conjunctivitis, diseases of the digestive and respiratory systems and skin and ulcers. There was 1 death amongst in-patients, against 2 in 1894 and 1 in 1893. Vaccination is performed by the táluka vaccinator. There was no epidemic during the year. There were 10 major surgical operations performed, against 2 in 1894 and *nil* in 1893. The general health of the town was fair. One *post-mortém* examination was held, and opinion given in several medico-legal cases. The dispensary was inspected by the Deputy Commissioner and the Deputy Collector of the District, and by the Deputy Sanitary Commissioner, Sind Registration District. The total cost was Rs. 1,207-2-8, as compared with Rs. 1,329-10-8 in 1894 and Rs. 1,328-7-6 in 1893. The cost per patient was Re. 1-0-11 against Re. 0-13-0 in 1894 and Re. 0-11-7 in 1893. The hospital stoppage rules are not in force here.

CHA'CHRA.—*In charge of* Third Class Hospital Assistant HOTCHAND NA'NUMAL, No. 370.

The town is kept fairly clean by the Panchâyat sweepers. No filth is collected, as the climate and the nature of the soil do not permit it. Water-supply from sweet and bitter wells is sufficient but costive. Rain water is collected in the ponds during the monsoon and used for drinking purposes by the people, which causes the prevalence of guinea-worm. The old dharmshâla is used for the dispensary. There are neither latrines for patients nor quarters for the Hospital Assistant. The general health was good. The total treated was 1,339 out-door and 47 in-door patients, against 1,435 and 89 in 1894 and 1,265 and 63 in 1893, respectively. Intermittent fever, diseases of the skin and respiratory and digestive systems and ulcers were the most common diseases. There was no epidemic disease. One major and 102 minor surgical operations were performed. Vaccination is satisfactorily performed by the táluka vaccinator. Opinion was given in only one medico-legal case. The dispensary was inspected by the Civil Surgeon of Hyderabad and by the Deputy Commissioner and the Deputy Collector of Thar and Párkar. The total cost was Rs. 1,129-10-6 and the cost per patient Re. 0-13-0, as compared with Rs. 1,200-6-7 and Re. 0-12-7 in 1894 and Rs. 1,066-2-9 and Re. 0-12-10 in 1893, respectively. Rs. 5-1-0 were realized on account of hospital stoppages during the year 1893, whereas there were no receipts under this head in 1894 and 1895.

SANGHAR.—*In charge of* Third Class Hospital Assistant TECKCHAND RACHUMAL, No. 265.

The dispensary was opened on 15th May 1895. The building is constructed on the standard plan and kept in excellent repair. The furniture and fittings are sufficient. The roads and streets of the town are in a clean and satisfactory state. There are no latrines in the town, and the inhabitants resort to the jungle on the west side for calls of nature. The general health was, on the whole, fair. Water-supply from five wells is good and sufficient. Vaccination is performed by the táluka vaccinator. Five dead bodies were examined at the request of the Police, and opinion was given in 8 medico-legal cases. The dispensary committee met six times. The dispensary was inspected by the Deputy Commissioner, Thar and Párkar, by the Deputy Collector, Nára Valley, and by the Deputy Sanitary Commissioner, Sind Registration District. The total number of patients treated was 78 in-door and 2,332 out-door. The prevailing diseases were intermittent fevers, conjunctivitis, ulcers and chronic bronchitis. One major surgical operation was performed. The total expenditure was Rs. 1,050-12-5 and the cost per patient Re. 0-6-11. Though the rules regarding hospital stoppages have been accepted by this dispensary, no fees were received during the year under this head.

SHIKÁRPUR COLLECTORATE.

SHIKÁRPUR CIVIL HOSPITAL.—*In charge of* Surgeon-Captain J. B. SMITH, M.B., M.Ch.

Conservancy.—The conservancy of the town has been much improved during the last three years. A halalcor cess has been established and a large conservancy staff entertained. In 1895 the Municipality spent Rs. 52,818 on sanitation. The sanitary establishment consists of two sanitary inspectors, 13 muccadums and 206 sweepers.

Water-supply.—Is obtained from 85 municipal and 55 private wells. A very large number of these are liable to soakage, either from their own tanks or from neighbouring houses or from both. Those used by the Hindus are wilfully contaminated by the throwing in of rice, milk, &c., which is done as a religious observance. Water-works are in contemplation, the water to be derived from wells outside the town.

Hospital buildings.—In 1894 the buildings were in a very bad condition, the roof of the main ward (which is an arched one) was subsiding slowly and the ward was thrown out of use as dangerous. In 1894 and 1895 the mortuary and the store-room were newly roofed and generally repaired; windows were provided in the servants' quarters and in the hospital bath-room, an iron stove was supplied for the operation room, and the walls of the hospital were shored up with brick pillars and drawn together with iron bars. New compound gates and some brick drains have also been provided.

General health.—The general health of the town is fair. The death-rate in the town during 1895 was 26·60 per 1,000 as against 24 per 1,000 in 1893 and 23·4 per 1,000 in 1894. No epidemics prevailed during these years.

Attendance of patients.—2,880 out-door and 499 in-door against 2,539 and 518 in 1894 and 2,826 and 416 in 1893, respectively.

Prevailing diseases—Mainly malarial fevers, rheumatic complaints, diseases of the ear and skin (including ulcers) and syphilis.

Surgical operations.—95 major and 587 minor against 62 and 264 in 1894 and 41 and 232 in 1893, respectively. Of the major operations, the most important were those for stone, 24 being performed in 1895 against 13 in 1894 and 19 in 1893. Of the remaining operations, the most noteworthy were trephining for compound fracture of the skull, excision of the elbow joint, radical cure of hernia and removal of elephantiasis of the scrotum (the tumour weighing 11 lbs.).

Mortality and its causes.—The deaths in 1895 were 17, against 19 in 1894 and 13 in 1893. Not infrequently persons in a moribund condition were admitted to the hospital. Of

the 13 who died in hospital in 1893, 9 were from medical and 4 from surgical causes, two of the latter following operations. Of the 19 deaths in 1894, 15 were due to medical and 4 to surgical causes; 4 deaths succeeded on operation. Of the 17 deaths in 1895, 6 were due to medical and 11 to surgical causes; 4 succeeded on operation.

Vaccination.—Is carried out by municipal vaccinators and is fairly popular. There were 1,180 primary and 87 secondary vaccinations against 1,210 and 64 in 1894 and 1,211 and 29 in 1893, respectively.

Establishment.—The conduct of the establishment was good.

Hospital stoppages.—The amount collected was Rs. 56-15-0 against Rs. 12-14-0 in 1894 and Rs. 51-4-0 in 1893.

Cost.—The total cost was Rs. 2,746-9-2 and the cost per patient Re. 0-13-0, as compared with Rs. 2,741-0-5 and Re. 0-14-4 in 1894 and Rs. 2,264-2-10 and Re. 0-11-2 in 1893, respectively. Diet cost Re. 0-2-0, or the same as in the two previous years.

SUKKUR CIVIL HOSPITAL—*In charge of* Surgeon-Major W. A. CORKERY.

Conservancy and water-supply—General sanitary condition of the town above ground is good and has undergone no changes during the three years. The underground sewers are faulty and get choked occasionally from inefficient pumping power, the whole of the sewage finds its way into two large flushing tanks, which is pumped by machinery into the river Indus. During the flood season this is not objectionable, but for about seven months in the year, when the river recedes and is low, the sewage is discharged on to the dry bank which must necessarily be prejudicial to the health of the community, owing to its close proximity to dwelling houses and two large merchants' establishments; but the scheme for a new drainage system in connection with the recent water-works has been already submitted by the Executive Engineer in charge and is now under the consideration of the Municipality, and these defects will then be remedied, as it is proposed to convey the sewage to a farm or field, a mile outside the town, in the direction of Miani. The present night-soil depôt, which is now full to overflowing, will be closed, and a new one, worked under Mr. Doig's plan, will be utilised in a few days as soon as the road leading to it, which is now under construction, is completed. The new depôt is on the Shikárpur Road, about two miles from the town, and in a convenient and suitable spot. The water-supply for 1893, 1894 and the greater part of 1895 was derived partly from the river Indus and partly from public and private wells. The water on the whole was of good quality and abundant, but that derived from most of the wells was brackish and pronounced unfit for consumption by the Chemical Analyser. The new water-works, which were commenced last year, were completed and formally opened by His Excellency the Governor of Bombay on the 4th December. The town of Sukkur is consequently now provided with a good and abundant supply of potable water, the supply well being excavated in the bed of the river Indus close to the wharf wall and 250 yards below the Lansdowne Bridge. The supply is by gravitation on the constant service principle and supplies 12 gallons per head, while the mains are large enough to distribute the whole of it in six hours. The wells are now being gradually closed by orders of the Municipality.

Hospital buildings.—Are two main detached buildings, one for Europeans and one for Natives: the former provides four comfortable and well furnished wards for Europeans and one for respectable Natives, such as clerks, station-masters, &c. The latter is used exclusively for Natives, has four wards—three for males and one for females, and provides accommodation for 22 beds. The present brick floors in both the hospital wards and verandahs is being substituted for cemented ones, and the work has just been commenced. The proposal for levelling the grounds in front of the two hospitals and enclosing a wall round the precincts has been sanctioned by Government, and the Executive Engineer of the Division has already invited tenders and hopes to put the work in hand as soon as possible.

General health.—The general health of the town of Sukkur and its neighbourhood for the three years under review has been good on the whole, being marked by an entire absence of any disease in an epidemic form. No cases of cholera whatever have occurred during the three years. In 1893 and 1894 there were also no cases of either small-pox or heat apoplexy, but in 1895 there were 23 of the former (of which only 1 proved fatal), being more of an endemic nature and of a modified form, and two of the latter. The hot months have been particularly healthy.

Attendance of patients.—The total treated was 5,833 out-door and 426 in-door against 6,233 and 462 in 1894 and 6,389 and 287 in 1893, respectively.

Prevailing diseases.—Malarial fevers, diseases of the alimentary system, chiefly dysentery, diseases of the respiratory system, chiefly bronchitis catarrhal, diseases of the skin and rheumatic affections.

Mortality and its causes.—There were 16 deaths as compared with 20 in 1894 and 41 in 1893. The principal causes of deaths were pneumonia, pneumonic phthisis, chronic bronchitis and diarrhœa.

Surgical operations.—107 major surgical operations against 107 in 1894 and 78 in 1893.

Vaccination.—Is carried out efficiently by the municipal vaccinator under the supervision of the Deputy Sanitary Commissioner.

Conduct of establishment.—Satisfactory on the whole.

Medico-legal cases.—72 medico-legal cases were examined and reported upon against 75 in 1894 and 76 in 1893.

Hospital stoppages—The amount realized was Rs. 74-1-0 as compared with Rs. 102-2-0 in 1894 and Rs. 59-12-0 in 1893.

Cost.—The total expenditure was Rs. 3,380-6-1 against Rs. 3,063-3-3 in 1894 and Rs. 3,295-2-0 1893. The cost per patient averaged Re. 0-8-7 as compared with Re. 0-7-3 and Re. 0-7-10 in 1894 and 1893, respectively. Diet cost Re. 0-2-0, being the same as in the two previous years.

MUNICIPAL DISPENSARIES.

VICTORIA DISPENSARY, SHIKÁRPUR—*In charge of* First Class Hospital Assistant M. SHALLUMJEE, No. 92.

The dispensary building is in thorough repair. The furniture and fittings are sufficient and in good order. The dispensary committee meet regularly every month. The sanitary and conservancy arrangements have greatly improved. The water-supply is abundant and good. The total treated was 12,236 out-door and 18 in-door patients against 15,947 and 46 in 1894 and 14,832 and 62 in 1893, respectively. The most common diseases were fever intermittent, conjunctivitis catarrhal, inflammation external meatus, abscess and ulcers. There were 2 deaths amongst in-patients, 1 from pneumonia and 1 from chronic diarrhœa, in 1895, against 3 (from chronic diarrhœa, pneumonia and fracture sprain with dislocation 1 each) in 1894, and 4 (from chronic diarrhœa and pneumonia 2 each) in 1893. Vaccination is carried on by the Sanitary Department. There was no epidemic disease. The dispensary was inspected by the Principal Medical Officer, Sind District, the Sanitary Commissioner for the Government of Bombay, the Deputy Sanitary Commissioner, Sind Registration District, and the Civil Surgeon of Shikárpur. The total cost was Rs. 1,781-14-8, as compared with Rs. 2,285-5-1 in 1894 and Rs. 2,278-10-5 in 1893. The cost per patient averaged Re. 0-2-3 against Re 0-2-3 in 1894 and Re. 0-2-5 in 1893. The hospital stoppage rules are not in force here.

SUKKUR.—*In charge of* First Class Hospital Assistant E. BENJAMIN, No. 80.

The buildings are in thorough repair, and furniture and fittings sufficient. The dispensary committee meet regularly every month. Water-supply is excellent and abundant. The new water-works have been utilized since November last. The total number of patients treated was in-door 70 and out-door 9,877 against 56 and 8,517 in 1894 and 49 and 6,643 in 1893. The prevailing diseases were fever intermittent (malarial), conjunctivitis, inflammation of external ear, respiratory affections and ulcers. One major and 549 minor surgical operations were performed, against one and 322 in 1894 and *nil* and 263 in 1893, respectively. A few cases of small-pox occurred in the town. Vaccination is carried out by the Sanitary Department. The dispensary was inspected by the Civil Surgeon of the station and the Deputy Sanitary Commissioner, Sind Registration District. The total cost was Rs. 2,147-5-7 and the cost per patient Re. 0-3-5 against Rs. 2,139-11-3 and Re. 0-3-11 in 1894 and Rs. 2,375-12-5 and Re. 0-5-8 in 1893, respectively. The hospital stoppage rules are not in force here.

L'ARKHA'NA.—*In charge of* Assistant Surgeon JIVATRA'M ALIMCHAND LA'LVA'NI.

The conservancy arrangements of the town are fairly satisfactory, but quite inadequate to the requirements of the place; the town is undrained, and hence there is good deal of sub-soil moisture. Water-supply from wells has been good and abundant. During summer water from the Ghar canal is also availed of. The dispensary buildings are in a good state of repair. Two new cooking-rooms were constructed for the use of in-patients. The general health has been fairly good throughout. Small-pox was much prevalent in the táluka and the town. The total number of patients treated was 16,830 out-door and 184 in-door, as compared with 15,354 and 182 in 1894 and 14,220 and 247 in 1893, respectively. The most common diseases were intermittent fevers, conjunctivitis catarrhal, ulcers, diseases of the ear, rheumatism and bronchitis catarrhal. There were 78 major surgical operations performed, against 57 in 1894 and 46 in 1893. Vaccination is performed from house to house by a municipal vaccinator. 17 *post-mortem* examinations were held at the request of the Police. The dispensary was inspected by the Civil Surgeon of Shikárpur and by the Deputy Sanitary Commissioner, Sind Registration District. The total cost was Rs. 3,377-9-1 and the cost per patient Re. 0-3-2, as compared with Rs. 4,487-14-0 and Re. 0-4-7 in 1894 and Rs. 4,108-4-5 and Re. 0-4-6 in 1893, respectively. Receipts on account of hospital stoppages amounted to Rs. 56-15-0, against Rs. 86-7-0 in 1894 and Rs. 48-15-0 in 1893.

GRANT-IN-AID DISPENSARIES.

ROHRI.—*In charge of* Third Class Hospital Assistant TEKCHAND HAZA'RIMAL, No. 287.

The sanitary condition of the town is defective, and most of the private lanes are in an extremely dirty condition, as they are generally used by the people as receptacles of waste water, urine and excreta. Water-supply, chiefly from the River Indus, is good and abundant. The dispensary buildings in their present state are in good order. Quarters for compounder and goorgah are badly wanted. The general health of the town was, on the whole, fair. Small-pox prevailed, but was not epidemic. The total treated was 7,055 out-door and 87 in-door patients, as compared with 6,383 and 73 in 1894 and 4,854 and 47 in 1893, respectively. The prevailing diseases were malarial fevers, diseases of the eye, ear and digestive system and ulcers. There were four deaths among in-patients, against six in 1894 and one in 1893. Two major surgical operations were performed, being the same as in the two previous years. Vaccination is carried out by the municipal vaccinator. The dispensary committee visited the dispensary regularly every month. Six *post-mortem* examinations were held. The dispensary was inspected by the Principal Medical Officer, Sind District, the Sanitary Commissioner for the Government of Bombay, the Deputy Sanitary Commissioner, Sind Registration District, and by the Civil Surgeon of Sukkur and the Collector and the Assistant Collector of Shikárpur. The total cost was Rs. 1,691-7-6 and the cost per patient Re. 0-3-9, against Rs. 1,950-7-2 and Re. 0-4-9 in 1894 and Rs. 1,703-12-5 and Re. 0-5-6 in 1893, respectively. Rs. 71-10-0 were realized under the hospital stoppage system, as compared with Rs. 59-15-0 in 1894 and Rs. 46-2-0 in 1893.

MEHA'R.—*In charge of* Third Class Hospital Assistant TUKA'RA'M PANDHARINA'TH, No. 254.

The buildings require repairs. Furniture and fittings are in good order and sufficient. The committee visit the dispensary every month. The sanitary condition of the town is fair. Water-supply from wells and canal is good and abundant. The total treated was 11,143 out-door and 84 in-door patients, against 8,702 and 92 in 1894 and 5,278 and 67 in 1893. The prevailing diseases were malarial fevers, rheumatic affections, diseases of the eye, ear, respiratory and digestive systems, connective tissue and skin, ulcers and local injuries. There was no epidemic disease. There were 31 major surgical operations performed, against 39 in 1894 and 34 in 1893. Vaccination is performed by the táluka vaccinator. Six *post-mortem* examinations were made, against four in 1894 and six in 1893. The dispensary was inspected by the Civil Surgeon of Shikárpur once in each year and by the Deputy Sanitary Commissioner, Sind Registration District, in 1893 and 1895. The total cost was Rs. 2,518-8-8 and the cost per patient Re. 0-3-7, against Rs. 1,672-3-4 and Re. 0-3-0 in 1894 and Rs. 2,426-6-9 and Re. 0-7-3 in 1893, respectively. Rs. 32-5-0 were collected under the hospital stoppage rules, as compared with Rs. 2-13-0 in 1894. There were no receipts under this head in 1893.

KAMBAR.—*In charge of* First Class Hospital Assistant JOSEPH ISRAEL, No. 56.

The town is kept clean by the sweepers appointed by the Municipality, and the night-soil removed by them and buried underneath the ground a little far from the town. Water-supply from wells is ample but brackish. The dispensary buildings are in good order. The general health of the town is good. The total treated was 9,641 out-door and 117 in-door patients, as compared with 9,496 and 111 in 1894 and 10,605 and 103 in 1893, respectively. The prevailing diseases were malarial fevers, diseases of the eye, respiratory and digestive systems and skin and ulcers. No epidemic prevailed during the year. There were 17 major surgical operations performed, against 3 in 1894 and 5 in 1893. Vaccination is carried out by the táluka vaccinator. Seven *post-mortem* examinations were held. The dispensary was inspected by the Civil Surgeon and the Collector of Shikárpur, the Assistant and the Deputy Collectors of Lárkhána and by the Deputy Sanitary Commissioner, Sind Registration District, Karáchi. The total cost was Rs. 2,091-9-5 and the cost per patient Re. 0-3-5, as compared with Rs. 2,051-3-7 and Re. 0-3-4 in 1894 and Rs. 2,226-14-0 and Re. 0-3-3 in 1893, respectively. The amount collected on account of hospital stoppages was Rs. 6-15-0, against Rs. 7-9-0 in 1894 and Rs. 13-9-0 in 1893.

GHOTKI.—*In charge of* Third Class Hospital Assistant KHUSHA'LDA'S KHEMCHAND, No. 252.

The dispensary building is in a dangerous condition. A new one is absolutely essential. The furniture is sufficient and in good order with few exceptions. The dispensary was visited every month regularly by the committee. The most common complaints were malarial fevers, rheumatism, conjunctivitis, inflammation of the external ear, bronchitis, diseases of the digestive system and skin, ulcers and local injuries. Three deaths took place among in-door patients against one in 1894 and three in 1893. No epidemic prevailed, except that one case of small-pox occurred in the town of Ghotki. The dispensary was inspected by the Civil Surgeon, Sukkur, once in each year, and by the Deputy Sanitary Commissioner in 1893 and 1894. The total number of patients treated was 4,697 out-door and 76 in-door, against 4,552 and 59 in 1894 and 4,372 and 77 in 1893, respectively. The sanitary condition of the town was fair. The water-supply from wells is good and abundant. The general health of the town and district was fair. Ten major surgical operations were performed, against three in 1894 and one in 1893. There were four *post-mortem* examinations held against six in 1894 and one in 1893. Several medico-legal cases were examined and reported upon at the request of the Police. Vaccination is carried on by the táluka vaccinator. The total cost was Rs. 1,733-14-0 and the cost per patient Re. 0-5-9, as compared with Rs. 1,508-5-6 and Re. 0-5-2 in 1894 and Rs. 1,643-5-1 and Re. 0-5-10 in 1893,

respectively. Rs. 12-0-0 were received as hospital stoppages, against Rs. 9-4-0 in 1894 and Rs. 27-3-0 in 1893.

DOKRI.—*In charge of* Third Class Hospital Assistant PARTA'BRA'I TOPANDA'S, No. 375.

The dispensary buildings are in a good state of repair, and furniture and fittings sufficient and suitable. The dispensary committee meet once a month. Malarial fevers, rheumatic, syphilitic, skin, eye and respiratory affections, dysentery, diarrhœa, boils, ulcers and local injuries were the most common complaints. No epidemics prevailed during the three years, except that a few cases of small-pox occurred during 1895 in the táluka. The dispensary was inspected by the Collector and the Civil Surgeon of Shikárpur and by the Deputy Sanitary Commissioner, Sind Registration District, and the Deputy Collector of Lárkhána. The total treated was 2,824 out-door and 55 in-door patients, as compared with 2,563 and 36 in 1894 and 2,415 and 44 in 1893, respectively. Sanitation is looked after fairly well. There are only two sweepers in the village who are paid by the Panchâyat and not by the local board. Water-supply from wells and the Nára canal is good and sufficient. The general health, on the whole, has been fair. There were 5 major surgical operations performed, against 1 in 1894 and 3 in 1893. Five *post-mortem* examinations were held. Vaccination is carried out by the táluka vaccinator. The total cost was Rs. 987-7-1 and the cost per patient Re. 0-5-5, as compared with Rs. 1,199-1-11 and Re. 0-7-4 in 1894 and Rs. 1,242-4-0 and Re. 0-8-0 in 1893, respectively. The receipts from hospital stoppages were Re. 1-6-0 during the year 1895, while in 1894 and 1893 no amount was realized.

RATO DERO.—*In charge of* Third Class Hospital Assistant TIRITHDA'S KHÁNCHAND, No. 350.

The building is not suitable for the purposes of a dispensary and has not yet been repaired. Latrines for patients and for the hospital assistant and a dead-house are required. The present quarters for the medical officer are unsuitable. Furniture and fittings are sufficient. The dispensary committee visited the dispensary regularly. The most common complaints were malarial fevers, diseases of the eye, ear, respiratory system and connective tissue, ulcers and local injuries. No epidemics prevailed during the three years. The dispensary was inspected by the Deputy Sanitary Commissioner, Sind Registration District, by the Civil Surgeon and the Collector of Shikárpur and the Assistant Collector of Lárkhána. There were 3,007 out-door and 29 in-door patients treated against 3,969 and 24 in 1894 and 4,188 and 45 in 1893, respectively. Four major surgical operations were performed as compared with 7 in 1894 and 4 in 1893. The sanitary condition of the town was satisfactory during the three years. The water-supply from wells is sufficient and good. The general health of the town was fair. There were 8 *post-mortem* examinations held against 4 in 1894 and 4 in 1893. Vaccination is carried out by the táluka vaccinator. The total cost was Rs. 1,216-10-2 and the cost per patient Re. 0-6-4, as compared with Rs. 1,098-11-1 and Re. 0-4-4 in 1894 and Rs. 1,051-11-6 and Re. 0-3-11 in 1893, respectively. The fees collected under the hospital stoppage system amounted to Rs. 11-7-0 against Rs. 9-0-0 in 1894 and Rs. 4-3-0 in 1893.

UBAURO.—*In charge of* Third Class Hospital Assistant HARUMAL MENGHRA'J, No. 312.

The dispensary was opened on 5th May 1895. The building is quite a new one. Quarters for the compounder and a latrine for the medical officer are needed. Furniture and fittings are sufficient and in good order. The dispensary committee met once during the year. The sanitary condition of the town is fair. The water-supply from wells is good and ample. The total treated was 1,492 out-door and 5 in-door patients. The prevailing diseases were malarial fevers, rheumatism, conjunctivitis, bronchitis, diseases of the digestive organs and skin and ulcers. There was no epidemic disease. Vaccination is carried out by the local fund vaccinator. The dispensary was inspected by the Civil Surgeon, Sukkur, on 20th November. One major surgical operation was performed. The minor operations numbered 151. The total cost was Rs. 909-9-11 and the cost per patient Re. 0-9-8. The receipts on account of hospital stoppages were Rs. 3-5-0.

GARHI YA'SSIN.—*In charge of* Third Class Hospital Assistant HIRA'NAND NANUMAL, No. 377.

The dispensary was opened on 1st May 1895. The buildings are splendid and commodious. The furniture and fittings are sufficient for the present wants. The dispensary committee meet regularly every month. The most common diseases were malarial fevers, conjunctivitis, inflammation of the external ear, skin diseases and ulcers. The dispensary was inspected by the Civil Surgeon, Shikárpur, and by the Deputy Collector, Sukkur. The sanitary and conservancy arrangements are well attended to. The water-supply is abundant and good. The total treated was 4,000 out-door and 95 in-door patients. Vaccination is carried on by the Sanitary Department. The total cost was Rs. 940-2-9 and the cost per patient Re. 0-3-8. There were no receipts on account of hospital stoppages during the year.

UPPER SIND FRONTIER.

GOVERNMENT DISPENSARY.

JACOBABAD.—*In charge of* Surgeon-Lieutenant D. C. JOHNSTON.

The dispensary buildings are in good repair and have been much improved, but the verandahs of the dispensary require pukka roofing, which has been approved of by Govern-

ment, but not done as yet. The sanitary condition of the town is satisfactory and the water-supply sufficient and good. The total treated was 7,106 out-door and 370 in-door patients against 7,123 and 343 in 1894 and 5,713 and 324 in 1893. The prevailing diseases were intermittent fever, conjunctivitis, bronchitis, dental caries and ulcers. There were 52 major and 1,295 minor surgical operations performed against 51 and 941 in 1894 and 44 and 900 in 1893. Vaccination is carried on by the municipal vaccinator. The dispensary was inspected by the Principal medical officer, Sind District, once in each year. The total cost was Rs. 3,869-6-10 and the cost per patient Re. 0-8-3 against Rs. 4,182-9-4 and Re. 0-8-11 in 1894 and Rs. 4,571-14-1 and Re. 0-12-1 in 1893. The fees collected under the hospital stoppage system amounted to Rs. 18-3-0, as compared with Rs. 20-11-6 in 1894 and Rs. 22-10-5 in 1893.

GRANT-IN-AID DISPENSARIES.

KASHMOR.—*In charge of* Third Class Hospital Assistant RUPCHAND CHATA'MAL, No. 321.

The dispensary building is in a good state. The general health of the town was good. Water-supply from wells is abundant, but liable to pollution from soakage. It is not potable during summer when river water is used. The sanitary condition of the town is fair. The roads and streets are fairly clean. The dispensary was inspected by the Deputy Collector of Jacobabad, the Deputy Commissioner, Upper Sind Frontier, and by the Commissioner in Sind and the Deputy Sanitary Commissioner, Sind Registration District. The committee visited the dispensary 8 times against 5 times in 1894 and 6 times in 1893. The total treated was 59 in-door and 1,910 out-door patients, against 35 and 2,385 in 1894 and 55 and 2,867 in 1893. There were 1 major and 123 minor surgical operations performed against 7 and 188 in 1894 and 9 and 227 in 1893. Conjunctivitis, intermittent fever, ulcers and diseases of the digestive system were the prevailing diseases. Four dead bodies were examined. Vaccination is performed by the táluka vaccinator. The total cost was Rs. 1,426-11-11 and the cost per patient Re. 0-11-7, as compared with Rs. 949-3-5 and Re. 0-6-3 in 1894 and Rs. 1,193-8-2 and Re. 0-6-6 in 1893. The receipts under the hospital stoppage system were Re. 0-6-0 against Re. 1-8-0 in 1894 and Rs. 2-13-0 in 1893.

VICTORIA DISPENSARY, SHAHDÁDPUR.—*In charge of* Third Class Hospital Assistant CHOITRÁM DULA'MAL, No. 361.

The buildings are very shortly to be repaired. The committee visited the dispensary nine times. The sanitary condition of the town is fairly good. The water-supply from wells and Koor Canal is good and abundant. The total number of patients treated was 80 in-door and 4,356 out-door, as compared with 81 and 4,059 in 1894 and 76 and 3,165 in 1893, respectively. The prevailing diseases were malarial fevers, rheumatism, diseases of the nervous system, eye, ear, respiratory, digestive and generative systems, connective tissue and skin, ulcers and local injuries. There were 24 major surgical operations performed against 7 in 1894 and 7 in 1893. 5 *post-mortem* examinations were held and certificates granted in 7 medico-legal cases. The dispensary was inspected by the Deputy Sanitary Commissioner, Sind Registration District, the Commissioner in Sind, the Deputy Commissioner, Upper Sind Frontier, and the Civil Surgeon, Shikárpur. The total cost was Rs. 1,609-13-2 and the cost per patient Re. 0-5-9 against Rs. 1,290-6-11 and Re. 0-4-11 in 1894 and Rs. 1,352-1-0 and Re. 0-6-8 in 1893, respectively. Fees realized under the hospital stoppage rules amounted to Rs. 8-0-0, as compared with Re. 1-12-0 in 1894 and Rs. 10-12-0 in 1893.

FOREIGN.

ADEN DISTRICT.

EUROPEAN GENERAL HOSPITAL, ADEN.—*In charge of* Surgeon-Major W. P. CARSON, M.B.

General health.—Has been, on the whole, good.

Conservancy and water-supply.—The town has been kept clean at all times. The conservancy of private houses in the bázár is being improved by the abolition of all cesspools and the substitution of receptacles with daily removal of the night-soil. The water-supply is good and abundant.

Hospital building.—Is a very good one and has been found suitable in every way. It is in first class order and has been much appreciated.

Attendance of patients.—3,758 out-door and 259 in-door, as compared with 4,872 and 194 in 1894 and 4,471 and 166 in 1893, respectively.

Surgical operations.—20 major and 571 minor against 10 and 741 in 1894 and 9 and 408 in 1893, respectively.

Prevailing diseases—Malarial fevers, diseases of the digestive system, ulcers, injuries and simple continued fever.

Mortality and its causes.—There were 10 deaths as compared with 11 in 1894 and 3 in 1893. The causes of death were pneumonia, heat apoplexy, ulceration of larynx, influenza, pernicious anæmia, peritonitis, suppurative perityphlitis, multiple injury, internal strangulation and septicæma.

Vaccination.—Cannot be said to have been carried on satisfactorily, the natives being averse to it.

Conduct of establishment.—All that could be desired.

Stoppages.—Rs. 6,999-8-0 were receipts from paying patients for diet, as compared with Rs. 4,764-0-0 in 1894 and Rs. 5,251-8-0 in 1893.

Cost.—The total cost was Rs. 11,768-7-2 and the cost per patient Rs. 2-14-10 against Rs. 11,562-2-6 and Rs. 2-4-6 in 1894 and Rs. 11,200-15-7 and Rs. 2-6-7 in 1893, respectively. The average cost of each diet was Re. 1-0-7, as compared with Re. 1-3-3 in 1894 and Re. 1-2-4 in 1893.

ADEN CIVIL HOSPITAL.—*In charge of* Surgeon-Captain J. L. T. JONES, M.B.

Conservancy.—Is well looked after. Sweepers' passages are becoming general and are made compulsory, and the house cesspools are gradually done away with. Refuse is removed by covered carts and burnt.

Water-supply.—Is ample and good.

Hospital buildings.—Are all in good order and kept in a good state of repair. A new ward separate from the main block is now under construction and when finished will prove a very good addition to the civil hospital buildings.

General health.—During most of 1893 good, except for epidemic of dengue during the last quarter. During 1894 the general health was bad, due chiefly to malaria, and during 1895 it was fairly good. But there were epidemics during 1895 from March to the end of July of chicken-pox, small-pox, measles and influenza.

Attendance of patients.—The total treated was 6,849 out-door and 1,322 in-door, as compared with 6,683 and 1,287 in 1894 and 6,450 and 1,274 in 1893, respectively.

Prevailing diseases—Malarial fevers, ulcers, injuries and diseases of the digestive system, skin and eye.

Surgical operations.—There were 127 major and 944 minor operations performed against 118 and 1,069 in 1894 and 142 and 897 in 1893, respectively. Of the major, the most important were litholapaxy, amputations, opening of large abscesses, paracentesis abdominis and excision of tumours.

Mortality and its causes.—There were 152 deaths in the hospital as compared with 140 in 1894 and 89 in 1893. The chief causes were lung affections (34), privation (23), diarrhœa (16), dysentery (9), ulcers (9) and general injuries (3).

Vaccination—There has been no change for some years in the carrying on of vaccination. Both the vaccinator and vaccinatrix are paid by results. Regular stations are fixed. It is partly compulsory, and constant inspections are made by the Civil Surgeon under whose supervision most of the vaccinations are made.

Conduct of establishment.—During the past three years, as evidenced by the annual reports, the conduct of all the establishment has been decidedly good. But a compounder is very badly wanted.

Cost.—The total cost was Rs. 12,904-7-2 and the cost per patient Re. 1-9-3, as compared with Rs. 14,897-0-7 and Re. 1-13-10 in 1894 and Rs. 12,731-4-4 and Re. 1-10-4 in 1893, respectively. Diet cost Re. 0-4-0 against Re. 0-3-11 in 1894 and Re. 0-3-8 in 1893.

Stoppages.—Rs. 85-9-0 were realized as hospital stoppages against Rs. 226-12-0 in 1894 and Rs. 224-10-0 in 1893. Receipts from paying patients for diet amounted to Rs. 405-15-1, as compared with Rs. 104-13-0 in 1894 and Rs. 47-11-6 in 1893.

ALIA ISLAND QUARANTINE HOSPITAL, ADEN.—*In charge of* Surgeon-Major W. P. CARSON, M.B.

Hospital.—Was opened for the first time on July 9th, 1893.

Water-supply.—Condensed water is conveyed in boats to the Island when the Hospital is open.

Attendance of patients.—The total number admitted was as follows :—

	In-door. Admissions.	In-door. Deaths.	Out-door. Admissions.
1893	29	13	18
1894 Hospital not open throughout the year.			
1895	9	7	1
Total for 3 years ...	38	20	19

Prevailing diseases.—Small-pox.

Mortality.—20 deaths in all. A very high rate, due to the wretchedly starved condition of patients most of whom were unprotected against small-pox.

Causes of death.—Small-pox 17, dysentery 1 and heat apoplexy 2.

Establishment.—A chowkidar is stationed on the island all the year round. When the hospital is opened, a Hospital Assistant and temporary servants are landed on the island.

Cost.—The total cost was Rs. 467-11-11. The cost per patient was Rs. 46-12-4 and of each diet Re. 0-9-4 during 1895.

Stoppages.—Rs. 26-8-0 were receipts from paying patients for diet in 1895.

MUNICIPAL DISPENSARIES.

PRINCE OF WALES DISPENSARY, ADEN.—*In charge of* Assistant Surgeon T. C. KHA'NDWA'LA, L.M. & S.

The dispensary building is in a good state of repair, and several additions and alterations have been made which provide for (*a*) a consultation and examination room, (*b*) a waiting room for females and children, (*c*) a waiting room for males, (*d*) window for delivery of medicines to each sex separately from the dispensary, (*e*) the complete separation of the quarters of the medical officer and of the peon from the dispensary proper and (*f*) the removal of the dispensary privies outside the dispensary proper. The in-patients' wards, both for eye and general diseases, have been abolished. The sanitary arrangements of the town continue very much the same as before, except that privies to dwelling houses are gradually enforced. The most common diseases were malarious fevers, diseases of the digestive system, eye and skin and ulcers. A mild type of influenza prevailed in the middle of the year. The total number of in-patients treated in the year under report was 28, as compared with 5 in 1893 and 48 in 1894. Out-patients numbered 10,060, as compared with 9,261 in 1893 and 10,889 in 1894. The daily average attendance of out-patients was 71·1, as compared with 115·9 in 1893 and 98·8 in 1894. There were 86 major and 977 minor surgical operations performed, as compared with 27 and 363 in 1893 and 61 and 792 in 1894, respectively. The most important of the major operations were 25 on eyes and 15 on urinary organs. The dispensary was inspected once every year by the Principal Medical Officer, Bombay and Aden Districts, and by the Civil Surgeon, Aden. The dispensary committee met 8 times and visited the dispensary 7 times through its deputies, and the Resident and the Firsst Assistant Resident visited it once during the year. The total cost was Rs. 4,831-4-1, a compared with Rs. 6,173-3-5 in 1894 and Rs. 3,966-5-10 in 1893. The cost per patient averaged Re. 0-7-7 against Re. 0-9-0 in 1894 and Re. 0-6-10 in 1893. Rs. 230-2-0 were derived as hospital stoppages, as compared with Rs. 33-14-0 in 1894 and Rs. 43-4-0 in 1893.

SHAIK OTHMAN DISPENSARY, ADEN.—*In charge of* Third Class Hospital Assistant MAHOMEDUSIFF DA'DA'MIYA MUNSHI, No. 285.

The dispensary buildings are all in an excellent state of repair. Furniture, fittings, &c., are sufficient and in good order. There is no committee, but the dispensary is visited by

the Political Officers occasionally, and often by the Municipal Officer, Aden. The sanitary condition of the village is excellent, satisfactory and well looked after. The water-supply, chiefly from wells, is abundant but brackish, containing saline matters and hence not agreeable to health. The total treated was 4,316 out-door and 324 in-door patients against 4,502 and 396 in 1894 and 3,941 and 420 in 1893. The prevailing diseases were malarial fevers, diseases of the eye, respiratory and digestive systems and skin, ulcers and local injuries. No epidemic prevailed during the year. 26 major surgical operations were performed, against 16 in 1894 and 12 in 1893; of these, the most important were removal of tumours, paracentesis abdominis, removal of deep and large sequestræ and reduction of dislocations of humerus and femur. Minor surgical operations numbered 511, as compared with 291 in 1894 and 233 in 1893. Two *post-mortem* examinations were made at the request of the Police, and opinion was given in 8 medico-legal cases. Vaccination is carried on by the municipal vaccinator under the supervision of the Hospital Assistant. The dispensary was visited three times and inspected once by the Civil Surgeon, Aden, during the year. The total cost was Rs. 4,331-10-1 and the cost per patient Re. 0-14-11 against Rs. 4,965-9-9 and Re. 1-0-2 in 1894 and Rs. 5,686-7-6 and Re. 1-4-10 in 1893, respectively. The hospital stoppage rules are not in force here.

GOVERNMENT DISPENSARIES.

BERBERA.—*In charge of* Third Class Hospital Assistant M. RAHIMA'NKHA'N, No. 296.

The dispensary building is in a good state of repair, but considering the amount of work done therein, it is very small and unsuitable. There is no accommodation for female in-door patients, who are obliged to be lodged in the dead-house. A new building is shortly to be constructed out of the funds raised by the Assistant Resident of Berbera, Captain H. M. Abud. The furniture and fittings are sufficient and in good order. The sanitary condition of the camp is very good, that of the town fair. Water-supply, from hot springs at the base of the hills, is abundant but not good. The total treated was 2,546 out-door and 263 in-door patients, as compared with 3,090 and 399 in 1894 and 1,849 and 268 in 1893, respectively. The most common complaints were ulcers, diseases of the digestive system, local injuries and dyspepsia. There was no epidemic disease. Vaccination is carried out by the vaccinator from house to house. There were 11 major and 403 minor surgical operations performed against 39 and 474 in 1894 and 1 and 121 in 1893, respectively. The dispensary was visited by the Assistant Resident of Berbera frequently and inspected by the Civil Surgeon, Aden, once in each year. The total cost was Rs. 1,131-1-7 and the cost per patient Re. 0-6-5 as compared with Rs. 1,938-14-6 and Re. 0-8-10 in 1894 and Rs. 1,192-13-0 and Re. 0-9-0 in 1893, respectively. There were no receipts on account of hospital stoppages during the three years.

ZAILA.—*In charge of* Assistant Surgeon C. A. PRUCE, I. S. M. D.

The dispensary consists of two rooms, which are kept in a good state of repair. There is no accommodation for in-door patients. Furniture and fittings are sufficient and in good order. There is no dispensary committee, but the Assistant Resident, Zaila, frequently visits the dispensary. The sanitary condition of the town is good. The water-supply is abundant; it is procured from Takusha, distant about 5 miles from Zaila; the source is from shallow wells dug in a dry river bed and is brackish and often muddy. The total treated was 738 out-door and 3 in-door patients, as compared with 827 and 0 in 1894. Ulcers generally about the legs and feet and usually of a large size, are the most frequent complaints. 1 major and 78 minor surgical operations were performed against 3 and 37 in 1894. Vaccination is conducted by the Assistant Surgeon. The dispensary was inspected by the Civil Surgeon of Aden on 3rd December 1895. The total cost was Rs. 863-14-0 and the cost per patient Rs. 1-2-7, as compared with Rs. 887-11-5 and Rs. 1-1-2 per patient in 1894. The hospital stoppage system is not in force here.

PERSIAN GULF.

CIVIL HOSPITAL, MASKAT.—*In charge of* Surgeon-Lieutenant-Colonel A. S. G. JAYAKAR.

Conservancy.—Conservancy and sanitation generally neglected.

Water-supply.—Good and abundant.

Hospital building.—In a fair state of repair and suitable.

General health.—Influenza and dengue prevailed. In other respects the public health was good.

Details of treated.—53 in-door and 4,872 out-door patients, against 61 and 4,244 in 1894 and 41 and 4,067 in 1893, respectively.

Prevailing diseases.—Malarial fevers, influenza, dengue, rheumatic and respiratory affections, diseases of the stomach and intestines, ulcers and skin diseases.

Surgical operations.—3 major and 216 minor operations against 4 and 252 in 1894 and 4 and 194 in 1893, respectively.

Mortality and its causes.—Six deaths occurred among in-patients against 4 in 1894 and 4 in 1893. The causes were pneumonia, ulcer, enteric fever, obstruction of intestines, multiple injury and remittent fever.

Vaccination.—682 operations; 671 successful 4 unsuccessful and 7 result unknown.

Conduct of establishment.—Good.

Cost.—The total cost was Rs. 1,535-10-0 and the cost per patient Re. 0-5-0, as compare with Rs. 1,668-11-5 and Re. 0-6-2 in 1894 and Rs. 1,393-11-3 and Re. 0-5-5 in 1893, respectively.

Hospital Stoppages.—Rs. 23-4-0 were realized, against Rs. 10-8-0 in 1894 and Rs. 11-4-0 in 1893.

BUSHIRE CIVIL HOSPITAL.—*In charge of* Surgeon-Captain P. J. LUMSDEN, M.B., C.M.

Conservancy.—Neglected.

Water-supply.—Fairly good and abundant.

Hospital buildings.—In good repair. There is no in-door accommodation.

General health.—Fairly good. Epidemic of cholera in 1893 and of dengue in 1894. No epidemic in 1895.

Attendance of patients.—9,332 out-door, as compared with 7,513 in 1894 and 5,974 in 1893.

Prevailing diseases.—Malarial fevers, diseases of the digestive and respiratory systems and eye and ulcers.

Surgical operations.—22 major and 465 minor operations, against 32 and 324 in 1894, and 16 and 346 in 1893, respectively.

Vaccination.—342 operations as compared with 589 in 1894 and 231 in 1893.

Conduct of establishment.—Good. Assistant Surgeon J. A. Lobo, I. S. M. D., is commended.

Cost.—The total cost was Rs. 3,223-0-5 and the cost per patient Re. 0-5-6, as compared with Rs. 3,730-0-0 and Re. 0-7-11 in 1894 and Rs. 2,979-6-0 and Re. 0-7-11 in 1893 respectively.

APPENDIX II.

SUMMARIES OF THE ANNUAL REPORTS

ON THE

MEDICAL SCHOOLS.

Byra'mji Jijibhoy Medical School, Poona.

This school was under the superintendence of Surgeon-Lieutenant-Colonel W. McConaghy, M.D., from 1st January to 8th March and from 9th June to 31st December 1895, and of Surgeon-Major W. H. Burke, M.B., from 9th March to 8th June 1895.

There were 75 pupils on the school register on the 1st January 1895—26 first year's, 23 second year's and 26 third year's pupils. Of these, 28 were civil medical, 15 stipendiary, 13 native military, 14 State and 5 paying pupils.

One paying pupil and one civil medical pupil were dismissed the school; 1 State pupil and 2 native military pupils were permitted to resign during the year.

At the Terminal Examination held in September 1895, 25 first year pupils and 22 second year pupils appeared. Of the former grade, 20 passed with credit, 2 were allowed grace marks and 3 failed and were referred for another year. Of the 2nd year pupils, 19 passed with credit, 1 pupil was allowed grace marks, 1 pupil was referred and 1 was dismissed.

For the Final Examination held in September 1895, 25 pupils presented themselves and 1 was unable to appear owing to illness, and of this number 22 passed with credit, 1 was detected cribbing and was referred back and his stipend suspended for 12 months, and 2 were referred until the close of the Winter term. The student who had been ill was specially examined and passed with credit. Of those who passed, 4 were native military pupils, 8 civil medical pupils, 5 stipendiary pupils, 4 State pupils and 2 paying pupils. The native military and civil medical pupils and also all but one of the stipendiary pupils were admitted into the Sub-Medical Department.

The following prizes were awarded at the Final and Terminal Examinations in September 1895:—(*a*) The Bálkrishna Chintoba's Prize of Rs. 30 for proficiency in Medical Jurisprudence to State pupil Káshináth Mahádeo Kále; (*b*) The Bálkrishna Chintoba's Prize of Rs. 30 for proficiency in Medicine was divided equally between civil medical pupil Bhásker Shripat and State pupil Káshináth Mahádeo Kále; (*c*) Prize of Rs. 25 for proficiency in Midwifery to civil medical pupil Bhásker Shripat, this prize has been instituted by a brother of one of the paying pupils studying in this school; (*d*) the Bálkrishna Chintoba's scholarship of Rs. 5 per mensem, tenable for one year, to 2nd year State pupil Bálkrishna Mahádeo.

A prize of Rs. 25 for proficiency in Surgery has been instituted by the father of one of the paying pupils studying in this school.

No change was made in the course of instruction during the year. In the first or Winter term from November to March, first year pupils were taught Anatomy and Chemistry; second year pupils Anatomy, Chemistry and Practical Anatomy; and the third year pupils Medicine and Surgery clinically as well as by lectures. During the second or summer term from June to September the first year students were taught Materia Medica, Pharmacy and Physiology; the second year pupils Materia Medica, Pharmacy and Physiology, and the third year pupils Medical Jurisprudence, Medicine, Surgery and Midwifery clinically as well as by lectures.

The Entrance Examination was held in October 1895. 142 candidates, 13 civil medical pupils and 12 State pupils appeared, and of this number 31 candidates, 9 civil medical pupils and 10 State pupils satisfied the examiners, and of those who passed 31 were admitted into the school, *viz.*, 5 native military pupils, 6 stipendiary pupils, 9 civil medical pupils, 10 State pupils and 1 paying pupil.

Subsequently 5 more paying pupils were admitted into the school. 1 stipendiary pupil, Chintámon Rámchandra, absented himself from the date of admission. At the close of the year, there remained 28 civil, 16 stipendiary, 14 native military, 19 State and 8 paying pupils—total 85. Of these, 23 were third year, 23 second year and 39 first year pupils. The castes of these pupils were Bráhmins 44, Maráthas 15, Mussalmáns 9, Goanese 9, Native Christians 3, Telagus 2, Jews 2 and Lingáyat 1.

The total amount of fees collected was Rs. 147 against Rs. 376 in 1894 and Rs. 559-8-0 in 1893. The decrease is due to the smaller number of paying pupils during the year under review on the school register. The cost of maintenance of the school was Rs. 17,547-14-10, as compared with Rs. 17,703-1-8 in 1894 and Rs. 16,069-3-1 in 1893.

The Superintendent speaks in very high terms of the services rendered by Surgeon-Major W. H. Burke, M.B., and reports that he is an exceptionally able and accomplished Medical Officer and discharged his duties as Teacher of Surgery and Midwifery with zeal and ability throughout the year. Assistant Surgeon Ráo Sáheb Bhicáji Amrut retired on 12th June 1895 and was succeeded by Assistant Surgeon E. S. Bharucha. The former officer has been connected with the teaching of Anatomy and Physiology for a period of about 30 years and throughout gave great satisfaction to all the Superintendents under whom he served. His successor, Assistant Surgeon E. S. Bharucha, has so far given satisfaction and promises to become an efficient teacher. Assistant Surgeon Dattu Ganeeh Sabnis, L.M., performed the duties of Teacher of Chemistry and Medical Jurisprudence for the whole year most satisfactorily. Surgeon-Lieutenant W. Church, F.R.C.S.E., Senior Assistant Surgeon, I. S. M. D., was present the whole year and performed his duties as Teacher of Materia Medica in a careful and efficient manner. All these gentlemen deserve great credit for their able assistance to the Superintendent and for the great trouble and the interest they take in the work of their several departments, and I have much pleasure in recording my appreciation of the high value of their services in connection with the school. The conduct of the pupils has been, on the whole, satisfactory throughout the year.

Byra'mji Jijibhoy Medical School, Ahmedabad.

This school was under the superintendence of Surgeon-Lieutenant-Colonel J. McCloghry, F.R.C.S.I., till 1st November, afterwards Surgeon-Lieutenant-Colonel M. L. Bartholomeusz, M.B., C.M.

The Winter Session began on the 1st November 1894 and with it the sixteenth Annus Medicus of this school. There were 78 pupils on the roll at the commencement of the session—25 first year's, 23 second year's and 30 third year's pupils. Previous to the closing of the session in April, there were 24 first year's and 22 second year's pupils, who were examined with the result that of the 1st year's pupils 20 passed and 4 failed and of the 2nd year's pupils 16 passed and 6 failed.

The Summer Session commenced on the 16th June 1895, when there were 75 pupils on the school register, *viz.*, 29 third year, 22 second year and 24 first year pupils. The session ended on the 15th September 1895.

Final and Terminal Examinations.

The Final and Second Terminal Examinations, which commenced on the 10th September, lasted till the 26th idem. The students of each year were subjected to written, oral and practical tests. Of the 1st year's pupils, 18 passed, 5 were put back for another year and 1 was dismissed. Of the 2nd year's, 18 passed and 4 were put back for another year. Of the 3rd year's, 24 having passed were promoted to the rank of hospital assistant and 5 put back for another year.

Scholarships and prizes were awarded for proficiency in studies and for general good conduct and excellence in the discharge of hospital duties.

For the Entrance Examination, which took place in October, no less than 224 candidates presented themselves from various schools in the Bombay Presidency, from Native States and from civil hospitals to which they had been attached on probation. Of these, 51 passed, but 24 only were admitted into the school to fill vacancies—5 each as native military and stipendiary, 1 as civil medical, 2 as State and 11 as paying pupils.

New medical year.

The seventeenth year of the school commenced on the 1st November with 75 pupils on the roll—24 third year, 23 second year and 28 first year pupils. Of these, 15 were stipendiary, 6 civil medical, 13 native military, 4 State, 33 paying and 4 free pupils. The castes of these pupils was Hindus 64, Mahomedans 6, Native Christians 3 and Pársi and Jew 1 each.

Expenditure.

The expenditure of the year under review was Rs. 17,280-7-10 against Rs. 16,047-5-3 in 1894 and Rs. 16,707-8-11 in 1893. The increase is chiefly due to the payment of arrears of house-rent of the pupils' quarters for nine months of 1894 and to the purchase of furniture for the students' library. The income realized on account of fees from paying pupils and compounders, fines and savings and sale of unserviceable articles amounted to Rs. 384-7-0, as compared with Rs. 1,444-3-7 in 1894 and Rs. 1,265-10-7 in 1893. The decrease in 1895 is due to the fees of the Winter Session having been credited into the Treasury in January 1896.

The following changes took place in the teaching Staff during the year:—Surgeon-Lieutenant-Colonel J. McCloghry acted for Surgeon-Lieutenant-Colonel Bartholomeusz till the 1st of November. Assistant Surgeon Kothávála acted till the 1st February, when Assistant Surgeon Kalliánwála took charge from him, and Assistant Surgeon Nilkanth Dáhyábhai took charge from Assistant Surgeon Kaliánwála on the 20th of March, and

Assistant Surgeon Kaliánwála resumed the charge from him on the 21st of March. First Class Hospital Assistant Laxmansingh Arjunsingh retired from the service on the 10th January 1895, and First Class Hospital Assistant Rámsing took over his work as Teacher of Materia Medica from the same date. The conduct of the pupils has been satisfactory, except in the case of a first year paying pupil, who was dismissed for misconduct.

Hyderabad Medical School.

This school was under the superintendence of Surgeon-Major W. G. H. Henderson, F.R.C.S.I.

The first Sessional Examination was held in April. Of the 4 second year pupils, 3 passed and 1 failed in Anatomy only. He was permitted to continue his studies and was re-examined in this subject at the second Sessional Examination. Of the 16 first year pupils, 13 passed and 3 failed—2 in Anatomy only and 1 in Anatomy and Chemistry. The first two were permitted to continue their studies and were re-examined in that subject at the end of the next session, and the third was recommended to repeat the same course for another year.

The second Sessional and the Final Examinations were held in September. There were 17 candidates (15 stipendiary and 2 civil medical pupils) for the Final Examination, and all of them passed. Four stipendiary pupils and the two civil medical pupils were admitted into Government service as Civil Hospital Assistants. Two more were appointed in the Naushahro Division by the local boards. The remaining nine candidates remain unemployed.

All the 4 second year pupils passed their second Sessional Examination, and of the 12 first year pupils (8 stipendiary, 1 civil medical and 3 paying pupils), 11 passed and 1 paying pupil failed. This boy was recommended to continue his studies in the same class for another year.

The Entrance Examination for the admission of fresh students was held in October. The total number of candidates that presented themselves for this examination was 64, including 3 civil medical pupils who were sent from Karáchi, Sukkur and Shikárpur Civil Hospitals. One candidate who had come from Aden was rejected, and another retired from the examination the next day, and consequently the number examined was 62, of whom 23 passed and the rest failed. Four vacancies were reserved for Mahomedans as per Government Resolution No. 1162 of 20th March 1895, but only two of them were filled in by pupils of this class, there being only two such candidates, both of whom passed. The 15 stipends were awarded according to the result of the examination. All the three Civil Medical pupils having passed, were also admitted. Five candidates, one of whom had passed in all the subjects and four who had failed only in one subject by a few marks, wished to join as paying pupils and were admitted as such.

Two stipendiary and two paying pupils resigned the school soon after their admission in November 1895—the first two having got employments, the third being unable to continue his studies on account of domestic difficulties and the fourth on account of ill-health. Three more pupils (two stipendiary and one paying) who were admitted in November 1895, have also sent in their resignations, as they did not wish to continue their studies.

One first year stipendiary pupil and one first year paying pupil were dismissed the school, as they had both sought admission into this school without informing the authorities of their previous dismissal from the Byrámji Jijibhoy Medical Schools, Ahmedabad and Poona.

There remained 35 pupils on the school register at the close of the year—4 third year, 11 second year and 20 first year pupils. Of these, 27 were stipendiary, 4 civil medical and 4 paying pupils. The castes of these pupils were Hindus 30 (Amils 18, Banias 10 and Bráhmins 2), Mahomedans 4 and Pársi 1.

The conduct of the students during the past year has been very satisfactory and their attendance very good.

Fees from paying pupils amounted to Rs. 216-0-0 against Rs. 18-0-0 in 1894 and Rs. 72-0-0 in 1893. Rs. 85-8-0 were realized by the sale of unserviceable articles. The local boards contributed Rs. 3,800-0-0 against Rs. 3,700-0-0 in 1894 and Rs. 4,500-0-0 in 1893. The cost was Rs. 9,842-1-2, as compared with Rs. 9,362-12-5 in 1894 and Rs. 9,858-15-8 in 1893.

Assistant Surgeon Bocarro was transferred from Hyderabad early in the year. In him the school lost a careful and efficient teacher. His duties have been carried out most successfully by Assistant Surgeon Mulchand, who has performed his duties to the entire satisfaction of the Superintendent. Assistant Surgeon R. S. Poredi has only lately joined the school. Between the time of Assistant Surgeon Bocarro's departure and Assistant Surgeon Poredi's appointment, Assistant Surgeon Jiwatrám A. Lálváni carried on the work and acquitted himself in a very creditable manner.

Seventeen students passed successfully the Final Examination. Of these, 6 were appointed by Government as hospital assistants who, it is believed, will prove useful Government servants.

APPENDIX III.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT No. I.

Showing the Classification of the Mofussil Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1895.

Annual Reports.—

Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1895.

General Department.
No. 4648

Bombay Castle,
20th October 1896.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—473, dated the 17th August 1896—

Submitting the Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1895.

RESOLUTION.—During the year under report 10 new dispensaries were opened and one institution, the Aden Quarantine Hospital (which was opened 2 years ago), has been shown in the report for the first time. As the Mátar and Mehmadabad travelling dispensaries, which were formerly 2 distinct institutions, have been amalgamated, the total number (306) of civil medical institutions exceeds by 10 the number shown in the Surgeon General's last report. The institutions are distributed as follows :—

	Hospitals.	Dispensaries.	Leper Asylums.
Konkan	3	31	2
Deccan	9	86	...
Gujarát	7	52	...
Sind...	4	47	...
Native States	5	51	...
Aden, Somáli Coast and Persian Gulf.	5	4	...
Total...	33	271	2

2. The total number of patients treated in these institutions rose from 2,327,598 in 1894 to 2,382,069 in 1895, of whom 2,351,221 were out-patients, and the remainder in-door patients. Malarial fevers as usual were responsible for the largest number of admissions, though the number of cases, 430,383, was considerably less than in the previous year. There was a very considerable increase in the number of major surgical operations performed during the year under review, 3,716 being performed at hospitals and 2,744 at dispensaries, as compared with 3,252 and 2,035, respectively, during the previous year.

3. The following tables show the attendance at hospitals and dispensaries in the four principal divisions of the Presidency.

Hospitals.

	No of Hospitals.	Total Number of Patients.		Average Daily Strength.	
		In-door.	Out-door.	In-door.	Out-door.
Konkan	3	919	18,393	46·4	203·2
Deccan	9	7,247	90,573	320·2	762·2
Gujarát	7	4,571	83,593	224·1	649·6
Sind	4	2,967	28,571	118·4	265·6
Total...	23	15,704	221,130	709·1	1880·6

Dispensaries.

	No. of Dispensaries.	Total Number of Patients.		Average Daily Strength.	
		In-door.	Out-door.	In-door.	Out-door.
Konkan	31	1,151	205,142	35·0	1,781·9
Deccan	86	2,383	680,758	102·9	5,280·4
Gujarát	52	2,916	409,121	109·2	3,684·3
Sind	47	2,342	278,197	94·2	2,602·7
Total...	216	8,792	1,573,218	341·3	13,349·3

The average daily attendance at a hospital was 30·8 in-patients and 81·7 out-patients, and at a dispensary 1·6 in-patients and 61·7 out-door patients.

4. The following figures show the expenditure incurred during the year 1895 on the 23 hospitals and 216 dispensaries, excluding the sums invested, which partake more of the nature of a closing balance than of expenditure proper :—

	23 Hospitals.	216 Dispensaries.
	Rs.	Rs.
Establishments	73,293	2,55,036
Bazár Medicines	1,842	6,081
European Medicines	7,084	88,247
Diet...	30,285	4,933
Miscellaneous (including Repairs) ...	58,238	77,876
Total ...	1,70,742	4,32,173

The expenditure on hospitals and dispensaries during the year shows, as compared with the figures for 1894, an increase under all heads except "Medicines" in the case of the former institutions and "Diet" in the latter. No explanation is given of the very large decrease in the cost of European medicines supplied to hospitals, which fell from Rs. 30,807 in 1894 to Rs. 7,084 in 1895.

5. The following table shows the average expenditure per annum on maintaining the civil medical institutions referred to in paragraph 3 above, but does not include the salaries of the Civil Surgeons employed at the 23 hospitals which amounted to Rs. 2,21,900 for the year 1895 :—

	Establishments.	Bazár Medicines.	European Medicines.	Diet.	Miscellaneous.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Average per hospital	3,186	80	308	1,316	2,532	7,423
„ dispensary	1,180	27	408	22	360	2,000

6. During the year under review grants amounting to Rs. 1,43,699 towards the support of hospitals and Rs. 1,54,098 towards dispensaries were made

from Provincial Revenues, the remainder of the expenditure, except a few petty items, being met as shown below:—

	23 Hospitals.	216 Dispensaries.	Total.
	Rs.	Rs.	Rs.
Local Board Grants	7,960	95,295	1,03,255
Municipal „	10,689	1,44,221	1,54,910
Interest	97	18,076	18,173
Subscriptions	364	8,714	9,078
Hospital Stoppages	2,727	9,085	11,812
Total ...	21,837	2,75,391	2,97,228
Average ...	949	1,274	.....

7. A comparison of the figures in paragraphs 5 and 6 shows that the hospitals were independent of Government aid to the extent of 12·7 per cent. of their expenditure, whilst in the case of dispensaries the percentage was 63·7.

8. Interesting statistics are supplied by the Surgeon General regarding the working of the Hospital Stoppages Rules. It is observed that in many cases the collections were extraordinarily small, there being 42 cases in which they were less than Rs. 10 and 76 others in which they were less than Rs. 50. For the 29 civil hospitals, for which statistics are given, the total collections were Rs. 2,859: but except Godhra with Rs. 738 and Dhárwár with Rs. 249 the collections in no case exceeded Rs. 200. It is not clear to how many of the 271 dispensaries the figures Rs. 9,269 given in Statement B of paragraph 15 relate, but the average is evidently far lower in the case of dispensaries than in the case of hospitals.

9. The Surgeon General has appended to his report two interesting summaries of reports, one regarding civil hospitals and dispensaries and the other regarding the important medical schools at Poona, Ahmedabad and Hyderabad. There was great competition for admission to the Ahmedabad School at the October examination, no less than 224 candidates having competed for 24 vacancies. It is to be regretted that, though 4 vacancies at the Hyderabad School were specially reserved for Mahomedans, only 2 Mahomedan candidates appeared for the Entrance Examination. At the close of the year there were in all only 4 third-year pupils (all stipendiary) at Hyderabad, but there were 23 at both Poona and Ahmedabad, and of these 12 (10 at the former and 2 at the latter) were civil medical pupils, a number which the Surgeon General believes will suffice to bring up the Civil Hospital Assistant Class to its sanctioned strength. The second and first year civil medical pupils on the rolls at the close of the year are shown in the margin. The general progress in the year under report was creditable to the teaching staff. The conduct of the pupils was on the whole satisfactory, but it is observed that no fewer than seven pupils (4 stipendiary and 3 paying) at Hyderabad sent in their resignations.

	Poona.	Ahmedabad.	Hyderabad.
First year ...	11	2	3
Second year...	7	2	1

10. The reasons assigned by the Civil Surgeons concerned for leaving unvisited the six dispensaries referred to in paragraph 21 of the Surgeon General's report cannot be regarded as satisfactory, but as the Surgeon General has addressed all Civil Surgeons on the subject of the inspection of dispensaries, it is hoped that similar omissions will not be again reported. In other respects

the administration of the various medical charges appears to have been very satisfactory, and His Excellency the Governor in Council is pleased to notice the commendation bestowed by the Surgeon General on Brigade-Surgeon-Lieut.-Colonel G. Bainbridge, Surgeon-Lieut.-Colonels W. McConaghy, J. McCloghry and W. G. W. Henderson, Surgeon-Majors Peacocke, Lowdell and Burke, Assistant Surgeons Bocarro, Khándvála, Cooper and Aquino, and Hospital Assistant Anklesaria.

J. De C. ATKINS,

ADMINISTRATION AND PROGRESS REPORT

ON THE

MOFUSSIL

CIVIL HOSPITALS AND DISPENSARIES

UNDER THE

GOVERNMENT OF BOMBAY

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

FOR THE YEAR

1896.

JJ.K-3

Bombay:
PRINTED AT THE GOVERNMENT CENTRAL PRESS.

1897.

No. $\frac{S.\ B.}{509}$ OF 1897.

From

THE SURGEON-GENERAL WITH THE
GOVERNMENT OF BOMBAY;

To

THE CHIEF SECRETARY TO GOVERNMENT,
General Department,
Bombay.

Bombay, 24th September 1897.

SIR,

I have the honour to submit my Annual Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries in the Bombay Presidency for the year 1896.

2. In accordance with Government orders, the summaries of the annual reports of medical officers and subordinates and of the medical schools are omitted from this year's report.

3. At the close of the year 1896 there were 206 pupils in the three Provincial Medical Schools, distributed as follows :—

Classes of Pupils.	BYRAMJI JIJIBHOY MEDICAL SCHOOL, POONA.				BYRAMJI JIJIBHOY MEDICAL SCHOOL, AHMEDABAD.				MEDICAL SCHOOL, HYDERABAD.				TOTAL.			
	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.	3rd year.	2nd year.	1st year.	Total.
Native Military	5	4	6	15	5	4	6	15	...	...	...	...	10	8	12	30
Stipendiary	4	5	6	15	5	5	5	15	8	10	10	28	17	20	21	58

Paying	2	1	3	6	10	12	8	30	2	...	2	4	14	13	13	40
Civil Medical	10	10	17	37	2	2	5	9	1	3	2	6	13	15	24	52
Free	...	...	...	..	1	1	...	2	...	...	..	...	1	1	...	2
Total ...	25	30	38	93	24	25	26	75	11	13	14	38	60	68	78	206

4. The following estimates show the present prospects of recruiting the Civil Hospital Assistants :—

Sanctioned strength		275
20 per cent. reserve		54
		329
Present strength (on 31st March 1897) ...		325
Deficiency ...		4

This deficiency will be made up by the Civil Medical pupils who will pass in September 1897.

5. At Poona Surgeon-Lieutenant-Colonel J. P. Greany, M.D., acted as Superintendent from 19th March 1896 till the end of the year during the absence on furlough of Brigade-Surgeon-Lieutenant-Colonel W. McConaghy, M.D. Surgeon-Major W. H. Burke, M.B., proceeded on furlough on 24th February 1896 and was succeeded by Surgeon-Captain A. J. Heath, M.B. Surgeon-Lieutenant W. Church, Senior Assistant Surgeon, I. S. M. D., performed his duties up to January 1896, when he was succeeded by Surgeon-Captain J. Gallagher, Senior Assistant Surgeon, I. S. M. D., Assistant Surgeon Bhau Govind doing duty during the interval of relief. Second Class Assistant Surgeon J. M. Dias acted for three months during the absence of Mr. Gallagher on privilege leave. Assistant Surgeon D. G. Sabnis, L.M., performed the duties of Teacher of Chemistry and Medical Jurisprudence for the whole year most satisfactorily. Assistant Surgeon E. S. Bharucha, L.M.&S., taught Anatomy and Physiology most satisfactorily during the year. The duties of Teacher of Materia Medica and Practical Pharmacy were carried out by Surgeon-Lieutenant W. Church, Surgeon-Captain J. Gallagher and Assistant Surgeon J. M. Dias, I. S. M. D., and Assistant Surgeon

Bhau Govind, L.M. & S., with zeal and intelligence during the period they were attached to the school. The conduct of the pupils has also been reported to be satisfactory.

6. The following changes occurred in the teaching staff at Ahmedabad, viz., Second Class Hospital Assistant Shankerlal Keshavlal Vyas succeeded First Class Hospital Assistant Ramsingh as Teacher of Materia Medica and Pharmacy on the transfer of the latter on 14th April 1896, and Assistant Surgeon A. M. Dotivala, L.M. & S., took charge of the duties of Teacher of Surgery and Midwifery from Assistant Surgeon B. H. Nanavatty, who proceeded on sick leave from 1st November 1896. The teaching staff is reported by the Superintendent to have worked satisfactorily.

7. At Hyderabad the Superintendentship was held by Surgeon-Lieutenant-Colonel W. H. Henderson, F.R.C.S.I., up to 31st January 1896, and since then by Surgeon-Major R. J. Baker, M.A., M.D. The Superintendent speaks in very high terms of Assistant Surgeons Mulchand Gangaram and R. S. Poredi, and testifies to the zeal and efficiency with which they have performed their duties both in the class-room and at the bedside of sick patients in the Civil Hospital.

8. On the tables of figures which form Appendix I, I beg to offer the following remarks :—

Statement No. I gives the classification of the mofussil civil hospitals and dispensaries. On 1st January 1897 there were 306 institutions open. During the year 8 new ones, *viz.*, Dhond in the Poona District, Chándor in the Násik District, Kalghatgi in the Dhárwár District, Morarbhai Vijbhukhandas Dispensary for Women and Children at Surat, the travelling dispensaries in Broach and Vágra, Anklesvar and Hánsot and A'mod and Jambusar tálukas of the Broach District, and the Ranchhodlal Home Relief Institution at Ahmedabad were opened. These make up the total of 314 at the close of the year 1896.

Statement No. II shows the number of patients treated, both in-door and out-door. The total number of patients treated was 2,319,346 as compared with 2,382,069 in 1895. Of these, 30,857 were in-door and 2,288,489 out-door patients against 30,848 in-door and 2,351,221 out-door in the previous year.

Of the in-door patients, 21,758 were cured, 2,784 relieved, 2,943 discharged otherwise, and 2,228 died, giving a death-ratio of 7·2 per *cent.* to the total treated as compared with 5·7 in 1895. The daily average sick was 1,410·4 (men 1,133·5, women 194·6 and children 82·3) against 1,412·7 (men 1,136·3, women 181·4 and children 95·0) in the preceding year. The number of beds available were 3,087 (male 2,152 and female 935) as compared with 3,034 (male 2,150 and female 884) in 1895.

Of the out-door patients, 2,109,172 attended personally and 179,317 were represented by friends, the corresponding figures for the previous year being 2,159,535 and 191,686 respectively. The daily average attendance was 20,613·6 against 20,208·1 in 1895.

Statement No. III is a return showing the diseases for which the patients were treated. There were 480 cases of small-pox against 195 in 1895. Of these, the Deccan institutions are credited with 176 and Sind with 139 cases as compared with 106 and 25 in the previous year. Cholera returned 5,879 cases, or 4,066 more than in 1895. The Deccan institutions contributed 3,896 cases, Gujarát 1,719 and Konkan 264, against 1,527, 234 and 36 respectively in the preceding year. Malarial fevers, as usual, gave the largest number of admissions, *viz.* 386,551, showing a decrease of 43,832 over the previous year. The percentage was 16·7 of the total treated against 18·0 in 1895. There were 33,482 cases treated for venereal diseases (primary syphilis 7,414, secondary syphilis 11,678, gonorrhœa 11,659 and other venereal affections 2,731) as compared with 33,581 (primary syphilis 7,303, secondary syphilis 12,274, gonorrhœa 10,912 and other venereal affections 3,092) in 1895. The percentage of the total treated was the same as in 1895, *viz.* 1·4. Worms contributed 250,883 cases or 10·8 per cent. of the total treated as compared with 239,486 and 10·0 per cent. in the previous year. Dysentery caused 37,106 admissions or 1·6 per cent. of the total treated against 37,570 and 1·5 per cent. in 1895. Diarrhœa returned 57,545 cases, showing an increase of 5,307 over

the preceding year. The percentage was 2·5 of the total treated against 2·1 in 1895. For rheumatic affections 60,561 cases were treated as compared with 60,474 in 1895; the percentage was 2·6 of the total treated against 2·5 in the preceding year. Skin diseases are credited with 320,511 cases, or 22,083 less than in 1895. The percentage was 13·8 of the total treated as compared with 14·3 in 1895. There is a decrease of 1,292 in the cases of eye diseases, whereas the diseases of the ear show an increase of 4,174 over the previous year.

With reference to the orders contained in sub-paragraph 3 of paragraph 2 of Government Resolution No. 3195, dated 8th September 1893, General Department, I beg to state that there is a large decrease over the previous year in the cases treated of malarial fevers, the number for each registration district being Konkan 60,011, Deccan 158,177, Gujarát 106,950, Sind 53,458 and Foreign 7,953, as compared with 67,943, 165,773, 117,247, 66,591 and 12,829 in 1895, respectively. I have nothing more to add to what has already been written in the previous years' reports as regards the causes for the prevalence of these fevers.

Statement No. IIIA shows the number of surgical operations performed with their results. In returning these operations the orders of the Government of India, contained in their letter No. 6—Medical—237, dated 14th March 1896, and in sub-paragraphs 1 and 2 of paragraph 3 of their letter No. 31—Medical—1100, dated 19th December 1896, Home Department (Medical), embodied in the Bombay Government Resolutions Nos. 1672 and 849 of the 14th March 1896 and 16th February 1897, respectively, General Department, have been complied with.

On 1st January 1896 there remained 287 cases under treatment which had been operated on, and these, with 111,639 operations (111,039 principal and 600 secondary) performed during the year, make a total of 111,926 as compared with 114,193 in 1895. The total number of patients operated on was 110,994, of whom 97,500 were cured, 1,214 relieved, 394 discharged otherwise and 190 died, leaving 252 patients under treatment at the close of the year 1896.

The following table shows the total number of patients operated on and the various classes of operations with their results :—

Class.	Total Number of Surgical Operations.	Total Number of patients operated on.	Results.				Remaining on 31st December 1896.
			Cured.	Relieved.	Discharged otherwise	Died.

Statement No. IV shows the sex and caste of the patients treated. The following table gives the number and ratios of men, women and children and of caste as compared with the previous year :—

	1896.		1895.	
Sex.				
Men	1,027,570	44·3	1,066,034	44·8
Women	426,059	18·4	428,731	18·0
Children	865,717	37·3	887,304	37·2
Caste.				
Hindus	1,639,786	70·7	1,676,218	70·4
Musalmans	580,398	25·0	601,157	25·2
Native Christians	40,580	1·8	44,133	1·9
Parsis	28,134	1·2	27,531	1·1
Europeans	5,688	0·2	6,626	0·3
Eurasians	2,545	0·1	2,893	0·1
Other Castes	22,215	1·0	23,511	1·0

In accordance with the orders contained in sub-paragraph 3 of paragraph 3 of the Government of India No. 31—Medical—1100 and No. 619, dated respectively 19th December 1896 and 18th June 1897, Home Department (Medical), embodied in the Bombay Government Resolutions Nos. 849 and 3969 of the 16th February and 20th July 1897, General Department, the necessary instructions have been issued to medical officers in charge of the mofussil civil hospitals and dispensaries that all under ten years of age should be returned as children, and they will be given effect to in the next year's report.

Statement No. V, Part I, shows the current income and expenditure of the mofussil civil hospitals and dispensaries of the Bombay Presidency for the year under review. The revised form prescribed by the Government of India as per their letter No. 19—Medical—711, dated 24th August 1896, Home Department (Medical), embodied in the Bombay Government Resolution No. 4032 of the 11th September 1896, General Department, has been adopted.

The following is an abstract of the cash accounts of the institutions for the year 1896 as compared with the previous year :—

Income.	1896.			1895.		
	Rs.	a.	p.	Rs.	a.	p.
Cash Balance on 1st January	1,33,326	1	2	1,21,057	12	9

Cost per patient	0	5	6	0	5	3
Percentage of total cost paid by Government.	47·6			46·4		

The opening balance of the year under report should correspond with the closing balance of the preceding year, but it will be seen that there is a discrepancy of Rs. 2,603-9-4, which is accounted for as follows :—

	Balance on 31st December 1895.	Balance on 1st January 1896.	Remarks.
	Rs. a. p.	Rs. a. p.	
Indápur Dispensary ...	.....	14 3 9	The balance now shown is correct and tallies with the account of the dispensary kept by the Municipality. This amount was deposited in the Táluka Government Treasury by the Municipality, and being not in the possession of that body, it caused this discrepancy.
Morarbhai Vijbhukhandas Dispensary for Women and Children, Surat.	.....	2,526 7 2	The dispensary was opened on 27th december 1895, but no returns for that year were furnished to this office, and hence the discrepancy.
Kavi Dispensary	1,305 8 10	1,304 0 10	The balance now shown is correct; that shown in the last year's report was incorrect. The item of Re. 1-8-0 paid at the close of the calendar year 1895 on account of house-rent to the Hospital Assistant had remained unaccounted for through an oversight.
Ranchhodlal Dispensary, Ahmedabad.	657 9 7	784 5 2	The balance now shown is correct and tallies with the dispensary accounts kept by the Treasury. The discrepancy has remained unexplained.
Khárághoda Dispensary ...	59 10 2	.....	The unexpended amount of the contract grant was erroneously included as cash balance in the previous year's report by the predecessor of the present incumbent, and hence the discrepancy.
Lord Harris Travelling Dispensary, Daskroi Táluka, Ahmedabad.	880 2 6	876 0 6	The balance now shown is correct and that shown in the previous year's report was incorrect. The discrepancy is due to the amount of Rs. 4-2-0 on account of travelling allowance which was paid to the Hospital Assistant at the close of the year 1895 having remained unaccounted for through an oversight.
Mirpur Batoro Dispensary.	1,317 3 4	1,318 13 4	The balance now shown is correct and tallies with the dispensary accounts kept by the Treasury. The value of medicines, *viz.*, Re. 1-10-0, was credited in December 1895, and the hospital Assistant was not informed of the same. This explains the discrepancy.
Dokri Dispensary... ...	1,007 14 3	1,007 11 3	The balance now shown has been put down as required by the Collector of Shikárpur, who has not assigned any reason for the discrepancy of annas three only.

The total income, exclusive of the cash balance, was Rs. 7,55,643-2-11 against Rs. 6,78,959-0-0 in 1895. Of these, Rs. 3,51,337-1-9 were received from Government, as compared with Rs. 3,26,516-5-4 in the previous year. The Municipal Funds contributed Rs. 1,68,566-12-0 and the Local Funds Rs. 1,09,073-12-8, showing an increase of Rs. 3,679-9-9 and Rs. 3,556-10-2 respectively over the preceding year. The interest on invested capital yielded Rs. 18,117-4-1 as compared with Rs. 21,164-4-0 in 1895. The sale of securities or withdrawals of deposits amounted to Rs. 27,000-0-0, or Rs. 13,600-0-0 less than in 1895. The subscriptions from Europeans and Natives show an increase of Rs. 12,214-14-7 over the previous year, *viz.*, Rs. 25,675-5-0 as compared with Rs. 13,460-6-5. The receipts from paying patients for diet amounted to Rs. 4,628-11-3 against Rs. 11,503-5-0 in 1895, the decrease being due to the fact that the amount realized under the hospital stoppage rules at the European General Hospital, Aden, which was erroneously included under this head in previous years' returns, has now been shown under the proper head, "Miscellaneous Receipts," of the statement under review. The amount realized by the sale of medicines not supplied by Government and from other miscellaneous sources, such as hospital stoppages, sale of unserviceable articles, &c., &c., was Rs. 51,249-4-2 as compared with Rs. 22,510-6-6 in 1895.

The total expenditure amounted to Rs. 7,61,792-2-6 against Rs. 6,69,294-4-11 in 1895. Deducting Rs. 67,500-0-0 invested during the year, Rs. 600-0-0 on account of gratuity paid to the late Native Doctor of the Indápur Dispensary, Rs. 353-6-5, the unexpended balance at the close of the official year at the Bechardas Dispensary, Ahmedabad, which lapsed to the Ahmedabad Municipality, and Rs. 41,229-7-7 remitted into the Treasury on account of hospital stoppages, sale-proceeds of unserviceable articles, &c., &c.,—in all Rs. 1,09,682-14-0 from the total expenditure, the net expenditure was Rs. 6,52,109-4-6, as compared with Rs. 6,15,189-12-7 in 1895. The average

cost of each diet was Re. 0-2-4, or pie 1 less than in the previous year. The cost per patient was Re. 0-5-6 against Re. 0-5-3 in 1895. The percentage of total cost paid by Government was 47·6 as compared with 46·4 in the preceding year.

With reference to the concluding sentence of paragraph 8 of Government Resolution No. 4648, dated 20th October 1896, General Department, reviewing the Annual Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries of the Bombay Presidency for 1895, I beg to attach three statements, marked A, B and C. Statements A and B show the names of dispensaries in order of the districts of each division with the amount realized on account of hospital stoppages in each institution separately as compared with the previous year :—

Statement A.—Hospitals.

Foreign	5,630 8 0	85 9 0	142 4 0	230 2 0	5,772 12 0	315 11 0
	8,375 5 0	2,858 13 7	8,842 9 0	9,269 2 9	17,217 14 0	12,128 0 4

The total amount of hospital stoppages realized during the year under review was Rs. 17,217-14-0 as compared with Rs. 12,128-0-4 in 1895; but if the amount received from paying patients for diet, which also forms a part of the hospital stoppage system, be added, the total receipts would amount to Rs. 21,846-9-3, or Rs. 1,784-12-1 less than in the previous year. The decrease in the receipts under this head at several head-quarter stations and dispensaries is attributed by medical officers partly to the establishment of new private dispensaries and partly to the unpopularity of the system in force at these places. It may here be mentioned that at municipal and endowed dispensaries the hospital stoppage rules are not enforced.

The reports of medical officers and subordinates on the working of the hospital stoppage system are for the most part on the same line as was reported in paragraph 16 of my Annual Administration and Progress Report on the Mofussil Civil Hospitals and Dispensaries for the year 1895. There is no doubt that many patients grumble at the charges which they are required to pay without being able to plead poverty simply because they do not like paying, but I have no fresh remarks to make on this subject, my comments on last year's report being equally applicable to this year.

The following table shows the pay drawn by the Civil Surgeons during the year 1896 as compared with the previous year :—

Statement No. V, Part II, shows the account of the invested capital. On the 1st January 1896 there was a balance in hand of Rs. 5,06,300-0-0, showing a discrepancy, as compared with the balance in hand on 31st December 1895, of Rs. 27,500-0-0, which were invested at the close of the year 1895 by the Committee of the Morarbhai Vijbhukhandas Dispensary for women and children at Surat, which is shown in this report for the first time, though opened on 27th December 1895, and this, with Rs. 67,500-0-0 invested during the year under review, make a total of Rs. 5,73,800-0-0. Securities worth Rs. 22,000-0-0 having been sold and deposits amounting to Rs. 5,000-0-0 withdrawn—total Rs. 27,000-0-0, there remained at the end of the year Rs. 5,46,800-0-0.

9. The following small works have been carried out and paid for from the Surgeon-General's Discretionary Grant for 1896 :—

	Rs.
Providing additions and alterations to the Hospital Assistants' quarters at the Civil Hospital, Kárwár...	58
Providing pukka floor in the store-room of the Hospital at Kárwár	40
Laying a pipe for the supply of water to the Civil Hospital, Dhulia	390
Providing wire-netting to windows of the dead-house attached to the Civil Hospital, Belgaum	39
Providing teak-wood railing in the dispensary of the new Civil Hospital, Dhárwár	37
Providing window to three cook-rooms of the Civil Hospital, Ratnágiri	40
Providing door to the second male ward (surgical) in the rear verandah of the Civil Hospital, Ratnágiri	30
Providing door to the present store-room in the rear verandah of the Civil Hospital, Ratnágiri	30
Enlarging operating-room at the Civil Hospital, Ahmednagar ...	175
Providing rail and counter and alteration of door-way in out-patients' department at the Civil Hospital, Násik	100
Erecting trellis screens to the latrines in the compound of the Civil Hospital, Karáchi	91

	Rs.
Improving the compound and out-houses of the Civil Hospital, Kárwár	144
Providing minor alterations to the Sassoon Hospital, Poona ...	120
Providing plinths and post plate for new walling in connection with enlargement of operating-room at the Civil Hospital, Ahmednagar	24
Providing plank ceiling to the Hospital Assistant's quarters at Mátherán	135
Making additions and alterations to the Dispensary at Kurla ...	102
Fixing iron-bars and glass-shutters to the windows of the store-room of Khán Bahádur Pestonji Sorabji Dispensary, Poona ...	34
Total ...	1,589

10. The Principal Medical Officer, Sind District, Karáchi, inspected all the civil and jail hospitals and dispensaries on his route and reported favourably on all of them.

11. The Principal Medical Officer of the Bombay and Aden Districts, Bombay, inspected the civil-medical institutions in Aden and reported very favourably on the medical officers and working of these institutions.

12. All the dispensaries, with the exception of the Navalgund and Kalghatgi dispensaries in the Dhárwár districts, were inspected by the Civil Surgeons of the various districts. The failure to inspect these two dispensaries in the Dhárwár Collectorate was due to a series of untoward events, such as serious cases of illness and outbreak in the jail, change of Civil Surgeons and sudden illness of the Civil Surgeon. All these excuses are true, but when there is a whole year to inspect seven dispensaries in the Dhárwár Collectorate, and when it is remembered that the Civil Surgeon of Khándesh has inspected eighteen in the same time, I cannot consider such excuses from the Civil Surgeon, Dhárwár, satisfactory, and I hope I shall not have to comment unfavourably again on this subject.

13. The late Surgeon-Major-General H. Cook, M.D., left the following notes of the results of his inspections during the past travelling season :—

November 16th, 1896.—Inspected the Huttesing and Premabhai Civil Hospital, Ahmedabad, and found it in excellent order in every respect. The *post-mortem* and other records were correctly kept and written up to date. The surgical instruments, stores, &c., were in good order, well kept and properly arranged. An out-patient department has been provided for by Khán Bahádur Nawroji Pestanji Vakil, C.I.E., and the present arrangements for out-patients are highly satisfactory.

The Byramji Jijibhoy Medical School, Ahmedabad, was inspected the same day. I found the building in good repair and all the requisites for teaching in serviceable condition.

The Police Hospital at Ahmedabad was then visited, and I found the building suitable and in good repair. There were only a few patients in hospital when I inspected it. They seemed to be well attended to and properly looked after.

I next inspected the Bechardas endowed Dispensary at Ahmedabad. It is excellently managed by Assistant Surgeon Khán Bahádur K. B. Cooper, whose professional efficiency and general conduct are exceptionally good.

The Central Prison Hospital and the Lunatic Asylum, Ahmedabad, were then visited and found in excellent order.

November 17th, 1896.—Inspected the Ranchhodlal, the Victoria Jubileé and the Ráipur Dispensaries at Ahmedabad, and was much pleased with the way in which these institutions were managed by the medical officers concerned. At the Ranchhodlal Dispensary Assistant Surgeon S. F. Ghandhy and at the Victoria Jubilee Dispensary for Women and Children Miss Kapadia are doing very good and useful work.

November 20th, 1896.—Visited the Rájkot Prison Hospital in the morning. The building is newly built and beautifully clean. The surface drainage within the jail area requires improvement. Separate accommodation for female sick prisoners is required. Medical and other stores in good order and carefully kept.

I then inspected the West Hospital at Rájkot and found the *post-mortem* and other records carefully kept up to date. Proper and separate accommodation for out-patients is much needed. There is a very good assortment of instruments, and they are all well kept and in good order. Stores plentiful, properly arranged and well taken care of.

November 21st, 1896.—Inspected the Wadhwán Civil Station Dispensary in charge of First Class Assistant Surgeon Thakordas Kikabhai Dalal, who is thoroughly efficient professionally and well conducted. The *post-mortem* and other records very well and neatly kept and up to date. Instruments clean and in very good order, and stores sufficient, carefully kept and properly arranged.

November 23rd, 1896.—Inspected Kharaghoda Dispensary and found the records well kept and up to date. There is no mortuary. The accommodation for in-door patients is bad, but few are treated. The instruments and stores clean and in good order. The Medical Officer in charge—Second Class Assistant Surgeon Dorabshaw Edalji Kothawala—is professionally efficient and, I believe, well conducted. A dead-house is required and additional accommodation for the Assistant Surgeon. The floor of the store-room should be paved with stone, if it continues to be used as a store.

November 24th, 1896.—Inspected the Viramgám Grant-in-aid Dispensary. The *post-mortem* and other records carefully kept and up to date. The surgical instruments and stores in good order, but some of the medicines are liable to destruction, owing to the bad state of the roof and absence of ceiling. No examination room, no shelter for out-door patients, but a verandah; otherwise the building answers fairly well. The First Class Hospital Assistant, Mr. Hari Krishna Rayakar, No. 120, is thoroughly efficient and well conducted, very good work being done by him in this dispensary. At the time of my visit there were four severe cases of sword wound under treatment, in one of which amputation had to be performed.

The Viramgám Branch (Municipal) Dispensary was then inspected. As a place for the treatment of out-door patients it is well situated in the middle of the town, but the premises are unsuitable and defective in every way. Instruments in good order and the stores carefully kept and properly arranged, but the store-room is far from safe and is badly fitted with shelves only. Third Class Hospital Assistant Chunilal Nagardas, No. 315, is professionally efficient and popular.

November 25th, 1896.—Inspected the Bai Manekbai Byramji Jijibhoy Dispensary at Mehmadabad and found the records properly kept and written up to date; instruments carefully kept, and medicines, &c., properly arranged and in good order. A dead-house is required and a new fence for the compound. Some dilapidated out-houses should be removed. The dispensary is satisfactorily conducted.

November 26th, 1896.—Inspected the Kaira Civil Hospital and found everything in very good order, except that there is no waiting room for out-door patients, but the verandahs are extensive, and that the hedge requires repair. Assistant Surgeon M. M. Mody, the acting Civil Surgeon, is professionally efficient and well conducted.

November 27th, 1896.—Travelled to Nadiád and inspected the Municipal Dispensary. The *post-mortem* and other records were carefully kept and written up to date; surgical instruments clean, in good order and carefully kept; and the stores very neatly and orderly kept and arranged. The wards for in-door patients are rather small for requirements, no waiting room, but the verandah available for out-patients; site very contracted and surrounded by buildings, no room for extension, but there is land available in contiguity which would give ample room for servants' quarters. The dead-house needs alterations and repairs. First Class Hospital Assistant Balaji Mucund, No. 109, seems thoroughly up to his work and smart and business-like in his manner, and bears a very good reputation.

I would suggest a railing in the verandah on each side to prevent the patients wandering all over it and disturbing the sick in the wards, and if the lower parts of the archways at the out-patient end were stopped by a low wall, a sort of shelter would be provided for the out-patients in bad weather without any extension of space being required.

November 28th, 1896.—Inspected the A'nand Dispensary and found it in very good order in every respect. The dead-house requires screening; and the arrangements for disposal of the sullage water are defective. The supply of bed tapes and clothing for patients is mostly worn out and requires renewal. A lantern is also required for the compounding room. I believe Second Class Hospital Assistant Mahabir Prasad, No. 202, is thoroughly efficient and well conducted.

November 30th, 1896.—Travelled to Dohad and inspected the dispensary there. The premises were clean and in good order; all the medical books and records properly kept and up to date; stores plentiful, well arranged and carefully kept; instruments well kept and in good order. The present building is unsuited for a dispensary and is too far away from the town to be of much use to the inhabitants. There are buildings available which might be altered to suit the purpose; and the present dead-house and infectious disease shed should be retained. I think Assistant Surgeon Phirozshah Rustomji Modi is quite competent professionally and well conducted.

December 1st, 1896.—Inspected the Godhra Civil Hospital in charge of Surgeon-Major J. P. Barry, and found the buildings in good order. The *post-mortem* records not kept in proper form; the other records were up to date and properly kept; surgical instruments in

good order; stores carefully kept and arranged. Roof ventilation, bathing places and accommodation for out-door patients are much needed.

December 4th, 1896.—Inspected the Broach Hospital and found the buildings in good order; medical, *post-mortem* and other records properly kept and up to date; surgical instruments in good order and cleanly kept, and the stores plentiful, properly arranged and carefully taken care of. Rooms are still required for two servants and quarters for a second Civil Medical pupil.

December 6th, 1896.—Travelled to Rándar and inspected the dispensary there. All the records were properly kept and written up to date; surgical instruments in good order, clean and well kept; stores not properly arranged alphabetically but otherwise properly kept and preserved and ample. The dispensary building was in good order as far as the Hospital Assistant could make it. It fulfils the requirements only as a place for distribution of medicines and badly as that. There is no shelter for out-patients except the dispensary itself.

December 7th, 1896.—Inspected the Sir Cowasji Jehangir Civil Hospital, Surat, and found it in good order in every respect. The medical, *post-mortem* and other records were all carefully and correctly kept, and written up to date; surgical instruments well kept and in good order; stores plentiful, in good order, properly arranged and carefully kept.

The Cursetji Fardunji Párekh Dispensary was next visited, and I found it neat and clean throughout; the records properly kept and up to date; surgical instruments in good order, and stores properly arranged and carefully kept. I would recommend the present dispensing room to be used as a female ward, the present office to be used as a consulting and examination room, and the present receiving room to be converted into a dispensing room. I would also recommend that a Committee should consider the re-arrangement of the rooms. 1st Class Assistant Surgeon Manilal Gangadhar Desai is perfectly efficient and well conducted.

December 8th, 1896.—Travelled to Dumas and inspected the Native State Dispensary there. I found it neat and clean throughout; the records correctly kept and up to date; instruments well cared for and in good order; stores ample in quantity, properly arranged and carefully kept. 1st Class Hospital Assistant Byramji Jiwaji is efficient and well conducted.

I next visited the Morarbhai Vijbhukhandas Dispensary for Women and Children at Surat and found the new dispensary building in excellent order; all the books correctly kept up to date; instruments quite new, but in many cases unsuited to the requirements; stores carefully kept and in good order but not arranged alphabetically. Miss Rukhmabai, L.R.C.P. (Edinburgh), in charge of this institution, is perfectly efficient.

December 9th, 1896.—Inspected the Victoria Dispensary at Navsári and found it in good order. It has a very good room upstairs for an operation room. All the records were properly kept and up to date; instruments clean and well kept, and supply of stores ample, carefully kept and properly arranged. 2nd Class Assistant Surgeon D. H. Motivala is well qualified and, so far as I know, well conducted.

December 10th, 1896.—Travelled to Bulsár and inspected the Manekji Petit Dispensary there. I found it scrupulously clean and in excellent order. 1st Class Assistant Surgeon Pallonji Hormasji Dadachanji is thoroughly efficient and zealous professionally and well conducted. The *post-mortem* room is unsatisfactory. It is badly lighted if closed, and exposed to public view if opened.

December 16th, 1896.—Inspected the David Sassoon General Hospital and found it in good order; the records correctly kept and up to date; surgical instruments well cared for, and stores carefully kept and well arranged.

December 18th, 1896.—Inspected the Poona Lunatic Asylum and found it in excellent order in every respect.

January 10th, 1897.—Travelled to Bándra and inspected the Sir Cowasji Jehángir Dispensary there. The medical, *post-mortem* and other records were carefully kept and written up to date, stores ample and well arranged, and instruments clean. There is no accommodation for the treatment of in-patients. There should be one or more cupboards provided for the storage of medical and other stores. I think 1st Class Assistant Surgeon J. F. Gonsalves a very efficient and well qualified man, and, so far as I am aware, his conduct is excellent.

January 12th, 1897.—Inspected the Thána Civil Hospital and found it in excellent order in every respect. The medical, *post-mortem* and other records were very carefully and neatly kept and all up to date; surgical instruments in good order; stores in excellent order, properly arranged and carefully kept. A new building would be desirable, as the present one is old, dark, low, and in many respects unfitted for a hospital.

I next visited the Thána Prison Hospital and found it in very good order in every respect. The convict attendants are frequently changed, and it would be an advantage if this were not done so frequently. In the jail generally I found everything clean and in good order, the

prisoners were suitably clad and personally clean. It was rather overcrowded and with about 8 per cent. sick in hospital principally from malarial fevers.

The Cursetji Rustomji Wàdia Dispensary at Thána was inspected the same day. It was in very good order; the books were properly kept and correctly written up to date; surgical instruments well cared for, and stores in good order and carefully kept and properly arranged. 1st Class Assistant Surgeon Framroz Ardesar Moos is thoroughly efficient and reliable as to both professional qualifications and conduct.

January 16th, 1897.—Travelled to Poona and inspected the Yerrowda Central Prison Hospital. I found everything in good order; books all correctly kept and up to date; instruments kept in very good order, and the supply of stores, though short, was carefully kept and arranged, but not alphabetically.

January 20th, 1897.—Inspected the Lord Harris Hospital, Násik, and found it in very good order. The *post-mortem* and other books were properly kept and up to date, and surgical instruments and stores were carefully kept and in good condition. An operating room and more servants' quarters would be desirable when funds are available.

January 28th, 1897.—Inspected the Lord Ripon Hospital at Ahmednagar and found it in excellent order in every respect. I would recommend the provision of half-doors and shelves for the dispensary and out-patients' rooms so as to prevent overcrowding and facilitate the issue of medicines.

January 31st, 1897.—Travelled to Dhulia and inspected the Dhulia Civil Hospital. I found it in very good order; medical, *post-mortem* and other records correctly and neatly kept and up to date; surgical instruments in excellent order; stores carefully taken care of and ample.

The Jail Hospital was then visited and was found in excellent order in every respect.

14. The late Surgeon-Major-General Cook did not continue his inspection tour after this date, because he was requested by his Excellency the Governor to remain at head-quarters. I cannot speak from personal knowledge, but from a perusal of this report, Surgeon-Major-General Cook's inspection remarks, and the reports of the Principal Medical Officers in Sind and of Bombay and Aden Districts, I think that the work in the Civil Hospitals and Dispensaries has been, during the year under report, up to the high standard of excellence reached in former years. I attach a list of Medical Officers who have performed 50 and upwards important surgical operations, of the kind detailed in the Government of India's letter No. 27—Medical—971, dated 30th October 1896, Home Department, Medical, quoted in the preamble of Government Resolution No. 5267, dated 1st December 1896, General Department:—

Surgeon-Major R. J. Baker, M.A., M.D.	406
„ „ C. G. W. Lowdell	93
„ „ W. A. Corkery...	75
„ Lieutenant-Colonel W. G. H. Henderson, F.R.C.S.I. ...	74
„ „ „ J. McCloghry, F.R.C.S.I.	72
„ Captain A. J. Heath, M.B.	64
„ Major J. C. H. Peacocke	60
Assistant Surgeon Thomas H. Aquino, F. C. S.	59
„ „ D. E. Anklesaria	57
„ „ Mulchand Gangaram Tadani	50
„ „ T. C. Khandvala	50

15. I think the following officers deserving of the special notice of Government for good medical work in important institutions:—Brigade-Surgeon-Lieutenant-Colonels W. McConaghy and Bartholomeusz, Surgeons-Lieutenant-Colonel Greany, McCloghry, Henderson and Surgeon-Major Baker. The following officers deserve praise for good surgical works:—Surgeons-Major Baker, Lowdell and Corkery, Surgeons Lieutenant-Colonel Henderson and McCloghry and the four Assistant Surgeons mentioned in the above list.

I have the honour to be,
Sir,
Your most obedient Servant,

G. W. R. HAY, Surgeon-Colonel,

In charge Office of the Surgeon-General
with the Government of Bombay.

APPENDIX I.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.
